CASE IDENTIFIERS

Serial Number 86137327 **Application Filing Date** Dec. 06, 2013 **Register** Principal **Mark Type** Service Mark **Publication Date** Nov. 25, 2014

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stylized number "18" with the degree symbol placed near the top right corner. The degree symbol is grey with a tan outline then a white outline and finally a blue outline. The number "18" is tan with a white outline and then a blue outline surrounding the white, with the interior of the number "8" in white. There is a fine red outline on the left side of the numbers. The number "8" wears a red helmet outlined in black with a grey chin strap and a grey front lining to the helmet, both outlined in black. There is white shading on the helmet, along with two white square panels and one red panel outlined in white on the left side of the helmet. Coming from the right side of the number "8" is a red hockey stick with a black blade and blue shading on the underside of the stick. The number "18" is placed on a white circular background with blue shading, which is surrounded by a grey ring, then a thin white outline, and finally a thin grey outline on the outside. The stylized number "18" has a blue cast shadow and faded blue lines coming off horizontally from the left side of the number, giving it the appearance of the number moving forward quickly. Likewise, the hockey stick has a grey cast shadow and faded grey lines coming off horizontally from the left side of the stick. The stylized words "NEIGHBORHOOD GRILL," being tan with a white outline and placed on a blue rectangular background, are placed along the bottom of the circle on the grey ring, following the curve thereof. The interior of the first letter "O" in "NEIGHBORHOOD" is white. All other white in the mark represents background and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) red, black, tan, white, grey and blue is/are claimed as a feature of the mark. **Disclaimer** "NEIGHBORHOOD GRILL"

For Maintenance, repair and installation services relating to electronic, opto-electronic, photonic, and nano-scale test, signaling, analysis, imaging, measurement, scientific, and optical apparatus, instruments, parts, systems, equipment, and accessories therefor; Repair and refurbishing of electronic, opto-electronic, photonic, and nano-scale test, signaling, analysis, imaging, measurement, scientific, and optical apparatus, instruments, parts, systems, equipment, and accessories therefor; Technical support services in the nature of providing information and consultation regarding the installation of computer systems used with test and measurement systems, and providing an Internet web site featuring technical information related thereto

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electronic test and measurement instruments, namely, oscilloscopes and parts therefor; electronic instruments in the nature of signal generators, namely, analog and vector signal generators, waveform generators, function generators in the nature of electronic devices used to generate various types of repeating waveform signals over a wide range of frequencies, pulse and data generators, arbitrary waveform generators, noise generators in the nature of electronic devices that produce random signals, and signal generation devices synthesizing electronic signals, and synchronization modules for various types of signal generators; electronic test and measurement instruments in the nature of analyzers, namely, spectrum, vector, signal, network, power and power source, protocol, radio frequency, microwave, logic, modulation-domain, optical component, light wave component, optical modulation, time-interval, polarization, and photonic dispersion and loss analyzers; automatic test equipment for integrated circuits, circuit boards and electronic equipment, namely, flat panel display testers, system on a chip (SOC) testers, memory testers, parametric testers, automated optical inspection testers, and in-circuit testers; electronic and optical communications instruments, namely, light wave testers and light wave multimeters; electronic component of digital multi-meters for testing and measuring voltage in electrical products; measuring instrumentation and apparatus, namely, digitizers; test and measurement equipment, namely, electromagnetic interference receivers, radio frequency interference receivers, and electromagnetic compliance products, namely, electromagnetic interference receivers for testing electromagnetic compliance and making conductive emission measurements; polarization controller units used to change light from any polarized or unpolarized light source into any well-defined state of polarization; electronic test and measurement instruments, namely, electric meters, inductance meters, capacitance meters, resistance meters, impedance meters, testing meters, wavelength meters, frequency meters, and frequency counters; electrical and electronic measuring and testing devices, namely, DC electronic load measurers and testers; electronic test and measurement instruments in the nature of testers, namely, cable, antenna, voltage, amperage, telephone line, and continuity testers; electronic test and measurement instruments, namely, handheld cable and antenna tester with optional spectrum analyzer, network analyzer, and power meter; electronic testing equipment, namely, power meters for testing radio frequency and microwave signals; electronic and optical communications instruments and components, namely, communication link testers for testing communication links and telecommunication line integrity testing apparatus; testing apparatus for testing circuit boards; electronic apparatus for testing electromagnetic properties and characteristics of industrial materials; electronic test and measurement instruments, namely, voltmeters and source measure

