CASE IDENTIFIERS

Serial Number 79128618 **Application Filing Date** Mar. 08, 2013 **Register** Principal **Mark Type** Trademark **Publication Date** Nov. 25, 2014

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of an octagonal label with a gold border, with white lining, inside the gold and then with another layer of gold following. The background of the interior of the octagonal label is navy blue, containing a red, circular carrier at the top, which is outlined in gold and which contains the wording "LINIE AQUAVIT" at the top in white. On the interior of the red, circular carrier is a brown sailboat, with brown masts and white sails, on top a blue ocean with white crescent waves below a light blue sky containing disparate white clouds. Off the front right of the sailboat is a flag, which is red. Overlaying the bottom of the red border is a white banner, with golden outlines, that contains the signature "Jorgen Lysholm" in golden cursive. In the bottom front of the banner is the caricature of a man, sitting atop a golden barrel, with two brown barrels, one under each arm. The man has cream colored skin, a gold hat, white shirt, light blue coat, yellow pants and black boots. The man sits atop two light blue rectangles, with golden outline, the first of which contains the word "LYSHOLM" in black, the second of which contains the word "FABRIK MARKKE" in black. Below the light blue rectangles is a larger, black rectangle, with golden border, that contains the word "LINIE" in white. At the bottom of this carrier, is a red rectangle carrier, outlined in gold that contains the word "AQUAVIT" in white. Behind all of these rectangles are a series of golden coins with black lining. On the left of the coins, protruding above the top coins are a series of branches containing leaves and flowers. On the right of the coins, protruding above the top coins are a series of stalks of grass and grain. Numbers and lettering appear in gold at the bottom right and left of the blue inner portion of the octagonal label stating "4.5% alc/vol and 750 ml." At the bottom of the octagonal label, in the white portion of the outlining, appears the wording "Distilled and Bottled in Norway" in red. **Color Drawing** Yes **Color Claimed** The color(s) gold, white, navy blue, red, brown, blue, light blue, cream, black, yellow is/are claimed as a feature of the mark. **Disclaimer** "AQUAVIT" AND "FABRIK MARKKE" AND "4.5% ALC/VOL" AND "750ML" AND "DISTILLED AND BOTTLED IN NORWAY" **Translation** The English translation of "FABRIK MARKKE" and "LINIE" in the mark is" trademark" and "equator", respectively. **Name Portrait Consent**

The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.

For Machines for processing metal, wood or plastics, for automobile manufacture, the chemical industry, the glass and ceramics industries, agriculture, mining and for the beverages industry; packaging machines and machine tools therefor; engines not for land vehicles; machine couplings and power transmission components, except for land vehicles; automatic vending machines; separating machines; drive engines not for land vehicles; aerators; automotive parts, namely, engine seals; compressed air pumps; pressure reducing valves being parts of machines; pressure regulators being parts of machines; pressure valves being parts of machines; inserts for power-operated filtering machines for chemical processing; electromechanical machines for the chemical industry, namely, micro wave pressure digestion machines; electric motors, not for land vehicles; dust removal installations for cleaning purposes; oil, gas, and water treatment filters being parts of machines or engines; oil, gas, and water filters for engines; filtering machines for chemical processing; machine parts, namely, guides; industrial manipulators for forging presses and for forging machines; plastics components for separating gases and liquids as parts of housings for electronic components in vehicles and machines, pick-and-place machine tools and stationary engines, all sold as an integral component and replacement parts therefor; plastics processing machines; gas-liquid separators, comprised of membranes and components equipped with membranes for separating water, dirt, oil, dust, gas in industry; machines, namely, mixers for industrial and commercial applications; presses machines for commercial purposes, namely, for chemical processing; filter presses for chemical processing; pumps as part of machines and engines; pumps for machines; pump diaphragms; regulators being parts of machines; machines, namely, industrial robots; machines, namely, agitators for chemical processing; sifting systems, namely, separating machines for chemical processing; sieves as machines for industrial use; sieves as parts of machines for industrial use; sifting machines for industrial use; environmental protection equipment for engines, namely, pressure equalization units being pressure regulators as parts of machines; vacuum pumps being machines; valves being parts of machines; water separators, namely, oil-water separators for pneumatic controls being part of machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Sewage purification systems, namely, sewage purification installations; ventilation hoods; chromatography apparatus for industrial purposes; dish disinfectant apparatus for industrial purposes; filters as parts of household or commercial systems, namely, air filters for domestic use and industrial installations; gas purification equipment, namely, gas purification machines; gas scrubbers as parts of gas systems; plastics components for separating gases and liquids as parts of domestic and sanitary equipment, namely, as integral parts of lighting, heating, steam generating, cooking, refrigerating, drying, ventilation and water supply apparatus and sanitary equipment and systems, namely, pressure equalization units; air filters for air conditioning units; air filtering systems, namely, air filtering installations; air purifying apparatus and machines; membrane filter cartridges for the separation of biomolecules in biopharmaceutical production; regulating accessories for water or gas apparatus and for water or gas pipes; feed devices for heating boilers; sterilizing equipment, namely, sterilizers not for medical purposes; drinking water filters; water purification apparatus and machines; water softening equipment and systems, namely, water softening apparatus and installations; water filters; water filtering equipment, namely, water filtering apparatus; water conduit systems, comprised of filter modules, module racks, compressor pumps; water-purifying systems, namely, water-purifying apparatus; water-purifying equipment and machines, namely, industrial and tap water purifying apparatus; water sterilizing apparatus, namely, water sterilizers

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Advertising services; business management; business administration assistance; providing office functions; business services, namely, updating and maintenance of data in computer databases; cost price analysis, namely, drawing up of cost price analysis; computerized file management; business strategic planning services; providing business management assistance to commercial or industrial firms in the conduct of their business; business organization consultancy; business project management in the field of data processing; systemization of data in computer databases; compilation of data in computer databases

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation, maintenance and repair of computer hardware; building construction information; building construction consultancy; building construction supervision; building construction project management services, namely, building project development; installation and repair of irrigation systems; installation and repair of electrical appliances; installation and maintenance of hardware for network systems

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Scientific apparatus and instruments, namely, laboratory equipment in the nature of microwave digestion technology systems, pressure reactors, acid purification apparatus, water detection apparatus; nautical apparatus and instruments, namely, boiler controllers, PLC controllers, electronic control systems for engines; surveying apparatus and instruments, namely, diagnostic and calibration apparatus, namely, seat function test stands, seat testing and calibration machine with force control, door panel test stands, roof module test stands, control panel test stands, control unit test stands, power closing system test stands, ptc resistor test stands, electronic steering locking test stands, alternator regulator test stands, power saws chain braking time, kickback torque and vibration test stands, electronic heat and water meter test stands, fans and ventilator test stands measuring electronic and pneumatic values, and test stands for locking devices for windows; optical apparatus and instruments, namely, camera detection systems for quality control, namely, RGB LED test and calibrator stands, and camera detector of water penetration; weighing apparatus and instruments; measuring apparatus and instruments, namely, mechanical sensors, optical sensors, digitizers; monitoring apparatus and instruments, namely, display controllers, industrial personal computers, ethernet terminals; etching apparatus and instruments, namely, tanks, vessels, carrier, bubbling-systems used as an etching aid for the chemical process in the semiconductor industry; apparatus and instruments for conducting, switching, transforming, storing, regulating or controlling electricity, namely, electrical conductors, electric switches, electric transformers; equipment for recording, transmission or reproduction of sound or images, namely, apparatus for recording, transmission or reproduction of sound and images; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing computer hardware, computers; computer system-design and development environment software; scales; displays, namely, flat panel display screens, electronic display interfaces; measuring, counting, recording, monitoring, testing, electronic and electrical regulation and control apparatus, namely, mechanical and optical sensors, clamp meters for measuring electricity, diagnostic apparatus for testing automotive interiors, batteries; analysis equipment, not for medical purposes, namely, airflow measurement analysis apparatus, analysis

