CASE IDENTIFIERS

Serial Number 79216130 **Application Filing Date** Feb. 02, 2017 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Oct. 24, 2023

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the letters "GT" in stylized lettering with the letter "G" appearing in black inside of a green square that is outlined in black and the letter "T" appearing in yellow-green and black and partly inside a second black square that is touching the other square. **Color Drawing** Yes **Color Claimed** The color(s) black and yellow-green is/are claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1364448 **International Registration Date** Feb. 02, 2017

GOODS AND SERVICES INFORMATION

For Couplings, connectors and parts thereof for commercial vehicles, namely, trucks, buses, construction equipment, agricultural vehicles and marine equipment, in particular marine emergency breakaway couplings, emergency breakaway couplings quick release couplings, dry couplings, cryogen couplings, cryogen emergency breakaway couplings, rapid couplings; valves and parts thereof for brakes and exhaust systems of commercial vehicles, namely, trucks, buses, construction equipment, and agricultural vehicles; brakes and braking installations and parts thereof for commercial vehicles, namely, trucks, buses, construction equipment, agricultural vehicles, in particular exhaust brakes

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For pumps as parts of machines, except for land vehicles; pumps used in the liquid transfer between terminals, road tankers, rail tankers and ships; pneumatic actuating apparatus, namely, pneumatic valve actuators; pneumatic system control instruments for machines, motors and engines; gaskets being parts of machines, in particular hydraulic and pneumatic gaskets, rubber-metal- connecting gaskets; pressure regulators being parts of machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Construction consultation and planning

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For electronic process controlling apparatus, namely electrical controllers; electronic positional and proximity sensors; electronic sensors for temperature; electronic regulators for gas; electronic regulators for use in the transport, loading and conveying of materials, gases, chemicals and fluids; electronic controllers, in particular electronic controllers for automatically operating valves; electric control apparatus for automatically operating valves; electronic controllers and control apparatus for use in the transport, loading and conveying of materials, gases, chemicals and fluids

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For non-metallic couplings for pipes; non- metallic connectors for hoses used in the transfer of chemicals, liquids and gases between terminals, road tankers, rail tankers and ships; flexible connectors for introducing gases, chemicals and fluids into mobile containers, namely, non-metal flexible pipes and hose connections used in the transfer of chemicals, liquids and gases between terminals, road tankers, rail tankers and ships, and in exhaust gas systems; seals for pipe connections, not of metal used in the transfer of chemicals, liquids and gases between terminals, road tankers, rail tankers and ships, and in exhaust gas systems; valves of gum, rubber or vulcanised fibre; injection molded products of plastic for use in a variety of industries; compression and injection molded products of rubber for use in a variety of industries

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For metal pipes; pipework systems of metal for conducting gases, chemicals or fluids; tubular devices of metal for introducing gases, chemicals or fluids into a container; metal valves and parts thereof other than parts of machines

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

For scientific testing services, quality inspection services and customized development services and design services in the fields of marine engineering, transport of materials, offshore industry, petrochemical industry, compression and injection molding, commercial vehicles, and systems and constructions for the safe transport, loading and conveying of materials, gases, chemicals and fluids; engineering research; engineering consultancy services; technological engineering analysis; materials testing and analysing; industrial engineering design services; quality control; and the development and design of systems for the safe transport, loading and conveying of gases, chemicals and fluids

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Provision of training courses in the use and operation of equipment, systems and constructions for the safe transport, loading and conveying of materials, gases, chemicals and fluids

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Treatment of materials, namely, custom assembling of materials for others, vulcanisation, metallurgical processing, heat treatment and coating of steel; custom construction of machines; custom manufacture and assembly, in particular custom manufacture and assembly of gaskets, molded components and tools for others; contract moulding services; the aforementioned services in particular in the fields of construction, marine engineering, transport of materials, offshore industry, petrochemical industry, transport and railway traffic quality inspection

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Installation, maintenance and repair of installations, devices and apparatus, in particular in the field of road traffic, railway and rail transport technology; construction management; maintenance, renovation, servicing and repair of land vehicles

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electric signaling, measuring, counting, recording, monitoring, controlling, regulating and switching devices, namely, radios, radio signal transmitters and receivers, electronic signal transmitters and receivers, signal processors, and electrical switches; electric apparatus for the input, processing, transmission, storage and output of data; electronic instruments and apparatus for data capture and control, namely, computer hardware; electrical warning light systems; electrical signal attenuators; alarm and alert systems, namely, alarm monitoring systems; signal transmission and display devices, namely, radio signal transmitters and computer hardware; current and voltage transformers; current transformers for converting mains voltage into variable voltage; lightning conductors; power frequency converters for traction systems; auxiliary converters, namely, frequency converters for auxiliary electrical components and railway power supply and battery charging; traction power converters, namely, electric contacts and electric switches; control engineering apparatus and equipment for switchgear

