International Registration 1797725 **International Registration Date** Dec. 19, 2023

GOODS AND SERVICES INFORMATION

For Advisory services relating to the maintenance and repair of mechanical and electrical equipment; electric appliance installation and repair; electrical wiring services, namely, installation of electrical wiring; installation of electrical earthing; installation of electrical wiring; maintenance and repair of electrical earthing systems; providing information relating to the installation of electrical apparatus; renovation, repair and maintenance of electrical wiring; repair of electrical equipment and electrotechnical installations; installation, repair and maintenance of connection cables, data cables, earth cables, electric cables, electronic cables, ethernet cables, power cables; installation, repair and maintenance of cable connectors, adapter plugs, electric couplings, electric plugs, electrical connectors, plug adaptors, plug connectors, power connectors, cable connectors; installation, repair and maintenance of amplifiers; installation, repair and maintenance of power controllers, electric switches, electrical connection boxes, multi-outlet socket blocks, power distributing boxes, electricity meters, electric control devices for energy management, electrical controlling devices.

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Amplifiers; distribution amplifiers; power amplifiers; USB (universal serial bus) hardware; signal amplifiers; electronic signal transmitters; switchboards; transceivers; transmitters of electronic signals; LAN [local area network] hardware; cable connectors; data cables; ethernet cables; static grounding systems and apparatus, namely apparatus for controlling or eliminating static electricity; apparatus and instruments for controlling electricity; electric control panels; electric converters; electric current control devices; electric current switches; electric power distribution machines; electric switching apparatus; electric transformers; electrical adapters; electrical power distribution blocks; electricity limiters; circuit breakers, namely, fault voltage breakers; panels for the control of electricity; power adapters; power line conditioners; power controllers; electrical

power distributors; stage lighting regulators, namely, illumination regulators for stages; voltage surge protectors; adapter plugs; cables for earthing; circuit breakers; covers for electric outlets; distribution boxes for electrical power; earth cables; earth terminals; earthing clamps; electric connections; electric contacts; electric control panels; electric couplings; electric plugs; electric switches; electric wires and cables; electrical connection boxes; electrical connector housings; electrical connectors; electrical sockets; joint boxes for housing cable joints, namely, electric junction box housings; moveable sockets; multi-outlet socket blocks; plug adaptors; plug connectors; power connectors; power distributing boxes; electric cables and wires; connection cables; connections for electric lines; electric cables; electric extension cables; electronic cables; power cables; cable identification markers for electric cables, namely, color-coded protective sheaths and sleeves for electrical cables for use in cable identification; wire connectors [electricity]; electrical circuits and circuit boards; circuit boards provided with integrated circuits; apparatus for measuring, monitoring and analyzing electricity consumption; electro optic transducers; electricity meters; current- meters, namely, electronic devices for measuring electric current; voltmeters; wattmeters; controllers and regulators, namely, apparatus for controlling and regulating electric current; electric control devices for energy management; electrical controlling devices; lighting control apparatus.

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Custom manufacture of connection cables, data cables, earth cables, electric cables, electronic cables, ethernet cables, power cables; custom manufacture of cable connectors, adapter plugs, electric couplings, electric plugs, electrical connectors, plug adaptors, plug connectors, power connectors, cable connectors; custom manufacture of amplifiers; custom manufacture of power controllers, electric switches, electrical connection boxes, multi-outlet socket blocks, power distributing boxes, electricity meters, electric control devices for energy management, electrical controlling devices.

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Research and development of new products for others; scientific research in the field of electricity; engineering services; electrical engineering; engineering design services; engineering services in the field of connection cables, data cables, earth cables, electric cables, electronic cables, ethernet cables, power cables; engineering services in the field of cable connectors, adapter plugs, electric couplings, electric plugs, electrical connectors, plug adaptors, plug connectors, power connectors, cable connectors; engineering services in the field of amplifiers; engineering services in the field of power controllers, electric switches, electrical connection boxes, multi-outlet socket blocks, power distributing boxes, electricity meters, electric control devices for energy management, electrical controlling devices; product quality testing services; testing of apparatus in the field of electrical engineering; testing the functionality of apparatus and instruments; testing services in the field of electricity; testing of connection cables, data cables, earth cables, electric cables, electronic cables, ethernet cables, power cables; testing of cable connectors, adapter plugs, electric couplings, electric plugs, electrical connectors, plug adaptors, plug connectors, power connectors, cable connectors; testing of amplifiers; testing of power controllers, electric switches, electrical connection boxes, multi-outlet socket blocks, power distributing boxes, electricity meters, electric control devices for energy management, electrical controlling devices; designing of electrical systems; industrial design.

GOODS AND SERVICES INFORMATION

For Advisory services relating to the maintenance and repair of mechanical and electrical equipment; electric appliance installation and repair; electrical wiring services, namely, installation of electrical wiring; providing information relating to the installation of electrical apparatus; renovation, repair and maintenance of electrical wiring; repair of electrical equipment and electrotechnical installations; installation, repair and maintenance of signal cables for IT, AV and telecommunication, and of audio cables, coaxial cables, connection cables, data cables, electric cables, electronic cables, ethernet cables, microphone cables, power cables, video cables; installation, repair and maintenance of optical cables, fibre optic cables; installation, repair and maintenance of cable connectors, coaxial connectors, adapter plugs, electric couplings, electric plugs, electrical connectors, plug adaptors, plug connectors, power connectors, cable connectors; installation, repair and maintenance of optical connectors, optical fiber connectors; installation, repair and maintenance of computer networking and data communications equipment, amplifiers, analog-to-digital converters, digital signal processors; installation, repair and maintenance of power controllers, electric switches, electrical connection boxes, multi-outlet socket blocks, power distributing boxes, electricity meters, electric control devices for energy management, electrical controlling devices.

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Amplifiers; analog-to-digital converters; distribution amplifiers; power amplifiers; USB (universal serial bus) hardware; signal amplifiers; audio transmitter units; digital signal processors; electronic signal transmitters; switchboards; transceivers; transmitters of electronic signals; wireless transmitters and receivers; computer network adapters; computer network bridges; computer networking hardware; ethernet adapters; LAN [local area network] hardware; audio cables; cable connectors; data cables; ethernet cables; fibre optic cables; fibre optic couplings; fiber optics; fibres for the transmission of sounds and images;

microphone cables; optical cables; optical fiber cables; optical fiber connectors; optical fibres; optical fiber switches; USB cables; video cables; apparatus and instruments for controlling electricity; electric control panels; electric converters; electric current control devices; electric current switches; electric power distribution machines; electric switching apparatus; electric transformers; electrical adapters; electrical power distribution blocks; electricity limiters; circuit breakers, namely, fault voltage breakers; panels for the control of electricity; power adapters; power line conditioners; power controllers; electrical power distributors; stage lighting regulators, namely, illumination regulators for stages; voltage surge protectors; adapter plugs; coaxial cable connectors; covers for electric outlets; distribution boxes for electrical power; electric connections; electric contacts; electric couplings; electric plugs; electric switches; electric wires and cables; electrical connection boxes; electrical connector housings; electrical connectors; electrical sockets; fibre optic panels; joint boxes for housing cable joints, namely, electric junction box housings; moveable sockets; multi-outlet socket blocks; plug adaptors; plug connectors; power connectors; power distributing boxes; electric cables and wires; cables for optical signal transmission; connection cables; connections for electric lines; electric cables; electric extension cables; electronic cables; guitar cables; power cables; cable identification markers for electric cables, namely, color-coded protective sheaths and sleeves for electrical cables for use in cable identification; wire connectors [electricity]; electrical circuits and circuit boards; audio circuit boards; circuit boards provided with integrated circuits; digital sound processors; apparatus for measuring, monitoring and analyzing electricity consumption; electro-optic transducers; electricity meters; current-meters, namely, electronic devices for measuring electric current; voltmeters; wattmeters; controllers and regulators, namely, apparatus for controlling and regulating electric current; electric control devices for energy management; electrical controlling devices; lighting control apparatus.

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Custom manufacture of signal cables for IT, AV and telecommunication, and of audio cables, coaxial cables, connection cables, data cables, electric cables, electronic cables, ethernet cables, microphone cables, power cables, video cables; custom manufacture of optical cables, fibre optic cables; custom manufacture of cable connectors, coaxial connectors, adapter plugs, electric couplings, electric plugs, electrical connectors, plug adaptors, plug connectors, power connectors, cable connectors; custom manufacture of optical connectors, optical fiber connectors; custom manufacture of computer networking and data communications equipment, amplifiers, analog-to-digital converters, digital signal processors; custom manufacture of power controllers, electric switches, electrical connection boxes, multi-outlet socket blocks, power distributing boxes, electricity meters, electric control devices for energy management, electrical controlling devices.

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Research and development of new products for others; scientific research in the field of electricity; engineering services; electrical engineering; engineering design services; engineering services in the field of signal cables for IT, AV and telecommunication, and of audio cables, coaxial cables, connection cables, data cables, electric cables, electronic cables, ethernet cables, microphone cables, power cables, video cables; engineering services in the field of optical cables, fibre optic cables; engineering services in the field of cable connectors, coaxial connectors, adapter plugs, electric couplings, electric plugs, electrical connectors, plug adaptors, plug connectors, power connectors, cable connectors; engineering services in the field of optical connectors, optical fiber connectors; engineering services in the field of computer networking and data communications equipment, amplifiers, analog-to- digital converters, digital signal processors; engineering services in the field

of power controllers, electric switches, electrical connection boxes, multi-outlet socket blocks, power distributing boxes, electricity meters, electric control devices for energy management, electrical controlling devices; product quality testing services; testing of apparatus in the field of electrical engineering; testing the functionality of apparatus and instruments; testing services in the field of electricity; testing of signal cables for IT, AV and telecommunication, and of audio cables, coaxial cables, connection cables, data cables, electric cables, electronic cables, ethernet cables, microphone cables, power cables, video cables; testing of optical cables, fibre optic cables; testing of cable connectors, coaxial connectors, adapter plugs, electric couplings, electric plugs, electrical connectors, plug adaptors, plug connectors, power connectors, cable connectors; testing of optical connectors, optical fiber connectors; testing of computer networking and data communications equipment, amplifiers, analog-to-digital converters, digital signal processors; testing of power controllers, electric switches, electrical connection boxes, multi-outlet socket blocks, power distributing boxes, electricity meters, electric control devices for energy management, electrical controlling devices; designing of electrical systems; industrial design.

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Design, development, implementation and integration of computer hardware, software systems, and computer systems for computer software, systems and programs for data processing, communication, telecommunications, document management, e-commerce, digital image processing, digital file processing, digital services, local area network management, web creation, data storage, analysis and processing; design, development, implementation and integration of computer

hardware, software systems, and computer systems for marketing, analysis and processing of marketing data, robotics, 3D printing, online booking services, entertainment services, the aviation industry, entertainment systems, market studies, electronic and digital tests, examinations and teaching materials, the media industry and marketing studies; design, development, implementation and integration of computer hardware, software systems, and computer systems for streaming services for electronic and digital content, virtual realities, satellites, big data, payments traffic and financial affairs, agriculture, forestry, fisheries, mining, construction and urban planning, wholesale and retail, logistics and vehicles computer software, systems and programmes; design, development, implementation and integration of computer hardware, software systems, and computer systems relating to computer software, systems and programs for transport planning, accommodation and food services, insurance, real estate, education, health and social services, publishing, space technology, the food industry, and radio and television broadcasting; design, development, implementation and integration of computer hardware, software systems, and computer systems, including computer software for computer-to-computer communication, computer software development tools, computer software for communications with users of notebook computers and mobile devices, and computer software for the development and creation of web applications and user interfaces; design, development, implementation and integration of computer software, applications and systems relating to communication between computers; design, development, implementation and integration of computer software and application development tools; design, development, implementation and integration of computer software and applications for communications with users of notebook computers and mobile devices; design, development, implementation and integration of computer software and applications for the development and creation of web applications and user interfaces; design, development, implementation and integration of computer software, applications and systems relating to software as a service (SaaS) platforms and platform as a service (PaaS); design, development, implementation and integration of computer software for controlling and managing access server applications; design, development, implementation and integration of computer software, applications and systems for the maintenance and use of computer systems; design, development, deployment and integration of computer systems for data processing, communication, telecommunications, document management, e-commerce, digital image processing, processing of digital files, digital services, physical network management, website management, data storage, analysis and processing, marketing, analysis and processing of marketing data, robotics, 3D printing information systems; design, development, implementation and integration of computer systems for online booking services, entertainment services, the aviation industry, entertainment systems, market research, electronic and digital tests, examinations and teaching materials, media industry, marketing research, streaming services for electronic and digital content, virtual reality, satellites, big data, payments traffic and financial affairs; design, development, deployment and integration of computer systems for agriculture, forestry, fisheries, mining, construction and urban planning, wholesale and retail trade, logistics, vehicles, transport planning, accommodation and food services, insurance, real estate, education, health and social services, publishing, space technology, the food industry, radio and television information systems; computer system analysis; computer system monitoring services, namely, monitoring of computer systems by remote access to ensure proper functioning; creating and maintaining web sites for others; creation of computer software and programs, updating and adapting in the nature of maintenance of computer programs and software relating to data processing, communication, telecommunications, document management, e-commerce, processing digital images, processing digital files, digital services, administration of local area networks, creation of websites, storage, analysis and processing of data, marketing, analysis and processing of marketing data, robotics, 3D printing, online booking services; support in the nature of troubleshooting of computer software problems and maintenance services for computer software and applications for online booking services, entertainment services and aviation relating to entertainment

systems, market research, electronic and digital tests, examinations and teaching materials, media, marketing research, streaming services for electronic and digital content, virtual reality, satellites, big data, payment services and financial matters, computer software and applications relating to agriculture and forestry; support in the nature of troubleshooting of computer software problems and maintenance services for computer software and applications for fisheries, mining, construction and urban planning, wholesale and retail trade, logistics, vehicles, transport planning, accommodation and catering, insurance, real estate, education, health and social services, publishing, space technology, food industry, radio and television; support in the nature of troubleshooting of computer software problems and maintenance services for computer software and applications relating to communication between computers; support in the nature of troubleshooting of computer software problems and maintenance services for computer software and application development tools; support in the nature of troubleshooting of computer software problems and maintenance services for computer software and applications for communication with users of notebook computers and mobile devices; support in the nature of troubleshooting of computer software problems and maintenance services for computer software and applications for the development and creation of web applications and user interfaces; support in the nature of troubleshooting of computer software problems and maintenance services for computer software and applications relating to software as a service (SaaS) platforms and platform as a service (PaaS); support in the nature of troubleshooting of computer software problems and maintenance services for computer software for the maintenance and use of computer systems; creation of computer software and programs, updating and adapting in the nature of maintenance computer programs and software relating to data processing, communication, telecommunications, document management, e-commerce, processing digital images, processing digital files, digital services, administration of local area networks, creation of websites, storage, analysis and processing of data, marketing, analysis and processing of marketing data, robotics, 3D printing, online booking services; creation of computer software and programs, updating and adapting in the nature of maintenance computer programs and software relating to online booking services, entertainment services, aviation industry, entertainment systems, market research, electronic and digital tests, examinations and teaching materials, the media industry, marketing research, streaming services for electronic and digital content, virtual reality, satellites, big data, payment services and financial matters, agriculture and forestry; creation of computer software and programs, updating and adapting in the nature of maintenance computer programs and software for fisheries, mining, construction and urban planning, wholesale and retail trade, logistics, vehicles, transport planning, accommodation and catering, insurance, real estate, education, health and social services, publishing, space technology, the food industry, and radio and television; computer programming concerning software and applications programs, updating and adapting in the nature of maintenance computer programs and software relating to data processing, communication, telecommunications, document management, e-commerce, processing digital images, processing digital files, digital services, administration of local area networks, creation of websites, storage, analysis and processing of data, marketing, analysis and processing of marketing data, robotics, 3D printing, online booking services; computer programming concerning computer software and applications relating to entertainment services, the aviation industry, entertainment systems, market research, electronic and digital tests, examinations and teaching materials, media, marketing research, streaming services for electronic and digital content, virtual reality, satellites, big data, payments traffic and financial matters, agriculture, forestry, fisheries and mining; computer programming concerning computer software and applications for construction and urban planning, wholesale and retail trade, logistics, vehicles, transport planning, accommodation and catering, insurance, real estate, education, health and social services, publishing, space technology, the food industry, and radio and television broadcasting; computer programming concerning computer software and applications

