GOODS AND SERVICES INFORMATION

For Non-electric prime movers for land vehicles other than parts, namely, engine for land vehicles, jet engine for land vehicles, turbines for land vehicles, gas turbines for land vehicles, air turbines for land vehicles, steam turbines for land vehicles, hydraulic turbines for land vehicles; automobile engines; vehicles for the physically handicapped and those of reduced mobility; automobiles and their parts and fittings; two-wheeled motor vehicles, bicycles and their parts and fittings; self-propelled electric vehicles; electrically operated personal mobility scooters and automobiles; electric vehicles, namely, electrically-powered motor vehicles, electrically-powered motor scooters, motorized golf carts and electric cars; wheelchairs for nursing care; electric wheelchairs; wheelchairs and their parts and fittings; rickshaws; sleighs and sleds being vehicles for transport purposes; hand trucks; horse drawn carriages; carts; bicycle trailers; machine elements for land vehicles, namely, clutches for land vehicles, couplings for land vehicles, driving chains for land vehicles, gear boxes for land vehicles, gearing for land vehicles, reductions gears for land vehicles, torque converters for land vehicles, transmissions for land vehicles, transmission shafts for land vehicles, crankcases for land vehicle components other than for engines, turbines for land vehicles, connecting rods other than parts of motors and engines for land vehicles; brakes, brake discs, brake linings, brake pads, brake segments, brake shoes all for vehicles; shock absorbing springs and suspension springs for vehicles; shock absorbers for automobiles, suspension shock absorbers for vehicles; anti-theft alarms for vehicles; anti-theft devices for automobiles, namely, anti-theft automotive alarms, anti-theft locks for use on automobile steering wheels; AC motors or DC motors for land vehicles, other than parts; adhesives rubber patches for repairing tubes or tires; Baby carriage being prams; traction engine; ropeways for cargo or freight handling; parachutes; vessels and their parts and fittings; aircraft and their parts and fittings; railway rolling stock and their parts and fittings; three-wheeled motor vehicle, electric tricycles not being toys and their parts and fittings; electric tricycles not being toys; drive shafts, shaft couplings, transmission shafts, cardan shafts, axles and spindles

for land vehicles; shaft couplings and connectors for land vehicles; wheel bearings for land vehicles; power transmissions and gearing for land vehicles; idling pulleys for land vehicles; reduction gears for land vehicles; power transmission belts for land vehicles; toothed wheels and gears for land vehicles; speed change gears for land vehicles; fluid couplings for land vehicles; hydraulic torque converters for land vehicles; transmissions for land vehicles; transmissions for hybrid cars; drive units being driving motors for hybrid cars; drive units being driving motors for electric vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Water pumps for automobile engines; water pumps for motors and engines; oil pumps for automobile engines; oil pumps for land vehicle engines; filters for automobile engines; filters for internal combustion engine; oil filters for internal combustion engine; filters for motors and engines; pistons for automobile engines; fan couplings for automobile engines; fans for automobile engines; cylinder heads for automobile engines; cylinder head covers for automobile engines; intake manifolds for automobile engines; crankcases for motors and engines; pistons being parts of machines or engines; pistons for cylinders of automobile engines; gas engines not for land vehicles; gas turbines not for land vehicles; feed water heaters with cogeneration function, being parts of machines for non-electric prime movers and industrial engines; feed water heaters being parts of machines for non-electric prime movers and industrial engines; non-electric prime movers not for land vehicles and parts thereof, namely, engines not for land vehicles; machine elements not for land vehicles being ball transfer units, turntables and their rotating devices, shock prevention devices for machines, clutches for machines, gears for machines and belts for machines; electric power generators for cogeneration systems; gas engine driven power generators; starters for motors and engines; AC motors and DC motors excluding those for land vehicles and parts therefor; AC generators being alternators; DC generators; pumps being silt pumps, submersible pumps, diffusion pumps, axial flow pumps, circulating pumps; vacuum pumps; pneumatic controls for machines, motors and engines; pressure switches and sensors for monitoring, controlling and switching hydraulic or pneumatic systems being sold as a unit with manufacturing machine; hydraulic controls for machines, motors and engines; sewing machines; parts and fittings for sewing machines; machines and apparatus for the textile industry being textile washing machine for industrial purposes, textile bonding machines, printing machines for textiles; metalworking machines and tools using laser beam, namely, laser engraving machines, laser welding machines; laser welding machines; metalworking machines and tools being metal clamps used for holding piece parts on machine tool tables, diamond-pointed metal cutting tools, hard metal tools; plastic processing machines and apparatus; stone working machines and apparatus; glass-working machines and apparatus; ceramic processing machines and apparatus; rubber processing machines; laser beam machines for manufacturing semi-conductors; electrically operated shutter automatic opening and shutting devices; pumps as parts of machines, engines or motors; fuel pumps for land vehicle engines; chemical processing machines and apparatus being kneading machines for chemical processing, grinding machines for chemical processing, extracting machines for chemical processing; fuel dispensing machines for service stations; vehicle washing installations; waste compacting machines and apparatus for industrial purposes; waste crushing machines for industrial purposes; Shafts couplings, axles or spindles being parts of machines, not for land vehicles; shaft bearings being parts of machines, not for land vehicles; shaft couplings and connectors being parts of machines, not for land vehicles; bearing housings, inserts, brackets being parts of machines, not for land vehicles; power transmissions and gearing being parts of machines, not for land vehicles; idling pulleys being parts of machines, not for land vehicles; reduction gears being parts of machines, not for land vehicles; power transmission belts being parts of machines, not for land vehicles; toothed wheels and gears being parts of machines, not for land vehicles; speed change gears being parts of machines, not for land vehicles; fluid couplings being parts of machines, not for land vehicles; hydraulic

torque converter being parts of machines other than for land vehicles; transmissions for machines; Shaft bearings for vacuum pumps; Shaft couplings and connectors being parts of machines, not for land vehicles; fluid couplings being parts of machines; hydraulic torque converter being parts of a machine, other than land vehicles; Bearings being parts of machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Electronic equipment racks being display racks; storage racks

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Bath installations for nursing care, not for medical purposes; bath fittings, namely, faucet sprayers, faucet handles, tap water faucets, toilet bowls, bath tubs, bath boilers, showers; toilet stool units with a washing water squirter; disinfectant dispensers for toilets; toilet bowls; seating for use with Japanese style toilet bowls; air-conditioning apparatus by gas engine heat pumps for industrial purposes; air conditioners by gas engine heat pumps for industrial purposes; heat pumps; air conditioning apparatus and fittings therefor for industrial purposes; space heating and cooling apparatus and fittings therefor for industrial purposes; air-conditioning apparatus by gas engine heat pumps for household purposes; air conditioners by gas engine heat pumps for household purposes; air conditioning apparatus and fittings therefor for household purposes; household electrothermic appliances, namely, steam facial and hair apparatus, electronic facial and hair steamers, facial and hair saunas for beauty or sanitary purposes; air conditioners with hot water supply by means of cogeneration functions; hot water storage type hot water supplying apparatus using heat from gas engines for industrial purposes namely, hot water heaters; gas hot water suppliers being hot water heaters for industrial purposes; gas engine heat pumps and their parts; boilers, not for parts for non-electric prime movers, and not for engines namely, electric boilers, furnace boilers, heating boilers, industrial boilers; hot water storage type hot water supplying apparatus using heat from gas engines for household purposes being hot water heaters; gas hot water suppliers being hot water heaters for household purposes; gas water heaters for household purposes; hot-air space heating apparatus for household purposes; Non-electric stoves for household purposes, namely, gas stoves, wood burning stoves; toilet bowls and seats sold as a unit; prefabricated bathrooms sold as a unit, namely, shower and bath cubicles containing built-in toilet, sink, hand-held showers and flexible pipes being parts of shower plumbing installations, shower panels, shower bases and shower doors; prefabricated shower baths sold as a unit consisting of shower and bath cubicles; steam facial treatment machines and devices for household purposes; facial moisturizing equipment using ultrasonic waves for household purposes namely, electronic facial steamers, facial saunas, steam facial apparatus; nanoparticle water facial spray machines, namely, steam facial apparatus, electronic facial steamers and facial saunas, having fine water particle generating and infiltrating functions for home treatment; household electrothermic appliances for beauty or sanitary purposes, namely, steam facial and hair apparatus, electronic facial and hair steamers, facial and hair saunas for beauty or sanitary purposes; electric refrigerators for household purposes; electric freezers for household purposes; electric cooking ovens for household purposes; air purifiers; electronic facial steamers for industrial purposes; facial moisturizing equipment using ultrasonic waves for industrial purposes, namely, steam facial apparatus, electronic facial steamers, facial and hair saunas for industrial purposes; nanoparticle water facial spray machines, namely, steam facial apparatus, electronic facial steamers and facial saunas, having fine water particle generating and infiltrating functions for commercial use; towel steamers for hairdressing purposes; hair drying machines for beauty salon use; hair steamers for beauty salon use; shampoo basins for barber's shop use being parts of sanitary installations; hair dryers; hand dryers; steam generating installations; fine water particle generating and

infiltrating device, namely, steam facial and hair apparatus, electronic facial and hair steamers, facial and hair saunas used in facial and hair treatment for household purposes; sauna apparatus as a unit; sanitary devices, namely, sanitary installations in the nature of steam rooms, urinals being sanitary fixtures, spigots for pipes and pipelines being parts of sanitary installations; evaporators for chemical processing; distillers for chemical processing; drying apparatus for chemical processing; recuperators for chemical processing; steamers for chemical processing; air conditioners for household purposes; vehicle-mounted air conditioners with installed fine water particle generating and infiltrating devices; air conditioners for automobiles; air conditioners for industrial purposes; ventilation installations, namely, ventilation fans for commercial and industrial use, ventilation units for commercial food preparation and servicing, heat recovery ventilators, energy recovery ventilators; hot water heating installations; freezing machines and apparatus for industrial purposes; laundry dryers, electric, for industrial purposes; cooking apparatus and installations for commercial use, namely, cooktops, microwave ovens, gas cooking ovens; industrial dish drying machines for commercial use; dish disinfectant apparatus for commercial use; kitchen sinks integrated with worktops for commercial use; kitchen sinks for commercial use; cooking apparatus and installations for commercial use, namely, cooktops, microwave ovens, gas cooking ovens; solar water heaters; water purifying apparatus for industrial purposes; lighting apparatus and installations; non-electric cooking heaters for household purposes; kitchen sinks with integrated worktops for household purposes; kitchen sinks for household purposes; household tap-water filters, non-electric; sauna apparatus

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Anti-freezing liquids; Formaldehyde absorbing chemical agents for industrial use; formaldehyde removing chemical agents for industrial use; oil additives for automobile engines being chemical preparations; chemical reagents sold as a kit, other than for medical or veterinary purposes; chemicals for use in industry and science; brake fluid for automobiles; transmission fluids for automobiles; glue and adhesives for industrial purposes; non-metallic minerals, namely, sulphur, rock salt for deicing, bauxite; reagent paper, not for medical purposes; unprocessed plastics being plastics in primary form; Chemical sealing compounds in liquid form being chemical preparations for sealing plant wounds; plant growth regulating preparations; fertilizers; ceramic glazings in the nature of a dry chemical preparation for use in the manufacture of ceramics; priming putty being oil cement; higher fatty acids being fatty acid for industrial purposes; chemical compositions for developing and printing photographs; artificial sweeteners; flour and starch for industrial purposes; pulp namely, sulphite pulp, groundwood pulp, cellulose pulp, bast pulp, rag pulp

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Referral of healthcare workers, housekeepers, care workers and nurses; employment agencies; placement and recruitment of staff; staff placement services and information and consulting services relating thereto; reception for visitors in buildings in the nature of secretarial services; retail store services and wholesale store services featuring sewing machines; distributorships in the field of beds and furniture; distributorships in the field of sewing machines; providing information of product sales; commercial information and advice for consumers in the choice of products and services; compilation and systematization of information into computer databases, and consultancy and providing information therefor; updating and maintenance of data in computer databases; data search in computer files for others; search engine optimization services for sales; providing and rental of advertising space using communication networks; advertising and publicity services; publicity material rental; sponsorship search and consultancy services thereof; business consultancy for system construction relating to

IT and introduction of IT; business consulting services; business management analysis and business consultancy; marketing research and analysis; promoting the sale of goods and services of others, and managing telepresence environment of others and consultancy therefor; providing incentive award programs for customers and employees through the distribution of prepaid stored value cards for the purpose of promoting and rewarding loyalty; promoting the goods and services of others through the administration of sales and promotional incentive schemes involving trading stamps; provision of consumer information and advice regarding the selection of products and items to be purchased; referral of information technology engineers; providing employment information; data processing services being office functions; collection of business data and information stored in computer databases; providing office functions; clerical services; providing office functions being process management in operation of computer system and providing information thereof; providing business assistance to others in the operation of data processing apparatus, namely, computers, typewriters, and fax machines; news clipping services; retail services and wholesale services being online retail store and wholesale store services featuring computer software; retail services and wholesale services being online retail store services and wholesale store services featuring a variety of goods in each field of clothing, foods and beverages, and livingware, carrying all goods together including via online; retail services and wholesale services being online retail store services and wholesale store services featuring woven fabrics and beddings; retail services and wholesale services being online retail store and wholesale store services featuring cushions and blankets; retail services and wholesale services being online retail and wholesale services featuring clothing; retail services and wholesale services being online retail store and wholesale store services featuring footwear and shoe boxes; retail services and wholesale services being online retail store and wholesale store services featuring bags and pouches; retail services and wholesale services being online retail store and wholesale store services featuring personal articles; retail services and wholesale services being online retail store and wholesale store services featuring pin badges and decorative tin badges; retail services and wholesale services being online retail store and wholesale store services featuring foods and beverages; retail services and wholesale services being online retail store and wholesale store services featuring automobiles and their parts; retail services and wholesale services being online retail store and wholesale store services featuring cushions, mattresses and headrests as automobile interior equipment; retail services and wholesale services being online retail store and wholesale store services featuring furniture; retail services and wholesale services being online retail store and wholesale store services featuring joinery fittings; retail services and wholesale services being online retail store and wholesale store services featuring tatami mats; retail services and wholesale services being online retail store and wholesale store services featuring ritual equipment; retail services and wholesale services being online retail store and wholesale store services featuring electrical machinery apparatus; retail services and wholesale services being online retail store and wholesale store services featuring cases and straps for smartphones and mobile phones; retail services and wholesale services being online retail store and wholesale store services featuring lighting apparatus; retail services and wholesale services being online retail store and wholesale store services featuring measuring and testing machines and instruments; retail services and wholesale services being online retail store and wholesale store services featuring medical apparatus and instruments; retail services and wholesale services being online retail store and wholesale store services featuring security lighting apparatus, security alarms, portable security alarms, security apparatus and instruments other than for vehicles, security monitoring apparatus and their parts, security and alarming apparatus and their parts, crime and disaster prevention monitoring and alarming apparatus; retail services and wholesale services being online retail store and wholesale store services featuring bladed or pointed hand tools, hand tools and metal hardware; retail services and wholesale services being online retail store and wholesale store services featuring kitchen equipment, cleaning tools and washing utensils; retail services and wholesale services being online retail store and wholesale

store services featuring portable water tanks; retail services and wholesale services being online retail store and wholesale store services featuring pharmaceutical, veterinary and sanitary preparations and medical supplies; retail services and wholesale services being online retail store and wholesale store services featuring cosmetics, toiletries, dentifrices, soaps and detergents; retail services and wholesale services being online retail store and wholesale store services featuring decorative stickers for body or face; retail services and wholesale services being online retail store and wholesale store services featuring agricultural machines, implements and supplies; retail services and wholesale services being online retail store and wholesale store services featuring natural flowers and trees; retail services and wholesale services being online retail store and wholesale store services featuring printed matter; retail services and wholesale services being online retail store and wholesale store services featuring paper and stationery; retail services and wholesale services being online retail store and wholesale store services featuring straps or clips with reel for card or ticket holders; retail services and wholesale services being online retail store and wholesale store services featuring sports articles and equipment; retail services and wholesale services being online retail store and wholesale store services featuring toys, dolls, game machines and apparatus; retail services and wholesale services being online retail store and wholesale store services featuring headbands, megaphones and toys for cheering up; retail services and wholesale services being online retail store and wholesale store services featuring photographic machines and apparatus and photographic supplies; retail services and wholesale services being online retail store and wholesale store services featuring opera glasses and optical machines and apparatus; retail services and wholesale services being online retail store and wholesale store services featuring clocks, watches and spectacles, eyeglasses and goggles; retail services and wholesale services being online retail store and wholesale store services featuring key rings; retail services and wholesale services being online retail store and wholesale store services featuring decorative magnets; retail services and wholesale services being online retail store and wholesale store services featuring printed photographs, portraits, photograph stands and photograph frames; retail services and wholesale services being online retail store and wholesale store services featuring floor coverings; retail services and wholesale services being online retail store and wholesale store services featuring toilet paper holders and tissue paper case covers of cloth; retail services and wholesale services being online retail store and wholesale store services featuring plastic bottle holders; business management and administration; business intermediary services for sales contracts of a variety of goods being distributorship services in the field of a variety of consumer goods; consultancy and advisory services relating to purchase contract of the goods; procurement services for others purchasing goods and services for other businesses associated with automobiles and air conditioners; preparation of financial statements; auctioneering; import-export agency services; arranging newspaper subscriptions for others; shorthand services; Stenographic, message, conference call transcription; document reproduction in the nature of photocopying services; rental of typewriters, copying machines; rental of vending machines; providing advertising information by means of personal digital assistants, smartphones and navigation apparatus for vehicles being on-board computers

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Measuring and testing machines and instruments for detecting information about the performance of automobiles; measuring and testing machines and instruments, namely, speed indicators, tachometers, temperature meters not for medical use; electronic locks; electronic control devices for automobiles; recorded or downloadable computer programs for operating internal combustion engines in vehicles; recorded or downloadable computer programs for operating internal combustion engines and controlling car attitude in vehicles; electronic machines, apparatus and their parts, namely, barcode readers, blank

smart cards, encoded magnetic credit, gift, debit charge, key identity cards, interfaces for computers, integrated circuit cards being blank smart cards, printed circuits and readers being data processing equipment; navigation apparatus for automobiles; Automatic liquid level, liquid-flow, pressure control and remote monitoring apparatus for gas engine heat pumps; telecommunications devices, apparatus and instruments, namely, cellular telephones, smartphones, audio-video receivers, sound recording apparatus, apparatus for transmission of communications; solar cells; solar panels for the production of electricity; solar panels being solar battery panels; solar battery power generation devices, namely, solar panels for production of electricity, solar batteries cell; fuel cells; fuel cell power generation devices, namely, fuel cells; automotive batteries and battery chargers; electric controlling and regulating machines and apparatus for automobiles, namely, electronic regulating and control devices for the operation of light emitting diodes, control units for regulating start-up electrical motors; apparatus and instruments for distributing and regulating electric current in automobiles; electric control and regulating devices for automobile engines, motors and suspensions; batteries and cells, namely, solar batteries, electric batteries, fuel batteries; Electric power distribution and control machines and apparatus; rotary converters; phase modifiers; intruder detecting apparatus for security systems; fire alarms; gas alarms; anti-theft warning apparatus; downloadable electric publications, namely, brochures, newspapers, magazines, journals featuring automobiles; personal digital assistants; smart phones; navigation apparatus for vehicles in the nature of on-board computers; Global Positioning System (GPS) navigation devices; remote control apparatus, namely, electronic key fobs being remote apparatus, remote control telemetering apparatus, electro-dynamic apparatus for the remote control signals; recorded or downloadable computer software for operating internal combustion engines in vehicles; recorded or downloadable computer software for operating internal combustion engines and controlling car attitude in vehicles; recorded or downloadable application software for operating internal combustion engines in vehicles; recorded or downloadable application software for operating internal combustion engines and controlling car attitude in vehicles; Blank smart cards being integrated circuit cards; electronic control apparatus for automobiles, namely, apparatus and instruments for distributing and regulating electric current in automobiles; electric control and regulating devices for automobile engines, motors and suspensions; Downloadable or recorded game programs for arcade video game machines; simulators for the steering and control of vehicles; laboratory apparatus and instruments, namely, laboratory robots; photographic machines and apparatus, namely, lenses for photographic apparatus, slide or photograph projection apparatus, strobe light apparatus for use in professional quality photography; cinematographic machines and apparatus; optical machines and apparatus being optical sensors, optical tables, optical disk readers, optical shutters; electric or magnetic meters and testers, namely, electrical outlet tester, electrical voltage tester pens, electric meters; electric wires and cables; dust masks; gas masks; welding masks; Downloadable or recorded game programs for home video game machines; electronic circuits and CD-ROMs recorded with recorded game software for hand-held games with liquid crystal displays; protective helmets for sports; sports whistles; metronomes; electronic circuits and CD-ROMs recorded with automatic performance programs for electronic musical instruments for playing electronic musical instruments; electric and electronic effects units for musical instruments; phonographic records featuring music; downloadable music files; downloadable image files containing artwork, text, audio, video, games and Internet Web links relating to sporting and cultural activities; recorded video discs and video tapes featuring, automobiles, beauty salon services, beauty therapy; exposed cinematographic films; exposed slide films; slide film mounts; electrical power supply and distribution systems, namely, power supply and distribution panels for use in cogeneration systems; power supply control devices and power regulating devices for power generators