units; test and measurement equipment, namely, one box testers containing a signal source and a signal analyzer for testing microwave and wireless communication devices and designs; electronic test and measurement instruments, namely, interferometers, electrical transducers, and vibration transducers; electronic test and measurement instruments, namely, nano-indenters for nano-mechanical testing of semiconductors, thin films, wafer applications, hard coatings and DLC films, composite materials, fibers, polymers, metals, ceramics, and biomaterials; component features of electronic testing, signaling, diagnostic and measurement systems and equipment used in signal generators, signal analyzers, arbitrary waveform generators, pulse generators, and one-box testers, namely, mobile cellular and wireless local area network (WLAN) testers and network analyzers; electronic component in the nature of software and hardware, namely, digital signal processor and its controlling algorithm, sold as integral components of waveform generators, for improving signal fidelity and signal breadth; encoders; data processing equipment, namely, couplers; amplifiers; electrical signal attenuators; electricity limiters; multipliers; testing apparatus for testing fiber optics; electric switches; electronic switches; optical switches; probes for testing integrated circuits, semiconductors, and telecommunication networks; electronic, opto-electronic, photonic and nano-scale test, signaling, imaging, and measurement apparatus and instruments, namely, amplifiers, attenuators, filters in the nature of signal processors that function to remove unwanted frequency components from the signal, to enhance wanted ones, or both, conditioners in the nature of devices used to prepare sensor output signals for processing, converters, mixers in the nature of devices for creating new frequencies from two or more signals applied to it, modulators in the nature of devices for varying one or more properties of a periodic waveform in order to carry a signal, demodulators, prescalers, dividers in the nature of devices for coupling a portion of the signal in a transmission line to a port enabling the portion signal to be used in another circuit, combiners in the nature of devices for combining the signals at a port into the signals already present in a transmission line, isolators in the nature of a non-reciprocal 2 port device that allows signals to pass in one direction only, circulators in the nature of a non-reciprocal multi-port device in which a signal entering any port is transmitted only to the next port in rotation, integrated diode limiters, switches and routers for performing signal generation, signal processing, signal amplification, signal conversion, and signal control; lasers for measuring purposes and accessories therefor, namely, monolithic laser combiners, laser heads, beam splitters, beam benders, beam translators, retro reflectors, adjustable mounts, plane mirrors, plane mirror converters, plane mirror reflectors, and turning mirrors; lasers not for medical use; microscopes; microscopes, namely, atomic force microscopes; microscopes, namely, scanning electron microscopes; recording apparatus for recording traffic on telecommunications networks; portable electronic recorder for measuring and recording multiple voltage, current and thermocouple readings from various transducers; electric sensors; industrial calibration sensors; optical sensors; timing sensors; ultrasonic sensors; surface acoustic wave sensors; sensors for measuring air pressure, temperature, and humidity; sensors for monitoring the temperature of an object being measured; transmitters of electronic signals; electronic and optical communications instruments and components, namely, optical transmitters and electro-optical transmitters; wireless transmitters and receivers; receivers of electronic signals; electronic and optical communications instruments and components, namely, optical and opto-electrical receivers; remote controls for electronic test, signaling and measurement apparatus, systems, and equipment; computer hardware; computer peripherals; a full line of operating system software programs for non-medical scientific instruments and for electronic test, signaling, and measurement instruments and equipment; a full line of computer software for designing, configuring, calibrating, and testing non-medical scientific instruments and electronic test, signaling, and measurement instruments and equipment; a full line of computer software for collecting, measuring,

analyzing, storing, manipulating, and managing data obtained from non-medical scientific instruments and from electronic test, signaling, and measurement instruments and equipment; software, namely, electronic design automation (EDA) software for communications product design, for RF and microwave circuit, high-speed, signal integrity, device modeling, and signal-processing design, and for electro-thermal, electromagnetic, circuit and system design and simulation; data processing apparatus; power supplies; power supplies and power systems used to power and test the operation of electronic equipment and devices under test by providing multiple power levels to the electronic equipment; programmable power supplies and power systems for simulating various operating conditions of electronic equipment

