CASE IDENTIFIERS

Serial Number 97189653 **Application Filing Date** Dec. 24, 2021 **Register** Principal **Mark Type** Trademark **Publication Date** May 21, 2024

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the Jamaican flag of black, gold, and green sweeping from the lower part to the left side going to the top. The flag is topped off by a green coconut tree top. Sitting atop the lower part of the flag is a red and white picnic cloth covering a picnic table on which is a brown basket with a French bread and jars and bottles of condiments. In the background is a lush slope of 3 shades of green, followed by a brown slate mountain to the left of it. To the very back and top is a representative of the bright Caribbean sun with golden rays and a black bird with wings spread soaring thru the skies. The logo's design is completed with a butterfly in the colors of the Jamaican flag, black, gold and green. Across the lower image of the logo is the name of the brand with colors of red, gold and green running into each other giving an orange hue between the red and gold saying "CARIBBEAN DELIGHT", which is outlined in black. Below the design is the brand tag line in black caps "IT'S ALL IN THE TASTE" with a shadow of the letters. **Color Drawing** Yes **Color Claimed** The color(s) red, yellow, green, black, gold, brown, blue, white and orange is/are claimed as a feature of the mark. **Disclaimer** "CARIBBEAN"

Serial Number 97305727 **Application Filing Date** Mar. 10, 2022 **Register** Principal **Mark Type** Service Mark **Amended to Principal Register** Yes **Date Amended to Current Register** Mar. 10, 2022 **Publication Date** May 21, 2024

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the words "REVOLUTIONNJ ENGAGE THE PAST. SHAPE THE FUTURE." and a stylized crossroad design. The word "REVOLUTION" appears in blue letters with the letter "R" capitalized next to the wording "NJ" which appears in light blue capital letters. The words "ENGAGE THE PAST. SHAPE THE FUTURE." are positioned under the words "REVOLUTIONNJ" in capital blue letters and in smaller size lettering. The words "ENGAGE THE PAST. SHAPE THE FUTURE." appear to the right of the years "1776" and "2026" in blue capital letters. A light blue vertical line is depicted between the year "2026" and the word "ENGAGED". A white crossroad design is depicted within a light blue frame comprised of a square with two rounded corners. The bottom portion of the crossroad design element is yellow and the top portion of the crossroad design is dark blue. A white star appears in the upper right portion of the top blue area above the crossroad. The remaining white in the drawing represents background and/or transparent areas and is not part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) blue, light blue, white and yellow is/are claimed as a feature of the mark. **Disclaimer** REVOLUTION NJ, 1776, AND 2026

CASE IDENTIFIERS

Serial Number 97374100 **Application Filing Date** Apr. 21, 2022 **Register** Principal **Mark Type** Trademark **Publication Date** May 21, 2024

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of trade dress of the exterior of a beverage can with a black background. Written on the can are the blue stylized words "EY' BRO" centered prominently in the middle of the can. At the top centered above the central wording is the wording "EY' BRO" and "LAGER" in white making the shape of an oval. On either side of the white oval are two spikey circles. In the center of the oval-shaped wording is a white oval with the wording "NO. 1" in black inside. The can further consists of sketched depictions of a white asterisk to the right of the circle wording. To the left of "EY'" is a white bird carrying a banner in its mouth with the wording "BEER" on the banner in white. Below the bird is two white hearts. To the right of "EY'" is a white heart with a sword through it. To the left of "BRO" is a white rose, the stem coming out of the bottom of the "B". To the right of "BRO" is a white lightening bolt. At the bottom right corner of the "O" is a white spikey circle. The word "LOVE" is written vertically in white at the bottom right of the can. At the bottom of the can, centered beneath "BRO" is a white chain consisting of seven links. The broken lines depicting a can indicate placement of the mark on the goods and are not part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) black, white, and blue is/are claimed as a feature of the mark. **Disclaimer** "NO. 1" AND "LAGER"

GOODS AND SERVICES INFORMATION

For Pyrolysis equipment; carbonization equipment; equipment for production of biochar products

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Chemical agents for carbon sequestration and capture; microbial formulations for carbon sequestration and capture; soil additives; fertilizers

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Scientific instruments for measuring and monitoring carbon levels; downloadable software for tracking and reporting carbon sequestration programs; downloadable software for managing and validating carbon credit and carbon certificate transactions using blockchain-based smart contracts; downloadable software for managing and validating SFT and NFT transactions using blockchain-based smart contracts; downloadable software for managing and validating cryptocurrency transactions using blockchain-based smart contracts

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing temporary use of non-downloadable computer software, namely, an electronic platform for trading carbon credits, carbon certificates, SFTs and NFTs; providing temporary use of non-downloadable computer software, namely, an electronic platform for managing and validating carbon credit and carbon certificate transactions using blockchain-based smart contracts; providing temporary use of non-downloadable computer software, namely, an electronic platform for managing and validating SFT and NFT transactions using blockchain-based smart contracts; providing temporary use of non-downloadable computer software, namely, an electronic platform for managing and validating cryptocurrency transactions using blockchain-based smart contracts