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Vehicle transport being rickshaw transport services, pedicab transport services; vehicle-driving services; chauffeur services; rental of chauffeur driven cars; vehicle rental; rental of wheelchairs; rental of electric wheelchairs; rental of wheelchairs for nursing care; rental of walking aid vehicles; parking lot services, parking garage services, parking space reservation services; rental of parking places; business management of car parking facilities; distribution of energy and providing information relating thereto; distribution of energy for heating and cooling of buildings; storage, namely, furniture storage, clothing storage, warehouse storage, luggage storage, storage of goods; warehousing services of deposited automobiles; domestic and industrial waste transport services by cars; domestic and industrial waste transport services by means of cars; car transport services arranged via computer networks; providing information via the Internet relating to car transport; car allocation services, namely, car rental; car traffic control services being management of vehicular traffic flow through advanced communications network and technology; transport of people and goods; providing transport information via a web site; booking of transportation via a web site; transport brokerage; railway transport; car transport; marine transport; air transport; car rental; rental of vessels; aircraft rental; rental of bicycles; gas supplying being distribution; electricity distribution; heat supplying being distribution; warehousing services; temporary safekeeping of personal belongings; temporary storage of deliveries; freight brokerage; brokerage for rental, selling, purchasing or chartering of vessels; conducting of travel tours being transport services for sightseeing tours; escorting of travel tours being transport services for sightseeing tours; travel arrangement and reservation services for cruises, transportation and tickets excluding those for lodging; cargo delivery services; storage, wrapping and packaging of goods; packaging of cargo; providing road and traffic information; vehicle driving services; booking agency services for vehicle driving; rental car reservation services; booking agency services of rental cars; operating parking lots and providing information therefor; travel arrangement services; car traffic control services being management of vehicular traffic flow by means of personal digital assistants and navigation apparatus for vehicles on-board computers, and providing information therefor; car transport of documents and parcels; rental of forklift trucks; rental of loading-unloading machines and apparatus; car allocation services, namely, car rental by means of personal digital assistants, smartphones and navigation apparatus for vehicles on-board computers, and providing information therefor; rental of warehouse space; packaging services being co-packing services in the nature of merchandise packaging for others, bottling service packaging; loading and unloading of goods; correspondence delivery services; Transport of good by rail, of pets for others

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Mineral oils and greases for industrial purposes, not for fuel; automotive engine oils; automotive gear oils; additives, non-chemical for motor-fuel; automotive lubricants; fuels; solid lubricants for industrial purposes; leather preserving oil and grease; non-mineral oils and greases for industrial purposes, not for fuel; wax being raw material; candles; grease for shoes and boots; lamp wicks

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Technical testing services, namely, product quality testing services; product safety testing services; technical testing services, namely, vehicle roadworthiness testing; mechanical and scientific research in the field of automobiles; testing automobiles and structural parts therefor to determine conformity with certification standards; testing and research services relating to health equipment, namely, testing the functionality of health equipment being machines, research on health equipment being machines; testing the functionality and research on machines, apparatus and instruments; testing, inspection and research of computer systems being computer software, computer hardware, computer programs; quality control for others; research and development of products; providing information in the field of product development; planning and design of automobile test driving courses and testing facilities; design and development of nursing care equipment; design of fuel cells; design of machines, apparatus and instruments, and their parts, as well as systems composed therefor; furniture and interior decoration design; bedding design; design of new products; Industrial design; rental of computers and computer software; providing temporary use of online non-downloadable computer programs for use in database management; providing temporary use of online non-downloadable computer programs for use in product design and development; providing temporary use of online non-downloadable computer software for use in database management; providing temporary use of online non-downloadable computer software for use in product design and development; providing temporary use of online non-downloadable computer application software for use in database management; providing temporary use of online non-downloadable computer application software for use in product design and development; technological advice relating to computers, automobiles and industrial machines; technological advice relating to performance and operation of machines and apparatus; computer software design, computer programming, and maintenance of computer software, and consultancy and providing information therefor; creating and maintaining web sites for others; monitoring of computer systems by remote access, which tracks application software performance, performs periodic maintenance and providing information therefor; design and development of computer software and computer systems and consultancy services relating thereto; data encryption services; internet security consultancy; providing search engines for the internet; providing temporary use of online non-downloadable computer software for use in database management; providing temporary use of online non-downloadable computer software for use in product design and development; cloud computing featuring software for use in database management; cloud computing featuring software for use in product design and development; software as a service (SaaS) featuring software for use in database management; software as a service (SaaS) featuring software for use in product design and development; rental of web servers; testing, inspection and research services of computer systems being computer software, computer hardware, computer programs; research and development services of computer hardware and software; consultancy relating to design of communication network machines and instruments; computer design, and consultancy and providing information therefor; designing of machines, apparatus, instruments including their parts and systems composed of such machines, apparatus and instruments; creating instruction manuals in the field of computer software; information technology (IT) consulting services; cartography services; architectural design; surveying; scientific research; design and development of navigation systems; design of maps; providing temporary use of online non-downloadable computer software relating to navigation systems via the Internet for navigation purposes; providing meteorological information; geological research services; testing inspection and research of pharmaceuticals, cosmetics or foodstuffs; research on building, construction or city planning; testing and research in the field of prevention of pollution; testing and research in the field of electricity; testing and research in the field of civil engineering; testing, inspection and research in the fields of agriculture, livestock breeding and fisheries; rental of measuring apparatus; rental of laboratory apparatus and instruments; rental of

technical drawing instruments

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Locks and hinges of metal for automobiles; door locks of metal for automobiles; door hinges of metal for automobiles; trunk locks of metal for automobiles; trunk hinges of metal for automobiles; automobile hood locks of metal; automobile hood hinges of metal; metal hardware, namely, washers, nuts, bolts, keys for locks; railings of metal; shutters of metal; metal materials for building or constructions, namely, building panels of metal; metal pulleys, springs and valves not including machine elements, namely, metal hardware being springs and pulleys, metal valves not being parts of machines; containers of metal for transport; loading and unloading pallets of metal; industrial load turntables being metal railway turntable; traversers for load handling being load transfer dowels; joinery fittings of metal; metal safes; metal junctions for pipes; metal flanges; iron and steel; prefabricated building assembly kits of metal; metal molds for forming cement products being cement posts for building, cement cornices; keys of metal being metal bump keys for locksmithing, metal key blanks, metal keys for locks; metal cotter pins; reservoirs of metal; wire rope; wire nets and gauzes; industrial packaging containers of metal; metal stepladders and ladders; outdoor blinds of metal; nonferrous metals and their alloys

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

GOODS AND SERVICES INFORMATION

For Training services with respect to designing, building, operating and maintaining charging stations for electric vehicles

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Organizational consulting for business purposes and professional business consultancy and support for the introduction, use, application and maintenance of software and programs for data processing, in particular software for charging control apparatus, in particular for battery-powered electric vehicles; wholesale store, retail store services, online wholesale store services, retail store services, web-based catalog services and mail order catalog services featuring hardware, in particular charging control apparatus, in particular for battery-powered electric vehicles; wholesale store, retail store services, online wholesale store services, retail store services, web-based catalog services and mail order catalog services featuring computer programs and software for charging control apparatus and battery-powered electric vehicle energy management and downloadable electronic user documentation therefor, sold as a unit; wholesale store, retail store services, online wholesale store services, retail store services, web-based catalog services and mail order catalog services featuring measuring, signaling, inspecting apparatus and instruments for regulating systems for the recording, evaluation and display of electronically transmitted data, and for simulating the aforesaid data

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Battery charging service for motor vehicles; charging of electric vehicles; electrical contracting services; installation of machinery for generating electricity; installation of electrical systems; vehicle battery charging

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Charging stations for electric vehicles

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Installation and maintenance of hardware; creation, installation and maintenance of software programs for data processing, in particular software for charging control apparatus and for battery-powered electric vehicles; technical software consultancy for the introduction, use, application and maintenance of software programs for data processing, in particular software for charging control apparatus and for battery-powered electric vehicles; IT consulting services for creating solutions in the field of information technology; development of computer platforms for integrating charging control software and hardware for battery-powered electric vehicles; technological and engineering consulting and advisory services with respect to designing, building, operating and maintaining charging stations for electric vehicles; charging-as-a-service (caas) featuring computer software platforms for managing electricity usage for use in the field of electric vehicle charging services, electric vehicle subscription services, energy management services and payment collection and reservation services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Non-metal building and construction materials and elements, namely, wall panels, non-metallic reinforcements for concrete and wood building construction, namely, rigid pipes, rods and bars, non-metal-cladding for construction and building, wood and artificial methacrylate paneling and non-metal casings for use in building or construction; doors, gates, windows and window coverings, not of metal; rigid pipes, not of metal, for building; asphalt; pitch; bitumen; unprocessed and semi-processed materials, namely, pitch, tar, bitumen and asphalt, stone, rock, clay and minerals, wood and artificial wood; acid and alkali resistant, jointless wall and floor coverings, namely, waterproofing and environmental membranes for floors and walls; road surfacing materials in liquid form as well as in the form of foils and slabs, namely, road waterproofing and environmental membranes for weather resistance

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Paints; varnishes, lacquers; resin-based coatings compositions in the nature of paints; binding preparations for paints; thickeners for paints; fixatives in the nature of varnishes, paints and surface coatings for use in the marking of walkways and roads; dyestuffs; pigments; binding agents for paints, varnishes and lacquers; plastics in liquid form used as binding agents for road marking paints; plastics coatings being paints for use in construction; paints in the nature of sealing preparations; sealing preparations for floors being paints; concrete waterproofing compounds being paints; liquid plastics surface coatings being paints; preservatives against rust and against deterioration of wood in the nature of coatings; colorants; wood mordants; raw natural resins; paint thinners and thickeners for paints, varnishes and inks

International Classes 2 - Primary Classes **US Classes** 6, 11, 16 **International Class Title** Paints

For Industrial chemicals; Industrial chemicals, namely, methacrylic polymers and artificial unprocessed resins for use as molding compounds and for use in the manufacture of glass laminates and decorative and protective coatings; chemical preparations for scientific purposes; chemical preparations for use in photography; chemicals for use in agriculture except fungicides, herbicides, insecticides and parasiticides; chemicals used in horticulture except fungicides, herbicides, insecticides and parasiticides; chemicals used in forestry except fungicides, herbicides, insecticides and parasiticides; chemical preparations and materials for films, photography and printing, namely, Chemicals for use in industry, namely, the photography industry; chemical additives for use in the manufacture of cosmetics; chemicals for use in industry, namely, the construction industry; Waterproofing membranes in liquid chemical form for use in construction; compounds for use in construction, namely, construction industry adhesives; chemical compounds for water treatment; synthetic resins, unprocessed for the building industry; synthetic resins, unprocessed for the building industry, namely, synthetic resins in liquid form for use as binders for coating compositions, street markings, and drying agents for concrete and plaster surfaces; unprocessed plastics in all forms; unprocessed and synthetic resins for the building industry; adhesives for use in industry; plastics in unprocessed liquid form as binders for road markings and as sealants for concrete and screed surfaces; unprocessed plastics as raw materials, namely, methyl esters of acrylic and methacrylic acid; unprocessed silicone casting resins, unprocessed silicone casting resins for use in the manufacture of injection moulding and moulding compounds; Dispersions of plastics for use in the manufacture of lacquer based on the aforementioned plastics; unprocessed plastics in liquid form as binders for mineral fillers

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Raw and semi-processed rubber, gutta-percha, gum, asbestos, and mica; semi-finished injection molded products made of plastics for use in manufacture in a variety of industries; packing and insulating materials; flexible hoses, not of metal; flexible pipes, tubes, hoses, and fittings therefor, not of metal; sealing materials, sealants for buildings and fillers for expansion joints; building insulation and acoustical insulation barrier panels; unprocessed and partially processed materials, namely, insulating fabrics made from polyester, mineral plastic fibres not for textile use, elastomer expansion joints, plastic fibres not for textile use impregnated with synthetic resins; synthetic resins, semiprocessed, namely, carbon fibres not for textile use, cellulose acetates, glass wool for insulation for use in further manufacture; chemical fiber thread and yarn not for textile use; microporous semi-processed plastic synthetic sheets for the manufacture of protective clothing, work protective clothing, rain protective clothing and for use in further manufacture; microporous semi-processed plastic synthetic strips for the manufacture of protective clothing; viscose films and sheets, other than for packaging and wrapping purposes, made from semi-processed plastic for use in the manufacture of circuit boards; yarns of ceramic enamel fibre insulation for industrial molten metal furnaces; semi-processed synthetic resins; semi-processed plastics; shock-absorbing insulating and packing materials, joint packaging for flexible pipes being pipe jointing compounds; vibration dampening blankets; waterproofing membranes and semi-processed films of plastic in the nature of semi-processed synthetic filtering materials for foundations of buildings; adhesive tapes, strips, bands and plastic films for industrial or commercial packing use; clutch lining and semi-processed brake linings; tire restoration and repair materials, namely, rubber materials for recapping tires; anti-corrosion tapes; floral foam, namely, foam supports for floral arrangements; fixation films used as an industrial or commercial packing; floor marking tapes; glass fibres for insulation; insulating tapes; protective asbestos screen sheets; protective padding materials made of rubber; rubber bands for commercial and industrial uses; handles and supports of rubber being rubber bars and rods; threads of plastic for soldering; decorative plastics films being semi-finished products; joint casting compounds being pipe jointing compounds; sound vibration damping compounds

RELATED PROPERTIES INFORMATION

International Registration 1669761 **International Registration Date** Dec. 21, 2021

GOODS AND SERVICES INFORMATION

For Rigid pipes and non-metal, non-plastic water-pipe valves, not of metal; rigid pipes, not of metal, for building; building and construction materials and elements, not of metal, namely, non-metal wall panels, supports, reinforcing materials not of metal, for building, and non-metal structures for mounting heating, cooling, water heating and ventilation installations; transportable buildings, not of metal; structural parts and fittings for all the aforementioned goods, namely, non-metal expansion joints for walls; parts and accessories for all the aforementioned goods, namely, polyethylene pipe used in geothermal heating and cooling systems

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Apparatus for heating, namely, heating elements, heating installations, hot water heating installations; apparatus for cooling, namely, apparatus for air cooling, space cooling apparatus, peltier cooling apparatus, and cooling evaporators; apparatus for water heating, namely, water heaters; apparatus for ventilation, namely, ventilating fans for industrial purposes, air-conditioning, air cooling and ventilation apparatus and instruments, ventilators for use with air and water cooling systems, ventilation hoods; apparatus for waste heat utilization, namely, heating elements, heating installations and hot water heating installations using waste heat; heat pumps; heat pumps in particular heat pumps for waste heat utilization; heat pumps for utilization of waste heat, air, water or geothermal energy; residential heat pumps; industrial heat pumps; commercial heat pumps; solar thermal collectors for heating; solar energy powered apparatus for heating, cooling, water heating or ventilation,

namely, solar-powered cooling units, solar-powered heating elements, solar water heaters, solar-powered room ventilation units, solar powered ventilating fans for commercial and industrial use, solar powered ventilating fans for household use; regenerative heat generators; storage plants for thermal energy; heat accumulators; heat regenerators; heat exchangers, other than parts of machines; heating installations and systems consisting of heating installations; radiators for heating; electric heating fans; installations for technology and process cooling, in particular for industrial, commercial or medical-technical applications being electric coolers; cooling equipment, namely, cooling units for industrial and commercial purposes, cooling units for industrial process cooling and air-conditioning, industrial process chilling units, cooling units for cooling machines, machine tools and production lines, refrigerating machines for industrial processes or technologies, cooling units for cooling laser and high-tech applications, cooling units for cooling medical devices and medical diagnostic equipment, cooling units for cooling laboratories, cooling units for storerooms, cooling apparatus for medical storage purposes, cooling apparatus used for blood, intravenous solutions, irrigation solutions, and other medical and surgical fluids, food and beverage cooling apparatus, none of the foregoing being part of machines to be cooled; refrigerating machines; air cooling apparatus and installations; cooling installations for water; water heaters; storage water heaters; ventilating exhaust fans; systems consisting of ventilating fans for household use, in particular for residential buildings; residential ventilation apparatus, namely, ventilating fans for household use; air distribution apparatus being fans for air conditioning apparatus and installations consisting of fans for air conditioning apparatus; air-conditioning installations; air-conditioning apparatus; ventilating fans for commercial and industrial use; filtration instruments being water filters; pipes being parts of sanitary facilities; chimney flues and flues for heating boilers; sanitary installations, namely, wash basins, apparatus for the separation of gases for sanitary purposes; water supply installations, namely, metered water valves, faucets, water conditioning units, water coolers, water cooling towers; oil and gas burners for industrial, commercial, domestic use; electric boilers, space heaters; food and beverage cooking, heating, cooling and treatment equipment, namely, refrigerators, freezers, cooking stoves, thermoelectric cooler/heater for food and beverages; fireplaces; air filters for industrial use or for household use; air treatment installations for industrial use, namely, cooling and ionization apparatus for the treatment of air; industrial installations for the filtration of liquids, namely, water filters; installations for the collection of gases being gas scrubbers being part of heating installations, cooling units, air-conditioning and ventilation installations; installations for the collection of liquids being hot water tanks being part of heating installations, cooling units, air-conditioning and ventilation installations; personal heating and drying implements, namely, electric radiators, electric air dryers; drying installations, namely, drying apparatus for use in heating, ventilation systems, air conditioning systems and refrigeration systems, industrial dryers for heating and dehumidifying, industrial apparatus using air to assist in the drying of components in the electronics, semiconductor, circuit board, pharmaceutical, medical, food and beverage industries; refrigerating and freezing equipment, namely, refrigerators and freezers; regulating and safety accessories for water and gas installations, namely, gas regulators, pressure regulators for gas installations, pressure regulators for water installations, flashback arrestors and reverse flow check valves; heating, ventilating, and air conditioning and purification equipment and systems, namely, heating units for industrial purposes, space heating apparatus, air conditioning units, air-conditioning apparatus and installations, air purification units, air purifying apparatus and machines, air exchangers for cleaning and purifying air; structural parts and fittings for all the aforementioned goods, namely, faucet handles; parts and accessories for all the aforementioned goods, namely, coils as parts of heating or cooling installations, filters for use with apparatus for ventilating, filters and filtering devices for air and gas conditioning, filters for air purifiers, valves for air conditioners, thermostatic mixing valves, thermostatic valves as parts of heating installations, heat sinks for use in heating, cooling and ventilating apparatus, heating and cooling panels used for indoor heating and cooling purposes, heat pipes to cool

heat producing components

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Building construction services; assembly services relating to the installation of apparatus for heating, water heating, cooling, ventilation, waste heat utilization and energy management; installation, bringing into service being installation, repair and maintenance of apparatus for heating, water heating, cooling, ventilation, waste heat utilization and energy management; consultancy, advisory and information services relating to the aforementioned services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; accumulators for electrical energy; programming modules being electric control panels containing programming used for controlling heating, cooling and/or ventilation apparatus; electric control panels; radio control electrical switches and radio internal receivers for ventilation installations, heating installations, heat pumps and air-conditioning installations; controllers and regulators for energy supply systems in buildings being electric control devices, voltage and current regulators, flow regulators in the field of heating and cooling; electronic control systems for the management of machines for controlling heating, ventilation, temperature or energy; air quality electronic sensors; measuring, detecting and monitoring instruments, apparatus and controllers, namely, pressure measuring apparatus, thermometers other than for medical use, digitizer, power controllers, temperature controllers for measuring liquids, temperature controllers for warming and cooling medical and surgical liquids, control valves for regulating the flow of gases and liquids, flow switches for monitoring and controlling the flow of gases or liquids, electrical controlling devices for air conditioning, ventilation, cooling and heating equipment and instruments, touch screen monitors, electronic-based measuring instruments and apparatus for measuring environmental parameters in particular temperature, humidity and air quality, monitoring systems for buildings comprised of electronic meters and sensors that measure temperature, humidity, air quality and include alarm and reporting functions, electronic regulating and control devices for energy supply and management in buildings, energy meters for tracking and monitoring energy usage, and electronic monitors to collect operational data and settings from heating, cooling and ventilation systems to ensure proper functioning; downloadable software, in particular mobile apps, for controlling heating, cooling or ventilation apparatus and installations, and for energy management; interfaces for computers, in particular for the communication between central server and applications such as heat pumps or ventilation apparatus; photovoltaic apparatus for generating electricity by solar energy being photovoltaic systems that convert sunlight into electric and thermal energy; photovoltaic apparatus and installations for generating solar electricity being photovoltaic solar modules for production of electricity; photovoltaic solar hybrid modules; solar cells for generating electricity; apparatus for recording, transmission or reproduction of sounds and images; computer hardware for storage of data; data processing equipment and computers; information technology and audio-visual, multimedia and photographic devices, namely, cameras, electronic computers, data display computer screens, touch screen user interfaces, user interfaces, namely, electric control panel and touchscreen monitors for electrotechnical and electronic devices, audiovisual receivers, multimedia projectors, and central processing unit coolers; downloadable software for use in operating electricity generating machines; recorded content, namely, audio and video recordings featuring science information relating to cooling and heating systems; electric and electronic components, namely, electric cables; apparatus, instruments and cables for electricity, namely, electric junction boxes; structural parts and fittings for all the aforementioned

goods, namely, electric cables; parts and accessories for all the aforementioned goods, namely, electric wires

