GOODS AND SERVICES INFORMATION

For Driving machines for land vehicles, namely, trailers for use in transporting land vehicles; drive shafts, torque converters and electric motors, each for land vehicles; chassis for vehicles, in particular for vehicles using tilting technology; covering hoods for vehicles, namely, vehicle hoods; engines for land vehicles; vehicle windows; vehicle doors; windscreens for vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Material processing machines, in particular machines for processing metal, plastics, ceramics, glass, semiconductors and natural products, especially by severing, cutting, separating, milling, stitching, printing, embossing, perforating, boring, drilling, removing of extra materials, structuring, welding, inscribing, and coating for the purpose of material transformation; machines for assembly operations, namely, machines for assembling automobiles; machines for transporting and moving workpieces; electric motors, not for land vehicles; laser welding machines, included in this class; machines for producing and processing thin layers, namely, semiconductor wafer processing machines, machines for processing plastics; machines for producing and processing semiconductor components, namely, machines for depositing semiconductor material; lifting devices, namely, hydraulic lift tables; power-operated blowers for compression, suction and transport of gases; blowing engines, not for land vehicles; freight elevators; catalytic converters; printing machines; starters for motors and engines; transmission shafts, other than for land vehicles; torque converters, other than for land vehicles; electric motors, except for land vehicles; power-operated lifting jacks; radiators for engines; handling apparatus for loading

and unloading, namely, loading and unloading machines; aircraft elevators being freight elevators; machine parts, namely, machine casings; emergency power generators; speed regulators for machines and engines; current generators; alternating current generators; aircraft engines and marine engines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Vehicle defrosters; vehicle heating systems comprising heating apparatus for vehicles; fan heaters, namely, electric heaters with fan attachments; ventilation systems for land vehicles, namely, air conditioners for vehicles; generators, namely, heat generators and heat regenerators; water purification systems comprising water purification units; lights for vehicles; lighting equipment, namely, flashlights and electric lighting fixtures; lighting systems, namely, LED lighting comprising LED modules, power supplies, and wiring; reflectors for lamps; lighting equipment for vehicles, namely, lights for vehicles; exhaust gas purification systems in the nature of air filter systems, namely, air filter installations and catalytic air purifying installations comprising air filters for domestic use, with the foregoing installations housed within carriers coated by catalytically active materials, namely, coated foam made of ceramics or metal coated solid bodies, with all of the foregoing goods coated by catalytically active materials; water supply equipment, namely, water purification units

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Surveying, measuring, testing, checking, and supervision apparatus and instruments as well as parts thereof, included in this class, in particular for determining the shape or form, nature and composition of bodies, gasses and liquids, namely, liquid detectors, gasometers being measuring instruments, measuring instruments for use in measuring distance, velocity, pressure, radiation, resistance, surface roughness, material strength, micro-hardness, dimension, contour, and form, material testing instruments and machines, namely, metal strength testing machines, machines for testing micro-hardness, machines for testing surface roughness; surveying instruments; measurement devices for safety technology, building technology and traffic safety technology, in particular distance, speed and traffic control devices as well as traffic monitoring devices, in particular cameras, radar apparatus, electronic speed and distances sensors, laser range finders, speed meters in the nature of laser speed detectors, radar guns and cameras triggered by induction loops, and laser scanners, all for red-light monitoring, for recording vehicle registration marks, for recording and verifying the payment of road tolls, for recording traffic density, traffic flow, and vehicle types; electric, electronic and optoelectronic sensors, especially for the aforementioned devices, in particular radar sensors, laser sensors, piezo sensors, for sensing speed, distances, shock, pressure, electromagnetic fields, light, radiation, sound, and featuring induction loops and video cameras; position control and docking sensors; tactile sensors for use in sensing pressure, non-contact sensors for use in sensing proximity, light radiation, sound, and measuring heads for measuring distance, temperature, and pressure; radar devices, namely, radar detectors; antennas; storage devices for data processing systems, namely, blank flash-memories and blank hard drives for computers; image receiving devices, namely, image cameras, sequence cameras, video cameras, and video receivers; image reproduction apparatus, namely, photographic lab devices in the nature of cameras, photo printers, and photocopy machines; time recording apparatus, namely, electronic timers; analytical devices, namely, luxmeters being devices for measuring the brightness or illumination of a surface, liquid analyzers, photometers, not used for medical purposes; flash bulbs for photography; data processors for data evaluation; optical signalling systems comprising traffic lights and variable

electronic traffic signs; semiconductors, namely, semiconductor material and semiconductor components in the nature of semiconductor memories and semiconductor chips; light-emitting diodes, laser diodes and photodiodes; material and surface testing instruments, namely, for testing microhardness and surface roughness; optical apparatus and instruments as well as their optical, micro-optical and nano-optical parts and assemblies, namely, optical glass, plastic optics, in the nature of lenses made of plastic for microscopes and lenses for cameras and telescopes, optical objectives being structural parts of cameras, microscopes, telescopic sights, binoculars, telescopes, optical measurement devices and instruments, eyepieces being optical lenses, and optical lenses; hologram apparatus, optical fibers being light-conducting filaments; lasers, for non-medical purposes; laser devices, namely, laser speed detectors, laser surveying instruments and laser measuring instruments for measuring distance, velocity, pressure, radiation, resistance, surface roughness, material strength, micro-hardness, dimension, contour, and form, for non-medical purposes; lasers for cosmetic purposes; semiconductor lasers, not for medical purposes, in particular diode lasers, diode laser modules comprising non-medical lasers and diode laser systems consisting of non-medical lasers; lasers for projection applications and projection devices, not for medical purposes; weapon simulators and ammunition simulators, for training in the use of firearms; X-ray exposure devices, not for medical purposes, namely, X-ray apparatus not for medical purposes; photographic apparatus and instruments as well as their parts and assemblies, included in this class, in particular cameras; optical observation platforms, consisting of cameras and rangefinders; optical devices for thermography, namely, thermal imaging systems not for medical use and optical apparatus for the digital recording of thermal images, not for medical use; night vision devices, namely, night vision goggles, night vision monoculars, night vision binoculars, night vision telescopes, and night vision cameras; telescopic sights; scientific apparatus and instruments for remote sensing and astronomy, namely, astronomic measuring machines and instruments; electric and electronic data input, data processing, data transmission, data storage and data output devices, namely, printers, monitors for computers, computers, optical fibres, wireless-LAN hardware, geographic positioning systems in the nature of global positioning systems, wireless data transmission systems in the nature of transmitters and receivers of electronic or optical signals, blank flash-memory, data processors, and blank computer hard drives; computers; computer programs for use in database management in the fields of thermal imaging, remote sensing, traffic control and monitoring, stored on electronic data storage media; optical data transmission devices in the nature of weapon simulators and ammunition simulators; chips being integrated circuits; scientific, meteorological, nautical, weighing and signalling apparatus and instruments, namely, positioning and measuring apparatus and instruments in the nature of gravity measuring instruments, instruments for measuring reflectance, for measuring humidity, for measuring absorption, weighing apparatus and instruments, vehicle traffic signals, and electronic traffic signs; silicon wafers for integrated circuits; laser printers; apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity, namely, electronic switches, electrical controllers, electric apparatus for commutation in the nature of commutators, control panels for controlling electricity, indicators in the nature of voltage indicators and current indicators, transformers for transforming electricity, electronic circuit distribution boards and consoles for distributing electricity; electric accumulators; electric couplings; voltage regulators for vehicles; radomes, namely, adapted antenna and radar apparatus covers; temperature sensors for aircraft; optical devices for target recognition, namely, mirror heads in the nature of optical mirrors; elevator control systems comprising embedded software in controllers for monitoring elevator functions