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Materials for construction of devices and installations for nuclear cycle use, namely, glass, cement, concrete, and bitumen; building materials, not of metal, namely, plastic webbing material used to reinforce bituminous waterproofing sheets; building materials, namely, semi-worked woods; building materials, namely, plastic pipe supports; building materials, namely, cellular PVC trim; building materials, namely, fly ash; building materials, namely, composite panels composed primarily of nonmetal materials; building materials, namely, concrete-based slabs made using recycled glass; building materials, namely, fire and blast-resistant doors comprised primarily of reinforced cement and also including steel elements; non-metal building materials, namely, soffits; reinforcing material not of metal for building purposes; building materials, namely, manufactured brick veneer for use on interior and exterior walls, floors and surfaces, patios, poolsides and driveways; building materials, namely, non-metal countertops for further installation; building materials, namely, stair nosing not of metal; building materials, namely, pre-cast concrete wall forms; building materials, namely, plastic pedestals for elevating pavers; cementitious material

for building purposes; nonstructural building materials, namely, granite used in decorative surface applications for countertops and vanity tops; non-metal air conditioning ducts, not for electrical circuitry; non-metal heating ducts; non-metal ventilating ducts; non-metallic transportable buildings for safety systems; construction materials, not of metal, namely, fiberglass panels; construction material, namely, nonmetal exterior boards; construction material, namely, fiberglass faced panels; construction material, namely, fiberglass faced sheathing; construction materials, namely, underlays of agglomerated cork; construction materials, namely, concrete slabs designed to increase energy efficiency and energy conservation; construction materials, namely, energy conserving precast concrete slabs; construction materials, namely, non-metal bonding fasteners for mounting and demounting of ceiling and wall panels; construction materials, namely, composite panels consisting of a rigid expanded polystyrene core bonded to an outer skin of MDF (medium-density fiberboard) wood sheet; construction materials, namely, composite panels comprising primarily of a reinforced cement core that is mechanically bonded to steel sheets on both outer surfaces for use in barriers and doors; construction materials, namely, non-metal flooring materials; construction materials, namely, non-metal materials for constructing floors; construction materials, namely, non-metal piles; nonmetal construction materials, namely, drilled and grouted pile foundations; non-metal forming systems for concrete and other curable construction materials comprised of non-metal modular casting forms; refractory construction materials, not of metal; prefabricated and transportable non-metal buildings and non-metal building materials, namely, concrete blocks, tiles, ports, poles, slabs, panels, ducts for uranium mines, nuclear plants and for the storage, warehousing, isotopic separations, processing, reprocessing and recycling of nuclear materials, uranium, plutonium and nuclear waste; water-pipes, not of metal; sandstone tubes; ducts, not of metal, for ventilating and air-conditioning installations; branching pipes, not of metal

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Anti-corrosive preparations being coatings; protective preparations being coatings for metals; paints; colorants; lacquers; coating compositions in the nature of paint for industrial applications; exterior surface protective coatings; coatings in the nature of industrial sealants for waterproofing and surface hardening; anti-corrosive and fire retardant coatings; radiation curable coatings for use in areas related to nuclear industry and energy; sealer coatings for use in areas related to nuclear industry and energy; protective coatings for use in areas related to nuclear industry and energy

International Classes 2 - Primary Classes **US Classes** 6, 11, 16 **International Class Title** Paints

For Radioactive substances for medical purposes; isotopes for medical purposes namely, iodine-125 medical dressings; surgical dressings; biological preparations for the treatment of cancer; pharmaceutical preparations and substances for the treatment of infectious diseases, blood disorders, pain, inflammation, sepsis, alopecia, obesity and cognitive disorders; pharmaceutical preparations for the prevention and treatment of ocular disorders or diseases, for the treatment of bacteria-based diseases, and for the treatment of diabetes, anti-infective preparations, antiviral preparations, antibiotics, antifungal preparations and vaccines; pharmaceutical preparations and diagnostic preparations for the treatment of viral, metabolic, endocrine, musculoskeletal, cardiovascular, cardiopulmonary, hepatological respiratory, neurological, respiratory, neurological, hormonal, psychiatric and immune system related diseases and disorders; radioactive substances for use in nuclear medicine; diagnostic radiopharmaceutical preparations; radiopharmaceutical imaging and detection agents for diagnosing and monitoring cancer; radioactive pharmaceutical preparations and non-radioactive reagents for producing radio pharmaceuticals for in vivo diagnostic or therapeutic use; radio pharmaceutical sources, namely, radioisotopes such as technetium-99m and iodine-131, for use in nuclear medicine; surgical implants comprised of living tissues

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Financial analysis and financial management in areas related to nuclear industry and energy; financial analysis; financial consultancy, investment advisory services; financial investment services, namely, administering the issuance, underwriting and distribution of securities; investment management; financial and investment services, namely, asset and investment acquisition, consultation, advisory and development; financial consulting and advising in the field of mergers and acquisitions; financial assessment and evaluation relating to the nuclear industry and energy field; financial analysis and consultation relating to the nuclear industry and energy field; financial management relating to the nuclear industry and energy field; provision of financial information relating to the nuclear industry and energy field