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Design and development of computer software; Computer programming services; Maintenance of computer software; Engineering services; Calibration of scientific, electronic, test, signaling, measurement, and optical apparatus, systems, and equipment; Technical support services in the nature of providing technological information and consulting in the field of test, measurement and computer systems, computer system design, computer systems integration, and computer software installation, and providing an Internet web site featuring technical information related thereto; Technical support services in the nature of computer systems analysis and computer systems integration services, and providing an Internet web site featuring technical information related thereto; Technical support services in the nature of start-up assistance with technology specifications, namely, analyzing technology requirements and developing recommendations for the computer software and systems and other technology needed to meet those requirements, in the field of electronic, opto-electronic, photonic, and nano-scale test, signaling, imaging, and measurement equipment; Computer services, namely, hosting online communities for users to obtain information in the fields of electronic test, signaling and measurement equipment; Providing a website featuring technology that allows computer users the ability to generate and share software script and plug-ins and to share software and data with other users

For Electronic test and measurement instruments, namely, oscilloscopes and parts therefor; electronic instruments in the nature of signal generators, namely, analog and vector signal generators, waveform generators, function generators in the nature of electronic devices used to generate various types of repeating waveform signals over a wide range of frequencies, pulse and data generators, arbitrary waveform generators, noise generators in the nature of electronic devices that produce random signals, and signal generation devices synthesizing electronic signals, and synchronization modules for various types of signal generators; electronic test and measurement instruments in the nature of analyzers, namely, spectrum, vector, signal, network, power and power source, protocol, radio frequency, microwave, logic, modulation-domain, optical component, light wave component, optical modulation, time-interval, polarization, and photonic dispersion and loss analyzers; automatic test equipment for integrated circuits, circuit boards and electronic equipment, namely, flat panel display testers, system on a chip (SOC) testers, memory testers, parametric testers, automated optical inspection testers, and in-circuit testers; electronic and optical communications instruments, namely, light wave testers and light wave multimeters; electronic component of digital multi-meters for testing and measuring voltage in electrical products; measuring instrumentation and apparatus, namely, digitizers; test and measurement equipment, namely, electromagnetic interference receivers, radio frequency interference receivers, and electromagnetic compliance products, namely, electromagnetic interference receivers for testing electromagnetic compliance and making conductive emission measurements; polarization controller units used to change light from any polarized or unpolarized light source into any well-defined state of polarization; electronic test and measurement instruments, namely, electric meters, inductance meters, capacitance meters, resistance meters, impedance meters, testing meters, wavelength meters, frequency meters, and frequency counters; electrical and electronic measuring and testing devices, namely, DC electronic load measurers and testers; electronic test and measurement instruments in the nature of testers, namely, cable, antenna, voltage, amperage, telephone line, and continuity testers; electronic test and measurement instruments, namely, handheld cable and antenna tester with optional spectrum analyzer, network analyzer, and power meter; electronic testing equipment, namely, power meters for testing radio frequency and microwave signals; electronic and optical communications instruments and components, namely, communication link testers for testing communication links and telecommunication line integrity testing apparatus; testing apparatus for testing circuit boards; electronic apparatus for testing electromagnetic properties and characteristics of industrial materials; electronic test and measurement instruments, namely, voltmeters and source measure units; test and measurement equipment, namely, one box testers containing a signal source and a signal analyzer for testing microwave and wireless communication devices and designs; electronic test and measurement instruments, namely,