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Services of a technical measurement and test laboratory in the field of optical, optoelectronical, chemical, and mechanical process techniques and in the fields of microtechnology and nanotechnology, namely, calibration and testing goods and products for others; computer software maintenance; writing programs for data processing; calibration; technical research in the field of optical, optoelectronical, chemical and mechanical process techniques and in the fields of microtechnology and nanotechnology; technical project planning in the field of engineering; scientific research, technical development of goods and products for others and technical scientific advice, in particular with respect to optical, optoelectronic, chemical and mechanical process techniques as well as microtechnology and nanotechnology; film digitization for computer-aided evaluation systems; scientific consulting services, technical consulting relating to computers and scientific research in the field of traffic control and monitoring of road traffic; design of instruments used for traffic control and monitoring of road traffic, calibration, namely, providing digital measurement data; industrial analysis and scientific research services in the fields of optical, optoelectronical, chemical and mechanical process techniques and in the fields of microtechnology and nanotechnology; technical advice relating to computers; rental of computers for data processing; measurement evaluations in the optical, optoelectronical, chemical, automobile, aircraft, and engine building industry; preparation of technical reports relating to optics, optoelectronics, chemistry and mechanical process techniques and in the fields of microtechnology and nanotechnology

For Machine tools, namely, assembly line automation machinery for assembling and fastening parts of engines, axles, transmissions and vehicles, industrial parts washing machines, industrial robots and parts grippers, hoppers for mechanical loading and unloading of materials and parts, hydraulic and mechanically-operated power jacks, material handling machines for unloading, loading, sorting, packing, tying, wrapping, conveying and stacking items or material, not including forklifts or vehicles, namely, palletizers, case elevators, automatic pallet dispensing machines and automatic slip sheet dispensing machines; fluid fill machines for filling vehicle machines and devices; engines except for land vehicles; machine couplings and transmission components except for land vehicles; agricultural implements other than hand-operated, namely, seed drills, tractor towed reapers; incubators for eggs; sizing machines, namely, machines for sizing parts in assembly line manufacturing; axles for machines, concrete mixers, bitumen making machines, cement making machines, woodworking machines, namely, wood planing machines, circular saws; grinding machines, mixers, separators, namely, centrifugal separators and cyclone separators; crystallizing machines, centrifuges, gas welding and cutting torches, hoists, compressors for machines, electricity generators, electric motors other than for land vehicles, packaging machines, metal working machines, filtering machines, namely, machines for removing contaminants from parts of automotive assembly

line; drilling machines, milling machines, tarring machines, emergency power generators, electromechanical sorting machines for use in the chemical industry; machines for the textile industry, rolling mills, steam engines, handling apparatus, namely, loading and unloading machines; electric cleaning machines and apparatus, namely, machines for cleaning mechanical parts, pallet washing; extractor machines for the agri-food industry, namely, juice extractors; filling and fluid testing machines; punching machines, namely, punching presses for metalworking; pumps for machines, presses as machines for industrial purposes, oil refining machines, machine transmissions, conveyors, winches, turbocompressors for machines, glass-working machines, vibration generator machines for industrial purposes; industrial stapling presses, machines and installations used to treat steel strips, namely, grinding machines for treatment of metal; sorting and selection machines, screw fastening and assembly machines for the assembly of vehicles, industrial robots; conveying and storage machines, namely, assembly line machines, conveyors, conveyor belting; handling apparatus for loading and unloading, namely, hoist and load platform lifts, pulley blocks, lift blocks, cranes, derricks; mixing machines, industrial manipulating machines, namely, industrial robots, conveyors, conveyor belting, gantries, power-operated pulley blocks, lift blocks, cranes, derricks, hoists, load platform lifts, pulleys, roller bearings, robots, hoppers and power operated jacks for handling, conveying, assembly, machining, sorting, packaging, delivering, inspecting, testing and storing boxes, trays, bags, pallets and containers; machine parts, namely, tool bits, bearings, cylinders, blades, hoods, grindstones, and millstones; machining tools, namely, industrial robots; automation machines, namely, machines operable to move, assemble, test, inspect, fasten, wash or clean mechanical parts, assembly line machines, conveyors, conveyor belting, packaging and material and parts handling machines for use in the fields of pharmaceuticals, laboratories, cosmetics, printing, publishing, mail sorting, parcel delivery, computer manufacturing, fastener manufacturing, and manufacturing formed polymeric parts; carton heat sealing machines, autogenous soldering machines, binding machines, namely, document binding machines for industrial use; power-operated turning machines, lathes, power-operated turning and milling machines, machines for forming tubes, power-operated brewing machines for malting and for the food industry; machines for the internal cleaning and unblocking of tubes, high pressure washers, cleaning appliances utilizing steam, power-operated industrial machinery for the handling, transport, assembly, forming, sorting, packaging, delivery and storage of tins, trays, bags, pallets and containers, pharmaceuticals, laboratory specimens, cosmetics, motor vehicles, motor vehicle components; machines and lines composed thereof for the production of motors, power train units, transmissions, axles, and gear boxes; self-regulating fuel pumps, electric welding apparatus, electric apparatus for welding pipes; pneumatic and electrical perforators for use in mining and quarrying and for use in manufacturing products made from metal, glass, plastics and paper