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Loaning and rental of heating, cooling, ventilation, energy production and/or energy management devices and systems, namely, rental of space heating apparatus, heating elements, heating installations, water heaters, space cooling apparatus, apparatus for air cooling, cooling units for industrial and commercial purposes, electric fans for cooling, air conditioning units, air cooling and ventilation apparatus, air purification equipment, heat pumps, cooling chillers, power-generating equipment and power-control equipment; air and water treatment and purification services; energy production; consultancy, advisory and information services relating to the aforementioned services

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Flexible hoses, not of metal; flexible pipes, plastic tubes, flexible hoses and fittings therefor in particular rubber valves, and fittings for rigid pipes, all non-metallic; seals namely, non-metal sealing rings for use as connection seals, non-metal seals for water or air pipe connections, sealants for buildings, waterproof sealants, and fillers, namely, polyurethane sealants and expansion joint fillers; insulation and barrier articles and materials being insulating materials; structural parts and fittings for all the aforementioned goods, namely, non-metal junctions for pipes; parts and accessories for all the aforementioned goods, namely, non-metal fittings for pipes, non-metal hose fittings, non-metal pipe jackets, pipe joint sealant, air duct adhesive sealant compounds for use in the heating and cooling industry

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Consultancy in the field of designing air conditioning, heat pumps, and cooling chillers; advisory services relating to the design of cooling, heating and ventilation of installations, buildings and machinery; advisory services relating to improving energy efficiency; technological consulting services in the field of alternative energy generation; technical development of integrated energy concepts being design and development of new products for others; technical design and planning of cooling, heating and ventilation systems being design and development of new products for others; energy auditing; auditing of the efficient use of energy; recording data for others on digital media for electronic storage relating to energy consumption; measurement evaluation services in the field of alternative energy, heating, cooling and ventilation; research in the field of energy; IT services, namely, development, programming and implementation of software; development of computer hardware; server hosting and hosting of database websites for others; software as a service (SaaS) services featuring software for use in operating air conditioning equipment, heat pumps, and cooling chillers; software as a service (SaaS) services featuring software for controlling heating, cooling or ventilation apparatus and installations, and for energy management; rental of software for use in operating air conditioning equipment, heat pumps, and cooling chillers; rental of software for controlling heating, cooling or ventilation apparatus and installations, and for energy management; rental of computer hardware and servers; IT consultancy, advisory and information; IT security services in the nature of protection in the nature of restricting unauthorized access to computer systems and recovery of computer data; electronic data backup and conversion; data coding services being computer programming; computer system analysis and diagnostics; technological research and development of computer and computer systems; implementation of computer systems operating software; computer project management; data mining; digital watermarking; computer engineering services; technological services relating to computers being design of

computer software; computer network services being computer project management; developing software for updating of memory banks of computer systems; data migration; updating of websites, for others; monitoring of computer systems by remote access to ensure proper functioning; technical monitoring, evaluation as well as optimization of system data regarding energy supply systems being energy auditing; conducting surveys in the field of cooling, air-conditioning, energy and heating technology being technical surveying; scientific and technological services being scientific research; technical research in the field of energy, cooling, heating and ventilation; industrial research in the field of energy, cooling, heating and ventilation; product testing and quality control; design services, namely designing systems for cooling, heating and ventilation and designing process cooling for industrial, commercial and medical applications; consultancy, advisory and information services relating to the aforementioned services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Metal pipes; metal tubes; industrial metal hoses; valves of metal, other than being parts for machines; building and construction materials and elements of metal, namely, metal wall panels, building boards of metal, metal blocks for building, frames of metal for building, linings of metal for building, portable metal buildings, and metal structures for mounting heating, cooling, water heating and ventilation installations; metal screws; transportable buildings of metal; structural parts and fittings for all the aforementioned goods in the nature of junctions of metal for pipes; parts and accessories for all the aforementioned goods, namely, metal pipe fittings, metal hose fittings, metal threaded fasteners, metal collars for fastening pipes, and mechanical fastening elements of metal

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

Mark Literal(s) PIGEON

CASE IDENTIFIERS

Serial Number 79344688 **Application Filing Date** Mar. 08, 2022 **Registration Number** 7198180 **Registration Date** Oct. 24, 2023 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Aug. 08, 2023

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the black "PIGEON" wording with a green shaded circle next to the "N" letter, all surrounded by four black half brackets, placed to the top left and right, and bottom left and right. **Color Drawing** Yes **Color Claimed** The color(s) black and green is/are claimed as a feature of the mark.

RELATED PROPERTIES INFORMATION

International Registration 1671368 **International Registration Date** Mar. 08, 2022

GOODS AND SERVICES INFORMATION

For Printed matter, namely, books, manuals, newsletters and magazines in the field of urban monitoring, urban classification and urban planning; photographic prints; stationery; printing blocks; printed booklets in the field of urban monitoring, urban classification and urban planning; document files being stationery; printed geographical maps; printed pamphlets in the field of urban monitoring, urban classification and urban planning; printed publications being books, manuals, newsletters and magazines in the field of urban monitoring, urban classification and urban planning; printed reports featuring urban monitoring, urban classification and urban planning; printed research reports featuring urban monitoring, urban classification and urban planning

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Apparatus for recording, transmission or reproduction of images enabling urban monitoring, urban classification, images interpretation, density population estimation, risk assessment, urban planning; digital recording media, namely, downloadable audio and video recordings in the field of urban monitoring, urban classification and urban planning; downloadable computer software enabling urban monitoring, urban classification, images interpretation, density population estimation, risk assessment, urban planning; downloadable computer software for processing and interpreting satellite images and generating maps and urban reporting; downloadable software in the nature of computer programs enabling urban monitoring, urban classification, images interpretation, density population estimation, risk assessment, urban planning; data processing apparatus enabling

urban monitoring, urban classification, images interpretation, density population estimation, risk assessment, urban planning; interfaces for computers; digital signs; electronic databases recorded on computer media in the field of urban monitoring, urban classification and urban planning; downloadable electronic publications, namely maps in the field of urban monitoring, urban classification and urban planning

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Scientific services and research and design relating thereto in the field of urban monitoring, urban classification and urban planning; industrial analysis and research services in the field of urban monitoring, urban classification and urban planning; scientific consultancy in the field of urban monitoring, urban classification and urban planning; technical research in the field of urban monitoring, urban classification and urban planning; design and development of computer hardware and software for urban monitoring, urban classification, images interpretation, density population estimation, risk assessment, urban planning; software as a Service (SaaS) featuring software for urban monitoring, urban classification, images interpretation, density population estimation, risk assessment and urban planning; computer software consultancy in the field of urban monitoring, urban classification and urban planning; consultancy in the design and development of computer software in the field of urban monitoring, urban classification and urban planning; Installation, maintenance, updating of computer software in the field of urban monitoring, urban classification and urban planning; rental of computer software in the field of urban monitoring, urban classification and urban planning; data conversion of computer programs and data, not physical conversion; conversion of data or documents from physical to electronic media; electronic data storage; urban planning; research relating to urban planning; industrial design services; mapping services; cartography and mapping services featuring geophysical maps; conversion of maps into digital formats

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Rigid pipes and non-metal, non-plastic water-pipe valves, not of metal; rigid pipes, not of metal, for building; building and construction materials and elements, not of metal, namely, non-metal wall panels, supports, reinforcing materials not of metal, for building, and non-metal structures for mounting heating, cooling, water heating and ventilation installations; transportable buildings, not of metal; structural parts and fittings for all the aforementioned goods, namely, non-metal expansion joints for walls; parts and accessories for all the aforementioned goods, namely, polyethylene pipe used in geothermal heating and cooling systems

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Apparatus for heating, namely, heating elements, heating installations, hot water heating installations; apparatus for cooling, namely, apparatus for air cooling, space cooling apparatus, peltier cooling apparatus, and cooling evaporators; apparatus for water heating, namely, water heaters; apparatus for ventilation, namely, ventilating fans for industrial purposes, air-conditioning, air cooling and ventilation apparatus and instruments, ventilators for use with air and water cooling systems, ventilation hoods; apparatus for waste heat utilization, namely, heating elements, heating installations and hot water heating installations using waste heat; heat pumps; heat pumps in particular heat pumps for waste heat utilization; heat pumps for utilization of waste heat, air, water or geothermal energy; residential heat pumps; industrial heat pumps; commercial heat pumps; solar thermal collectors for heating; solar energy powered apparatus for heating, cooling, water heating or ventilation, namely, solar-powered cooling units, solar-powered heating elements, solar water heaters, solar-powered room ventilation units, solar powered ventilating fans for commercial and industrial use, solar powered ventilating fans for household use;

regenerative heat generators; storage plants for thermal energy; heat accumulators; heat regenerators; heat exchangers, other than parts of machines; heating installations and systems consisting of heating installations; radiators for heating; electric heating fans; installations for technology and process cooling, in particular for industrial, commercial or medical-technical applications being electric coolers; cooling equipment, namely, cooling units for industrial and commercial purposes, cooling units for industrial process cooling and air-conditioning, industrial process chilling units, cooling units for cooling machines, machine tools and production lines, refrigerating machines for industrial processes or technologies, cooling units for cooling laser and high-tech applications, cooling units for cooling medical devices and medical diagnostic equipment, cooling units for cooling laboratories, cooling units for storerooms, cooling apparatus for medical storage purposes, cooling apparatus used for blood, intravenous solutions, irrigation solutions, and other medical and surgical fluids, food and beverage cooling apparatus, none of the foregoing being part of machines to be cooled; refrigerating machines; air cooling apparatus and installations; cooling installations for water; water heaters; storage water heaters; ventilating exhaust fans; systems consisting of ventilating fans for household use, in particular for residential buildings; residential ventilation apparatus, namely, ventilating fans for household use; air distribution apparatus being fans for air conditioning apparatus and installations consisting of fans for air conditioning apparatus; air-conditioning installations; air-conditioning apparatus; ventilating fans for commercial and industrial use; filtration instruments being water filters; pipes being parts of sanitary facilities; chimney flues and flues for heating boilers; sanitary installations, namely, wash basins, apparatus for the separation of gases for sanitary purposes; water supply installations, namely, metered water valves, faucets, water conditioning units, water coolers, water cooling towers; oil and gas burners for industrial, commercial, domestic use; electric boilers, space heaters; food and beverage cooking, heating, cooling and treatment equipment, namely, refrigerators, freezers, cooking stoves, thermoelectric cooler/heater for food and beverages; fireplaces; air filters for industrial use or for household use; air treatment installations for industrial use, namely, cooling and ionization apparatus for the treatment of air; industrial installations for the filtration of liquids, namely, water filters; installations for the collection of gases being gas scrubbers being part of heating installations, cooling units, air-conditioning and ventilation installations; installations for the collection of liquids being hot water tanks being part of heating installations, cooling units, air-conditioning and ventilation installations; personal heating and drying implements, namely, electric radiators, electric air dryers; drying installations, namely, drying apparatus for use in heating, ventilation systems, air conditioning systems and refrigeration systems, industrial dryers for heating and dehumidifying, industrial apparatus using air to assist in the drying of components in the electronics, semiconductor, circuit board, pharmaceutical, medical, food and beverage industries; refrigerating and freezing equipment, namely, refrigerators and freezers; regulating and safety accessories for water and gas installations, namely, gas regulators, pressure regulators for gas installations, pressure regulators for water installations, flashback arrestors and reverse flow check valves; heating, ventilating, and air conditioning and purification equipment and systems, namely, heating units for industrial purposes, space heating apparatus, air conditioning units, air-conditioning apparatus and installations, air purification units, air purifying apparatus and machines, air exchangers for cleaning and purifying air; structural parts and fittings for all the aforementioned goods, namely, faucet handles; parts and accessories for all the aforementioned goods, namely, coils as parts of heating or cooling installations, filters for use with apparatus for ventilating, filters and filtering devices for air and gas conditioning, filters for air purifiers, valves for air conditioners, thermostatic mixing valves, thermostatic valves as parts of heating installations, heat sinks for use in heating, cooling and ventilating apparatus, heating and cooling panels used for indoor heating and cooling purposes, heat pipes to cool heat producing components

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Building construction services; assembly services relating to the installation of apparatus for heating, water heating, cooling, ventilation, waste heat utilization and energy management; installation, bringing into service being installation, repair and maintenance of apparatus for heating, water heating, cooling, ventilation, waste heat utilization and energy management; consultancy, advisory and information services relating to the aforementioned services

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; accumulators for electrical energy; programming modules being electric control panels containing programming used for controlling heating, cooling and/or ventilation apparatus; electric control panels; radio control electrical switches and radio internal receivers for ventilation installations, heating installations, heat pumps and air-conditioning installations; controllers and regulators for energy supply systems in buildings being electric control devices, voltage and current regulators, flow regulators in the field of heating and cooling; electronic control systems for the management of machines for controlling heating, ventilation, temperature or energy; air quality electronic sensors; measuring, detecting and monitoring instruments, apparatus and controllers, namely, pressure measuring apparatus, thermometers other than for medical use, digitizer, power controllers, temperature controllers for measuring liquids, temperature controllers for warming and cooling medical and surgical liquids, control valves for regulating the flow of gases and liquids, flow switches for monitoring and controlling the flow of gases or liquids, electrical controlling devices for air conditioning, ventilation, cooling and heating equipment and instruments, touch screen monitors, electronic-based measuring instruments and apparatus for measuring environmental parameters in particular temperature, humidity and air quality, monitoring systems for buildings comprised of electronic meters and sensors that measure temperature, humidity, air quality and include alarm and reporting functions, electronic regulating and control devices for energy supply and management in buildings, energy meters for tracking and monitoring energy usage, and electronic monitors to collect operational data and settings from heating, cooling and ventilation systems to ensure proper functioning; downloadable software, in particular mobile apps, for controlling heating, cooling or ventilation apparatus and installations, and for energy management; interfaces for computers, in particular for the communication between central server and applications such as heat pumps or ventilation apparatus; photovoltaic apparatus for generating electricity by solar energy being photovoltaic systems that convert sunlight into electric and thermal energy; photovoltaic apparatus and installations for generating solar electricity being photovoltaic solar modules for production of electricity; photovoltaic solar hybrid modules; solar cells for generating electricity; apparatus for recording, transmission or reproduction of sounds and images; computer hardware for storage of data; data processing equipment and computers; information technology and audio-visual, multimedia and photographic devices, namely, cameras, electronic computers, data display computer screens, touch screen user interfaces, user interfaces, namely, electric control panel and touchscreen monitors for electrotechnical and electronic devices, audiovisual receivers, multimedia projectors, and central processing unit coolers; downloadable software for use in operating electricity generating machines; recorded content, namely, audio and video recordings featuring science information relating to cooling and heating systems; electric and electronic components, namely, electric cables; apparatus, instruments and cables for electricity, namely, electric junction boxes; structural parts and fittings for all the aforementioned goods, namely, electric cables; parts and accessories for all the aforementioned goods, namely, electric wires

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Loaning and rental of heating, cooling, ventilation, energy production and/or energy management devices and systems, namely, rental of space heating apparatus, heating elements, heating installations, water heaters, space cooling apparatus, apparatus for air cooling, cooling units for industrial and commercial purposes, electric fans for cooling, air conditioning units, air cooling and ventilation apparatus, air purification equipment, heat pumps, cooling chillers, power-generating equipment and power-control equipment; air and water treatment and purification services; energy production; consultancy, advisory and information services relating to the aforementioned services

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Flexible hoses, not of metal; flexible pipes, plastic tubes, flexible hoses and fittings therefor in particular rubber valves, and fittings for rigid pipes, all non-metallic; seals namely, non-metal sealing rings for use as connection seals, non-metal seals for water or air pipe connections, sealants for buildings, waterproof sealants, and fillers, namely, polyurethane sealants and expansion joint fillers; insulation and barrier articles and materials being insulating materials; structural parts and fittings for all the aforementioned goods, namely, non-metal junctions for pipes; parts and accessories for all the aforementioned goods, namely, non-metal fittings for pipes, non-metal hose fittings, non-metal pipe jackets, pipe joint sealant, air duct adhesive sealant compounds for use in the heating and cooling industry

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Consultancy in the field of designing air conditioning, heat pumps, and cooling chillers; advisory services relating to the design of cooling, heating and ventilation of installations, buildings and machinery; advisory services relating to improving energy efficiency; technological consulting services in the field of alternative energy generation; technical development of integrated energy concepts being design and development of new products for others; technical design and planning of cooling, heating and ventilation systems being design and development of new products for others; energy auditing; auditing of the efficient use of energy; recording data for others on digital media for electronic storage relating to energy consumption; measurement evaluation services in the field of alternative energy, heating, cooling and ventilation; research in the field of energy; IT services, namely, development, programming and implementation of software; development of computer hardware; server hosting and hosting of database websites for others; software as a service (SaaS) services featuring software for use in operating air conditioning equipment, heat pumps, and cooling chillers; software as a service (SaaS) services featuring software for controlling heating, cooling or ventilation apparatus and installations, and for energy management; rental of software for use in operating air conditioning equipment, heat pumps, and cooling chillers; rental of software for controlling heating, cooling or ventilation apparatus and installations, and for energy management; rental of computer hardware and servers; IT consultancy, advisory and information; IT security services in the nature of protection in the nature of restricting unauthorized access to computer systems and recovery of computer data; electronic data backup and conversion; data coding services being computer programming; computer system analysis and diagnostics; technological research and development of computer and computer systems; implementation of computer systems operating software; computer project management; data mining; digital watermarking; computer engineering services; technological services relating to computers being design of computer software; computer network services being computer project management; developing software for updating of

memory banks of computer systems; data migration; updating of websites, for others; monitoring of computer systems by remote access to ensure proper functioning; technical monitoring, evaluation as well as optimization of system data regarding energy supply systems being energy auditing; conducting surveys in the field of cooling, air-conditioning, energy and heating technology being technical surveying; scientific and technological services being scientific research; technical research in the field of energy, cooling, heating and ventilation; industrial research in the field of energy, cooling, heating and ventilation; product testing and quality control; design services, namely designing systems for cooling, heating and ventilation and designing process cooling for industrial, commercial and medical applications; consultancy, advisory and information services relating to the aforementioned services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Metal pipes; metal tubes; industrial metal hoses; valves of metal, other than being parts for machines; building and construction materials and elements of metal, namely, metal wall panels, building boards of metal, metal blocks for building, frames of metal for building, linings of metal for building, portable metal buildings, and metal structures for mounting heating, cooling, water heating and ventilation installations; metal screws; transportable buildings of metal; structural parts and fittings for all the aforementioned goods in the nature of junctions of metal for pipes; parts and accessories for all the aforementioned goods, namely, metal pipe fittings, metal hose fittings, metal threaded fasteners, metal collars for fastening pipes, and mechanical fastening elements of metal

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

Mark Literal(s) HEINEKEN 0.0 PURE MALT LAGER PREMIUM QUALITY LAGER BEER HEINEKEN 0.0 UNIQUE RECIPE WITH HEINEKEN A-YEAST EST. 1873 TRADE MARK

CASE IDENTIFIERS

Serial Number 79345046 **Application Filing Date** Jun. 08, 2022 **Registration Number** 7198187 **Registration Date** Oct. 24, 2023 **Register** Principal **Mark Type** Trademark **Publication Date** Aug. 08, 2023

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a green bottle and a blue and white cap, with white wording "HEINEKEN" on a blue quadrilateral shape followed by a red star outlined in white followed by "0.0" in white on a blue quadrilateral shape appearing along the neck of the bottle. A blue oval shaped label with a silver outline and a green oval inside appears on the side of the bottle. Across the oval horizontally is a blue banner with large white wording "HEINEKEN." Above this appears the silver wording "PREMIUM QUALITY LAGER BEER" displayed in small lettering in an arch at the top of the blue oval, with a white curved band appearing before and after the wording, below this and in the same arch shape appears the larger silver wording "HEINEKEN 0.0 LAGER", below this appears an overall half-oval shape in the color green with a curved white band appearing along the perimeter on each left and right side, a large red star appears in the center of the half-oval shape, to the left of the star appears the white wording "EST." and to the right of the star appears the white wording "1873." Along the border of the bottom blue half oval appears the silver wording "PURE MALT LAGER" and below this wording is the wording in silver "UNIQUE RECIPE WITH HEINEKEN A-YEAST" displayed in small lettering in an arch with a white curved band appearing before and after the wording. In the green oval below the "HEINEKEN" banner is 0.0 in white. Underneath the 0.0 in white are two small overlapping circles in silver. Underneath the banner in the blue oval to the left is "TRADE" in silver and "MARK" to the right. **Color Drawing** Yes **Color Claimed** The color(s) green, red, blue, white and silver is/are claimed as a feature of the mark. **Disclaimer** "EST.", "1873," "UNIQUE RECIPE"," "PREMIUM QUALITY," "LAGER BEER", "0.0" "TRADE MARK"

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a design and the stylized wording "TOM GATES". At the top center of the mark is the stylized wording "TOM" with "GATES" placed underneath. Both "TOM" and "GATES" are surrounded by double lined border shaped like a cloud. The "O" in "TOM" has an unshaded circle in the top portion of the letter. Further, the "A" in "GATES" has an unshaded circle in the top portion of the letter. Facing the mark, on the right side of the wording "TOM GATES" are two outlined stars aligned vertically in relation to one another. On the left side of the wording "TOM GATES" are two outlined stars aligned vertically in relation to one another. Below the wording "TOM GATES" is a striped border of a circle. Inside the circle is the design of a smiling boy. To the left of the circle with the design of the boy is two shaded shooting stars aligned vertically and to the right of the circle with the design of the boy is two shaded stars aligned vertically. Surrounding the four shooting stars are a combination of striped spirals, and funnel shaped designs. The white represents background, outlining, shading, and/or transparent areas and is not part of the mark. **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.