relating to communication between computers; programming of computer software and application development tools; programming of computer software and applications for communications with users of notebook computers and mobile devices; programming of computer software and applications for the development and creation of web applications and user interfaces; programming of computer software relating to software as a service (SaaS) platforms and platform as a service (PaaS); programming of computer software relating to controlling and managing access server applications; programming of computer software relating to the maintenance and use of computer systems; programming of software as a service (SaaS) platforms and platform as a service (PaaS); information technology consulting services relating to computer programming, design, development, implementation and integration of computer software, and consulting services for others in the field of planning, and implementation project management of IT agreements, IT and software acquisitions, managing and leading software and IT projects; consultancy services for computer software, computer systems analysis and computer programs for data processing, communication, telecommunications, document management, electronic commerce, digital image processing, digital file processing, digital services, local area network management, website creation, data storage, analysis and processing, marketing, analysis and processing of marketing data, robotics, 3D printing, online booking services and entertainment services; consultancy services for computer software, computer systems analysis and computer programs in the aviation industry, entertainment systems, market research, electronic and digital tests, examinations and teaching materials, media, marketing research, streaming services for electronic and digital content, virtual reality, satellites, big data, payments traffic and financial affairs, agriculture, forestry, fisheries, mining, construction and urban planning; consultancy services for computer software, computer systems analysis and computer programs concerning wholesale and retail trade, logistics, vehicles, transport planning, accommodation and food service activities, insurance, real estate, education and training, health and social services, publishing activities, space technology, the food industry and radio and television; consultancy relating to computer software for communication between computers, computer software development tools, computer software for communications with users of notebook computers and mobile devices, computer software for the development and creation of web applications and user interfaces; IT-related consultancy on computer software, computer systems and applications relating to data processing, communication, telecommunications, document management, e-commerce, digital image processing, digital file processing, digital services, contact network management, website creation, data storage, analysis and processing, marketing, analysis and processing of marketing data; IT-related consultancy on computer software, computer systems and applications relating to robotics, 3D printing, online booking services, entertainment services, aviation, entertainment systems, market research, electronic and digital tests, examinations and teaching materials, the media industry, marketing research, streaming services for electronic and digital content, virtual reality, satellites, big data, payments traffic and financial matters; IT-related consultancy on computer software, computer systems and applications relating to agriculture, forestry, fisheries, mining, construction and urban planning, wholesale and retail trade, logistics, vehicles, transport planning, accommodation and food services, insurance, real estate, education and training, health and social services, publishing, space technology, the food industry, radio and television; consultancy services relating to design and development of computer hardware, computer software and computer systems; research and development on computer software and systems relating to data processing, communication, telecommunications, document management, e-commerce, processing digital images, processing digital files, digital services, administration of local area networks, creation of websites, storage, analysis and processing of data, marketing, analysis and processing of marketing data, robotics, 3D printing, online booking services; product research and development on computer software and systems concerning robotics, 3D printing, online booking services, entertainment services, aeronautical industry, entertainment systems, market research, electronic and digital tests, examinations and teaching

materials, media industry, marketing research, streaming services for electronic and digital content, virtual reality, satellites, big data and payment; product research and development on computer software and systems concerning computer software and applications relating to financial, agricultural, forestry, fisheries, mining, construction and urban planning, wholesale and retail trade, logistics, vehicles, transport planning, accommodation and catering, insurance, real estate, education, health and social services, publishing and space technology; product research and development on computer software and systems concerning computer software and applications relating to the food industry and radio and television broadcasting; computer-aided graphic design, namely graphic design of brands, logos, websites and related elements, publications, visual identity of computer software, visual identity of the company, graphic design of user interfaces, marketing material and packaging **International Classes** 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 1800137 **International Registration Date** Mar. 04, 2024

GOODS AND SERVICES INFORMATION

For Surface treatment equipment for use in manufacture of semiconductors, namely, semiconductor wafer plating processing machines for use in manufacture; semiconductor manufacturing machines; metal plating machines for use in the manufacture of semiconductors; semiconductor wafers plating processing machines for use in the manufacture of semiconductors; surface treatment equipment for semiconductor wafers and integrated circuits, namely, metal plating processing machines system comprised of mixing machines, filter machines, spraying machines, plating bath machines, pumping machines, plating processing machines for use in surface treatment; semiconductor substrates manufacturing machines; semiconductor wafer processing machines; etching machines and equipment for semiconductor substrates; electrolessplating machines; electroplating machines; liquid metal processing tanks for electronic components and semiconductor wafer plating being parts of machines; chemical processing tanks being parts of machines; machines and equipment for use in manufacturing and processing electronic circuit printed boards, namely, metal plating processing machines system comprised of mixing machines, filter machines, spraying machines, plating bath machines, pumping machines, plating processing machines for use in surface treatment.

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Chemicals for use in the manufacture of semiconductors; chemical surface treatment agents for use in the manufacture of electronic components; etchants for use in the manufacture of semi-conductors; plating removing preparations, namely, chemical agents for removing metal plating from microelectronic components and semiconductors; release solvent for photoresists being solvent type processing compositions for use in the electronics industry; chemicals for use in metal plating; industrial chemicals; chemicals for use in plating; plating preparations; chemical plating solutions, namely, lithium plating solutions, sodium plating solutions, aluminum plating solutions, magnesium plating solutions, chromium plating solutions,

manganese plating solutions, iron plating solutions, cobalt plating solutions, nickel plating solutions, electroless nickel plating solutions, acid copper plating solutions, copper plating solutions, electroless copper plating solutions, zinc plating solutions, gallium plating solutions, germanium plating solutions, ruthenium plating solutions, electroless ruthenium plating solutions, rhodium plating solutions, electroless rhodium plating solutions, palladium plating solutions, electroless palladium plating solutions, silver plating solutions, electroless silver plating solutions, tin plating solutions, iridium plating solutions, platinum plating solutions, electroless platinum plating solutions, gold plating solutions, electroless gold plating solutions, bismuth plating solutions, electroless bismuth plating solutions; metal plating chemical compositions; chemical additives for metal plating chemical compositions; metal surface treatment agents, namely, chemical compositions for use in metal plating processes; chemicals for use in metal surface treatment, namely, chemical compositions for use in metal plating processes; chemical preparations for use in metal industries; catalytic agents; catalysts for chemical plating processes; ungluing preparations, namely, chemical solvents and degreasing solvents for use in manufacturing processes; etching agents being etching solutions for metals; etching agents being etching solutions for the surface of aluminum and aluminum alloys; etching agents being etching solutions for the surface of glass.

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the wording "QUALITA BIRRA ROMA PERONI SUPERIORE PERONI NASTRO AZZURRO STILE CAPRI PRODOTTA A ROMA E BARI" within a blue hexagon with gold ridged outline. At the top of the hexagon is a white banner with blue outlining and the wording "QUALITA" on the left side and "SUPERIORE" on the right side in blue text. At the center of the banner is a red wreath with a white outline following the outside contours and inside contours of the wreath. A golden eagle design within a golden arc shape is centered at the top of the red wreath, with the wording "PERONI" "ROMA" and "BIRRA" in white text going from right to left around the red wreath; white dots appear on either side of the wording "ROMA". At the center of the wreath is a white hexagon with triangles on each of its sides. The triangles are in a pattern that goes red, gold, red, gold, red, gold. Six gold dashes appear between each of the triangles. The white hexagon and triangles design appear on a white background. Below the banner and wreath design is the stacked white text "PERONI NASTROL AZZURRO". Below the white text is the stacked gold wording "STILE CAPRI PRODOTTA A ROMA E BARI". **Color Drawing** Yes **Color Claimed** The color(s) blue, red, white and gold is/are claimed as a feature of the mark. **Disclaimer** "QUALITÀ SUPERIORE", "BIRRA", "ROMA", and "PRODOTTA A ROMA E BARI" **Translation** The English translation of "QUALITÀ SUPERIORE" in the mark is "superior quality" the English translation of "BIRRA" in the mark is "beer", the English translation of "ROMA" in the mark is "ROME", the English translation of 'Nastro Azzurro" in the mark is "blue ribbon", the English translation of "STILE" in the mark is "STYLE", and the English translation of "PRODOTTA A ROMA E BARI" in the mark is "manufactured in Rome and Bari".

GOODS AND SERVICES INFORMATION

For Peristaltic pumps, pipes and tubing, sold as a unit therewith, for medical, biomedical and clinical purposes, namely, pumps for dispensing or transferring controlled volume of liquid; structural parts and fittings including medical tubing connectors and connectable medical product bags being product chambers designed to hold liquids for infusion.

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Peristaltic pumps for production purposes in the pharmaceutical industry; peristaltic pumps for production, pharmaceutical and biotech purposes; machine parts and fittings, namely tubing connectors and connectable product bags commonly referred to as product chambers adapted for use with all the aforesaid goods and used in pharmaceutical production assembly lines.

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Repair, installation, and maintenance of liquid transfer engineering systems, fluid technology systems, liquid filling systems, pumping systems and flow control apparatus and instruments; consultation services, and provision of information relating to all the aforesaid.

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Peristaltic pumps specifically adapted for laboratory and scientific purposes in biotechnology and biomedical applications; structural parts and fittings including tubing connectors and connectable product bags commonly referred to as product chambers specifically adapted for the aforesaid goods and used for laboratory and scientific research purposes.

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Extruded plastic materials in the form of sheets, rods and tubes for use in biopharmaceutical processing; flexible pipes, tube and hoses, not of metal; non-metal tubing connectors for non-metal flexible pipes, tubes and hoses.

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Professional consultations and advice relating to engineering of fluid technology, liquid filling systems and pumping systems; technological research relating to engineering, fluid technology, liquid filling systems and pumping systems; custom design of fluid technology systems, liquid filling systems, pumping systems and flow control systems; consultancy, provision of information and technical advisory services relating to custom design of fluid technology systems, liquid filling systems, pumping systems and flow control systems; scientific research and feasibility studies; inspection of fluid technology systems, liquid filling systems and pumping systems for quality control services.

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 5 - AN ILLUSTRATION DRAWING WITH WORD(S) /LETTER(S)/ NUMBER(S) IN **Description of the Mark** The mark consists of the stylized wording "THREE SQUIRRELS".

RELATED PROPERTIES INFORMATION

International Registration 1815346 **International Registration Date** Jul. 12, 2024

GOODS AND SERVICES INFORMATION

For Meat; fish, not live; fruits, tinned; snack food, fruit-based or vegetable-based; vegetables, preserved; eggs; milk products excluding ice cream, ice milk and frozen yogurt; nuts, prepared; tofu products in the nature of tofu burger patties, fried tofu pieces, and tofu-based snacks; jellies for food, other than confectionery.

International Classes 29 - Primary Classes **US Classes** 46 **International Class Title** Meats and Processed Foods

For Tea; tea-based beverages; sugar; honey; pastries; cereal-based snack food; freeze-dried dishes with the main ingredient being rice; cereal preparations, namely, breakfast cereals; instant bean starch vermicelli; ice cream.

International Classes 30 - Primary Classes **US Classes** 46 **International Class Title** Staple Foods

For Beer; fruit juices; mineral water; non-alcoholic carbonated beverages; soya-based beverages, other than milk substitutes; protein-enriched sports beverages; non-alcoholic rice-based beverages, other than milk substitutes; plant-based beverages in the nature of soy-based beverages, other than milk substitutes; fruit-flavoured carbonated beverages; syrups and other non-alcoholic preparations for making beverages in the nature of preparations for making non-alcoholic carbonated beverages

International Classes 32 - Primary Classes **US Classes** 45, 46, 48 **International Class Title** Light Beverages

BASIS INFORMATION

Currently 66A Yes

OWNER INFORMATION

Owner Name THREE SQUIRRELS INC. **Composed of** LIMITED COMPANY **Address** THREE SQUIRRELS INC. Jiusheng Road No. 8, Hi-Tech Industrial Development Zone, Yijiang District, Wuhu 241000 Anhui Province CHINA **Legal Entity** LIMITED COMPANY **State or Country Where Organized** CHINA

Trademark Registration Issued - Principal Register

Mark Literal(s) DEER BLUE

CASE IDENTIFIERS

Serial Number 79406713 **Application Filing Date** Jul. 12, 2024 **Registration Number** 7830746 **Registration Date** Jun. 17, 2025 **Register** Principal **Mark Type** Trademark **Publication Date** Apr. 29, 2025

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the wording Deer Blue and four Chinese characters. The wording Deer Blue in stylized font below four Chinese characters. **Translation** The non-Latin characters XIAO, LU, LAN and LAN can be translated into English as small, deer, blue and blue respectively. The Chinese characters as a created combination convey no special meaning. **Transliteration** The non-Latin characters in the mark can be transliterated as XIAO, LU, LAN and LAN.