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Apparatus for lighting, namely, electric lighting fixtures; apparatus for heating, namely, convection, induction and mixed heating furnaces, incinerators, reheating furnaces for the iron and steel industry and heat treatment furnaces for iron strips for thermo-chemical treatment, galvanization and painting; steam generators; apparatus for cooking, namely, electric cooking ovens; refrigerating machines; apparatus for drying, namely, industrial dryers for heating and dehumidifying; apparatus for ventilating, namely, air blower apparatus for industrial use during installation of steel strips; apparatus for water supply and sanitary facilities, namely, industrial water purifying apparatus; heating apparatus fueled by solids, liquids or gases or electric induction or resistance, namely, furnaces, industrial furnaces, quenching apparatus for heat treatment;

apparatus for cooling solids, liquids and gases, namely, air cooling apparatus, cooling domes, cooling evaporators, cooling installations for water, cooling units for industrial purposes, industrial cooling apparatus, namely, compax coolers; heat exchangers, not parts of machines, evaporators, apparatus for heating especially via radiation, convection, induction or a mixture, namely industrial furnaces; heat accumulators, water softening apparatus and installations, hot air apparatus, namely, hot-air space heating apparatus for industrial purposes and hot air blowers; air filtering installations, water heaters, heating boilers, heating ducts and tubes for boilers, heating apparatus, namely, electric space heaters; air conditioning apparatus, air-conditioning installations; water conduit installations, namely, metered valves for regulating water supply; furnaces, other than for experimental purposes; ovens, namely, convection ovens, other than for experimental purposes; melting furnaces, ovens for graphitization, furnaces for smelting and refining glass, silicates and special glasses; furnaces for thermal treatment; reheating furnaces and especially furnaces for hot rolling mills, bell-type annealing furnaces; cold crucibles, namely, a foundry crucible for reclaiming metal from dross during processing; gas scrubbing apparatus, gas generators, incinerators, heat pumps, water intake apparatus, namely, water purification tanks; nuclear reactors, sanitary apparatus and installations, namely, industrial water purifying apparatus; sterilizers, luminous tubes for lighting, refining towers for distillation, namely, water distillation units; evaporators, recyclers namely equipment for the recovery of steam or liquid heat, gas condensers, thermal apparatus, namely, thermal sewage treatment equipment; calciners, namely, limestone calcination machines; unit heaters, namely, forced convection hot-air space heating apparatus for industrial purposes; heat exchangers, namely, heat exchangers not being parts of machines; exchangers of brazed aluminum for cryogenic processes, namely, heat exchangers not being parts of machines used in cryogenic processes; valves and fittings, namely, steam valves and thermostatic valves being parts of heating installations

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Building construction; services for repairing, maintaining and installing factories for treating steel bands, furnaces for melting and refining glass, silicates and special glasses, reheating furnaces and especially furnaces for hot rolling-mills, furnaces for heat treatment, bell-type annealing furnaces, apparatus for heating especially via radiation, convection, induction or a mixture, incinerators, coolers, and equipment for treatment of fumes; air conditioning apparatus installation and repair, motor vehicle maintenance and repair, quarrying services, heating equipment installation and repair, installation and repair of electric appliances, drilling of wells, installation and repair of furnaces and ovens, installation of building insulation; rental of bulldozers, rental of cranes for construction purposes; installation, maintenance and repair of machinery; masonry; street cleaning; vehicle cleaning; installation, maintenance and repair of computers; plumbing; painting of interior and exterior; freezing equipment installation and repair; rebuilding of machinery and vehicle engines that have been worn or partially destroyed; rustproofing; factory construction; renovation of factories

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Scientific other than medical, nautical apparatus and instruments, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking as supervision, life-saving and teaching apparatus and instruments, namely, magnetic compasses for surveying, photographic cameras, blank optical data carriers, scales, lasers for measuring purposes; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electric current;

apparatus for recording, transmitting and reproducing sound and images; blank magnetic data carriers and sound recording disks; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire extinguishers, electric batteries, magnets, amplifiers; testing apparatus not for medical purposes, namely, continuity test apparatus for electrical circuits; batteries for lighting, fiber optic cables, calculating machines, heat regulating apparatus, namely, thermostats and water heater controls; integrated circuits, electric apparatus for commutation, electricity conduits, electrolyzers, galvanic cells, jigs in the nature of measuring instruments, lasers not for medical use; software in the nature of recorded programs for use in the mechanical automotive, automobile, robotic, furnaces, metal, sugar, and glass manufacturing industries for industrial process control; pressure measuring apparatus, sounding apparatus and machines, namely, sound recording apparatus; transformers, optical glasses, apparatus for filling fluids, namely, automatic fluid-composition control machines and instruments; apparatus for testing liquids; apparatus for monitoring and testing boxes, trays, bags, pallets and containers, namely, metal box strength testing machines; electronic apparatus, namely, electronic controllers for use with power converters; power amplifiers, static converters, frequency generators, namely, wireless radio frequency generators; inverters, electrical capacitance boxesClass 011: Apparatus for lighting, namely, electric lighting fixtures; apparatus for heating, namely, convection, induction and mixed heating furnaces, incinerators, reheating furnaces for the iron and steel industry and heat treatment furnaces for iron strips for thermo-chemical treatment, galvanization and painting; steam generators; apparatus for cooking, namely, electric cooking ovens; refrigerating machines; apparatus for drying, namely, industrial dryers for heating and dehumidifying; apparatus for ventilating, namely, air blower apparatus for industrial use during installation of steel strips; apparatus for water supply and sanitary facilities, namely, industrial water purifying apparatus; heating apparatus fueled by solids, liquids or gases or electric induction or resistance, namely, furnaces, industrial furnaces, quenching apparatus for heat treatment; apparatus for cooling solids, liquids and gases, namely, air cooling apparatus, cooling domes, cooling evaporators, cooling installations for water, cooling units for industrial purposes, industrial cooling apparatus, namely, compax coolers; heat exchangers, not parts of machines, evaporators, apparatus for heating especially via radiation, convection, induction or a mixture, namely, industrial furnaces; heat accumulators, water softening apparatus and installations, hot air apparatus, namely, hot-air space heating apparatus for industrial purposes and hot air blowers; air filtering installations, water heaters, heating boilers, heating ducts and tubes for boilers, heating apparatus, namely, electric space heaters; air conditioning apparatus, air-conditioning installations; water conduit installations, namely, metered valves for regulating water supply; furnaces, other than for experimental purposes; ovens, namely, convection ovens, other than for experimental purposes; melting furnaces, ovens for graphitization, furnaces for smelting and refining glass, silicates and special glasses; furnaces for thermal treatment; reheating furnaces and especially furnaces for hot rolling mills, bell-type annealing furnaces; cold crucibles, namely, a foundry crucible for reclaiming metal from dross during processing; gas scrubbing apparatus, gas generators, incinerators, heat pumps, water intake apparatus, namely, water purification tanks; nuclear reactors, sanitary apparatus and installations, namely, industrial water purifying apparatus; sterilizers, luminous tubes for lighting, refining towers for distillation, namely, water distillation units; evaporators, recyclers, namely, equipment for the recovery of steam or liquid heat, gas condensers, thermal apparatus, namely, thermal sewage treatment equipment; calciners, namely, limestone calcination machines; unit heaters, namely, forced convection hot-air space heating apparatus for industrial purposes; heat exchangers, namely, heat exchangers not being parts of machines; exchangers of brazed aluminum for cryogenic processes, namely, heat exchangers not being parts of machines used in cryogenic processes; valves and fittings, namely, steam valves

