MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a vertical rectangular design on packaging for the goods. The upper and lower portions of the rectangular design are pink and are separated by a gray horizontal area going across a lower half of the rectangular design which represents a transparent area and is not claimed as a feature of the mark. The bottom of the upper portion of the rectangular area has a white wavy line. The top of the bottom portion of the rectangular area also has a white wavy line. An opening near the top of the upper portion of the rectangular design is shown in gray and is also not claimed as a feature of the mark. A depiction of a five-pointed star-shaped piñata is superimposed partially on the large upper horizontal border and partially on the lower horizontal gray segment. The piñata appears to be made from colorful cut strips of paper. The piñata has a pink central circular portion, surrounded by a blue circular portion, surrounded by a green circular portion, surrounded by a yellow circular portion. Each of the five star points includes a blue portion adjacent the yellow circular portion, a green portion adjacent the blue portion of the star point, and a yellow portion at the tip of the star point adjacent the green portion. Extending from each of the two lower star points are four streamers, each in a different color. The four streamers are in the following colors from top to bottom, blue, yellow, green and pink. The lower two star points and their streamers are outlined in white. Two of the upper star points each have four streamers, each in a different color. The four streamers on the left upper star point are in the following colors from left to right, purple, green, yellow, and blue. The four streamers on the right upper star point are in the following colors from left to right, blue, yellow, green, and purple. The top star point has eight streamers, two of each of the following colors, purple, green, yellow, and blue. Superimposed on the large upper horizontal border and around the piñata is a depiction of a random pattern of colorful confetti comprising yellow, purple and blue dots of various sizes, yellow stars of various sizes, yellow shooting stars, and yellow, purple and blue party streamers. Superimposed on the large upper horizontal border and on the upper portion of the piñata is a composite design of the stylized words "ZUMBA FIESTA", with the word "ZUMBA" in yellow within a black border that is contained within a white border; the word "FIESTA" below the word "ZUMBA" is also within a black border that is contained within a white border, with the letters "F" and "A" in blue, the letter "I" in red, the letter "E" in orange, the letter "S" in green, and the letter "T" in pink. The

mark also comprises the composite design of the stylized words "ZUMBA PICA", with the word "ZUMBA" in orange superimposed on the lower middle right side of the piñata and on the large upper horizontal border, and word "PICA" in red below the word "ZUMBA", located above a vortex in green, all with a black outline that is contained within a white outline. The vortex is superimposed on the horizontal gray segment to the right of the lower right star point. The mark also comprises an image of a pair of red chilis with green stems outlined in white below the left upper star point and superimposed partially on the large upper horizontal border and partially on the lower horizontal gray segment. To the right of the red chilis is the composite design of the words "WITH CHILI", with the word "WITH" in green, above the word "CHILI" in red, each with a white outline. The broken or dotted lines show the position of the design features of the composite design mark on the packaging and are not claimed as part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) pink, yellow, green, blue, orange, red, purple, black and white is/are claimed as a feature of the mark. **Disclaimer** "WITH CHILI" **Translation** The English translation of FIESTA in the mark is PARTY.

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stylized wording "OdoBan" stacked above the stylized wording "Eliminates Odors" stacked above the stylized wording "OdoSorb", which is stacked above the stylized wording "Moisture Absorber". The anthropomorphized figure of 55 gallon steel drum with muscular arms and a smiling face appear just above the "-an" in "OdoBan". The diacritical mark appearing above the second lowercase letter "o" in the wording "OdoSorb" is a stylized drop of water. The two curved, circular lines appearing below the second lowercase letter "o" in the wording "OdoSorb" suggests small waves of rippling water. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** No claim is made to the exclusive right to use "ELIMINATES ODORS" and "MOISTURE ABSORBER" apart from the mark as shown.