RELATED PROPERTIES INFORMATION

International Registration 1815496 **International Registration Date** Jul. 12, 2024

GOODS AND SERVICES INFORMATION

For Medicated baby powder; mosquito repellent patches for babies; liquid formula milk for babies; powdered milk for babies; nutritional supplements; dietetic substances adapted for medical use; food for babies; depuratives for the body; babies' diapers; dental abrasives

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Meat; fish-based foodstuffs in the nature of fish-based snack foods; fruits, tinned; vegetable-based snack food; eggs; milk products excluding ice cream, ice milk and frozen yogurt; powdered milk; nuts, prepared; tofu products in the nature of tofu burger patties, fried tofu pieces, and tofu-based snacks; fruit-based snack food

International Classes 29 - Primary Classes **US Classes** 46 **International Class Title** Meats and Processed Foods

For Chocolate-based beverages; sugar; pastries; rice-based snack food; baozi; cereal preparations, namely, breakfast cereals; noodles; ice cream; condiments, namely, pepper sauce, Soya bean paste, cooking sauces

International Classes 30 - Primary Classes **US Classes** 46 **International Class Title** Staple Foods

For Beer; fruit juices; seltzer water; non-alcoholic carbonated beverages; non-alcoholic carbonated soft drinks; soda water; smoothies; colas; powders for making fruit-based effervescing beverages; mineral water

International Classes 32 - Primary Classes **US Classes** 45, 46, 48 **International Class Title** Light Beverages

BASIS INFORMATION

Currently 66A Yes

OWNER INFORMATION

GOODS AND SERVICES INFORMATION

For Fluid, gel, biomaterial and powder dispensing machines for industrial use; lubricant dispensing machines for industrial use; machines and machine tools used in or in connection with laboratories and research, namely, motorized transport lifting work platforms, materials handling machines namely, palletizers, case elevators, automatic pallet dispensing machines and automatic slip sheet dispensing machines, liquids handling machines, gas handling machines, powder handling machines, packaging machines , pill production and palletization machines, mixing machines , aerators being machines , power-operated industrial atomizers for spraying liquids for dust suppression, spraying machines for coatings , electronic label printing machines for commercial use, lifting installations for the transport of persons and goods, filtering machines for chemical processing, liquidizers in the nature of blending machines for chemical processing, crushing machines for industrial purposes, plate handling machines, rinsing machines, pipette handling machines, washing machines for industrial parts, centrifuges, bottling machines, sample packing and moving machines, liquids and powder processing machines , and conveyor machines and machine tools for vibrating, moulding and shaping, extraction; machines and machine tools used in or in connection with production, manufacture, testing and analysis of chemicals pharmaceuticals bio-materials bio- chemicals, cell cultures and bio-pharmaceuticals, namely, industrial robots, motorized transport lifting work platforms, materials handling machines namely, palletizers, case elevators, automatic pallet dispensing machines and automatic slip sheet dispensing machines, liquids handling machines, gas handling machines, powder handling machines, packaging machines, pill production and palletization machines, mixing machines , aerators being machines , power-operated industrial atomizers for spraying liquids for dust suppression, spraying machines for coatings , electronic label printing machines for commercial use, lifting installations for the transport of persons and goods, filtering machines for chemical processing, liquidizers in the nature of blending machines for chemical processing, crushing machines for industrial purposes, plate handling machines, rinsing machines, pipette handling machines , washing machines for industrial parts , centrifuges, bottling machines , sample packing and moving machines ,

liquids and powder processing machines, and conveyor machines and machine tools for vibrating, moulding and shaping, extraction; machines and machine tools used in or in connection with automated electrical and digitally controlled equipment apparatus and instruments for research, analysis, testing, manufacturing, sampling, materials processing and production, handling, transporting, storing and warehousing, namely, industrial robots, motorized transport lifting work platforms, materials handling machines namely, palletizers, case elevators, automatic pallet dispensing machines and automatic slip sheet dispensing machines, liquids handling machines , gas handling machines , powder handling machines , packaging machines, pill production and palletization machines, mixing machines , aerators being machines, power-operated industrial atomizers for spraying liquids for dust suppression, spraying machines for coatings , electronic label printing machines for commercial use, lifting installations for the transport of persons and goods, filtering machines for chemical processing, liquidizers in the nature of blending machines for chemical processing, crushing machines for industrial purposes , plate handling machines , rinsing machines , pipette handling machines , washing machines for industrial parts, centrifuges, bottling machines , sample packing and moving machines , liquids and powder processing machines, and conveyor machines and machine tools for vibrating, moulding and shaping, extraction; machines and machine tools for the handling of and for treatment of liquids and materials, namely, industrial robots, motorized transport lifting work platforms, materials and liquids handling, machines namely, palletizers, case elevators, automatic pallet dispensing machines and automatic slip sheet dispensing machines, filtering machines for chemical processing, aliquot dispensers in the nature of fluid dispensing machines for industrial use, aspirating machines in the nature of extracting machines for chemical processing, dissolving machines for chemical processing, liquids handling machines, gas handling machines, powder handling machines, packaging machines, pill production and palletization machines, mixing machines, aerators being machines, power-operated industrial atomizers for spraying liquids for dust suppression, spraying machines for coatings, electronic label printing machines for commercial use , lifting installations for the transport of persons and goods, liquidizers in the nature of blending machines for chemical processing, crushing machines for industrial purposes , plate handling machines , rinsing machines, pipette handling machines, washing machines for industrial parts , centrifuges, bottling machines, sample packing and moving machines, liquids and powder processing machines, and conveyor machines and machine tools for vibrating, moulding and shaping, extraction ; robots and automated equipment for handling, transporting, storing and sampling liquid, powder, gas, biological materials, microbes and chemicals, namely, industrial robots, automatic tool changers for industrial robots, assembly line conveyor machinery; machines and machine tools used in laboratory automation equipment, apparatus and platforms, namely, mobile lifting work platforms, extracting machines for chemical processing, liquid fluid dispensing machines for industrial use and sampling packing machines, filtering machines for chemical processing, aliquot dispensers in the nature of fluid dispensing machines for industrial use, aspirating machines in the nature of extracting machines for chemical processing, dissolving machines for chemical processing, liquids handling machines, gas handling machines , powder handling machines , packaging machines , pill production and palletization machines, mixing machines , aerators being machines , power-operated industrial atomizers for spraying liquids for dust suppression, spraying machines for coatings, electronic label printing machines for commercial use, lifting installations for the transport of persons and goods, liquidizers in the nature of blending machines for chemical processing , crushing machines for industrial purposes, plate handling machines , rinsing machines, pipette handling machines , washing machines for industrial parts, centrifuges, bottling machines, sample packing and moving machines, liquids and powder processing machines , and conveyor machines and machine tools for vibrating, moulding and shaping, extraction; industrial robots; mechanical apparatus being machine tools for gripping, holding, and moving workpieces for use with laboratory apparatus, namely, clamps for use in the precision clamping of work pieces, and linear motion machines for moving objects;

industrial robots for the handling of and for treatment of liquids, materials and equipment for manufacturing, production, testing, analysis and automation; industrial robots used in laboratory automation equipment, apparatus and platforms; robotic apparatus and machines for transportation of materials, liquids, containers and equipment for industrial, scientific and laboratory purposes, namely, industrial robots, power-operated lift used to transport and place portable containers, lifting installations for the transport of materials and liquids; materials handling conveyors being machines; flexible and roller conveyors being machines; laboratory machines, machine tools, robots and equipment, namely, automated washers for laboratory equipment ; machine tools for robots, namely, automatic tool changers for industrial robots; industrial robots with articulated arms for manipulating and/or processing workpieces, objects, materials, powders and liquids; industrial robots for manufacturing technology; industrial robots for measuring, sampling, analysing, moving items and materials; industrial robots for laboratory and medical technology; liquid, powder, materials and chemical and bio-materials treatment machines, namely, industrial mixer for mixing liquids in the pharmaceutical and chemical industries, blending machines for chemicals liquids and bio-materials, and machines for separating and sampling chemicals liquids and bio-materials; machine and robot coupling and transmission components except for land vehicles; hydraulic and pneumatic controls for machines, engines and motors and industrial robots; stirring apparatus and equipment, namely, electric industrial liquid mixers for mixing liquids in the pharmaceutical and chemical industries; cleaning machines and equipment, namely, steam cleaning machines, washing machines for industrial parts; printing and packaging machines and equipment, namely, industrial printing machines, packaging machines and parts thereof; filtering machines and equipment, separators and centrifugal machines and equipment, namely, filtering machines for chemicals biomaterials and liquids processing, centrifugal separators; machines for processing plastics; positioning tables in the nature of tables specially adapted to hold powered machinery and machine tools; filling machines; cleaning machines for industrial and laboratory uses, namely, steam cleaning machines, washing machines for industrial parts; industrial and laboratory cutting and punching machines and equipment, namely, industrial and laboratory plastic and glass cutting machines, punching machines; mixing machines; dosing apparatus for liquids and powders, namely, fluid dispensing machines for industrial use and mixing machines for mixing liquids and biomaterials; dyeing machines; system control instruments, namely, hydraulic and pneumatic controls for machines, motors and engines; machines for the compression, exhaustion and transport of gases, liquids and powders; sheeting, pallet and materials grippers in the nature of industrial robot grippers; fluid, hydraulic, electric and pneumatic operated drives, drive elements and drive apparatus and equipment, namely, drives for machines; dosing valves being parts of machines; pump control valves being parts of machines; pumps for machines; pumps for machines for the extraction of liquids; diaphragm pumps for machines; fluid pumps for machines; positive displacement pumps; rotary pumps; vacuum pumps; crimping tools, namely, power-operated crimpers; xy positioning tables, namely, tables specially adapted to hold powered machinery; replacement parts for the aforesaid goods.

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Laboratory automation platforms comprised of laboratory robots, recorded operating system software for robots and digital data processing computer hardware, cameras, digital sensors for measuring location, digital sensors for measuring temperature, digital sensors for measuring liquid levels, digital sensors for measuring light,, not for medical use, downloadable graphical user software interfaces, and digital liquid crystal display (LCD) monitors, digital touchscreen monitors, computer monitors, none for medical use; digital data processing workstations suitable for linking comprising digital processing computer hardware, recorded operating system software and computer network interface devices for networking hardware for

use in networking automated equipment for research, analysis, testing, manufacturing, sampling, materials processing and production, handling, transporting, and storing; apparatus, equipment and instruments for use in research, analysis, testing, manufacturing, sampling, handling, transporting, storing, viewing, weighing, measuring, and inspecting liquids, biomaterials and cells, namely, laboratory equipment, namely, electric water bath heaters, agitation devices in the nature of magnetic agitators for laboratory use , vibration and shaker devices being apparatus for testing gas, liquids and solids, laboratory centrifuges, agar dispensers in the nature of disposable dispenser syringes for laboratory use, petri dishes used in laboratory research, petri-dishes, sample magnet plates for laboratory use, sample plates used in cell culture for laboratory use, sample plates used in chemical and biomaterials analysis, biological analysis or patterning for scientific, laboratory microplate and optical readers, plate sealers being parts of cell culture plates for laboratory use, flasks for laboratory use, liquid and biomaterials handling dispensing and sampling devices in the nature of scientific apparatus and instruments, namely, fluid and biomaterials handling device used for disposable bioprocessing applications and parts and fittings therefor and disposable dispenser syringes for laboratory use, cell culture apparatus for laboratory use, namely, colony pickers, colony and materials identification manipulation and replication devices, cell culture apparatus for laboratory use, namely, cell sorters, laboratory devices for detecting genetic sequences, namely, DNA and cell sequencers, cell culture apparatus for laboratory use, namely, colony counting devices, cell culture apparatus for laboratory use, namely, colony and materials imaging and analysis devices, incubators for bacteria virus and cell cultures, non-medical imaging devices for cell imaging and counting devices in the nature of flow cytometers and flow-based analyzers providing cell counting for scientific, laboratory, and general research uses, cell and cell colony growth measurement devices, color fidelity measurement devices in the nature of electronic apparatus for electrophysiological measurement of cells , color capture differentiating and analyses devices in the nature of electronic apparatus for electrophysiological measurement and testing of cells, non-medical fluorescence imaging devices for imaging biomaterials cells and chemicals, biological specimen analysis devices in the nature of scientific instruments, namely, electronic analyzers for analyzing biological substances for the presence, absence, or quantity of target chemicals biologics and contaminants, biological specimen analysis devices in the nature of scientific instruments, namely, electronic analyzers for analyzing biological substances to determine the identity and rate of growth of cells, non-medical assay apparatus in the nature of plates, glass slides or chips having arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use, electrophoresis apparatus not for medical purposes, namely, gel tanks, Ph meter, materials fluorescence spectrophotometry devices in the nature of scientific apparatus, namely, spectrophotometer for measuring relative DNA, RNA and protein, morphology devices in the nature of scientific apparatus, to measure particle and cell size shape type and characteristics, cameras, decontamination devices, namely, decontamination showers , cell culture apparatus for laboratory use, namely, plate and dish preparation devices, cell culture apparatus for laboratory use, namely, chemostat and turbidostat devices for dilution and cell mass monitoring, lasers, not for medical purposes and ionization apparatus for scientific or laboratory use, chromatography apparatus for laboratory use, transilluminator in the nature of laboratory instruments, namely, radiation devices in the nature of ultraviolet, visible, or infra-red light boxes for the analysis of cells biomaterials and bodily fluids, electrophoresis apparatus not for medical purposes , densimeters, dosimeters, electrolysis apparatus for laboratory use, laboratory filters, laboratory glassware, hydrometers, laboratory equipment and supplies, namely, cell bacteria and virus incubators, gas detectors for detecting the presence of gas, meters, namely, digital pH meters, monitors, namely, liquid crystal display (LCD) monitors, video monitors, touchscreen monitors, computer monitors, laboratory pipettes, automatic pressure control machines and instruments and pressure gauges, microbe and cell detectors, namely electronic sensors for detecting microbes and cells, not for medical use, virus detectors, namely electronic sensors for detecting microbes,

decompression chambers, stands and racks for laboratory apparatus in the nature of pipette racks for laboratory use, data capture and processing devices, namely, data processing equipment; robots, robotic modules, and automated electrical and digitally controlled equipment apparatus and instruments for laboratories and scientific use, namely, laboratory robots, memory modules, probes for scientific purposes, colony counting and analysis workstations comprised of flow cytometers and flow-based analyzers providing cell and particle analysis detection or counting for scientific laboratory and general research uses, cell culture apparatus for laboratory use, namely, colony growth rate assay apparatus, cell culture apparatus for laboratory use, namely, colony and cell analysis and assay apparatus, cell culture apparatus for laboratory use, namely, phenotype analysis apparatus, cell culture apparatus for laboratory use, namely, phenotype growth measurement apparatus, non-medical imaging devices for imaging of cells, non-medical imaging devices for imaging of colonies, non-medical imaging devices for imaging of phenotypes, non-medical imaging devices for fluorescence imaging and assay apparatus in the nature of plates, glass slides or chips having arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use, cell and colony antagonistic assay in the nature of plates, glass slides or chips having arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use, and non-medical imaging devices for cell and colony antagonistic assays, cell and colony strain and composition assay apparatus in the nature of plates, glass slides or chips having multi-well arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use, cell and colony colour assessment and composition analysis apparatus in the nature of flow cytometers and flow- based analyzers providing cell and particle analysis detection or counting for scientific laboratory and general research uses, laboratory glassware; electrical and digitally controlled laboratory workstations comprising laboratory robots, recorded operating system for robots and digital data processing computer hardware, cameras, non-medical imaging devices for cells biomaterials and chemicals, non-medical fluorescence imaging devices for cells biomaterials and chemicals ,and assay apparatus in the nature of plates, glass slides or chips having multi-well arrays that can be used in chemical analysis, biological and cell analysis or patterning for scientific, laboratory or medical research use, digital sensors for measuring size density and colour of cells, not for medical use, downloadable graphical user software interfaces, and digital liquid crystal display (LCD) touchscreen and computer monitors for automated equipment for research, analysis, testing, manufacturing, sampling, materials processing and production, handling, transporting, storing and warehousing; laboratory automation apparatus, equipment, instruments, platforms and parts, namely, gas chromatography apparatus for laboratory use, laboratory centrifuges, laboratory trays, flasks for laboratory use, laboratory equipment, namely, electric water bath heaters, agitation devices in the nature of magnetic agitators for laboratory use, vibration and shaker devices being apparatus for testing gas, liquids, biomaterials, cells and solids, laboratory centrifuges, agar dispensers in the nature of disposable dispenser syringes for laboratory use, petri dishes used in laboratory research, petri-dishes, sample magnet plates for laboratory use, microplate readers, plate sealers being parts of petri dishes and laboratory cell culture plates for laboratory use, liquid and biomaterials handling dispensing and sampling devices in the nature of scientific apparatus and instruments, namely, fluid and biomaterial handling device used for disposable bioprocessing applications and parts and fittings therefor and disposable dispenser syringes for laboratory use, cell culture apparatus for laboratory use, namely, colony pickers, colony and materials identification manipulation and replication devices, cell culture apparatus for laboratory use, namely, cell sorters, laboratory devices for detecting genetic sequences, namely, DNA and cell sequencers, cell culture apparatus for laboratory use, namely, colony counting devices, cell culture apparatus for laboratory use, namely, colony and materials imaging and analysis devices, incubators for bacteria cultures, non-medical imaging devices for cell imaging and counting devices in the nature of