interferometers, electrical transducers, and vibration transducers; electronic test and measurement instruments, namely, nano-indenters for nano-mechanical testing of semiconductors, thin films, wafer applications, hard coatings and DLC films, composite materials, fibers, polymers, metals, ceramics, and biomaterials; component features of electronic testing, signaling, diagnostic and measurement systems and equipment used in signal generators, signal analyzers, arbitrary waveform generators, pulse generators, and one-box testers, namely, mobile cellular and wireless local area network (WLAN) testers and network analyzers; electronic component in the nature of software and hardware, namely, digital signal processor and its controlling algorithm, sold as integral components of waveform generators, for improving signal fidelity and signal breadth; encoders; data processing equipment, namely, couplers; amplifiers; electrical signal attenuators; electricity limiters; multipliers; testing apparatus for testing fiber optics; electric switches; electronic switches; optical switches; probes for testing integrated circuits, semiconductors, and telecommunication networks; electronic, opto-electronic, photonic and nano-scale test, signaling, imaging, and measurement apparatus and instruments, namely, amplifiers, attenuators, filters in the nature of signal processors that function to remove unwanted frequency components from the signal, to enhance wanted ones, or both, conditioners in the nature of devices used to prepare sensor output signals for processing, converters, mixers in the nature of devices for creating new frequencies from two or more signals applied to it, modulators in the nature of devices for varying one or more properties of a periodic waveform in order to carry a signal, demodulators, prescalers, dividers in the nature of devices for coupling a portion of the signal in a transmission line to a port enabling the portion signal to be used in another circuit, combiners in the nature of devices for combining the signals at a port into the signals already present in a transmission line, isolators in the nature of a non-reciprocal 2 port device that allows signals to pass in one direction only, circulators in the nature of a non-reciprocal multi-port device in which a signal entering any port is transmitted only to the next port in rotation, integrated diode limiters, switches and routers for performing signal generation, signal processing, signal amplification, signal conversion, and signal control; lasers for measuring purposes and accessories therefor, namely, monolithic laser combiners, laser heads, beam splitters, beam benders, beam translators, retro reflectors, adjustable mounts, plane mirrors, plane mirror converters, plane mirror reflectors, and turning mirrors; lasers not for medical use; microscopes; microscopes, namely, atomic force microscopes; microscopes, namely, scanning electron microscopes; recording apparatus for recording traffic on telecommunications networks; portable electronic recorder for measuring and recording multiple voltage, current and thermocouple readings from various transducers; electric sensors; industrial calibration sensors; optical sensors; timing sensors; ultrasonic sensors; surface acoustic wave sensors; sensors for measuring air pressure, temperature, and humidity; sensors for monitoring the temperature of an object being measured; transmitters of electronic signals; electronic and optical communications instruments and components, namely, optical transmitters and electro-optical transmitters; wireless transmitters and receivers; receivers of electronic signals; electronic and optical communications instruments and components, namely, optical and opto-electrical receivers; remote controls for electronic test, signaling and measurement apparatus, systems, and equipment; computer hardware; computer peripherals; a full line of operating system software programs for non-medical scientific instruments and for electronic test, signaling, and measurement instruments and equipment; a full line of computer software for designing, configuring, calibrating, and testing non-medical scientific instruments and electronic test, signaling, and measurement instruments and equipment; a full line of computer software for collecting, measuring, analyzing, storing, manipulating, and managing data obtained from non-medical scientific instruments and from electronic test, signaling, and measurement instruments and equipment; software, namely, electronic design automation (EDA)

software for communications product design, for RF and microwave circuit, high-speed, signal integrity, device modeling, and signal-processing design, and for electro-thermal, electromagnetic, circuit and system design and simulation; data processing apparatus; power supplies; power supplies and power systems used to power and test the operation of electronic equipment and devices under test by providing multiple power levels to the electronic equipment; programmable power supplies and power systems for simulating various operating conditions of electronic equipment

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Design and development of computer software; Computer programming services; Maintenance of computer software; Engineering services; Calibration of scientific, electronic, test, signaling, measurement, and optical apparatus, systems, and equipment; Technical support services in the nature of providing technological information and consulting in the field of test, measurement and computer systems, computer system design, computer systems integration, and computer software installation, and providing an Internet web site featuring technical information related thereto; Technical support services in the nature of computer systems analysis and computer systems integration services, and providing an Internet web site featuring technical information related thereto; Technical support services in the nature of start-up assistance with technology specifications, namely, analyzing technology requirements and developing recommendations for the computer software and systems and other technology needed to meet those requirements, in the field of electronic, opto-electronic, photonic, and nano-scale test, signaling, imaging, and measurement equipment; Computer services, namely, hosting online communities for users to obtain information in the fields of electronic test, signaling and measurement equipment; Providing a website featuring technology that allows computer users the ability to generate and share software script and plug-ins and to share software and data with other users