For Electrical lighting systems comprising sensors and switches; Non- electric suspension rails for electric lighting fixtures; lighting for aquariums; lighting for music stands; Lighting and light reflectors for access control, motion detection; lighting and light reflectors for vehicles; Lighting for decorative purposes in the nature of electrically illuminated figurines, lanterns, fairy lights; lights for pushbuttons; lighting installations for display purposes; lighting systems for aircraft; Lighting apparatus with light emitting diodes [LEDs] for theaters, clubs and discotheques}; lighting apparatus with fluorescent tubes; Lighting apparatus with organic light- emitting diodes [OLED] for vehicles, film stages, sports arenas, theaters, clubs and discotheques; lighting fixtures for industrial purposes; lighting fixtures for household purposes; lighting fixtures with fluorescent tubes for indoor use; license plate lighting lamps; Flexible lights for advertisement, Fitted anti-glare devices for automobile headlamps; colorful fairy lights for decorative purposes; chemiluminescent light sticks; Lights, electric, for Christmas tree decoration; ceiling lights; Decorative electric lighting apparatus in the nature of electrically-illuminated figurines, lanterns; diffusers being parts of lighting apparatus; disco balls as lighting fixtures; electric fiber optic lighting apparatus; electric heating elements in the form of cables; electric cordless coffee makers; electric lamps for outdoor use; electric radiators for heating buildings; electric portable cool boxes; color filters for lighting apparatus; sockets for electric lamps; filters for lighting equipment; filters for use with lighting apparatus; glass shades for lamps; light bulbs for lighting; house numbers, luminous; Germicidal lamps for purifying air; slats for deflecting light; lamps for electrical systems; direction indicator lamps for bicycles; direction indicator lamps for land vehicles; lamps for direction indicators for motor vehicles; lamps for tents; lamps with extendable supports; lamps for use in diving; lamps for outdoor use; lampshades for light sources; led-lights for automobiles; led-lights; lights for outdoor installations; fluorescent lamps with low UV-light output; Light panels for vehicles, namely, cars, bicycles; light projectors; opaque lamp housings; solar-powered lamps; multicooker; reflectors for lamps; reflectors for lighting control;

reflectors for deflecting light; Regulating and safety accessories for gas appliances, namely, flashback arrestors and reverse flow check valves; self-luminous light sources; spotlights for household lighting; Flashing strobe light apparatus; portable electric heaters; portable electric radiant heaters; portable electric fans; portable hand lamps; portable lamps; portable searchlights; portable evaporative cooling devices; portable electric hot air dryer; transformers for lighting apparatus and installations; wall lights

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Digital audio tape players; computer network adapters; adapters for electrical plugs; Acoustic measuring devices, namely, sound level meters; alkaline batteries; wrist-worn computers; power sources connected to audio equipment for use in automobiles; screen filters adapted for televisions; screen filters adapted for tablet computers; Distribution cabinets adapted for electrical equipment; adapted stands for holding audio equipment; bags adapted for computers; wall mounts adapted for television screens; junction boxes for electrical conductors; connectors for electrical cable connections; connecting parts for electric lines; antennas for wireless communication apparatus; antennas and antenna systems as components; antenna system amplifiers; antenna socket; antenna filters; antenna converters; Satellite dish antennas; antenna amplifier; antenna two-way splutters; anti-reflective filters for computer monitors; anti-reflective filters for televisions; downloadable application software for televisions; recorded application software for televisions; Digital display devices; television receivers; film and video devices, namely, video cassette players, video cameras, wildlife surveillance cameras; Internal video surveillance apparatus, namely, surveillance cameras; apparatus for the distribution of electricity; Apparatus and instruments for conducting electricity, namely, electric cable adapters; apparatus and instruments for storing electricity; apparatus and instruments for converting electrical current; Satellite transmission apparatus, namely, satellite radios, satellite telephones, satellite dishes; apparatus for distributing electrical energy; Fittings for the use with electrical equipment; blank audio CDs featuring music, sounds; prerecorded audio CDs featuring music, sounds; Audio books in the nature of novels, short stories, user manuals; Audio file digitizer; audio receivers; Audio equipment, namely, audio mixers, speakers, limiters and compressors and radio receivers; audio cables; audio cassette players; audio cassette recorders; audio testers; audio amplifier; Audiovisual equipment, namely, video cameras, sound recorders, MP4 players; Audiovisual teaching apparatus, namely, projectors, whiteboards; Electronic databases in the field of consumer electronics recorded on computer media; Electronic publications, namely, book, magazine, manual featuring consumer electronics recorded on computer media; Computer programs downloaded from the internet for word processing, video processing, database management; computer game programs downloadable from the internet; base stations for local area networks [LAN] for connecting users of a computer network; battery cable; battery chargers; battery testers; battery starter cable; Components for use in electrical circuits, namely, circuit breakers, amplifier; Lighting for darkrooms, namely, photography darkroom lamps; light meter; lighting control devices; lighting controller; Pre-recorded video compact discs featuring music; downloadable operating programs for computers; recorded operating programs for computers; screen filters for computers and televisions; downloadable screen saver software for computers; anti-glare filters for televisions and computer monitors; Computers as workstations; downloadable computer application software for cell phones in database management, word processing; recorded computer application software for cell phones in database management, word processing, computer expansion cards for local area networks [LAN cards] for connecting portable computing devices to computer networks; downloadable computer firmware for use in database management, use as a spreadsheet, word processing in the field of consumer electronics; recorded computer firmware for use in database

management, use as a spreadsheet, word processing in the field of consumer electronics; computer hardware; computer peripherals; computer projection board; computer touch screens; computer accelerator cards; downloadable computer applications for automotive controls; recorded computer applications for automotive controls; downloadable computer applications for audio and video navigation of cars; recorded computer applications for audio and video navigation of cars; downloadable computer applications for vehicle navigation devices; recorded computer applications for vehicle navigation devices; downloadable computer applications for the automatic control of the steering of vehicles; recorded computer applications for the automatic control of the steering of vehicles; Computer universal serial buses (USBs); Computer data storage devices, namely, blank tapes, USBs; computer apparatus for use in remote reading of meters; downloadable computer graphics software; recorded computer graphics software; computer hardware for transmitting positioning data; computer hardware for telecommunications; computer hardware for disseminating positioning data; computer mouse; computer mouse pads; computer modems; Computer memory modules; computer network router; Downloadable computer programs for word processing, spreadsheet management; downloadable computer programs for image processing; recorded computer programs for image processing; downloadable computer programs for network management; recorded computer programs for network management; downloadable computer programs for interactive television and for interactive games and quizzes; recorded computer programs for interactive television and for interactive games and quizzes; downloadable or recorded for video and computer games; downloadable computer programs and software for image processing on cell phones; recorded computer programs and software for image processing on cell phones; downloadable computer programs for activating access or entry controls; recorded computer programs for activating access or entry controls; downloadable computer programs for editing images, sounds and videos; recorded computer programs for editing images, sounds and videos; downloadable computer programs for searching the contents of computers and computer networks with remote control; recorded computer programs for searching the contents of computers and computer networks with remote control; downloadable computer programs for use in autonomous vehicle navigation; recorded computer programs for use in autonomous vehicle navigation; computer interface cards; computer server; downloadable computer software for electronic publishing; recorded computer software for electronic publishing; downloadable computer software for interconnected network billing in the field of telecommunications; recorded computer software for interconnected network billing in the field of telecommunications; downloadable computer software for document management; recorded computer software for document management; downloadable computer software for electronic commerce; recorded computer software for electronic commerce; downloadable computer software for evaluating market information; recorded computer software for evaluating market information; downloadable computer software for data searching; recorded computer software for data searching; downloadable computer software for remote control of electrical lighting equipment; recorded computer software for remote control of electrical lighting equipment; downloadable computer software for remote control of security devices; recorded computer software for remote control of security devices; downloadable computer software for remote monitoring of measuring devices; recorded computer software for remote monitoring of measuring devices; downloadable computer software for the function control of audio and video devices; recorded computer software for the function control of audio and video devices; downloadable computer software for communication processing; recorded computer software for communication processing; downloadable computer software for processing digital images; recorded computer software for processing digital images; downloadable computer software for processing digital music files; recorded computer software for processing digital music files; downloadable computer software for local area network management; recorded computer software for local area network management; downloadable computer software for delivery of photographs to cell phones; recorded computer software for delivery of photographs to cell phones;

downloadable computer software for monitoring self- service terminals; recorded computer software for monitoring self-service terminals; downloadable computer software for managing electronic bulletin boards; recorded computer software for managing electronic bulletin boards; downloadable computer software for global positioning systems (GPS); recorded computer software for global positioning systems (GPS); downloadable computer software for wireless network communication; recorded computer software for wireless network communication; downloadable computer software for mobile phones for photo editing; recorded computer software for mobile phones for photo editing; downloadable computer software for playing games; recorded computer software for playing games; downloadable computer software for use in creating advertisements; recorded computer software for use in creating advertisements; downloadable computer software for scanning images and documents; recorded computer software for scanning images and documents; downloadable computer software for controlling amplifiers; recorded computer software for controlling amplifiers; downloadable computer software for administration of online games; recorded computer software for administration of online games; downloadable computer software for analyzing market information; recorded computer software for analyzing market information; downloadable computer software for automating data warehousing; recorded computer software for automating data warehousing; downloadable computer software for providing multiple user access to a global computer information network; recorded computer software for providing multiple user access to a global computer information network; downloadable computer software for enabling teleconferencing, video conferencing and screen telephony services; recorded computer software for enabling teleconferencing, video conferencing and screen telephony services; downloadable computer software for creating firewalls; recorded computer software for creating firewalls; downloadable computer software for enhancing the audio-visual capabilities of multimedia applications; recorded computer software for enhancing the audio-visual capabilities of multimedia applications; downloadable computer software for converting document images to electronic formats; recorded computer software for converting document images to electronic formats; downloadable computer software for controlling and managing access server applications; recorded computer software for controlling and managing access server applications; downloadable computer software for use in encryption; recorded computer software for use in encryption; downloadable computer software for use as a programming interface (API); recorded computer software for use as a programming interface (API); downloadable computer software for use in migrating between different computer network operating systems; recorded computer software for use in migrating between different computer network operating systems; downloadable computer software for use in computer access control; recorded computer software for use in computer access control; downloadable computer software that enables the delivery of electronic media over communication networks; recorded computer software that enables the delivery of electronic media over communication networks; downloadable computer software platforms for application development, web hosting, database management; recorded computer software platforms for application development, web hosting, database management; computer game discs; computer keyboards; computer stylus pens; Computer cache memories, namely, integrated circuit and semiconductor memories for use in communication and storage of computer data and information; covers for tablet computers; decoders for televisions; detectors for electrical measuring devices; digital audio players; digital audio recorders; digital audio servers; digital televisions; Digital measuring devices for measuring electric current, voltage, sound level, receiving field strength, electrical power, temperature; digital amplifiers; digital video players; digital video recorders; digital video servers; Light dimmers; floppy disk drives for computers; docking stations for laptops; docking stations for tablet computers; wireless audio and video receivers; choke coils for electrical apparatus; electrical termination resistors; electrical junction boxes; Electrical adapter cables; electrical adapter plugs; electric

accumulators for vehicles; electric alarm bells; Electrical alarm devices, namely, sound alarms, security lights; Electric charging stations for electric vehicles, uninterruptible power supply device; electrical connection sockets; Electric sound, video recorders; electric batteries; Electrical control consoles for gaming consoles; electrical decoding devices; electric burglar alarms; electrical diodes; electric rotary switches; Electric choking coils for use in electrical apparatus; electric push button switches; Electrical audiovisual receivers; electric direction indicator boards of metal; Electrical remote control devices for televisions, satellite transceivers; electrical remote ignition devices; electric fire alarms; electrical frequency converters; Electrical devices for access control to interlocking doors; Electrical devices, namely, automatic locks for ensuring access security; electrical devices for controlling electrical power; electrical cables; Electrical wire harnesses; electrical cable ducts; Accessories for electrical insulators, namely, electrical lugs; electrical cable connectors; electric light switches; Electrical measuring devices, namely, devices for measuring electric current; Electrical security monitoring apparatus, namely, surveillance cameras, alarm sensors,; electrical and electronic video surveillance systems; electrical amplifiers; electric amplifiers for audio signals; electronic devices for the transmission of audio signals; Electronic probes for testing integrated circuits, testing semiconductors; electronic measuring rulers; electronic sensors for measuring solar radiation; electronic security systems for home networks; electronic ballasts for lights; electronic access control systems for buildings; receiving antennas for satellite broadcasts; Memory expansion cards for computers; Cases specially adapted for satellite navigation devices; Cases specially adapted for tablet computers; Cases specially adapted for portable media players; external computer hard drives; Fiber optic panels for optical fibers; television antennas; television receiving dishes; televisions for digital multimedia broadcasting [dmb]; television standard converter; remote controls for televisions; remote control devices for lighting control; downloadable firewall software for computers; recorded firewall software for computers; Wearable activity trackers, namely, fitness bracelets; liquid crystal (LCD) televisions; housing for measuring devices; devices for measuring antenna parameters; devices for measuring, monitoring and analyzing electricity consumption; video streaming devices; video amplification devices; graphics decoders for use with audio karaoke systems; graphics cards for computers; mounts for tablet computers; downloadable templates for making audiovisual presentations; downloadable interactive entertainment software for playing video games; Hi-fi audio equipment, namely, speakers, compressors, audio mixers, limiters; in-ear headphones; Information technology and audiovisual equipment, namely, servers, computers, video cameras, televisions; instruments for measuring physical data; downloadable interactive computer game programs; recorded interactive computer game programs; interactive television terminals; downloadable interactive multimedia computer programs for word processing, video editing, music composition; recorded interactive multimedia computer programs for word processing, video editing, music composition; downloadable interactive multimedia computer game programs; recorded interactive multimedia computer game programs; internal cooling fans for computers; internet-enabled televisions; insulated electric cables; Computer game joysticks; cables for the transmission of electrical signals; optical signal transmission cables; telecommunication cables; cables for the transmission and reception of cable television signals; Electric cable detectors; cable television receivers; cable television converters; cable television broadcasters; cable ducts for electric cables; Wireless headsets for cellular phones; computers; wireless headphones; wireless chargers; wireless speakers; wireless controls for remote monitoring and for function and status control of other electrical, electronic and mechanical devices or systems; wireless controllers for remote monitoring and control of the function and status of security systems; wireless keyboards; cordless telephones; cable modems; Flip cases specially adapted for tablet computers; encoded cards for access to computer software; headphone and microphone combinations; combined video players and recorders; communication servers [computer hardware]; headphone sets for use with computers; headphone consoles; headphone amplifier; lamps for light signaling devices; lamps for use as warning lights;

laptops; lasers for measuring purposes; speakers for computers; speakers for portable media players; speakers with built-in amplifiers; power transformers for amplifiers; light emitting diodes (LED) televisions; Electronic luminous notice boards; Luminous indicators for indicating gas pressure, gradient, slope; luminous bracelets for protection against accident or injury; luminous or mechanical directional signs; luminous or mechanical road marking posts; luminous safety beacons; luminous traffic cones; luminous advertising signs; light pointers being laser pointers; Photosensitive electric relays; photosensitive tubes; Photosensitive glass optical lenses; light filters for cameras; fiber optic cables; Light modulators being light dimmers; Light sources being flash lamps for photographic use; light regulator; Light sensors and lighting control apparatus; luminous flux meters; rulers for measuring purposes; lithium-ion batteries; Machine readable downloadable computer programs for use in playing music; multiplexers; measuring and control devices for air conditioning; Machine readable recorded computer programs for use in playing music; multiplexers; measuring and control devices for air conditioning; Measuring, detection and monitoring instruments, devices and regulators for radio and television stations, surveillance cameras, photovoltaic systems; Measuring, counting, alignment and calibration instruments for radio and television stations, surveillance cameras, photovoltaic systems; measuring devices for electrical fuses; measuring devices with digital displays; measuring devices for locating satellites; Measuring teste equipment for measuring of electric current, voltage, sound level, receiving field strength, electrical power, temperature; measuring sensors; Electroacoustic transducers; mobile computers; multifunctional touch switches; multifunctional remote controls; multifunctional keyboards for computers; Multimedia recordings featuring music, movies; Multimedia memory accelerator cards; multimedia multiplexer; multimedia projectors; multiplexers for telecommunications; multi-port transceivers; Multiport sound amplifier; notebooks computers; lenses for video cameras; optical light beam deflectors; Optical measuring devices, namely, fluorimeters, surveillance cameras, TOF cameras, motion sensors; optical transmitters for use with fiber optic cables; optical amplifiers; personal video recorder (PVR); programmable digital television recorders; downloadable computer programs for video games; recorded computer programs for video games; relays for radio and television stations; repeater for radio and television stations; Rotating lights being signaling devices; satellite television receivers; satellite antennas; satellite receiver; Satellite communication devices, for transmitting communications; satellite navigation devices; satellite computer; satellite dishes; satellite transmitter; satellite telephones; satellite broadcasting devices; control panels for security alarms; interface circuits for video cameras; cordless headphone sets for smartphones; protective films for computer screens; sensors for measuring instruments; Security alarm systems comprised of surveillance cameras, touchpads, motion sensors; backup drives for computers; Signal lines for information technology, audiovisual and telecommunications in the nature of fiber optic cables; downloadable interactive television software; recorded interactive television software; downloadable software for evaluating satellite images; recorded software for evaluating satellite images; downloadable satellite navigation software; recorded satellite navigation software; downloadable website development software; recorded website development software; downloadable software for controlling indoor climate, access and security systems; recorded software for controlling indoor climate, access and security systems; downloadable software for maintaining and operating computer systems; recorded software for maintaining and operating computer systems; downloadable software for controlling and improving the sound quality of audio equipment; recorded software for controlling and improving the sound quality of audio equipment; downloadable software for improving the audiovisual capabilities of multimedia applications, namely, for the integration of text, sound, graphics, still and moving images; recorded software for improving the audiovisual capabilities of multimedia applications, namely, for the integration of text, sound, graphics, still and moving images; downloadable video game software programs; recorded video game software programs; memories for use

with computers; starters for electric lamps; positioners for antennas; control devices for computers; control devices for audio and video navigation of cars; Computer hardware, namely, control balls; controllers for local video networks; current limiters for lighting apparatus; tablet computer; keyboards for tablet computers; thin client computers; sound mixer with built-in amplifiers; computer touch pads; Portable music, video, DVD player; portable activity trackers; Portable audio equipment, namely, speakers, audio mixers, compressors; portable CD-players; portable computer peripherals; portable DVD-players; portable cassette players with radio; portable communication devices in the nature of watches; portable personal computers; portable radios; portable smartphones; portable walkie-talkies; portable sound recorders; portable sound reproducers; portable video cameras with built-in video cassette recorders; ultra-high definition televisions; sheaths for fiber optic cables; USB-dongles being wireless network adapters; USB-cable; junction boxes for receiving cable connections; traffic lights; encrypted cards with security features for identification purposes; video baby monitors; video graphics accelerator; video mixers; video players; videotape players; videotape recorders; video graphics controller; video cameras (camcorders); videocassettes; video cassette tapes; Video conferencing equipment, namely, video monitors, microphones, computers; video monitors; video multiplexer; video disc recorders; video projectors; video processors; video recorder; video server; video tuner; video door entry phone; video amplifier; video surveillance cameras; video surveillance controls; rechargeable batteries; central processing units for computers; feed rails for electrical cables

