For Structural parts for land vehicles, air vehicles and boats for the transport of people and goods; non-skid devices, namely, anti-skid textile covers for tires; anti-skid chains for land vehicles and bulldozers, crawler tracks being snowmobile parts in the nature of snowmobile tracks and structural parts therefor; land vehicle parts, namely, tire chains; structural parts of anti-skid chains for vehicles and vehicle tires; clips specifically adapted for use on vehicle safety belts; traction aids for motor vehicles which can be fitted to vehicle wheels, namely, tire snow chains; drive shafts for land vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Metal working machines; molding tools, namely, molding presses being machine parts for molds; mold-handling tools, namely, cargo handling machines and power-operated lifting and moving equipment in the nature of fork lifts, telehandlers and lifts for moving and lifting molds; cargo handling machines; assembly line conveyor machinery for assembly purposes; assembly lines, namely, a series of machines for assembling metal chains in successive stages; overhead and bearing chain conveyors, bucket conveyors and dragging conveyors all being machines; motors for chain drives for chain hoists; structural components for machines and conveyors being machines, namely, power transmission belts, cogged wheels, deflector wheels, conveyor wheels, conveyor rollers, conveyor rails, track rollers, hydraulic hoists, hydraulic pumps, hydraulic

cylinders, power transmissions and gearing for machines; parts for hydraulic and compressed-air tools, namely, brakes, filters, hoses, pipes, couplings valves, switches, compressors, clamping tools and injectors; carriers for the transport of goods being parts of conveying machines; drive shafts for motors and engines being drives for machines; mechanical hoists and lifts for lifting loads; tractor-towed agricultural instruments, namely, manure forks for stall manure removal; chains for conveyors; tire chains and over-the-tire track systems for skid-steer loaders and other construction machinery; structural parts of conveyors being machines, namely, rollers, deflection wheels and gear wheels of metal; structural parts of chain conveyors, namely, buckets, dredging buckets and carriers for the transport of goods; mechanical hoists and lifts for lifting and securing loads; mechanical wrenches for tightening and clamping technical straps; machine tools, namely, mechanical clamps for use in clamping work pieces, namely, technical straps; structural parts for the aforementioned machines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Goods of plastic for preventing instruments and devices from slipping, namely, anti-slip mats for use as load supporting surfaces; goods of plastic for surface and impact protection, namely, buckles being non-metal hardware

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Organizing, arranging and conducting of educational congresses, conferences, colloquiums, symposiums, seminars and workshops all in the fields of engineering, business economics and mechanical construction of lifting machines, load handling machines, tire chains and tire traction devices; non-advertising publication of texts featuring information about engineering, business economics and mechanical construction of lifting machines, load handling machines, tire chains and tire traction devices; teaching in the fields of engineering, business economics and mechanical construction; teaching in the fields of engineering, business economics and mechanical construction of lifting machines, load handling machines, tire chains and tire traction devices; educational services, namely, providing continuing professional education courses in the fields of engineering, business economics and mechanical construction of lifting machines, load handling machines, tire chains and tire traction devices; educational services, namely, developing curriculum for others in the fields of engineering, business economics and mechanical construction of lifting machines, load handling machines, tire chains and tire traction devices; providing online non-downloadable electronic publications in the nature of books, handouts, leaflets, books featuring letters and handbooks in the fields of engineering, business economics and mechanical construction; providing online non-downloadable electronic publications in the nature of books, handouts, leaflets, books featuring letters and handbooks in the fields of engineering, business economics and mechanical construction of lifting machines, load handling machines, tire chains and tire traction devices

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Building construction; Repair and installation of metal chain slings, lashes being rigging chains, load handling machines, hoists, cranes, hydraulic lift tables, aerial work platforms for use in construction, elevating work platforms for use in construction, rescue machines and vehicles, lifting installations in the nature of lifting bags, material handling machines and personal protective equipment; installation, repair, maintenance and refurbishment of conveyors, hoists, machines, anti-skid chains for land vehicles and tire chains