For Training of helicopter and rotorcraft pilots in the field of helicopter and rotorcraft piloting, operation and maintenance; Training of mechanics, technicians and engineers in the field of helicopters and rotorcraft; Training services in the field of helicopters and rotorcraft featuring helicopter and rotorcraft flight simulators; Educational services, namely, conducting courses, conferences, seminars, and workshops in the field of helicopters and rotorcraft, and distribution of training material in connection therewith; Educational services, namely, conducting courses, conferences, seminars, and workshops relating to the piloting, repair, maintenance, and overhaul of helicopters and rotorcraft, and flight safety, and distribution of training material in connection therewith; Publication of books, manuals, magazines, journals, newspapers, periodicals, catalogs, brochures, all relating to helicopters and rotorcraft; Publication of training and maintenance manuals relating to helicopters and rotorcraft; Online library services, namely, providing electronic library services which feature books, manuals, magazines, periodicals, journals, catalogs, brochures, newsletters, and service bulletins in the field of helicopters and rotorcraft; Providing online, non-downloadable electronic publications, namely, books, manuals, magazines, periodicals, journals, catalogs, brochures, newsletters, and service bulletins relating to helicopters and rotorcraft; Production of training videos relating to helicopters and rotorcraft; Providing a website that features information on the training of helicopter and rotorcraft pilots, mechanics, technicians and engineers; Organization of air shows and exhibitions related to helicopters and rotorcraft for entertainment, cultural and educational purposes; Charitable services, namely, providing educational classes, seminars, workshops, training and mentoring to underprivileged young people in the field of helicopters and rotorcraft

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Advertising services, business management, business administration, and providing office functions, all in the field of helicopters and rotorcraft; Logistics management in the field of helicopters and rotorcraft; Inventory management of stock in the field of spare parts, fittings, dynamic components, and equipment for helicopters and rotorcraft for others; Inventory control in the field of spare parts, fittings, dynamic components, and equipment for helicopters and rotorcraft for others; Procurement services, namely, purchasing of spare parts, fittings, dynamic components, and equipment for helicopters and rotorcraft for others; Transportation management, namely, planning and coordinating transportation of spare parts, fittings, dynamic components, and equipment for helicopters and rotorcraft for others; Scheduling maintenance, repair and overhaul of helicopters and rotorcraft, parts, fittings, dynamic components, and equipment thereof, for others; Business administration, namely, preparation and management of administrative documents relating to a fleet of helicopters and rotorcraft for others; Business consulting services in the field of helicopters and rotorcraft; Retail and wholesale distributorship services featuring helicopters and rotorcraft, structural parts, fittings, dynamic components, and equipment thereof; Providing a website used to place on-line commercial orders in the field of helicopters and rotorcraft parts, fittings and equipment, which allows helicopter and rotorcraft customers to check price and availability of spare parts and place orders, arrange the return of spare parts for repair or overhaul, order technical publications, track orders, consult invoices and submit requests for commercial information; Arranging and conducting of fairs and exhibitions for business and advertising purposes in the field of helicopters and rotorcraft; Charitable services, namely, organizing and developing projects that aim to improve the lives of underprivileged people, impoverished people, people with disabilities, people suffering from illnesses; Charitable services, namely, organizing and developing projects that aim to support developing countries by encouraging their autonomy