flow cytometers and flow-based analyzers providing cell counting for scientific, laboratory, and general research uses, cell and cell colony growth measurement devices, color fidelity measurement devices in the nature of electronic apparatus for electrophysiological measurement cells, color capture differentiating and analyses devices in the nature of electronic apparatus for electrophysiological measurement and testing of cells, non-medical fluorescence imaging devices for chemicals, biologics, biomaterials, cells and contaminants, biological specimen analysis devices in the nature of scientific instruments, namely, electronic analyzers for analyzing biological substances for the presence, absence, or quantity of chemicals, biologics, biomaterials, cells and contaminants, non-medical fluorescence imaging devices for chemicals, biologics, biomaterials, cells and contaminants, and assay apparatus in the nature of plates, glass slides or chips having multi-well arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use, non-medical imaging devices for cells biomaterials and chemicals , electrophoresis apparatus not for medical purposes, namely, gel tanks, Ph meter, materials fluorescence spectrophotometry and morphology devices in the nature of scientific apparatus, namely, spectrophotometer for measuring relative DNA, RNA and protein, cameras, decontamination devices, namely, decontamination showers, cell culture apparatus for laboratory use, namely, plate and dish preparation devices, cell culture apparatus for laboratory use, namely, chemostat and turbidostat devices for dilution and cell mass monitoring, lasers, not for medical use, transilluminator in the nature of laboratory instruments, namely, radiation devices in the nature of ultraviolet, visible, or infra-red light boxes for the analysis of bodily fluids and electrophoresis apparatus not for medical purposes, densimeters, dosimeters, electrolysis apparatus for laboratory use, laboratory filters, laboratory glassware, hydrometers, Laboratory equipment and supplies, namely, cell bacteria and virus incubators, gas detectors for detecting the presence of gas, digital pH meters, monitors, namely, liquid crystal display (LCD) monitors, touchscreen monitors, computer monitors, laboratory pipettes, automatic pressure control machines and instruments and pressure gauges, microbe and cell detectors, namely electronic sensors for detecting microbes and cells, not for medical use, virus detectors, namely electronic sensors for detecting microbes, not for medical use, decompression chambers, stands and racks for laboratory apparatus in the nature of pipette racks for laboratory use, data capture and processing devices, namely, data processing equipment and downloadable computer software platforms for operating and controlling robots, robotics, automated and modular platforms for use in laboratories, industrial processes, manufacturing, storage, research, analysis, testing, sampling, materials processing and production, liquids and materials handling, transporting, storing, science, surveying, tracking, weighing, measuring, and inspecting ; robotic systems comprising fixed and/or mobile laboratory robots, recorded operating software, cameras, electric or electronic sensors for measuring quantities and levels of liquids and biomaterials, and digital devices in the nature of digital signal processors; robotic systems comprised of laboratory robots for research, analysis, testing, manufacturing, sampling, materials processing and production, handling, transporting, storing and warehousing of biological, medical, pathological and chemical samples; laboratory, scientific, medical, manufacturing, testing, sampling and modular robotic and automated equipment, apparatus, instruments and parts, namely, laboratory furniture; laboratory robots adapted for automated transport, handling, placement and retrieval of biological, medical, pathological, and chemical materials, containers, and samples; laboratory automation platforms, comprising of pipetting and liquid handling workstations being laboratory furniture, microplate stackers, heaters, and shakers being parts of microplate readers; laboratory robots for transferring plates and materials from one location to another; materials, liquids, powders and gas handling laboratory robots and robotic workstations being laboratory furniture; glass and plastic storage tubes for scientific purposes; human, digital and machine electronic display interfaces for robots and automated systems; electronic and digital positioners for machines and equipment, namely, sensors for determining position; laboratory equipment and supplies, namely, automated incubators; automated temperature-

controlled storage and retrieval systems comprised of biological safety cabinets and laboratory robots for use in the field of scientific and technical research; temperature controlled cabinets adapted for storage of biological, medical, pathological, pharmaceutical and chemical samples, and containers, namely, biological and chemical safety cabinets; laboratory robots and automated systems comprised of laboratory robots utilising cabinets, trays, and containers; laboratory robots and memory modules adapted for automated transport for handling, placement and retrieval of biological, medical, pathological, pharmaceutical and chemical samples, trays, cabinets and containers; robotic pipetting workstations comprised of laboratory robots; modular robotic and automated systems comprising laboratory robots, laboratory furniture and integrated circuit modules for distribution, conveyors, pick and place stations, robot stations, modular production system (mps) modules, measuring stations, packaging stations, processing stations, handling stations, linear drives, press stations, punching stations, separating stations, storing stations, sorting stations and programming stations; electric sensors and cameras for use in automatic control of devices within an automated system; optical position sensors; speed sensors; distance sensors; pressure sensors; temperature sensors; flow sensors, not for medical use; proximity sensors; electric or electronic proximity, motion, and robot navigation and position sensors; electric or electronic sensors, devices in the nature of scientific and laboratory measuring instruments and detectors for measuring light, quantity, mass, biomass, growth processes, materials, material intensity and density, microfluids, location, weight, size, density; pressure transmitters; on-off sensors for measuring quantities and levels of liquids gels and biomaterials, not for medical use; electric and digital sensors for measuring quantities and levels of liquids gels and biomaterials, not for medical use; gas sensors for measuring gas concentration; liquid level sensors; infrared image scanners; sensors for use with machines, robots and tools for measuring quantities and levels of liquids gels and biomaterials, not for medical use; electric control valves for regulating the flow, levels, and quantities of gases, biomaterials and liquids; microfluidic valves for regulating the flow, levels, and quantities of gases, biomaterials and liquids; downloadable and recorded software, downloadable application programming interface (API) software, downloadable software apps, in the nature of operating and data processing software for use in conducting, evaluating, imaging, analysing, and representation of materials, chemical, biochemical, biological, liquids and gas analyses, processes and process controls; downloadable and recorded digital display graphical user interface software for use in conducting, evaluating, imaging, analysing, and representation of materials, chemical, biochemical, biological, liquids and gas analyses, processes and process controls; data processing equipment and downloadable software for use in connection with research and science, namely for detection, analysis and imaging of biological materials, cells and colonies; data processing equipment and downloadable software for use in connection with research and science, namely for measuring and comparing over time biological materials, cells and colonies; titration plates having arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use, laboratory pipette tips, laboratory pipettes, pipette tips for laboratory use; downloadable and recorded software for controlling laboratory, medical and scientific apparatus equipment and systems and parts thereof; downloadable software, downloadable application programming interface (API) software, downloadable software apps, digital display interfaces and digital signal processors for operating robotic and automated systems; downloadable and recorded software, downloadable application programming interface (API) software, downloadable software apps, digital display interfaces for laboratory automation operating systems; downloadable and recorded laboratory, manufacturing and materials, liquids processing testing sampling and analysis automation software; downloadable and recorded software, downloadable application programming interface (API) software, downloadable software apps, digital display interfaces for operating laboratory and scientific equipment; downloadable and recorded software, downloadable application programming interface

(API) software, downloadable software apps, and digital display interfaces for operating liquid handling robotic workstations, robotic pipetting workstations, and robotic systems comprising fixed and/or mobile robots, operating software, cameras, communication systems, sensors and computers for personal human use; downloadable and recorded software, downloadable application programming interface (API) software, downloadable software apps, digital display interfaces in the fields of industrial laboratory and research automation, regulating, monitoring and control technique, process and consumption optimisation, graphic visualisation of data, for the capture compilation systemisation and analysis of data and processes information, and for measurement of data; chemistry, biological, liquid and gas apparatus, equipment, instruments and parts, namely, ionization apparatus for scientific or laboratory use, stills for scientific purposes, glass and plastic storage tubes for scientific purposes, gas chromatography apparatus for laboratory use, laboratory centrifuges, laboratory trays, flasks for laboratory use, laboratory equipment, namely, electric water bath heaters, agitation devices in the nature of magnetic agitators for laboratory use, vibration and shaker devices being apparatus for testing gas, liquids and solids, laboratory centrifuges, agar dispensers in the nature of disposable dispenser syringes for laboratory use, Petri dishes used in laboratory research, petri-dishes, sample magnet plates for laboratory use, microplate readers, plate sealers being parts of magnet plates for laboratory use, liquid and biomaterials handling dispensing and sampling devices in the nature of bioprocessing applications and parts and fittings therefor and disposable dispenser syringes for laboratory use, cell culture apparatus for laboratory use, namely, colony pickers, colony and materials identification manipulation and replication devices, cell culture apparatus for laboratory use, namely, cell sorters, laboratory devices for detecting genetic sequences, namely, DNA and cell sequencers, cell culture apparatus for laboratory use, namely, colony counting devices, cell culture apparatus for laboratory use, namely, colony and materials imaging and analysis devices, incubators for bacteria cultures, non-medical imaging devices for cell imaging and counting devices in the nature of flow cytometers and flow-based analyzers providing cell counting for scientific, laboratory, and general research uses, cell and cell colony growth measurement devices, color fidelity measurement devices in the nature of electronic apparatus for electrophysiological measurement cells, color capture differentiating and analyses devices in the nature of electronic apparatus for electrophysiological measurement and testing of cells, non-medical fluorescence imaging devices for cells biomaterials and chemicals, biological specimen analysis devices in the nature of scientific instruments, namely, electronic analyzers for analyzing biological substances for the presence, absence, or quantity of target chemicals, biologics, biomaterials, cells and contaminants; non-medical fluorescence imaging devices for cells biomaterials and chemicals, and assay apparatus in the nature of plates, glass slides or chips having multi-well arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use, non-medical imaging devices for cells biomaterials and chemicals, electrophoresis apparatus not for medical purposes, namely, gel tanks, Ph meter, materials fluorescence spectrophotometry and morphology devices in the nature of scientific apparatus, namely, spectrophotometer for measuring relative DNA, RNA and protein, cameras, decontamination devices, namely, decontamination showers, cell culture apparatus for laboratory use, namely, plate and dish preparation devices, cell culture apparatus for laboratory use, namely, chemostat and turbidostat devices for dilution and cell mass monitoring, lasers, not for medical purposes and ionization apparatus for scientific or laboratory use, chromatography apparatus for laboratory use, transilluminator in the nature of laboratory instruments, namely, radiation devices in the nature of ultraviolet, visible, or infra-red light boxes for the analysis of bodily fluids cells biomaterials and chemicals, and electrophoresis apparatus not for medical purposes, densimeters, dosimeters, electrolysis apparatus for laboratory use, laboratory filters, laboratory glassware, hydrometers, laboratory equipment and supplies, namely, cell bacteria and virus incubators, gas detectors for detecting the presence of gas, meters, namely, digital pH meters, monitors, namely, liquid crystal display (LCD) monitors, touchscreen

monitors, computer monitors, laboratory pipettes, automatic pressure control machines and instruments and pressure gauges, microbe and cell detectors, namely electronic sensors for detecting microbes and cells, not for medical use, virus detectors, namely electronic sensors for detecting microbes not for medical use, decompression chambers, stands and racks for laboratory apparatus in the nature of pipette racks for laboratory use, data capture and processing devices, namely, data processing equipment; apparatus, equipment, instruments and parts for scientific analysis in the nature of scientific instruments, namely, electronic analyzers for testing sampling and analysing chemical and biological substances for the presence, absence, or quantity of target chemicals, biologics, contaminants, and specific Ph; downloadable software, downloadable application programming interface (API) software, downloadable software apps and digital display interfaces for designing, conducting, controlling, and analyzing experiments, imaging and identifying materials liquids and gas; downloadable software, downloadable application programming interface (API) software, downloadable software apps and digital display interfaces for use conducting controlling and recording experiments; recorded and downloadable operating software for operating automated liquid dispensers and automated reagent dispensers; recorded software, downloadable application programming interface (API) software, downloadable software apps and digital display interfaces for use in connection with operating and controlling robots, robotics, automated and modular platforms for use in laboratories, industrial processes, manufacturing, storage, research, analysis, testing, sampling, materials processing and production, liquids and materials handling, transporting, storing, science, surveying, tracking, weighing, measuring, and inspecting; imaging apparatus and instruments, namely, image intensifiers, digital photo image converters, thermal imaging systems, not for medical use; data processing equipment and computers for use in connection with robots, robotics, automated and modular platforms for use in laboratories, industrial processes, manufacturing, storage, research, analysis, testing, sampling, materials processing and production, liquids and materials handling, transporting, science, surveying, tracking, weighing, measuring, and inspecting; downloadable and recorded software for measuring capture and analysis of data for use in connection with robots, robotics, automated and modular platforms for use in laboratories, industrial processes, manufacturing, storage, research, analysis, testing, sampling, materials processing and production, liquids and materials handling, transporting, science, surveying, tracking, weighing, measuring, and inspecting; scientific instrumentation for measuring, namely, apparatus and instruments for evaluating and visualising specific indicators (KPIS) in a laboratory or manufacturing process; image scanning apparatus and instruments, namely, image scanners; apparatus and instruments for generating, recording, storage, transmission, processing systemisation, compilation and/or reproduction of data, images, signals and/or sound, namely, apparatus for recording and reproduction of sound, images or data for use in connection with robots, robotics, automated and modular platforms for use in laboratories, industrial processes, manufacturing, storage, industrial processes, research, analysis, testing, sampling, materials processing and production, goods and materials handling, transporting, storing, warehousing, science, navigation, surveying, tracking, weighing, measuring, signalling devices and systems, and inspecting; downloadable and recorded software for use in connection with robots and laboratories for enabling weighing, measuring, sampling, signalling, inspecting; interfaces for computers and data processing apparatus and electronic display interfaces for instruments for use in connection with robots, robotics, automated and modular platforms for use in laboratories, industrial processes, research, analysis, testing, sampling, materials processing and production, liquids and materials handling, transporting, science, surveying, tracking, weighing, measuring, and inspecting; downloadable and recorded software for analysing and interpreting data and data flows; handling apparatus for the transport and positioning of laboratory equipment, specimens, materials, liquids, powders, and samples in the nature of scientific and laboratory apparatus and instruments, namely, fluid and biomaterials handling devices in the nature of