and network control engineering, namely, electrical controllers and electrical switches; transformers; power cables and lines being electrical cables; electronic power and torque measuring devices; electronic load indicating devices, namely, voltmeters; emergency power supplies; downloadable data processing programs; data processing apparatus and computers, and computer peripheral devices therefor; the aforesaid goods being for data communications via cable and wireless telecommunications networks, for remote data transmission and for data transmission on local networks; apparatus for measuring, monitoring and analysing operating data from electric goods, namely, data processors; downloadable interactive computer software for calculating and displaying the current status and remaining useful life of components in the area of road traffic, railway, rail infrastructure, energy infrastructure and rail transport technology; downloadable mobile applications for managing configuration of diagnostic solutions and systems and calculating and displaying the current status and remaining useful lifetime of components in the area of road traffic, railway, rail infrastructure, energy infrastructure and rail transport technology; pantographs being electric current collectors

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Technical planning, research and technical development of installations, devices and apparatus, in particular in the field of railway technology and railway traffic technology, operating systems and traffic control systems, namely, product research and development; technical consultancy and surveying in the field of railway technology and railway traffic technology, operating systems and traffic control systems, the operating systems and traffic control systems, namely, engineering consultation; creation and rental of data processing and process technology programs, computer programming and computer software rental; computer project management in the field of operating systems and traffic control systems; technical and scientific consultancy, namely, product research consulting and scientific research consulting in the field of traffic monitoring, traffic control and traffic management; design and development of computer hardware and software; technological consultancy, namely, consulting in the field of engineering; conducting technical project studies, namely, engineering consulting; computer project management in the field of electronic data processing; services of an edp programmer, namely, computer programming; maintenance and installation of software; software as a service (SAAS) services featuring software for calculating and displaying the current status and remaining useful lifetime of components in the area of road traffic, railway, rail infrastructure, energy infrastructure and rail transport technology; platform as a service (PAAS) featuring computer software platforms for calculating and displaying the current status and remaining useful lifetime of components in the area of road traffic, railway, rail infrastructure, energy infrastructure and rail transport technology; hosting platforms on the internet, namely, hosting of digital content on the Internet; cloud computing featuring software for calculating and displaying the current status and remaining useful lifetime of components in the area of road traffic, railway, rail infrastructure, energy infrastructure and rail transport technology

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1103876 **International Registration Date** Aug. 30, 2011

GOODS AND SERVICES INFORMATION

For automated guided vehicles; land vehicles ; air vehicles for transport; space shuttles and other space vehicles and structural parts and equipment thereof; vehicles for air and space travel and parts and equipment thereof, namely, solid fuel rocket motors, propulsion stages, avionics subsystem, nozzles, caps, interstages, payload adapters; space vehicles, namely, rockets, rocket launchers, launch vehicles for satellite space shuttles and for space transportation systems; all these goods being in connection with space activity

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Educational games other than those adapted for use with an external display screen or monitor for developing fine motor, cognitive and counting skills; educational toys for developing fine motor, cognitive and counting skills

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Business management; business administration; business management and organization consultancy; computerized file management; organization of exhibitions for commercial or advertising purposes; on-line advertising on a computer network; public relations; wholesale and retail store services featuring scientific apparatuses, not for medical use, namely, photographic, optical, measuring apparatus and instruments, apparatus for recording, transmitting, reproducing or processing sound or images, apparatus and instruments for observing Earth and space, magnetic recording media, acoustic or optical disks, data processing equipment and computers, detectors, diagnostic apparatus, not for medical purposes, integrated circuit cards, recorded computer software, computer peripheral devices, satellites for scientific purposes, satellite navigation apparatus, computer software for checking, monitoring, and archiving data, computer software for telemetry, computer software for navigating and communicating in space, optical or electronic data carriers, recorded or non-downloadable computer software database server centers, computer hardware, surveillance apparatus, space suits, robots, helmets, rockets, space stations and

components thereof, rocket and satellite launchers, all these goods being in connection with space activity

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Clothing namely shirts, pants; footwear; headwear, namely hats, caps