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation, upgrading, maintenance, repair and overhaul of helicopters and rotorcraft, structural parts, fittings, dynamic components, and equipment thereof; Installation, upgrading, maintenance, repair and overhaul of coupling and transmission components for helicopters and rotorcraft, motors and engines for helicopters and rotorcraft, main rotors and tail rotors for helicopters and rotorcraft, rotor blades for helicopters and rotorcraft, avionic equipment for helicopters and rotorcraft; Maintenance, repair, and installation of a fleet of helicopters and rotorcraft to satisfy the requirements of national, foreign, civilian and military legislatory and regulatory provisions; inspection of helicopters and rotorcraft prior to maintenance and repair as part of repair and maintenance services; Installation services, namely, customization of helicopters and rotorcraft; Painting of helicopters and rotorcraft; Installation, upgrading, maintenance and repair of equipment for helicopters and rotorcraft, namely, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking, life-saving and teaching apparatus and instruments, electrical systems, apparatus for recording, transmission or reproduction of sound, images or data, data processing apparatus, computers, computer hardware, telecommunication machines and apparatus, all being used in the field of helicopters and rotorcraft; Installation, upgrading, maintenance, repair, and overhaul of helicopter and rotorcraft flight simulator hardware; Technical support services, namely, technical advice in the field of helicopter and rotorcraft maintenance, repair and overhaul; Rental of

machines and hand and power tools for the maintenance, repair and overhaul of helicopters and rotorcraft; Information services relating to the maintenance, repair and overhaul of helicopters and rotorcraft; Providing a website that features information about helicopter and rotorcraft maintenance, repair and overhaul services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Surveying apparatus and instruments being for use in the field of helicopters and rotorcraft; photographic apparatus and instruments being for use in the field of helicopters and rotorcraft, namely, cameras; cinematographic apparatus and instruments being for use in the field of helicopters and rotorcraft; weighing apparatus and instruments being for use in the field of helicopters and rotorcraft; teaching apparatus and instruments being for use in the field of helicopters and rotorcraft, namely, flight simulators; Apparatus for recording, transmission or reproduction of sound, images or data, all being for use in the field of helicopters and rotorcraft; Flight control apparatus for the piloting of helicopters and rotorcraft, namely, computer hardware and data processing apparatus for the piloting of helicopters and rotorcraft; Electronic controllers for the piloting of helicopters and rotorcraft; Fly-by-wire flight control systems for helicopters and rotorcraft comprised of computer hardware, electric sensors for collecting flight data and avionic navigation devices; Flight control systems for helicopters and rotorcraft comprised of optical fibres; Flight control systems for the piloting and autopiloting of helicopters and rotorcraft, comprising flight control computer hardware, electric wires or optical fibre cables, sensors for collecting flight data, calculating machines, data processing equipment and computers, and flight data software for collecting, managing, storing and analyzing flight data; Electronic display interfaces for the cockpits of helicopters and rotorcraft, namely, flight deck consisting of flight control apparatus and a flight instrument panel comprising visual display LCD or LED panels driven by flight management systems comprised of computer hardware and software for managing flight data and which displays adjustable information for piloting and navigation and for the checking and monitoring of flight parameters, components and on-board equipment; Head-up displays for use in helicopters and rotorcraft, namely, transparent electronic display interfaces for providing pilot and co-pilot with navigational and operational information; Flight instruments providing the pilot with information about the flight situation of the helicopter or rotorcraft comprising computers, computer hardware and sensors for collecting flight data; Automatic pilots for use in helicopters and rotorcraft comprising computers, computer hardware and computer software for automated piloting of helicopters and rotorcraft; Apparatus for checking helicopter and rotorcraft flight parameters; Electronic navigational apparatus and instruments for helicopters and rotorcraft; Avionic equipment, namely, control, monitoring, communication, navigation, weather, and anti-collision systems for helicopters and rotorcraft comprised of electronic controllers for piloting aircraft, computer hardware and software for monitoring flight data, satellite telephones, radios, navigation devices, weather sensors and radios and electronic proximity sensors and alarms for avoiding collisions; Accelerometers, altimeters, radar altimeters, ammeters, anemometers, barometers, flowmeters, frequency meters, manometers being pressure gauges, tachometers being revolution counters, thermometers, torque meters, velocimeters, vibration meters, voltimeters, range finders, fuel gauges, all being for use in helicopters and rotorcraft; Engine oil pressure and temperature indicators, Fuel pressure and temperature indicators, attitude indicators featuring artificial horizons, airspeed indicators, course deviation indicators, first limit indicators (FLI) for monitoring engines and displaying the available power in all situations, heading indicators being directional indicators, horizontal situation indicators (HSI), radio magnetic indicators (RMI), turn indicators, and vertical speed indicators being