instruments for water detection; electronic analysis equipment for determining water content with and without computer-aided control; connectors for electrical leads; apparatus and instruments for scientific research in laboratories, namely, microwave digestion systems, high-pressure reactors, microwave reactors, acid purification apparatus; automatic elution apparatus for scientific and laboratory purposes; facsimile transmission apparatus; chemistry apparatus and instruments, namely, microwave digestion systems, high-pressure reactors, microwave reactors, acid purification apparatus; chromatography apparatus for laboratory purposes; computers; computer operating programs stored; computer peripherals; computer programs for data acquisition, instrument control, and industrial automation; computer software for data acquisition, instrument control, and industrial automation; computer keyboards; data-processing equipment, namely, couplers; motion detectors; pressure measuring equipment, namely, pressure measuring apparatus; pressure recorders; electrical systems for remote control of industrial processes, namely, electronic apparatus for the remote control of industrial operations; electrical connectors; electrical resistance heating wires; electrical and electronic monitoring and control apparatus, namely, test stands for railway inspections, control terminals for material flow and logistic management; electronic display panels, namely, plasma display panels; electronic pens for video display units; receiving apparatus for sounds and images, namely, receivers for receiving cable television; fluoroplastics laboratory apparatus, namely, acid purification apparatus; gas analysis equipment, namely, residual gas analyzers; printed circuit boards; printed circuits; computer hardware for data processing; integrated circuits; interfaces, namely, computer interface devices and programs for use in database management, process visualization, data acquisition, instrument control, and industrial automation; boiler control devices, namely, boiler control instruments; plastics components for separating gases and liquids as parts of physical and electrotechnical apparatus, namely, pressure equalization units, gas sensor protection covers, all sold as an integral component and replacement parts therefor; laboratory pressure vessels; guide systems consisting of electrical and electronic control, monitoring and regulating apparatus for goods handling; air analysis equipment, namely, air analysis apparatus; solenoid valves being electromagnetic switches; solenoid valves; materials testing instruments and machines, namely, electronic apparatus for testing compression, stringy hardness and tensile characteristics of industrial materials; membranes for scientific apparatus, namely, cellular mixed ester membranes and porous polytetrafluorethylene membranes for use in the scientific and research industry; microprocessors; microwave devices, namely, microwave ovens, for laboratory purposes with and without computer control; monitors being computer hardware; computer programs, namely, computer software to monitor factory manufacturing processes; roll test stands consisting of test apparatus for vehicle maintenance; relays electrical; switchboards; electrical switches; switching devices, namely, electrical switches; transmitters of electronic signals; electrodynamic apparatus for signal remote control; signal boards, luminous or mechanical; probes for scientific purposes, namely, probes for testing semiconductors, probes for testing integrated circuits; temperature indicators; electronic temperature regulators, namely, temperature controllers for autoclave heaters in pressure reactors; pressure indicator plugs for valves; junction sleeves for electric cables; water level indicators; laboratory apparatus for scientific and technical purposes, namely, microwave digestions systems, pressure reactors, acid purification apparatus, water detection apparatus; central processing units for data processing; control devices for machines or engines, namely, electronic controls for gasoline engines for land vehicles; temperature regulators, namely, temperature controllers for autoclave heaters in pressure reactors; electrical heating blocks, namely, electric space heaters

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Waste water treatment services, especially waste water purification; waste water filtration services; water purification; water treatment services; water filtration services; processing of fuel materials to order of others

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Semi-finished goods made of plastics, namely, semi-finished plastic film for use in medical and hygienic products; sealing, packing and insulating materials; flexible pipes, not of metal; non-metal seals for use in liquid pumps, housings for electronic components, gearboxes; non-metal sealing rings for use as connection seals; sealing strips for use as connection seals; filter material plastics or foam semi-finished products, namely, semi-processed plastics and foams in the nature of filtering materials in the water purification industry, beverage industry; synthetic resins and artificial resins being semi-finished products; plastics, semi-processed; plastics films other than for packaging purposes, namely, pressure equalization membranes, separator films for hydrogen cells; valves of rubber or vulcanized fiber; semi-finished plastic moldings for scientific apparatus and instruments; non-metal waterproof seals for use in electrical devices like lamps, electric toothbrushes, electric razors, mobile phones; cylinder seals, namely, cylinder joinings

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Plastics components for separating gases and liquids as parts of hand-operated tools and hand-operated implements, especially razors

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Scientific and technological services, namely, research and design in the fields of polymer chemistry, filtration technology, environmental engineering, computer, digestion technology, biotechnology and pharmatechnology; industrial analysis and research services in the fields of polymer chemistry, filtration technology, environmental engineering, computer, digestion technology, biotechnology and pharmatechnology; design and development of computer hardware and software; updating of computer software; consultancy in the field of computer hardware design and development; provision of search engines for the Internet; provision of scientific information and advice with regard to carbon offsetting; biological research; consultancy in the field of computer software; computer systems analysis; computer software design; computer system design services; chemist services; physicist services, namely, physics research; chemical laboratory services, namely, chemical laboratories and laboratory analysis in the field of chemistry; engineering services; chemical analysis; calibration; new product research and development services for third parties; setting up of programs for data processing, namely, installing computer programs for data processing; technical research, namely, preparation of technical reports in the fields of polymer chemistry, filtration technology, environmental engineering, computer, digestion technology, biotechnology and pharmatechnology; remote monitoring of computer systems to ensure proper functioning; research in the field of environmental protection; bacteriological research; chemical research; research in the fields of polymer chemistry, filtration technology, environmental engineering, computer, digestion technology, biotechnology and pharmatechnology; research in the field of mechanical engineering; industrial analysis and research services in the fields of polymer chemistry, filtration technology, environmental engineering, computer, digestion technology, biotechnology and

pharmatechnology; installation of computer programs; measurement evaluations, namely, data mining; research and development for others in the fields of polymer chemistry, filtration technology, environmental engineering, computer, digestion technology, biotechnology and pharmatechnology; physical research, namely, research in the fields of polymer chemistry, filtration technology, environmental engineering, computer, digestion technology, biotechnology and pharmatechnology; providing scientific research in the fields of polymer chemistry, filtration technology, environmental engineering, computer, digestion technology, biotechnology and pharmatechnology by performing searches in databases and on the Internet; engineering services, particularly technical project planning of lines for the processing of web products; environmental protection research; environmental compatibility testing; computer software rental; computer software maintenance; water analysis; materials testing; scientific laboratory services; civil engineering

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Furnaces, immersion heaters; heat exchangers; heating apparatus, namely, heating elements and heating installations; parts and fittings of the afore-mentioned goods

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Chemical preparations for industrial and scientific purposes; natural graphite for industrial purposes; natural graphite components for use in industry; carbonates; magnesium-silicates; calcium, calcium-silicates; chemical preparations for production of technical ceramic; ceramic compositions for sintering granules and powders; chemical preparations for hardening and soldering of metals

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Material treatment services in connection with graphite processing for industrial purposes, processing of carbonates, magnesium silicates and sintering cermets; providing material treatment information; providing metal heat treatment services; providing surface treatment services, namely, metal surface treatment and plastic surface treatment; pottery firing; soldering; treatment of coal-fiber composite material

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a design of a triangle composed of smaller triangles. There is a small white triangle in the center with long rectangles coming off each side and vary in color, started with black on the top triangle, then going clockwise, brown and dark blue. A bright pink triangle is formed in the area between the black and dark blue triangles, a bright red triangle is formed in the area between the black and dark brown triangle, and a bright turquoise triangle is formed in the area between the dark brown and dark blue triangle. The remaining white represents background area only and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) black, white, brown, dark blue, bright turquoise, bright red, bright pink is/are claimed as a feature of the mark. **Color Location** Colored triangles - black, white, brown, dark blue, bright turquoise, bright red, bright pink.

For Aquaria structures; alabaster; window frames, not of metal; asbestos cement; asphalt; asphalt, pitch and bitumen; beams, not of metal; balustrading; modular, non-metal huts; swimming pools structures, not of metal; silos, not of metal; arbours structures not of metal; concrete; bitumen; joists, not of metal; telephone booths, not of metal; beacons, not of metal, non-luminous; building paper board; busts of stone, concrete or marble; bird baths structures, not of metal; binding material for road repaing namely, tar and pitch; stained-glass windows; asphalt felt for building; aviaries, not of metal structures; gates, not of metal; diving boards, not of metal; geotextiles, namely, fabric and sheeting for nurseries, greenhouses, landscaping; gypsum; plaster; clay, namely, flooring, roofing tiles; potters' clay; potters' clay raw material; earth for bricks, namely, clay; gravel; aquarium gravel; granite; doors, not of metal; folding doors, not of metal; coal tar; chimney pots, not of metal; prefabricated houses kits, not of metal; parquet floor boards; memorial plaques, not of metal made stone, concrete or marble; non-metal roofing shingles; wood for making household utensils; veneer wood; moldable wood; chimney shafts, not of metal; jalousies, not of metal; roof gutters, not of metal; street gutters, not of metal; agglomerated bagasses of cane building material; signs, non-luminous and non-mechanical, not of metal, for roads; non-luminous and non-mechanical signs, not of metal; calcareous stone; lime building materials; fences, not of metal; works of art of stone, concrete or marble; cabanas, not of metal; stone; rubble; artificial stone; building stone; paint spraying booths, not of metal; gravestones; greenhouse frames, not of metal; framework, not of metal, for building; cornices, not of metal; asphalted cardboard for building; wood pulp board, for building; building cardboard; skating rinks structures, not of metal; quartz; caissons for construction work under water; bricks; water-pipe valves, not of metal or plastic; drain traps valves, not of metal or plastic; wood for building casks; mooring bollards, not of metal; cement posts; chimney cowls, not of metal; prefabricated buildings, not of metal; buildings, transportable, not of metal; door frames, not of metal; stringers being parts of staircases, not of metal; silica quartz; roofing, not of metal; manhole covers, not of metal; Non-metal construction materials, namely, xylolith; prefabricated chicken- houses, not of metal; building timber; manufactured timber; Rough sawn timber; wood, semi-worked; staircases, not of metal; road marking sheets and strips of synthetic material; reinforcing materials, not of metal, for building; bituminous products for building, namely, roof coatings; coal tar; road coating materials, namely, tar-based asphalt sealants; tar-based materials for making and coating roads; fireclay; pitch; building materials, not of metal; refractory construction materials, not of metal; masts poles, not of metal; raw chalk; calcareous marl, namely, limestone; glass mosaics for building; marble; slate powder; porches, not of metal, for building; tomb slabs,