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Scientific and technological services, namely conducting estimates, evaluations and research in the field of engineering; design and development of computers and software; scientific research and development for others; technical research in the field of aeronautics project studies; computer programming; conversion of data or documents from physical to electronic media; developing quality control and accreditation standards and means for standardization in the field of engineering; quality management services, namely quality control and performance evaluation in the field of aeronautics; technical research on implementing standards and standardization in the field of aeronautics; scientific research on quality control and performance evaluation; technical research in the field of engineering and space exploration; engineering services not for building purposes; material testing; technical laboratories for testing and measuring aeronautical apparatus; services for standardization, namely, developing and designing of technical standards for manufactured goods in the nature of space shuttle launcher rocket and satellites and for telecommunication services; research and development of computer and electronic systems in the fields of computing and telecommunications; testing the adaptability in the space environment of engines, signaling buoys and inspection apparatus and lenses of the radar industry, the optic industry, the space engine industry, navigation satellite industry; research in the fields of space and robotics science, astronomy, space and robotic technology, aeronautics, oceanography, weather and geology, and testing the adaptability in the space environment of engine, signaling buoys and inspection apparatus and lenses goods resulting from this research; development of global satellite navigation systems; scientific research on fundamental science, astronomy and aeronautics technology; research on robot exploration of other planets; research in relation to preparation programs for the scheduled launches of rockets, satellites and space shuttles; research for the development of space technology; scientific research for observing the Earth, for exploration and transportation of humans, for human travel in space and for space engineering; research on space technology; scientific services, namely testing of satellites and space shuttle engines for others; consulting services in the field of design, planning, and implementing project management of research assignments and scientific coordination; providing Internet sites for displaying scientific information in the fields of science, astronomy, technology, aeronautics, oceanography, weather, geology and satellite technology research; research for fine-tuning technology and developing products; materials testing in orbit; research on the adaptability of various components to the space environment; all these services being in connection with the space industry

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Robots for space exploration, space navigation, space travel, and space development

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Scientific apparatus and instruments for checking space instruments, for checking and measuring flight parameters and the temperature, pressure, quantity and concentration of gas and liquids and climate change; photographic apparatus, namely cameras, lenses and exposure meters; optical apparatus, namely, inspection and character recognition apparatus; measuring apparatus and instruments, namely, digitizers; apparatus for recording, transmitting, reproducing or processing sound or images; apparatus and instruments for observing Earth and space, namely antennas, telescopes and thermal imaging cameras; magnetic recording tapes; acoustic disks featuring information on the use of equipment in the field of space and information technology; blank optical disks; optical disks featuring information on the use of equipment in the field of space and information technology; data processing equipment and computers; motion, infrared and laser object detectors; diagnostic apparatus, not for medical purposes, for studying gravity; integrated circuit cards; computer software, recorded, for data transmission and remotely monitoring equipment; recorded computer operating software; computer peripheral devices; satellites for scientific purposes; satellite navigation apparatus; recorded computer software for checking flight parameters and the temperature, pressure, quantity and concentration of gas and liquids, monitoring communication between computers and machine systems, data communication, reception, processing and display, archiving and transmitting telemetry data; recorded computer software for navigating and communicating data in space; black optical or electronic data carriers; downloadable computer software for managing database server centers; computer hardware; automated self-contained electronic surveillance apparatus that can be deployed to gather evidence or intelligence in remote locations; space suits, protective helmets, earth observation systems comprising space stations for research that are equipped with, satellites, all these goods being in connection with space activity; apparatus for educational games adapted for use with an external display screen or monitor

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Production of films, television films, television programs, reports, debates; videotaping; arranging contests, lotteries and games for educational and entertainment purposes; arranging exhibitions for cultural or educational purposes; arranging seminars featuring practical training classes and demonstrations in the field of space exploration, space navigation, space travel, space technology and space development ; news reporters services; consultancy in relation to producing audiovisual programs; electronic publishing services, namely reproduction of text and graphic works for others on DVD and CDROM featuring space exploration, space navigation, space travel, space technology and space development; audio and video recording services on DVD and CDROM; arranging symposiums, colloquiums and conferences in the field of space exploration, space navigation, space travel, space technology and space development; publication of books; publication of electronic books and journals on-line; publication of texts, other than publicity texts; all these services being in connection with the space industry

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of an overall circular design outlined in gray comprised of seven polygon quadrants with a circle in the middle. Surrounding the circle are the words "ACTIVITY", "MINDFULNESS", "SLEEP", "MENTAL WELLBEING", "PHYSICAL HEALTH", "NUTRITION", and "SELF-CONTROL" in black. Within the polygon under the word "ACTIVITY" is a turquoise shoe design with half of the polygon shaded in turquoise and the remaining portion shaded in white. Within the polygon under the word "MINDFULNESS" is a purple flower with a small portion of the polygon shaded in purple and the remaining portion shaded in white. Within the polygon to the left of the word "SLEEP" is the design of a blue bed with half of the polygon shaded in blue and the remaining portion shaded in white. Within the polygon above the word "MENTAL WELLBEING" is the design of a portion of a human being with a brain visible all in green with half of the polygon shaded in green and the remaining portion shaded in white. Within the polygon above the word "PHYSICAL HEALTH" is the design of a portion of a human being with lung and heart organs visible all in green with a portion of the polygon shaded in green and the remaining portion shaded in white. Within the polygon to the right of the word "NUTRITION" is the design of an orange bowl with white, brown, green and red food within with half of the polygon shaded in yellow and the remaining portion shaded in white. Within the polygon below the word "SELF-CONTROL" is the design of grey, red and white bottle with a yellow and white cigarette with grey smoke and a red circle with two grey lines intersecting, all superimposed on a shaded green space within the polygon with the remaining portion shaded in white. Within the center circle is the wording "HEALTH SCORE" in blue. Below this is an outlined circle in blue with an outlined heart and checkmark within also in blue. To the right is the number "734" in blue with an outline of an arrow head in blue. Below is a shaded rectangle with rounded corners in blue and the wording "VERY GOOD" in white. The remaining white represents background and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The colors turquoise, purple, blue, green, orange, red, brown, yellow, grey, black, and white are claimed as a feature of the mark. **Disclaimer** "ACTIVITY", "MINDFULNESS", "SLEEP", "MENTAL WELLBEING", "PHYSICAL HEALTH", "NUTRITION", "SELF-CONTROL", AND "HEALTH SCORE"