variometers, all being for use in helicopters and rotorcraft; Inertial measurement devices for use in helicopters and rotorcraft; Gyroscopes, rate gyroscopes and gyrolasers for use in helicopters and rotorcraft; Compasses, gyrocompasses, magnetic compasses and radio compasses being automatic direction finders for use in helicopters and rotorcraft; Electronic visual omni range (VOR) receivers for use in helicopters and rotorcraft; Global position system (GPS) apparatus for use in helicopters and rotorcraft; Ground proximity warning systems (GPWS), enhanced ground-proximity warning systems (EGPWS), and terrain awareness and warning systems (TAWS) for use in helicopters and rotorcraft, all comprised of computer hardware, proximity sensors and alarms; acceleration sensors for use in helicopters and rotorcraft; air temperature sensors for use in helicopters and rotorcraft; alarm sensors for use in helicopters and rotorcraft; distance sensors for use in helicopters and rotorcraft; electrical sensors for use in helicopters and rotorcraft; electro-optical sensors for use in helicopters and rotorcraft; fire sensors for use in helicopters and rotorcraft; fluid level sensors for use in helicopters and rotorcraft; frost sensors for use in helicopters and rotorcraft; gas sensors for use in helicopters and rotorcraft; heat sensors for use in helicopters and rotorcraft; humidity sensors for use in helicopters and rotorcraft; impact sensors for use in helicopters and rotorcraft; infrared sensors for use in helicopters and rotorcraft; level sensors for use in helicopters and rotorcraft; load sensors for use in helicopters and rotorcraft; light sensors for use in helicopters and rotorcraft; magnetic sensors for use in helicopters and rotorcraft; movement sensors for use in helicopters and rotorcraft; noise sensors for use in helicopters and rotorcraft; optical sensors for use in helicopters and rotorcraft; piezoelectric sensors for use in helicopters and rotorcraft; position sensors for use in helicopters and rotorcraft; pressure sensors for use in helicopters and rotorcraft; proximity sensors for use in helicopters and rotorcraft; smoke sensors for use in helicopters and rotorcraft; speed sensors for use in helicopters and rotorcraft; temperature sensors for use in helicopters and rotorcraft; torque sensors for use in helicopters and rotorcraft; vibration sensors for use in helicopters and rotorcraft; sensors for detecting actual and projected faults for use in helicopters and rotorcraft; Detectors for use in helicopters and rotorcraft, namely, carbon dioxide and monoxide detectors, fire detectors, heat detectors, leak detectors, immersion detectors, motion detectors, particle detectors, proximity detectors, radar detectors, rotor speed detectors, vibration detectors; Transducers for use in helicopters and rotorcraft, namely, resonant transducers, magnetostrictive transducers, piezoelectrical transducers, electrostatic transducers, variableresistance transducers, electro-optic transducers, electroacoustic transducers, force transducers, high frequency transducers, linear transducers, measuring transducers, pressure transducers, torque transducers, ultrasonic transducers; Electric power supply units for helicopters and rotorcraft; Electric accumulators for helicopters and rotorcraft; Electric valve actuators for use in helicopters and rotorcraft; Voltage regulators for helicopters and rotorcraft; Commutators for use in helicopters and rotorcraft; Electrical inverters for use in helicopters and rotorcraft; Electric switches for use in helicopters and rotorcraft; Pressure switches for use in helicopters and rotorcraft; Electric actuators for use in helicopters and rotorcraft; Fuel flow regulators for use in helicopters and rotorcraft; Time clocks, namely, time recording devices for use in helicopters and rotorcraft; Calculators, first limit calculators, obstacle avoidance calculators, navigation calculators, all being for use in the field of helicopters and rotorcraft; calculators for assessing health conditions, damages and service life of helicopters and rotorcraft; Data processing apparatus, data processors, computers, computer hardware, and computer peripherals, all being for use in the field of helicopters and rotorcraft; Printed circuit boards for use in helicopters and rotorcraft; Data processing equipment, namely, couplers for helicopters and rotorcraft; On-board computers for helicopters and rotorcraft; Air data computers for use in helicopters and rotorcraft; Symbol generators, namely, display processing computers for use in helicopters and rotorcraft; Computer monitors, visual display screens, flat panel display screens, touch

