GOODS AND SERVICES INFORMATION

For Motherboards; Semiconductors; Antennas; Antennas for wireless communications apparatus; BAN (body area network) hardware; Broadband wireless equipment, namely, telecommunications base station equipment for cellular and fixed networking and communications applications; Central processing units (CPU); Communications headsets for use with communication radios, intercom systems, or other communications network transceivers; Computer chipset for use in transmitting data to and from a central processing unit; Computer game software downloadable from a global computer network; Computer hardware for communicating audio, video and data between computers via a global computer network, wide-area computer networks, and peer-to-peer computer networks; Computer hardware with embedded operating system software; Computer hardware with preinstalled software for data transmission, data management, data processing, data compression, and data storage; Computer interface boards; Computer motherboards; Computer motherboards and daughterboards; Computer network-attached storage (NAS) hardware; Computer network adapters; Computer network adapters, switches, routers and hubs; Computer network bridges; Computer network hubs; Computer network hubs, switches and routers; Computer network routers; Computer network server; Computer network switches; Computer networking hardware; Computer programs, recorded, for data transmission, data management, data processing, data compression, and data storage; Computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; Computers for network management; Computers for use in data management; Data processing apparatus; Data processing equipment; Data processors; Downloadable application programming interface (API) software; Downloadable basic Input/Output System (BIOS) software; Downloadable compiler software; Downloadable computer firmware for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Downloadable computer operating software; Downloadable computer programs for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Downloadable computer

programs using artificial intelligence for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Downloadable computer software and firmware for operating system programs; Downloadable computer software for administration of computer local area networks; Downloadable computer software for administration of computer networks; Downloadable computer software for authorising access to databases; Downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; Downloadable computer software for computer system and application development, deployment and management; Downloadable computer software for controlling and managing access server applications; Downloadable computer software for database management; Downloadable computer software for manipulating digital audio information for use in audio media applications; Downloadable computer software for processing digital images; Downloadable computer software for processing digital music files; Downloadable computer software for use in database management; Downloadable computer software for use in the encryption and decryption of digital files, including audio, video, text, binary, still images, graphics and multimedia files; Downloadable computer software that assists computers in deploying parallel applications and performing parallel computations; Downloadable computer software to control and improve computer and audio equipment sound quality; Downloadable computer software to enhance the audiovisual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images, and moving pictures; Downloadable computer software, namely, software development tools for the creation of mobile internet applications and client interfaces; Downloadable data compression software; Downloadable data sets in the field of computing performance statistics; Downloadable decoder software; Downloadable enterprise software in the nature of a database for non-transactional data and a search engine for database content; Downloadable interactive software for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Downloadable middleware for software application integration; Downloadable network access server operating software; Downloadable software development kits (SDK); Downloadable software for monitoring and controlling communication between computers and automated machine systems; Downloadable software for processing images, graphics and text; Downloadable software for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Downloadable software in the nature of a mobile application for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Downloadable UPI (universal peripheral interface) software; Downloadable USB (universal serial bus) operating software; Downloadable VPN (virtual private network) operating software; Electronic communications systems comprised of computer hardware and recorded software for the transmission of data between two points; Electronic data processing apparatus; Electronic semi-conductors; Electronic software updates, namely, downloadable computer software and associated downloadable data files for updating computer software in the fields of desktop and embedded operating software management provided via computer and communication networks; Integrated circuits, integrated circuit chips, and integrated circuit modules for digital video compression and decompression; Integrated circuits, integrated circuit chips, and integrated circuit modules for encoding and decoding digital video; Interface cards for data processing equipment in the form of printed circuits; Interfaces and peripheral devices for computers; Interfaces for computers; LAN (local area network) access points for connecting network computer users; LAN (local area network) hardware; Microwave antennas; Mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; Network cards; Network routers; Network servers; Peripheral component interface (PCI) hardware; Quantum computers; Radio-frequency antennas; Radio

antennas; Reconfigurable processors for use in wireless communication handsets and network equipment in the field of wideband communications; Recorded application programming interface (API) software; Recorded computer firmware for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Recorded computer programs for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Recorded computer programs using artificial intelligence for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Recorded computer software for database management; Recorded interactive software for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Recorded software for data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Routers with embedded network configuration software; Semi-conductor memories; Semi-conductor memory units; Semi-conductors; Semiconductor chip sets; Semiconductor chip sets for use in data transmission, data management, data processing, data compression, and data storage in the fields of reverse computing, quantum computing and classical computing platforms; Semiconductor chips; Semiconductor devices; Software-defined radio (SDR); System on a Chip (SoC); Telecommunications and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; Very large scale integration (VLSI) semiconductor integrated circuits; WAN (wide area network) hardware; Wide area network (WAN) routers; Wireless adapters used to link computers to a telecommunications network