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Surgical cloth for protection of the wound edges of an incision; Radiological apparatus for medical purposes; linear accelerators for radiation treatment of tumors; medical apparatus including devices for production of solid radon concentrates and instruments; electromagnetic instruments for medical purposes, namely, electromagnetic medical diagnostic imaging apparatus; high frequency electromagnetic therapy apparatus; low frequency electromagnetic therapy apparatus; radiological equipment for medical purposes, namely, medical apparatus and instruments for use in positron emission tomography (PET) imaging; medical equipment, namely, computed tomography (CT) apparatus; nuclear medicine diagnostic imaging apparatus; nuclear spin tomographs for medical purposes; x-ray tubes for medical purposes; x-ray apparatus for medical use; medical radiotherapy apparatus; surgical, medical, dental and veterinary apparatus and instruments, namely, masks for use by medical personnel; suture materials and surgical thread; needles for medical use; medical apparatus and instruments for use in surgery; apparatus for blood analysis; medical, surgical and orthopedic implants made of artificial materials, namely, artificial limbs, eyes and teeth; artificial skin for surgical purposes; protection devices against x-rays, roentgen rays for medical purposes

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Railbound vehicles for monitoring and maintenance of rails and catenaries; space vehicles; electric drives for vehicle propulsion; motor vehicles, namely, automobiles, trucks, vans, sport utility vehicles and structural parts therefor; apparatus for locomotion by land, air or water, namely, aircushion vehicles, aircraft, airplanes, all-terrain self-propelled tracked carrier vehicles, amphibious vehicles, armored vehicles, automatic guided vehicles and structural parts therefor; electric motors for land vehicles; engines for land vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Paper, cardboard and goods made from these materials not included in other classes, namely, albums for stickers, coin albums, event albums, photograph albums, scrapbook albums, stamp albums, printed forms, note books; printed publications, namely, pamphlets, booklets, newsletters, magazines, design manuals, construction manuals, technical manuals, brochures, advertising brochures, all in the field of nuclear energy; calendars; index cards; printed registration cards; catalogs in the field of nuclear energy; notebooks; envelopes; graphic prints and representations, namely, design drawings, plans, drafts; stationery; typewriters; office requisites, namely, adhesive tape dispensers, correcting fluid for type, electric paper hole punches, staplers, pens, pencils, erasers, stationery; printed instructional, educational and teaching materials in the field of nuclear energy; photographs; printers' type

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Valves, being parts of machines other than for vehicles; electricity generators; engines other than for vehicles; valves as compressed air machine components; proportional flow valves as parts of machines; pump control valves; thermostatic control valves for machines; back pressure valves as parts of machines; machines, machine tools, and parts therefor for drilling, extracting, producing, handling, processing, warehousing, and isotopically separating and storing ores, metals, nuclear fuels, nuclear materials, plutonium, uranium, and nuclear wastes, used in nuclear energy, connector, and electronic industries; machinery, namely, machinery for the decontamination and for the breaking up of nuclear installations; metalworking machines and apparatus; pumps, namely, centrifugal pumps for nuclear industry and energy; industrial machine presses for use in nuclear industry and energy; turbines for use in nuclear industry and energy; centrifugal machines for use in nuclear energy including gas centrifuges, centrifuges for uranium enrichment and isotopic separation; transmissions for machines; Numerical control machines for use in nuclear power plants; installations for spray coating; magnetohydrodynamic machines in the nature of power generators; equipment for decontaminating power plant components that have become contaminated with radioactivity, namely, high pressure washers and machines for blast cleaning a surface

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Ammunition and projectiles; detonators; detonating caps, other than toys; detonating plugs; detonation devices for blasting underwater mines; explosives; firearms

International Classes 13 - Primary Classes **US Classes** 2, 9 **International Class Title** Firearms

For Component parts for nuclear reactors; modular nuclear power plants, featuring fuel, steam generators, reactor vessels, reactor vessel heads, reactor internals, control rod drive mechanisms; filters and filtering devices for air and gas conditioning; gas scrubbing apparatus; air purifying apparatus and machines; air conditioning apparatus and installations; nuclear reactors; light-emitting-diode lamps; cooling installations for nuclear waste and spent fuel; waste treatment installations for processing nuclear fuel and nuclear moderating material and nuclear waste; air filtering installations; heating, steam production, cooking, refrigerating, drying, and ventilating equipment, namely, air conditioners, air filters and purifying units, industrial heaters, heat exchangers, heat pumps, industrial water heaters, industrial dryers for heating and dehumidifying, ventilating fans, and ventilating louvers all for commercial and industrial use in plant, mines, and structures for the storage, warehousing, isotopic separation, processing, reprocessing, and recycling of fuels, ores, nuclear materials, uranium, plutonium, and nuclear boilers and blocks; water filtering apparatus; water filtering units for industrial use; water purification installations; water purification machines; apparatus and instruments for use in the purification, separation and sterilization of liquids and gases used in areas related to nuclear industry and energy; water filtering installations for use in areas related to nuclear industry and energy; filters for machines for removing nuclear materials; filters for household or industrial installations, namely, the removal of nuclear materials; nuclear power plants; nuclear power generators; nuclear generators