screens, and multi-function LED and LCD screens, all being for use in the field of helicopters and rotorcraft; Airborne data acquisition instruments for use in helicopters and rotorcraft comprising computers, computer hardware and data processing equipment; Flight data recorders for use in helicopters and rotorcraft; Digital voice recorders for use in helicopters and rotorcraft; Electronic devices, namely, decoders, encoders, signal scramblers and descramblers, electronic encryption and decryption units, all being for use in the field of helicopters and rotorcraft; Transponders for use in the field of helicopters and rotorcraft; Electronic transmitters for use in the field of helicopters and rotorcraft; Transceivers for use in the field of helicopters and rotorcraft; Radio transmitters, radio receivers and radio signal tuners for use in the field of helicopters and rotorcraft; Antennas, aerials, and satellite dishes, modems, telephone apparatus, and telephone receivers for use in the field of helicopters and rotorcraft; Amplifiers for use in the field of helicopters and rotorcraft; Headphones, microphones, loudspeakers, for use in the field of helicopters and rotorcraft; Cameras, video cameras, and infrared cameras for use in helicopters and rotorcraft; Electronic card readers for use in the field of helicopters and rotorcraft; Radars for use in helicopters and rotorcraft; alarm installations, alarms, electric warning systems for use in helicopters and rotorcraft; Emergency locator transmitters for helicopters and rotorcraft; Computer software for helicopter and rotorcraft flight control; Computer software for helicopter and rotorcraft navigation and piloting assistance; Computer software for managing and recording helicopter and rotorcraft flight data; Computer software for the design, manufacture, testing, maintenance and repair of helicopters and rotorcraft and equipment and components of helicopters and rotorcraft; Data acquisition and processing software for the design, manufacture, piloting, flight, guidance, navigation, surveillance, safety, maintenance and repair of helicopters and rotorcraft; Computer software to assist in regulating parameters of devices used for designing, manufacturing, piloting, guiding, flying, navigating, surveying, maintaining and repairing helicopters and rotorcraft; Computer software to assist in troubleshooting faults, damages, mechanical failures and the replacement of time-expired parts for helicopters and rotorcraft; Computer software for indicating failures and faults in helicopters and rotorcraft and proposing reparative actions for the aforesaid failures and faults; Digital cartography computer software for use in the field of helicopters and rotorcraft; Computer software for preparing helicopter and rotorcraft flight plans; Mission planning computer software for helicopters and rotorcraft; Helicopter and rotorcraft flight report presentation computer software; Computer software to track and locate helicopters and rotorcraft; Computer software for the identification and authentication of persons for use in the field of helicopters and rotorcraft; Computer software for the encoding, decoding, encryption, decryption of data, for use in the field of helicopters and rotorcraft; Synthetic Vision Systems (SVS) and Enhanced Vision Systems (EVS), namely, computer hardware and software systems for displaying a realistic 3D depiction of the outside world and adding real-time information collected from sensors installed on helicopters and rotorcraft, in order to assist in piloting and navigating helicopters and rotorcraft by improving pilot's situational awareness; Daytime/nighttime vision goggles for use in helicopters and rotorcraft; Maintenance kits for helicopters and rotorcraft comprised primarily of computer hardware and software, sensors, electric cables and wires, for measuring and analyzing vibrations of main and tail rotors, transmission shaft and other dynamic components, and providing computerized adjustments of flight parameters; Electronic test benches for testing aircraft cockpit electronics in helicopters and rotorcraft; Electronic testing apparatus for testing aircraft cockpit electronics in helicopters and rotorcraft; Flight simulators for helicopters and rotorcraft; Helicopter and rotorcraft flight simulation software; Helicopter and rotorcraft flight and maintenance manuals in electronic format that are recorded on computer media or downloadable; Electronic

publications, namely, electronic books, manuals, magazines, periodicals, journals, catalogs, brochures, newsletters, and service bulletins relating to helicopters and rotorcraft that are recorded on computer media or downloadable; Video game software; Fire extinguishers for use in helicopters and rotorcraft; Computer joysticks for piloting helicopters and rotorcraft **International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus