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Updating and design of computer software; Technical evaluation of measured values; consultancy in the design and development of computer hardware; computer software consultancy; computer programming consultancy; computer security advice; consultancy in the field of computer software; consultancy in the field of computer technology; consultancy in the field of information technology [IT]; consultancy in the field of physics; consultancy in the field of product development and software quality improvement; consultancy in the field of software design; advice in the field of environmental protection; advice on the design of packaging; advice on website design; consultancy relating to the development of computer systems; advice in the field of technological development; consultancy in the field of telecommunications technology; advice relating to computer network applications; advice relating to computer systems analysis; advice relating to quality control; advice relating to quality assurance; advice and information on the rental of computer software; advice on creating homepages and internet pages; advisory and consultancy services relating to the design and development of computer hardware; advisory and information services on computer peripheral devices; consultancy and information services for the integration of computer systems; consulting services in the field of design and development of computer software programs; security software advisory services; providing temporary use of non-downloadable software for tracking multimedia content by content providers; providing information on the design and development of computer software, computer systems and computer networks; providing security services for computer networks, computer access and computerized transactions; computerized design services; computerized design of video graphics; computer programming services for the security of electronic data; computer programming of video games; computer software design and development; new product design; design and development of data processing systems; animation design for others; design of display systems for exhibitions; design of display systems for presentation purposes; design of display systems for advertising purposes; design of lighting systems; computer software design; design of computer peripheral devices; Graphic design, namely, design of printed matter; Furnishing design services for the interiors of buildings; design of homepages and websites; design of information systems relating to management;

design of models for exhibition purposes; design of models for entertainment purposes; design of products; computer hardware design; design of special machines for the manufacture of lighting equipment; design of telecommunications equipment and systems; design, maintenance and updating of data processing programs; design, maintenance and updating of computer software for communication networks, televisions, surveillance systems; Design, maintenance, rental and updating of computer software for playing games, editing digital photos; computer design services; packaging design services; design services for the interior of buildings; website development services; carrying out technical measurements and tests; electronic storage of digital audio files; electronic storage of digital video files; new product development; Development of new technologies for others in the field of genomics, biotechnology; development and design of digital sound and image carriers; software development and maintenance; development of computer programs stored on data carriers for use in construction and automated production; computer software development; development of computerized networks; development of computer hardware for computer games; development of computer software for creating electronic television program guides; development of computer software for logistics, supply chain management and e-business portals; development of data programs; development of data processing programs on order for others; development of energy and power management systems; development of hardware for audio and video operators; development of hardware for storing and retrieving multimedia data; development of hardware for compression and decompression of multimedia content; development of hardware for converting data and multimedia content from different protocols and into different protocols; development of hardware for processing and distribution of multimedia content; development of interactive multimedia software; development of measurement and test methods; development of test equipment for electric wires; Development and establishment of testing specifications and procedures for the consumer electronics industry, telecommunications industry; development of software for audio and video operators; development of software for secure network operation; development of software for digital signal processing; development of software for virtual reality; development of software for storing and retrieving multimedia data; development of software for compressing and decompressing multimedia content; development of software for converting data and multimedia content from different protocols and into different protocols; development of software solutions for internet providers and internet users; development of generator sets; development of systems for data storage; development of systems for data processing; development of systems for data transmission; development of driver and operating system software; development, design and updating of homepages; development, programming and implementation of software; design and development of operating software for accessing and using cloud computing networks; design and development of computer hardware for the manufacturing industry; design and development of computer peripheral devices; design and development of computer software for logistics, supply chain management and e-business portals; design and development of computer software for reading, transmitting and organizing data; design and development of computer software for evaluating and calculating data; design and development of data display systems; design and development of data entry systems; design and development of data import and data management software; design and development of diagnostic equipment; design and development of electronic translation dictionaries and databases; design and development of devices, instruments and equipment for wireless data transmission; design and development of computer hardware architecture; design and development of internet security programs; design and development of wireless data transmission devices; design and development of multimedia products; design and development of multimedia products, namely, multimedia software for editing photos and videos, mixing music; design and development of navigation systems; Design and development of communication, global computer networks; design and development of test and analysis methods; design and development of software for computer games and virtual reality software; design and development of software for electronic databases; design and development of

software for electronic television program guides; design and development of software for video games; design and development of software for route planning; design and development of software for controlling, regulating and monitoring solar energy systems; design and development of electricity distribution networks; design and development of word processing software; design and development of virtual reality software; design and development of websites on the internet; design of measuring systems; design, development and maintenance of intranets; design, maintenance, development and updating of computer software; Design services for the development of communication, global computer networks; research and development of new products; creation of control programs for automatic measurement, assembly, adaptation and associated visualization; providing information on industrial design; Professional advice relating to energy measurement to improve energy efficiency in buildings; research in the field of measurement technology; Research into design in the field of graphic design, interior design, engineering design; Research relating to computer security; design of exhibition stands; design, conception, development and maintenance of websites for others; hosting a website for the electronic storage of digital photos and videos; Hosting multimedia content for others on the internet; IT consulting services, namely, IT security, protection and repair services; design and development of electronic data security systems; design and development of software and hardware for signal amplification and transmission; design of hardware for audio and video operators; design of hardware for storing and retrieving multimedia data; conception of hardware for converting data and multimedia content from different protocols and into different protocols; design of software for compressing and decompressing multimedia content; design of software for processing and distribution of multimedia content; product research and development; research, development, design and updating of computer software; technical planning and advice in the field of lighting technology; Engineering services, namely, technical project planning and technical project management for the development of lighting equipment; Technological security check, namely, surveillance systems, photovoltaic systems; Rental of design equipment, namely, computer hardware and software; rental of measuring apparatus; Scientific research services and related design in the field of consumer electronics, surveillance systems, photovoltaic systems; scientific research and development

GOODS AND SERVICES INFORMATION

For Machines for processing and manufacturing of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial and natural graphite, graphene nanotubes, carbon nanotubes, carbonates, artificial and natural graphite powder, artificial graphite blocks and rods, minerals in powder form for industrial use, industrial minerals, industrial chemicals, chemicals for use in the manufacture of inks, chemical additives for the production of inks, graphene or graphene oxide as an additive for paint, ink, resins, concrete, plastics and rubbers and rubber compounds, coolants, coolants containing graphene or graphene oxide, graphite or graphene for industrial purposes, dispersions containing graphene, dispersions containing graphene oxide, chemical preparations for facilitating the alloying of metals, chemical preparations for scientific purposes, other than for medical or veterinary purposes, chemical reagents, other than for medical or veterinary purposes, chemical substances for analyses in laboratories, other than for medical or veterinary purposes, chemicals for the manufacture of paints, chemicals for the manufacture of pigments, graphite for industrial use, nanopowders for industrial purposes, carbon fibre, carbon fibres for use in industry, crude fibres of carbon, raw fibres of carbon, other than for textile use, carbon fibre compounds, carbon fibre felts, mineral fibres, semi-finished carbon graphite materials, semi-finished graphite materials, semi-finished carbon composite materials, semi-finished graphene or graphite composite materials, unprocessed and semi-processed rubber, gutta-percha, gum, mica and substitutes for all these materials, insulating materials for use in industry and manufacturing, insulation materials for use in the ship, automotive and aircraft building industries, industrial coatings containing graphene or graphene oxide, materials for insulation, other than building glass, plastics and resins in extruded form for use in industry and manufacturing, materials containing graphene or graphene oxide for insulation, other than building glass, polymeric materials containing graphene or graphene oxide for use as sealant in manufacturing and industry, substances containing graphene or graphene oxide for insulating buildings against moisture, not paint, sealants containing graphene or graphene oxide for joints for

building, industry and manufacturing purposes, sealing agents containing graphene or graphene oxide for use in the building, industry and manufacturing, plastics and resins in extruded form for use in manufacture and containing graphene or graphene oxide, polymer fibres with graphene or graphene oxide for use in industry and manufacturing, packing, stopping and insulating materials, packing, stopping and insulating materials containing graphene or graphene oxide, non-metallic flexible pipes, tubes and hoses, non-metallic flexible pipes, tubes and hoses, containing graphene or graphene oxide, industrial coatings for insulating buildings, waterproof sealants containing graphene or graphite; electromechanical marking machines for chemical industry; filtering machines for chemical processing; grinding machines; metalworking and graphite working machine tools; milling machines; industrial machine presses; machines, namely, pulverisers for industrial and commercial application; power-operated atomisers for industrial or commercial use; superheaters, namely, steam engine boilers; graphite electrode and graphite tube making machines; graphene electrode and graphite tube making machines; parts and fitting for the aforementioned goods, namely, structural replacement parts for the aforementioned; treatment machines, namely, dissolving machines for chemical processing, extracting machines for chemical processing, chemical fiber drying machines and granulating machines for chemical processing; machine precision tools, namely, hard metal tools, high speed steel (HSS) tools, carbide tools, ceramic tools, poly crystalline diamond (PCD) tools, and diamond-coated and diamond-uncoated tools, and hard metal tools, all for use in the cutting and forming of materials by others

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Carbon; carbon rods; granulated carbon; graphene; graphene oxide; natural and artificial graphite for industrial purposes; graphene nanotubes; carbon nanotubes; carbonates; natural and artificial graphite powder for industrial purposes; artificial graphite blocks and rods; minerals in powder form, namely, graphene powder and graphene oxide powder for industrial use; industrial minerals, namely, graphene powder and graphene oxide powder; industrial chemicals; chemicals for use in the manufacture of inks; chemical additives for the production of inks; graphene and graphene oxide as a chemical additive for paint, ink, resins, concrete, plastics and rubbers and rubber compounds; coolants; coolants containing graphene or graphene oxide; graphite and graphene for industrial purposes; dispersions of plastics containing graphene for use in the manufacture of a wide variety of goods; dispersions of plastics containing graphene oxide for use in the manufacture of a wide variety of goods; chemical preparations for facilitating the alloying of metals; chemical preparations for scientific purposes, other than for medical or veterinary purposes; chemical reagents, other than for medical or veterinary purposes; chemical substances for analyses in laboratories, other than for medical or veterinary purposes; chemicals for the manufacture of paints; chemicals for the manufacture of pigments; graphite for industrial use; nanopowders for industrial purposes

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Installation, repair and maintenance of machines and machine tools for treatment, processing or manufacturing of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial or natural graphite, graphene nanotubes, carbon nanotubes, carbonates, artificial or natural graphite powder, artificial graphite blocks and rods, minerals in powder form for industrial use, industrial minerals, industrial chemicals, chemicals for use in the manufacture of inks, chemical additives for the production of inks, graphene or graphene oxide as an additive for paint, ink, resins, concrete, plastics and rubbers and rubber compounds, coolants, coolants containing graphene or graphene oxide, graphite or graphene for industrial purposes, dispersions containing graphene, dispersions containing graphene oxide, chemical preparations for facilitating the alloying of metals, chemical preparations for scientific purposes, other than for medical or veterinary purposes, chemical reagents, other

than for medical or veterinary purposes, chemical substances for analyses in laboratories, other than for medical or veterinary purposes, chemicals for the manufacture of paints, chemicals for the manufacture of pigments, graphite for industrial use, nanopowders for industrial purposes, carbon fibre, carbon fibres for use in industry, crude fibres of carbon, raw fibres of carbon, other than for textile use, carbon fibre compounds, carbon fibre felts, mineral fibres, carbon graphite semi-finished materials, graphite semi-finished materials, carbon composite semi-finished products materials, graphene or graphite composite semi-finished products materials, unprocessed and semi-processed rubber, gutta-percha, gum, mica and substitutes for all these materials, insulating materials for use in industry and manufacturing, insulation materials for use in the ship, automotive and aircraft building industries, industrial coatings containing graphene or graphene oxide, materials for insulation, other than building glass, plastics and resins in extruded form for use in industry and manufacturing, materials containing graphene or graphene oxide for insulation, other than building glass, polymeric materials containing graphene or graphene oxide for use as sealant in manufacturing and industry, substances containing graphene or graphene oxide for insulating buildings against moisture, not paint, sealants containing graphene or graphene oxide for joints for building, industry and manufacturing purposes, sealing agents containing graphene or graphene oxide for use in the building, industry and manufacturing, plastics and resins in extruded form for use in manufacture and containing graphene or graphene oxide, polymer fibres with graphene or graphene oxide for use in industry and manufacturing, packing, stopping and insulating materials, packing, stopping and insulating materials containing graphene or graphene oxide, non-metallic flexible pipes, tubes and hoses, non-metallic flexible pipes, tubes and hoses, containing graphene or graphene oxide, industrial coatings for insulating buildings, waterproof sealants containing graphene or graphite; installation, repair and maintenance of electromechanical machines for chemical industry, filtering machines, grinding machines, machine tools for treating and processing metals and chemicals, milling machines, industrial presses, machine pulverisers, machine atomiser, superheaters, graphite electrode and tube making machines, graphene electrode and tube making machines; information, advisory and consultancy services relating to all the foregoing, namely, installation, repair or maintenance information of chemical processing machines and apparatus

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Custom additive, wet lay-up, prepreg lamination and resin transfer molding manufacture and assembly comprised of carbon and graphite; custom manufacture of prototypes for others, , namely, prototype fabrication of new products for others; powder coating treatment services, namely, treatment of materials in the nature of metal; processing and treatment of chemicals, carbon, carbon fibre, graphite, graphene and minerals by vulcanization; rental of chemical, carbon, carbon fibre, graphite, graphene and minerals processing machines and apparatus; treatment of industrial waste and captured landfill gas to sequester carbon; treatment of wood for preservation purposes; rental of power-generating equipment for the treatment and transformation of materials, for energy production and for custom manufacturing; information, advisory and consultancy services relating to all the foregoing, , namely, providing information relating to material treatment and manufacturing process consulting

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Carbon fibre, other than for textile use; carbon fibres not for textile use for use in industry; insulating materials of crude fibres of carbon; raw fibres of carbon, other than for textile use; carbon fibre compounds, other than for textile use; carbon fibre insulating felts for use in ship, automotive and aircraft building industries; mineral fibres, , namely, carbon fibers, not for textile use; carbon graphite semi finished materials, , namely, carbon graphite sheets for insulating; graphite materials, , namely, graphite sheets for insulating; carbon composite semi-finished materials, , namely, carbon fibers not for textile use; graphene or graphite composite semi-finished materials, , namely, graphite foam used as a heat exchanger having preferential directionality of heat transfer between opposing surfaces; unprocessed and semi-processed rubber, gutta-percha, gum, mica and substitutes for all these materials, , namely, raw or semi-worked rubber, gum, mica and gutta-percha; insulating materials for use in industry and manufacturing; insulating materials for use in the ship, automotive and aircraft building industries; industrial coatings, , namely, insulating coatings containing graphene or graphene oxide; materials for insulation being insulating materials, other than building glass; plastics and resins in extruded form for use in industry production and manufacturing; insulating materials containing graphene or graphene oxide for insulation, other than building glass; polymeric materials containing graphene or graphene oxide for use as sealant, , namely, adhesive sealants for general use in manufacturing and industry; building insulation containing graphene or graphene oxide for insulating buildings against moisture, not paint; adhesive sealants containing graphene or graphene oxide for joints for building, industry and manufacturing purposes; sealing agents, , namely, sealing and insulating materials containing graphene or graphene oxide for use in the building, industry and manufacturing; semi-processed plastics and resins in extruded form for use in manufacture and containing graphene or graphene oxide for general industrial use; polymer films and sheets with graphene or graphene oxide for use in industry manufacturing and manufacturing; packing, stopping and insulating materials, , namely, packing and insulating material and fiberglass insulation; packing, stopping and insulating materials containing graphene or graphene oxide, , namely, packing and insulating material and fiberglass insulation; non-metallic flexible pipes, plastic flexible tubes and flexible hoses not of metal; non-metallic flexible pipes, plastic flexible tubes and flexible hoses not of metal, containing graphene or graphene oxide; industrial insulating coatings for insulating buildings; waterproof sealants containing graphene or graphite

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Scientific research in the field of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial and natural graphite, graphene nanotubes, carbon nanotubes, carbonates, artificial and natural graphite powder, artificial graphite blocks and rods, minerals in powder form for industrial use, industrial minerals, industrial chemicals, chemicals for use in the manufacture of inks, chemical additives for the production of inks, graphene or graphene oxide as an additive for paint, ink, resins, concrete, plastics and rubbers and rubber compounds, coolants, coolants containing graphene or graphene oxide, graphite or graphene for industrial purposes, dispersions containing graphene, dispersions containing graphene oxide, chemical preparations for facilitating the alloying of metals, chemical preparations for scientific purposes, other than for medical or veterinary purposes, chemical reagents, other than for medical or veterinary purposes, chemical substances for analyses in laboratories, other than for medical or veterinary purposes, chemicals for the manufacture of paints, chemicals for the manufacture of pigments, graphite for industrial use, nanopowders for industrial purposes, carbon fibre, carbon fibres for use in industry, crude fibres of carbon, raw fibres of carbon, other than for textile use, carbon fibre compounds, carbon fibre felts, mineral fibres, carbon graphite semi-finished materials, graphite semi-finished materials, carbon composite semi-finished

materials, graphene or graphite composite semi-finished materials, unprocessed and semi-processed rubber, gutta-percha, gum, mica and substitutes for all these materials, insulating materials for use in industry and manufacturing, insulation materials for use in the ship, automotive and aircraft building industries, industrial coatings containing graphene or graphene oxide, materials for insulation, other than building glass, plastics and resins in extruded form for use in industry and manufacturing, materials containing graphene or graphene oxide for insulation, other than building glass, polymeric materials containing graphene or graphene oxide for use as sealant in manufacturing and industry, substances containing graphene or graphene oxide for insulating buildings against moisture, not paint, sealants containing graphene or graphene oxide for joints for building, industry and manufacturing purposes, sealing agents containing graphene or graphene oxide for use in the building, industry and manufacturing, plastics and resins in extruded form for use in manufacture and containing graphene or graphene oxide, polymer fibres with graphene or graphene oxide for use in industry and manufacturing, packing, stopping and insulating materials, packing, stopping and insulating materials containing graphene or graphene oxide, non-metallic flexible pipes, tubes and hoses, non-metallic flexible pipes, tubes and hoses, containing graphene or graphene oxide, industrial coatings for insulating buildings, waterproof sealants containing graphene or graphite; technological research in the field of manufacturing processes and technology design services in the field of machines and machine tools for treatment, processing or manufacturing of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial and natural graphite, graphene nanotubes, carbon nanotubes, carbonates, artificial and natural graphite powder, artificial graphite blocks and rods, minerals in powder form for industrial use, industrial minerals, industrial chemicals, chemicals for use in the manufacture of inks, chemical additives for the production of inks, graphene or graphene oxide as an additive for paint, ink, resins, concrete, plastics and rubbers and rubber compounds, coolants, coolants containing graphene or graphene oxide, graphite or graphene for industrial purposes, dispersions containing graphene, dispersions containing graphene oxide, chemical preparations for facilitating the alloying of metals, chemical preparations for scientific purposes, other than for medical or veterinary purposes, chemical reagents, other than for medical or veterinary purposes, chemical substances for analyses in laboratories, other than for medical or veterinary purposes, chemicals for the manufacture of paints, chemicals for the manufacture of pigments, graphite for industrial use, nanopowders for industrial purposes, carbon fibre, carbon fibres for use in industry, crude fibres of carbon, raw fibres of carbon, other than for textile use, carbon fibre compounds, carbon fibre felts, mineral fibres, carbon graphite semi-finished materials, graphite semi-finished materials, carbon composite semi-finished materials, graphene or graphite composite semi-finished materials, unprocessed and semi-processed rubber, gutta-percha, gum, mica and substitutes for all these materials, insulating materials for use in industry and manufacturing, insulation materials for use in the ship, automotive and aircraft building industries, industrial coatings containing graphene or graphene oxide, materials for insulation, other than building glass, plastics and resins in extruded form for use in industry and manufacturing, materials containing graphene or graphene oxide for insulation, other than building glass, polymeric materials containing graphene or graphene oxide for use as sealant in manufacturing and industry, substances containing graphene or graphene oxide for insulating buildings against moisture, not paint, sealants containing graphene or graphene oxide for joints for building, industry and manufacturing purposes, sealing agents containing graphene or graphene oxide for use in the building, industry and manufacturing, plastics and resins in extruded form for use in manufacture and containing graphene or graphene oxide, polymer fibres with graphene or graphene oxide for use in industry and manufacturing, packing, stopping and insulating materials, packing, stopping and insulating materials containing graphene or graphene oxide, non-metallic flexible pipes, tubes and hoses, non-metallic flexible pipes, tubes and hoses, containing graphene or graphene oxide, industrial coatings for insulating buildings, waterproof sealants containing graphene or graphite; industrial analysis of machinery, industrial scientific

research and industrial design services; material testing; quality control for others; information, advisory and consultancy services relating to all the foregoing, namely, technological research in the field of manufacturing processes, technology design of information technology systems, scientific information and scientific research consulting in the field of machinery and chemical processing

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

RELATED PROPERTIES INFORMATION

International Registration 1682185 **International Registration Date** Apr. 25, 2022

GOODS AND SERVICES INFORMATION

For Machines for processing and manufacturing of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial and natural graphite, graphene nanotubes, carbon nanotubes, carbonates, artificial and natural graphite powder, graphene powder and hydrogen; graphite electrode and graphite tube making machines; graphene electrode and graphene tube making machines; treatment machines, namely dissolving machines for chemical processing, extracting machines for chemical processing, chemical fiber drying machines and granulating machines for chemical processing; machine precision tools, namely, hard metal tools, high speed steel (HSS) tools, carbide tools, ceramic tools, poly crystalline diamond (PCD) tools, and diamond-coated and diamond-uncoated tools, and hard metal tools, all for use in the cutting and forming of materials by others ; parts and fitting for the aforementioned goods, namely, structural replacement parts for the aforementioned

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Installation, repair and maintenance of machines and machine tools for treatment, processing or manufacturing of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial and natural graphite, graphene nanotubes, carbon nanotubes, carbonates, artificial and natural graphite powder, graphene powder and hydrogen, graphite electrode and tube making machines and graphene electrode and tube making machines; information, advisory and consultancy services relating to all the foregoing, namely installation, repair or maintenance information of chemical processing machines and apparatus

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Processing and treatment of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial and natural graphite graphene nanotubes, carbon nanotubes, carbonates, artificial and natural graphite powder, graphene powder and hydrogen by vulcanization; rental of processing machines and apparatus for the production of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial and natural graphite, graphene nanotubes, carbon nanotubes, carbonates, artificial and natural graphite powder, graphene powder and hydrogen; information, advisory and consultancy services relating to all the foregoing, namely, providing information relating to material treatment and manufacturing process consulting