GOODS AND SERVICES INFORMATION

For Air treatment apparatus and systems, namely, ionisation apparatus for the treatment of air; air purification units, namely, air treatment apparatus for the protection of the internal environment against viruses, bacteria and superbugs; filters for removing viruses, namely, filters within air purification systems; air and surface decontamination apparatus and installations, namely, air purifiers and electric air dryers used for the removal of solid, liquid and vapour contaminants from air; apparatus for the decontamination of medical materials and medical areas, namely, air purification treatment and decontamination machines for eliminating indoor allergens, malodours, indoor pollutants, formaldehyde, carbon, and pathogens; air cleaning filters for air cleaning being purification machines or installations; air conditioning filters; air filtering installations; air filters for use as dust arrestants or extractors, namely, air filters for industrial filtering installations; apparatus for exhausting dust, namely, air filtering installations for exhausting dust; apparatus for extracting dust, namely, air filtering installations for extracting dust; apparatus for filtering dust, namely, air filtering installations; apparatus for decontaminating breathing air, namely, air purifiers and air filtering installations; decontamination chambers, namely, air purifiers and air filtering installations; decontamination showers; disinfectant apparatus, namely, apparatus for cleaning the air namely air filtering and purifying installations ; air sterilisers; apparatus for collecting dust from the air, namely, air filtering installations; apparatus for controlling smoke, namely, air purifiers; dust cyclone filters, namely, air filter cartridges for dust collection systems; dust filters, namely, air filter cartridges for dust collection systems; dust removing installations in the nature of air purifying installations; dust suction installations in the nature of air purifying installations; ventilators for dust removing installations; fluorescent lamps with low ultraviolet light output; germicidal lamps for purifying air; installations for dust separating in the nature of air purifying installations; ionisation apparatus for the treatment of air; portable decontamination apparatus, namely, portable air purifiers; regulating and safety accessories for gas apparatus, namely, direct vents for gas appliances, filtering devices for gas conditioning; pollen filtering apparatus in the nature of air purifying installations; sanitary apparatus and

installations in the nature of air purifying installations; sterilizers; ultraviolet lamps for use in air treatment apparatus and systems; ultraviolet ray lamps for use in air treatment apparatus and systems; ventilation and air-conditioning installations and apparatus except for vehicles, namely, air conditioning units; apparatus for producing ozone, namely, ozone generators that kill mould and mildew; apparatus for protection against contamination, namely, air purification systems comprised primarily of dehumidifiers and air purifiers; ionisation apparatus for the treatment of air

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Installation, maintenance and repair of air analysing, purifying, sterilising, filtering and cleaning apparatus; installation, maintenance and repair of decontamination and disinfectant apparatus; installation, maintenance and repair of ventilation, air-conditioning and contaminant extraction apparatus; installation, maintenance and repair of irradiation apparatus; installation, maintenance and repair of ultraviolet light apparatus; installation, maintenance and repair of gas generating, regulating and safety apparatus; installation, maintenance and repair of condensing apparatus, compressors and cleaning apparatus; installation, maintenance and repair of apparatus for controlling smoke, producing ozone and producing free radicals; installation, maintenance and repair of ionisation apparatus; consultancy and advisory services for all the aforementioned services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Air analysis apparatus; smoke detectors; apparatus for producing free radicals, namely, air purifiers; breathing apparatus, except for artificial respiration, namely, oxygen breathing units in the nature of oxygen masks and hyperbaric oxygen chambers not for medical use; electronic controllers for air purification apparatus and systems; remote control apparatus being remote controls for air purification apparatus and systems; detectors, namely, indoor allergens, pollutants, malodours and pathogens detectors; diagnostic apparatus for detection of pathogens, indoor allergens, pollutants and malodours, not for medical purposes; diagnostic apparatus, not for medical purposes, namely, for measuring the environmental parameters and testing the quality of air and checking for indoor allergens, pollutants, malodours and pathogens; electronic publications, downloadable, namely, research papers, journals, guides, brochures, newsletters, in the field of air purification; filters for respiratory masks for the prevention of accident or injury; gas testing instruments; monitoring apparatus, namely, sensors for detecting a change in air purification; ozone monitors, other than for medical use, namely, electronic based instruments for measuring environmental parameters for ozone; protective industrial respiratory and face masks; respirators for filtering air to prevent accident or injury