and thermostatic valves being parts of heating installations

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Mechanical, chemical or thermal treatment of materials, namely, metal treatment, glass treatment, sand treatment, cement treatment, aluminum treatment; mechanical, chemical or thermal treatment of materials using carbon and electrolytic solutions, namely, metal treatment, glass treatment, sand treatment, cement treatment, and aluminum treatment; manufacturing of boilers to order and/or specification of others; waste treatment; decontamination of dangerous materials, air deodorizing, water treatment, blacksmithing, millworking, galvanizing, metal laminating, magnetizing, namely, applying magnetic finishes to steel, metal chassis; metal casting, metal plating, metal processing, namely, obtaining metals from native earth materials; processing of oil, polishing in the nature of burnishing by abrasion; production of energy, air purification, oil and fuel refining services, welding, glass-blowing, vulcanization, treatment of gas and fumes namely, greenhouse gas reduction services utilizing a chemical process that operates on effluent gas streams from power plants and other sources that generate carbon dioxide; bespoke assembly of machines for others, profile machining parts for others

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Evaluation, estimates, research and reports in the fields of science and technology, namely, providing expert reports of engineers regarding scientific analysis and modeling; design and development of computers and software, services of engineers, namely, surveying, engineering; technical project study and calculation namely, consulting services in the field of engineering; chemical analyses, analysis for oil-field exploitation, computer systems analysis, chemical research, advice on mechanical engineering; computer system design, industrial design, material testing, technical project studies in the nature of engineering consultation, surveying, mechanical research, physics research, technical research, namely, scientific research; research and design services in the fields of mechanical and civil engineering, expert reports and advice relating to evaluations, and appraisals provided through research, in the fields of chemistry, metallurgy, steel metallurgy, physics, mechanics, electricity, electronics, information technology, heat, cryogenics, optics, energy, textiles, paper, medicine, biology, agriculture, geology, the industry for sugar, agri-food and ethanol, cars, glass, aluminum, and cement

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Common metals and alloys thereof; metal building materials, namely, profiles for arranging devices on and in walls, ceiling and other surfaces, tubes, pipes, scaffolds, building flashings, chimneys, claddings for building and construction, metal roofs and roofing, stair cases, prefabricated metal platforms, prefabricated metal bridges, metal wall frames and panels, metal gates, metal doors, metal windows and window casements, metal pylons in the nature of reinforced beams and poles, and armor steel plates; transportable buildings of metal; material of metal for railway tracks, namely, metal tracks for rail vehicles; non-electrical metal cables and wires; ironmongery and small items of metal hardware, namely, metal threaded fasteners, bolts, nails, rivets, screws, brads, clamps, pins, nuts, washers, pulleys, springs; metal pipes; metal safes and strong boxes; steel ores, unwrought or semi-wrought, alloys of common metal, aluminum reinforcing materials of metal for building, reinforcing materials of metal for building; frames of metal for building construction; nails, metal water pipes, scaffolding of metal, tin, iron, unwrought or semi-wrought, cast iron, unwrought or semi-wrought, metal foundry

molds, nickel, linings of metal for building, lead, unwrought or semi-wrought, hardware of metal, namely, pulleys, springs, nuts, washers and carabiners of metal; posts of metal, metal rails, containers of metal for acids, pipework of metal, tubes of metal, zinc, metal pipe fittings, namely, expansion bellows and compensators, metal containers for brewing, malting and for storage and transportation in the food industry

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

GOODS AND SERVICES INFORMATION

For Artificial limbs, eyes and teeth; orthopedic articles, namely, dermatologic orthopedic instruments, namely, scalpels and forceps, orthopedic support bandages and artificial limbs; suture materials, namely, sutures, thread, and needles, for medical use; electronic thermometers for medical purposes; medical equipment, namely, tomographs, tomography diagnostic apparatus, x-ray units, x-ray generators, ultrasonic blood flow monitors, ultrasound cardiogram diagnostic apparatus; radio therapeutic microtron systems comprised of thermionic cathodes; scintillation cameras for medical use used to detect gamma rays emitted from radioactive medical agents and to image the distribution of radioactive medical agents injected into a patient; bio-clean units for hospital operating rooms comprised of sanitized and sterile air conditioning, sanitary and electrical apparatus to block entry of bacteria, to prevent collection of bacteria, to prevent generation of bacteria, and to eliminate bacteria; computed tomography scanners; sphygmomanometers; magnetic resonance imaging equipment; massage apparatus for medical use; ultrasound scanners

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Vehicles, namely, submersible remotely operated vehicles; railway rolling stock; electric locomotives; diesel locomotives; diesel electric locomotives; diesel engines for land vehicles; passenger coaches for mass transit; electric cars for mass transit; diesel cars for mass transit; mono-rail cars; cable cars; ropeways, namely, conveyances to transport passengers or freight in carriers suspended from cables and supported by a series of towers; railroad freight cars; wagons; vans for mass transit; railroad tank cars; industrial rolling stock; industrial trailers; dump-trucks; railway and truck trailers; hydro railway and trailer coupling; hydro torque converters for land vehicles; leisure appliances, namely, boats and motorized golf carts; clutch facing for land vehicles; hybrid electric vehicle motors; powertrain control system apparatus consisting of drive shafts for land vehicles and electric drives for vehicles; brake systems for vehicles; electric shifting modules consisting of gear shifts for vehicles; hybrid electric land vehicle systems comprised of regenerative brakes and high efficiency motors; direct injection gasoline systems consisting of fuel lines for vehicles; electronic power steering apparatus, namely, steering brakes for land vehicles and steering wheels