not of metal; flashing, not of metal, for building; roof flashing, not of metal; duckboards, not of metal; non-metallic rigid pipes for building; monuments, not of metal; non-metallic transportable buildings; wall claddings, not of metal, for building; moldings, not of metal, for cornices; moldings, not of metal, for building; coatings for use as building materials, namely, asphalt roof coatings, fireproof cement coatings; grave or tomb enclosures, not of metal; laths, not of metal; wood panelling; wall linings, not of metal, for building; palings, not of metal; crash barriers, not of metal, for roads; latticework, not of metal; windows, not of metal; olivine for building; shuttering, not of metal, for concrete; poles, not of metal, for electric power lines; branching pipes, not of metal; prefabricated fair huts not of metal; tombs monuments, not of metal; wainscotting, not of metal; signalling panels, non-luminous and non-mechanical, not of metal; building panels, not of metal; parquet flooring; partitions, not of metal for buildings; lintels, not of metal; casement windows, not of metal; aquarium sand; silver sand; sand, except foundry sand; sandstone for building; tarred strips, for building; planks of wood for building; rocket launching platforms, not of metal; platforms, prefabricated, not of metal; tile floorings, not of metal; tiles, not of metal, for building; paving slabs, not of metal; cement slabs; tombstone stelae, not of metal; scaffolding, not of metal; asphalt paving compositions; wood paving; paving blocks, not of metal; luminous paving blocks not of metal; macadam; fireproof cement coatings; bituminous coatings for roofing; roof coverings, not of metal; roofing, not of metal, incorporating solar cells; wooden floor boards; cladding, not of metal, for building; mantlepieces; door panels, not of metal; floors, not of metal; window sills, not of metal; porphyry stone; ceiling panels, not of metal; floating docks, not of metal, for mooring boats; cork compressed into tiles being building materials; mortar for building; asbestos mortar; storage tanks of masonry; scantlings of timber for carpentry; furrings of wood; vinyl siding; pilings, not of metal; pre-fabricated pigsties, not of metal; insect screens, not of metal; vaults, not of metal burial; blinds outdoor, not of metal and not of textile; shutters, not of metal; statues of stone, concrete or marble; statuettes of stone, concrete or marble; alabaster glass; safety glass for building purposes; glass granules for road marking; insulating glass building; window glass, for building; window glass, except glass for vehicle windows; building glass; plate glass windows, for building; Pre-fabricated stables, not of metal; advertisement columns, not of metal; posts, not of metal; telegraph posts, not of metal; non-metal hips for roofing; stair-treads steps, not of metal; tombstone plaques, not of metal; greenhouses, transportable, not of metal for household use; terra cotta; penstock pipes, not of metal; water-pipes, not of metal; gutter pipes, not of metal; ducts, not of metal, for ventilating and air-conditioning installations; drain pipes, not of metal; chimneys, not of metal; rigid pipes, not of metal for building; sandstone tubes; turnstiles, not of metal; tufa; angle irons, not of metal; lengthening pieces, not of metal, for chimneys; bicycle parking installations, not of metal; plywood; foundry molds moulds, not of metal; cement for blast furnaces; cement for furnaces; magnesia cement; cement; non-metal pantiles; slate; roofing slates; slag stone being building material; clinker stone; railroad ties, not of metal; wood veneers; clinker ballast being clay; concrete building elements; letter boxes of masonry

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Agar-agar; nitrogen; actinium; alkalies; alginates for the food industry; alginates for industrial purposes; crotonic aldehyde; ammonium aldehyde; aldehydes; americium; amyl acetate; ammonia water; ammonia volatile alkali for industrial purposes; anhydrous ammonia; acetic anhydride; anhydrides; anti-knock substances for internal combustion engines; antistatic preparations, other than for household purposes; antifreeze; dressing and finishing preparations for

textiles, namely, chemicals used in the manufacture of textiles; argon; lead arsenate; astatine; aluminium acetate; lime acetate; lead acetate; acetates chemicals; acetylene; acetone; oenological bactericides chemical preparations used in wine making; balm of gurjun, namely, gurjon, gurjan for making varnish; barium; barytes; albumin animal or vegetable, raw material not for culinary purposes; animal albumen raw material not for culinary purposes; iodised albumen not for culinary purposes; malt albumen not for culinary purposes; bentonite; berkelium; bicarbonate of soda for chemical purposes; potassium dioxalate; bichromate of potassium; bichromate of soda; bauxite; bromine for chemical purposes; albuminized paper, namely, photosensitive paper; baryta paper; diazo paper; blueprint paper; test paper, chemical; litmus paper; reagent paper, other than for medical or veterinary purposes; self-toning paper photography; nitrate paper; sensitized paper; photometric paper; Boric in the form of acid, esters, and borates; agglutinants for concrete; chemical gas purifying preparations; preservatives for pharmaceutical preparations; chemical polish removing substances not for cosmetic use; chemical preparations for the separation of greases; chemical substances for preventing runs in stockings; water-softening preparations; limestone hardening substances being chemicals; tanning substances used in the manufacture of leather; adhesives for industrial purposes; artificial sweeteners being chemical preparations; fissionable material for nuclear energy; foundry binding substances, namely, foundry sand; concrete-aeration chemicals; leather- dressing chemicals; chemical preparations for the manufacture of paints; chemical substances for preserving foodstuffs; starch-liquifying chemicals being ungluing agents; flower preservatives; seed preserving substances; viscose; bismuth; bismuth nitrite for chemical purposes; witherite; distilled water; sea water for industrial purposes; acidulated water for recharging accumulators; heavy water; hydrogen; seaweeds for use as fertilizers; gadolinium; getters being chemically active substances; protective gases for welding; gas propellents for aerosols; basic gallate of bismuth; gallium; gambier used in the tanning of leather; helium; electrophoresis gels, other than for medical or veterinary purposes; genes of seeds for agricultural production, namely, Biotechnologically-formed genes for use in the manufacture of agricultural seeds; aluminium hydrate; carbonic hydrates; hyposulphites; ceramic glazings in the nature of a dry chemical preparation for use in the manufacture of ceramics; glycol; expanded-clay for hydroponic plant growing substrate; china slip; alumina; glycerides for industrial purposes; glycerine for industrial purposes; glucose for the food industry; glucose for industrial purposes; glucosides for industrial purposes; gluten for the food industry; gluten for industrial purposes; holmium; hormones for hastening the ripening of fruit; peat pots for horticulture being chemical preparations; guano; humus; dextrine size; detergents for use in manufacturing processes; defoliants; hydrazine; diastase for industrial purposes; kieselgur; manganese dioxide; titanium dioxide for industrial purposes; zirconium chloride; oil dispersants; petroleum dispersants; dispersions of plastics for use in the manufacture of a wide variety of goods; dysprosium; bichloride of tin; cedetergent additives to petrol gasoline; ceramic compositions for sintering granules and powders used in manufacturing; additives, chemical, to drilling muds; additives, chemical, to insecticides; chemical additives for oils; additives, chemical, to motor fuel; additives, chemical, to fungicides; dolomite for industrial purposes; tannic acid; europium; gelatine for photographic purposes; gelatine for industrial purposes; fluids for hydraulic circuits; chemical liquids for removing sulphates from accumulators; power steering fluid; brake fluid; magnetic fluid for industrial purposes; transmission fluid; chemical tree cavity fillers for forestry; glaziers' putty; chemical moderating materials for nuclear reactors; rare earths; Alkaline-earth metals; diatomaceous earth; fuller's earth for use in the manufacture of textiles; lime chloride; isotopes for industrial purposes; ion exchangers being chemical preparations; ytterbium; yttrium; iodine for industrial purposes; iodine for chemical purposes; aluminium iodide; alkaline iodides for industrial purposes; casein for the food industry; casein for industrial purposes; kainite; potassium; sorrel salt; californium;