For Precious metals and their alloys, included in this class; semi-worked precious metals; precious metals in powder form for 3D printers; precious metals for additive manufacturing processes; parts of precious metals, produced by 3D printing and/or additive manufacturing processes, namely, parts and elements of valves and pipes; sheet precious metals and precious metals powder form for 3D printers

International Classes 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For Building and construction materials and elements, not of metal namely, rigid pipes and valves therefore, non-metallic; structures and transportable buildings, not of metal

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Regulators being parts of machines; stop valves being parts of machines; hydraulically operated butterfly valves being parts of machines; electrical actuators for valves; ventilation valves being parts of machines; punching presses for punched cards being parts of machines; mechanical tool tighteners being machine tools, holding devices for machine tools and conveyer belts; regulators with electrical auxiliary energy for liquids, air, gases and steam being parts of machines; regulators for cooling water for motors and engines being parts of machines; furnace regulators being parts of machines; machine parts, namely, regulators and control apparatus for heating, cooking, refrigerating, drying, ventilating, air conditioning and pasteurising apparatus and installation being parts of machines; valves being parts of machines; parts for the aforesaid goods, included in

this class, namely parts of valves being parts of machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Heating, refrigerating, drying, ventilating, water supply and sanitary installations and parts therefor, namely valves, mixers and servomotors for heating, refrigerating, drying, ventilating, water supply and sanitary installations; mixer apparatus for hot and cold water or for other flowing media, namely hot and cold water mixing valves for heating, cooling, ventilation or air conditioning; stop valves for water or gas apparatus and pipes for regulating steam, water, gas, air and for other liquid, gaseous fuels or water vapor; servomotors being regulating apparatus for heating installations; parts for all the aforesaid goods in this class, namely parts of hot and cold water mixing valves for heating, cooling, ventilation or air conditioning, parts of stop valves for water or gas apparatus and pipes for regulating steam, water, gas, air and for other liquid, gaseous fuels or water vapor, parts of servomotors being regulating apparatus for heating installations

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Installation, repair and maintenance of valves, pumps, regulators, drives, sensors and thermostats

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Measuring, signalling, inspecting, regulating and monitoring devices, namely, sensor pressure and temperature regulators, thermometers, heat meters, steam consumption meters; apparatus and instruments and their parts and the aforesaid being either for use in the heating, air-conditioning and ventilation sector or specified for use in the industrial process technology sector in connection with pipelines and containers and apparatus connected thereto for use in the whole pipeline sector, namely, sensor pressure and temperature regulators, thermometers, heat meters, steam consumption meters; pressure and temperature regulators with electric commutators; water quantity alarms; heat meters; steam consumption meters; thermostats; safety thermostats for use with valves; room thermostats; heat and temperature sensors; moisture detectors being hygrostats; safety temperature limiters; electromagnetic valves in the nature of solenoid valves; electric high speed circuit breakers; regulating and switching apparatus for adjusting, controlling and switching valves, stop valves and shutter valves; technical chronometric instruments, namely, measuring instruments, counting instruments and aligning instruments and program-controlled electric timers and their parts; time measuring instruments not including clocks and watches; control and regulating apparatus and their parts for automating industrial operations and installations manufactured therefrom using pneumatic, hydraulic, electric or mixed signals and impulses, namely regulating units, control panels and control valves; apparatus for recording, storing and reading electric signals, data, measurements and other technical information and the aforesaid being either for use in the heating, air-conditioning and ventilation sector or specified for use in the industrial process technology sector in connection with pipelines and containers and apparatus connected thereto for use in the whole pipeline sector, namely, sensors, timers, computers, smart device, pressure controllers, reversing amplifiers; digital regulating and control apparatus for building management technology relating to process visualisation and their software; telecommunications apparatus , namely, control units for industrial applications for use with digital and analogue signals; digital/analogue converters; converters for analog/digital signals; analogue display apparatus; electronic heating and ventilation regulators; electronic universal regulators for temperature and differential temperature regulation; electronic universal regulators for potentiometers; electronic synchronizers for actuators; electricity indicators; set-point adjusters; switches, electric, micro