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Incubators for eggs; motors and engines, namely, aircraft motors and engines, boat motors and engines, diesel engines for machines, electric motors for machines; electric generators; starters for motors and engines; capacitor production machines; starter alternators; alternators for land vehicles; industrial robots; elevators; escalators; moving stairways; moving walkways; mining machines; civil engineering machines, namely, concrete mixers, asphalt spreaders, crushing machines, centrifugal machines, compressors for machines, grinding machines, pay loaders, hoppers, bulldozers, graders, drainage machines, digging machines, crushing rollers, extracting machines, drilling machines for applying asphalt, mixing machines, and aerial platforms on tractor bases used in construction sites; cargo working machines, namely, derricks, unloaders, bucket elevators, winches, windlasses, capstans, chain blocks, and unloading hoppers; cranes; hoists; winches; conveyors; earth moving machines, namely, drag scrapers; earth moving machines, namely, loaders; construction machines, namely, sheet pilers and sheet feeders; lifts, namely, car lifts, hydraulic lifts, power-operated lifts used to transport and place portable storage containers, and power-operated lifts for moving, parking, and storing land

vehicles; machines, namely, car dumpers; pneumatic unloading machines; earth moving machines, namely, reclaimers; magnetic separators; loading shovels; tunneling machines; pile drivers; excavators; wheel loaders; earth drills; rotary casing drivers; reverse circulation drills; foundation work machines; carriers, namely, rubber crawler carriers used to transport loads at construction sites; gas pipe tunnelers; amphibious soft terrain backhoes; steam turbines, not for land vehicles; water turbines, not for land vehicles; gas turbines, not for land vehicles; diesel engines, not for land vehicles; internal combustion engines, not for land vehicles; speed changers, namely, gears, gear boxes, and transmissions for industrial machinery; power operated water wheels and turbines, not for land vehicles; pumps, namely, fuel pumps for land vehicles, water pumps for irrigation and sewage, feed pumps, vacuum pumps, high viscosity fluid pumps, and liquid metal pumps; oil-well pumping machines; centrifuges; air compressors; electric compressors; power-operated blowers and fans for machine engines; hydraulic hammers, hydraulic truck cranes, shield machines, and machine tools, namely, mechanical and computer-controlled metal cutting, removing and forming machine tools; power driven hand/stationary tools, namely, circular saws, cutters, drills, grass cutters, grinders, hammers, miter saws, planer joiners, pneumatic nailers, polishers, rotary band saws, routers, sanders, trimmers, and thickness planers; rolling mills; strip mills; milling machines; industrial machine presses; offset presses; printing presses; mechanical milling presses and crushers; paper making machines; machines and equipment for chemical industry, namely, mixers, agitators, processors, drying machines and chemical filtering machines to remove impurities, and their fittings; electric dust collectors; printing machines, namely, flexographic printing machines; Computer Numerical Control drilling machines; Computer Numerical Control routing machines; electrical discharge machines, namely, electric discharge machine for precision die production and parts machining; metal working machines, namely, machining centers; welding machines, namely, electric welding machines and gas welding machines; water supply apparatus, namely, water pumps for use in land vehicle motors and land vehicle engines; mechanical screens; mechanical strainers; centrifugal separators; automatic conveying equipment; household electric appliances, namely, clothes washing machines, blenders, juicers, can openers, dishwashers, vacuum cleaners, garbage disposals, and electric pumps; sewing machines; roll for rolling mills and printing machines; metal carbon machine parts, namely, bearings, mechanical seals, gaskets for internal combustion engines, and brushes made of carbon for use in automobile motors, appliance motors, and power tool motors; ceramic products for machine parts, namely, ceramic mechanical seals for automobiles, liquid crystal display manufacturing equipment made of ceramic and semiconductor manufacturing equipment made of ceramic; winding machines for coils and capacitors; friction products, namely, drum brake linings for machines and disc brake pads for machines; plastic machine components, namely, gears and bearings; electric food processors; electric knife sharpeners; power-operated floor polishers; equipment and appliances for automobiles, namely, alternators; equipment and appliances for automobiles, namely, charging generators, distributors, ignition coils, spark plugs, carburetors; dish washing machines for industrial purposes; electric washing machines for industrial purposes; floor washing machines; pressure washing machines; textile washing machines for industrial purposes; vehicle washing machines; air suction machines; drill machines; laser drill machines; electric hoists; conveying system equipment, namely, vortex blowers, and machine parts, namely, solid roller industrial chains for conveyors; construction machinery, namely, concrete construction machines, power mining shovels, gravel crushers; mill control equipment, namely, machine motors for controlling rolling mill machines; motors, namely, electric oil pump motors, electric motors for small vehicles, submersible machine motors, and induction machine motors; generators for land vehicles; generators for wind turbines; turbine generators; diesel engine driven generators for land vehicles, ships and machines; pumps, namely,