dispensers and pipettors for liquids, other than syringes and sprayers, namely, dosage dispensers for measuring and dispensing portions of fluids, powders, solid granules, and biomaterials, not for medical use, and laboratory pipettes; disposable dispenser tips for laboratory use, namely, pipette tips for laboratory use; reusable dispenser tips and dosing needles for laboratory use, namely, laboratory pipettes and pipette tips for laboratory use; cell culture apparatus and instruments for laboratory use, namely, cell culture dishes, tissue culture flasks; bioreactors for laboratory and research use; bioreactor for cell culturing; laboratory robots; filtering units for laboratory use, namely, laboratory filters; probes for scientific purposes; furniture especially made for laboratories; measuring instruments, namely, quantity, level and volume measuring apparatus of gas and liquids; electric, digital and electronic monitoring apparatus, namely, electronic sensors for monitoring liquid levels and quantities, and biomaterials quantities and density, not for medical use; digital cameras for use in connection with robots, robotics, automated and modular platforms for use in laboratories, research, analysis, testing, sampling, materials processing and production, liquids and materials handling, transporting, storing, science, surveying, tracking, weighing, measuring, and inspecting; scientific and laboratory equipment, apparatus, instruments and devices, namely, laboratory trays and plates having arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use, flasks and containers for laboratory use, namely, handheld devices containing a disc for the processing of cells ; automated dispensers, not for medical use, namely, dispensers for measuring and dispensing of liquids and biomaterials, not for medical use; controlled volume pumps; plates that can be used in chemical and biological analysis and patterning, namely, plates having multi arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use; disposable reusable dispenser syringes and syringe couplers for laboratory use; disposable protein laboratory trays; protein source blocks, namely, non-medical imaging apparatus and instruments for use in the study of proteins; scientific apparatus and instruments for measuring protein; tubing specifically adapted for laboratory use made of plastic, namely, laboratory storage tubes; bio-chips for scientific purposes; pipette tips for laboratory use; spectrum tubes, namely, laboratory storage tubes; test tube racks; laboratory storage tube racks; laboratory disposable pipettes, filters, beakers, glassware, trays, magnet plates, swabs, thermometers, storage containers being handheld devices containing a disc for the processing of buccal cells and tubes, flasks, electrodes, probes, capillary tubes, gloves, laboratory filters in the nature of filtration membranes for use in the filtration of liquids and biomaterials, petri dishes, materials and fluids dispensers in the nature of disposable dispenser syringes for laboratory use, reusable dispenser syringes for laboratory use, automatic ion-exchange chromatography apparatus for laboratory use, funnels; measuring apparatus and instruments, namely, liquids and biomaterial measuring instruments, distance measuring apparatus; laboratory articles and ware, namely, laboratory glassware and laboratory plasticware in the nature of plates having multi-well arrays that can be used in chemical analysis, biological analysis, cell analysis or patterning for scientific, laboratory or medical research use; laboratory articles and ware, namely, laboratory glassware and laboratory plasticware in the nature of magnet plates, petri dishes, test tubes, flasks, burettes, pipettes, beakers, funnels, reusable dispenser syringes, laboratory storage tubes, containers especially made for laboratory waste, graduated measuring cylinders, plastic closures, seals and stoppers for laboratory bottles for scientific experiments in laboratories, laboratory articles and ware in the nature of plastic closures, seals and stoppers for laboratory bottles for scientific experiments in laboratories, laboratory furniture, laboratory swabs; plastic labware, namely, plates and strips having multi arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use; well plates, micro plates, and well strips, being laboratory ware having arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use; cell culture apparatus for laboratory use, namely, plates, dishes, slides or chips for use in laboratories, research, chemical analysis, biological analysis or cell patterning; equipment apparatus,

instruments and devices for taking, transferring, measuring and distributing samples, namely, hand-operated and electrical laboratory tools for manipulating laboratory samples; equipment apparatus, instruments and devices for taking, transferring, measuring and distributing materials, liquids, chemicals, biological materials, gases in the nature of testing sample collection equipment, not for medical purposes; Ph meters; filtration and flow equipment, apparatus, instruments and devices for laboratory use, namely, laboratory filters, flow meters, flow switches for monitoring and controlling the flow of gases or liquids; disposable laboratory filters; cases and containers specially adapted for , replacement parts and fittings for the aforesaid goods; calibrating apparatus and devices for calibrating liquid and biomaterials dispensers; devices for analyzing, imaging, measuring and testing genomes, biological materials, proteins, liquid, powder, gas, microbes and chemicals, namely, scientific apparatus and instruments for measuring relative DNA, RNA and protein and parts and fittings therefor, electronic sensors for detecting microbes; dosage and quantity dispensers and measures, namely, dosage dispensers for measuring and dispensing portions of liquids, powders, solid granules, and biomaterials, not for medical use; electrodes; instruments for measuring fluids, namely, rheometers for measuring the viscosity and viscoelasticity of fluids; laboratory incubators; laboratory instruments for the detection of pathogens and toxins in a biological sample for research use; laboratory gas mixers; laboratory storage tubes; laboratory swabs; laboratory thermometers, other than for medical use; laminar flow hoods for laboratory use, namely, laminar flow biological safety cabinet hoods for laboratory use; liquid chromatography injectors for scientific use being liquid chromatography apparatus for laboratory use; electronic and electrical liquid sensors, namely, liquid level and quantity sensors; microplate readers; moisture meters; temperature sensing apparatus for scientific use, namely, temperature sensors; laboratory test tubes and pipettes for scientific and research use; instruments for measuring pressure; instruments for weighing; apparatus and instruments for processing data; apparatus and instruments for processing images; apparatus and instruments for recording of data and images; Downloadable data and image processing software for making three dimensional models; laboratory beakers; laboratory filters; laboratory furniture; laboratory glassware; laboratory pipettes; laboratory trays; pipette racks for laboratory use; magnet plates for laboratory use.

Mark Literal(s) LITTLE DEDI LD

CASE IDENTIFIERS

Serial Number 79406943 **Application Filing Date** May 17, 2024 **Registration Number** 7830750 **Registration Date** Jun. 17, 2025 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Apr. 29, 2025

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stylized wording "LITTLE" and "DEDI" in a circular shape featuring an "L" above a horizontal line and rotated "D" resembling a smiley face. **Translation** The wording "DEDI" has no meaning in a foreign language. **Name Portrait Consent** The name "DEDI" does not identify a living individual.

RELATED PROPERTIES INFORMATION

International Registration 1816120 **International Registration Date** May 17, 2024

GOODS AND SERVICES INFORMATION

For Woven and non-woven textile fabrics; curtains; bed covers; bed sheets; pillowcases; bed blankets; quilts; towels; cloth flags; cloth pennants; labels of textile; swaddling blankets; sleeping bags for camping

International Classes 24 - Primary Classes **US Classes** 42, 50 **International Class Title** Fabrics

For The bringing together, for the benefit of others, of a variety of goods, namely, perfumery, deodorants for personal use and animals, soaps, dentifrices, candles, wristbands, covers for cellphones, downloadable and recordable electronic publications, clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment, eyeglasses, sunglasses, optical lenses and cases, fire hose, decorative magnets, furniture, made of any kind of material, mattresses, pillows, air mattresses and cushions, mirrors, bouncing chairs for babies, playpens for babies, cradles, infant walkers, display boards, frames for pictures and paintings, holiday ornaments for walls, sculptures, trophies, brushes, other than paintbrushes, sponges for cleaning, steel wool for cleaning, cloths of textile for cleaning, gloves for dishwashing, non-electric kitchen utensils, pots and pans, flower pots, tents, awnings, tarpaulins, sails, vehicle covers, not fitted, bags of textile, for packaging, yarns and threads for textile use, threads and yarns for sewing, embroidery and knitting, thread, elastic yarns and threads for textile use, woven or non-woven textile fabrics, textile goods for household use, curtains, bed covers, sheets, pillowcases, blankets, quilts, towels, flags, pennants, labels of textile, swaddling blankets, sleeping bags for camping, clothing, including underwear and outerclothing, other than special purpose protective clothing, socks, mufflers, shawls,

bandanas, scarves, belts, footwear, shoes, slippers, sandals, headgear, hats, caps with visors, berets, caps, skull caps, carpets, rugs, mats, gymnasium mats, games and toys, underlays for pets, cat litters, excluding the transport thereof, enabling customers to conveniently view and purchase those goods by means of retail stores, wholesale outlets, by means of mail order catalogs

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Clothing, namely, underwear and outerclothing being coats, socks, mufflers as neck scarves, shawls, bandanas, scarves, belts, footwear, shoes, slippers, sandals, headwear, hats, caps with visors, berets, headwear being caps, skull caps; all the aforementioned goods excluding special purpose protective clothing

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

RELATED PROPERTIES INFORMATION

International Registration 1817572 **International Registration Date** Apr. 25, 2024

GOODS AND SERVICES INFORMATION

For Waste management and recycling machines, namely, waste and trash separator machines, waste compacting machines, machinery for the mechanical recycling of synthetic resinous materials; waste crushing machines; waste extraction machines; waste material conveying machines; waste compacting machines; waste compactors; refuse cutting machines; waste sorting machines for sorting recyclable materials; rubbish compactors; recycling machines, namely, machinery for the mechanical recycling of synthetic resinous materials, machines for sorting recyclable materials, waste crushing machines; waste shredding machines; electric garbage disposal machines; organic waste composting machines; machine compressors for waste collection containers; liquid waste removal machines; machine tools for removing waste material; waste and trash conveying machines; waste and trash separator machines; scrap recovery apparatus, namely, sorting machines for sorting recyclable materials; agricultural, earthmoving, construction, oil and gas extraction and mining equipment, namely, agricultural machines, namely, cultivators, harvestors, disk harrows, seeders, earth moving machines, mining machines; machines and machine tools for material processing and production, stationary and mobile screening plants, in particular mechanical screening plants in the nature of vibratory screen separators, especially for screening compost, bark mulch, waste wood, bulky waste, excavated earth, residual waste, crushed building rubble, contaminated soils; drum screening machines; two-fraction screening machines; star screening machines; environmental technology and recycling machines, namely machines for the mechanical treatment other than thermal treatment of waste; separators being waste and trash separator machines, machines for separating and sorting waste by means of air or vacuum pressure, in particular by means of blowers; composting technology machines, namely mechanical power-operated blowers and machines for turning compostable materials and soil materials, in particular triangular windrow turners and trapezoidal windrow turners, whether or not self-propelled or as accessories for tractors.

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Retail and wholesale store services related to waste management and recycling machines, waste crushing machines, waste extraction machines, waste material conveying machines, waste compacting machines, waste compactors, refuse cutting machines, waste sorting machines, rubbish compactors, recycling machines, waste shredding machines, electric garbage disposal machines, organic waste composting machines, compressors for waste collection containers, liquid waste removal machines, machine tools for removing waste material, waste and trash conveying machines, waste and trash separator machines, scrap recovery apparatus, agricultural, earthmoving, construction, oil and gas extraction and mining equipment, machines and machine tools for material processing and production, stationary and mobile screening plants, in particular mechanical screening plants, in particular for screening compost, bark mulch, waste wood, bulky waste, excavated earth, residual waste, crushed building rubble, contaminated soils, drum screen machines, two-fraction screening machines, star screen machines, separators and air separators, namely machines for separating and sorting waste by means of air or vacuum pressure, in particular by means of blowers, environmental technology and recycling machines, namely machines for the mechanical treatment other than thermal treatment of waste, composting technology machines, namely mechanical blowers and machines for turning compostable materials and soil materials, in particular triangular windrow turners and trapezoidal windrow turners, whether or not self-propelled or as accessories for tractors, headgear, clothing, footwear.

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Headwear; clothing, namely, belts being clothing, gloves being clothing, work clothing, namely, working overalls, work coveralls, work trousers, work shirts, work coats, work jackets, work vests, multi-pocket work vests; footwear.

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

GOODS AND SERVICES INFORMATION

For Precious metals and their alloys; silver; gold; platinum metal; palladium; iridium; ruthenium; rhodium; gemstones; sputtering targets of platinum metal or platinum alloys.

International Classes 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For Chemicals, namely additive for resin and raw materials for plating solution; industrial chemicals; sulfuric acid; copper sulfate being blue vitriol; Industrial chemicals, namely, chemicals for surface preparation; Industrial chemicals, namely, chemicals for metal surface finishing; Industrial chemicals, namely, chemicals for surface finishing to coat electroless plating layers on plastics; Industrial chemicals, namely, chemicals for surface finishing to coat electroless plating layers on metals; Industrial chemicals, namely, chemicals for surface finishing to coat electroless plating layers on ceramics; Chemical preparations for use in industry, namely, ungluing preparations; Chemical preparations for use in industry in the nature of anti-sulphurating agents for metals; antioxidants for use in manufacture; Chemical additives for resin; selenium; tellurium; bismuth; antimony; antimony compounds; rhenium; molybdenum chloride; tungsten chloride; cobalt chloride; tantalum chloride; niobium chloride; sulfides; oxides; metallic oxides; non-metallic oxides; powder of metallic oxides; powder of non-metallic oxides

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Mining extraction; repair or maintenance of metalworking machines and tools; repair or maintenance of mining machines and apparatus; rental of construction machines and apparatus; rental of mining machines and apparatus

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Compound semiconductor wafers; semiconductor wafers; coils, electric; computer programs, downloadable for powder flow simulation

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Transport of waste; collection of domestic and industrial waste and trash; storage of waste; Collection and transport of recyclable goods; storage of recyclable goods; collection of industrial waste

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Metal plating; electroplating; electroless plating; metal treating; ceramic processing; recycling of precious metals contained in waste or used goods; recycling of non-ferrous metals contained in waste or used goods; recycling of iron contained in waste or used goods; recycling of steel contained in waste or used goods; recycling of copper contained in waste or used goods; recycling of lithium contained in waste or used goods; recycling of cobalt contained in waste or used goods; recycling of nickel contained in waste or used goods; recycling of tantalum contained in waste or used goods; recycling of niobium contained in waste or used goods; recycling of precious metals; recycling of non-ferrous metals; recycling of iron; recycling of steel; recycling of copper; recycling of lithium; recycling of cobalt; recycling of nickel; recycling of tantalum; recycling of niobium; recycling of plastic contained in waste or used goods; recycling of waste; recycling of waste batteries; sorting of waste; disposal of waste.