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Communication via fibre optical networks; Communication via optical fibre networks; Communications by fiber optic networks; Communications by fibre optic networks; Communications via multinational telecommunication networks; Computer network access services by means of a metro ethernet; Consulting in the field of telecommunication services, namely, transmission of voice, data, and documents via telecommunications networks; Data transmission and reception services via telecommunication means; Electronic data interchange; Electronic data interchange (EDI) services; Electronic data transmission; Electronic delivery of images and photographs via a global computer network; Electronic exchange of data stored in databases accessible via telecommunication networks; Electronic transmission of data and documents via computer terminals and electronic devices; Electronic transmission of messages and data; Electronic transmission of voice, data and images by television and video broadcasting; Electronic, electric, and digital transmission of voice, data, images, signals, and messages; High bitrate data transmission services for telecommunication network operators; Information transmission services via digital networks; Information transmission via electronic communications networks; Network transmission of sounds, images, signals and data; Online document delivery via a global computer network; Providing a high speed access to area networks and a global computer information network; Providing multiple-user access to a global computer information network; Providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; Providing user access to a global computer network; Provision of access to a global computer network; Satellite transmission of sounds, images, signals and data; Satellite, cable, network transmission of sounds, images, signals and data; Signal transmission for electronic commerce via telecommunication systems and data communication systems;

Streaming of audio, visual and audiovisual material via a global computer network; Streaming of data; Telecommunication services, namely, local and long distance transmission of voice, data, graphics and video by means of broadband optical or wireless networks; Telecommunication services, namely, local and long distance transmission of voice, data, graphics and video by means of broadband, copper and optical or wireless networks; Telecommunication services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; Telecommunication services, namely, transmission of voice, data, graphics, sound and video by means of broadband power line or wireless networks; Telecommunications services for providing multiple-user access to a global computer network; Transfer of data by telecommunication; Transfer of data by telecommunications; Electronic transmission and delivery of information and data via wired, satellite and wireless communication networks; Transmission of data, sound and images by satellite; Transmission of information by electronic communications networks; Transmission of information on optical telecommunication networks; Transmission of information via computers connected to the same telematic network; Transmission of information via national and international networks; Transmission of sound and vision via satellite or interactive multimedia networks; Transmission of sound, picture and data signals; Video transmission over digital networks; Wireless electronic transmission of binary data

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Advanced product research in the field of artificial intelligence; Advisory services relating to computer software; Application service provider featuring application programming interface (API) software; Business technology software consultation services; Cloud computing featuring software for use in data transmission, data management, data processing, data compression, and data storage in the field of reverse computing, quantum computing and classical computing; Computer hardware and software design; Computer network design for others; Computer network security consultancy; Computer programming and software design; Computer security consultancy in the field of scanning and penetration testing of computers and networks to assess information security vulnerability; Computer security threat analysis for protecting data; Computer services, namely, creating computer network-based indexes of information, websites and resources; Computer services, namely, digital formatting and compression of music and video images into downloadable media; Computer software consultancy; Computer software consultation; Computer software consulting; Computer software design; Computer software development; Computer software development, computer programming and maintenance of computer software for data transmission, data management, data processing, data compression, and data storage; Consultancy in the field of artificial intelligence technology; Consultancy in the field of quantum computing; Consultancy in the field of software design; Consulting in the field of configuration management for computer hardware and software; Consulting services in the field of quantum computing; Creating of home pages for computer networks; Creating, maintaining, and modernizing computer software; Customizing computer software; Data conversion of computer program data or information, other than physical conversion; Data conversion of electronic information; Data encryption and decoding services; Data security consultancy; Database design and development; Database development services; Design and development of computer hardware and software; Design and development of computer software; Design and development of electronic data security systems; Design and development of operating software for accessing and using a cloud computing network; Design and development of software and hardware for compression and decompression of multimedia contents; Design and development of software and hardware for data and multimedia content conversion from and to different protocols; Design and development of software and hardware for digital signal processing; Design and development of software and hardware for processing and distribution of

multimedia contents; Design and development of software and hardware for producing, recording and processing digital and analogue signals; Design and development of software and hardware for data transmission, data management, data processing, data compression, and data storage.; Design and development of wireless communication systems for transmission and reception of voice, data and video; Design and writing of computer software; Design of computer databases; Design of computer hardware, integrated circuits, communications hardware and software and computer networks for others; Design, deployment and management of wireless computer networks for others; Design, development and implementation of software; Design, development, and implementation of software for data transmission, data management, data processing, data compression, and data storage; Design, development, installation and maintenance of computer software; Design, installation, updating and maintenance of computer software; Design, maintenance, development and updating of computer software; Developing and updating computer software; Developing computer software; Developing of driver and operating system software; Development of data processing programs by order of third parties; Development of software for chip design; Digital compression of computer data; Digital compression of binary computer data; Electronic data storage; Electronic storage of binary data, namely, digital images, text, video, and audio data; Information technology consulting relating to computer network design; Information technology consulting relating to computer software design; Installation and maintenance of computer software; Integration of computer systems and networks; Maintenance and updating of computer software; Maintenance and upgrading of computer software; Monitoring of computer systems for detecting unauthorized access or data breach; Preparation, update, installation and maintenance of computer software; Professional computer services, namely, network analysis, LAN/WAN design, wireless engineering, virtualization and computer project management; Providing online nondownloadable computer software platforms for data transmission, data management, data processing, data compression, and data storage; Reconstruction of database systems for others; Rental of a database server to third parties; Research and development of computer software; Research in the area of semiconductor processing technology; Research in the field of artificial intelligence; Research in the field of artificial intelligence technology; Research in the field of quantum communication technology; Research in the field of quantum computing; Research, development, design and upgrading of computer software; Scientific and technological services, namely, research and design in the field of computer data transmission, computer data management, computer data processing, computer data compression, and computer data storage technologies; Scientific research in the field of quantum computing; Software authoring; Software design and development; Software development and product development in the field of reverse computing, quantum computing and classical computing platforms; Software development consulting in the field of embedded and desktop system designs; Software development in the field of reverse computing, quantum computing and classical computing; Software development in the framework of software publishing; Software engineering services; Technical consulting in the field of artificial intelligence (AI) software customization; Technical support services, namely, 24/7 monitoring of network systems, servers and web and database applications and notification of related events and alerts; Technology consultation in the field of artificial intelligence; Telecommunication network security consultancy; Updating and design of computer software; Updating and maintenance of computer software; Updating and rental of software for data processing; Updating of home pages for computer networks; Writing and updating computer software; Writing of data processing programs

Mark Literal(s) I.L.L. CO IMMORTAL LIVES LTD

CASE IDENTIFIERS

Serial Number 98008459 **Application Filing Date** May 23, 2023 **Register** Principal **Mark Type** Trademark **Publication Date** May 21, 2024

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a central design comprising of a skull with pointed horns and jagged teeth. Symmetrically hanging from each horn are two female angels dressed in Roman attire, with wings. Below the skull, there is a smaller monkey head with fox-like ears and an angry expression, wearing a king's crown. Positioned beneath the monkey head is the text "IMMORTAL LIVES LTD" in stylized uppercase letters. These words are placed on a wavy ribbon that serves as the base for the entire logo. Above the two female angels, there are two smaller angels with curly hair holding another wavy ribbon with the stylized text "I.L.L. Co". The overall design combines elements of a skull, angels, and a monkey head. **Color Claimed** Color is not claimed as a feature of the mark. **Disclaimer** "CO" and "LTD"

CASE IDENTIFIERS

Serial Number 98092944 **Application Filing Date** Jul. 19, 2023 **Register** Principal **Mark Type** Service Mark **Publication Date** May 21, 2024

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a design of the image of Martin Luther King with black hair, black suit and white shirt, black and white striped tie. The face is in light brown with features in a black design including shadow around face, drawing in black of eyebrows and eyes, mustache, and hair. In front of the face are three microphones in light and dark gray. Behind the design of the man is a background sky with blue at the top of the design which moves to a light blue above the shoulders. Across the bottom of the mark is a background in light gold with the words CORE-CA in large black capital letters. On the right of the design is a white circle outlined in black with an inner black circle. There are two solid white rectangles in the center of the middle circle. Around the outside of the circle is a white band outlined in black with the words CONGRESS OF RACIAL EQUITY and COHORT ALLIANCE in black block lettering. The words COHORT ALLIANCE have a black dot on each side of the phrase. At the bottom of the mark is a section with a black background and darker gold block lettering saying KINGDOMDAYPARADE.ORG with no spaces between the words. **Color Drawing** Yes **Color Claimed** The color(s) black, white, light gold, dark gold, light gray, dark gray, light brown, blue, light blue is/are claimed as a feature of the mark. **Disclaimer** "ALLIANCE" **Name Portrait Consent** The name(s), portrait(s), and/or signature(s) shown in the mark does not identify a particular living individual.