gum arabic for industrial purposes; cream of tartar other than for pharmaceutical purposes, namely, for the food industry or for industrial purposes; camphor, for industrial purposes; calcium carbide; carbide; lime carbonate; magnesium carbonate; carbonates; contact cement for use in metallurgy; cassiopium lutetium; catalysts for use in the manufacture of industrial chemicals; biochemical catalysts; catechu for use in the food industry; alum; ammonia alum; aluminium alum; chrome alum; quebracho for industrial purposes; ketones; cinematographic film, sensitized but not exposed; oxygen; nitric acid; antranilic acid; benzoic acid; boric acid for industrial purposes; tartaric acid; tungstic acid; gallic acid for the manufacture of ink; gallotannic acid; tannic acid; iodic acid; phenol for industrial purposes; citric acid for industrial purposes; lactic acid; formic acid; persulphuric acid; oleic acid; picric acid; pyrogallic acid; salicylic acid not for cosmetic purposes; sebacic acid; sulphuric acid; sulphurous acid; hydrochloric acid; stearic acid; carbonic acid; spirits of vinegar dilute acetic acid; phosphoric acid; hydrofluoric acid; cholic acid; chromic acid; oxalic acid; mineral acids; arsenious acid; adhesives for billposting; leather industry glues; adhesives for wall tiles; adhesives for paperhanging; glue for industrial purposes; cement for mending broken articles; gums and adhesives, other than for stationery or household purposes for use in industry; birdlime; isinglass other than for stationery, household or alimentary purposes; gluten glue, other than for stationery or household purposes, namely, for industrial purposes; stem cells other than for medical or veterinary purposes; adhesives used in industry; flocculants; collodion; compost; beer preserving agents; mangrove bark for industrial purposes; Tanning agents for use in the manufacture of leather, namely, oils for tanning leather; starch for industrial purposes; starch paste adhesive, other than for stationery or household purposes, namely, for industrial purposes; silicon; creosote for chemical purposes; krypton; xenon; curium; lactose raw material for industrial purposes; lactose for the food industry; lactose for industrial purposes; lanthanum; dry ice being carbon dioxide; lecithin raw material for industrial use; lecithin for the food industry; lecithin for industrial purposes; lithium; magnesite; manganate; oils for tanning leather; oils for currying leather; oils for preparing leather in the course of manufacture; oils for the preservation of food; preservatives for the protection of plants; paper pulp; wood pulp for manufacturing purposes; grafting mastic for trees for industrial purposes; mastic for use in the manufacture of leather; rubber cement for repairing pneumatic tires; automobile body fillers; oil cement putty; synthetic chemical materials for absorbing oil; copper sulphate; metalloids being chemicals; alkaline-earth metals; alkaline metals; methane; methyl benzene; methyl benzol; flour for industrial purposes; tapioca flour for industrial purposes; potato flour for industrial purposes; soap metallic for industrial purposes; arsenic; bate for dressing skins, namely, tanning agents used in the manufacture of leather; emollients for industrial purposes; sodium; hypochlorite of soda; naphthalene; sal ammoniac; toxic gas neutralizers; unprocessed artificial resins, unprocessed plastics; neodymium; neon; neptunium; nitrate of uranium; combusting preparations chemical additives to motor fuel; nitric monoxide; baryta paper; uranium oxide; oxalates; lithia lithium oxide; lead oxide; antimony oxide; chromium oxide; cobalt oxide for industrial purposes; mercuric oxide; olivine chemical preparations; gallnuts for use in industry; wine finings being chemicals; textile- brightening chemicals used in the manufacture of textiles; beer-clarifying and preserving agents being chemicals; must-fining preparations being chemicals for the clarification of wine; reducing agents for use in photography; wax- bleaching chemicals; fat-bleaching chemicals; organic-bleaching chemicals; pectin for the food industry; pectin for industrial purposes; pectin for photography; perborate of soda; humus top dressing; percarbonates; dioxide of hydrogen; persulphates; perchlorates; foundry sand; plastisols; sensitized photographic dry plates for offset printing; ferrotype dry plates for photography; plasticizers; plastics unprocessed, in powder, liquid or paste form; x-ray films, sensitized but not

exposed; plutonium; polonium; potash; potash water; earth for growing being potting soil; praseodymium; rubber preservatives; masonry preservatives, except paints and oils; brickwork preservatives, except paints and oils; cement preservatives, except paints and oils; preservatives for tiles, except paints and oils; biological preparations for use in cell cultures, other than for medical or veterinary purposes; vulcanising preparations, namely, vulcanization accelerators; diagnostic preparations, other than for medical or veterinary purposes; chemical renovating preparations for phonograph records; currying preparations for use in the manufacture of leather; currying preparations for skins, namely, chemicals used in the manufacture of leather; tempering and soldering preparations; metal hardening preparations being chemicals; fixing baths photography; chemical opacifiers for glass; chemical opacifiers for enamel or glass; chemical opacifiers for enamel; separating and unsticking ungluing preparations being wallpaper removing preparations; metal annealing preparations being chemicals; preparations for preventing the tarnishing of lenses; preparations for preventing the tarnishing of glass; plant growth regulating preparations; wallpaper removing preparations; anti-boil preparations for engine coolants; chemical fulling preparations for use in textile industry; scale removing preparations, other than for household purposes; galvanizing preparations; chemical finishing preparations for use in the manufacture of steel; animal carbon preparations; cultures of microorganisms other than for medical and veterinary use; cryogenic preparations in solid, liquid or gas state for use in chilling and freezing; chemical degumming preparations; oil-bleaching chemicals; bleaching preparations decolorants for industrial purposes; meat tenderizers for industrial purposes; chemical preparations for stimulating cooking for industrial purposes; chemical anti-encrustants; preparations of trace elements for plants; moistening wetting preparations for use in the textile industry, namely, Chemicals used in the manufacture of fabric or textiles; moistening wetting preparations for use in dyeing, namely, Chemicals used in the manufacture of fabric or textiles; enzyme preparations for the food industry; enzyme preparations for industrial purposes; chemical filtering preparations for the beverages industry; vine disease preventing chemicals; chemical preparations to prevent mildew; chemical preparations for protection against wheat blight smut; chemical preparations for smoking meat; chemical substances for analyses in laboratories, other than for medical or veterinary purposes; chemical preparations for scientific purposes, other than for medical or veterinary use; chemical preparations for facilitating the alloying of metals; chemical preparations for decarbonising engines; chemical fuel-saving preparations being chemical additives; chemicals used for the preservation of coal; damp proofing preparations, except paints, for masonry, namely, masonry preservatives; anti-sprouting preparations for vegetables being preservatives; brazing preparations being chemicals; preparations of the distillation of wood alcohol being chemicals; by-products of the processing of cereals for industrial purposes; benzene derivatives, namely, benzene based acids; cellulose derivatives chemicals; promethium; protactinium; protein raw material for industrial use; etching mordants for metals; radium for scientific purposes; radon; Chemical preparations, namely, degreasing and cleaning solvents for varnishes; anti-frothing solutions for accumulators; drilling muds for use in oil well drilling; chemical solutions for cyanotyping; baths for galvanizing; silver salt solutions for silvering; toning baths for photography; chemical reagents, other than for medical or veterinary purposes; rhenium; mercury; rubidium; carbon black for industrial purposes; soot for industrial or agricultural purposes; lamp black being carbon for industrial purposes; samarium; saccharin; selenium; salpetre; sulphur; silver nitrate; carbon sulphide; aluminium silicate; silicones, namely, unprocessed silicone resins; scandium; foundry molding preparations, namely, Iron-oxide-based foundry sand additive used in the manufacture of metallic castings; acrylic resins, unprocessed; artificial resins, unprocessed; synthetic resins, unprocessed; epoxy resins, unprocessed; soda ash; calcined soda; caustic soda for industrial purposes; barium compounds; fluorspar compounds;