sump pumps, electric bile pumps, electric swimming pool pumps, electric pumps, vertical turbine pumps, steam turbine-driven boiler feed machine pumps, electric monoblock pumps, and water supply pumps for swimming pools; compressors, namely air conditioning compressors, rotary and horizontal scroll compressors for machines, refrigerant compressors, namely, refrigerator compressors, process gas compressors for machines, screw compressors for machines, oil-free screw air compressors for machines, oil-injected screw air compressors for machines, and cracked-gas compressors for machines; precision power machine tools, namely, chasers, broachers, gear cutters, band saws, jig saws, table saws, electric planers, orbital sanders, printed wiring board (PWB) drilling machines, wire electrical discharge machines, power driven surface grinders, digital direct exposure method machines for use in drilling; power tools, namely, demolition hammers, drill hammers, rotary hammers, driver drills, hammer drills, drill presses, burrs, countersinks, end mills, reamers, thread mills, cut-off saws, metal saws, tile saws, impact drivers, impact wrenches, electric screwdrivers, finish staplers, pneumatic staplers, gauge shears, sheet metal nibblers, milling cutters and benders, rebar cutters and benders, jigsaws, cordless stud cutters, slide compound saws, reciprocating saws, and disc cutters; chemical machines, namely, sorting machines for chemical processing, chemical mixers, agitators for circulating chemicals, chemical processors, chemical drying machines, horizontal reactors, vertical reactors, and thin-film evaporators; transportation systems sold as a unit consisting of pneumatic transporters, automobiles, rail cars, railway rolling stock, railway signaling buoys, and monorails; light machinery, namely, electric welding machines with digital controls; fuel injectors; automotive systems for land vehicles comprised of air-intake tubes, filters for after-market installation of automotive engines, alternators for land vehicles, all sold as a unit; steel cores being parts of land vehicles; diamond blade wheels; sabersaw blades for power tools; bandsaw blades for power tools; mokkou, namely, tungsten carbide tipped power saw blade; kinkou, namely, tungsten carbide tipped power saw blade; cut-off wheels, namely, abrasive wheels; sanding discs for power operated sanders; thin-type cut-off wheels in the nature of abrasive and grinding wheels; electric mine borers; power operated blowers; magnetic drill stands; power operated shear wrenches; high-speed cut-off machines in the nature of cutting machines; power-operated cordless oil pulse torque screwdrivers; chain saws; lawn mowers; engine-powered augers; engine-powered blowers; engine-powered cultivators; engine-powered chain saws; engine-powered pole saws; engine-powered hedge trimmers; engine-powered pole hedge trimmers; engine-powered grass trimmers and engine-powered brush cutters; electric or power operated tools, namely, cordless shear wrenches, cordless electronic pulse drivers, cordless mini saws, cordless knife cutters, cordless disc grinders, cordless mini grinders, cordless shrub shears, cordless grass shears, cordless blowers

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Nuclear power plants, namely, nuclear reactors; industrial boilers; feed water purifier for boilers; heat exchangers; refrigerating machines; water coolers; refrigeration equipment, namely, chillers in the nature of centrifugal chillers and absorption chillers, food and beverage chilling units, and chilling units for industrial use; refrigerating display cases; air conditioning equipment, namely, air conditioners, air filters for air conditioners, air conditioning apparatus for industrial purposes, electric fans, ceiling fans, portable electric fans, and dehumidifiers; electric portable water coolers; electric dehumidifiers; electric furnaces; water supply products, namely, regulating accessories for water supply, namely, metered valves; water pollution control apparatus in the nature of intake pump stations, flocculation tanks, settling tanks, sludge collectors, filters; sludge collectors in the nature of submerged traction rope sludge collectors, traveling bridge sludge

collectors, circumference drive suspension type sludge collectors and reciplo type sludge collectors; oil and gas ranges; oil and gas stoves; kerosene heaters; lighting equipment, namely, mercury lamps, infrared lamps, fluorescent lamps, incandescent lamps, lamp fixtures, flashlights, electric torches, electric lanterns, underwater lights; atomic furnaces; household electric appliances, namely, oil heaters, space heaters, food warmers, towel warmers; toasters, electric rice cookers, egg cookers, electric pots, roasters, microwave ovens, refrigerators, ice makers, coffee makers, drinking fountains, water filters, hair dryers, clothes dryers, dehumidifiers, humidifiers, desk fans, floor fans, ceilings fans, ventilating fans, room air conditioners, floor heating panels; household appliances, namely, home bath tubs and bath tub units, kitchen sinks, toilet disposal tanks, septic sewage tanks, home electrical boilers, solar water heaters; clean rooms; hydroelectric power plants; thermal power plants; horizontal nuclear reactors, vertical nuclear reactors, and thin-film evaporators; industrial plants, namely, industrial sewage treatment plants and industrial water treatment plants

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Automatic vending machines and mechanisms for coin-operated apparatus, namely, coin and bill acceptors for separating good coins from counterfeits; cash registers; calculating machines; data processors and computers; fire-extinguishing apparatus, namely, fire extinguishers; controlling apparatus for electric motors and generators, namely, electrical controllers, resistors, contactors, relays, automatic voltage regulators, remote controlling apparatus; machines and equipment for electric power distribution, namely, transformers, electric current limiting reactors, arc-suppression coils, mercury rectifiers, semiconductor rectifiers, rotary converters, magnetic amplifiers, circuit breakers, electric switches, switch gears, switch boards and boxes, electric relays, electric frequency chargers, lightning arresters, electric load dispatchers; electrical chargers and battery chargers; batteries; rechargeable batteries; nickel cadmium batteries; dry batteries; battery cases; battery jars; power cables; telecommunication cable; insulated electrical cables; submarine electrical cables; electrical fiber-optic LAN cables; and electrical fiber-optic cables; electronic wires and cables; magnetic cores; magnets used in motors, copier printers, denture attachments and vibrating motors in mobile devices; electric and magnetic meters, namely, power meters, ampere meters, volt meters, watt meters, watt-hour meters, insulation resistance meters; industrial measuring instruments, namely, thermometers, pressure meters, flow meters, dynamometers, wave sweep oscillators, oscillographs, wave form monitors; ultrasonic inspection and imaging instruments, namely, ultrasonic depth sounders, ultrasonic scanners and probes used to detect flaws, and ultrasonic sensors/sonars; ultrasonic flaw detectors; ultrasonic microscopes; electron tubes, namely, picture tubes, receiving tubes, transmission tubes, pickup tubes, cathode ray tubes, image pickup tubes, storage tubes, power tubes, x-ray tubes other than for medical purposes, magnetrons, rectifier tubes, vidicons, liquid crystal displays; magnetic core memories; bubble memories; electric circuit parts using semiconductive material, namely, transistors, diodes, photo cells, photoconductive devices, namely, photo conductive drums, thermistors, varisters, electric condensers, integrated circuits, large scale integrated circuits, light emitting diodes, random access memory, read only memory, steppers, namely, wafer steppers and optical steppers used in semiconductor manufacturing, microprocessors, and thyristers; telephone sets; attendant consoles of telephone sets; telephone switchboards; semiconductor manufacturing apparatus, namely, dry etching equipment, inspection equipment for dust particles, through-put integrated circuit memory test equipment, wafer/mask blanks surface inspection equipment; clean benches comprised of benches with filters to prevent dust from entering the bench, used for manufacturing, inspection,