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Measuring, signaling and checking apparatus and instruments, namely, length measuring, depth, pressure and stress gauges, electric sensors, electric load sensors, electric wear sensors, electric strain sensors and electric stress sensors for use in measuring and inspecting the wear, lifetime, load, strain and stress of lifting, lashing and fastening means; apparatus for recording, transmission and reproduction of electric data; blank magnetic data carriers; data processing equipment and computers; computer peripheral devices, namely, docking stations; electric display apparatus, namely, electric luminescent display panels; downloadable and recorded computer programs and computer software for designing, configuring and developing conveyor machines, lifting and lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains and also for viewing 3D digital images and processing and analyzing data in relation to the aforementioned machines, straps, chain slings, chains and tire traction devices; blank optical data carriers; materials testing apparatus and machines, namely, electronic apparatus for testing compression, strength, hardness and tensile characteristics of conveyor machines, lifting machines, lashing and handling loads, metal chain sling, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; transmitters and receivers of electric signals; transponders, namely, radio-frequency transponders; electronic card readers for electric data; RFID hardware for receiving and transmitting electric signals, namely, RFID readers and tags; electric identification systems, in particular RFID systems primarily comprising RFID readers and radio-frequency identification tags; electronic testing systems, namely, inspection testing systems primarily comprising electronic and electro-optical instruments for use in inspection of conveyor machines, lifting machines, lashing straps, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; electronic information delivery systems primarily comprising computers; electric load sensors for use with conveyor machines, lifting machines, machines for lashing and handling loads, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and chains and ropes and straps and loading forks, each of the aforementioned conveyor machines, lifting machines, machines for lashing and handling loads, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and chains and ropes and straps and loading forks specifically designed for monitoring and checking loads, cargo slings and tying devices; downloadable and recorded computer programs for data processing equipment, namely, software for the design, maintenance and inspection of tire chains, conveyor machines, metal chains, mechanical and power-operated hoists and lifts, metal fasteners and structural parts therefor; memories for data processing equipment used in the field of tire chains, conveyor machines, metal chains, mechanical and power-operated hoists and lifts, metal fasteners and structural parts therefor; transponder systems primarily comprising transponders, transponder location systems and structural parts thereof; electronic weighing apparatus; electronic measuring apparatus and instruments, namely, electric sensors; safety apparatus, security apparatus, protection apparatus, and equipment for use with the aforesaid goods relating to height security and fall protection, namely, alarm installations and fall protection equipment for fall restraint and fall arrest in the nature of harnesses; life saving apparatus and equipment, namely, life saving vests and life saving rafts; structural parts for all of the aforementioned goods

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Instruments for lifting and securing loads and individuals, not of metal, namely, non-metal slings for handling loads, non-metal load lifting straps, non-metal belts for handling loads, non-metal ropes for handling loads and securing individuals, non-metal nets for handling loads and securing individuals, non-metal slings for loading, non-metal harnesses for handling loads and structural parts therefor; load lifting straps not of metal for protecting loads against damage and overloading; structural parts for the aforementioned goods

International Classes 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

For Clothing, namely, shirts, pants, gloves and caps being headwear; non-slip soles for shoes

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Stretching and tensioning hand tools for belts and chains, namely, lashing ratchets being ratchet wrenches; hand-operated mechanical devices and apparatus for lifting and securing loads, namely, hand-operated hoists and lifting jacks; hand-operated mechanical devices and apparatus for tightening and clamping technical straps, namely, hand-operated clamps and wrenches; structural parts for all the aforementioned hand tools; hand tools, namely, screwdrivers, wrenches, spanners, hand taps and dies, stretchers for alleviating tension in wire and metal bands, nippers, drill bits for hand drills, saws, manually-operated jacks and hand-operated hand drills