magnesium salts fertilisers; magnesium salts chemical preparations; ammoniacal salts; ammonium salts; salts of precious metals for industrial purposes; salts for galvanic batteries; salt for preserving, other than for foodstuffs; salts for coloring metal; salts for industrial purposes; iron salts; gold salts; iodised salts; calcium salts; sodium salts chemical preparations; salts from rare earth metals; mercury salts; toning salts for photography; chrome salts; chromic salts; salts of alkaline metals; rock salt for deicing; mold-release preparations; fire extinguishing compositions; chemical compositions for the manufacture of phonograph records; chemical compositions for the manufacture of technical ceramics; chemical compositions for repairing inner tubes of tires; chemical tire repairing compositions; glutinous tree- banding preparations, namely, adhesives for industrial use; adhesive preparations for use in the manufacture of surgical bandages; fireproofing preparations; chemical compositions for threading; sauce being chemicals for preparing tobacco; amyl alcohol; vinic alcohol; wood alcohol; sal ammoniac spirits; ethyl alcohol; alcohol for industrial purposes; rubber cement for footwear; concrete preservatives, except paints and oils; water glass namely, sodium silicate; strontium; substrates for soil-free growing for use in agriculture; barium sulphate; sulphates; antimony sulphide; sulphides; benzoic sulphinide; sulphonic acids; sumac for use in tanning, namely, a chemical for use in the manufacture of leather; superphosphates fertilisers; antimony; thallium; talc magnesium silicate; tannin; cream of tartar for the food industry; cream of tartar for industrial purposes; cream of tartar for chemical purposes; tellurium; terbium; acetylen tetrachlorides; carbon tetrachloride; acetylene tetrachloride; technetium; thiocarbanilide; titanite; biological tissue cultures other than for medical or veterinary purposes; sensitized cloth for photography; blueprint cloth; toluene; toluol; fuel for atomic piles; thorium; peat fertilizer; tragacanth gum for use in manufactures; thulium; carbonic hydrates; carbon; activated carbons; carbon for filters; animal charcoal for horticultural purposes; animal carbon; bone charcoal for horticultural purposes; blood charcoal for horticultural purposes; fertilizing preparations; nitrogenous fertilizers; fertilizers; fish meal fertilizers; pyroligneous acid wood vinegar; uranium; chemical intensifiers for paper; chemical intensifiers for rubber; vulcanisation accelerators; enzymes for the food industry; enzymes for industrial purposes; milk ferments for chemical purposes; milk ferments for the food industry; milk ferments for industrial purposes; milk ferments for chemical purposes; fermium; potassium ferrocyanides; fixing solutions for photography; soldering fluxes; brazing fluxes; formic aldehyde for chemical purposes; phosphatides; phosphates fertilisers; phosphorus; photographic paper; photosensitive plates; sensitized photographic plates; sensitized films, unexposed; photographic developers; photographic sensitizers; chemical preparations for use in photography; photographic emulsions; francium; fluorine; chemicals for forestry, except fungicides, herbicides, insecticides and parasiticides; glass-frosting chemicals; leather-renovating chemicals; glass-staining chemicals; enamel and glass staining chemicals; enamel-staining chemicals; oil-separating chemicals; water purifying chemicals; oil-purifying chemicals; soldering chemicals; condensation-preventing chemicals; stain-preventing chemicals for use on fabrics; anti-tarnishing chemicals for windows; leather- waterproofing chemicals; textile-waterproofing chemicals; chemical preparations, except pigments, for the manufacture of enamel; radiator flushing chemicals; leather-impregnating chemicals; textile-impregnating chemicals; horticulture chemicals, except fungicides, herbicides, insecticides and parasiticides; agricultural chemicals, except fungicides, weedkillers, herbicides, insecticides and parasiticides; soil conditioning preparations; chimney cleaners, chemical; industrial chemicals; color-brightening chemicals for industrial purposes; chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry except fungicides, herbicides, insecticides and parasiticides; refrigerants gas for use in industrial cooling systems and air conditioning systems; coolants for vehicle engines; chlorine;

sodium chlorates; hydrochlorates; aluminium chloride; magnesium chloride; palladious chlorides; chromates, namely, lead and sodium chromate; flowers of sulphur for chemical purposes; caesium; cellulose; cerium; cyanides prussiates; calcium cyanamide fertilizer; cymene; loam; slag fertilisers; size for finishing and priming; unprocessed spinel chemical preparations; alkalies; caustic alkali; fissionable chemical elements; emulsifiers for use in the manufacture of food; erbium; ethane; methyl ether; sulphuric ether; ethyl ether; glycol ether; ethers, namely, benzyl ether and ethyl ether; esters, namely, acetic acid ester and methyl esters; cellulose ethers for industrial purposes; cellulose esters for industrial purposes

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a design of a triangle composed of smaller triangles. There is a small white triangle in the center with long rectangles coming off each side and vary in color, started with black on the top triangle, then going clockwise, brown and dark blue. A bright pink triangle is formed in the area between the black and dark blue triangles, a bright red triangle is formed in the area between the black and dark brown triangle, and a bright turquoise triangle is formed in the area between the dark brown and dark blue triangle. To the right of the triangle are the black letters "RCC". The remaining white represents background area only and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) black, white, brown, dark blue, bright turquoise, bright red, bright pink is/are claimed as a feature of the mark. **Color Location** Colored triangles - black, white, brown, dark blue, bright turquoise, bright red, bright pink.

For Aquaria structures; alabaster; window frames, not of metal; asbestos cement; asphalt; asphalt, pitch and bitumen; beams, not of metal; balustrading; modular, non-metal huts; swimming pools structures, not of metal; silos, not of metal; arbours structures not of metal; concrete; bitumen; joists, not of metal; telephone booths, not of metal; beacons, not of metal, non-luminous; building paper board; busts of stone, concrete or marble; bird baths structures, not of metal; binding material for road repaing namely, tar and pitch; stained-glass windows; asphalt felt for building; aviaries, not of metal structures; gates, not of metal; diving boards, not of metal; geotextiles, namely, fabric and sheeting for nurseries, greenhouses, landscaping; gypsum; plaster; clay, namely, flooring, roofing tiles; potters' clay; potters' clay raw material; earth for bricks, namely, clay; gravel; aquarium gravel; granite; doors, not of metal; folding doors, not of metal; coal tar; chimney pots, not of metal; prefabricated houses kits, not of metal; parquet floor boards; memorial plaques, not of metal made stone, concrete or marble; non-metal roofing shingles; wood for making household utensils; veneer wood; moldable wood; chimney shafts, not of metal; jalousies, not of metal; roof gutters, not of metal; street gutters, not of metal; agglomerated bagasses of cane building material; signs, non-luminous and non-mechanical, not of metal, for roads; non-luminous and non-mechanical signs, not of metal; calcareous stone; lime building materials; fences, not of metal; works of art of stone, concrete or marble; cabanas, not of metal; stone; rubble; artificial stone; building stone; paint spraying booths, not of metal; gravestones; greenhouse frames, not of metal; framework, not of metal, for building; cornices, not of metal; asphalted cardboard for building; wood pulp board, for building; building cardboard; skating rinks structures, not of metal; quartz; caissons for construction work under water; bricks; water-pipe valves, not of metal or plastic; drain traps valves, not of metal or plastic; wood for building casks; mooring bollards, not of metal; cement posts; chimney cowls, not of metal; prefabricated buildings, not of metal; buildings, transportable, not of metal; door frames, not of metal; stringers being parts of staircases, not of metal; silica quartz; roofing, not of metal; manhole covers, not of metal; Non-metal construction materials, namely, xylolith; prefabricated chicken- houses, not of metal; building timber; manufactured timber; Rough sawn timber; wood, semi-worked; staircases, not of metal; road marking sheets and strips of synthetic material; reinforcing materials, not of metal, for building; bituminous products for building, namely, roof coatings; coal tar; road coating materials, namely, tar-based asphalt sealants; tar-based materials for making and coating roads; fireclay; pitch; building materials, not of metal; refractory construction materials, not of metal; masts poles, not of metal; raw chalk; calcareous marl, namely, limestone; glass mosaics for building; marble; slate powder; porches, not of metal, for building; tomb slabs, not of metal; flashing, not of metal, for building; roof flashing, not of metal; duckboards, not of metal; non-metallic rigid

