GOODS AND SERVICES INFORMATION

For Bill payment services provided through a website; agencies for collecting electric power utility payments; agencies for collecting gas utility payments; agencies for collecting gas or electric power utility payments; financial investment analysis; brokerage of financial investments in energy companies; conducting financial feasibility studies; consultancy concerning financing of energy projects; investment consultancy; mutual funds; conducting of capital market transactions, namely, cash and foreign exchange transactions; financing services for companies; issuance of prepaid cards and tokens of value, namely, pre-paid vouchers exchangeable for goods or services; providing stock market information; capital investment; real estate affairs, namely, real estate brokerage; arranging for the financing of energy companies; financial sponsorship of cultural events in the nature of exhibitions; insurance services, namely, insurance brokerage services; financial evaluation for insurance, banking, and real estate purposes; hire-purchase financing; issuance of travellers' cheques; insurance consultancy; providing insurance information; issuance of prepaid cards and tokens of value, namely, pre-paid vouchers exchangeable for goods or services; providing financial information via a website; financial consultancy in the field of risk management; financial appraisal services of personal or real property, namely precious stones and homes; financial and monetary services, namely, financial consultation, monetary exchange; banking; financial sponsorship of entertainment activities in the nature of theatrical performances and art exhibitions; financial sponsorship of sporting activities in the nature of sports matches; financial evaluation for insurance purposes; financing services; pawn brokerage

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Cardboard; plastic materials for packaging, namely, plastic film for packaging; paper pouches for packaging; printed matter , namely, printed posters; stationery; educational supplies, namely, three-dimensional models for educational purposes; adhesives for stationery or household purposes; paper and cardboard; money holders, namely, money clips; paper shredders for office use; desktop cabinets for stationery being office requisites; printed informational folders in the field of electricity and solar energy; printed leaflets in the field of electricity and solar energy; printed manuals and handbooks in the field of electricity and solar energy; printed books in the field of electricity and solar energy; printed magazines in the field of electricity and solar energy; printed newspapers; printed desk diaries; printed calendars; printed diaries

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Alternators; steam engine boilers being parts of machines; steam engine boilers; hydroelectric installations for generating electricity; compressors for air conditioning apparatus; electric compressors; current generators; mobile electrical power generators; wind-powered electricity generators; generators for wind turbines; machines for separating recyclable materials; recycling crushing units being machines; emergency power generators; electric garbage disposal units; shovels, mechanical; electrical pumps; hydraulic pumps; wind turbines; hydraulic turbines; inlet systems for gas turbines comprising gas compressors, internal combustion engines for power generation other than for land vehicle sand turbines other than for land vehicles

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Electrical lighting fixtures; water conduits installations, namely, pipes being parts of sanitary facilities; pressure regulating apparatus for gas pipe installations; heat accumulators; lighting apparatus for vehicles; apparatus for ventilating, namely, turbine ventilators; cooling appliances and installations, namely, cooling evaporators; heating apparatus, electric, namely, electric water heating apparatus; air-conditioning apparatus; burners; heating apparatus, namely, floor heating apparatus; gas heating boilers; boilers, other than parts of machines, namely, boilers for heating installations; domestic heating boilers; electric boilers; industrial boilers; electric candles; light-emitting diode lighting apparatus; evaporators for air conditioners; filters for air purifiers; air filters for air-conditioning units; filters for air conditioning; ovens, namely, convection ovens; electric lamps; water heating installations; heating apparatus, electric; nuclear reactors; nuclear power plant installations; installations for processing nuclear fuel and nuclear moderating material, namely, nuclear reactors; waste disposal incinerators; floor lamps; solar powered lamps; incandescent light bulbs; light bulbs, electric; led light bulbs; solar thermal collectors for heating; heat pumps; sockets for electric lights; radiators, electric; bathroom heaters; water heaters; radiators for heating; electric torches; discharge tubes, electric, for lighting; lamp chimneys; thermostatic valves being parts of heating installations; ventilating exhaust fans; lighting installations; ventilation being air-conditioning installations and apparatus; air-conditioning installations

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Sporting and cultural activities, namely, sports matches in the nature of soccer matches, art exhibitions, and theater productions; entertainment services, namely, art exhibitions and theater productions; teaching in the field of electricity and energy; training in the field of electric, solar energy and windmill wind power installations; organisation of sporting competitions and award programs for major corporations and individuals who have made significant charitable contributions; organization of exhibitions for cultural or educational purposes; arranging and conducting of conferences in the field of electricity and energy; arranging and conducting of congresses in the field of electricity and energy; arranging and conducting of colloquiums in the field of electricity and energy; arranging and conducting of seminars in the field of electricity and energy; arranging and conducting of training workshops in the field of electricity and energy; publication of books; online publication of electronic books and journals; arranging and conducting of conventions in the field of electricity and energy; provision of recreational events, namely sports matches in the nature of soccer matches; conducting of cultural events, namely, art exhibitions

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Commercial administration of the licensing of the goods and services of others; cost price analysis; business management assistance; business management; providing business information via a web site; business information; consumer advice shop, namely, commercial information and advice for consumers in the choice of products and services; clerical services; organisation of trade fairs for commercial purposes; business advisory services relating to commercial transactions; arranging of contracts, for others, for the provision of services; business administration; assistance and consultancy services in the field of business management of companies in the energy sector; business consulting; advisory services for business management; commercial intermediation services, namely, business intermediary services relating to the matching of various professionals with clients; auditing utility rates for others; systemization of information into computer databases

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Interference suppression for electrical apparatus; construction of power plants; construction of wind power plants; repair or maintenance of nuclear power plants; construction of structures for the storage of natural gas; construction of structures for the transportation of natural gas; construction of structures for the production of natural gas; extraction of oil; providing information relating to the repair or maintenance of power generators; providing information relating to the repair or maintenance of consumer electrical appliances; providing information relating to the repair or maintenance of electric lighting apparatus; providing information relating to the repair or maintenance of nuclear power plants; installation of reactive power compensation apparatus; installation of cables for Internet access; installation of photovoltaic cells and modules; installation of gas and water pipelines; installation of hardware and cables for Internet access; installation of electric light and power systems; installation of solar heating systems; installation of machinery for generating electricity; installation, repair and maintenance of condensing apparatus, steam condensers, radiators for motors and engines, air reheaters, boiler tubes; repair of energy supply installations; gas drilling; oil and gas drilling; fueling of hydrogen gas for vehicles; repair or maintenance of gas water heaters; mining extraction, oil and gas drilling; drilling of deep oil or gas wells; maintenance and repair of gas and electricity installations; repair and maintenance of gas and electricity installations; emergency servicing of gas supply apparatus; natural gas refuelling service for motor vehicles; installation, maintenance and repair of gas supply apparatus; installation of gas supply and distribution apparatus; providing information relating to the repair or maintenance of gas water heaters; installation,

maintenance and repair of exhaust gas reduction systems; installation, maintenance and repair of gas, electricity and water supply apparatus; installation and maintenance of photovoltaic installations; installation and maintenance of solar thermal installations; pipeline construction and maintenance; electric appliance installation and repair; installation and repair of air-conditioning apparatus; maintenance of consumer electric appliances; maintenance of power generating apparatus and installations; maintenance of telecommunications apparatus; maintenance and repair of data communications networks; maintenance and repair of communications systems; maintenance and repair of instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; maintenance, servicing and repair of power generating apparatus and installations; maintenance, repair and reconditioning of photovoltaic apparatus and installations; laying of cable; laying of land cables; laying of sea cables; laying and burial of cable; renovation, repair and maintenance of electrical wiring; repair of power generating apparatus and installations; repair of electrical equipment and electrotechnical installations in the nature of plugs, phones, maintenance and repair of electric vehicles; maintenance and repair of electric vehicles; repair or maintenance of electric lighting apparatus; repair or maintenance of consumer electric appliances; repair or maintenance of boilers; repair or maintenance of waste compacting machines and apparatus; repair or maintenance of waste crushing machines and apparatus; repair of power lines; electrical installation services, namely, installation of electrical wiring; charging of electric vehicles; installation of electrical apparatus or generators; repair or maintenance of power generators; maintenance and repair of electricity generators; erection, installation, maintenance and repair of windmills, wind power plants, wind turbines and other wind operated machines; installation services, namely, installation of electricity generators, windmills, wind power plants, wind turbines

