For non-metallic shelters in the nature of engine change shelters, specialty shelters, and nose and fuselage shelters for aircraft engine tooling

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For service carts used for transporting aircraft engine parts; dollies used for transporting aircraft engine parts; manual and self driven transport dollies being hand trucks; equipment to move large aircraft parts, sections and engines, namely, dollies being wheeled platforms for transporting large aircraft parts and robotic transport vehicles for moving large aircraft parts

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For aircraft engine tooling and aircraft engine parts, namely, assembly tooling in the nature of air craft turbine engine assemblies, disassembly tooling in the nature of extractors, pullers, lifting installation and dust removing installations, restraining and positioning devices, lifting beams and slings, complex and special hydraulic, pneumatic, electrical, or a combination of, engine and module containers, stands, pushers being push rods for engines, power-operated pullers, work holding fixtures for precision machining applications, lifting fixtures being hydraulic lift tables, build up fixtures, guide tubes, blank off kits comprising hydraulic arbors and blanking presses, guide pins, engine cam protectors, power-driven wrenches, heaters, torque fixtures in the nature of torque transducers not for land vehicles, restrain fixtures in the nature of devices for turbine engines being belts for turbine engines, protective metal containers being parts of turbo machinery for aircraft engines, engine transportation stands, power-operated lifting and shoring equipment, aircraft engine access equipment in the nature of aircraft engine access stands, aircraft maintenance access equipment in the nature of aircraft maintenance stands, auxiliary-Stanchions being hydraulic lifts, hydraulic and pneumatic axle-Jacks, hydraulic tripod-jacks, aircraft towing and pushback equipment namely tow-bars, cabin interior access stands, auxiliary power units for supplying electrical power, energy supply equipment in the nature of electrical current generators, engine change equipment in the nature of electric hoists, hydraulic lifts, electro-hydro mechanical devices, engine nose cowl installation equipment in the nature of lift beams and trollies for

attaching and storing nose cowl and hoists, fluid dispensers, hydraulic power units, landing gear access equipment, landing gear change equipment in the nature of gear motors, gear boxes, and reduction gears not for land vehicles, multi-purpose access equipment in the nature of aircraft maintenance stands, recovery equipment in the nature of power winches and hydraulic jacks for use in aircraft maintenance and AOG-type environments, supplemental cooling systems comprised of compressed air pumps, engine bearings, electric compressors, fan shafts, turbine blades, crankcases being parts of machines, engine hydraulic torque converters, bearing sumps, bearing seals, gear motors not for land vehicles, turbine engine electrical and ignition systems, mechanical lifts for engines or hydraulic lifts for engines, lift fixtures that assist with the operation of the lift and lowering of an engine in and out of a stand; bearing brackets, hydraulic pumps, all the foregoing for the maintenance, overhaul, and repair of aircraft engines; jigs and movers for use in the precision clamping of work pieces, final assembly line stations in the nature of assembly line conveyor machinery for turbine engine tooling, hydraulic turning and lifting tables for ergonomic disassembly and reassembly of ignition system testing parts; equipment to move large aircraft parts, sections and engines used for maintenance, repair and overhaul being pallet conveyors and power-operated lifting equipment; ergonomic access equipment in the nature of maintenance stands for accessing aircraft and engine system

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For providing tracking services and tracking information concerning tracking of assets in transit, namely, for aircraft engine tooling, ground support equipment, engine cleaning equipment, ignition system testing parts, and engine transportation and maintenance stands, namely, serial number, purchase date, user data and user access control, the location of parts, the condition of parts, the load test status of parts, calibration status of parts, certification status of parts, and useful life status of parts, all the foregoing for commercial purposes; business management services, namely, business management of aircraft repair and upgrade and business management of aircraft maintenance services for others; wholesale consignment store services featuring aircraft inventory, namely, aircraft engine toolings and associated tooling component parts, aircraft ground support equipment and associated ground support equipment component parts; inventory management services; business management services, namely, aircraft obsolescence and cancellation management services; procurement services, namely, purchasing of aircraft tooling and ground support equipment parts, and spare tooling component parts for others; Logistics management in the field of overall supply chain management, and contractor logistics support; Quality management services, namely, conducting quality assurance surveys in overseas and US locations to determine service quality in the fields of aviation and aircrafts

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For technical and engineering support and training services, namely, providing technical advice related to maintenance, repair, and upkeep of aircraft engine tooling parts and equipment, ignition system testing parts and equipment, ground support and engine transportation and maintenance equipment in the field of turbine engine maintenance, assembly, disassembly, overhaul, and repair for military, commercial and business aircraft engines used in the defense, rotorcraft, aerospace, energy, transportation, industrial, maritime and aviation industries; maintenance and repair of aircraft engine tooling parts and equipment, ignition system testing parts and equipment, ground support and engine transportation equipment, namely, engine stands; aircraft maintenance services, namely, maintaining engine build-up lines, supporting installation projects in the nature of engine installations in Final Assembly Lines, landing gear installation, installation of heavy and large components at the aircraft, engine stand refurbishment, the scheduling of maintenance based on a mechanical evaluation of aircraft engine tooling

component parts and equipment, ignition system testing parts and equipment, ground support and engine transportation equipment; maintenance, repair, and overhaul of aircraft components; leasing of aircraft parts for repair purposes

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For downloadable support software for aircraft engine tooling and aircraft engine parts; bonding and loop testers used as resistance testers; battery charging systems for aircraft composed of electric batteries, charge controllers and inverters

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Custom manufacturing for others of aircraft tooling parts, ignition system testing parts, and ground support and engine transportation and maintenance equipment, namely, engine transportation stands, auxiliary-Stanchions, axle-Jacks, bonding and loop testers, cabin interior access stands, charging systems, electrical power units, energy supply equipment, engine change equipment, engine nose cowl installation equipment, fluid dispensers, hand pumps, hydraulic power units, engine change shelters, nose and fuselage shelters, landing gear access equipment, landing gear change equipment, multi-purpose access equipment, RAM-AIR turbine test equipment, recovery equipment, service carts, specialty shelters, supplement cooling system for use in military, commercial, and business aircraft engines in the defense, aerospace, energy, industrial, transportation, and aviation industries; manufacturing services for others in the field of aircraft parts and components

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For aircraft engine tooling and aircraft engine parts, namely, hand-operated air pumps, manual hoists