research, and experiments in the fields of chemistry, agriculture, biotechnology, precision machinery, and optical instruments; electronic beam lithography systems for use in the production of semiconductors and computer chips, consisting of a thermostatic control chamber, lasers, electron guns, electron optical columns, electron beam lenses, electron beam deflectors, sample chambers, substrate stages, wafer transporters and loaders, vacuum pump and controllers, control and data storage computers, operating software for same, operator consoles, power supplies, and parts therefor; electronic applied apparatus, namely, electronic computers, data processors, data-typewriters, line printers, cassette data readers, card reader punch, color copying machines, cathode ray tube display copiers, micro fiche retrievers, inventory control machines, electronic cash registers, mark sheet readers, copying machines, electric plotters, optical character readers, blank magnetic discs, drum memories, magnetic tape units comprised of blank computer storage tapes; automatic electrical controlling apparatus, namely programmable logic controllers, electron microscopes, particle accelerators, radar apparatus, namely, radar ranging measurement and diagnosis devices, electronic calculators, word processors; computer programs for use in the fields of accounting; computer programs for use in the field of human resources, namely, for management and operation of enterprise human resource departments and management of human resources data and information; computer programs for use in the field of industry, namely, computer programs for controlling and analyzing devices for plants, transportation, power generation, and medical treatment; computer programs for use in the manufacture of semiconductors and consumer appliances; enterprise application integration software and enterprise system management software; projector management and control software; data storage software; software for computer network management and maintenance; computer programs for use in the field of general purpose mainframe computer operating systems, diagnostics and maintenance; printers, namely, computer printers, laser printers, and ink jet printers; radio telephone equipment and accessories, namely, call boxes, dialing assemblies, telephones, audio operated relays, signaling devices, receiving devices, termination equipment, filters, protectors and automatic signaling and control equipment; telephone exchangers; asynchronous transfer modes, namely, network hubs, network cards, routers, switches, connectors and software used to transmit video, audio, and computer data over the same network in packet of fixed size; attendant consoles of telephones and telegraphs; carrier telephones; television conference equipment, namely, televisions, video cameras, network hubs, network routers, software for television conferencing, and video viewers; private telephone branch exchanges; facsimile machines; voice response systems, comprised of interactive voice response units comprised of telephony equipment, software applications, and a supporting infrastructure and telephones; television, analog, and digital signal field pick-up systems for broadcasting comprised of interphones, waveguides, antennae; wireless communications apparatus, namely, wireless and cellular telephones, pagers, paging equipment, wireless portable computer devices, namely, mobile data receivers, internet protocol and telecommunications network transmitters, modems, receivers, converters, and routers, wireless facsimile transmitters and receivers, wireless fax machines, wireless personal communications equipment, namely, personal digital assistants; electronic controlling equipment for rolling stock, namely, chopper controllers, rectifiers, transformers, inverters; scientific measuring instruments, namely, mass spectrometers, micro analyzers, microscopes, magnetic resonance spectrophotometers, spectrometers, photometers, pH meters, toselius electrophoresis apparatus, Geiger counters, gas chromatographs, nuclear magnetic resonance apparatus, amino acid analyzers, fluorescence spectrophotometers, atomic absorption spectrometers, liquid chromatographs; cargo machines, namely, lifting magnets; steam condensers; magnetic appliances, namely, magnetic separators and magnetic strainers; electrostatic emission control devices, namely, electrostatic precipitators for reducing particulate emissions in industrial

applications; equipment and appliances for automobiles, namely, batteries and relays; transmitting and receiving apparatus for radio and television broadcasting and for long-distance transmission, namely, microwave antennas, remote controls, and electronic switches; radio receiving sets; freeze-picture transmission systems comprised of video transmitters, receivers, computer chips, and software; television receiving sets; television translators; television cameras; video cameras; industrial television equipment; electricgramophones; record players; automatic sync sound filmstrip projectors; stereo equipment, namely, receivers, amplifiers, tuners, speaker systems comprised of a plurality of speakers, speakers, blank disc cartridges, tape decks, headphones, electric cleaners for record discs, magnetic tape recorders; stereo modular combination with 8-track player, cassette tape recorders, record auto changers, cassette tape decks, video projectors, video monitors; blank magnetic recording tapes; blank video tapes; blank magnetic floppy discs; liquid crystal displays and their parts; blank cartridge tapes; blank videodiscs, blank audio discs; blank cassette tapes; video tape recorders; video disc players; audio disc players; optical disc players; cassette players; cassette recorders; car radios; transceivers; household electric appliances, namely, hair setters, electric irons, timer switches; electronic thermometers; ferrite magnets for motors, copier printers, denture attachments and vibrating motors in mobile devices; copper and copper alloy, namely, bus bars and induction coils; graphite products, namely, graphite electrodes; ceramic products for electric and electronic parts, namely, ceramic scintillators, ceramics for use in semiconductors and integrated circuits, and ceramics for electro-magnetic heads; measuring instruments, namely, electronic indicators for bevel angle, electronic indicating controllers, electronic sequential controllers, electronic event recorders, electronic insulation testers, electronic pressure transmitters, pneumatic pressure transmitters, level gauges, thickness gauges, moisture gauges, density gauges, oxygen meters; electric and electronic parts, namely, printed wiring boards, capacitors, coils, resistors, printed circuit boards, printed circuit board materials, namely, conductive layers, insulating material layers and conductive pathways, semiconductor materials in the nature of substrates, nickel, and copper to produce semiconductors; anisotropic conductive film; wiring devices, namely, electrical switches, electrical receptacles, electrical plugs and plug caps, electrical connectors, electrical and electronic wiring device cover plates and decorative wall plate covers, and electrical grounding, socket and outlet adapters; local area network and integrated service digital network apparatus, namely, hubs, switches, and routers, network cards, and network access server hardware and software; electric door bells, alarm buzzers, electric dust collectors; electric hair brushes; electric control equipment, namely, computer hardware and software for the control of rolling mills; electric arc welders; nuclear medical data processing systems comprised of personal computers, work station computers, nuclear medical data analysis processing software, and gamma cameras; polystyrene beads for use as laboratory equipment in biology and genetics research; load sensors; poles made from carbon not for insulating purposes; digitizers, namely, analog-digital converters for use in computers; bus ducts, namely, conductor bars assembled with insulators in grounded enclosures and insulated trolley bar bus ducts; physical security and identification systems, namely, security video cameras, security video monitors, computer servers for use with security systems, personal security alarms, radio frequency identification integrated circuit chips, motion-sensitive security lights, and computed tomography to identify the existence of hazardous agents, not for medical use; access control devices, namely, biometric scanners that feature finger-vein authentication; train traffic control systems, namely, traffic lights, railway signals, and substation systems to supply electric power to trains through the railroad tracks comprised of electric power converters, electric power transformers, rectifiers, and switchgears; material handling equipment, namely, lasers for measuring purposes, protective industrial gloves, protective industrial head guards