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Accumulators, electric; batteries, electric, for vehicles; electrical adapters; power adapters; electric power analyzers; residual gas analyzers; voltage testers; electric switchgear, namely, voltage boosting devices for electric power lines; electricity control panels; power controllers; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems, namely, remote metering systems, gas and liquid cylinders, vehicle tracking devices, energy and utility systems, security systems and lighting systems; boiler control instruments; electricity storage apparatus, namely, electrical storage batteries; electricity measuring instruments; power distribution boxes; solar-powered rechargeable batteries; electrical power distribution blocks; ultracapacitors for energy storage; solar panels for the production of electricity; solar energy collectors for electricity generation in the nature of photovoltaic cells also including a solar thermal collector sold as a unit; electric control devices for energy management; optical fibers being light conducting filaments; photovoltaic apparatus for converting solar radiation to electrical energy, namely, photovoltaic solar modules; waveguides for high-power beam delivery; electronic devices for controlling energy, namely, electric control devices for energy management; downloadable computer software for remote monitoring and analysis of facilities for electricity and electric power networks, electricity production systems and plants, and for heating and hot water production; wireless controllers to remotely monitor and control the function and status of security systems; data transmission cables; cables for electrical signal transmission; cables for optical signal transmission; photovoltaic apparatus and installations for generating solar electricity, namely, photovoltaic cells; electric current control devices; regulating apparatus, electric, namely, apparatus and instruments for regulator electric current; measuring devices, electric, namely, electronic devices for measuring electric current; electronic testing equipment, namely, telecommunication line integrity testing apparatus; photovoltaic apparatus for

converting solar radiation to electrical energy, namely, photovoltaic solar modules; counters, namely, Geiger counters; ducting for electric cables; electricity conduits; materials for electricity mains, namely, electric wires and cables; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; chargers for electric batteries; battery charging devices for motor vehicles; rechargeable electrical cells; data communication apparatus and instruments, namely, wireless communication devices for data transmission; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, supervision, lifesaving and teaching apparatus and instruments, namely, circuit breakers and electrical safety switches; apparatus for recording, transmission or reproduction of sound or images; computer software applications, downloadable, for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating regulating, or controlling electricity and electric power and for designing electrical systems; batteries, electric; batteries for vehicles; rechargeable batteries; solar batteries; solar battery chargers; encoded loyalty cards; integrated circuit cards being smart cards; fibre optic cables; coaxial cables; electric cables and wires; Ethernet cables; optical cables; telecommunications cables; calibrated photovoltaic reference cells; galvanic cells; solar cells; photovoltaic cells; electrical circuit boards; couplings, electric; collectors, electric, namely, pantographs being electric current collectors; pantographs being electric current collectors; electrical components, namely, electrical switches; condensers being capacitors; electrical ducts; conductors, electric; water meters; gasometers being measuring instruments; heating meters; frequency meters; electricity measuring instruments; electronic meters; current convertors; electric switch plates; diodes; igniting apparatus, electric, for igniting at a distance, namely, remote control starters for vehicles; electrical power distributors, namely, electrical power distribution blocks; nonlinear optical fibres; polarisation maintaining optical fibres; fiber optics; wires, electric; fuses; couplings, electric; electric breakers being switches; electric loss indicators, namely, electrical leak detection hardware with embedded operating system software; armatures for use in electrical apparatus; electrical inductors; photovoltaic installations for generating electricity being photovoltaic modules for use in photovoltaic power plants; photovoltaic apparatus and installations for generating solar electricity, namely, photovoltaic modules and photovoltaic cells; photovoltaic inverters; voltage limiters; electricity limiters; voltmeters; computer software packages comprising downloadable and recorded software for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating regulating, or controlling electricity and electric power and for designing electrical systems; electric sockets; electrical power extension cords; downloadable electronic publications in the nature of magazines in the field of energy production; electricity distribution boards; electric reactors; electric voltage transformers; resistances, electric; gas detectors; voltage detectors; distance sensors; gas sensors; electronic sensors for measuring solar radiation; downloadable and recorded computer software for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating regulating, or controlling electricity and electric power and for designing electrical systems; downloadable and recorded application software for mobile phones for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating regulating, or controlling electricity and electric power and for designing electrical systems; electric plugs; voltage stabilizers; electricity terminals, namely, electrical terminal blocks; thermostats; electronic metering devices for faucets; optical transmitters; switchboxes for electricity; solar wafers; home automation hubs comprised of voice-activated speakers, computer hardware, and recorded software for controlling networked devices in the internet of things (IoT), operating internet enabled and connected lighting apparatus and home security alarms; life saving apparatus and equipment, namely, circuit breakers and electrical safety switches; computer network routers; webcams; sirens; data storage devices,

namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; downloadable and recorded software using artificial intelligence for machine learning; interfaces for computers; computers; computer servers; computer peripheral devices; downloadable and recorded programs for computers for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating regulating, or controlling electricity and electric power and for designing electrical systems; blank recordable DVDs; optical data media, namely, blank optical data carriers; magnetic data media, namely, blank magnetic data carriers; downloadable images in the field of monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; computers and computer peripherals; computer programs, recorded, for use as a spreadsheet, word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; computer programs, downloadable, for use as a spreadsheet, word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; downloadable and recorded artificial intelligence software for use as a spreadsheet, word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; downloadable and recorded computer software platforms for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; computer software platforms, recorded or downloadable, for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments, for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; personnel tracking devices, namely, GPS tracking devices; downloadable and recorded computer operating software for global positioning systems; TV and computer monitors; recording devices for sound and image carriers; intelligent gateways for real-time data analysis, namely, gateway routers; electronic publications, downloadable, namely, newsletters and leaflets in the field of electricity and electric power; downloadable video recordings in the field of electricity and electric power; downloadable electronic books in the field of electricity and electric power; downloadable educational course materials in the field of electricity and electric power; electric telecommunications apparatus, namely, electric resistors for telecommunication apparatus; distance measuring apparatus; distance recording apparatus

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For News agency services; communications by fibre optic networks; communications by computer terminals; providing access to databases; radio, telephone, telegraph communication services; telecommunication services provided via Internet platforms and portals namely, electronic transmission of data; telephone services; streaming of audio material on the internet; telecommunication services, namely, electronic transmission of data; transfer of information and data via online services and the Internet; electronic data transmission; electronic message sending; transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the Internet; data transmission and reception services via telecommunication means; providing user access to computer programmes in data networks; telecommunication gateway services; electronic transmission of messages

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Storage of electricity; transmission of oil or gas through pipelines; distribution of energy for heating and cooling buildings; distribution of gas; public utility services in the nature of electricity distribution; supply of electrical energy, gas, water and district heating; distribution of electrical energy, gas, water and district heating; providing information relating to the distribution of electricity; gas storage services; leasing the use of power lines to third parties for the transmission of electricity; refuse collection services; consultancy services relating to the distribution of electricity; information and advisory services in relation to the distribution of energy; vehicle rental; storage of energy and fuels; storage of liquefied natural gas on ships; supply of electricity; chauffeur services; parking place rental; car parking

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Consultancy relating to the recycling of waste and trash; consultancy relating to the destruction of waste and trash; consultancy relating to the incineration of waste and trash; destruction of waste; providing information relating to the recycling of waste; electricity generating; waste incineration; rental of electricity generators; leasing of energy generating equipment; rental of air-conditioning apparatus; rental of power-generating equipment; rental of batteries; rental of heating boilers; rental of electrical transformers; generation of electricity from wind energy; energy production; production of electrical power from renewable sources; production of hydroelectric power; production of energy by power plants; production of energy by nuclear power plants; generation of gas and electricity; air purification; water treatment and purification; air purification and treatment of water; recycling services; consultancy services relating to the generation of electrical power; gas production services

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Fuels and illuminants in the nature of lighting fuel; fuel; fuel gas; liquid fuels; mineral fuel; lighting fuel; wood pellets for heating for use as fuel; manufactured solid fuels; electrical energy; fuel oil

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Gas exploration; exploration of gas and oil; measuring of greenhouse gas emissions; analysis of greenhouse gas emissions; geophysical exploration for the gas industry; exploration and searching of oil and gas; greenhouse gas emission measuring and analysis; engineering services for the gas industry; geophysical exploration for the oil, gas and mining industries; technical design and technology planning of pipelines for gas, water and waste water; exploration services in the field of the oil, gas and mining industries; engineering services relating to gas transport and supply systems; technological consultancy in the field of energy-saving; technological consultancy in the fields of energy production and use; providing technological advice relating to energy-saving measures; technological consultancy in the field of energy saving and energy efficiency; providing information about the design and development of computer software, systems and networks; design of electric circuit boards; design of storage systems; designing of electrical systems; technical design and technology planning of power stations; technical design and technology planning of telecommunications networks; design and development of regenerative energy generation systems; design and development of software for control, regulation and monitoring of solar energy systems; engineering drawing; engineering design; conducting scientific research and technical project studies relating to the use of natural energy; industrial research in the field of electricity and energy; analysis and testing services relating to electrical engineering apparatus; technological consulting services in the field of alternative energy generation; technical design services relating to electricity plants; electrical engineering services; development of testing apparatus for electrical

wires; development of energy and power management systems; testing of apparatus in the field of electrical engineering; testing, analysis and monitoring of telecommunication signals to ensure proper functioning; hosting computer software platforms of others on the Internet; environmental testing; environmental assessment services; scientific research in the field of environmental conservation