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific research relating to the treatment and manufacture of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial and natural graphite, graphene nanotubes, carbon nanotubes, carbonates, artificial and natural graphite powder graphene powder and hydrogen; Technological research and design services relating to the treatment and manufacture of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial and natural graphite, graphene nanotubes, carbon nanotubes, carbonates, artificial and natural graphite powder, graphene powder and hydrogen; information, advisory and consultancy services relating to all the foregoing, namely scientific information and scientific research consulting and technological information and research in the field of machinery and chemical processing

International Registration 1682283 **International Registration Date** Apr. 26, 2022

GOODS AND SERVICES INFORMATION

For Vehicle parts, as far as included in this class, namely shock absorbers, seals and sealing systems for automotive coolants, oils and air conditioning units

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Compressors as parts of machines, motors and engines; compressed air pumps; heat exchangers being machine parts; filters, namely, magnetic air filters for vehicle motors and engines; cyclone separators; valves and cocks, in particular ball cocks being drain cocks; magnetic couplings for machines for sealing purposes or for non-contact power transmission; conveyors being machines, in particular in the form of conveying threads, for mechanical seals, in particular for cartridge sliding-ring seals; static or dynamic seal units primarily comprised of mechanical seals, intended for sliding-ring seals or supply units primarily comprised for mechanical seals for other technical installations, or supply units primarily comprised of mechanical seals with quench liquid units, thermosyphon units, seal gas units, seal pressure units, make-up devices, heat exchangers, magnetic filters or gas supply units; pressure intensifiers as parts of machines for sliding-ring seals; mechanical seals in the nature of shaft seals; single-acting and double-acting sliding-ring mechanical seals with gas or liquid lubrication for sealing liquid or gaseous media; rotary kiln mechanical seals and sealing units primarily comprised of mechanical seals; compensator aggregates and vibration decouplers being parts of machines for piping and duct systems, in particular for exhaust gas systems or for compensation of heat expansion, vibrations, movements or inaccuracies during assembly; rotary transmission units primarily comprising mechanical seals; sealing units for maritime applications primarily comprised of mechanical seals, in particular stem seals, sealing systems for bulkheads, extension devices and gear shafts; piston rings for

motors or pumps; crankshaft sealing units primarily comprising mechanical seals and mechanical seals for motors; turbo charger or charge air compressor seal units being parts of machines; seal units for air conditioning compressors primarily comprising mechanical sets; mechanical apparatus and equipment for storing, pressurizing, circulating and/or tempering fluids for use in sliding-ring seals in the nature of mechanical seals; mechanical apparatus and equipment, namely, seal pressure units, fluid replenishment units, fluid circulation units, contaminant separators, leakage collection apparatus and equipment, all primarily comprising mechanical seals; gas supply devices being parts of machines for gas lubricated sliding-ring mechanical seals; all the aforesaid goods as parts of machines; magnetic couplings for sealing purposes, in particular hermetically sealed magnetic couplings for use with machines; mechanical seals and systems primarily comprising mechanical seals being parts of machines consisting thereof as parts of aircraft engines; articulated sealing systems and vibration decouplers in exhaust systems, in particular metal bellows or spring-loaded metal bellows being machines; distribution units as accessories for pumps being parts of machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Conducting and organizing training courses, in particular in the field of seals and sealing technology

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Installation, maintenance and repair of seals and sealing materials

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Control, regulating and monitoring apparatus in the nature of electric control panels, electronic servo motor controllers; pressure maintenance units being measuring apparatus, pressure regulating units being pressure regulators and electric pressure distributors and measuring apparatus, in particular apparatus for measuring pressure, temperature, and flow rate for level monitoring and quench liquid supply apparatus and systems consisting thereof as well as diagnostic apparatus for seals, in particular for sliding-ring seals, for seal pressure systems as well as for other technical installations; apparatus and devices for the control of seals, in particular sliding-ring seals in the nature of power controllers; recorded software for controlling, regulating and monitoring apparatus and devices in the field of sealing technology, in particular in the field of sliding-ring seals or for computer-aided selection of possible types of seals as well as software of this type accessible or operable via the Internet; sensors, detectors and monitoring instruments and apparatus in the pressure sensors; data processing apparatus; downloadable software for controlling, regulating and monitoring apparatus and devices in the field of sealing technology, in particular in the field of sliding-ring seals or for computer-aided selection of possible types of seals

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Sealing and packing material, in particular mechanical seals of all kinds and non-metal seals for use in connection seals in the nature of sealing rings, lip seals, gap seals, labyrinth seals, gland seals, seals for rotary kilns, static or dynamic seals in the form of flat gasket rings, soft-material seals, 0-rings, seal rings or 0-rings, profiled rings or profiled elements, piston rings, crankshaft seals, turbo charger or charge air compressor seals, air conditioning seals, spiral sealing rings, manhole seals, static seals for flange connections and pipe connections, mechanical seals, pump or agitator mechanical seals, compressor seals, stationary or rotating gas-lubricated intermediate shaft seals, mechanical seals with lubrication grooves, gas-lubricated

crankshaft seals, and gas lubricated non-contact turbo charger seals; non-metal seals other than machine parts and systems consisting primarily of non-metal seals for use as connection seals for vehicles

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Technical analysis being product failure analysis services and technical consultancy services, in particular in the field of sealing technology; product development of seals; development of software for use in the field of sealing technology, in particular in the field of sliding-ring seals and for computer-aided selection of possible types of seals; development, programming and implementation of software; technical specialist consultancy relating to seals; software development; provision of computer programs in data networks in the nature of providing temporary use of on-line non-downloadable cloud computing software for controlling, regulating and monitoring apparatus and devices in the field of sealing technology, in particular in the field of sliding-ring seals or for computer-aided selection of possible types of seals; software consultancy; creation, maintenance, installation, improvement, design, servicing, updating, implementation of software and computer programs in networks; preparation of technical documentation in the nature of technical writing for others for the operation of sliding-ring seals, as well as technical assistance for the handling of software and computer programs; leasing of software and computer programs for controlling, regulating and monitoring apparatus and devices in the field of sealing technology, in particular in the field of sliding-ring seals or for computer-aided selection of possible types of seals; support services, namely, technical advice for the handling of software and computer programs

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

RELATED PROPERTIES INFORMATION

International Registration 1699492 **International Registration Date** Oct. 18, 2022

GOODS AND SERVICES INFORMATION

For Preparations for destroying vermin; fungicides; herbicides; insecticides; nematicides; bioinsecticides; biofungicides; bionematicides; bioherbicides; biological control agents for agricultural use for combating fungal and bacterial diseases, parasites, nematodes and weeds, namely biological fungicides, biological insecticides, biological nematicides and biological herbicides based on micro-organisms, botanical and mineral extracts; preparations for repelling animals, birds and insects; biological products and preparations based on micro-organisms, botanical and mineral extracts for biological control of pests and pathogens

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Chemical preparations for use in agriculture, horticulture and forestry except fungicides, herbicides, insecticides and parasiticides; biological preparations for use in agriculture, horticulture and forestry, except fungicides, herbicides, insecticides and parasiticides; compost; soil fertilizers; fertilizing products, namely fertilizer preparations; biofertilizers; nutrients and micronutrients for use in agriculture; chemical preparations for seed treatment for use in agriculture, horticulture and forestry; organic seed-treatment preparations, namely biological seed treatment preparations for use in agriculture, horticulture and forestry; chemicals and biologicals preparations for use in agriculture, horticulture and forestry based on microorganism for biocontrol against vermin, insect and fungus; soil inoculants for use in agriculture; biostimulants for plants and seeds, namely biostimulants being seed and plant growth and health stimulants; biostimulants for soil application, namely biostimulants being plant growth and health stimulants; pheromones, other than for medical use; plant growth and health nutrients in the nature of chemical and biological preparations for plant stress management; soil-enhancing preparations in the nature of soil improving preparations; preparations promoting crop, plant and root growth being crop, plant and root growth nutrients

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

GOODS AND SERVICES INFORMATION

For Financial services in relation to digital currencies, namely, electronic transfer of virtual currencies; virtual currency services, namely, electronic transfer and exchange of virtual currency, providing electronic transfer of virtual currency for use by members of an on-line community via a global computer network; financial transaction services, namely, providing secure commercial transactions and payment options; conducting of financial and monetary transactions online, namely, investments fund transfer and transaction services; financial exchange of virtual currency; financial transactions via blockchain, namely, cryptocurrency exchange services featuring blockchain technology

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Downloadable and recorded software for generating virtual images; Downloadable and recorded software for enabling hardware to provide virtual, augmented or mixed reality experiences, including via computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones; downloadable virtual and augmented reality software for use in social, gaming, entertainment, and e-commerce interaction between the users of a platform; blockchain solutions software, namely, downloadable and recorded software for managing crypto asset transactions using blockchain solutions ; downloadable virtual reality game software; virtual reality hardware, namely, virtual reality headsets for interactive applications; apparatus for generating virtual images namely, augmented reality glasses for superimposing virtual images; downloadable augmented reality software for integrating electronic data with real world environments for the purpose of creating maps; downloadable augmented reality software for generating simulations; downloadable augmented reality software for creating maps; downloadable augmented reality software for use in mobile devices for managing cryptocurrency transactions using blockchain technology; downloadable augmented reality game software; downloadable software for

generating cryptographic keys for receiving and spending cryptocurrency; downloadable computer software for managing cryptocurrency transactions using blockchain technology; downloadable electronic maps; downloadable data and image processing software for making three dimensional models; downloadable virtual and augmented reality software for playing computer games; downloadable augmented reality software for use in mobile devices for integrating electronic data with real world environments; downloadable computer software used to create, modify, and manipulate environments, avatars, functions, features, and objects for use in 3d online virtual environments; downloadable software for use in the creation of 3d simulated consumer products and customer avatars for use in online virtual environments; downloadable software for designing and manipulating avatars; downloadable computer software for cryptocurrency, namely, for managing and verifying cryptocurrency transactions on a blockchain; downloadable computer software for managing and transferring electronic money; downloadable computer software for encryption in the field of money and finance; downloadable computer application software for blockchain-based platforms

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Electronic data storage via blockchain technology; electronic data storage using blockchain technology; authentication of data in the field of financial transactions using blockchain technology; providing online, non-downloadable software for use in financial transactions using blockchain technology ; providing online non-downloadable software for virtual and augmented reality applications and environments, namely, for use in financial transactions using blockchain technology; hosting online websites for the uploading, modification and sharing of content, information, experiences and data about virtual reality; data authentication via blockchain, namely, authentication of data in the field of financial transactions using blockchain technology; authentication of data in the field of digital properties comprising digital lands, digital tokens, digital avatar clothes and digital collectibles using blockchain technology; user authentication services using blockchain technology for cryptocurrency transactions; providing online geographic maps, not downloadable; providing online non- downloadable geographical maps; preparation of maps in digital form, namely, mapping services featuring geophysical maps; photogrammetry services; design and development of software and application software used to create, modify, and manipulate environments, avatars, functions, features, and objects for use in 3d virtual environments; providing online non-downloadable software and application software used to create, modify, and manipulate environments, avatars, functions, features, and objects for use in 3d virtual environments; providing temporary use of non-downloadable software for designing and manipulating avatars

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

Serial Number 79358595 **Application Filing Date** Oct. 17, 2022 **Registration Number** 7198329 **Registration Date** Oct. 24, 2023 **Register** Principal **Mark Type** Trademark **Publication Date** Aug. 08, 2023

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

RELATED PROPERTIES INFORMATION

International Registration 1703752 **International Registration Date** Oct. 17, 2022

GOODS AND SERVICES INFORMATION

For Seats for vehicles, namely, fixed seats, seats with folding back rests, seats with backrests and folding seats and handicap accessible seats and supports; vehicle seat support systems, namely, folding and fixed seat legs; wheelchair safety restraint systems for vehicles comprised of wheelchair chocks, straps, hooks and rings; cargo storage bins specially adapted to fit in vehicles; seat belts for vehicle seats; wheelchair pads and cushions; power-operated wheelchair lifts specially adapted for vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Metal flooring comprised of metal flooring underlayment and metal sheets, metal floor panels, spacer brackets of metal, metal wheelchair locks and rail fittings, small hardware of metal for seat and shoulder restraints; metal floor panels; metal locking mechanisms; metal ramps for vehicles

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

GOODS AND SERVICES INFORMATION

For Jewelry in the nature of armbands; pins being jewelry; wrist bands of rubber or silicon, jewellery, being rubber or silicone wristbands in the nature of a bracelet; wrist watch bands, being straps for wristwatches; pendants being jewelry; necklaces being jewelry

International Classes 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For On-line retail store services featuring a wide variety of consumer goods of others; retail store services featuring a wide variety of consumer goods of others; data management, namely, updating and maintenance of data in computer databases; data base management, namely, updating and maintenance of data in computer databases; collection of data, namely, updating and maintenance of data in computer databases; data collection for others, namely, updating and maintenance of data in computer databases; data compilation for others, namely, updating and maintenance of data in computer databases; data retrieval, namely, updating and maintenance of data in computer databases; electronic data processing, namely, updating and maintenance of data in computer databases; maintaining data in databases, namely, updating and maintenance of data in computer databases; online data processing services, namely, updating and maintenance of data in computer databases; updating data in databases, namely, updating and maintenance of data in computer databases; updating and maintenance of data in computer databases; compilation of medical reports, namely, computerized management of medical records and files; computerized management of medical records and files; retail services for goods by any means, namely, on-line retail store services and retail store services featuring a wide variety of consumer goods of others

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable computer application software for mobile phones, handheld computers, personal computers and wearable computers, namely, software for the communication of disclosure information between disabled individuals and first responders; computer software applications being downloadable computer application software for mobile phones, handheld computers, personal computers and wearable computers, namely, software for the communication of disclosure information between disabled individuals and first responders; downloadable software applications, apps, being downloadable computer application software for mobile phones, handheld computers, personal computers and wearable computers, namely, software for the communication of disclosure information between disabled individuals and first responders; personal computer application software being downloadable computer application software for the communication of disclosure information between disabled individuals and first responders; wearable activity trackers; wearable computers in the nature of wearable activity trackers; active electronic labels containing coded information being labels carrying electronically recorded or encoded information; apparatus for the communication of data, namely, labels carrying electronically recorded or encoded information; apparatus for use in communications between computers being downloadable computer application software for mobile phones, handheld computers, personal computers and wearable computers, namely, software for the communication of disclosure information between disabled individuals and first responders; apparatus for use in digital communication transmission being downloadable computer application software for mobile phones, handheld computers, personal computers and wearable computers, namely, software for the communication of disclosure information between disabled individuals and first responders; automatic emergency reporting devices being an emergency notification system comprised of a data processor and a user input device for connecting the data processor to an emergency response entity through a communication network and allowing audio and data communication between the processor and the entity; transmitters being emergency electrical communications apparatus, namely, an emergency notification system comprised of a data processor and a user input device for connecting the data processor to an emergency response entity through a communication network and allowing audio and data communication between the processor and the entity; transmitters for use in emergency communications, namely, an emergency notification system comprised of a data processor and a user input device for connecting the data processor to an emergency response entity through a communication network and allowing audio and data communication between the processor and the entity; electronic scanning apparatus, namely, electronic card readers, chip card readers, magnetic strip readers and optical readers; data processing terminals, namely, electronic data processing apparatus; information display terminals, namely, wearable activity trackers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Electronic communication service by means of computer being communication services, namely, electronic transmission of data and documents among users of computers; communication services by electronic means being telecommunication services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the internet; communication services for the transmission of information by electronic means, namely, wireless electronic transmission of voice signals, data, facsimiles, images and information; communication services for the electronic transmission of voices being telecommunication services, namely, transmission of voice, data and audio by means of telecommunications networks wireless communication networks, and the internet; communication services for the electronic transmission of images, namely, wireless electronic transmission of images; communication services provided electronically, namely, wireless electronic transmission of voice signals, data, facsimiles, images and information;

communications services for the exchange of data in electronic form, namely, wireless electronic transmission of voice signals, data, facsimiles, images and information; electronic communication services, namely, wireless electronic transmission of voice signals, data, facsimiles, images and information; information services relating to electronic communication networks, namely, providing information in relation to electronic communication networks; paging services via radio, telephone or other means of electronic communication; communication services for the electronic transmission of data, namely, wireless electronic transmission of data and information; electronic communication services for the transmission of data, namely, wireless electronic transmission of data and information; electronic communications services for the transmission of data, namely, wireless electronic transmission of data and information; operating of electronic communications networks being communication services, namely, providing electronic transmission of information stored in a database via interactively communicating computer systems; operating of electronic communications systems being communication services, namely, providing electronic transmission of information stored in a database via interactively communicating computer systems; provision of electronic communications links, namely, providing on-line communications links which transfer the web site user to other local and global web pages; sending of emergency messages by electronic means, namely, transmission, reception and processing of coded emergency signals

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Online provision of web-based applications, non-downloadable, being software as a service (saas) services featuring software for the communication of disclosure information between disabled individuals and first responders; provision of online non-downloadable software being an application service provider, namely, hosting and developing applications and software of others for the purposes of communicating disclosure information between disabled individuals and first responders; online provision of web-based software, non-downloadable, being software as a service (saas) services featuring software for the communication of disclosure information between disabled individuals and first responders; provision of online non-downloadable web-based software being software as a service (saas) services featuring software for the communication of disclosure information between disabled individuals and first responders; design and development of computer software; development of computer software; development of computer software application solutions for the communication of disclosure information between disabled individuals and first responders; creating and designing website based indexes of information for others using information technology; creating and designing website-based indexes of information for others being information technology services; back-up, copying, of computer data being electronic data back-up services; computerised data storage services, namely, electronic data storage; data storage, other than physical storage, namely, electronic data storage; development of systems for the processing of data, namely, data processing programs; development of systems for the storage of data, namely, programs for electronic data storage; electronic data storage

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Printing machines; offset printing machines; rotary web fed printing machines; rotary sheet fed printing machines; silk screen printing machines; pad printing machines; flexographic printing machines; gravure printing machines; printing machines for use on sheet metal; printing machines for use on cans; printing machines for use on hollow bodies being containers; printing machines for corrugated cardboard; inkjet printing machines and apparatus in the nature of inking apparatus for printing machines; laser marking machines and apparatus, namely, engraving machines and laser machines for printing; laser printing machines and apparatus in the nature of inking apparatus for printing machines; marking machines, namely, industrial machinery in the nature of electromechanical marking machines; lacquering machines being painting machines; packaging machines; paper coating machines, in particular working rotationally, for web-type and separate materials; digital printing and digital electromechanical marking machines for industrial use, based on electrophotography, magnetography, xerography, ink jet; exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates; electric credit card imprinting and electromechanical marking machines for industrial use, in particular for the graphics sector, the packaging sector and data processing; labellers being machines, namely, automatic industrial labeling machines for applying labels to containers; engraving machines; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, printing machines, metal forming machines; pallet changing and pallet transfer machines; stacking machines; machines for handling sheets and plates of metal, namely, metal forming machines; foodstuff distribution machines being packaging machines for food; machines and apparatus for the surface treatment of metals, namely, metal drawing machines; hot stamping machines and apparatus being automatic stamping machines; thermal transfer machines and apparatus being machines in the nature of heat transfer presses; rotary die-cutters for punching of printed matter or paper or plastics; flat-bed die cutters for stamping printed matter or paper or plastics; marking machines for printed matter, namely, electromechanical

addressing machines for printed matter; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, namely, machines for pneumatic transporting, cutting, punching, industrial paper folding, dust collecting for chemical processing, tacking being packaging, packaging, compiling, sorting, and binding paper, scanning, checking in the nature of sorting printed products, perforating being punching, gluing, stapling, tying being packaging, bundling, bookbinding for industrial purposes; printing plates; flexographic printing plates; accessories, included in this class, for the aforesaid printing machines, , namely, structural machine parts for offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastic or metal or organic or inorganic materials, namely, control apparatus, printing mechanisms, inking apparatus, damping units, lacquering units, reel changers, folding apparatus; machines and mechanical apparatus being machine-operated platforms for storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; conveyors being machines, belts for conveyors, conveying apparatus for conveying printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking machines and apparatus being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, marking machines being industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials in the nature of printing machines; machines and mechanical apparatus for the folding of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, industrial paper folding machines; machines

and mechanical devices being polishing, bending, and punching machines for changing and/or bending and/or punching printing plates and/or flexographic printing plates; machines and mechanical apparatus being machine-operated platforms for the storing of printing plates for printing machines; conveying machines, conveyor belts, conveying apparatus being machines for conveying printing plates for printing machines; machines and mechanical apparatus being cleaning machines for cleaning rollers in inking apparatus or damping units and/or cylinders and/or lacquering units and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking machines and apparatus being engraving machines and laser machines for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechnical marking machines for industrial use, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines; machines and mechanical apparatus for storing and adjusting rollers in inking apparatus and damping units and cylinders and lacquering units and inkjet printing modules and laser systems, in all of the aforementioned being structural parts of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines; machines and mechanical apparatus for adjustment, for inking apparatus and damping units and printer engine cylinders and for lacquering units in printer engines and in lacquering units and for inkjet printing modules and laser systems, all of the aforementioned being parts of printing machines; machines parts, namely, parts for inking apparatus for printing machines, and damping units and inkjet printing modules and laser systems and cylinders in tempering machines, included in this class; machines and mechanical apparatus for adjusting cutting equipment and cutting cylinders being structural parts of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines

for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines; machines and mechanical apparatus for adjusting registers and register marks being structural parts of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines for industrial use, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines; mechanical control machines and apparatus for quality control being structural parts of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, marking being engraving machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines for industrial use, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials in the nature of printing machines; machines and mechanical apparatus for adjusting web tension settings being structural parts of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking being engraving machines and apparatus in the nature

of laser machines for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines for industrial use, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines; fuel filters being parts of machines or engines; dust separators; dust removal and dust separation machines and chambers equipped therewith; filters for cleaning cooling air, for engines; blowing engines being blowing machines for the compression, exhaustion and transport of gases; fibre separators being machines for separating target materials from mixtures of materials; air compressors and air ejectors being fans for machine engines; collecting machines comprised of machine tools for compacting, filling and pressing of waste being particles, dust and fibres separated from machines; air conveying devices, namely, air conditioning compressors; blowing machines being power-operated blowers for motors and engines; air compressors; accessories being machine parts included in this class, for the aforesaid printing machines, , namely, for offset printing machines, rotary web printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, laser marking being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines for industrial use, labellers being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines, material handling machines in the nature of palletizers being pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal being metal forming machines, foodstuff distribution machines being packaging machines for food, machines and apparatus for the surface treatment of metals being metal forming machines, hot stamping machines and apparatus being automatic stamping machines, thermal transfer machines and apparatus being machines in the nature of heat transfer presses; fittings, included in this class, being structural parts in the nature of filters for filtering machines, dust separators, dust removal and dust separation machines and chambers equipped therewith, air filters for cleaning cooling air for engines, blowing machines being power-operated blowers, fibre separators being collecting machines comprised of machine tools for compacting, filling and pressing machine-separated waste being particles, dust and fibres, air compressors and air ejectors being engine fans for machines, collecting machines comprised of machine tools for compacting, filling and pressing machine-separated particles, dust and fibres; electronic label printing machines for commercial use, namely, machines and mechanical apparatus for producing security labels, securities, banknotes and/or components therefor; automatic industrial labeling machines for applying labels to containers, namely, machines and mechanical apparatus for applying security labels and/or components therefor; packaging machines, namely, machines and mechanical apparatus for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; structural parts for the aforesaid goods and accessories being structural parts for the aforesaid goods, included in this class