switches and change-over switches, calculating devices, and the aforesaid being either for use in the heating, air-conditioning and ventilation sector or specified for use in the industrial process technology sector in connection with pipelines and containers and apparatus connected thereto for use in the whole pipeline sector; switch boxes; switch cabinets; conduits for electric impulses and signals; apparatus for recording technical information; magnetic tapes; hand coding apparatus for bar cards; apparatus for reading stored data, measurements, programs and other technical information; punchcard readers; bar code readers; display apparatus with numeric displays; measuring apparatus for mechanical and thermodynamic dimensions; control and regulating apparatus for size control; push buttons being control switches; gas and fluid measuring sensors; proximity switches; limit switches; single and multiple switches; switching amplifiers; binary converters; impulse meters; controls for automating working processes in process technology and manufacturing engineering for the construction of machines and devices and for machine tools; leak testing apparatus, electric controls and electric regulating apparatus for machine tools, turning machines and drilling machines; electric differential pressure switches and electric automation controls for the automation of industrial processes; electric measuring transducers; automatic tool controllers; control apparatus for machine tools; physical and electrotechnical regulating, signalling, measuring and monitoring apparatus; automatic pressure regulating apparatus and instruments; pressure measuring apparatus; pressure sensors; electric or electronic pressure regulators; heat regulating apparatus; regulating systems consisting of electronic regulating apparatus, in particular for chemical and pharmaceutical installations, for food and textile installations and for environmental engineering; electric control valves; electronic encryption units, and the aforesaid being either for use in the heating, air-conditioning and ventilation sector or specified for use in the industrial process technology sector in connection with pipelines and containers and apparatus connected thereto for use in the whole pipeline sector; flow regulators for commercial and industrial use; room temperature regulators

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Treatment of materials, namely, treatment of materials of all kinds by means of 3D printing and/or additive manufacturing processes; custom manufacturing and production of pneumatic, hydraulic, electronic and electrotechnical goods; custom 3D printing for others; metal treating, finishing of metals; laser treatment of materials

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Flexible pipes, tubes, hoses and fittings therefor including valves, and fittings for rigid pipes, all non-metallic; unprocessed and semi-processed materials, not being designed for a specific use, included in this class, namely, plastics and synthetic and composite materials being semi- finished goods, all the aforesaid goods included in this class; adhesive tapes, adhesive strips and adhesive films, clutch and brake linings; rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials, in unprocessed or semi-processed form, all the aforesaid goods included in this class; plastics and resins in extruded form for use in manufacturing processes

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Engineering design and computer-aided engineering design services; engineering services in the field of valves and fluid regulators

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Common metals and their alloys; semi manufactured metal products, namely, semi manufactured parts and elements of valves of metal, other than parts of machines; small items of metal hardware for pneumatic, hydraulic, measurement technology, electronic and electronic technology purposes; metals in powder form for 3D printers; common metals for additive manufacturing processes; parts of common metals, namely, parts of valves or other fluid control apparatus for pneumatic, hydraulic, measurement technology, electronic and electronic technology purposes, produced by 3D printing and/or additive manufacturing processes; metals in foil or powder form for 3D printers; valves of metal, other than parts of machines

GOODS AND SERVICES INFORMATION

For Precious metals and their alloys, included in this class; semi-worked precious metals; precious metals in powder form for 3D printers; precious metals for additive manufacturing processes; parts of precious metals, produced by 3D printing and/or additive manufacturing processes, namely, parts and elements of valves and pipes; sheet precious metals and precious metals powder form for 3D printers

International Classes 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For Building and construction materials and elements, not of metal namely, rigid pipes and valves therefore, non-metallic; structures and transportable buildings, not of metal

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Regulators being parts of machines; stop valves being parts of machines; hydraulically operated butterfly valves being parts of machines; electrical actuators for valves; ventilation valves being parts of machines; punching presses for punched cards being parts of machines; mechanical tool tighteners being machine tools, holding devices for machine tools and conveyer belts; regulators with electrical auxiliary energy for liquids, air, gases and steam being parts of machines; regulators for cooling water for motors and engines being parts of machines; furnace regulators being parts of machines; machine parts, namely, regulators and control apparatus for heating, cooking, refrigerating, drying, ventilating, air conditioning and pasteurising apparatus and installation being parts of machines; valves being parts of machines; parts for the aforesaid goods, included in this class, namely parts of valves being parts of machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Heating, refrigerating, drying, ventilating, water supply and sanitary installations and parts therefor, namely valves, mixers and servomotors for heating, refrigerating, drying, ventilating, water supply and sanitary installations; mixer apparatus for hot and cold water or for other flowing media, namely hot and cold water mixing valves for heating, cooling, ventilation or air conditioning; stop valves for water or gas apparatus and pipes for regulating steam, water, gas, air and for other liquid, gaseous fuels or water vapor; servomotors being regulating apparatus for heating installations; parts for all the aforesaid goods in this class, namely parts of hot and cold water mixing valves for heating, cooling, ventilation or air conditioning, parts of stop valves for water or gas apparatus and pipes for regulating steam, water, gas, air and for other liquid, gaseous fuels or water vapor, parts of servomotors being regulating apparatus for heating installations