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Metal materials for construction, namely, metal cladding for construction, metal piles, metal floors, prefabricated metal walls and building panels of metal; buildings, transportable, of metal; pipes and tubes of metal; buildings of metal; metal hardware, namely, metal screws, metal doorknobs, metal locks, metal keys for locks, metal bolts, metal nails, and metal fasteners in the nature of bolts, nails, rivets and screws; building panels of metal; metallic doors, windows, shutters and slatted shutters; floors of metal; ceilings of metal; cables of metal, non-electric; posts of metal for power lines; containers of metal for storage and transport; latticework of metal; metal utility poles

For Interference suppression for electrical apparatus; construction of power plants; construction of wind power plants; repair or maintenance of nuclear power plants; construction of structures for the storage of natural gas; construction of structures for the transportation of natural gas; construction of structures for the production of natural gas; extraction of oil; providing information relating to the repair or maintenance of power generators; providing information relating to the repair or maintenance of consumer electrical appliances; providing information relating to the repair or maintenance of electric lighting apparatus; providing information relating to the repair or maintenance of nuclear power plants; installation of reactive power compensation apparatus; installation of cables for Internet access; installation of photovoltaic cells and modules; installation of gas and water pipelines; installation of hardware and cables for Internet access; installation of electric light and power systems; installation of solar heating systems; installation of machinery for generating electricity; installation, repair and maintenance of condensing apparatus, steam condensers, radiators for motors and engines, air reheaters, boiler tubes; repair of energy supply installations; gas drilling; oil and gas drilling; fueling of hydrogen gas for vehicles; repair or maintenance of gas water heaters; mining extraction, oil and gas drilling; drilling of deep oil or gas wells; maintenance and repair of gas and electricity installations; repair and maintenance of gas and electricity installations; emergency servicing of gas supply apparatus; natural gas refuelling service for motor vehicles; installation, maintenance and repair of gas supply apparatus; installation of gas supply and distribution apparatus; providing information relating to the repair or maintenance of gas water heaters; installation,

maintenance and repair of exhaust gas reduction systems; installation, maintenance and repair of gas, electricity and water supply apparatus; installation and maintenance of photovoltaic installations; installation and maintenance of solar thermal installations; pipeline construction and maintenance; electric appliance installation and repair; installation and repair of air-conditioning apparatus; maintenance of consumer electric appliances; maintenance of power generating apparatus and installations; maintenance of telecommunications apparatus; maintenance and repair of data communications networks; maintenance and repair of communications systems; maintenance and repair of instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; maintenance, servicing and repair of power generating apparatus and installations; maintenance, repair and reconditioning of photovoltaic apparatus and installations; laying of cable; laying of land cables; laying of sea cables; laying and burial of cable; renovation, repair and maintenance of electrical wiring; repair of power generating apparatus and installations; repair of electrical equipment and electrotechnical installations in the nature of plugs, phones, maintenance and repair of electric vehicles; maintenance and repair of electric vehicles; repair or maintenance of electric lighting apparatus; repair or maintenance of consumer electric appliances; repair or maintenance of boilers; repair or maintenance of waste compacting machines and apparatus; repair or maintenance of waste crushing machines and apparatus; repair of power lines; electrical installation services, namely, installation of electrical wiring; charging of electric vehicles; installation of electrical apparatus or generators; repair or maintenance of power generators; maintenance and repair of electricity generators; erection, installation, maintenance and repair of windmills, wind power plants, wind turbines and other wind operated machines; installation services, namely, installation of electricity generators, windmills, wind power plants, wind turbines

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Accumulators, electric; batteries, electric, for vehicles; electrical adapters; power adapters; electric power analyzers; residual gas analyzers; voltage testers; electric switchgear, namely, voltage boosting devices for electric power lines; electricity control panels; power controllers; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems, namely, remote metering systems, gas and liquid cylinders, vehicle tracking devices, energy and utility systems, security systems and lighting systems; boiler control instruments; electricity storage apparatus, namely, electrical storage batteries; electricity measuring instruments; power distribution boxes; solarpowered rechargeable batteries; electrical power distribution blocks; ultracapacitors for energy storage; solar panels for the production of electricity; solar energy collectors for electricity generation in the nature of photovoltaic cells also including a solar thermal collector sold as a unit; electric control devices for energy management; optical fibers being light conducting filaments; photovoltaic apparatus for converting solar radiation to electrical energy, namely, photovoltaic solar modules; waveguides for high-power beam delivery; electronic devices for controlling energy, namely, electric control devices for energy management; downloadable computer software for remote monitoring and analysis of facilities for electricity and electric power networks, electricity production systems and plants, and for heating and hot water production; wireless controllers to remotely monitor and control the function and status of security systems; data transmission cables; cables for electrical signal transmission; cables for optical signal transmission; photovoltaic apparatus and installations for generating solar electricity, namely, photovoltaic cells; electric current control devices; regulating apparatus, electric, namely, apparatus and instruments for regulator electric current; measuring devices, electric, namely, electronic devices for measuring electric current; electronic testing equipment, namely, telecommunication line integrity testing apparatus; photovoltaic apparatus for

converting solar radiation to electrical energy, namely, photovoltaic solar modules; counters, namely, Geiger counters; ducting for electric cables; electricity conduits; materials for electricity mains, namely, electric wires and cables; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; chargers for electric batteries; battery charging devices for motor vehicles; rechargeable electrical cells; data communication apparatus and instruments, namely, wireless communication devices for data transmission; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, supervision, lifesaving and teaching apparatus and instruments, namely, circuit breakers and electrical safety switches; apparatus for recording, transmission or reproduction of sound or images; computer software applications, downloadable, for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating regulating, or controlling electricity and electric power and for designing electrical systems; batteries, electric; batteries for vehicles; rechargeable batteries; solar batteries; solar battery chargers; encoded loyalty cards; integrated circuit cards being smart cards; fibre optic cables; coaxial cables; electric cables and wires; Ethernet cables; optical cables; telecommunications cables; calibrated photovoltaic reference cells; galvanic cells; solar cells; photovoltaic cells; electrical circuit boards; couplings, electric; collectors, electric, namely, pantographs being electric current collectors; pantographs being electric current collectors; electrical components, namely, electrical switches; condensers being capacitors; electrical ducts; conductors, electric; water meters; gasometers being measuring instruments; heating meters; frequency meters; electricity measuring instruments; electronic meters; current convertors; electric switch plates; diodes; igniting apparatus, electric, for igniting at a distance, namely, remote control starters for vehicles; electrical power distributors, namely, electrical power distribution blocks; nonlinear optical fibres; polarisation maintaining optical fibres; fiber optics; wires, electric; fuses; couplings, electric; electric breakers being switches; electric loss indicators, namely, electrical leak detection hardware with embedded operating system software; armatures for use in electrical apparatus; electrical inductors; photovoltaic installations for generating electricity being photovoltaic modules for use in photovoltaic power plants; photovoltaic apparatus and installations for generating solar electricity, namely, photovoltaic modules and photovoltaic cells; photovoltaic inverters; voltage limiters; electricity limiters; voltmeters; computer software packages comprising downloadable and recorded software for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating regulating, or controlling electricity and electric power and for designing electrical systems; electric sockets; electrical power extension cords; downloadable electronic publications in the nature of magazines in the field of energy production; electricity distribution boards; electric reactors; electric voltage transformers; resistances, electric; gas detectors; voltage detectors; distance sensors; gas sensors; electronic sensors for measuring solar radiation; downloadable and recorded computer software for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating regulating, or controlling electricity and electric power and for designing electrical systems; downloadable and recorded application software for mobile phones for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating regulating, or controlling electricity and electric power and for designing electrical systems; electric plugs; voltage stabilizers; electricity terminals, namely, electrical terminal blocks; thermostats; electronic metering devices for faucets; optical transmitters; switchboxes for electricity; solar wafers; home automation hubs comprised of voice-activated speakers, computer hardware, and recorded software for controlling networked devices in the internet of things (IoT), operating internet enabled and connected lighting apparatus and home security alarms; life saving apparatus and equipment, namely, circuit breakers and electrical safety switches; computer network routers; webcams; sirens; data storage devices,

namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; downloadable and recorded software using artificial intelligence for machine learning; interfaces for computers; computers; computer servers; computer peripheral devices; downloadable and recorded programs for computers for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating regulating, or controlling electricity and electric power and for designing electrical systems; blank recordable DVDs; optical data media, namely, blank optical data carriers; magnetic data media, namely, blank magnetic data carriers; downloadable images in the field of monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; computers and computer peripherals; computer programs, recorded, for use as a spreadsheet, word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; computer programs, downloadable, for use as a spreadsheet, word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; downloadable and recorded artificial intelligence software for use as a spreadsheet, word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; downloadable and recorded computer software platforms for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; computer software platforms, recorded or downloadable, for use as a spreadsheet, for word processing, for monitoring and control of apparatus and instruments, for conducting, switching, transforming, accumulating, regulating or controlling electricity and electric power and for designing electrical systems; personnel tracking devices, namely, GPS tracking devices; downloadable and recorded computer operating software for global positioning systems; TV and computer monitors; recording devices for sound and image carriers; intelligent gateways for real-time data analysis, namely, gateway routers; electronic publications, downloadable, namely, newsletters and leaflets in the field of electricity and electric power; downloadable video recordings in the field of electricity and electric power; downloadable electronic books in the field of electricity and electric power; downloadable educational course materials in the field of electricity and electric power; electric telecommunications apparatus, namely, electric resistors for telecommunication apparatus; distance measuring apparatus; distance recording apparatus

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For News agency services; communications by fibre optic networks; communications by computer terminals; providing access to databases; radio, telephone, telegraph communication services; telecommunication services provided via Internet platforms and portals namely, electronic transmission of data; telephone services; streaming of audio material on the internet; telecommunication services, namely, electronic transmission of data; transfer of information and data via online services and the Internet; electronic data transmission; electronic message sending; transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the Internet; data transmission and reception services via telecommunication means; providing user access to computer programmes in data networks; telecommunication gateway services; electronic transmission of messages

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Storage of electricity; transmission of oil or gas through pipelines; distribution of energy for heating and cooling buildings; distribution of gas; public utility services in the nature of electricity distribution; supply of electrical energy, gas, water and district heating; distribution of electrical energy, gas, water and district heating; providing information relating to the distribution of electricity; gas storage services; leasing the use of power lines to third parties for the transmission of electricity; refuse collection services; consultancy services relating to the distribution of electricity; information and advisory services in relation to the distribution of energy; vehicle rental; storage of energy and fuels; storage of liquefied natural gas on ships; supply of electricity; chauffeur services; parking place rental; car parking

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Consultancy relating to the recycling of waste and trash; consultancy relating to the destruction of waste and trash; consultancy relating to the incineration of waste and trash; destruction of waste; providing information relating to the recycling of waste; electricity generating; waste incineration; rental of electricity generators; leasing of energy generating equipment; rental of air-conditioning apparatus; rental of power-generating equipment; rental of batteries; rental of heating boilers; rental of electrical transformers; generation of electricity from wind energy; energy production; production of electrical power from renewable sources; production of hydroelectric power; production of energy by power plants; production of energy by nuclear power plants; generation of gas and electricity; air purification; water treatment and purification; air purification and treatment of water; recycling services; consultancy services relating to the generation of electrical power; gas production services

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Fuels and illuminants in the nature of lighting fuel; fuel; fuel gas; liquid fuels; mineral fuel; lighting fuel; wood pellets for heating for use as fuel; manufactured solid fuels; electrical energy; fuel oil

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Gas exploration; exploration of gas and oil; measuring of greenhouse gas emissions; analysis of greenhouse gas emissions; geophysical exploration for the gas industry; exploration and searching of oil and gas; greenhouse gas emission measuring and analysis; engineering services for the gas industry; geophysical exploration for the oil, gas and mining industries; technical design and technology planning of pipelines for gas, water and waste water; exploration services in the field of the oil, gas and mining industries; engineering services relating to gas transport and supply systems; technological consultancy in the field of energy-saving; technological consultancy in the fields of energy production and use; providing technological advice relating to energy-saving measures; technological consultancy in the field of energy saving and energy efficiency; providing information about the design and development of computer software, systems and networks; design of electric circuit boards; design of storage systems; designing of electrical systems; technical design and technology planning of power stations; technical design and technology planning of telecommunications networks; design and development of regenerative energy generation systems; design and development of software for control, regulation and monitoring of solar energy systems; engineering drawing; engineering design; conducting scientific research and technical project studies relating to the use of natural energy; industrial research in the field of electricity and energy; analysis and testing services relating to electrical engineering apparatus; technological consulting services in the field of alternative energy generation; technical design services relating to electricity plants; electrical engineering services; development of testing apparatus for electrical

wires; development of energy and power management systems; testing of apparatus in the field of electrical engineering; testing, analysis and monitoring of telecommunication signals to ensure proper functioning; hosting computer software platforms of others on the Internet; environmental testing; environmental assessment services; scientific research in the field of environmental conservation

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Metal materials for construction, namely, metal cladding for construction, metal piles, metal floors, prefabricated metal walls and building panels of metal; buildings, transportable, of metal; pipes and tubes of metal; buildings of metal; metal hardware, namely, metal screws, metal doorknobs, metal locks, metal keys for locks, metal bolts, metal nails, and metal fasteners in the nature of bolts, nails, rivets and screws; building panels of metal; metallic doors, windows, shutters and slatted shutters; floors of metal; ceilings of metal; cables of metal, non-electric; posts of metal for power lines; containers of metal for storage and transport; latticework of metal; metal utility poles

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a three-dimensional configuration of a rose-colored bottle with a clear top, featuring a white label located in the lower front section of the bottle, and featuring a stylized punt at the base of the bottle. The label is in the form of an outline of a stylized coat of arms appearing with the literal element "FREIXENET" in stylized black font where a portion of the letter "X" extends down and to the left under the letters "REI" and extends up and to the right over the letters "EN". The stylized punt creates a visual impression of a taller, heavier bottle made by glassblowers. The surface of the bottle, excluding the label, is comprised of etched vertical fluting extending from the top (neck) of the bottle to the bottom (base). The broken lines depicting the shape of the bottle, and the upper mouth and lip of the bottle, indicate placement of the mark on the goods and are not part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) rose, white and black is/are claimed as a feature of the mark.

GOODS AND SERVICES INFORMATION

For Machines and machine tools for treatment of materials and for manufacturing, namely, sheet fed paper converting machines, thermal laminating machines, labellers being automatic industrial labeling machines for applying labels to containers and bottles, lithographic labellers, namely, label printing machines, sheet to sheet laminating machines and printing machines, all the foregoing for commercial use; motors, except for land vehicles and other than for office use; machine coupling and transmission components except for land vehicles; agricultural implements other than hand-operated, namely, power tillers, coulters, seed drills and harvesters; emulsifying machines and homogenizes being machines for chemical processing or food production; beer brewing machines; kneading machines for industrial purposes; mixing machines; drilling machines; electric knives; blade holders being parts of machines, other than for use in document shredding machines, paper processing machines or printing machines; knives being parts of machines, other than for use in document shredding machines, paper processing machines or printing machines; blade sharpening, namely, stropping machines; milling and extrusion moulding machines, other than for office use; electric fruit squeezers for industrial purposes; mills and crushing machines, other than for document destroying, paper-working or office purposes; rasps being machines for food processing; machines, mechanical apparatus, tools and structural parts thereof for the processing industry, for use in biotechnology, and for use in extracting and processing drinking water, on oil platforms, in land vehicles and sea craft; machines, mechanical apparatus, tools and parts thereof for the production of chemicals, pharmaceuticals, cosmetics, food and beverages, for the production of agricultural crops and for preparation of dairy products, for oil extraction and oil processing, for generating electricity, for processing wastewater and for working metal the metalworking industry, for shipping freight, for oil extraction via drilling platforms and for use storing and moving alcohol products in cellars; motors, pumps and compressors for cooling installations