pipes for building; monuments, not of metal; non-metallic transportable buildings; wall claddings, not of metal, for building; moldings, not of metal, for cornices; moldings, not of metal, for building; coatings for use as building materials, namely, asphalt roof coatings, fireproof cement coatings; grave or tomb enclosures, not of metal; laths, not of metal; wood panelling; wall linings, not of metal, for building; palings, not of metal; crash barriers, not of metal, for roads; latticework, not of metal; windows, not of metal; olivine for building; shuttering, not of metal, for concrete; poles, not of metal, for electric power lines; branching pipes, not of metal; prefabricated fair huts not of metal; tombs monuments, not of metal; wainscotting, not of metal; signalling panels, non-luminous and non-mechanical, not of metal; building panels, not of metal; parquet flooring; partitions, not of metal for buildings; lintels, not of metal; casement windows, not of metal; aquarium sand; silver sand; sand, except foundry sand; sandstone for building; tarred strips, for building; planks of wood for building; rocket launching platforms, not of metal; platforms, prefabricated, not of metal; tile floorings, not of metal; tiles, not of metal, for building; paving slabs, not of metal; cement slabs; tombstone stelae, not of metal; scaffolding, not of metal; asphalt paving compositions; wood paving; paving blocks, not of metal; luminous paving blocks not of metal; macadam; fireproof cement coatings; bituminous coatings for roofing; roof coverings, not of metal; roofing, not of metal, incorporating solar cells; wooden floor boards; cladding, not of metal, for building; mantlepieces; door panels, not of metal; floors, not of metal; window sills, not of metal; porphyry stone; ceiling panels, not of metal; floating docks, not of metal, for mooring boats; cork compressed into tiles being building materials; mortar for building; asbestos mortar; storage tanks of masonry; scantlings of timber for carpentry; furrings of wood; vinyl siding; pilings, not of metal; pre-fabricated pigsties, not of metal; insect screens, not of metal; vaults, not of metal burial; blinds outdoor, not of metal and not of textile; shutters, not of metal; statues of stone, concrete or marble; statuettes of stone, concrete or marble; alabaster glass; safety glass for building purposes; glass granules for road marking; insulating glass building; window glass, for building; window glass, except glass for vehicle windows; building glass; plate glass windows, for building; Pre-fabricated stables, not of metal; advertisement columns, not of metal; posts, not of metal; telegraph posts, not of metal; non-metal hips for roofing; stair-treads steps, not of metal; tombstone plaques, not of metal; greenhouses, transportable, not of metal for household use; terra cotta; penstock pipes, not of metal; water-pipes, not of metal; gutter pipes, not of metal; ducts, not of metal, for ventilating and air-conditioning installations; drain pipes, not of metal; chimneys, not of metal; rigid pipes, not of metal for building; sandstone tubes; turnstiles, not of metal; tufa; angle irons, not of metal; lengthening pieces, not of metal, for chimneys; bicycle parking installations, not of metal; plywood; foundry molds moulds, not of metal; cement for blast furnaces; cement for furnaces; magnesia cement; cement; non-metal pantiles; slate; roofing slates; slag stone being building material; clinker stone; railroad ties, not of metal; wood veneers; clinker ballast being clay; concrete building elements; letter boxes of masonry

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Agar-agar; nitrogen; actinium; alkalies; alginates for the food industry; alginates for industrial purposes; crotonic aldehyde; ammonium aldehyde; aldehydes; americium; amyl acetate; ammonia water; ammonia volatile alkali for industrial purposes; anhydrous ammonia; acetic anhydride; anhydrides; anti-knock substances for internal combustion engines; antistatic preparations, other than for household purposes; antifreeze; dressing and finishing preparations for textiles, namely, chemicals used in the manufacture of textiles; argon; lead arsenate; astatine; aluminium acetate; lime

acetate; lead acetate; acetates chemicals; acetylene; acetone; oenological bactericides chemical preparations used in wine making; balm of gurjun, namely, gurjon, gurjan for making varnish; barium; barytes; albumin animal or vegetable, raw material not for culinary purposes; animal albumen raw material not for culinary purposes; iodised albumen not for culinary purposes; malt albumen not for culinary purposes; bentonite; berkelium; bicarbonate of soda for chemical purposes; potassium dioxalate; bichromate of potassium; bichromate of soda; bauxite; bromine for chemical purposes; albuminized paper, namely, photosensitive paper; baryta paper; diazo paper; blueprint paper; test paper, chemical; litmus paper; reagent paper, other than for medical or veterinary purposes; self-toning paper photography; nitrate paper; sensitized paper; photometric paper; Boric in the form of acid, esters, and borates; agglutinants for concrete; chemical gas purifying preparations; preservatives for pharmaceutical preparations; chemical polish removing substances not for cosmetic use; chemical preparations for the separation of greases; chemical substances for preventing runs in stockings; water-softening preparations; limestone hardening substances being chemicals; tanning substances used in the manufacture of leather; adhesives for industrial purposes; artificial sweeteners being chemical preparations; fissionable material for nuclear energy; foundry binding substances, namely, foundry sand; concrete-aeration chemicals; leather- dressing chemicals; chemical preparations for the manufacture of paints; chemical substances for preserving foodstuffs; starch-liquifying chemicals being ungluing agents; flower preservatives; seed preserving substances; viscose; bismuth; bismuth nitrite for chemical purposes; witherite; distilled water; sea water for industrial purposes; acidulated water for recharging accumulators; heavy water; hydrogen; seaweeds for use as fertilizers; gadolinium; getters being chemically active substances; protective gases for welding; gas propellents for aerosols; basic gallate of bismuth; gallium; gambier used in the tanning of leather; helium; electrophoresis gels, other than for medical or veterinary purposes; genes of seeds for agricultural production, namely, Biotechnologically-formed genes for use in the manufacture of agricultural seeds; aluminium hydrate; carbonic hydrates; hyposulphites; ceramic glazings in the nature of a dry chemical preparation for use in the manufacture of ceramics; glycol; expanded-clay for hydroponic plant growing substrate; china slip; alumina; glycerides for industrial purposes; glycerine for industrial purposes; glucose for the food industry; glucose for industrial purposes; glucosides for industrial purposes; gluten for the food industry; gluten for industrial purposes; holmium; hormones for hastening the ripening of fruit; peat pots for horticulture being chemical preparations; guano; humus; dextrine size; detergents for use in manufacturing processes; defoliants; hydrazine; diastase for industrial purposes; kieselgur; manganese dioxide; titanium dioxide for industrial purposes; zirconium chloride; oil dispersants; petroleum dispersants; dispersions of plastics for use in the manufacture of a wide variety of goods; dysprosium; bichloride of tin; cedetergent additives to petrol gasoline; ceramic compositions for sintering granules and powders used in manufacturing; additives, chemical, to drilling muds; additives, chemical, to insecticides; chemical additives for oils; additives, chemical, to motor fuel; additives, chemical, to fungicides; dolomite for industrial purposes; tannic acid; europium; gelatine for photographic purposes; gelatine for industrial purposes; fluids for hydraulic circuits; chemical liquids for removing sulphates from accumulators; power steering fluid; brake fluid; magnetic fluid for industrial purposes; transmission fluid; chemical tree cavity fillers for forestry; glaziers' putty; chemical moderating materials for nuclear reactors; rare earths; Alkaline-earth metals; diatomaceous earth; fuller's earth for use in the manufacture of textiles; lime chloride; isotopes for industrial purposes; ion exchangers being chemical preparations; ytterbium; yttrium; iodine for industrial purposes; iodine for chemical purposes; aluminium iodide; alkaline iodides for industrial purposes; casein for the food industry; casein for industrial purposes; kainite; potassium; sorrel salt; californium; gum arabic for industrial purposes; cream of tartar other than for pharmaceutical purposes, namely, for the food industry or

for industrial purposes; camphor, for industrial purposes; calcium carbide; carbide; lime carbonate; magnesium carbonate; carbonates; contact cement for use in metallurgy; cassiopium lutetium; catalysts for use in the manufacture of industrial chemicals; biochemical catalysts; catechu for use in the food industry; alum; ammonia alum; aluminium alum; chrome alum; quebracho for industrial purposes; ketones; cinematographic film, sensitized but not exposed; oxygen; nitric acid; antranilic acid; benzoic acid; boric acid for industrial purposes; tartaric acid; tungstic acid; gallic acid for the manufacture of ink; gallotannic acid; tannic acid; iodic acid; phenol for industrial purposes; citric acid for industrial purposes; lactic acid; formic acid; persulphuric acid; oleic acid; picric acid; pyrogallic acid; salicylic acid not for cosmetic purposes; sebacic acid; sulphuric acid; sulphurous acid; hydrochloric acid; stearic acid; carbonic acid; spirits of vinegar dilute acetic acid; phosphoric acid; hydrofluoric acid; cholic acid; chromic acid; oxalic acid; mineral acids; arsenious acid; adhesives for billposting; leather industry glues; adhesives for wall tiles; adhesives for paperhanging; glue for industrial purposes; cement for mending broken articles; gums and adhesives, other than for stationery or household purposes for use in industry; birdlime; isinglass other than for stationery, household or alimentary purposes; gluten glue, other than for stationery or household purposes, namely, for industrial purposes; stem cells other than for medical or veterinary purposes; adhesives used in industry; flocculants; collodion; compost; beer preserving agents; mangrove bark for industrial purposes; Tanning agents for use in the manufacture of leather, namely, oils for tanning leather; starch for industrial purposes; starch paste adhesive, other than for stationery or household purposes, namely, for industrial purposes; silicon; creosote for chemical purposes; krypton; xenon; curium; lactose raw material for industrial purposes; lactose for the food industry; lactose for industrial purposes; lanthanum; dry ice being carbon dioxide; lecithin raw material for industrial use; lecithin for the food industry; lecithin for industrial purposes; lithium; magnesite; manganate; oils for tanning leather; oils for currying leather; oils for preparing leather in the course of manufacture; oils for the preservation of food; preservatives for the protection of plants; paper pulp; wood pulp for manufacturing purposes; grafting mastic for trees for industrial purposes; mastic for use in the manufacture of leather; rubber cement for repairing pneumatic tires; automobile body fillers; oil cement putty; synthetic chemical materials for absorbing oil; copper sulphate; metalloids being chemicals; alkaline-earth metals; alkaline metals; methane; methyl benzene; methyl benzol; flour for industrial purposes; tapioca flour for industrial purposes; potato flour for industrial purposes; soap metallic for industrial purposes; arsenic; bate for dressing skins, namely, tanning agents used in the manufacture of leather; emollients for industrial purposes; sodium; hypochlorite of soda; naphthalene; sal ammoniac; toxic gas neutralizers; unprocessed artificial resins, unprocessed plastics; neodymium; neon; neptunium; nitrate of uranium; combusting preparations chemical additives to motor fuel; nitric monoxide; baryta paper; uranium oxide; oxalates; lithia lithium oxide; lead oxide; antimony oxide; chromium oxide; cobalt oxide for industrial purposes; mercuric oxide; olivine chemical preparations; gallnuts for use in industry; wine finings being chemicals; textile- brightening chemicals used in the manufacture of textiles; beer-clarifying and preserving agents being chemicals; must-fining preparations being chemicals for the clarification of wine; reducing agents for use in photography; wax- bleaching chemicals; fat-bleaching chemicals; organic-bleaching chemicals; pectin for the food industry; pectin for industrial purposes; pectin for photography; perborate of soda; humus top dressing; percarbonates; dioxide of hydrogen; persulphates; perchlorates; foundry sand; plastisols; sensitized photographic dry plates for offset printing; ferrotype dry plates for photography; plasticizers; plastics unprocessed, in powder, liquid or paste form; x-ray films, sensitized but not exposed; plutonium; polonium; potash; potash water; earth for growing being potting soil; praseodymium; rubber

preservatives; masonry preservatives, except paints and oils; brickwork preservatives, except paints and oils; cement preservatives, except paints and oils; preservatives for tiles, except paints and oils; biological preparations for use in cell cultures, other than for medical or veterinary purposes; vulcanising preparations, namely, vulcanization accelerators; diagnostic preparations, other than for medical or veterinary purposes; chemical renovating preparations for phonograph records; currying preparations for use in the manufacture of leather; currying preparations for skins, namely, chemicals used in the manufacture of leather; tempering and soldering preparations; metal hardening preparations being chemicals; fixing baths photography; chemical opacifiers for glass; chemical opacifiers for enamel or glass; chemical opacifiers for enamel; separating and unsticking ungluing preparations being wallpaper removing preparations; metal annealing preparations being chemicals; preparations for preventing the tarnishing of lenses; preparations for preventing the tarnishing of glass; plant growth regulating preparations; wallpaper removing preparations; anti-boil preparations for engine coolants; chemical fulling preparations for use in textile industry; scale removing preparations, other than for household purposes; galvanizing preparations; chemical finishing preparations for use in the manufacture of steel; animal carbon preparations; cultures of microorganisms other than for medical and veterinary use; cryogenic preparations in solid, liquid or gas state for use in chilling and freezing; chemical degumming preparations; oil-bleaching chemicals; bleaching preparations decolorants for industrial purposes; meat tenderizers for industrial purposes; chemical preparations for stimulating cooking for industrial purposes; chemical anti-encrustants; preparations of trace elements for plants; moistening wetting preparations for use in the textile industry, namely, Chemicals used in the manufacture of fabric or textiles; moistening wetting preparations for use in dyeing, namely, Chemicals used in the manufacture of fabric or textiles; enzyme preparations for the food industry; enzyme preparations for industrial purposes; chemical filtering preparations for the beverages industry; vine disease preventing chemicals; chemical preparations to prevent mildew; chemical preparations for protection against wheat blight smut; chemical preparations for smoking meat; chemical substances for analyses in laboratories, other than for medical or veterinary purposes; chemical preparations for scientific purposes, other than for medical or veterinary use; chemical preparations for facilitating the alloying of metals; chemical preparations for decarbonising engines; chemical fuel-saving preparations being chemical additives; chemicals used for the preservation of coal; damp proofing preparations, except paints, for masonry, namely, masonry preservatives; anti-sprouting preparations for vegetables being preservatives; brazing preparations being chemicals; preparations of the distillation of wood alcohol being chemicals; by-products of the processing of cereals for industrial purposes; benzene derivatives, namely, benzene based acids; cellulose derivatives chemicals; promethium; protactinium; protein raw material for industrial use; etching mordants for metals; radium for scientific purposes; radon; Chemical preparations, namely, degreasing and cleaning solvents for varnishes; anti-frothing solutions for accumulators; drilling muds for use in oil well drilling; chemical solutions for cyanotyping; baths for galvanizing; silver salt solutions for silvering; toning baths for photography; chemical reagents, other than for medical or veterinary purposes; rhenium; mercury; rubidium; carbon black for industrial purposes; soot for industrial or agricultural purposes; lamp black being carbon for industrial purposes; samarium; saccharin; selenium; salpetre; sulphur; silver nitrate; carbon sulphide; aluminium silicate; silicones, namely, unprocessed silicone resins; scandium; foundry molding preparations, namely, Iron-oxide-based foundry sand additive used in the manufacture of metallic castings; acrylic resins, unprocessed; artificial resins, unprocessed; synthetic resins, unprocessed; epoxy resins, unprocessed; soda ash; calcined soda; caustic soda for industrial purposes; barium compounds; fluorspar compounds; magnesium salts fertilisers; magnesium salts chemical preparations; ammoniacal salts; ammonium salts; salts of precious

metals for industrial purposes; salts for galvanic batteries; salt for preserving, other than for foodstuffs; salts for coloring metal; salts for industrial purposes; iron salts; gold salts; iodised salts; calcium salts; sodium salts chemical preparations; salts from rare earth metals; mercury salts; toning salts for photography; chrome salts; chromic salts; salts of alkaline metals; rock salt for deicing; mold-release preparations; fire extinguishing compositions; chemical compositions for the manufacture of phonograph records; chemical compositions for the manufacture of technical ceramics; chemical compositions for repairing inner tubes of tires; chemical tire repairing compositions; glutinous tree- banding preparations, namely, adhesives for industrial use; adhesive preparations for use in the manufacture of surgical bandages; fireproofing preparations; chemical compositions for threading; sauce being chemicals for preparing tobacco; amyl alcohol; vinic alcohol; wood alcohol; sal ammoniac spirits; ethyl alcohol; alcohol for industrial purposes; rubber cement for footwear; concrete preservatives, except paints and oils; water glass namely, sodium silicate; strontium; substrates for soil-free growing for use in agriculture; barium sulphate; sulphates; antimony sulphide; sulphides; benzoic sulphinide; sulphonic acids; sumac for use in tanning, namely, a chemical for use in the manufacture of leather; superphosphates fertilisers; antimony; thallium; talc magnesium silicate; tannin; cream of tartar for the food industry; cream of tartar for industrial purposes; cream of tartar for chemical purposes; tellurium; terbium; acetylen tetrachlorides; carbon tetrachloride; acetylene tetrachloride; technetium; thiocarbanilide; titanite; biological tissue cultures other than for medical or veterinary purposes; sensitized cloth for photography; blueprint cloth; toluene; toluol; fuel for atomic piles; thorium; peat fertilizer; tragacanth gum for use in manufactures; thulium; carbonic hydrates; carbon; activated carbons; carbon for filters; animal charcoal for horticultural purposes; animal carbon; bone charcoal for horticultural purposes; blood charcoal for horticultural purposes; fertilizing preparations; nitrogenous fertilizers; fertilizers; fish meal fertilizers; pyroligneous acid wood vinegar; uranium; chemical intensifiers for paper; chemical intensifiers for rubber; vulcanisation accelerators; enzymes for the food industry; enzymes for industrial purposes; milk ferments for chemical purposes; milk ferments for the food industry; milk ferments for industrial purposes; milk ferments for chemical purposes; fermium; potassium ferrocyanides; fixing solutions for photography; soldering fluxes; brazing fluxes; formic aldehyde for chemical purposes; phosphatides; phosphates fertilisers; phosphorus; photographic paper; photosensitive plates; sensitized photographic plates; sensitized films, unexposed; photographic developers; photographic sensitizers; chemical preparations for use in photography; photographic emulsions; francium; fluorine; chemicals for forestry, except fungicides, herbicides, insecticides and parasiticides; glass-frosting chemicals; leather-renovating chemicals; glass-staining chemicals; enamel and glass staining chemicals; enamel-staining chemicals; oil-separating chemicals; water purifying chemicals; oil-purifying chemicals; soldering chemicals; condensation-preventing chemicals; stain-preventing chemicals for use on fabrics; anti-tarnishing chemicals for windows; leather- waterproofing chemicals; textile-waterproofing chemicals; chemical preparations, except pigments, for the manufacture of enamel; radiator flushing chemicals; leather-impregnating chemicals; textile-impregnating chemicals; horticulture chemicals, except fungicides, herbicides, insecticides and parasiticides; agricultural chemicals, except fungicides, weedkillers, herbicides, insecticides and parasiticides; soil conditioning preparations; chimney cleaners, chemical; industrial chemicals; color-brightening chemicals for industrial purposes; chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry except fungicides, herbicides, insecticides and parasiticides; refrigerants gas for use in industrial cooling systems and air conditioning systems; coolants for vehicle engines; chlorine; sodium chlorates; hydrochlorates; aluminium chloride; magnesium chloride; palladious chlorides; chromates, namely, lead