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Air treatment, namely, air purification by removing indoor allergens, pollutants, malodours and pathogens from the air; air purification; decontamination of hazardous materials; air and surface decontamination, namely, the removal of indoor allergens, pollutants, malodours and pathogens from the air; decontamination of subsurface soil sites; land decontamination; odour counteracting services, namely, odour neutralization; odour removal services, namely, odour neutralization

GOODS AND SERVICES INFORMATION

For Structural parts for vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Compressors as parts of machines, motors and engines; compressed air pumps; heat exchangers being machine parts; filters, namely, magnetic air filters for motors and engines; cyclone separators; valves and cocks, in particular ball cocks being drain cocks; magnetic couplings for machines for sealing purposes or for non-contact power transmission; feeding devices in the nature of conveyors being machines, in particular in the form of conveying threads, for mechanical seals, in particular for cartridge sliding-ring seals; static or dynamic seal units primarily comprised of mechanical seals intended for sliding-ring seals or supply units primarily comprised of mechanical seals for other technical installations, or supply units primarily comprised of mechanical seals with quench liquid units, thermosyphon units, seal gas units, seal pressure units, make-up devices, heat exchangers, magnetic filters or gas supply units; pressure intensifiers as parts of machines for sliding-ring seals; mechanical seals in the nature of shaft seals; single-acting and double-acting sliding-ring mechanical seals with gas or liquid lubrication for sealing liquid or gaseous media; rotary kiln mechanical seals and sealing units primarily comprised of mechanical seals; compensator aggregates and vibration decouplers being parts of machines for piping and duct systems, in particular for exhaust gas systems or for compensation of heat expansion, vibrations, movements or inaccuracies during assembly; rotary transmission units primarily comprising mechanical seals; sealing units for maritime applications primarily comprised of mechanical seals, in particular stem seals, sealing systems for bulkheads, extension devices and gear shafts; piston rings for

motors or pumps; crankshaft sealing units primarily comprising mechanical seals and mechanical seals for motors; turbo charger or charge air compressor seal units being parts of machines; seal units for air conditioning compressors primarily comprising mechanical seals; mechanical apparatus and equipment for storing, pressurising, circulating and/or tempering fluids for use in sliding-ring seals in the nature of mechanical seals; mechanical apparatus and equipment, namely, seal pressure units, fluid replenishment units, fluid circulation units, contaminant separators, leakage collection apparatus and equipment, all primarily comprising mechanical seals; gas supply devices being parts of machines for gas lubricated sliding-ring mechanical seals; all the aforesaid goods as parts of machines; magnetic couplings for sealing purposes, in particular hermetically sealed magnetic couplings for use with machines; mechanical seals and systems primarily comprising mechanical seals being parts of machines consisting thereof as parts of aircraft engines; articulated sealing systems and vibration decouplers in exhaust systems, in particular metal bellows or spring-loaded metal bellows being machines; mechanical seals; piston rings

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Electrical and electronic control, regulating and monitoring apparatus in the nature of electric control panels, electronic servo motor controllers; pressure maintenance units being measuring apparatus, pressure regulating units being pressure regulators and electric pressure distributors and measuring apparatus, in particular apparatus for measuring pressure, temperature, and flow rate for level monitoring and quench liquid supply apparatus and systems consisting thereof as well as diagnostic apparatus for seals, in particular for sliding-ring seals, for seal pressure systems as well as for other technical installations; apparatus and devices for the control of seals, in particular sliding-ring seals in the nature of power controllers; recorded software for controlling, regulating and monitoring apparatus and devices in the field of sealing technology, in particular in the field of sliding-ring seals or for computer-aided selection of possible types of seals as well as software of this type accessible or operable via the Internet; sensors, detectors and monitoring instruments and apparatus in the nature of pressure sensors; data processing equipment; downloadable software for controlling, regulating and monitoring apparatus ad devices in the field of sealing technology, in particular in the field of sliding-ring seals or for computer-aided selection of possible types of seals

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Sealing and packing material, in particular, non-metal seals for use in connection with seals in the nature of sealing rings, lip seals, gap seals, labyrinth seals, gland seals, seals for rotary kilns, static or dynamic seals in the form of flat gaskets, soft gaskets, O-rings, gasket or round sealing rings, profile rings or profile elements, crankshaft seals, turbocharger or charge air compressor seals, air conditioning seals, spiral wound gaskets, manhole gaskets, static gaskets for flange and pipe joints, sliding ring seals, pump or agitator sliding ring seals, compressor seals, stationary or rotating gas lubricated intermediate shaft seals, sliding ring seals with lubrication grooves, gas lubricated crankshaft seals, and gas lubricated non-contact turbocharger seals