and freezers; machines, mechanical apparatus and installations for the manufacture of gases, chemicals, foodstuffs, and beverages; machines for dividing, cleaning, separating, mixing and conveying liquid and/or solid mixtures and substances, all for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, and agricultural crops, for preparation of dairy products, and for oil extraction and oil processing; centrifugal mixers; cartridges for filtering machines for processing chemicals, pharmaceuticals, cosmetics, food, beverages, dairy products and oil; sifters being machines with rotating brushes; cyclones being machine parts; oil separators; filters, sifters and membranes being machine parts and for motors for machines for the production and preparation of chemicals, pharmaceuticals, cosmetics, food, beverages, dairy products, oil products, and processing of wastewater; machine parts, namely, compressors for machines and cooling fans for machines for the production and preparation of chemicals, pharmaceuticals, cosmetics, food, beverages, dairy products, and oil products; pumps for machines for the production of beverages and foods; air condensers; blowing machines for the compression, exhaustion and transport of gases; oil refining machines; motors, electric, other than for land vehicles; blowing engines, namely, machines for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, agricultural crops, for preparation of dairy products, and for oil extraction and oil processing; pump diaphragms; air suction machines for industrial purposes; electric cleaning machines and apparatus, and tools for cleaning equipment in particular for the dairy industry, the brewing and beverage industry, the food industry, the chemical, pharmaceutical and cosmetics industry; steam cleaning apparatus; food processing and preparation equipment, namely, butter machines, computerised and non-computerised machines and installations for the processing, further processing and packaging of food, namely, meat, poultry, fish, cheese, potatoes, vegetables and other vegetarian goods; food processing and preparation equipment, namely, computerised and non-computerised machines and installations for pre-processing, processing and packaging of groceries, namely, meat, poultry, fish, cheese, potatoes, fresh, vegetables and other vegetarian goods, especially, knives, grinding machines, mixing machines; food processing and preparation equipment, namely, emulsifying machines, sausage production machines, apparatus for making, processing and portioning flour, protein and breadcrumbs, and automatic machines for the storage and packaging of food, vacuum packaging machines and assembly lines and machine apparatus and mechanical equipment being machines for the production, processing and finishing of food, luxury foods, alcohol and tobacco and beverages; cutters being machines, other than for document destroying, paper-working or office purposes; gravity slicers being food slicing machines for commercial use; electrical cutting apparatus, namely, cutting machines; sausage making machines; labelling machines, namely, automatic industrial labeling machines for applying labels to containers and bottles; moving and handling equipment, namely, machines for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, agricultural crops, for preparation of dairy products, and for oil extraction and oil processing; agitators for circulating liquid media; power-operated lifting and hoisting equipment; handling machines, automatic being manipulators for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, agricultural crops, for preparation of dairy products, and for oil extraction and oil processing; palletisation machines, namely, material handling machines; power-operated lifting apparatus and accessories therefor; bottle filling machines; bottle washing machines; bottle capping machines; conveyors, namely, pneumatic conveyors being machines; belts for conveyors; machines for loading; automatic loading systems, consisting of loading cranes and machines; screw conveyors for transporting manure and slurry; vacuum packaging machines; packaging machines; film wrapping machines; electric drives and motors for machines; pressure regulators being parts of machines; heat exchangers being parts of machines; crankcases for machines, motors and engines; hydraulic controls for machines, motors and engines; pneumatic controls for machines, motors and engines; pistons being parts of machines, motors and engines; regulators being parts of machines; steam traps being parts of machines; control mechanisms for machines, namely, pneumatic controllers engines or motors; valves being parts of machines;

connection fittings for machines, namely, pipe fittings and flanges; expansion compensators, namely, parts of machines for offsetting thermal tensions; tank cleaners, namely, tank vehicle washing installations, pressure washing machines; machines for the energy and power station industries, namely, block type thermal power stations for power generation; machines for energy technology, namely, block type thermal power stations for power generation; compressors for refrigerators; machines for the agglomeration, granulation and coating of materials, in the nature of foodstuffs and pharmaceuticals, namely, machines for creating fluidized beds for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, agricultural crops, for preparation of dairy products, and for oil extraction and oil processing and lines composed thereof; filling machines; spraying machines; machines for use in microwave technology, for industrial use, namely, microwave ovens for the industrial production of food and beverages; agricultural machines, namely, agricultural machines in the nature of combines and tillers, agricultural lifting machines, machines for automated milking, milking robots; industrial machines for the environmental industry, namely, machines for processing of wastewater and for controlling air and water pollution; machines and installations composed thereof for the application of spray technology and spray-drying technology for industrial purposes, namely, machines for applying spray coatings and for spray drying pharmaceuticals, cosmetics, and food products; earthmoving, construction, oil and gas extraction and mining equipment, namely, digging and drilling machines; mechanical equipment being machines for use in agriculture, namely, windrowers, tillers, threshers, harvesters, combines, fertilizer spreaders, manure spreaders, and mowers; electrolysis apparatus for the production of disinfectant; electric food grinders; fodder presses; rotative and linear milking equipment consisting of milking installations being milking machines; semi-automatic and fully automatic milking machines; milking machines; accessories being parts and installations for use with milking machines, namely, milk stimulators, filters for milking machines, vacuum pumps, milk pumps, air compression pumps, water pumps, controlled volume pumps for chemicals, electrically operated teat spraying apparatus, electrically operated udder washing installations, aerators, washing installations for milking systems, and industrial milking robots; negative pressure regulators being parts of milking machines; mounting devices for milking machines, namely, for securing milking machines to walls and floors and for securing milking clusters to udders; pumps and pulsators being parts of milking machines for the dairy industry; power operated washing and spraying devices for udders; automatic food dispensing apparatus for animals; devices for milking stands, namely, mechanical machines being yard scrapers; stationary machines for automatic spraying of cows with liquid insecticides and germicides; suction cups for milking machines; machines for distributing animal forage in mangers; equipment for dairy animal stalls and milking stands, namely, electrically operated dung scrapers; robotic and electrically operated dung scrapers; mechanical spiral conveyors being machines for dung; mechanical agitators being machines for processing dung; mechanical separators being machines for processing dung; tractor-towed agricultural implements, namely, earth moving machines and manure spreaders; disposal, processing and recycling systems for manure, slurry and other animal waste, comprising pumps or valves for transporting solid and liquid animal excreta, and presses for separating undigested solid components; mechanized livestock feeders; machines and machine tools for cleaning and rinsing purposes for use in the processing industry, namely, in the food processing industry, in particular dairy farming, namely, machines for cleaning teats and hooves; installations and devices for processing and removing manure and slurry for energy generation, namely, pumps and conveyors; electric sweepers; attrition machines for cleaning; cleaning devices and mechanical cleaning apparatus, in particular chemical and/or mechanical cleaning apparatus and installations, in particular for dairy farming, the brewing and beverage industry, the food industry, the chemical, pharmaceutical and cosmetics industry; barn cleaners being automatic and robotic machines for cleaning manure from dairy barns; steamrollers; condensing installations; mechanized livestock waterers;

vacuum packing machines and installations assembled from the aforesaid goods for the production, processing and refining of foodstuffs, semiluxury food and beverages; vacuum installations, namely, vacuum pumps being parts of milking machines; bottling installations being machines for bottling solid, paste-like and liquid substances and heterogeneous substance mixtures; pumps for machines in the food processing industry, and milking machine pumps; withdrawing devices for milking units, namely, mechanical apparatus being machines for removing milking equipment from calves; machines for filtering milk waste for calf feeding; installations and apparatus for the application of fluid bed technology, for industrial use, for industrial purposes, namely, machines for creating fluidized beds for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, agricultural crops, for preparation of dairy products, and for oil extraction and oil processing; installations and apparatus for applying spray technology, namely, mechanical spray driers and spray granulators; machines and mechanical devices being machines for concentrating, dispersing, suspending, filtration, separating, agglomerating, extracting, fermenting, homogenising, gas treating and ventilating of solid, liquid and/or gaseous materials, including their intermediates and precursors of synthetic, plant or animal origin, the aforesaid goods, especially, for use in relation to milk, milk products, milk intermediates, cheese, cheese goods, cheese intermediates, cheese intermediates, butter and butter goods; machines and mechanical devices being machines for concentrating, dispersing, suspending, filtration, separating, agglomerating, extracting, fermenting, homogenising, gas treating and ventilating of solid, liquid and/or gaseous materials, including their intermediates and precursors of synthetic, plant or animal origin including butter intermediates, coffee, beer, juices, meat, fish preparations and nutritional supplements; machines and mechanical devices being machines for concentrating, dispersing, suspending, filtration, separating, agglomerating, extracting, fermenting, homogenising, gas treating and ventilating of solid, liquid and/or gaseous materials, including their intermediates and precursors of synthetic, plant or animal origin, including educts and goods in the petrochemical, chemical and pharmaceutical industries, especially, commercial or industrial waste; machines and mechanical devices being machines for concentrating, dispersing, suspending, filtration, separating, agglomerating, extracting, fermenting, homogenising, gas treating and ventilating of solid, liquid and/or gaseous materials, including their intermediates and precursors of synthetic, plant or animal origin, including wastewater or exhaust gases; rotating cylindrical brushes for livestock being parts of machine; dust collectors, dust removing apparatus being vacuums for industrial cleaning purposes; automatic dispensing devices being machines for feeding liquids into drinking troughs; automatic dispensing devices being machines for feeding chemicals for milk pipeline washing installations.

GOODS AND SERVICES INFORMATION

For Machines and machine tools for treatment of materials and for manufacturing, namely, sheet fed paper converting machines, thermal laminating machines, labellers being automatic industrial labeling machines for applying labels to containers and bottles, lithographic labellers, namely, label printing machines, sheet to sheet laminating machines and printing machines, all the foregoing for commercial use; motors, except for land vehicles and other than for office use; machine coupling and transmission components except for land vehicles; agricultural implements other than hand-operated, namely, power tillers, coulters, seed drills and harvesters; emulsifying machines and homogenizes being machines for chemical processing or food production; beer brewing machines; kneading machines for industrial purposes; mixing machines; drilling machines; electric knives; blade holders being parts of machines, other than for use in document shredding machines, paper processing machines or printing machines; knives being parts of machines, other than for use in document shredding machines, paper processing machines or printing machines; blade sharpening, namely, stropping machines; milling and extrusion moulding machines, other than for office use; electric fruit squeezers for industrial purposes; mills and crushing machines, other than for document destroying, paper-working or office purposes; rasps being machines for food processing; machines, mechanical apparatus, tools and structural parts thereof for the processing industry, for use in biotechnology, and for use in extracting and processing drinking water, on oil platforms, in land vehicles and sea craft; machines, mechanical apparatus, tools and parts thereof for the production of chemicals, pharmaceuticals, cosmetics, food and beverages, for the production of agricultural crops and for preparation of dairy products, for oil extraction and oil processing, for generating electricity, for processing wastewater and for working metal the metalworking industry, for shipping freight, for oil extraction via drilling

platforms and for use storing and moving alcohol products in cellars; motors, pumps and compressors for cooling installations and freezers; machines, mechanical apparatus and installations for the manufacture of gases, chemicals, foodstuffs, and beverages; machines for dividing, cleaning, separating, mixing and conveying liquid and/or solid mixtures and substances, all for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, and agricultural crops, for preparation of dairy products, and for oil extraction and oil processing; centrifugal mixers; cartridges for filtering machines for processing chemicals, pharmaceuticals, cosmetics, food, beverages, dairy products and oil; sifters being machines with rotating brushes; cyclones being machine parts; oil separators; filters, sifters and membranes being machine parts and for motors for machines for the production and preparation of chemicals, pharmaceuticals, cosmetics, food, beverages, dairy products, oil products, and processing of wastewater; machine parts, namely, compressors for machines and cooling fans for machines for the production and preparation of chemicals, pharmaceuticals, cosmetics, food, beverages, dairy products, and oil products; pumps for machines for the production of beverages and foods; air condensers; blowing machines for the compression, exhaustion and transport of gases; oil refining machines; motors, electric, other than for land vehicles; blowing engines, namely, machines for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, agricultural crops, for preparation of dairy products, and for oil extraction and oil processing; pump diaphragms; air suction machines for industrial purposes; electric cleaning machines and apparatus, and tools for cleaning equipment in particular for the dairy industry, the brewing and beverage industry, the food industry, the chemical, pharmaceutical and cosmetics industry; steam cleaning apparatus; food processing and preparation equipment, namely, butter machines, computerised and non-computerised machines and installations for the processing, further processing and packaging of food, namely, meat, poultry, fish, cheese, potatoes, vegetables and other vegetarian goods; food processing and preparation equipment, namely, computerised and non-computerised machines and installations for pre-processing, processing and packaging of groceries, namely, meat, poultry, fish, cheese, potatoes, fresh, vegetables and other vegetarian goods, especially, knives, grinding machines, mixing machines; food processing and preparation equipment, namely, emulsifying machines, sausage production machines, apparatus for making, processing and portioning flour, protein and breadcrumbs, and automatic machines for the storage and packaging of food, vacuum packaging machines and assembly lines and machine apparatus and mechanical equipment being machines for the production, processing and finishing of food, luxury foods, alcohol and tobacco and beverages; cutters being machines, other than for document destroying, paper-working or office purposes; gravity slicers being food slicing machines for commercial use; electrical cutting apparatus, namely, cutting machines; sausage making machines; labelling machines, namely, automatic industrial labeling machines for applying labels to containers and bottles; moving and handling equipment, namely, machines for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, agricultural crops, for preparation of dairy products, and for oil extraction and oil processing; agitators for circulating liquid media; power-operated lifting and hoisting equipment; handling machines, automatic being manipulators for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, agricultural crops, for preparation of dairy products, and for oil extraction and oil processing; palletisation machines, namely, material handling machines; power-operated lifting apparatus and accessories therefor; bottle filling machines; bottle washing machines; bottle capping machines; conveyors, namely, pneumatic conveyors being machines; belts for conveyors; machines for loading; automatic loading systems, consisting of loading cranes and machines; screw conveyors for transporting manure and slurry; vacuum packaging machines; packaging machines; film wrapping machines; electric drives and motors for machines; pressure regulators being parts of machines; heat exchangers being parts of machines; crankcases for machines, motors and engines; hydraulic controls for machines, motors and engines; pneumatic controls for machines, motors and

engines; pistons being parts of machines, motors and engines; regulators being parts of machines; steam traps being parts of machines; control mechanisms for machines, namely, pneumatic controllers engines or motors; valves being parts of machines; connection fittings for machines, namely, pipe fittings and flanges; expansion compensators, namely, parts of machines for offsetting thermal tensions; tank cleaners, namely, tank vehicle washing installations, pressure washing machines; machines for the energy and power station industries, namely, block type thermal power stations for power generation; machines for energy technology, namely, block type thermal power stations for power generation; compressors for refrigerators; machines for the agglomeration, granulation and coating of materials, in the nature of foodstuffs and pharmaceuticals, namely, machines for creating fluidized beds for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, agricultural crops, for preparation of dairy products, and for oil extraction and oil processing and lines composed thereof; filling machines; spraying machines; machines for use in microwave technology, for industrial use, namely, microwave ovens for the industrial production of food and beverages; agricultural machines, namely, agricultural machines in the nature of combines and tillers, agricultural lifting machines, machines for automated milking, milking robots; industrial machines for the environmental industry, namely, machines for processing of wastewater and for controlling air and water pollution; machines and installations composed thereof for the application of spray technology and spray-drying technology for industrial purposes, namely, machines for applying spray coatings and for spray drying pharmaceuticals, cosmetics, and food products; earthmoving, construction, oil and gas extraction and mining equipment, namely, digging and drilling machines; mechanical equipment being machines for use in agriculture, namely, windrowers, tillers, threshers, harvesters, combines, fertilizer spreaders, manure spreaders, and mowers; electrolysis apparatus for the production of disinfectant; electric food grinders; fodder presses; rotative and linear milking equipment consisting of milking installations being milking machines; semi-automatic and fully automatic milking machines; milking machines; accessories being parts and installations for use with milking machines, namely, milk stimulators, filters for milking machines, vacuum pumps, milk pumps, air compression pumps, water pumps, controlled volume pumps for chemicals, electrically operated teat spraying apparatus, electrically operated udder washing installations, aerators, washing installations for milking systems, and industrial milking robots; negative pressure regulators being parts of milking machines; mounting devices for milking machines, namely, for securing milking machines to walls and floors and for securing milking clusters to udders; pumps and pulsators being parts of milking machines for the dairy industry; power operated washing and spraying devices for udders; automatic food dispensing apparatus for animals; devices for milking stands, namely, mechanical machines being yard scrapers; stationary machines for automatic spraying of cows with liquid insecticides and germicides; suction cups for milking machines; machines for distributing animal forage in mangers; equipment for dairy animal stalls and milking stands, namely, electrically operated dung scrapers; robotic and electrically operated dung scrapers; mechanical spiral conveyors being machines for dung; mechanical agitators being machines for processing dung; mechanical separators being machines for processing dung; tractor-towed agricultural implements, namely, earth moving machines and manure spreaders; disposal, processing and recycling systems for manure, slurry and other animal waste, comprising pumps or valves for transporting solid and liquid animal excreta, and presses for separating undigested solid components; mechanized livestock feeders; machines and machine tools for cleaning and rinsing purposes for use in the processing industry, namely, in the food processing industry, in particular dairy farming, namely, machines for cleaning teats and hooves; installations and devices for processing and removing manure and slurry for energy generation, namely, pumps and conveyors; electric sweepers; attrition machines for cleaning; cleaning devices and mechanical cleaning apparatus, in particular chemical and/or mechanical cleaning apparatus and installations, in particular for dairy farming, the brewing and beverage industry, the food industry, the chemical, pharmaceutical and cosmetics industry; barn cleaners being automatic and

robotic machines for cleaning manure from dairy barns; steamrollers; condensing installations; mechanized livestock waterers; vacuum packing machines and installations assembled from the aforesaid goods for the production, processing and refining of foodstuffs, semiluxury food and beverages; vacuum installations, namely, vacuum pumps being parts of milking machines; bottling installations being machines for bottling solid, paste-like and liquid substances and heterogeneous substance mixtures; pumps for machines in the food processing industry, and milking machine pumps; withdrawing devices for milking units, namely, mechanical apparatus being machines for removing milking equipment from calves; machines for filtering milk waste for calf feeding; installations and apparatus for the application of fluid bed technology, for industrial use, for industrial purposes, namely, machines for creating fluidized beds for the production of chemicals, pharmaceuticals, cosmetics, food, beverages, agricultural crops, for preparation of dairy products, and for oil extraction and oil processing; installations and apparatus for applying spray technology, namely, mechanical spray driers and spray granulators; machines and mechanical devices being machines for concentrating, dispersing, suspending, filtration, separating, agglomerating, extracting, fermenting, homogenising, gas treating and ventilating of solid, liquid and/or gaseous materials, including their intermediates and precursors of synthetic, plant or animal origin, the aforesaid goods, especially, for use in relation to milk, milk products, milk intermediates, cheese, cheese goods, cheese intermediates, cheese intermediates, butter and butter goods; machines and mechanical devices being machines for concentrating, dispersing, suspending, filtration, separating, agglomerating, extracting, fermenting, homogenising, gas treating and ventilating of solid, liquid and/or gaseous materials, including their intermediates and precursors of synthetic, plant or animal origin including butter intermediates, coffee, beer, juices, meat, fish preparations and nutritional supplements; machines and mechanical devices being machines for concentrating, dispersing, suspending, filtration, separating, agglomerating, extracting, fermenting, homogenising, gas treating and ventilating of solid, liquid and/or gaseous materials, including their intermediates and precursors of synthetic, plant or animal origin, including educts and goods in the petrochemical, chemical and pharmaceutical industries, especially, commercial or industrial waste; machines and mechanical devices being machines for concentrating, dispersing, suspending, filtration, separating, agglomerating, extracting, fermenting, homogenising, gas treating and ventilating of solid, liquid and/or gaseous materials, including their intermediates and precursors of synthetic, plant or animal origin, including wastewater or exhaust gases; rotating cylindrical brushes for livestock being parts of machine; dust collectors, dust removing apparatus being vacuums for industrial cleaning purposes; automatic dispensing devices being machines for feeding liquids into drinking troughs; automatic dispensing devices being machines for feeding chemicals for milk pipeline washing installations.

For Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, namely, heating pumps, fuel heaters, steam generating apparatus, gas stoves, electric refrigerators, air drying apparatus in the nature of air drying machines for agriculture; water supply and sanitary installations, namely, water fountain machines, sanitary bath installations, lighting fixtures, heat generators and cooking stoves; air treatment and air purification equipment, namely, air purifiers; air deodorizing apparatus; air purifying apparatus; ventilation hoods; commercial and industrial dehumidifiers; HVAC units for heating, ventilation and air conditioning; heat-recovery ventilators; air cooling apparatus; air purifying apparatus and machines; electrically powered hot air blowers for ventilation; electric fans; regulating and safety accessories for water and gas installations, namely, evaporative air coolers, steam valves, ball valves, namely, for use in plumbing installations, level regulating valves for water tanks, namely, for use in plumbing installations, air valves for steam heating installations; wet

cooling towers and dry cooling towers with natural ventilation and/or forced ventilation for the cooling of liquid and/or vaporous media; gas burners, heating boilers and water heaters; heat exchangers, not parts of machines; heat regenerators; stoves being heating apparatus; air reheaters; heat pumps; steam accumulators; heat accumulators; heat generators; electric stoves for heating; incinerators; refrigerators and freezers; refrigerating appliances and installations, namely, refrigerators and freezers; cooling appliances and installations, namely, beverage cooling apparatus; refrigerating chambers; ice machines and apparatus; cooling installations for foodstuffs, including milk cooling installations; cooling installations for use in lad, air and sea vehicles, trailers, shipping containers and containers for transport; water coolers; apparatus for refrigerating foodstuffs, namely, milk cooling installations; milk cooling installations, namely, refrigerated cabinets for milk storage; milk chillers, namely, coolers in the form of cooling units used to cool a heat transfer medium and a heat exchanger in which the heat transfer medium cools milk as it comes from cows being milked; cooling and refrigerating installations for the construction industry for the cooling of concrete; cooling and refrigerating installations for the mining industry; cooling and refrigerating installations for sports and leisure facilities; refrigerated shipping containers; ice making machines; light reflectors; lighting installations; LED lighting installations; luminaires being appliances for illumination, namely, light bulbs; discharge tubes, electric, for lighting; infrared and ultraviolet lamps not for medical purposes; sanitary installations, namely, disinfectant apparatus for industrial purposes, including the dairy industry, water sterilizers, water purification and filtration machines and apparatus, water desalination units, water desalination plants, sanitation equipment in the nature of taps and sinks, sterilizers not for medical purpose, urinals and pipes being parts of sanitary facilities; sterilization, disinfection and decontamination equipment, namely, sterilizers; disinfectant apparatus; autoclaves for industrial purposes; water sterilizers; sterilizers for foodstuffs, including milk; steam sterilizers; water purification, desalination and conditioning installations; agricultural irrigation units; installations and apparatus for wastewater treatment, namely, water sterilizers and wastewater purification units; reverse osmosis units, water filtering apparatus and water purification installations; pipes being parts of sanitary facilities; sterilizers not for medical purposes; food and beverage cooking, heating, roasting, grilling, cooling devices and equipment, namely, namely, cooking stoves and ovens, electric and gas grills, bread ovens, bread baking machines, bread toasters in the nature of electric toasters, electric deep fryers, electric appliances for making yoghurt, electric coffee percolators, electric coffee machines, electric pressure cooker, industrial deep fryers, electric hotplates, electric kettles, coffee bean roasting machines; electric deep fryers; extractor hoods for industrial use, namely, ventilation hoods; electric cooking utensils, namely, woks and grills; electric kettles; coffee roasters; electric food dryers; electric grills; infrared and microwave ovens for industrial purposes; pasteurizers for use in the food and beverage industry; ionization apparatus for the treatment of air or water; wastewater treatment tanks being water purification units for industrial purposes; industrial microwave ovens and furnaces not for food or beverages; heat exchangers for chemical processing; flare stacks for use in the oil industry; distillation columns being water distillation units; industrial water treatment installations, namely, plants comprising water filtering units; industrial installations comprising water filtering units for filtering liquids; gas scrubbing installations; gas scrubbing and purification apparatus; sewage treatment plants; animal feed drying apparatus and installations; crystallizes being cooking ovens used to crystallize sugar; installations for the purification of gases; evaporating installations, apparatus and appliances, namely, steam vaporizers; drying apparatus for chemical processing; humidifying installations and equipment, namely, humidifiers; filter systems consisting of water filters, not used as parts of machines, motors or engines; cleaning installations and equipment for liquids, namely, water purifying apparatus; water purification apparatus, water treatment apparatus, namely, water filters, water supply and water desalination installations and units; apparatus and equipment for the separation of solid and liquid materials from gaseous and/or liquid media, namely, separators for the cleaning and purification of gases; apparatus