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Surveying; geological research; geological prospecting; geological surveying by exploratory drilling; geological exploratory drilling in the nature of test drilling; geological test-pit digging; conducting of chemical analyses of metals; Geological research of metal resources; Mining exploration of metal resources; computer programming; providing online, non-downloadable computer programs on data networks for powder flow simulation; provision of information relating to scientific and technical research

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Iron and steel; alloys of common metal; alloyed steels; iron, unwrought or semi-wrought; steel, unwrought or semi-wrought; alloys of common metal, unwrought or semi-wrought; alloyed steels, unwrought or semi-wrought; alloys of common metal, namely, selenium alloys; manganese; manganese alloys; ores of metal; copper ore; niobium; copper and its alloys; copper, unwrought or semi-wrought; copper alloys, unwrought or semi-wrought; titanium and its alloys; tungsten; tungsten alloys; tantalum and its alloys; niobium alloys; non-ferrous metals and their alloys; copper ingots; copper-base alloy ingots; lead ingots; tin ingots; tellurium ingots; bismuth ingots; castings, foils, powder, and rolled, drawn or extruded semi-finished articles of copper or its alloys; copper alloys; billet of copper or its alloys; cake of copper or its alloys; foils of copper and its alloys for printed circuit boards; steel rails; copper strip; copper alloy strip; steel plates; steel alloy plates; sputtering targets of metal; sputtering targets of metal alloys; sputtering targets of non-ferrous metals and their alloys; sputtering targets of copper and its alloys; sputtering targets of tantalum and its alloys; sputtering targets of titanium and its alloys; sputtering targets of cobalt and its alloys; sputtering targets of nickel and its alloys; sputtering targets of molybdenum and its alloys; sputtering targets of indium and its alloys; sputtering targets of tin and its alloys; sputtering targets of aluminum and its alloys; sputtering

targets of iron and its alloys; sputtering targets of manganese and its alloys; sputtering targets of tungsten and its alloys; metal sputtering targets, namely, sputtering targets of oxides; metal sputtering targets, namely, sputtering targets of metallic oxides; nonferrous metals and their alloys in the form of coils for industrial use; copper and its alloys in the form of coils for industrial use; titanium and its alloys in the form of coils for industrial use; tantalum and its alloys in the form of coils for industrial use; common metal in powdered form; powder of tantalum for industrial use; powder of tantalum alloys for industrial use; powder of niobium for industrial use; powder of niobium alloys for industrial use; powder of titanium for industrial use

GOODS AND SERVICES INFORMATION

For Wood grinding machines; Wood planing machines; Woodworking machines, namely nailing machines, gluing machines, edge-banding machines, moulding machines; Apparatus for machining, namely machining centers for woodworking, metalworking, for processing of glass and/or plastics; Circle cutting tools for use with machines, namely cutting devices being parts of machines; Circular saws for woodworking; Disc shaped rotating grinding tools being parts for machines, namely, grinding tools for grinding machines; Edging tools being sanding woodworking machines for shaping edges; machine tools being lathes; Machine tools, namely, power operated drilling tools; Machine tools for boring being boring machines; machine tools for boring being power operated boring tools; Machine tools for drilling being drilling machines; Machine tools for drilling being power operated drilling tools; Machine grinding tools for grinding machines; Machine tools for parting; Machine tools for sawing being power-operated saws; Machine tools for the plastics processing industry, namely, machine tools for forming plastics; Machine tools for removing waste material for the plastics processing industry; Machine tools for woodworking machines, namely lathes, drilling tools, saws, sanders; Metalworking machine tools; power operated metalworking machines tools, namely, milling tools; Planing tools being planing machines; Precision grooving tools, namely cutters being parts of machines; Precision parting tools being metalworking machine tools; Reamers being machine tools; Machine power tools being routers; Saws being metal sawing machines; Saw-tooth setting machines for lumbering or woodworking saws; Tools for machine tools being tool bits for machines; Industrial process controllers consisting of pressure switches and sensors for monitoring, controlling, and switching hydraulic systems being sold as a unit with manufacturing machines; Pressure regulating apparatus, namely pressure switches being parts of machines; mechanical process controllers

consisting of pressure switches and sensors for monitoring, controlling, and switching hydraulic or pneumatic systems being sold as a unit with manufacturing machines; Process controllers consisting of pressure switches and sensors for monitoring, controlling, and switching pneumatic systems being sold as a unit with manufacturing machines; Regulators being parts of machines; Valves being parts of machines; Industrial robots; Industrial robots for shaping metal; Industrial robots for shaping plastic material; Industrial robots for shaping wood; Industrial robots for use in manufacture; industrial robots for use with machine tools; Assembly line conveyor machinery; Automated robotic handling apparatus being assembly line conveyor machinery for loading and unloading of goods; Automatic conveyor installations being machines; Band conveyors being machines; Batch sorting machines, namely, machines for sorting workpieces made of wood; Belt conveyors; Conveyors being machines; Guidance frameworks for machine tools, namely woodworking machine tools; Manipulators being cargo handling machines, automatic; Hydraulic conveyors; Indoor self-driving robots being industrial robots for industrial use, not for delivery purposes; Indoor self-navigating industrial robots for industrial use; Indoor self-navigating industrial robots for transporting workpieces for industrial purposes; Industrial conveyors being machines; Industrial robots for use in the handling of workpieces; Industrial robots for working wood; Lifting attachments incorporating mechanisms for the handling of goods, namely lifting installations for the transport of goods; Loading and unloading machines; Machine operated platforms capable of elevation above ground level and used for storage; Machines for turning being power operated metalworking machine tools, namely, turning tools; Overhead conveyors being machines; Pneumatic conveyors; Robotic mechanisms for transportation, namely, lifting installations for the transport of goods and machine operated platforms capable of elevation above ground level; Robotic mechanisms for transportation, namely, industrial robots used with loading and unloading machines; Roller conveyors; Rotating screw conveyors; Screw conveyors; Holders for machine tools; Materials handling machines, namely, stacking machines; Parts of machines being workpiece clamping attachments, namely clamping bushings; Wood carving machines; Assembly machines being conveyor belts; Assembly machines for assembling furniture; Boring machines for use in woodworking; Dividing machines in the nature of wood panel separating machines; Drilling machines; Drive mechanisms for machine tools being hydrostatic drives other than for land vehicles; Edge sealing machines for industrial use; Edgers in the nature of wood shaping machines; Engine mounts, other than for land vehicles; Wood finishing machines; Wood gluing machines; Grinding machines for metalworking; Jointers being woodworking machines, namely, wood planing machines; Laminating machines for industrial use; Laser engraving machines for woodworking; Machines and machine tools for treatment of materials and for manufacturing goods made of wood; Machines for machining metals, namely, powered machines for cutting or shaping or finishing metals; Machines, machine tools, and power-operated tools and apparatus, for fastening and joining, namely, clamps and vices for use in the precision clamping of work pieces; Machining centers for metalworking; Metal machining centers for metalworking; Milling machines; Numerically controlled machining stations consisting of machines and machine for boring; Packaging machines; Painting machines; Planing machines; Pressing machines for industrial purposes; Belt sanding machines; Sanding machines for woodworking; Sealing machines being heat transfer presses; Shaping machines for metalworking; compression and injection moulding machines; Stacking machines; Trimming machines being cutting machines for metalworking; Paper trimming machines for commercial or industrial use; Turning machines being lathes; Veneer manufacturing machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Installation services of assembly machines; Installation services of automotive engine blocks; Installation services of boring machines for use in woodworking; Installation services of coating machines; Installation services of dividing machines; Installation services of drilling machines; Installation services of drive mechanisms for machine tools; Installation services of edge sealing machines for industrial use; Installation services of edgers being machines; Installation services of engine mounts, other than for land vehicles; Installation services of feeding machines; Installation services of finishing machines; Installation services of gluing machines; Installation services of grinding machines; Installation services of jointers being woodworking machines; Installation services of machines being laminators other than for office use; Installation services of laser engraving machines for woodworking; Installation services of machines and machine tools for treatment of materials and for manufacturing; Installation services of machines for machining metals; Installation services of machining centers; Installation services of metal machining centers; Installation services of milling machines; Installation services of numerically controlled machining stations for boring; Installation services of packaging machines; Installation services of painting machines; Installation services of planing machines; Installation services of pressing machines for industrial purposes; Installation services of sanding machines; Installation services of sanding machines for woodworking; Installation services of sealing machines; Installation services of shaping and moulding machines; Installation services of sorting machines for industry; Installation services of stacking machines; Installation services of trimming machines; Installation services of turning machines; Installation services of veneer manufacturing machines; Installation services of wood carving machines; Installation services of wood grinding machines; Installation services of wood planing machines; Installation services of woodworking machines; Installation services of apparatus for machining; Installation services of circle cutting tools for use with machines; Installation services of circular saws for woodworking; Installation services of parts for machines consisting of disc shaped rotating grinding tools; Installation services of machines being edging tools; Installation services of machine tools being lathes; Installation services of machine tools; Installation services of machine tools for boring; Installation services of machine tools for drilling; Installation services of machine tools for grinding; Installation services of machine tools for parting; Installation services of machine tools for sawing; Installation services of machine tools for the plastics processing industry; Installation services of machine tools for woodworking machines; Installation services of metalworking machine tools; Installation services of machines being milling tools; Installation services of machines being planing tools; Installation services of parts of machines consisting of precision grooving tools; Installation services of machines being precision parting tools; Installation services of machine tools being reamers; Installation services of machines being routers; Installation services of machines being saws; Installation services of saw-tooth setting machines for lumbering or woodworking saws; Installation services of industrial hydraulic process controllers; Installation services of pressure regulating apparatus being parts of machines; Installation services of mechanical process controllers; Installation services of pneumatic process controllers; Installation services of parts of machines consisting of regulators; Installation services of parts of machines consisting of valves; Installation services of industrial robots; Installation services of industrial robots for shaping metal; Installation services of industrial robots for shaping plastic material; Installation services of industrial robots for shaping wood; Installation services of industrial robots for use in manufacture; Installation services of industrial robots for machine tools; Installation services of assembly line conveyor machinery; Installation services of automated robotic handling apparatus for loading and unloading of goods; Installation services of automatic conveyor installations; Installation services of band conveyors being machines; Installation services of batch sorting machines; Installation services of belt conveyors; Installation services of chain conveyors; Installation services of manipulators being handling machines, automatic; Installation services of hydraulic conveyors;

Installation services of indoor self-driving robots for industrial use; Installation services of industrial conveyors being machines; Installation services of industrial robots for use in the handling of workpieces ; Installation services of industrial robots for working wood; Installation services of lifting attachments incorporating mechanisms for the handling of goods, namely, for use with lifting conveyors; Installation services of loading and unloading machines; Installation services of machine operated platforms capable of elevation above ground level and used for storage; Installation services of machines for turning; Installation services of overhead conveyors; Installation services of pneumatic conveyors; Installation services of robotic mechanisms for transportation; Installation services of roller conveyors; Installation services of rotating screw conveyors; Installation services of screw conveyors; Installation services of holders for machine tools; Installation services of materials handling machines; Installation services of parts of machines consisting of workpiece clamping attachments; Repair and maintenance of assembly machines; Repair and maintenance of automotive engine blocks; Repair and maintenance of boring machines for use in woodworking; Repair and maintenance of coating machines; Repair and maintenance of dividing machines; Repair and maintenance of drilling machines; Repair and maintenance of drive mechanisms for machine tools; Repair and maintenance of edge sealing machines for industrial use; Repair and maintenance of machines being edgers; Repair and maintenance of engine mounts, other than for land vehicles; Repair and maintenance of feeding machines; Repair and maintenance of finishing machines; Repair and maintenance of gluing machines; Repair and maintenance of grinding machines; Repair and maintenance of jointers being woodworking machines; Repair and maintenance of machines being laminators other than for office use; Repair and maintenance of laser engraving machines for woodworking; Repair and maintenance of machines and machine tools for treatment of materials and for manufacturing; Repair and maintenance of machines for machining metals; Repair and maintenance of machines, machine tools, and power-operated tools and apparatus, for fastening and joining; Repair and maintenance of machining centers; Repair and maintenance of metal machining centers; Repair and maintenance of milling machines; Repair and maintenance of numerically controlled machining stations for boring; Repair and maintenance of packaging machines; Repair and maintenance of painting machines; Repair and maintenance of planing machines; Repair and maintenance of pressing machines for industrial purposes; Repair and maintenance of sanding machines; Repair and maintenance of sanding machines for woodworking; Repair and maintenance of sealing machines; Repair and maintenance of shaping and moulding machines; Repair and maintenance of sorting machines for industry; Repair and maintenance of stacking machines; Repair and maintenance of trimming machines; Repair and maintenance of turning machines; Repair and maintenance of veneer manufacturing machines; Repair and maintenance of wood carving machines; Repair and maintenance of wood grinding machines; Repair and maintenance of wood planing machines; Repair and maintenance of woodworking machines; Repair and maintenance of apparatus for machining; Repair and maintenance of circle cutting tools for use with machines; Repair and maintenance of circular saws for woodworking; Repair and maintenance of parts for machines consisting of disc shaped rotating grinding tools; Repair and maintenance of machines being edging tools; Repair and maintenance of machine tools being lathes; Repair and maintenance of machine tools; Repair and maintenance of machine tools for boring; Repair and maintenance of machine tools for drilling; Repair and maintenance of machine tools for grinding; Repair and maintenance of machine tools for parting; Repair and maintenance of machine tools for sawing; Repair and maintenance of machine tools for the plastics processing industry; Repair and maintenance of machine tools for woodworking machines; Repair and maintenance of metalworking machine tools; Repair and maintenance of machines being milling tools; Repair and maintenance of machines being planing tools; Repair and maintenance of parts of machines consisting of precision grooving tools; Repair and maintenance of machines being precision parting tools; Repair and maintenance of machine tools being reamers; Repair and maintenance of machines being routers; Repair and maintenance of

machines being saws; Repair and maintenance of saw-tooth setting machines for lumbering or woodworking saws; Repair and maintenance of industrial process controllers (hydraulic); Repair and maintenance of pressure regulating apparatus being parts of machines; Repair and maintenance of mechanical process controllers; Repair and maintenance of pneumatic process controllers; Repair and maintenance of parts of machines consisting of regulators; Repair and maintenance of parts of machines consisting of valves; Repair and maintenance of industrial robots; Repair and maintenance of industrial robots for shaping metal; Repair and maintenance of industrial robots for shaping plastic material; Repair and maintenance of industrial robots for shaping wood; Repair and maintenance of industrial robots for use in manufacture; Repair and maintenance of robots for machine tools; Repair and maintenance of assembly line conveyor machinery; Repair and maintenance of automated robotic handling apparatus for loading and unloading of goods; Repair and maintenance of automatic conveyor installations; Repair and maintenance of band conveyors being machines; Repair and maintenance of batch sorting machines; Repair and maintenance of belt conveyors; Repair and maintenance of conveyors being machines; Repair and maintenance of guidance frameworks being machines for machine tools; Repair and maintenance of manipulators being handling machines, automatic; Repair and maintenance of hydraulic conveyors; Repair and maintenance of indoor self-driving robots for industrial use; Repair and maintenance of industrial conveyors being machines; Repair and maintenance of industrial robots for use in the handling of workpieces; Repair and maintenance of industrial robots for working wood; Repair and maintenance of loading and unloading machines; Repair and maintenance of machine operated platforms capable of elevation above ground level and used for storage; Repair and maintenance of machines for turning; Repair and maintenance of overhead conveyors; Repair and maintenance of pneumatic conveyors; Repair and maintenance of robotic mechanisms for transportation; Repair and maintenance of roller conveyors; Repair and maintenance of rotating screw conveyors; Repair and maintenance of screw conveyors; Repair and maintenance of holders for machine tools; Repair and maintenance of materials handling machines; Repair and maintenance of parts of machines consisting of workpiece clamping attachments

Mark Literal(s) RIVER & STONE TEA

CASE IDENTIFIERS

Serial Number 98167034 **Application Filing Date** Sep. 06, 2023 **Registration Number** 7831110 **Registration Date** Jun. 17, 2025 **Register** Principal **Mark Type** Trademark **Publication Date** Apr. 29, 2025

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a depiction of a landscape within a circle. The circle is centered above the words "RIVER & STONE TEA". The circle is stylized as a painted brush stroke which starts at the approximate top of the landscape image and gradually fades as it circles the landscape depiction, mimicking the stroke of a paint brush. The landscape depicts a river which snakes its way to the horizon that appears at about the middle of the circle. There are two stones in the river. As the river proceeds to the horizon, it becomes narrower as if viewed from a further distance. The horizon arcs slightly. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "TEA"