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Technical analysis being product failure analysis services and technical consultancy services, in particular in the field of sealing technology; product development of seals; development of software for use in the field of sealing technology, in particular in the field of sliding-ring seals and for computer-aided selection of possible types of seals; development, programming and implementation of software; technical specialist consultancy relating to seals; software development; provision of computer programs in data networks in the nature of providing temporary use of on-line non-downloadable cloud computing software for controlling, regulating and monitoring apparatus and devices in the field of sealing technology, in particular in the field of sliding-ring seals or for computer aided selection of possible types of seals; software consultancy; creation, maintenance, installation, improvement, design, servicing, updating, implementation of software and computer programs in networks; preparation of technical documentation in the nature of technical writing for others for the operation of sliding-ring seals, as well as technical assistance for the handling of software and computer programs; leasing of software and computer programs for controlling, regulating and monitoring apparatus and devices in the field of sealing technology, in particular in the field of sliding-ring seals or for computer aided selection of possible types of seals; technical support services for the handling of software and computer programs, namely, troubleshooting of computer software problems

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For construction elements of plastic embedded in the ground in the nature of braces, supports, shores

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Assembling of machine plants; construction of parts of buildings; installation, assembly, maintenance, repair and upkeep of electronic, electric and mechanical drives and drive components; machine-diagnosis in the nature of inspection of machines thereof prior to maintenance and repair; assembly services relating to the installation of machines and machine tools, namely, machinery installation of machines and machine tools; installation of machinery for generating electricity; electrical installation services, namely, installation of electrical systems; mobile maintenance services, namely, maintenance of electric drives, namely, electronic controls for motors, gearboxes and motors; advisory services relating to the maintenance and repair of mechanical and electrical equipment; consultancy in regards to building construction, installation, assembly, maintenance, repair and upkeep of contactless electric distributors and fittings embedded in the ground

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Inverters; exchange inverters; drive inverters; current converters; voltage converters; frequency converters; regenerative electric power supply units; electronic controls for motors; electric cables; electric connectors; electric wires; contactless distributors for electric energy and information embedded in the ground, namely, electric charging points and wireless transmitters; electric rectifiers; electrotechnical apparatus for the contactless transmitting of electric energy, namely, floor laying electric power sources in the nature of electric charging stations; electrotechnical apparatus for the contactless transmitting of electric energy, namely electric winding wires; electric facilities being electric installations for the remote control of industrial operations; rotary speed sensors; encoders; incremental encoders; integrated circuits; semiconductors;

electric sensors; fieldbus electric cables; fieldbus electric plugs; computer network interface devices for wireless networks; current transformers; devices for the contactless transmission of electric energy and information, namely, wireless chargers and wireless transmitters; inductive contactless devices for supplying and charging of electric drives, electric storages, and electric vehicles with electric energy, namely line conductors, pick- up coils, current converters, antennas, receivers, transceivers; electric charging devices for charging of electric drives, electric storages and electric vehicles; batteries; accumulators; capacitors; capacitor modules consisting of capacitors, housing and circuit boards; electric charging cables; electric charging plugs

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

Mark Literal(s) OUTWATER WATER GUERILLA SPIRIT

CASE IDENTIFIERS

Serial Number 97013109 **Application Filing Date** Sep. 06, 2021 **Register** Principal **Mark Type** Trademark **Publication Date** Oct. 24, 2023

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stylized black wording "OUTWATER" centered below a black circular shape with white irregular lines running throughout the circle. There is a single black horizontal line centered below the term "OUTWATER." The black wording "WATER GUERILLA SPIRIT" appears in capital letters below the horizontal line and centered below the "UTWATE" portion of "OUTWATER". **Color Drawing** Yes **Color Claimed** The color(s) black and white is/are claimed as a feature of the mark.

FOREIGN INFORMATION

Foreign Registration Number 018543714 **Foreign Registration Date** Jan. 26, 2022 **Foreign Application/ Registration County** EUROPEAN (EU) OFFICE FOR HARMONIZATION IN THE INTERNAL MARKET (OHIM) **Foreign Expiration Date** Aug. 27, 2031

GOODS AND SERVICES INFORMATION

For Leather and imitations of leather; Trunks being luggage and suitcases; Umbrellas, parasols and walking sticks; Rucksacks; Handbags; Roller bags, namely, suitcases with wheels; Bags for sports; all-purpose carrying bags for use by campers; Beach bags; Travelling bags; Garment bags, namely, garment bags for travel; leather travelling bag sets; suitcases

International Classes 18 - Primary Classes **US Classes** 1, 2, 3, 22, 41 **International Class Title** Leather Goods

For Sunglasses; spectacles; optical goods, namely, optical readers and reflective eyewear; goggles for sports; eye glass cases; spectacle frames; spectacle lenses; swim goggles; diving masks, namely, diver's masks, face mask for diving; helmets, namely, diving helmets; snorkels