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Publication of books, manuals; educational services, namely, conducting workshops and seminars in neutron science and technology and neutron scattering, providing courses of instruction at the post-graduate level; education services, namely, providing live and on-line classes, seminars, presentations and workshops in the field of nuclear industry and energy; educational services, namely, conducting seminars and training courses in the field of commercial nuclear electric generating plant operations; organization of exhibitions for cultural or educational purposes; publication of electronic books and journals on-line; publication of texts, other than publicity texts; educational services, namely, organization and conducting of meetings, seminars, in-person forums, courses, congresses, symposia, conferences, and educational courses rendered through videoconferences in areas relating to nuclear industry and energy; training and educational services in the nature of classes, workshops, courses at the college and university level, correspondence courses, conducting distance learning instruction at the college and university level, and educational examination services in areas relating to nuclear industry and energy

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Americium; fissionable material for nuclear energy, namely, uranium; neutron absorbent materials, namely, boron, cadmium, silver, for use in commercial nuclear power plants and for operation of nuclear reactors to produce energy; gadolinium; gallium; chemical getter; graphite for industrial purposes; graphite chips; magnesium-calcium-alloys; titanium dioxide for industrial purposes; zirconia; zirconia dioxide in the nature of zirconia; uranium dioxide; moderating materials for nuclear reactors, namely, heavy water, graphite; neutron moderators, namely, chemical compounds used for reducing the energy of neutrons passing through them for the purpose of assisting the detection of neutrons; isotopes for industrial purposes including sources based thereon; isotopes of rare earth metals; californium; carbide; biochemical catalysts; silicon; trichlorosilane; chemical preparations in the nature of filtering materials used for safeguarding the handling of nuclear products; toxic gas neutralizers; nitrate of uranium; aluminum oxide; uranium oxide; cobalt oxide for industrial purposes; purification preparations for industrial purposes; plutonium; surface-active chemical preparations used to reduce surface tension in operation of nuclear power plants; biological preparations for use in industry, science, photography, agriculture, horticulture, and forestry, other than for medical or veterinary purposes; plant growth regulating preparations; natural and enriched uranium and uranium products, namely, uranium slugs, uranium powder, uranium oxide, uranium tetrafluoride, uranium hexafluoride, uranium oxide concentrate, hydrofluoric acid, hydrogen fluoride; radon; fissionable chemical elements, namely, uranium and plutonium; rare earth metals, namely, holmium, dysprosium, europium, ytterbium, yttrium, lanthanum, neodymium, praseodymium, samarium, scandium, terbium, thulium, cerium, erbium; mercury; salts of precious metals for industrial purposes; gold salts; salts from rare earth metals; salts of alkaline metals; fireproofing preparations; soluble glass being water glass; thallium; fuel for atomic piles; carbon; fertilizing preparations; phosphorus; metal hardening preparation; soldering chemicals; chemical substances for use as nuclear fissionable material; water purifying chemicals; chemical products, preparations and compositions, namely, solvents, extractants, complexants, resins, nitric, sulfuric and fluorohydric compounds, soda, ammoniac, oxidation and reducing agents intended for nuclear energy; chemical products for industrial and scientific purposes, namely, rare earth elements, vanadium oxide, fused quartz, doped silicon, stable and radioactive isotopes, and highly purified materials for manufacture of electrical energy; calcium chloride; chemical products for industrial and scientific purposes, including stable and radioactive isotopes, and highly purified materials, for manufacture of electrical energy; barium; tellurium; lithium; rubidium; strontium; caesium; radioactive elements for scientific purposes and compounds and alloys thereof; fuel for nuclear reactors consisting of pellets of fissile materials

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Business administration and management; business administration and office work; business administration consultancy; business administration assistance; conducting marketing studies; business enquiries and investigations; marketing research; business management and organization consultancy; business organization consultancy; business management consultancy; professional business consultancy; marketing consulting; marketing plan development; business marketing services; marketing services, namely, promoting or advertising the goods and services of others; import-export agencies; import-export agencies in the fields of nuclear industry and energy; organization of exhibitions for commercial or advertising purposes; business management assistance; commercial and industrial management assistance; assistance and consultancy services in the field of business management of companies in the energy sector; economic forecasting and analysis; advertising services; advertising and marketing; compilation and systemization of information into computer database; promotional sponsorship of cultural activities in the field of nuclear industry and energy; corporate management assistance; business strategy development services; commercial business management; association services, namely, promoting the interests of the nuclear industry and energy; advertising and publicity services, namely, promoting the goods, services, brand identity and commercial information and news of third parties through print, audio, video digital and on-line medium; business efficiency experts; updating and maintenance of data in computer databases; professional consultancy in the field of energy management to improve energy efficiency in areas related to the nuclear industry and nuclear energy