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Installation, repair and maintenance of valves, pumps, regulators, drives, sensors and thermostats

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Measuring, signalling, inspecting, regulating and monitoring devices, namely, sensor pressure and temperature regulators, thermometers, heat meters, steam consumption meters; apparatus and instruments and their parts and the aforesaid being either for use in the heating, air-conditioning and ventilation sector or specified for use in the industrial process technology sector in connection with pipelines and containers and apparatus connected thereto for use in the whole pipeline sector, namely, sensor pressure and temperature regulators, thermometers, heat meters, steam consumption meters; pressure and temperature regulators with electric commutators; water quantity alarms; heat meters; steam consumption meters; thermostats; safety thermostats for use with valves; room thermostats; heat and temperature sensors; moisture detectors being hygrostats; safety temperature limiters; electromagnetic valves in the nature of solenoid valves; electric high speed circuit breakers; regulating and switching apparatus for adjusting, controlling and switching valves, stop valves and shutter valves; technical chronometric instruments, namely, measuring instruments, counting instruments and aligning instruments and program-controlled electric timers and their parts; time measuring instruments not including clocks and watches; control and regulating apparatus and their parts for automating industrial operations and installations manufactured therefrom using pneumatic, hydraulic, electric or mixed signals and impulses, namely regulating units, control panels and control valves; apparatus for recording, storing and reading electric signals, data, measurements and other technical information and the aforesaid being either for use in the heating, air-conditioning and ventilation sector or specified for use in the industrial process technology sector in connection with pipelines and containers and apparatus connected thereto for use in the whole pipeline sector, namely, sensors, timers, computers, smart device, pressure controllers, reversing amplifiers; digital regulating and control apparatus for building management technology relating to process visualisation and their software; telecommunications apparatus , namely, control units for industrial applications for use with digital and analogue signals; digital/analogue converters; converters for analog/digital signals; analogue display apparatus; electronic heating and ventilation regulators; electronic universal regulators for temperature and differential temperature regulation; electronic universal regulators for potentiometers; electronic synchronizers for actuators; electricity indicators; set-point adjusters; switches, electric, micro switches and change-over switches, calculating devices, and the aforesaid being either for use in the heating, air-conditioning

and ventilation sector or specified for use in the industrial process technology sector in connection with pipelines and containers and apparatus connected thereto for use in the whole pipeline sector; switch boxes; switch cabinets; conduits for electric impulses and signals; apparatus for recording technical information; magnetic tapes; hand coding apparatus for bar cards; apparatus for reading stored data, measurements, programs and other technical information; punchcard readers; bar code readers; display apparatus with numeric displays; measuring apparatus for mechanical and thermodynamic dimensions; control and regulating apparatus for size control; push buttons being control switches; gas and fluid measuring sensors; proximity switches; limit switches; single and multiple switches; switching amplifiers; binary converters; impulse meters; controls for automating working processes in process technology and manufacturing engineering for the construction of machines and devices and for machine tools; leak testing apparatus, electric controls and electric regulating apparatus for machine tools, turning machines and drilling machines; electric differential pressure switches and electric automation controls for the automation of industrial processes; electric measuring transducers; automatic tool controllers; control apparatus for machine tools; physical and electrotechnical regulating, signalling, measuring and monitoring apparatus; automatic pressure regulating apparatus and instruments; pressure measuring apparatus; pressure sensors; electric or electronic pressure regulators; heat regulating apparatus; regulating systems consisting of electronic regulating apparatus, in particular for chemical and pharmaceutical installations, for food and textile installations and for environmental engineering; electric control valves; electronic encryption units, and the aforesaid being either for use in the heating, air-conditioning and ventilation sector or specified for use in the industrial process technology sector in connection with pipelines and containers and apparatus connected thereto for use in the whole pipeline sector; flow regulators for commercial and industrial use; room temperature regulators