to protect from heat, protective industrial boots and shoes, communication devices for industrial process control, and automated storage/retrieval systems, namely, computers; computer servers, namely, computer network access servers, video servers for security systems, network data storage servers, network software application servers, blade servers, and enterprise servers; computer hardware; computer software, namely, database management software, software for creating and presenting multimedia presentations, encryption software, computer hardware management software, computer hardware drivers software, industrial process control software, compiler software, software for use in construction and automated manufacturing, computer software for administration of computer local area networks, desktop publishing software, and software for use in the design of semiconductors and consumer electronics; industrial personal computers; programmable electrical controllers; servo drive systems, namely, electronic servo motor controllers; speed changers, namely, electronic speed controllers and high-speed gears for turbine generators sold as a unit; electrical substations and power conversion equipment, namely, electrical transformers, electric converters, gas circuit breakers, gas insulated switch gears, and generator step-up electric transformers; fully digitalized electric substation control systems consisting of computers, computer display monitors, computer network servers and substation control monitoring machines; environmental climate control systems comprised of digital thermostats, air conditioning, heating, ventilation and drying electrical controllers, electrostatic emission control devices, NOx removal plants comprised of gas inlets, reactors, catalyst blocks, and gas outlets; flue gas desulphurization systems, namely, flue gas electrostatic precipitators for reducing particulate emission in industrial applications, integrated immobilization nitrogen removal processes, plasma direct-melting reactors used to render discharged waste harmless and reduce its volume, and purifiers; adaptive cruise control (ACC) systems sold as a unit, comprised of cruise controls for motor vehicles, charge-coupled device (CCD) cameras, millimeter-wave radar detectors, active boosters to provide power to engines, and electrical vehicle dynamics controllers; industrial implementation, namely, oscilloscopes, flow meters, electronic pressure and differential pressure transmitters, and sensitivity turbidity monitors to measure the turbidity of distributed water and filtration in water and sewage; mill operation control centers consisting of mill control computers, computer monitors, microphones, and computer servers, and integrated information and control systems for controlling mills consisting of computers, computer monitors, and computer servers; transport operation control systems, sold as a unit, comprised of converters, inverters, asynchronous traction train motors, electronic interlocking devices in the nature of programmable electronic cylindrical locksets and keypads for railway signaling equipment and to support track maintenance operation controls, computer monitors, computers, computer servers, electric power converters, electric power transformers, rectifiers, and switchgears; chemical equipment, namely, laser beam event recorders; DVD navigation systems comprised of DVD players, computer hard disk drives, display screens, computers, remote controls, and antennas; HDD navigation systems comprised of DVD players, computer hard disk drives, display screens, computers, remote controls, and antennas; air flow sensors, gas flow sensors, pressure sensors; electronic throttle control units, consisting of electronic controls for throttles and throttle bodies sold as a unit; engine control units, namely, electronic controls for gasoline engines for land vehicles; transmission control units, namely, electromechanical controls for use in vehicle transmissions; cordless USB adapters; digital laser to measure distance, area, volume, continuous, and side; electric vehicle inverters for hybrid vehicles

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Cutlery, namely, forks, spoons, and knives; razors; household electric appliances, namely, electric shavers and razors; cutting tools, namely, metal cutting saws; knife cutters; groovers for grout, mortar or cement

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Common metals and their alloys sold in bulk; metal building materials, namely, girders, doors, and window frames; transportable buildings of metal; metal materials for railway tracks, namely, rails and bolts; non-electric cables and wires of common metal; ironmongery and small items of metal hardware, namely, tacks, nails, window casement bolts, window fasteners of metal, furniture casters of metal, nuts of metal, and shims; pipes and tubes of metal for use in the manufacture of semiconductors, electrical parts, and consumer appliances; metal safes; goods of common metal, namely, metal ropes; ores, namely, zinc ores, antimony ores, chrome iron ores, cobalt ores, mercury ores, tin ores, bismuth ores, tungsten ores, iron ores, copper ores, thorium ores, lead ores, nickel ores, manganese ores, molybdenum ores, and iron pyrites, sold in bulk; soft ferrite, unwrought common metal, and semi-wrought common metal, all for use in optical network communication hardware, antennae, portable phones, magnet compass sensors, information technology sensors, noise reduction hardware, power supplies, magnets, motors, mobile telephones, personal digital assistants, pagers, flat panel displays, semiconductors, integrated circuits, automobiles, filters, pipes, metal manufacturing rolls, plastic manufacturing rolls, molds for plastic and metal manufacturing, and steel blades; iron, nickel, cobalt, chromium, molybdenum, aluminum, silver, copper, titanium, niobium, and zirconium alloys; aluminum alloy castings; aluminum wire and cable; magnesium alloy castings, chains, rolling bars for further manufacture, pipe fittings; malleable cast iron for use in electronics manufacturing, car manufacturing, automotive components and materials, piping and infrastructure products, building construction and industrial building plant component and materials, electrical power supply and electrical power supply components, and aerospace devices; steel and metal forging and cast steel for use in electronics manufacturing, car manufacturing, automotive components and materials, piping and infrastructure products, building construction and industrial building plant component and materials, electrical power supply and electrical power supply components, and aerospace devices; valves of metal, other than parts of machines; tool steel, namely, steel for use in making molds, namely, plastic molds, stamping press molds, and cold and hot-forging molds; semi-finished articles of copper, its alloys and oxygen-free copper, namely, bimetal, copper tubes, copper strips, copper tape, and copper bars; ropeways of metal; metal clad laminate; copper clad laminated sheets; molding compounds of metal for use in electronics manufacturing; metal molds for use in electronics manufacturing; metal dies for use in electronics manufacturing; metal molds and dies for use in car manufacturing, automotive components and materials, piping and infrastructure products, construction and plant materials, power supply and power supply components, and aerospace devices; sintered metal parts for use in electronics manufacturing, car manufacturing, automotive components and materials, piping and infrastructure products, construction and plant materials, power supply and power supply components, and aerospace devices; powder metallurgy metals for use in electronics manufacturing, car manufacturing, automotive components and materials, piping and infrastructure products, construction and plant materials, power supply and power supply components, and aerospace devices; brass, sold in bulk

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods