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Drilling of wells; rebuilding machines that have been worn or partially destroyed; electric appliance installation and repair; building sealing and caulking services; mining extraction; installation of building insulation; consultancy and information in the field of construction of uranium enrichment plants; installation, repair and maintenance of facilities for uranium enrichment and isotopic separation; provision of building construction and repair information; building construction supervision; commissioning in the nature of installation of nuclear power generation equipment; quarrying services; construction and repair of waste storage facilities; factory construction, including uranium enrichment plants, nuclear power plants and nuclear waste recycling facilities; building, installation and maintenance services of buildings and structures in areas related to nuclear industry and energy; construction, maintenance, decommissioning and repair of nuclear stations, nuclear reactors, and water reactors, nuclear fuel producing facilities, nuclear fuel re-processing facilities, nuclear material storage facilities and waste storage facilities, mines, plants and centers for the storage, processing, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium; installation, repair, and maintenance services for apparatus, equipment and infrastructure in nuclear power plants and energy generation installations; installation and maintenance services of inspection and safety equipment in nuclear power plants and energy generation installations; installation, maintenance and repair of radiological apparatus; installation and repair of alarms for the detection of nuclear materials; installation, maintenance and repair of machinery for power stations, nuclear repositories, nuclear fuel producing facilities, nuclear fuel re-processing facilities, nuclear material storage facilities and waste storage facilities. installation, maintenance and repair services for installations and equipment for uranium enrichment and uranium isotopic separation; interference suppression services for electrical apparatus; mining extraction services, namely, operation of uranium mines, mining of uranium deposits, uranium extraction, and extraction of nuclear materials; providing an online database in the field of diagnosis, repair, and configuration of computers

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Accumulators, electric; laboratory apparatus, namely, centrifuges; diagnostic apparatus, not for medical purposes, namely, apparatus and instruments for detecting, measuring and monitoring radioactivity and radioactive contamination; testing and measuring equipment for use in testing the performance and efficiency of power plant equipment; downloadable computer software to monitor and control factory manufacturing processes; electric control devices for heating and energy management; electric installations for the remote control of industrial operations; electronic apparatus for the remote control of industrial operations; gas appliance alarm timer for detecting and alerting the presence of gas flow after a prescribed period of time; x-ray producing apparatus and equipment, not for medical purposes, namely, charged particle linear accelerators for producing high energy x-rays and for x-ray imaging, for use in inspection, for use in materials testing, and for industrial and security applications; surveying apparatus and instruments; radiological apparatus for industrial purposes; cameras for monitoring and inspecting equipment in a nuclear power station; articles of protective clothing for protection against accident or injury for use in work with radioactive materials to prevent injury due to radiation exposure; accumulator jars; galvanic batteries; betatrons; radiation detectors comprised of air and gas moving fans; gas testing instruments; radio frequency generators for supplying radio-frequency energy; radiation detectors for nuclear industry and energy; radioactivity detectors; gamma radiation detector and neutron detector used for detecting signals from x-rays or neutrons; radiation detectors; dosimeters; electro-optical instruments for use in inspection and measurement of industrial components; environmental monitoring system comprised of meters and sensors that measure pressure, humidity, temperature and includes alarm and reporting functions; measurement standard devices for nanometrology, namely, measuring tools having a pattern in the micrometer or nanometer ranges; electronic and optical apparatus and instruments, namely, computer and video monitors, scales, bevels, lasers, pocket calipers and tape measures for inspecting, monitoring, weighing, and measuring physical and geometrical parameters in industrial installations in the field of the production of nuclear energy and the nuclear fuel cycle; X-ray thickness measuring gauges not for medical use; gamma-ray thickness measuring gauges not for medical use; gamma-ray level measuring gauges not for medical use; scientific, optical, weighing, measuring, checking, monitoring, surveying, detecting, assaying, analysis and information gathering apparatus and instruments, namely, for use in the construction, operation, maintenance, decommissioning and repair of industrial plants, power stations, nuclear repositories, nuclear fuel producing facilities, nuclear fuel re-processing facilities, nuclear material storage facilities and waste storage facilities, and for use in scientific research, industrial research, research and development of new products for others, and material testing, namely, flaw detectors, sensors, rangefinders, detectors, analyzers, remote control telemetering apparatus, spectroscopes, spectrographs, scales, wavemeters, hygrometers, radiation gauges used for measuring the physical properties of materials, level indicators spirit levels, calculators, power controllers, electrical controllers, lasers for measuring purposes, lasers for industrial use, force measurement products, namely, digital force gauges, digital torque gauges and manual and motorized test stands used therewith sold as a unit with the gauges, voltage regulators, humanoid robots with artificial intelligence for use in scientific research, laboratory robots, geiger counters, timers, thermostats, ballasts for gas discharge lamps, particle accelerators, clothing for protection against radiation, cables for electrical and optical signal transmission systems, signal processors, frequency meters, emergency signal transmitters, cyclotrons, electrolyzers, and downloadable and recorded computer software for use in creation, provision and management of digital twins; electrical switchgear, namely, voltage boosting devices for electric power lines and electric control panels for use in nuclear power plants; downloadable computer