GOODS AND SERVICES INFORMATION

For Matcha; Tea; Beverages made of tea; Tea-based beverages

ALPHA CHARLIE

Mark Literal(s) ALPHA CHARLIE

CASE IDENTIFIERS

Serial Number 98279542 **Application Filing Date** Nov. 21, 2023 **Registration Number** 7831185 **Registration Date** Jun. 17, 2025 **Register** Principal **Mark Type** Trademark **Publication Date** Apr. 29, 2025

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

FOREIGN INFORMATION

Priority Claimed Yes **Foreign Application Number** 2271282 **Foreign Application Filing Date** Jul. 24, 2023 **Foreign Registration Number** TMA1,295,411 **Foreign Registration Date** Mar. 03, 2025 **Foreign Application/ Registration County** CANADA **Foreign Expiration Date** Mar. 03, 2035

GOODS AND SERVICES INFORMATION

For Gloves; Hats; Shorts; Socks; Swimwear; Underwear; T-shirts; Tank tops

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

BASIS INFORMATION

Currently 44E Yes

OWNER INFORMATION

Owner Name Out on the Street Inc. **Address** Out on the Street Inc. 551 Church Street Toronto CANADA M4Y2E2 **Legal Entity** CORPORATION **State or Country Where Organized** CANADA

EXAMINING ATTORNEY

AMERICAN NATIONAL STANDARDS INSTITUTE

Mark Literal(s) AMERICAN NATIONAL STANDARDS INSTITUTE

CASE IDENTIFIERS

Serial Number 98281484 **Application Filing Date** Nov. 22, 2023 **Registration Number** 7831188 **Registration Date** Jun. 17, 2025 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Apr. 29, 2025

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK **Disclaimer** "STANDARDS INSTITUTE" **Acquired Distinctiveness** In whole

GOODS AND SERVICES INFORMATION

For Printed publications, namely, books, booklets, and manuals in the field of standards development and standardization **International Classes** 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter **First Use** Nov. 1969 **In Commerce** Nov. 1969

For Providing a website in the field of current event news and information relating to standards development and standardization; providing a website in the field of current event news and information about international trade and development, government affairs, and consumer outreach as it relates to the field of standards development and standardization; education services, namely, providing in-person meetings in the nature of conferences, symposiums, and forums in the field of standards development and standardization; providing online non-downloadable webinars in the field of standards development and standardization; education services, namely, providing virtual and in-person training programs and courses to promote understanding and participation in the field of standards development and standardization; providing educational testing information to consumers and consumer representatives in the field of standards development and standardization; providing educational testing information to people and organizations in the field of workforce credentialing; providing recognition by way of awards to demonstrate excellence in accreditation in the field of standards development and standardization; providing online newsletters and newsletters delivered via electronic mail in the field of standards development and standardization; providing online non-downloadable reports and white papers in the field of standards development and standardization; organizing and conducting in-person and virtual conferences in the field of standards development and standardization

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment **First Use** Mar. 2000 **In Commerce** Mar. 2000

For Providing business management services by means of facilitation of standards development by providing a due process framework for standards developers that ensures openness and fairness in the standards developing process; providing online retail store services featuring downloadable publications in the field of standards development and standardization; commercial lobbying services in the field of standards development and standardization

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business **First Use** Mar. 2000 **In Commerce** Mar. 2000

For Downloadable publications, namely, newsletters, books, booklets, and manuals in the field of standards development and standardization

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Mar. 2000 **In Commerce** Mar. 2000

For Political lobbying services in the field of standards development and standardization

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services **First Use** Nov. 1969 **In Commerce** Nov. 1969

BASIS INFORMATION

Currently Use Yes

OWNER INFORMATION

Owner Name American National Standards Institute, Incorporated **Address** American National Standards Institute, I ncorporated 25 West 43rd Street New York NEW YORK 10036 **Legal Entity** non-profit corporation **State or Country Where Organized** NEW YORK

Mark Literal(s)

CASE IDENTIFIERS

Serial Number 98283310 **Application Filing Date** Nov. 23, 2023 **Registration Number** 7831191 **Registration Date** Jun. 17, 2025 **Register** Principal **Mark Type** Service Mark Trademark **Publication Date** Apr. 29, 2025

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a green circle. The color white represents background, outlining shading, and/or transparent area and is not part of the mark. **Color Drawing** Yes **Color Claimed** The color(s) green is/are claimed as a feature of the mark.

FOREIGN INFORMATION

Priority Claimed Yes **Foreign Application Number** 2372443 **Foreign Application Filing Date** Jul. 17, 2023 **Foreign Registration Number** 2372443 **Foreign Registration Date** Jul. 17, 2023 **Foreign Application/ Registration County** AUSTRALIA **Foreign Expiration Date** Jul. 17, 2033

GOODS AND SERVICES INFORMATION

For Materials, not of metal, for building and construction, namely, cement aggregates, bitumen, artificial stone, asphalt, bedding-in bitumen-based and cement-based compositions for use in civil engineering, binding agents for making briquettes being asphalt, tar, pitch, and cement, bituminous compositions for building purposes, blocks made of concrete, boards of gypsum plaster, bonding mortar, bricks, concrete reinforced with plastics and glass fibres, non-metal composite panels composed primarily of expanded polystyrene, glass, mineral fibres in the nature of non-woven textiles made of synthetic fibres for use in the building industry, plastic being plastic building boards, plastic tiles, plastic composite blocks for building and plastic floor panels, building sand, fibre cement, asphalt based coatings for protecting concrete other than paint, ceramic tiles, cladding, concrete beams, dry mortar, dry screed in the nature of a sand and cement mixture, fire cements, fireproof cement coatings, granite, gravel, ground rock in the nature of natural stone, grout, gypsum mortar, limestone, mortar mix, paving stones, pebbles, pitch, plaster, polymer concrete, quarry products in the nature of sand, gravel and gypsum, ready to use concrete, reinforced concrete, Portland cement, silica quartz, and natural stone; cement; concrete; concrete aggregate; cement and concrete made by renewable energy sources; blended cements and concrete; cement and concrete mixes; premixed cement or concrete; fibre cements; magnesium cement; refractory cement; building and construction materials made of cement or concrete, namely, bars, beams, brackets, blocks, building boards, ceiling boards, building panels, casings, cladding, doors, load

transfer dowels, formwork tables, window and door frames, fascia, lintels, piles, slabs, walls, pipes for building purposes, floors, retaining walls, poles, fencing, bollards, footings, rails, roofing materials, partitions, pillars, reinforcing materials, tiles, wall claddings and window frames, cement partitions for buildings, concrete plates for buildings, concrete building panels incorporating acoustic insulation, concrete poles for building, concrete slabs for building, concrete construction blocks, panels of precast concrete for buildings, blocks made of concrete, fiber cement boards, fiber cement siding, concrete bricks, concrete paving blocks, concrete partitions for buildings, concrete retaining walls, concrete panels; cement or concrete based mixtures for use in building and construction; cement or concrete based coatings for use in building and construction; cement or concrete based materials for use in building and construction; cement or concrete based wall coatings; cement or concrete blocks; cement for blast furnaces; building materials, namely, cement or concrete posts, slabs, blocks, wall panels, wall members in the nature of wall framework, tiles, cladding, panels, slopes, piles, plates, posts, sheets, beams, roof panels, roofing, decorative mouldings, architectural products in the nature of moldings and finish trim, friezes and prefabricated columns; fireproof cement coating; sheets of fibre cement for use in building; soil stabilising cement for use in agriculture; substances made of cement or concrete for filling and repair of surface defects and flaws, namely, filling cement; aggregate material composed of cement, sand and natural stone material; building materials, namely, cement or concrete products for use in buildings, gardens, landscaping, roadways, walkways, ponds, pools, water tanks; mortar for building; grout.

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Automated assembly machines for manufacture of electric motors, electric generators, electric engines, electric drives, machines for generating gas by electrolysis, turbines for power generation, hydrogen engines, ammonia engines, electric batteries, autonomous vehicles, autonomous mining equipment, electric cells, electric battery chargers, charging stations for electric vehicles, photovoltaic cells and modules, and power units; Automated machines for loading materials; Automated Handling apparatus, namely, cargo handling machines; mechanical control instruments for the automation of machining operations, being parts of machines; mine working machines being mining machines; Machines for drilling; electric drills; bulldozers; hydraulic excavators; power-operated machines for digging earth, namely, excavators; drilling rigs; automated drilling machines; automated electric drills; automated hydraulic excavators; automated drilling rigs; automated concrete mixer machines; automated concrete pump machines; automated concrete spraying machines; automated apparatus and machines for use in mining, namely, mining machines, drilling rigs and machines, drag-line excavators, hydraulic excavators, belt conveyors, truck mills for mining purposes, mining drills, gravel and dirt sorting and screening machines, crushing machines for mining, earth moving machines, mechanical shovels, wheel loaders, and continuous mining machines; automated machines for generating gas by electrolysis; industrial robots; generators, namely, automated machines for generating power; generators of electricity; electricity generators that may also be used as electric motors for vehicles; generators for land vehicles; generators for wind turbines; geothermal power generators; hydroelectric generators; gas-operated power generators; electric power generators using waste heat; steam-operated power generators; solar-powered electricity generators; mobile electric power generators; current generators; electricity generators; wind powered electricity generators; generation plants, mainly comprising engines and motors for the generation of electricity; electric generators; machines for generating gas by electrolysis; machines for generating power, namely, portable electric power generators, auxiliary power units for supplying electrical power to heat and power generators, hydraulic power packs, electric power generators using waste heat, and emergency power generators; wind turbines; wind towers, namely wind-powered electricity generators; wind turbine blades;

gas, wind and hydropower turbines for power generation, other than for land vehicles; power operated tools, namely, power jacks, power hammers, powered hole openers used to enlarge holes in the ground, hammer drivers, drills, shovels, and air compressors; apparatus and machines for use in mining, namely, mining machines, drilling rigs and machines, drag-line excavators, hydraulic excavators, belt conveyors, truck mills for mining purposes, mining drills, gravel and dirt sorting and screening machines, crushing machines for mining, earth moving machines, mechanical shovels, wheel loaders, and continuous mining machines; concrete mixer machines; concrete pump machines; concrete spraying machines; converters for works of steel, namely, industrial chemical reactors used in converting raw iron into steel; electric motors, not for land vehicles; gas converters for converting gasoline power to liquefied gas power in engines, namely, carburetors and fuel injection systems for engines; fuel dispensing pumps for service stations and replacement parts related thereto; refueling stations for vehicles with hydrogen engines or propulsion, being hydrogen fuel dispensing pumps for service stations; hydrogen dispensing pumps for service stations; automated control mechanisms for machines, engines or motors, namely, hydraulic controls for machines, motors and engines, speed governors for machines, engines and motors, pneumatic controls for machines, motors and engines, and machines indicating power usage which monitor and regulate the generation, supply, transmission, distribution and use of power and fuel; electric motors for machines; electric drives for machines; transmissions for machines; power transmission systems for machines; mobile machines adapted to operate automatically, namely mining machines; mechanical control apparatus for the automation of plant and machinery, namely, hydraulic controls for machines, motors and engines, thermostatic control valves for machines, and machines indicating power usage which monitor and regulate the generation, supply, transmission, distribution and use of power and fuel; fuel conversion apparatus for internal combustion engines, being parts of machines; electric power supply units being auxiliary power units for supplying electrical power; electrolysis apparatus for converting water into hydrogen and/or oxygen gas; replacement parts and fittings for the aforementioned goods.

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Industrial minerals, namely, industrial silicon, industrial natural graphite, foundry sand, kaolin, sulphur, potassium alum, phosphates, potash, silica gel, alunite, and zeolites for industrial purposes; processed industrial hematite minerals; processed industrial magnetite minerals; cobalt chemicals for industrial purposes; cobalt chemicals produced by renewable energy for industrial purposes; lithium; lithium produced by renewable energy; chemical preparations for decarbonising engines; hydrogen and hydrogen additives for use in industry, science, manufacture and research; hydrogen products, namely, hydrogen chemical preparations and substances for use in industry, science and for research purposes; hydrogen products, preparations and substances for industrial use, namely, hydrogen peroxide, hydrogen sulphide, aluminium hydrate, hydrogen dioxide, compressed hydrogen, hydrofluoric acid, potassium hydroxide, strontium hydroxide, and magnesium hydroxide for use in manufacture; magnesium chloride for use in industry, science, manufacture and research; magnesium oxide for use in industry, science, manufacture and research; premixed adhesive foam cements for industrial purposes; contact cements for industrial purposes made from by-products from the metallurgical and mineral industries; concrete admixtures; cement and concrete admixtures produced by renewable energy sources; cement and concrete preservatives, except paints and oils; cement and concrete waterproofing chemicals, except paint; chemical additives for cement and concrete; chemical compositions for hardening cement and concrete; chemical preparations for the treatment of cement and concrete; binding chemicals for concrete; bonding agents for concrete; chemical preparations for use with cement and concrete; chemical products for use as

additives to cement and concrete; chemical compositions for setting cement and concrete; chemical compositions for preserving cement and concrete; preservatives for cement and concrete, except paints and oils; products for protecting and sealing cement and concrete, namely industrial adhesives for use in coating and sealing; chemical reagents or mixtures, other than for medical or veterinary purposes.

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Cement and concrete pumping services; civil and mechanical engineering construction of mines; beneath ground construction of mines; construction of energy plants and related facilities, renewable energy plants and related facilities, gas production plants and related facilities, iron and steel production plants and related facilities, kilns, cement mills, concrete batching plants and related facilities, cement factories and related facilities, hydrogen refueling stations, electric vehicle charging stations, and hydrogen and ammonia production plants and related facilities; installation, repair and maintenance services for energy generation plant and equipment, renewable energy generation plant and equipment, gas production plant and equipment, iron and steel production plant and equipment, concrete production plant and equipment, cement production plant and equipment, hydrogen refueling stations and equipment, fuel cells, batteries, autonomous mining equipment, autonomous vehicles, autonomous drones, and hydrogen and ammonia production plant and equipment; oil and gas drilling; excavation services; rental of excavators; charging of electric vehicles; recharging of batteries and accumulators; rental of battery chargers; installation, repair and maintenance of electric vehicles chargers; installation, maintenance and repair of photovoltaic cells and modules; installation of photovoltaic power generation installations; construction, installation, maintenance and repair of solar energy apparatus and installations; construction, installation, maintenance and repair of wind energy apparatus and installations; vehicle service stations and vehicle fueling station services; hydrogen refueling stations for vehicles; hydrogen gas refueling for vehicles; aircraft refueling and maintenance services, including such services involving hydrogen fuels; watercraft refueling and maintenance services, including such services involving hydrogen fuels; recharging services for electric vehicles, electric aircraft and electric watercraft; hydroelectric power station construction services; building of railways; construction of ports and port terminals; rental of machinery for use in mining and excavating; rental of autonomous machinery for use in mining and excavating; information, consultancy and advisory services concerning all the aforementioned.