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For T-shirts; sweat-shirts; trousers; shorts; dresses; skirts; shirts; coats, jackets; footwear; headwear; clothing made of leather or imitation leather, namely, pants, shirts, swimming trunks, fishing shirts, fishing vests; Waist belts; Gloves; Socks; Slippers; Sports shoes; Beach shoes; Underwear

GOODS AND SERVICES INFORMATION

For Pallet trucks; Vehicle air brake system replacement parts and components for industrial lift trucks, namely, air brake filters; Electric motors for land vehicles; replacement parts for land vehicles, namely, horns, electric horns, and steering wheel horn buttons; Fuel system components for land vehicles, namely, gasoline and diesel fuel tanks and fuel lines; Replacement parts and components for industrial lift trucks, namely, structural brackets and supports, battery mountings, battery hold downs, brake cables and brake connectors; Torque converters for land vehicles and replacement parts therefor, namely, impellers and impeller covers, stators, bushings for use inside torque converters, clutches, and turbines; Land vehicle transmissions and replacement parts therefor, namely, transmission discs, transmission separator plates, transmission gears, turbine shafts, drive plates, output flanges, and master drive units; Lift truck engines and component parts therefor, namely, drive shafts; Brake cylinders, namely, master cylinders, slave cylinders, and wheel cylinders; brake hardware for land vehicles, namely, brake pistons, brake springs, and seals for brake cylinders; parts for lift trucks, namely, lift truck hoods, hood latches, and members, namely, gas springs and hinges for hood latches; fitted lift truck hood liners; lift truck doors and covers for doors; lift truck fenders; lift truck running boards; lift truck frame parts, namely, belly pans; lift truck counterweights; lift truck overhead guards; lift truck demountable wheel rims; lift truck brake calipers and pads therefor; lift truck bumpers; land vehicle foot pedals for speed, direction, braking, throttle, and power controls; Pedals for land vehicles, namely, inching pedals being clutch pedals and replacement parts therefor, namely, brackets, linkages, caps, springs, mounts, screws, nuts, pins, rods, bushings, switches, wiring, pads, magnets, and pins; Mirrors for vehicles, namely, rear-view and side-view mirrors for viewing vehicle operational surroundings; windshield wiper arms and wiper blades; Clutches for land vehicles and replacement parts therefor, namely, clutch discs, O-rings, seals, bearings, gears, friction plates, separator plates, pressure plates, bearings, washers, and gaskets; Pads specially designed to attach to the interior of lift truck cabs to increase comfort and suppress noise; Lift truck seats and seat cushions, namely, padding for lift truck driver seats; Vinyl and fabric land vehicle seats and seat cushions; hip restraints for vehicle seats; seat belts for use in vehicles; arm and back rests for use in vehicles; vehicle seat rails; cabs and operator compartments for lift trucks; fitted cab liners for lift trucks; land vehicle visual and audible signaling devices

and alarms, namely, turn signal levers, horns and motion alarms for vehicles; Lift truck cabs and their replacement parts, namely, windows, doors and handles, structural mounts and brackets for affixing the cab to the lift truck, windshield wipers, ashtrays, cup holders, structural consoles, and utility trays specially adapted for lift truck cabs; Tires; Vehicle wheels; Vehicle wheel hubs; Brake linings for land vehicles; Brake shoes for land vehicles; Brake drums; Vehicle parts, namely, brake levers and handles; Brake lines for vehicles; Brake linkage for vehicles; Steering covers, namely, steering boot kits for use with land vehicles; Land vehicle parts, namely, drive belts and drive chains; Land vehicle parts for steering systems used on forklift trucks, namely, power steering pumps, flow dividers, electric power steering motors, power steering cylinders, power steering chain, power steering hand pumps, steering wheel, steering linkages, spindles, tie rods ends, steering columns, bushings, and joysticks; Rubber mounts for steer axles in land vehicles; Land vehicle front end structural equipment; Structural attachment and replacement parts for fork lift trucks, in the nature of carriages, aprons, forks, load arms, shims, rollers, cross members, channels, rod ends and rod end pins and anchors, hydraulic check valves, and coil springs and leaf springs; mechanical parts for front end of a fork lift trucks, namely, hydraulic lift cylinders; Structural parts for forklift trucks, namely, load back rest extensions; Mounting brackets, tubes, and fittings for fuel lines for land vehicles; Lift truck accessories for storing and organizing items on a lift truck, namely, cargo storage bins specially adapted to fit in fork lift trucks; caps for vehicle fuel tanks; Land vehicle parts, namely, lift cylinders and tilt cylinders