programs and downloadable software for use in database management, use as a spreadsheet, word processing, and prerecorded magnetic data carriers; downloadable computer software for controlling and operating imaging and x-ray machines; downloadable computer software and databases for use in diagnosis, repair and configuration of computers; downloadable computer software for medical imaging equipment, namely for interpreting the results of CT scanners; downloadable computer software for processing and displaying images on ultrasound medical imaging machines; downloadable computer software for use in cancer diagnosis; downloadable computer software for use in controlling and improving computer processing speed; downloadable computer utility programs for providing diagnostic details on devices installed in a computer system; downloadable computer programs and downloadable computer software for control and management at nuclear energy facilities and non-energy applications of nuclear technologies in the field of nuclear industry and energy; accumulator boxes; laboratory apparatus, namely, crucibles; blank audio tapes; blank video tapes; blank tapes for storage of computer data; blank magnetic disks; blank magnetic tapes for tape recorders; blank magnetic data carriers; blank recordable audio discs; blank recordable video discs; blank magnetic audio tapes; blank magnetic video tapes; electric semiconductors; electronic semi-conductors; semi-conductor memories; semi-conductor memory units; semi-conductors; structured semi-conductor wafers; silicon wafers; integrated circuits; superconductors, namely, low-temperature and high-temperature superconductors; experimental devices in the field of fusion technologies, namely, superconducting poloidals; semiconductor chips; semiconductor devices; superconducting tapes; superconducting wires and cables; program controlling machines and instruments, namely, electronic and optical apparatus and instruments for inspecting, monitoring, weighing and measuring physical and geometrical parameters in industrial installations in the field of nuclear industry and energy; technological mechanisms, namely, flaw detectors and analyzers and measuring devices for testing gas, liquids and solid materials to obtain information of their properties; apparatus for testing gas, liquids and solids; cement testing machines; apparatus for testing compression, strength, hardness and tensile characteristics of industrial materials; metal compression testing machines; metal hardness testing machines; metal strength testing machines; plastic testing machines; surface roughness testing machines and instruments; textile testing machines; neutron generators featuring charged particle accelerators; protective clothing, namely, footwear, headwear, helmets, and masks for protection against radiation exposure; plates for batteries; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking supervision, life-saving and teaching apparatus and instruments, namely, flaw detectors, sensors, rangefinders, detectors, analyzers, remote control telemetering apparatus, spectroscopes, spectrographs, scales, wavemeters, hygrometers, radiation gauges used for measuring the physical properties of materials, level indicators spirit levels, calculators, power controllers, electrical controllers, force measurement products, namely, digital force gauges, regulators, humanoid robots with artificial intelligence for use in scientific research, laboratory robots, geiger counters, timers, clothing for protection against radiation, signal processors, frequency meters, depth gauges, and downloadable and recorded computer software for use in creation, provision and management of digital twins; scientific, electronic, photographic, optical, numerical control, regulating, signaling, checking supervision and measuring apparatus and instruments for use in nuclear industry and energy, namely, flaw detectors, sensors, rangefinders, detectors, analyzers, remote control telemetering apparatus, spectroscopes, spectrographs, scales, wavemeters, hygrometers, radiation gauges used for measuring the physical properties of materials, level indicators spirit levels, calculators, power controllers, electrical controllers, force measurement products, namely, digital force gauges, voltage regulators, humanoid robots with artificial intelligence for use in scientific research, laboratory robots, geiger counters, timers, clothing for protection against radiation, signal processors, frequency meters, depth gauges, and downloadable and recorded computer

software for use in creation, provision and management of digital twins; electric wires; electric conductors; magnets for industrial purposes; magnet wire for use in making electromagnets; electromagnets; installations in the nature of electrical controls for controlling thermonuclear fusion; high-frequency switching power supplies; automatic switching apparatus for ensuring safe and uninterrupted operation of systems; roentgen measuring apparatus, not for medical purposes; grids for batteries; radiation safety control apparatus in nuclear power plants, namely, radiometric, dosimetric and spectrometric equipment, sampling auxiliaries and related equipment of radiometric laboratories; particle accelerators; eddy-current testing equipment,; ultrasound test equipment, namely, probes, not for medical use; leak detecting device, namely, electronic test instrument and associated recorded software for use in leak, flow and functional testing; cathodic anti-corrosion apparatus; card punching and sorting machines for data processing; apparatus for recording, transmission, processing and reproduction of sound, images or data; calculating machines, data processing equipment and computers; electrical signal processors for use with radiation detectors and monitors; air and gas filters and particulate filters used as part of a radiation detector; cyclotrons; shields for preventing or reducing the passage of gamma rays, beta particles, alpha particles and neutrons; radiological screens for industrial purposes; recorded and downloadable data sets for monitoring and recording data in order to ensure the safety of personnel and operation of nuclear power plants; recorded computer gaming software; recorded computer operating software; recorded computer search engine software; computer software platforms, recorded and downloadable, to ensure control and management of processes at nuclear energy facilities and non-power applications of nuclear technologies

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Data transmission via global computer network; computer-aided data transmission; data transmission via computer terminals, by fiber optic networks and satellites; information about telecommunication; telecommunications, namely, communication by computer terminals, data communication by electronic mail, electronic transmission of data and documents via computer terminals, information transmission via electronic communications networks, on-line document delivery via a global computer network, providing on-line electronic bulletin boards and listservers for transmission of messages among computer users concerning neutron science and technology and neutron scattering in areas related to nuclear industry and energy; telecommunication services, namely, local and long distance transmission of voice, data, and graphics by means of internet, and intranet networks, and radio, telephone, and telegraphic communication services in areas related to nuclear industry and energy; providing access to databases