and equipment for exhaust steam and waste heat recovery, namely, heat exchangers, not being parts of machines; automatic watering installations, namely, irrigation sprinklers and hot water heating installations; pressure water purification tanks; clean room installations; water intake apparatus being washbasins as parts of sanitary installations; water filtering apparatus; water softening apparatus; water distribution installations being agricultural irrigation units; water heaters; water heating installations; air treatment apparatus and machines, namely, air purifiers; germicidal lamps for purifying air; air filters for industrial and household use; water purification filters; filters for the separation of solid or liquid substances from liquids or gases, including the air; flues for heating boilers for conveying exhaust gases; gas condensers, other than parts of machines; ionization apparatus for the treatment of air; valves being plumbing fittings as parts of sanitary, heating, steam generating, cooking, refrigerating, drying, ventilating and water supply installations; installations and apparatus for the thermal treatment as well as for the thermal processing of foodstuffs, semiluxury food, beverages and animal feed, in particular for warming, heating, pasteurizing, distilling, refrigerating, freezing, chilling, condensing, spray drying, freeze-drying, drying, in particular educts and products of the petrochemical, chemical and pharmaceutical industry and in particular of commercial or industrial waste, wastewater or exhaust gases, namely, thermal immersion circulators for cooking; milking parlor equipment, namely, air curtains being plumbing fittings in the nature of aerators; water and chemical distilling units; mechanical watering systems for livestock farming, namely, automatic watering machines; dairy barn equipment, namely, electronic climate control devices being air heaters; all aforementioned goods also manufactured according to customers' order; ice making machines for the production and processing of dry ice, cubed ice, crushed ice and flaked ice; dairy barn and milking parlor equipment, namely, power-operated ventilation curtains being ventilation fan grilles that open and close, power-operated ventilation system comprising electric fans for the roof of livestock barns; drying apparatus for the chemical industry, namely, chemical fiber drying apparatus, distillation apparatus for industrial purposes for the chemical industry, evaporators for chemical processing, steam equipment for the chemical industry, namely, steamers for chemical processing; installations for thickening of suspensions by means of decantation or evaporation, namely, separators for the cleaning and purification of gases; reverse osmosis machines for concentrating substances dissolved in liquids

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Regulating, checking, supervision, control, measuring and switching installations, apparatus and instruments other than for office, namely, electrical controllers; detecting and monitoring instruments, namely, electrical control for valves, electrical plugs for valves, electrical control valves in the nature of electrical valve actuators; temperature indicators and electrical controllers; food analysis apparatus; quantity indicators; range finders; diagnostic apparatus, not for medical purposes, namely, diagnostic apparatus for testing food; electrical transducers; flow meters; pressure indicating gauges; refractometers; spectrometers; thermometers not for medical purposes; remote controls for automatic food dispensers; dosage dispensers for measuring and dispensing portions of fluids, powders and solid granules, not for medical use; automatic liquid flow control instruments; remote controls for automatic food dispensers for managing and monitoring dairy herds; testing apparatus, not for medical purposes, namely, diagnostic apparatus for testing food, testers for electric inductance, capacitance and resistance, pH testers, air flow testers, leak testing apparatus, testing apparatus for checking electronic devices in the nature of textile testing machines, temperature sensitive testing apparatus for industrial use in the nature of thermostats, metal strength testing machines, electronic apparatus for testing the sterility of pharmaceuticals and injectable solutions; alignment and calibrating instruments, namely, wheel alignment and calibrating meters; vacuum gauges; scales; electronic measuring, control checking

and supervision apparatus and instruments, namely, thermostats and hygrometers for climate monitoring and climate control; data processing apparatus and data recording installations and equipment, namely, computers; data output installations and equipment other than for office use, namely, computers; data transmission installations and equipment other than for office use, namely, wireless communication devices for data transmission; electrotechnical and electronic apparatus and equipment for process monitoring and process control, for the collection, processing and output of data, namely, downloadable computer software to monitor and control factory manufacturing processes and data management software; data processing equipment, namely, measuring, monitoring and controlling apparatus and devices for use in the industrial and commercial technology; sensors and detectors, namely, sensors for the measurement of time of flight of electromagnetic waves and of ultrasonic waves, titration controllers in the nature of concentration meters, sensors for UV bioluminescence, infrared X-Ray sensors in the nature of infrared detection apparatus, mechanical sensors in the nature of pressure sensors, force sensors, torque sensors, near-infrared sensors in the nature of sensors used for measuring near-infrared waves in industrial and agricultural products, sensors for non-dispersive infrared analysis, light reflective sensors in the nature of photoelectric sensors, sensors for density measurement, electro-magnetic sensors in the nature of apparatus used to measure electromagnetic fields, electronic sensors in the nature of electric sensors for industrial and agricultural use, sensors for use in flow cytometry in the nature of cytometers, fluorescence analyzers, inductive sensors in the nature of metal detectors for industrial use, ion-sensitive field effect transistor, radio frequency sensors in the nature of sensors to detect wireless electromagnetic signals for industrial use, coriolis sensors in the nature of flow meters, optical sensors, camera sensors, sensors for use in potentiometric analysis, photoelectric sensors, capacitive sensors in the nature of touch pads, touchscreen sensors, conductivity and impedance sensors in the nature of sensors for measuring conductivity in industrial and agricultural products, flow sensors in the nature of sensors to measure the flow of gases and liquids for industrial and agricultural use, sensors for the record of individual physical parameters in the nature of temperature sensors, liquid level sensors, proximity sensors; information technology and audiovisual equipment, namely, audiovisual receivers, computers, computer hardware, included monitors, printers, scanners and cameras; scanners other than for office use; luminescence scanners; electronically encoded identity devices, namely, senders in the nature of radio transmitters, receivers in the nature of radio receivers, in bolus form, and implants in the nature of microchips for automatic animal identification, for delivering concentrated feed for cow management, for registering milk quantities, milk ingredients, milk quality and animal health and monitoring the digestion of milk-producing animals; electronic identity devices for livestock; communications equipment, namely, radio transmitters; radio receivers; transponders; electrical switchgear, namely, voltage boosting devices for electric power lines; X-ray apparatus, not for medical purposes; safety, security, protection and signalling devices, namely, signalling whistles; neck tags being electronic data transmission and reception apparatus and transponders for livestock; protective and safety equipment, namely, safety helmet; protective industrial boots; protective industrial gloves; protective industrial clothing; protective safety goggles; downloadable software for livestock management; downloadable application software for livestock management; downloadable computer application software for mobile devices and computers for industrial processing control and for dairy herd control; downloadable dairy herd management software and computer hardware; computer peripheral devices, other than printers, scanners and excluding computer peripherals for office use; optical devices, sensors and visual equipment, namely, optical lamps, optical sensors, optical lenses, and optical condensers, amplifiers, and emphasisers, namely, devices for enhancing visibility and highlighting critical data, and digital signal processors; video monitoring systems consisting of monitoring cameras and video screens; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity other than for office use; electrical contacts; electric relays; computer apparatus for recording, storing, and transmission of sound or images; scientific surveying,

photographic, cinematographic, optical, weighing, signalling apparatus and instruments other than for office use, namely, cameras, weighing apparatus and instruments; scientific research and laboratory apparatus, namely, microscopes; educational apparatus, namely, flight simulators; chemistry apparatus and instruments other than for office use, namely, laboratory funnels, calipers, test tubes, and spectroscopes; electronic publications, downloadable, namely, books, journals and magazines in the field of the food and beverages industries, pharmaceutical and chemical industries; apparatus and instruments for electricity, namely, electric cables; printed circuits; load cells being photovoltaic cells; scales for animals; electronic animal counting devices; electronic milk flow monitoring devices and milk flow meters; electronic data processors, telecommunications transmitters, radio receivers and transponders attached to cows for automatic recognition of animals, for supply of feed and fodder concentrate, for cow calendar tracking, for determination of milk quantities and quality, for determination of milk temperatures, and for determination of washing temperatures; electric control panels for monitoring and operating milking systems; remote controls for livestock feeders for automatically dispensing animal feed; automatic dispensers for supplying liquids in drinking bowls; electronic controllers for milk pipeline washers; automatic dispensers for supplying chemicals for milk pipeline washers; milking flow monitors, automatic liquid-flow controls for milking machines, automatic feed dispensers for dairy animals; flow sensors for milkers; downloadable software and applications for mobile devices for use in managing livestock feeders; downloadable cloud server software for use in managing cow milking schedules; downloadable applications for use with mobile devices for use in managing livestock feeders; audio recordings about livestock management; video recordings about livestock management; sound recording apparatus; cloud-based downloadable network monitoring software; computer programs, downloadable for use in managing livestock feeders; recorded content, namely, downloadable data files featuring information about livestock feeding; electrical access controllers for gates; electronic communication devices for sharing and accessing remotely stored files and information via the Internet; electronic communication devices for setting up and accessing virtual computing infrastructures, networking and storage; downloadable computer software for sharing and accessing remotely stored files and information via the Internet; downloadable computer software for setting up and accessing virtual computing infrastructures, networking and storage; downloadable software for monitoring cloud storage and cloud computing services; printed circuit boards; downloadable computer software platforms for social networking; downloadable unified communications software for transmitting data; downloadable video conferencing software.