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Treatment of materials, namely, treatment of materials of all kinds by means of 3D printing and/or additive manufacturing processes; custom manufacturing and production of pneumatic, hydraulic, electronic and electrotechnical goods; custom 3D printing for others; metal treating, finishing of metals; laser treatment of materials

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Flexible pipes, tubes, hoses and fittings therefor including valves, and fittings for rigid pipes, all non-metallic; unprocessed and semi-processed materials, not being designed for a specific use, included in this class, namely, plastics and synthetic and composite materials being semi- finished goods, all the aforesaid goods included in this class; adhesive tapes, adhesive strips and adhesive films, clutch and brake linings; rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials, in unprocessed or semi-processed form, all the aforesaid goods included in this class; plastics and resins in extruded form for use in manufacturing processes

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Engineering design and computer-aided engineering design services; engineering services in the field of valves and fluid regulators

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Common metals and their alloys; semi manufactured metal products, namely, semi manufactured parts and elements of valves of metal, other than parts of machines; small items of metal hardware for pneumatic, hydraulic, measurement technology, electronic and electronic technology purposes; metals in powder form for 3D printers; common metals for additive manufacturing processes; parts of common metals, namely, parts of valves or other fluid control apparatus for pneumatic, hydraulic, measurement technology, electronic and electronic technology purposes, produced by 3D printing and/or additive manufacturing processes; metals in foil or powder form for 3D printers; valves of metal, other than parts of machines

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

For Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, transformers, transistors, electric switches; electrical and electronic controllers for machines for the manufacture, processing, storage and transport of food; electrical and electronic controllers for machines for the manufacture, processing, storage and transport of animal feed; electrical and electronic controllers for machines for the manufacture, processing, storage and transport of pharmaceutical products; electrical and electronic controllers for machines for the manufacture, processing, storage and transport of confectionery; electrical and electronic controllers for machines for the manufacture, processing, storage and transport of beverages; electrical and electronic controllers for machines for the manufacture, processing, storage and transport of bread products; electrical and electronic controllers for machines for the manufacture, processing, storage and transport of baked goods; electrical and electronic controllers for machines for the manufacture, processing, storage and transport of dairy products; electrical and electronic controllers for machines for the manufacture, processing, storage and transport of luxury goods; electrical and electronic controllers for machines for the manufacture, processing, storage and

transport of chemical products; electrical and electronic controllers for tire building machines; electrical and electronic controllers for extruders; electrical and electronic controllers for industrial machine presses; electrical and electronic controllers for extraction machines; electric and electronic controllers for internal electric industrial mixers; electric and electronic controllers for machines for processing elastomers; data processing equipment and computers; compact discs and digital video discs featuring information about industrial food and beverage processing machinery and about operating industrial machines in the tire industry; CD-ROMs and magnetic data carriers featuring recorded software for operating industrial machines in the food and beverage industry and the tire industry

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific research; industrial analysis and research services in the field of tire manufacturing; design and development of computer hardware and software; engineering services; physics research; computer software consultation, namely, preparation of reports relating to data processing programs; technological consultancy and preparation of reports relating to technical research, namely, technology consultancy relating to development of computer hardware and software and conducting of feasibility studies in the field of new technologies; providing technical advice and expertise relating to computers, namely, providing technical advisory and consulting services in the field of design and development of computers; scientific research for others; leasing of data processing systems, namely, computer software rental; online services for technical products and technical services, namely, updating of websites for others, consultancy on the design of web pages, creation, design and hosting of homepages and websites; material testing; engineering services, namely, providing engineering appraisals and engineering research in the fields of science and technology

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services