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Rescue and salvage of nuclear power plants, industrial, and other nuclear complex facilities concerning liquidation of nuclear and radiation accidents; information and consultancy in the field of transportation, packaging for transportation, and storage of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium oxide concentrate, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for industrial and medical purposes, and centrifuges for uranium isotope separation; transport, packaging for transportation, and storage of equipment for construction of facilities for uranium enrichment, spent nuclear fuel and irradiated heat-generating nuclear reactor assemblies; transport services, namely, transport of equipment and nuclear fuel for nuclear power plants; distribution of energy; energy transport in the nature of utility services, namely, transmission of electricity; rental of warehouses; water supplying; transportation, packaging for transportation, and storage of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium oxide concentrate, uranium hexafluoride, plutonium, fuel for nuclear reactors, isotopes for industrial and medical purposes, and

centrifuges for uranium isotope separation; transportation services by air, land, and waterway, namely, packaging for transportation, warehousing, and storing of fuels, ores, nuclear materials, uranium, plutonium, and nuclear waste, and spent nuclear fuel; transportation, packaging for transportation and storage of nuclear fuel, nuclear materials, radioactive materials, radioactive waste, spent nuclear fuel, nuclear fuel rods, spent nuclear fuel rods, nuclear fuel assemblies, and spent nuclear fuel assemblies

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Waste treatment in the nature of vitrification of hazardous materials, namely, encasing chemicals, nuclear materials, nuclear waste, fission products, radioactive materials in vitreous material or glass; material treatment in the nature of vulcanization; electroplating; decontamination of hazardous materials in the nature of chemicals, nuclear materials, nuclear waste, fission products and radioactive materials from buildings, plants and land; metal tempering; gilding; providing information in the field of material treatment; cadmium plating; metal casting; boiler-making; material treatment in the nature of magnetization of metals; metal treating in the nature of electroplating and metal coating; metal treating and casting; metal treating in the nature of hardening of metal and metal products; nickel plating; water treating; woodworking; metal treating; waste treatment, namely, treatment of spent nuclear fuel, fission products, neutron poisons, neutron moderating materials and waste; waste treatment, namely, reprocessing of nuclear fuels; waste treatment, namely, transformation of waste; providing services in the field of mechanical and thermal treatment of metals; purification of air; soldering; metal plating; gold plating; rental of electric power generators; custom assembling in the nature of manufacture of products, namely, nuclear power plant equipment, machinery for handling hazardous waste, spent fuel, radioactive waste management for others in areas related to nuclear industry and energy; grinding; sawing in the nature of sawmill services; soldering; silver-plating; incineration of waste and trash; custom assembly in the nature of manufacture of inspection and safety equipment for research and engineering in areas related to nuclear industry and energy, for others; processing of oil; metal treating in the nature of uranium and plutonium enrichment, conversion, re-conversion and laser isotope separation; metal treating in the nature of processing to obtain metals from native earth ores; recycling for fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; decontamination of hazardous materials; nuclear waste treatment; waste treatment in the nature of processing of nuclear materials; energy production services; nuclear energy production services; destruction and incineration services for waste, nuclear waste and nuclear waste in the nature of spent fuel; recycling services for nuclear waste; mill working; chromium plating; galvanizing; optical glass grinding; radioactive waste treatment

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Oils, greases and lubricants for use in nuclear industry and energy; dust absorbing compositions, dust wetting compositions, namely, petroleum based dust suppressing compositions, and dust binding compositions; fuels, namely, motor spirit and illuminants; electrical energy

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Carbon fibers not for textile use; plastics in extruded form for use in manufacture, including the manufacture of packaging, containers, handles, strips; insulators, namely, insulators for electric mains; insulating oils; packing and insulating materials; sealing and insulating materials; insulating materials including non-conducting materials for retaining heat; sealant compounds for joints; acoustical panels for buildings, namely, noise absorbing panels; plastic film for industrial and commercial use; polyethylene insulation plates for protection against radiation; insulating materials, namely, polyurethane foam and polyethylene foam; semi-processed plastics for industrial purposes; pipe gaskets and joint packings made of rubber for pipes of metal, steel pipes, non-metal water pipes; glass wool for insulation; non-conducting insulating materials for retaining heat; flexible pipes, not of metal

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Hand operated abrading tools and instruments

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Providing temporary use of non-downloadable computer software to monitor and control factory manufacturing processes; providing temporary use of non-downloadable software for use in database management, use as a spreadsheet, word processing, and prerecorded magnetic data carriers; providing temporary use of non-downloadable software for controlling and operating imaging and x-ray machines; providing temporary use of non-downloadable software for medical imaging equipment, namely for interpreting the results of CT scanners; providing temporary use of non-downloadable software for processing and displaying images on ultrasound medical imaging machines; providing temporary use of non-downloadable software for use in cancer diagnosis; providing temporary use of non-downloadable software for use in controlling and improving computer processing speed; providing temporary use of non-downloadable computer software for use in the field of nuclear industry and energy; Testing of equipment in the nature of product testing; Computer systems analysis; chemical analysis; construction drafting; geological prospecting; radiation measurement services, namely, measurement evaluations in the field of radiation; research work and technical project feasibility studies of new technologies in areas related to nuclear industry and energy; constructive engineering services; engineering in areas related to nuclear industry and energy; exploitation of patented inventions in the nature of product research and development; technical project studies, namely, conducting scientific feasibility studies; engineering, surveying; material testing; textile product testing; scientific and industrial research in the nature of biological research, mechanical research, geological research, physics research and chemical research, all in the fields of nuclear energy and electrical energy production, transportation and distribution; research in areas related to the protection of the environment; calibration of radiological and medical apparatus and instruments, actinometers, radioactive source projectors, diagnostic apparatus, and roentgen apparatus; computer software consultancy; architectural consultation; laboratory research in the field of nuclear and petrochemical energy; updating or improving of products, product set, or infrastructure performance, namely, industrial design for nuclear industry and energy; scientific research, engineering and consultation services, all relating to nuclear physics, thermal physics, corrosion, neutron physics and techniques and neutron scattering, energy, and natural resources including uranium; scientific research and industrial design relating thereto in the field of pharmaceutical preparations, apparatus and instruments for radiological human medicine and radiological veterinary medicine; scientific research and industrial design relating thereto in the field of nuclear industry and energy; industrial design and engineering consultancy services relating to nuclear engineering, radiometric instruments, nuclear materials, nuclear waste management, nuclear fuel monitoring and nuclear plant safety; maintenance of computer

software; measurement evaluations in the field of radioactivity; computer system design; research in the field of environmental protection in the nature of radiation dosimetry monitoring; geological mine prospecting; industrial design and computer system design of equipment for use in generating nuclear power, namely, design of control equipment for nuclear reactors, composition apparatus for nuclear reactors, equipment related to nuclear fusion, fuel transportation casks, fuel handling systems, reactivity meters for nuclear reactors, data processing equipment for nuclear reactor reactivity and measuring devices; construction drafting related to construction of nuclear power plants, nuclear waste storage facilities, and uranium enrichment plants; technical writing for others in the field of nuclear power facilities under construction, operation and reconstruction; industrial design in the nature of nuclear core and fuel bundle design for others; consultancy in the field of energy-saving engineering; consulting services in the field of energy efficiency; computer programming in areas related to nuclear industry and energy; computer programming; technical research related to safety measures development for nuclear power facilities; safety testing of nuclear materials, nuclear power plants and related apparatus in the field of nuclear industry and energy; laboratory research and engineering services relating to nuclear industry and energy; quality control in the nature of computer modeling services, namely, computer simulation from computer programs for others in the field of nuclear industry and energy; quality control services in the field of nuclear industry and energy; material safety testing for mines, plants and centers for the warehousing, storage, processing, isotopic separation, reprocessing and recycling of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste, of nuclear stations, nuclear reactors; industrial research services in the field of nuclear industry and energy; chemistry consultation and chemical analysis services in areas related to nuclear industry and energy; surveying in areas relating to nuclear industry and energy; installation of computer software; updating of computer software; development of computer platforms; software development in the framework of software publishing; software engineering services for data processing; computer software design

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Goods of common metals and their alloys not included in other classes, namely, manganese; metallic materials for railway tracks; metal locking mechanisms; pipes of metal; metal safes; iron ores; chrome iron ores; manganese ores; metal building materials, namely, soffits; metal building materials, namely, ceiling boards and floor boards; metal reinforcement materials for building; building materials, namely, composite panels composed primarily of metal; metal construction elements made of metal, namely, shores; construction elements made of metal, namely, supports; construction elements made of metal, namely, braces; construction elements made of metal, namely, fabricated metal components for building foundations; materials of metal for railway construction; metal brackets for use in the construction and assembly of decking; metal cable trays used in building construction; metal cladding for construction and building; metal concrete construction hardware, namely, load transfer dowels; metal construction materials, namely, exhaust vent hoses for external ventilation of furnaces, heaters, stoves and boilers; metal drains for use in construction of basement waterproofing systems; metal staples for construction or industrial use; refractory construction materials of metal; transportable metal constructions; containers of metal for chemical, compressed gases and liquids; containers of metal for compressed gas; containers of metal for transport; metal containers for the storage and transportation of goods; metal containers for liquid fuel; general purpose metal storage containers; commercial waste containers of metal; doorless intermodal cargo containers of metal; dumpsters, namely, metal containers for receiving, transporting and dumping waste material; industrial packaging containers of metal; industrial packaging containers of metal not including metal stoppers, lids and caps; metal aerosol containers sold empty; cables and metal wires for nuclear energy

industry; castings, foils, powder, and rolled, drawn or extruded semi-finished articles of lead or its alloys; castings, foils, powder, and rolled, drawn or extruded semi-finished articles of nickel or its alloys; castings, foils, powder, and rolled, drawn or extruded semi-finished articles of aluminum or its alloys; castings, foils, powder, and rolled, drawn or extruded semi-articles of copper or its alloys; castings, foils, powder, and rolled or extruded semi-finished articles of tin or its alloys; nickel alloys; nickel alloy ingots; nickel and its alloys; nickel ingots; nickel ores; nickel silver; tubes of nickel alloys; common metals and their alloys; flux-cored wire for welding steel; molds of metal for casting ceramic materials; metallic molds for metal casting; metal molds for forming cement products; rolled hafnium and its alloys; rolled niobium; rolled zirconium alloys; rolled titanium and its alloys; ores of metal including uranium ores; niobium-titanium alloys; zirconium alloys; steel alloys; tantalum; metal fuel oil hoses; reactor fuel channels; steel pipes; refractory metals, namely, beryllium, glucinium, vanadium, tungsten, celtium. hafnium, germanium, indium, molybdenum, niobium, titanium, zirconium; zirconium pipes; chromium

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods