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Air filters for vehicle motors and engines; Fuel filters; Oil filters; Metal parts and fittings for power-operated lifting equipment; Alternators for land vehicles and replacement parts therefor, namely, brushes, springs, belts, bushings, bearings, pulleys and diodes, roller bearings, ball bearings; Electrical ignitions for vehicles; spark timing devices for internal combustion engines for land vehicles, and parts and components therefor, namely, distributors, distributor caps, ignition coils, contact point sets, condensers, rotors, spark plugs, spark control rods, spark coils, and electronic ignition modules; Internal combustion engine parts for fork lifts, namely, carburetors, fuel injector pumps and fuel injectors, throttle rods, speed governors, brushes being parts of motors, pistons for engine combustion chambers, piston rings, connecting rods, inlet and exhaust valves, springs, camshafts, crankshafts, intake and exhaust valves and manifolds, timing belts and timing chains, bushings, valve guides, cylinder heads, cylinder head covers, vibration isolators, rocker arms, timing gears, bearings, oil pans, water pumps, and gaskets; air filters being parts of engines; breather filters; seals as parts of exhaust systems; linkages for machines, namely, brake and brake pedal linkages, throttle linkages, clutch linkages, transmission control linkages, control valve linkages, and steering linkages; Drive axles for fork lifts and their component parts, namely, differentials, bearings, seals, spindles, couplings, axle shafts, axles, pinion gears, suspension springs, gas springs, and spring clips; electric starter motors; radiators for vehicles; radiator fans for vehicles; radiator fan shrouds and mountings therefor; Engine exhaust systems and replacement parts therefor, namely, mufflers, catalytic converters, manifolds, exhaust scrubbers, tail pipes, and exhaust pipes; Repair kits for lift truck assemblies, namely, piston ring repair kits for internal combustion engine machines comprising metal piston rings; repair kits for lift truck assemblies, namely, cylinder head repair kits for internal combustion engine machines comprising intake valves, exhaust valves, valve springs, and valve retainers; repair kits for lift truck assemblies, namely, engine bearing repair kits for internal combustion engine machines comprising metal connecting rod and main bearing inserts; repair kits for lift truck assemblies, namely, gear set repair kits for internal combustion engine machines comprising crankshaft and cam shaft drive sprockets; repair kits for lift truck assemblies, namely, alternator repair kits for internal combustion engine machines comprising deep groove ball bearings, bronze alternator bushings, and carbon alternator brushes; repair kits for lift

truck assemblies, namely, fuel injector repair kits for internal combustion engine machines comprising fuel injector and metal engine gasket; repair kits for lift truck assemblies, namely, engine brush repair kits for internal combustion engine machines comprising carbon engine brushes and metal springs; Conversion kits for lift truck assemblies, namely, alternator conversion kits for internal combustion engine machines comprising wire harness and alternator; Lift truck parts, namely, oil and engine seals for lift truck drive axles, transmission housings and internal combustion engines; Replacement parts and components for industrial lift truck engines, namely, air filters, oil filters, and fuel filters, vented engine covers and unvented engine covers, and fuel pumps; Replacement parts for electric motors for land vehicles, namely, armatures, armature shaft bearings, springs for affixing carbon brushes to the armature; Hydraulic lift motor systems for lift trucks and replacement parts therefor, namely, hydraulic pumps, hydraulic motors, oil coolers for hydraulic lift motors, hydraulic fluid tanks, and hydraulic flow dividers; Accumulator charge valve and seal kits for industrial lift trucks, comprising rubber and metal reinforced oil seals, filters, and filter housings; Land vehicle parts for fork lift trucks, namely, fuel lock off valves, flywheels, and flywheel housings; Cam shafts; Transmission control valves and hydraulic control valves for lift truck hydraulic systems; engine fuel shut-off valves; fuel flow control valves for lift truck fuel systems; Land vehicle parts, namely, timing chains; Hydraulic valves for forklift engines and their component parts, namely, fittings, seals, housings for end valves and spool valves, solenoid valves, and valve mounts for use with forklift engines; Hydraulic control levers for machines; single and double reach pantographic attachments for lift trucks being fork lift attachments for load and push and pull-extensions for the handling of goods; lift truck hardware and load container handling attachments and replacement parts therefor, namely, beam end assemblies, load track rollers, structural cylinders being cab lift cylinder assemblies, twist lock carriage anchors in the nature of load securement devices for securing shipping containers to vehicle floors, and twist lock carriage anchor cylinders in the nature of load securement devices for securing shipping containers to vehicle floors

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Radiator caps; Externally mounted lights for lift trucks

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Batteries for land vehicles; Replacement parts for land vehicle transmissions, namely, electronic transmission controllers and charge pumps being charge pump circuits for land vehicles; flat panel display screens and wire harnesses therefor for land vehicles; electronic controls for machines, incorporating joystick-style levers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Anti-static straps for vehicles for discharging static electricity

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Internal combustion engine parts for fork lifts, namely, metal dowels; Lift truck engine component parts, namely, metal dowels; Land vehicle parts, namely, lift chains; Land vehicle front end attachments and replacement parts therefor, namely, dowel pins

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods