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For Technology services, namely, technical consultancy in relation to technical research and technical analysis in the fields of conveyor machines, lifting and lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; research services in the field of information technology for designing, configuring and developing conveyor machines, lifting machines, lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; technical support services, namely, providing technical advice to others relating to operation of computers for designing, configuring and developing conveyor machines, lifting machines, lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; engineering services in the fields of conveyor machines, lifting and lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; authentication in the field of information technology for designing, configuring and developing conveyor machines, lifting machines, lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; quality control for others in the fields of conveyor machines, lifting and lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; industrial testing of materials; quality control for others; software as a service (SAAS) services in the nature of hosting cloud-based software for others; software as a service (SAAS) services, namely, hosting software for use by others for use in database management, use as a spreadsheet and word processing in the fields of conveyor machines, lifting and lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; rental of computer software designing, configuring and developing conveyor machines, lifting and lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains,

anti-skid chains for land vehicles, tire traction devices and metal chains and also for viewing 3D digital images and processing and analyzing data in relation to the aforementioned machines, straps, chain slings, chains and tire traction devices; rental of computer hardware and computers; IT consulting services relating to installation, maintenance and repair of computer software; IT security and protection services, namely, internet security consultancy and on-line scanning, detecting, quarantining and eliminating of viruses, worms, Trojans, spyware, adware, malware and unauthorized data and programs on computers; IT restoration services, namely, electronic data back-up services for restoring lost and deleted data on data carriers; media duplication of data and digital information; data conversion of electronic information; data conversion of computer program data or information, other than physical conversion; data coding services, namely, writing of computer code; computer software design in the fields of conveyor machines, lifting and lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; surveying using conveyor machines, lifting and lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; material testing in the fields of conveyor machines, lifting and lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains; construction drafting in the fields of conveyor machines, lifting and lashing machines, lashing straps, load handling machines, metal chain slings, rigging chains, tire chains, tire protection chains, anti-skid chains for land vehicles, tire traction devices and metal chains

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Metal chains; metal chains, namely, metal binding chains, metal anchor chains, metal chain slings, metal hoisting chains, metal security chains, and metal rigging and metal lashing chains; hardware, namely, metal chain pins; chain barrels being reels of metal, non-mechanical, for metal chains; metal chain adjusters being structural parts of metal chains; metal chain deflectors being structural parts of metal chains; metal chain shorteners being structural parts of metal chains; cases for holding metal chains; chain links of metal; chain wheel hubs of metal being structural parts of metal chains; chain wheel cogs of metal being structural parts of metal chains; joints of metal for connecting chains; metal chain overload indicators being structural parts of metal chains and slings for load handling; metal chain sprockets being structural parts of metal chains for load handling; components and devices for joining, conveying, connecting, shortening and stretching of chains, belts and ropes of metal, namely, structural joint connectors of metal, structural metal claws for shortening chains and metal hooks for shortening chains; metal chain harnesses for handling loads and spring buffers and expanders therefor being structural parts of metal chain harnesses for handling loads; metal tension spring buffers being structural parts of metal chains and slings for load handling; metal expansion braces for handling loads and structural parts therefor in the nature of metal retaining loops, all for use in connection with chains, belts and ropes; metal hooks, shortening claws, eye bolts, shackles, and expansion braces for handling loads, all for use in connection with chains, belts and ropes; ironmongery, namely, small items of metal hardware in the nature of pins, washers, nuts, and screws; processed and non-processed cast iron, cast steel, forged steel and forged wrought iron; metal fittings for containers, namely, metal closures for containers; metal shelter structures for protection against forces of nature, rockfall, landslides and avalanches; building and construction materials and elements of metal and metal components for the lifting and securing of loads and elements of metal, namely, metal chains, non-electric steel cables, metal bars and metal load beams; metal components and devices for protecting the aforesaid goods and loads against damage and overload,

namely, all-purpose metal straps; structural parts of metal straps, metal slings and metal harnesses, all for handling loads