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Air conditioning, heating, refrigerating, ventilating, humidifying and dehumidifying installations and apparatus, namely, air-conditioning units; air handling installations being air handlers; air delivery devices for air-conditioning, namely, heat recovery ventilators; air repeaters being air heaters; air coolers being air cooling apparatus; filters for air conditioning; nozzle chambers for humidifying, namely, air humidifiers; ventilating installations and apparatus for air conditioning, namely, ventilating exhaust fans; air conditioning, heating, refrigerating, ventilating, humidifying and dehumidifying installations and apparatus, namely, air-conditioning apparatus and structural parts therefor, in particular for spaces, buildings, trains, ships and vehicles; heat recovery ventilators, air heaters, air cooling apparatus and filters for air conditioning, included in this class; clean chambers for humidifying and washing out air; spray nozzles being structural parts of air conditioning installations, air-flow control valves and shut-off valves being structural parts for air-conditioning installations; individual air treatment systems comprised of ionization apparatus for the treatment of air, air ducts being fabric air dispersion ducts for distributing and dispensing air as part of a HVAC system, air outlets being ventilating exhaust fans, nozzles being jet nozzles for bathtubs, induction devices being induction water heaters and fan coil units being fans for HVAC units for heating and cooling spaces, room cooling devices with ventilators being air-conditioning units; air outlets and inlets being structural parts for ventilating installations, including in combination with fume cupboards; facade air-conditioning modules being air-conditioning units for decentral heating, cooling, fresh-air supplying, air recirculating and ventilating, for spaces and buildings;
air conditioning filters for process air technology, for filtering dust, fibres, chips, granules and paper; drying ovens not for laboratory use; desiccating apparatus being desiccating units for producing dried fruits; heat accumulators; heat exchangers not being parts of machines and structural parts therefor included in this class, containing active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations; thermal energy accumulators being heat accumulators; solar thermal collectors for heating; solar modules for heat generation, namely, solar collectors for heating; regulating and safety accessories for gas apparatus included in this class, namely, flashback arrectors and reverse flow check valves; structural parts of the aforesaid goods, included in this class

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Installation, maintenance and repair of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor;

installation, maintenance and repair of installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; installation, maintenance and repair of air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, namely, fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of machines for producing security labels, securities, banknotes; installation, maintenance and repair of machines for applying security labels; installation, maintenance and repair of machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; installation, maintenance and repair, included in this class, of pre-printing data processing equipment, parts or fittings for pre-printing data processing equipment, data processing equipment for data preparation, including continuous data preparation, variable data printing, including database printing, further processing of printed matter, production controls, parts and fittings for interfaces and/or parts or fittings for data transfer for devices for transport and/or storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controls, being parts or fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials,

namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, being parts or accessories for installations, equipment, apparatus, filters, separators, suction and conveying devices for the air-technology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, blowers and fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, being parts or accessories for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, being parts or accessories for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controls, being parts or accessories for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controls, being parts or accessories for machines for applying product security means, identification features, security features, security labels and/or components therefor; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controls, being parts or accessories for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines,

machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components therefor; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts of and/or for product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for ink levers, ink rollers, damping rollers, register adjusting devices, devices for storing and/or adjusting rollers in inking apparatus or damping units and/or cylinders, devices for cleaning rollers in inking apparatus or damping units and/or cylinders, and/or inkjet print heads and/or laser systems, for cutting equipment and/or cutting cylinders, registers and/or register marks, web tension settings, being parts or fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or

regulating apparatus and equipment for devices for the changing and/or transporting and/or storage of printing plates, for inking apparatus and/or damping units and/or printer engine cylinders in printer engines, and/or for devices for tempering, for inking apparatus and/or damping units and/or cylinders in printer engines; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for installations, equipment, apparatus, filters, separators, suction and conveying devices for the air-technology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, blowers and fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for machines for applying product security means, identification features, security features, security labels and/or components therefor; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; machinery installation, maintenance and repair; rebuilding machines that have been worn or partially destroyed; installation of machines in the context of commissioning being the installation of machines; maintenance of machines in the context of commissioningbeing the installation of machines; cleaning of machines; cleaning of buildings; vehicle cleaning;

installation and maintenance of apparatus for the payment of goods and/or services and/or bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or near field communication (NFC) apparatus, including in particular with return of change; installation and maintenance of money-dispensing apparatus; installation and maintenance of money-receiving apparatus; installation and maintenance of money-dispensing and money-receiving apparatus; installation and maintenance of vending machines; installation and maintenance of accessories for the aforesaid apparatus, in particular cash boxes for receiving payment means, in particular banknotes and/or coins and/or tokens of value; installation, maintenance and repair of voice command devices for printing apparatus, offset printing machines, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, ink-jet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, machines for packing, coating machines, the aforesaid goods in particular rotary machines for web-type and separated materials, digital printing and marking machines based on electrophotography, magnetography, xerography, inkjet, exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates, numbering, coding, imprinting and marking machines, in particular for the graphics sector, for the packaging sector and for data processing, labeling machines, engraving machines; all of the foregoing excluding computer software

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electronic checking in the nature of supervision, controlling, displaying and measuring apparatus, namely, plasma display panels, and recorded consultancy software for word processing, recorded sales software for tracking and analyzing retail sales data, and downloadable software for operating and controlling printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electronic checking in the nature of supervision, controlling, displaying and measuring apparatus, , namely, computers, and recorded consultancy software for wireless transmission of images and data, recorded sales software for spreadsheet creation and management, and downloadable software for database management in the field of installations, equipment, apparatus, filters, separators, extraction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for

machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; electronic checking in the nature of supervision, controlling, displaying and measuring apparatus, , namely, wireless routers, and recorded consultancy software for creating spreadsheets, recorded sales software for electronic payment processing and verification, and downloadable software for creating searchable databases of information in the field of ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; electronic checking in the nature of supervision, controlling, displaying and measuring apparatus, , namely, recorded consultancy software, recorded sales software, and downloadable software, for controlling and operating drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electronic checking in the nature of supervision, controlling, displaying and measuring apparatus for producing product security means, authentication features, security features, security labels, securities, banknotes and/or components therefor, namely, recorded consultancy software, recorded sales software, and downloadable software, for checking the authenticity of banknotes for security purposes; electronic checking in the nature of supervision, controlling, displaying and measuring apparatus for applying product security means, authentication features, security features, security labels and/or components therefor, , namely, recorded consultancy software, recorded sales software, and downloadable software, included in this class, for generating, printing, and verifying security labels and barcodes; electronic checking in the nature of supervision, controlling, displaying and measuring apparatus, in the nature of data processing equipment and computers and recorded consultancy software, recorded sales software, and downloadble software, for creating, encoding, and printing security labels, for packaging product security means, authentication features, security features, security labels, securities, banknotes and/or components therefor; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, in the nature of data processing equipment and computers and recorded consultancy software, recorded sales software, and downloadble software, for creating, encoding, and printing security labels for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; electronic regulating apparatus, electronic control apparatus, monitoring apparatus, electronic quality control apparatus, electronic production control apparatus, temperature monitoring apparatus, in the nature of data processing equipment and computers and recorded consultancy software, recorded sales software, and downloadble software, for creating, encoding, and printing security labels for installations, equipment, apparatus, filters, separators, suction and conveying devices

for the air-technology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; electronic regulating apparatus, electronic control apparatus, monitoring apparatus, electronic quality control apparatus, electronic production control apparatus, temperature monitoring apparatus, in the nature of data processing equipment and computers and recorded consultancy software, recorded sales software, and downloadble software, for creating, encoding, and printing security labels for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electronic regulating apparatus, electronic control apparatus, monitoring apparatus, electronic quality control apparatus, electronic production control apparatus, temperature monitoring apparatus, in the nature of data processing equipment and computers and recorded consultancy software, recorded sales software, and downloadble software, for creating, encoding, and printing security labels for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electronic regulating apparatus, electronic control apparatus, monitoring apparatus, electronic quality control apparatus, electronic production control apparatus, temperature monitoring apparatus, web tension controls, in the nature of data processing equipment and computers and recorded consultancy software, recorded sales software, and downloadble software, for creating, encoding, and printing security labels for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; electronic regulating apparatus, electronic control apparatus, monitoring apparatus, electronic quality control apparatus, electronic production control apparatus, temperature monitoring apparatus, web tension controls, in the nature of data processing equipment and computers and recorded consultancy software, recorded sales software, and downloadble software, for creating, encoding, and printing security labels for machines for applying product security means, identification features, security features, security labels and/or components therefor; electronic regulating apparatus, electronic control apparatus, monitoring apparatus, electronic quality control apparatus, electronic production control apparatus, temperature monitoring apparatus, web tension controls, in the nature of data processing equipment and computers and recorded consultancy software, recorded sales software, and downloadble software, for creating, encoding, and printing security labels for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment being calibration, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines

and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment being calibration, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment being calibration, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment being calibration, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment being calibration, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment being calibration, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment being calibration, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor;
recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for

subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components therefor; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal,

printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software, recorded sales software, and recorded software for the remote control, remote operation, remote monitoring, control and/or regulating of devices for the changing and transporting and storage of printing plates; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for cleaning rollers in inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for storing and adjusting rollers in inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for the remote control, remote operation, remote monitoring, control and regulating of inking apparatus and/or damping units and/or printer engine cylinders in printer engines; recorded consultancy software, recorded sales software, and recorded software for the remote control, remote operation, remote monitoring, control and regulation of devices for tempering of inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printer engines; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating cutting equipment and/or cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing

machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials;
recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for remote control, remote operation, remote monitoring, control and regulation for the purposes of quality control in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for remote control, remote operation, remote monitoring, control and regulating, for quality control in installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; recorded consultancy software, recorded sales software, and recorded software for remote control, remote operation, remote monitoring, control and regulating, for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software, recorded sales software, and recorded software for remote control, remote operation, remote monitoring, control and regulating, for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with

catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for data processing for devices for pre-press, for the printing of printed matter, for the further processing of printed matter, for production control, and for production planning; recorded consultancy software, recorded sales software, and recorded software for data processing for printing machines, for the printing of printed matter, for the further processing of printed matter, for production control, and for production planning; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties,

heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with machines for applying product security means, identification features, security features, security labels and/or components therefor; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printed material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded software for remotely controlling the transport, packaging and storage of remote controls, remote operators, remote monitoring apparatus, controllers and regulators for devices for the transport, packaging and storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; RFID (radio frequency identification) systems comprised of radio frequency identification tag readers and tags; encoded electronic identification chips and cards for identifying particular users of computers; apparatus for the payment of

goods and/or services and/or bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or (NFC) near field communication) apparatus, including in particular with return of change, namely, near field communication (NFC) technology-enabled readers; automated teller machines (ATM); money-receiving apparatus, namely, coin counting or sorting machines; money-dispensing and -receiving apparatus, namely, automated teller machines (ATM); fittings for the aforesaid apparatus, included in this class, in particular cartridges for collecting payment means, in particular bank notes and/or coins and/or tokens of value, namely, mechanisms for coin-operated apparatus; electric apparatus, namely, data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; data processing equipment for personalising recording media; machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs, namely, blank digital storage media, machine-readable; cards having an integrated circuit being chip cards, in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals, namely, blank electronic chip cards; coded telecommunication cards being encoded electronic chip cards for identifying particular users of telephones; coded and uncoded digital recording media with contactless interfaces, namely, blank digital storage media, machine-readable; integrated circuits with characteristic physical properties for protection against forgery; memories for data processing installations, in particular non-volatile memories (digital storage media); digital recording media containing memories, in particular non-volatile memories, namely, blank digital storage media, machine-readable; electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation, namely, data processing apparatus; downloadable software for data processing for computer network applications, in particular for internet, intranet and extranet applications; downloadable data processing software, in particular for telecommunications with chip card-activated mobile telephones and in particular for associated chip cards and mobile telephones, and downloadable computer programs for activating, modifying, testing and displaying data and software structures stored in these telecommunications cards; downloadable software for the encryption and decryption and the signing of data; downloadable operating system software and downloadable application software for data processing for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media; downloadable computer programs for the development, management and maintenance of all the aforesaid types of software; digital recording media featuring the aforesaid software, namely, data processing software, recorded on computer media; electronically/optically stored pre-recorded advertising and communications media, included in this class, in particular films, videos, included in this class, namely, DVDs featuring instruction on printing machines; electronic checking in the nature of supervision, control, display and measuring apparatus, in the nature of data processing apparatus, and recorded consultancy software, recorded sales software, and downloadable software, included in this class, for voice control of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, in particular with rotational

operation for web-form and isolated materials, digital printing and marking machines on the basis of electrophotography, magnetography, xerography, inkjet, exposure apparatus, being parts of printing machines for contact printing or creating circuit and print templates, numbering, coding, imprinting, and marking machines, in particular for the graphics sector and the data processing sector, labelling machines, engraving machines; downloadable artificial intelligence and machine learning software for operating printing machines; downloadable data management software; downloadablesimulation software featuring instruction in operating printing machines for use in digital computers; interactive electronic databases in the field of printing machine operation, recorded on computer media; downloadable software for the integration of artificial intelligence and machine learning in the field of big data; downloadable artificial intelligence software for machine learning; interactive software based on artificial intelligence, namely, downloadable computer software using artificial intelligence for facial and speech recognition; downloadable artificial intelligence software for analysis of printing errors and causes; downloadable artificial intelligence software for operatings video cameras for surveillance; computer software platforms, recorded or downloadable, for application development; internet platform for electronic commerce, namely, downloadable computer software platforms for web hosting; downloadable software for data processing for the graphics industry; downloadable software platform for database management for the internet; downloadable software for providing internet-based access to applications and services; internet platform for electronic commerce, namely, downloadable computer software platforms for web hosting; downloadable management information system (MIS) software for database management; downloadable data conversion software; interfaces for computers; downloadable software for operating, controlling, and monitoring video camera equipment for the graphics industry; personal digital assistants; wireless communication devices featuring voice, data and image transmission; downloadable computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, graphics, images, audio, video, and multimedia content, and electronic publications; downloadable operating software, downloadable computer software for data synchronization, downloadable application development software; downloadable computer software for personal information management; downloadable computer software for database management; downloadable computer programs for accessing, browsing and searching online databases; downloadable web browser software for mobile communications devices; downloadable computer software to enhance mobile access to the internet via computers, mobile computers, and mobile communications devices; downloadable computer software for transmitting, sharing, receiving, downloading, streaming, displaying and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works via portable electronic devices and computers and global computer and communications networks; inkjet color printers for documents, in particular with one or more inkjets, single-colour or multi-colour inkjet color printers for documents; coding machines being electronic coding units, for use in the graphics sector, packaging sector, and data processing sector; mechanical remote checking and inspecting apparatus and instruments for quality control of machines for producing security labels, securities, banknotes, and/or components therefor, namely, data processing apparatus; mechanical remote checking and inspecting apparatus and instruments for quality control of machines for applying security labels, and/or components therefor, namely, data processing apparatus; mechanical remote checking and inspecting apparatus and instruments for quality control of machines for packaging product security apparatus with identification features, security features, security labels, security apparatus, banknotes and/or components therefor, namely, data processing apparatus; mechanical remote checking and inspecting apparatus and instruments for quality control of security labels, security apparatus, banknotes, and/or components therefor, namely, data processing apparatus; voice

command devices being home automation hubs comprised of voice-activated speakers, computer hardware, and downloadable software for use in operating printing machines, offset printers, web-fed rotary printing machines, sheet fed rotary printing machines, silk-screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, ink jet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, machines for packing, coating machines, the aforesaid goods in particular rotary machines for web-type and separated materials, digital printing and marking machines based on electrophotography, magnetography, xerography, inkjet, exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates, numbering, coding, imprinting and marking machines, in particular for the graphics sector, for the packaging sector and for data processing, labellers being machines, engraving machines; structural parts for the aforesaid goods and accessories for the aforesaid goods, included in this class

For (Based on 44(e)Forestry and forest products, namely, wood pulp and wood pulp in bulk sheets for manufacturing purposes, northern; bleach softwood kraft pulp and northern bleach hardwood kraft pulp for manufacturing purposes; soils, namely, potting soils, planting soils, chemical soil conditioners, soil additives, horticultural potting mixtures, compost, growing media for plants, fertilizers and plant food; rock salt for deicing; deicing preparations for use on driveways, walkways, steps and any frequently travelled area for residential, industrial and commercial applications

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For (Based on 44(e)Supply chain management services; operation of an eco-tourism center, nature park, and a natural environmental discovery park; association services, namely, promoting the interests of the forest, paper and wood products industry, and promoting public awareness of environmental issues and initiatives in the forest, paper and wood products industry; inventory control services; freight custom clearance services; cost analyses, namely, performing landed cost calculations for freight; tracking services for the movement of cargo and freight for business purposes; freight logistics management, namely, system design, organizing and arranging for the transportation of goods for others; logistics management, namely, managing logistics in relation to the transportation of goods for others; transportation management, namely, arranging, booking, planning, scheduling and managing the transportation of freight and goods for others; freight logistics management, namely, dispatching of domestic and international freight and transportation for others; transportation and logistics management services, namely, managing the transportation of goods for others, namely, domestic and international freight and transportation brokering; supply chain services, namely, providing services for others relating to third party supply chain matters, namely, warehouse storage, transportation and distribution of third party goods by rail, truck and water; tracking of freight for others, namely, providing electronic tracking of freight information to others for business administration purposes; providing information on logistics management; providing information on freight shipping rates; providing rate comparison services in the field of logistics and transportation; providing accounts receivable information in the fields of logistics and transportation; business auditing of shipments, freight, payment and documentation for others; reseller services, namely, distributorship services in the field of transportation services; transportation logistics services, namely, arranging the transportation of goods for others including, management of crew shifts; business management and operation assistance to ship owners and operators including acting on behalf of others to provide for all aspects of the operation, maintenance and clearance of a ship into and out of a port, provision of crews for ships, and the provision of consulting services in respect of the aforementioned services; port management services, namely, business operation of port facilities for others; estimating contracting work in the field of pipe construction projects; logistics management in the field of air, rail, shipping and trucking, including monitoring and managing industrial production equipment and supplies, including monitoring, scheduling and implementing equipment maintenance, repair and overhaul, maintaining spare parts and supplies inventories, and transportation and warehousing services in support of the foregoing providing customized industrial management assistance and reporting systems to assist in monitoring and managing quality and sufficiency of industrial

production equipment and supplies; supply chain logistics and reverse logistics services, namely, storage, transportation and delivery of goods and materials for others by air, rail, ship or truck; operation of a business for others dealing in the sale of component homes, modular homes, industrial buildings, industrial trailers, mini homes, and cabinets; operation of outlets providing for the retail and wholesale supply of hardware, household and building materials; advertising and promoting the hardware, household and building materials of others through the distribution of newsletters and in store and online displays; providing consumer product information via printed publications, newsletters and websites on hardware, household and building materials that can save energy in the home and related information; conducting contest programs to promote the sale of absorbent consumer paper products of others; providing incentive award programs for customers through the issuance and processing of loyalty coupons for frequent use of a line of absorbent consumer paper products; providing consumer product information relating to hardware, household and building materials that can save energy in the home and related information; business operation of power generation equipment and facilities for others; business consultation in the field of commercialization of new technology; operation of a website to provide information in the area of forest management, research and habitat conservation; operation of a business selling and distributing various business and industrial goods including men's and ladies' uniforms, safety footwear, gloves, rain wear, dry goods, cresting and embroidery, safety products including first aid supplies, fire equipment, disposable clothing and protection equipment, office supplies and furnishings including office furniture, stationery, printed forms and drafting supplies, micrographics work including type setting and offset printing, engineering printing, photocopying, industrial supplies including cleaning and maintenance supplies, paper products, industrial abrasives and tooling, paints and coatings, and steel strapping and supplies, food, meat and other provisions to woodland and other industrial operations, and bonded storage; reforestation services, namely, forestry management and forestry management consulting services; promoting the sale of third party wares made in Atlantic Canada through promotional contests, the distribution of coupons, through in-store consumer programs, and though online consumer programs and contests; logistics management in the field of military, ship, vessel, platform and plant equipment and their systems, namely, repair and overhaul requirements, customized management and reporting systems, spares, namely, the replacement of parts or components for military, ship, vessel, platform and plant equipment, inventory and maintenance support