and sodium chromate; flowers of sulphur for chemical purposes; caesium; cellulose; cerium; cyanides prussiates; calcium cyanamide fertilizer; cymene; loam; slag fertilisers; size for finishing and priming; unprocessed spinel chemical preparations; alkalies; caustic alkali; fissionable chemical elements; emulsifiers for use in the manufacture of food; erbium; ethane; methyl ether; sulphuric ether; ethyl ether; glycol ether; ethers, namely, benzyl ether and ethyl ether; esters, namely, acetic acid ester and methyl esters; cellulose ethers for industrial purposes; cellulose esters for industrial purposes

For Printed matter, namely, instructional materials, training materials, teaching materials, catalogs, manuals, technical guides and data sheets, all in the fields of scientific, electronic, test, signaling, measurement, and optical apparatus, systems and equipment

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Training services in the use and operation of electronic test, signaling and measurement systems, equipment, and related hardware and software

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Electronic catalog services and online retail store services in the fields of scientific, electrical, electronic, test, signaling, measurement, optical and imaging apparatus, instruments, systems and equipment and parts and components therefor

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Maintenance, repair and installation services relating to scientific, electronic, test, signaling, measurement, optical, biological and chemical analytical, and telecommunication apparatus, systems and equipment; Repair and refurbishing of scientific, electronic, test, signaling, measurement, optical, biological and chemical analytical, and telecommunication apparatus, systems and equipment; Maintenance and repair of computer hardware; Technical support services in the nature of providing information and consultation regarding the installation of computer systems used with test and measurement systems, and providing an Internet web site featuring technical information related thereto

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electronic test and measurement instruments, namely, oscilloscopes and parts therefor; electronic instruments in the nature of signal generators, namely, analog and vector signal generators, waveform generators, function generators, pulse and data generators, arbitrary waveform generators, noise generators, and signal generation devices synthesizing electronic signals, and synchronization modules for various types of signal generators; electronic test and measurement instruments in the nature of analyzers, namely, spectrum, vector, signal, network, power and power source, protocol, radio frequency, microwave, logic, modulation-domain, optical component, light wave component, optical modulation, time-interval, polarization, and photonic dispersion and loss analyzers; automatic test equipment for integrated circuits, circuit boards and electronic equipment, namely, flat panel display testers, system on a chip (SOC) testers, memory testers, parametric testers, automated optical inspection testers, and in-circuit testers; electronic and optical communications instruments, namely, light wave testers and light wave multimeters; electronic component of digital multi-meters for testing and measuring voltage in electrical products; measuring instrumentation and apparatus, namely, digitizers; test and measurement equipment, namely, electromagnetic interference receivers, radio frequency interference receivers, and electromagnetic compliance products, namely, electromagnetic interference receivers for testing electromagnetic compliance and making conductive emission measurements; polarization controller units used to change light from any polarized or unpolarized light source into any well-defined state of polarization; electronic test and measurement instruments, namely, electric meters, inductance meters, capacitance meters, resistance meters, impedance meters, testing meters, wavelength meters, frequency meters, and frequency counters; electrical and electronic measuring and testing devices, namely, DC electronic load measurers and testers; electronic test and measurement instruments in the nature of testers, namely, cable, antenna, voltage, amperage, telephone line, and continuity testers; electronic test and measurement instruments, namely, handheld cable and antenna tester with optional spectrum analyzer, network analyzer, and power meter; electronic testing equipment, namely, power meters for testing radio frequency and microwave signals; electronic and optical communications instruments and components, namely, communication link testers for testing communication links and telecommunication line integrity testing apparatus; testing apparatus for testing circuit boards; electronic apparatus for testing electromagnetic properties and characteristics of industrial materials; electronic test and measurement instruments, namely, voltmeters and source measure units; test and measurement equipment, namely, one box testers containing a signal source and a signal analyzer for testing microwave and wireless communication devices and designs; electronic test and measurement instruments, namely, interferometers, electrical transducers, and vibration transducers; electronic test and measurement instruments, namely, nano indenters for nanomechanical testing of semiconductors, thin films, wafer applications, hard coatings and DLC films, composite materials, fibers, polymers, metals, ceramics, and biomaterials; component features of

electronic testing, signaling, diagnostic and measurement systems and equipment used in signal generators, signal analyzers, arbitrary waveform generators, pulse generators, and one-box testers, namely, mobile cellular and wireless local area network (WLAN) testers and network analyzers; electronic component in the nature of software and hardware, namely, digital signal processor and its controlling algorithm, sold as integral components of waveform generators, for improving signal fidelity and signal breadth; atomic clocks; encoders; data processing equipment, namely, couplers; amplifiers; electrical signal attenuators; electricity limiters; multipliers; testing apparatus for testing fiber optics; electric switches; electronic switches; optical switches; probes for testing integrated circuits, semiconductors, and telecommunication networks; apparatus and instruments, namely, amplifiers, attenuators, filters, conditioners, converters, mixers, modulators, demodulators, prescalers, dividers, combiners, isolators, circulators, integrated diode limiters, switches and routers for performing signal generation, signal processing, signal amplification, signal conversion, or signal control; lasers for measuring purposes and accessories therefor, namely, monolithic laser combiners, laser heads, beam splitters, beam benders, beam translators, retro reflectors, adjustable mounts, plane mirrors, plane mirror converters, plane mirror reflectors, and turning mirrors; lasers not for medical use; microscopes; microscopes, namely, atomic force microscopes; microscopes, namely, scanning electron microscopes; recording apparatus for recording traffic on telecommunications networks; portable electronic recorder for measuring and recording multiple voltage, current and thermocouple readings from various transducers; electric sensors; industrial calibration sensors; optical sensors; timing sensors; ultrasonic sensors; surface acoustic wave sensors; sensors for measuring air pressure, temperature, and humidity; sensors for monitoring the temperature of an object being measured; transmitters of electronic signals; electronic and optical communications instruments and components, namely, optical transmitters and electro-optical transmitters; wireless transmitters and receivers; receivers of electronic signals; electronic and optical communications instruments and components, namely, optical and opto-electrical receivers; remote controls for electronic test, signaling and measurement apparatus, systems, and equipment; computer hardware; computer peripherals; a full line of operating system software programs for non-medical scientific instruments and for electronic test, signaling, and measurement instruments and equipment; a full line of computer software for designing, configuring, calibrating, and testing non-medical scientific instruments and electronic test, signaling, and measurement instruments and equipment; a full line of computer software for collecting, measuring, analyzing, storing, manipulating, and managing data obtained from non-medical scientific instruments and from electronic test, signaling, and measurement instruments and equipment; software, namely, electronic design automation (EDA) software for communications product design, for RF and microwave circuit, high-speed, signal integrity, device modeling, and signal-processing design, and for electro-thermal, electromagnetic, circuit and system design and simulation; data processing apparatus; power supplies; power supplies and power systems used to power and test the operation of electronic equipment and devices under test by providing multiple power levels to the electronic equipment; programmable power supplies and power systems for simulating various operating conditions of electronic equipment

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Design and development of computer software; Computer programming services; Maintenance of computer software; Engineering services; Calibration of scientific, electronic, test, signaling, measurement, and optical apparatus, systems, and equipment; Technical support services in the nature of providing technological information and consulting in the field of test, measurement and computer systems, computer system design, computer systems integration, and computer software installation, and providing an Internet web site featuring technical information related thereto; Technical support services in the nature of computer systems analysis and computer systems integration services, and providing an Internet web site featuring technical information related thereto; Technical support services in the nature of start-up assistance with technology specifications, namely, analyzing technology requirements and developing recommendations for the computer software and systems and other technology needed to meet those requirements, in the field of electronic, opto-electronic, photonic, and nano-scale test, signaling, imaging, and measurement equipment; Computer services, namely, hosting online communities for users to obtain information in the fields of electronic test, signaling and measurement equipment; Providing a website featuring technology that allows computer users the ability to generate and share software script and plug-ins and to share software and data with other users