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for controlling and monitoring unmanned vehicles, namely, electronic controllers for controlling vehicle dynamics, electronic controllers for controlling torque vectoring, GPS vehicle tracking apparatus being GPS tracking devices, sensors for determining velocity and acceleration, electronic proximity sensors and switches, electronic vibration, shock, motion, angle, temperature and voltage monitors being vehicle safety equipment, electronic control devices for the remote starting and shutoff of motors and engines being remote-controlled engine shut-off devices for land vehicles, wireless transmitters and receivers for installation in vehicles, GPS vehicle tracking devices, and electronic tire pressure monitors being vehicle safety equipment; apparatus for the automated control of vehicles and machines, namely, electronic control systems for vehicles and machines; computer apparatus for use in the automation of machines, namely computer hardware and recorded computer software for monitoring and controlling communication between computers and automated machine systems; downloadable and recorded application software that applies artificial intelligence

programming for use in automation of machines for mining; downloadable and recorded application software that applies artificial intelligence programming for use in automation of industrial machines; downloadable and recorded application software that applies artificial intelligence programming for use in automation of industrial machinery; downloadable and recorded computer software for monitoring monitoring energy consumption, selecting and comparing renewable energy providers and selecting and comparing energy efficient products and products made from renewable resources; downloadable and recorded computer software for controlling the motion of industrial machinery; downloaded and recorded computer software using artificial intelligence for machines learning for the remote controlled operation of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; downloadable and recorded computer software for use in battery pack assembly, battery manufacturing, vehicle control, vehicle systems management, torque vectoring, torque control, battery performance monitoring, battery health monitoring, battery management, cell management, battery monitoring, fuel management, and fuel cell monitoring; downloadable and recorded computer software for incorporating artificial intelligence and machine learning into industrial machinery, vehicles, and autonomous vehicles; downloadable and recorded computer software for controlling vehicles, providing assistance in controlling vehicles, and operating vehicles; downloadable and recorded computer software for designing and implementing vehicle dynamics control and torque vectoring control; downloadable and recorded computer software for the integration of artificial intelligence and machine learning to big data; downloadable and recorded computer software featuring algorithms for training computers to predict user behaviour in the fields of machine learning models and artificial intelligence; downloadable and recorded computer software featuring autonomous driving control systems for vehicles; downloadable and recorded battery management software; downloadable artificial intelligence software for analysis of data relating to machine learning; downloadable and recorded artificial intelligence and machine learning software for business data analytics and user behaviour analytics; downloadable and recorded artificial intelligence and machine learning software for analysis of fuel and performance efficiency of vehicles and for analysis of battery depletion in electric vehicles; software technologies in the nature of downloadable software featuring algorithms and artificial intelligence for the automation of mining machinery, industrial machinery and mining vehicles; downloadable and recorded software for the supervision of equipment and installations for the production and distribution of energy; downloadable and recorded software for smart charging of electric vehicles and/or hydrogen-powered or hydrogen-propelled vehicles; downloadable and recorded computer software, computer hardware and downloadable and recorded computer firmware for the autonomous operation of vehicles and equipment, including mining haul trucks, road trains, trains, water carts, mining trucks and carts, excavators, bulldozers, diggers, machine loaders, drones and drilling rigs; downloadable and recorded computer software for the remote control of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; downloadable and recorded computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, including mining haul vehicles, trucks and carts, road trains, trains and drones; downloadable and recorded computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous machines, including bulldozers, excavators, diggers, machine loaders and drilling rigs; computers for autonomous operation of vehicles and equipment; autonomous navigation systems for vehicles and machines; automatic and autonomous driving electronic control devices for vehicles; pre-collision detection and collision avoidance systems comprised of electronic proximity sensors and switches, high resolution cameras, integrated circuits for the purpose of image processing, and computer display monitors; pre-collision detection and collision avoidance systems for automated vehicles and machines comprised of electronic proximity sensors and switches, high resolution cameras and recorded artificial intelligence software for analysing

and automatically responding to sensor readings and images; anti-collision and shockproof electric sensors for vehicles and automated machinery; anti-collision and shockproof radars apparatus for vehicles and automated machinery; computer hardware, downloadable and recorded software and downloadable and recorded firmware for high precision machine guidance of vehicles and machinery on mining sites; downloadable and recorded computer software for the management and operation of mining sites; downloadable and recorded computer software for the efficient assignment of manned and autonomous assets and resources on a mining site; downloadable and recorded computer software featuring algorithms for the efficient assignment of manned and autonomous assets and resources on a mining site; downloadable and recorded computer software for vehicle fleet management, including for the management of fleets of autonomous or semi-autonomous vehicles; vehicle tracking apparatus, including in relation to fleets of autonomous or semi-autonomous vehicles, namely, wireless transceivers with collection and display technology for the status and tracking of all vehicle types in local environments; downloadable and recorded computer software for monitoring, optimising, and regulating the storage and discharge of stored energy to and from batteries and electric cells; downloadable and recorded application software for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells; downloadable and recorded computer software for monitoring energy consumption; downloadable and recorded application software for controlling and monitoring energy and utility systems, energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and ammonia production plants; computer hardware, downloadable and recorded computer software and downloadable and recorded computer firmware for use in the fields of battery management/control and energy storage; downloadable and recorded computer software to enable users to capture, record, monitor, display, transmit, process and/or analyse information and data relating to energy storage and battery performance; downloadable and recorded computer software that enables users to monitor, interpret and/or model information and data relating to energy storage and battery performance; downloadable and recorded computer software for energy management; humanoid robots with artificial intelligence for use in automation of machines and vehicles and autonomous operation of machines and vehicles; electrolysis apparatus for laboratory use; electric power supply units being power supplies; electrification systems for land, air, rail and marine vehicles comprising vehicle battery packs, inverters for power supply, electric power controllers, electrical transformers, electrical cabling, electronic power converters, electric power distribution units, battery chargers, and recorded battery management software; electric cables; bundles of electric cabling; batteries; electric batteries for powering land, air or water vehicles; battery subpacks, namely, battery packs; battery chargers, including for vehicles; electric battery chargers; battery chargers, namely, rapid charger units for battery electric equipment; electric batteries; high energy density energy electrical cells; electric charging cables; electric cells and batteries; electric control devices for energy management; lithium batteries; battery management systems, namely, battery performance monitors and battery monitors for servicing, repairing and maintaining batteries; energy management systems, namely, recorded power management software, electric resistor networks and electrical power connectors which monitor and regulate the generation, supply, transmission, distribution and use of power; power electronics, namely, inverters, electrical power converters, and semiconductors; power controllers; power distribution or control machines and apparatus, namely, electricity distribution consoles and electrical power distribution blocks; electrical and electronic monitoring and switching apparatus and systems, namely, electronic monitors and monitor modules for monitoring electric current and electrical signals; thermal management systems for batteries and inverters, namely, systems comprised of electric resistor networks, temperature controllers, recorded computer software for controlling heat exchangers, temperature sensors, recorded thermal management software and firmware and electronic power controllers used

to reduce energy consumption; mobile and static off board power units, being batteries; charging stations for electric vehicles; global positioning system (GPS) devices, namely, GPS vehicle tracking devices; photovoltaic cells and modules; electronic digital automation installations being computer hardware for measuring building service installations; electronic digital building automation systems, namely, computer hardware and recorded computer software system for automated control of building environment, access and security systems; power units being batteries; replacement parts, and fittings for the aforementioned goods.

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Transport by land, air, road, sea, pipeline and railway; transportation of materials by land, air, ship and railway; packaging and storing of metals; transportation, transmission through pipelines, storage, supply, distribution and delivery of fuel derived from hydrogen or predominantly derived from hydrogen, including hydrogen produced by renewable energy sources; transportation, storage, supply, distribution and delivery of iron ore; transportation, storage, supply, distribution and delivery of iron ore made by renewable energy sources; transportation, storage, supply, distribution and delivery of cement and concrete; transportation, storage, supply, distribution and delivery of cement or concrete produced by renewable energy sources; distribution and transmission through power lines of electricity in the nature of green electrons; distribution of energy; transportation logistics services in the nature of supply chain logistics and reverse logistics services, namely, storage, transportation and delivery of goods for others by air, rail, ship or truck; transport of materials by land vehicles controlled remotely; rental of autonomous vehicles, aircraft and watercraft; rental of hydrogen powered vehicles, aircraft and watercraft; vehicle fleet management services in the field of tracking and monitoring vehicle fleets, including in relation to fleets of autonomous or semi-autonomous vehicles, namely, locating and tracking of vehicle fleets for transportation purposes; information, advisory and consultancy services concerning all the aforementioned.

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Production and generation of renewable energy, namely, hydroelectric energy; production of cement for others; production of concrete for others; production of cement for others, produced by renewable energy sources; production of concrete for others, produced by renewable energy sources; hire of electrical generators, namely, rental of power-generating equipment; rental of electricity generators; manufacturing and processing cement and concrete by operation of cement and concrete production facilities for others; custom manufacture of products, equipment, installations and systems associated with iron and steel production, including iron and steel produced by renewable energy sources, namely, smelting machines, arc furnaces and blast furnaces; custom manufacture of products, equipment, installations and systems associated with cement and concrete production, storage and supply, including cement and concrete produced by renewable energy sources, namely cement kilns, shaft kilns, cement mills, clinker grinding mills, cement mills, cement roller presses, cement silos, cement separators, rotary dryers, cement dust collectors, concrete storage silos, augers, concrete block making machines, concrete mixers, screed mixers, concrete mixing trucks, concrete pumps, and mobile concrete batching plants; moulding of cement or concrete parts; custom manufacture of autonomous vehicles and equipment, namely land vehicles, barges, cars, trucks, tractors, locomotives, ships, aircraft, tractor-trailers, mining haul trucks, road trains, trains, water carts, mining trucks and carts, excavators, bulldozers, diggers, machine loaders, drones, and drilling rigs; custom manufacturing of systems for the automation of vehicles and equipment; custom manufacturing of batteries, fuel cells, and electric powertrains for vehicles,

including mining vehicles; treatment and blending of minerals; drilling of metals; recycling and reprocessing services of common metals and their alloys and goods made from common metals and their alloys; ore processing, namely, beneficiation of iron ores; metallurgical processing, namely, treatment of arsenic-containing materials; lithium processing; copper processing; power generation; production of energy; hydroelectric energy production; rental of batteries; rental of electricity generators; information, advisory and consultancy services in relation to all the aforesaid services.

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Gas and oil exploration services; mineral exploration services, namely, iron ore exploration; mining exploration of iron, copper, gold, silver, lithium, lithium pegmatite, copper-porphyry, magnetite, copper-molybdenum and copper-gold; sediment sampling for analysis purposes; mineral exploration services; scientific and technological design, research and consulting in the mining and metallurgical industries; product testing, research, design and development in the field of autonomous technology; product testing, research, design and development in the field of artificial intelligence; scientific and technological design, research and consulting in the field of renewable energy, namely, renewable energy generation and the production of materials using renewable energy resources, the operation of mines using renewable energy, and the use of renewable energy for electric and alternative propulsion systems; chemical analysis and research; product testing, research, design and development in the field of hydrogen and hydrogen products, including hydrogen production and distribution; cartographic or thermographic measurement services by drone; providing online non-downloadable artificial intelligence software for the remote controlled operation of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; providing online non-downloadable artificial intelligence software for use in automation of machines for mining; providing online non-downloadable artificial intelligence software for use in automation of industrial machines; providing online non-downloadable artificial intelligence software for business data analytics and user behaviour analytics; providing online non-downloadable artificial intelligence software for analysis of fuel and performance efficiency of vehicles and for analysis of battery depletion in electric vehicles; providing online non-downloadable artificial intelligence software for analysis of data relating to machine learning; development and testing of computing methods, algorithms and software; providing software as a Service (SaaS) services featuring software for the supervision of equipment and installations for the production and distribution of energy; providing online non-downloadable software for the remote control of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; providing online non-downloadable software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, including mining haul vehicles, trucks and carts, road trains, trains and drones; providing online non-downloadable software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous machines, including bulldozers, excavators, diggers, machine loaders and drilling rigs; providing online non-downloadable software for vehicle fleet management, including for the management of fleets of autonomous or semi-autonomous vehicles; providing online non-downloadable software for monitoring, optimising, and regulating the storage and discharge of stored energy to and from batteries and electric cells; providing online non-downloadable software for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells; providing online non-downloadable software for monitoring energy consumption; providing online non-downloadable software for energy management; providing online non-downloadable software for the management and operation of mining sites; providing online non-downloadable software for high precision machine guidance of vehicles and

machinery on mining sites; providing online non-downloadable software for the efficient assignment of manned and autonomous assets and resources on a mining site; providing online non-downloadable software for controlling and monitoring energy and utility systems, energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and ammonia production plants; computer programming services; architectural or engineering project management services; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software for automated vehicles and machines; design and development of energy and power management software systems; design, development, engineering and consultancy services related thereto in the field of batteries, fuel cells, inverters, electric motors for vehicles and electric motors; software development services for management, control and/or monitoring systems for batteries, fuel cells, inverters, electric motors for vehicles and electric motors; scientific, technological and research services in the fields of battery management/control, monitoring and energy storage; design and development of hardware, software and firmware for use in the fields of battery management/control and energy storage; design and development of battery management and control systems; providing temporary use of online non-downloadable software for use in the fields of battery management/control and energy storage; providing temporary use of online non-downloadable interface software for use in connection with battery management and control systems; software as a service [SaaS] featuring software for use in the fields of battery management/control and energy storage; platform as a service [PaaS] featuring software platforms for use in the fields of battery management/control and energy storage; providing temporary use of online non-downloadable software to enable users to capture, record, monitor, display, transmit, process and/or analyse information and data relating to energy storage and battery performance; providing temporary use via license of non-downloadable online software to enable users to monitor, interpret and/or model information and data relating to energy storage and battery performance; consultancy services relating to the design and development of batteries; technological consultancy services relating to battery lifetime and battery lifetime extension; technological consultancy services relating to battery management/control and energy storage; scientific and technological design, consulting, and research services relating to mining, including autonomous mining; geological test drilling; information, advisory, and consultancy services in relation to all of the aforesaid services.

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the stylized wording "RED ROCK" appearing in bold, red, capital letters that are equal size, the stylized wording "DEVELOPMENTS" appears below this wording and appears in thinner, black capital letters that are approximately one-third the size of the letters in the stylized wording "RED ROCK" and are spaced apart from each other. Starting above the "O" in "ROCK", a black, jagged line makes an approximate 45 degree angle to the right and forms a mountain peak above the letter "K". The black, jagged line then descends in a slope-like manner, ending at a point above the end of the word "DEVELOPMENTS". The black line then extends in a straight manner until it almost meets the letter "K" in "ROCK". The black line forms the outline of a MOUNTAIN. **Color Drawing** Yes **Color Claimed** The color(s) RED AND BLACK is/are claimed as a feature of the mark. **Disclaimer** DEVELOPMENTS

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a motion mark of the Earth colored gray rotating from west to east on an axis that is represented by a line protruding from each pole colored gray. As the Earth rotates, the diameter becomes smaller and a black line begins to encircle the Earth counterclockwise, becoming thicker as the diameter shrinks. The north pole axis changes to the color red and extends down and to the left and a small, black line appears at the top left of the mark until the mark is no longer a drawing of the Earth, but is instead a broken circle having a diagonal red line dissecting the circle and a small, black line extending inward at the top left of the circle. The background of the mark is white, and is not claimed as a feature of the mark. **Color Drawing** Yes **Color Claimed** The color(s) gray, black, and red is/are claimed as a feature of the mark.