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For (Based on 44(e)Ship building and industrial fabrication, namely, building and repair of marine vessels and off-shore structures; the rental of industrial and construction equipment, namely, the rental of trucks, truck-tractors, dump trucks, trailers, floats, cranes, backhoes, welders, heavy construction equipment, industrial cleaning equipment, jacks, and equipment ancillary to the above; inspection, repair and installation of cranes, namely, chain fall and chain hoist cranes and their parts, namely, slings, hooks, spreader beams and lifting beams; repair of weigh scales for others; installation and construction of windows, doors, kitchens, bathroom and building improvements and repairs; construction of concrete commercial and industrial foundations; excavation services; explosive blasting operations, namely, blast hole drilling and blasting for use in construction and mining extraction; providing installation and maintenance services to wind farm operators; industrial cleaning services, namely, the cleaning of industrial premises, equipment, and machines; naval construction and repair; maintenance, repair, construction and conversion of ships and vessels; installation of pipe spools and associate piping components; installation of modular units

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For (Based on 44(e)Downloadable electronic publications, namely, manuals, interactive electronic technical manuals (IETMs), booklets, brochures, and pamphlets featuring forest management and reforestation, marine manufacturing and environmental initiatives associated with ships, vessels, platforms, plants and their systems; pre-recorded videotapes, DVDs, compact discs, downloadable mobile applications, downloadable electronic books to children on arts and crafts projects all featuring information in the field of reforestation, environmental initiatives and the role of well managed forests, forest certification and recycled paper

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For (Based on 44(e)Private security services, namely, security guard services

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For (Based on 44(e)Conducting sightseeing tours for others, namely, nature tours; cargo ship and freight transportation by rail and ground; cargo ship and freight transportation by boat, off shore supply vessels, tugs and barges, truck and rail; warehouse storage services; freight services, namely, freight handling services, freight forwarding services, freight distribution, freight routing, freight classification; domestic and international freight and transportation brokering; providing information on transportation; warehousing services; packaging of goods for transportation; storage of cargo and freight goods before and after transportation by boat, truck and rail; cargo handling and unloading services; cargo container rental services; moving and storage of goods, namely, tug and barge project cargo and goods movement; harbor berthing services; consulting services in the field of domestic and international freight and transportation; naval shipyard services, namely, offshore supply vessels, including transportation of good and crews, anchor handing services, and supply base services, including the operation of a warehouse and storage facility on land of supplies necessary to service offshore oil and gas exploration and production; port services, namely, ship bunkering services, ship unloading services, providing vessel mooring facilities and mooring services, marine towing, distribution and supply of water; maintenance and repair of port equipment and structures; charter of marine and river vessels; import, export, and domestic cargo handling services; warehousing services; harbor crane unloading services, namely, chain fall and chain hoist crane unloading services; dry dock services

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For (Based on 44(e)Reforestation services in the nature of planting trees; providing information in the field of reforestation and other environmental initiatives in the forest, paper, wood products industry; Providing a website offering information about reforestation programs and other environmental initiatives and the role of well managed forests, forest certification, and recycled paper in the nature of tree planting for habitat restoration and sustainability purposes

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For (Based on 44(e)Machine shop services, namely, machining parts for others; custom metal fabrication services for others; manufacturing services for others in the fields of personal care and absorbent consumer paper products, namely, diapers, training pants, baby wipes, baby changing pads, adult incontinence products, namely, disposable incontinence undergarments, briefs, protective underwear, absorbent shields and pads, feminine hygiene products, namely, sanitary napkins, panty liners and tampons, and personal care wipes; demolition services, not buildings; digital and specialty printing, namely, printing of signs, banners and posters, fleet graphics and decals; custom pipe piece fabrication; custom fabrication of components for modular units, and assembly of modular units

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For (Based on 44(e)Non-downloadable electronic publications, namely, manuals, interactive electronic technical manuals (IETMs), booklets, brochures, and pamphlets featuring ships, vessels, platforms, plants and their systems; educational services, namely, providing online instructions to children on arts and crafts projects, online games and online puzzles, all featuring information in the field of reforestation, environmental initiatives and the role of well managed forests, forest certification and recycled paper; providing on-line publications, namely, magazines, brochures and newsletters in the field of reforestation, environmental initiatives and the role of well managed forests, forest certification and recycled paper; Providing sports and athletic facilities for cross- country skiing, hiking, and jogging trails; educational services, namely, conducting science and nature seminars; educational training services in the field of engineering; training in the fields of ships, vessels, platforms, plants, and their systems and the application of related International standards and regulations; educational services, namely, providing ongoing television public service announcements in the field of forest management, research and habitat conservation; continuing public service programs in the field of forest management, research and habitat conservation produced and distributed over television, satellite, film, audio, video, internet, and 3-D virtual reality media; videotaping; news syndication reporting; providing news in the nature of current event reporting; providing a website featuring blogs including videos, images and text about reforestation programs and other environmental initiatives and the role of well managed forests, forest certification, and recycled paper; providing educational services information about institutions offering elementary, secondary and higher education; conducting contests to win educational funds and educational resource

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For (Based on 44(e)Saw dust and wood shavings for use in the manufacturing of wood pellets and pet bedding

International Classes 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

For (Based on 44(e)Wood pellets for use as fuel

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For (Based on 44(e)Agricultural services, namely, soil and plant tissue sampling and crop observing for analysis purposes; design for others of marine vessels and off-shore structures; engineering; design and development for others in the field mechanical and marine engineering, design drafting services; conducting technical investigations and engineering studies concerning mechanical systems; engineering and engineering consulting services, namely, ship, vessel, platform, and plant engineering, mechanical engineering, hull and marine engineering, electrical and electronic engineering, concept and design engineering, design drafting, design integration services, technical investigation and engineering studies and surveys,

specification and feasibility studies, and test and trial programs; non-destructive inspection and testing of liquid penetrate visible and ultraviolet, magnetic particle visible and ultraviolet, ultrasonic flaw detection and thickness, and radiography gamma and X-ray; testing, analysis and evaluation of materials, both in-house and on site, namely, metal; calibration services, namely, the making of adjustments to equipment that ensures weight, volume, dimension, thickness, flows of fluids, vibration levels and force to ensure the measurements are accurate; surveying services in the field of pre-engineering, civil, mechanical, piping, drafting and shipbuilding; weigh scale services, namely, truck weighing services for others, and the calibration services; evaluating and testing the environmental qualities and impact of consumer products of others; design of windows, doors, kitchens, bathroom and building improvements and repairs; forest product research and development; technology research and development, namely, oceanography research and development, marine science research and development, naval research and development, and ship building and ship maintenance research and development; design for others of crane lifts

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For (Based on 44(e)Metal pipe spools and steel; transportable buildings of metal, modular metallic buildings and metal shelter structures and complexes, namely, offices, showrooms, sales offices, first aid stations, storage facilities, offices, camps for construction projects, workforce housing, lunchrooms, canteens, locker rooms, clubhouses, guardhouses, kiosks, booths, laboratories, daycares, classrooms, schools, seniors' and group homes, multi-family homes, hotels, motels, resort complexes, medical clinics; metal farm storage tanks; marine and industrial metal castings in the rough; metal bollards; structural roof products, namely, metal roof trusses, beams; portable metal, pre-fabricated metal architectural columns, metal posts, metal open joists, metal wood connectors and engineered metal floor joists and metal wall panels; industrial buildings and mini homes

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

ORI BIOTECH

CASE IDENTIFIERS

Serial Number 90732565 **Application Filing Date** May 25, 2021 **Registration Number** 7198498 **Registration Date** Oct. 24, 2023 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Aug. 08, 2023

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK **Disclaimer** "BIOTECH"

FOREIGN INFORMATION

Priority Claimed Yes **Foreign Application Number** UK00003644135 **Foreign Application Filing Date** May 19, 2021 **Foreign Registration Number** UK00003644135 **Foreign Registration Date** Nov. 05, 2021 **Foreign Application/ Registration County** UNITED KINGDOM **Foreign Expiration Date** May 19, 2031

GOODS AND SERVICES INFORMATION

For Chemical preparations, biochemical preparations and biological preparations for use in cell culturing, cell therapy and gene therapy; cell growth media for cell culturing for medical and clinical use, cell therapy and gene therapy

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Industrial incubators for cell culturing, cell therapy and gene therapy for medical use; industrial incubators for maintaining cell cultures for medical use; incubators for cell culturing, cell therapy and gene therapy for medical use; incubators for maintaining cell cultures for medical use

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Machine tools and power-operated tools, namely, electric and gas operated tube welders for use in the field of cell culturing, cell therapy and gene therapy; industrial machines and manufacturing equipment comprised of dispensation devices in the nature of devices for transferring matter into the bioreactor, namely, fluid dispensing machines for industrial use in the fields of cell culturing, cell therapy and gene therapy; industrial machines and manufacturing equipment comprised of cell harvesting devices in the nature of filtering machines and centrifuges for harvesting cells in the fields of cell culturing, cell therapy and gene therapy; industrial machines and manufacturing equipment comprised of cell selection devices, in the nature of a device for selecting and separating cells via magnetic separation and centrifugal separators in the fields of cell culturing, cell therapy and gene therapy; industrial machines and manufacturing equipment, comprised of machines for separating target materials from mixtures of materials in the fields of cell culturing, cell therapy and gene therapy; industrial machines and

manufacturing equipment comprised of separating machines for chemical processing in the fields of cell culturing, cell therapy and gene therapy; industrial machines and manufacturing equipment comprised of media filling devices in the nature of injectors being parts of machines in the fields of cell culturing, cell therapy and gene therapy; industrial machines and manufacturing equipment comprised of cell filling devices in the nature of centrifugal pumps in the fields of cell culturing, cell therapy and gene therapy; industrial machines and manufacturing equipment comprised of agitation devices in the nature of agitators for circulating liquid media and centrifuges in the fields of cell culturing, cell therapy and gene therapy; replacement and structural parts and fittings for all the aforesaid; bellows, bags, vessels, bottles and containers for storing, containing, dispensing and extracting fluids, stem cells, cell cultures and cell culturing media being parts of industrial machines and manufacturing equipment; cassettes being parts of industrial bioreactors; disposable cassettes being parts of industrial bioreactors; replacement parts, including disposable replacement parts, for industrial manufacturing equipment in the fields of cell culturing, cell therapy and gene therapy, namely bioreactors for use in manufacturing biopharmaceuticals and custom medicine; connectors, namely, plastic pipe connectors being parts of industrial manufacturing apparatus in the fields of cell culturing, cell therapy and gene therapy; sterile connectors, namely, needle based connectors made of plastic being parts of industrial manufacturing apparatus in the fields of cell culturing, cell therapy and gene therapy; machines for adding and removing fluids to and from industrial manufacturing equipment for cell and gene therapies

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Racking for holding cell culturing, cell therapy and gene therapy manufacturing equipment; racking for bioreactors

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Chemical, biological preparations and biochemical preparations for industrial and scientific purposes, other than for medical purposes; chemical preparations and reagents for industrial and scientific purposes, other than for medical purposes; cell culture media for scientific use; biological tissue, namely, cultures, human tissue, animal tissue and cell cultures for industrial and scientific purposes; chemicals, biochemical and biological preparations for use in cell culturing for scientific and research use; cell growth media for cell culturing for scientific research use

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Installation, repair, maintenance and cleaning of scientific apparatus and equipment used for cell culturing, cell therapy and gene therapy; installation, repair, maintenance and cleaning of industrial machines and manufacturing equipment for cell culturing, cell therapy and gene therapy; installation, repair, maintenance and cleaning of bioreactors, filing machines for bioreactors, racking for bioreactors, bags for bioreactors, bellows for bioreactors, vessels for bioreactors, bottles and containers for bioreactors, incubators, cell culture hoods, bio-safety cabinets and water baths for laboratory use

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For downloadable computer software and downloadable application software for controlling, monitoring, programming, communicating with, operating and adjusting apparatus and equipment for cell culturing, cell therapy and gene therapy; downloadable computer software and downloadable application software for controlling, monitoring, programming and adjusting devices that control environmental conditions in a cell culturing container or bioreactor used for cell culturing, cell therapy and gene therapy; downloadable computer software and downloadable application software for logging, storing, and

collecting data, in the fields of cell culturing, cell therapy and gene therapy; downloadable computer software and downloadable application software for monitoring patient health; downloadable computer software and downloadable application software for providing information on cell culturing, cell therapy and gene therapy; downloadable databases in the fields of cell culturing, cell therapy and gene therapy; computer hardware specifically adapted for use in the fields of cell culturing, cell therapy and gene therapy; electrical equipment for cell culturing, cell therapy and gene therapy, namely, cell culture chambers for the culturing and genetic modification of cells for research and commercial purposes; electrical equipment for cell culturing, cell therapy and gene therapy, namely, bioreactors, for the culturing and genetic modification of cells for research and commercial purposes; disposable structural and replacement parts for bioreactors; disposable scientific apparatus and instruments for cell culturing, cell therapy and gene therapy; sterile connectors, namely, needle based connectors made of plastic being parts of scientific apparatus for cell culture, cell therapy and gene therapy; bellows being parts of scientific apparatus and equipment for storing, dispensing or extracting fluids, stem cells, cell cultures and cell culture media to and from scientific apparatus and equipment; bellows being parts of scientific apparatus and equipment for storing, dispensing and extracting fluids, stem cells, cell cultures and cell culture media to and from scientific apparatus and equipment for cell culturing, cell therapy and gene therapy; bags being parts of scientific apparatus and equipment for storing, dispensing and extracting fluids, stem cells, cell cultures and cell culture media to and from scientific apparatus and equipment; bags being parts of scientific apparatus and equipment for storing, dispensing and extracting fluids, stem cells, cell cultures and cell culture media to and from scientific apparatus and equipment for cell culturing, cell therapy and gene therapy; flexible containers being parts of scientific apparatus and equipment for storing, dispensing and extracting fluids, stem cells, cell cultures and cell culture media to and from scientific apparatus and equipment; flexible containers being parts of scientific apparatus and equipment for storing, dispensing and extracting fluids, stem cells, cell cultures and cell culture media to and from scientific apparatus and equipment for cell culturing, cell therapy and gene therapy; compressible containers being parts of scientific apparatus and equipment for storing, dispensing and extracting fluids, stem cells, cell cultures and cell culture media to and from scientific apparatus and equipment; compressible containers being parts of scientific apparatus and equipment for storing, dispensing and extracting fluids, stem cells, cell cultures and cell culture media to and from scientific apparatus and equipment for cell culturing, cell therapy and gene therapy; vessels, bottles and containers being scientific equipment for storing, dispensing and extracting fluids, stem cells, cell cultures and cell culture media to and from scientific apparatus and equipment; vessels, bottles and containers being scientific equipment for storing, dispensing and extracting fluids, stem cells, cell cultures and cell culture media to and from scientific apparatus and equipment for cell culturing, cell therapy and gene therapy; incubators for cell culturing for laboratory use; incubators for maintaining cell cultures for laboratory use; bioreactor accessories for laboratory use, namely, bioreactor arrays, multiplexed bioreactor systems for cell culturing and aseptic filing and sealing machines for bioreactors; bioreactors for cell culturing; bioreactors for cell and gene therapy for laboratory use; scientific apparatus and instruments, namely, cell culturing hood, biological safety cabinets, water baths, and cell culture vessels for cell culturing, cell therapy and gene therapy; disposable bioreactors for cell culturing; scientific equipment for filling bioreactors, namely, bellows made out of thermoplastic elastomers, rubber, and plastic; incubators for growing cell cultures; structural and replacement parts and fittings for the aforementioned laboratory equipment, electrical equipment and scientific apparatus for use in the field of cell culture, cell therapy and gene therapy

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Custom manufacturing of cell culturing, cell therapy and gene therapy apparatus and equipment for others; custom manufacture of cell culturing, cell therapy and gene therapy apparatus and equipment for others, namely, bioreactors, filing machines for bioreactors, bags, bellows, vessels, bottles and containers, incubators, cell culture hood, bio-safety cabinets and water baths; custom manufacturing of industrial cell culturing, cell therapy and gene therapy; manufacturing equipment for others manufacturing services, namely, the manufacturing of cellular products based on human and animal cells in the nature of stem cells for medical purposes for others in the field of cell culturing, cell therapy and gene therapy; custom manufacture of therapeutic drugs, medicines, cell therapy products and gene therapy products for others; custom manufacture of cell culture products for others; custom manufacture of artificial meat and meat substitutes for others; rental and leasing of cell culture, cell therapy and gene therapy manufacturing apparatus

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Flexible pipes, tubes and hoses, not of metal; plastic connectors for pipes, tubes and hoses; connectors of plastic, namely, plastic pipe connectors; sterile connectors of plastic, namely, plastic pipe connectors; plastic connectors and couplings for use with pipes, hosing, tubing used in apparatus for bioprocessing products and for use in cell culturing, cell therapy and gene therapy processing; packing and insulating materials; structural and replacements parts and fittings for flexible pipes, tubes and hoses, not of metal; structural and replacement parts and fittings for plastic connectors for pipes, tubes and hoses; structural and replacement parts and fittings for plastic pipe connectors; structural and replacement parts and fittings for sterile connectors of plastic, namely, plastic pipe connectors; structural and replacement parts and fittings for plastic connectors and couplings for use with pipes, hosing and tubing

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Software as a service (SaaS) services featuring software for controlling, monitoring, programming, communicating with, operating and adjusting apparatus and equipment in the fields of cell culturing, cell therapy and gene therapy; Providing temporary use of on-line non-downloadable computer software for controlling, monitoring, programming, communicating with, operating and adjusting apparatus and equipment in the fields of cell culturing, cell therapy and gene therapy; Platform as a service (PAAS) featuring computer software platforms for controlling, monitoring, programming, communicating with, operating and adjusting apparatus and equipment in the fields of cell culturing, cell therapy and gene therapy; Software as a service (SaaS) services featuring software for monitoring environmental conditions within a cell culturing container and bioreactor and for controlling, programming and adjusting devices within a cell culturing container, bioreactor and designated spatial area that controls environmental conditions in the fields of cell culturing, cell therapy and gene therapy; providing temporary use of on-line non-downloadable computer software for monitoring environmental conditions within a cell culturing container and bioreactor and for controlling, programming and adjusting devices within a cell culturing container, bioreactor and designated spatial area that controls environmental conditions in the fields of cell culturing, cell therapy and gene therapy; platform as a service (PAAS) featuring computer software platforms for monitoring environmental conditions within a cell culturing container and bioreactor and for controlling, programming and adjusting devices within a cell culturing container, bioreactor and designated spatial area that controls environmental conditions in the fields of cell culturing, cell therapy and

gene therapy; Software as a service (SAAS) services featuring software for collecting, storing, editing, analysing, processing and displaying data in the fields of cell culturing, cell therapy and gene therapy; providing temporary use of on-line non-downloadable computer software for collecting, storing, editing, analysing, processing and displaying data in the fields of cell culturing, cell therapy and gene therapy; Platform as a service (PAAS) featuring software for collecting, storing, editing, analysing, processing and displaying data in the fields of cell culturing, cell therapy and gene therapy; Software as a service (SaaS) services featuring software for monitoring patient health; Providing temporary use of on-line non-downloadable computer software for monitoring patient health; Platform as a service (PAAS) featuring computer software platforms for monitoring patient health; Software as a service (SaaS) services featuring software providing information in the fields of cell culturing, cell therapy and gene therapy; Providing temporary use of on-line non-downloadable computer software for providing information in the fields of cell culturing, cell therapy and gene therapy; Platform as a service (PAAS) featuring computer software platforms for providing information in the fields of cell culturing, cell therapy and gene therapy; design and development of scientific equipment and apparatus in the fields of cell culturing, cell therapy and gene therapy; design and development of cell culture, cell therapy and gene therapy manufacturing equipment, manufacturing systems and manufacturing processes for others; development of cell culture, cell therapy and gene therapy processes for others; rental and leasing of scientific apparatus and equipment for cell culturing, cell therapy and gene therapy; testing the functionality of apparatus and instruments in the nature of scientific apparatus and equipment used for cell culturing, cell therapy and gene therapy; testing the functionality of industrial machines and manufacturing equipment for cell culturing, cell therapy and gene therapy

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services