For Pharmaceutical preparations for treating allergies, diabetes, hypertension, skin disorders, asthma; Pharmaceutical preparations for use in chemotherapy, dermatology, skin care; sanitary preparations for medical purposes; dietetic food and substances adapted for medical or veterinary use, food for babies; dietary supplements for human beings and animals; medical plasters, materials for dressings; material for stopping teeth, dental wax; disinfectants; preparations for destroying vermin; fungicides, herbicides; medicated toiletry preparations, namely, medicated cosmetics, medicated soaps, medicated dentifrices; veterinary preparations, namely, veterinary vaccines, veterinary diagnostic reagents, chemical reagents for veterinary use; sterilizing preparations; disinfectants for hygiene purposes; dental materials, namely, dental porcelain materials, dental impression materials, dental composite materials, materials for dental sealing purposes; nutritional supplements; dietetic

beverages adapted for medical purposes; dietetic foods adapted for medical purposes; drinks for babies; lacteal flour for babies; bandages for dressings; adhesive plasters for medical purposes; gauze for dressings; sanitary napkins; cotton swabs for medical purposes; baby diapers; adult diapers; fly catching paper; mothproofing paper

International Classes 5 - Primary Classes **US Classes** 5, 6, 18, 44, 46, 51, 52 **International Class Title** Pharmaceuticals

For Insurance agency services; real estate brokerage services; banking; stocks and bonds brokerage; capital investment; financing services; issuance of credit cards; processing of credit card payments; monetary transfer services; financial consultancy; financial research; financial analysis; financial management; organization of monetary collections in the nature of collection agencies; consigned collection of payment for goods in the nature of collection agencies; agencies for collecting gas or electric power utility payments; issuance of pre-paid vouchers exchangeable for goods or services; agencies for trading of commodity futures; art appraisal; financial assessment of company credit; insurance and financial information and consultancy services

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Artificial limbs, eyes and teeth; suture materials; therapeutic and assistive devices adapted for persons with disabilities, namely, walking frames for persons with disabilities, rollators, walking aids for medical purposes, robotic exoskeleton suits for medical purposes; massage apparatus; sphygmomanometers; electronic sphygmomanometers; fever thermometers; electronic clinical thermometers; vaporizers for medical purposes; ultrasonic nebulizers for medical purposes; electrocardiographs; electric massagers for household use; ultrasonic teeth sprayers for use as cleaners for use in dentistry; blood glucose monitors for medical purposes; blood flow cytometry measuring apparatus; arterial blood pressure measuring apparatus; cuffs for blood pressure monitors; blood testing apparatus; ultrasonic diagnostic apparatus for medical purposes; electrodes for medical use; hearing aids; inhalers for medical use sold empty; therapeutic steam inhalers for medical use sold empty; nebulizers for medical purposes; low frequency electric therapy apparatus; electrotherapy devices for providing transcutaneous electrical nerve stimulation; pads for transcutaneous electrical nerve stimulators; thermometers for medical purposes; anesthesia monitoring apparatus; blood pressure monitors; pulse wave monitors; breathing monitors for medical purposes; heart rate monitors; pulse rate monitors; vital signs monitors; respirometers; pulse oximeters; medical apparatus for monitoring vital signs of patients; medical devices for performing vascular testing; peak flow meters; cardiac electrodes; body fat monitors; body composition monitors; body composition analyzers for medical purposes; stethoscopes; oxygen inhalers for medical purposes; medical apparatus for monitoring and recording sleep conditions for use in sleeping disorder analysis; blood glucose meters; lancets; apparatus for drawing or sampling blood for purposes of diabetes monitoring; blood glucose monitoring kits featuring blood glucose meters and test strips; teeth cleaning apparatus for use in dentistry; infrared radiation units for therapeutic apparatus; defibrillators; apparatus and installations for the production of X-rays, for medical purposes; apparatus for artificial respiration; apparatus for DNA and RNA testing for medical purposes; chambers for inhalers; cholesterol meters; diabetic monitoring apparatus; hemocytometers; hydrogen inhalers; keratometers; lasers for medical purposes; magnetic resonance imaging (MRI) apparatus for medical purposes; nanorobots for medical purposes; radiological apparatus for medical purposes; respirators for artificial respiration; robotic exoskeleton suits for medical purposes; spacers for inhalers; spirometers in the nature of medical apparatus; surgical apparatus and instruments; tomographs for medical purposes; electric esthetic massage apparatus; facial aesthetic treatment apparatus using ultrasonic waves

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Vehicles for locomotion by land, air, water or rail, namely, ships, boats, airplanes, railway cars, automobiles, motorcycles, bicycles; motors for land vehicles; engines for land vehicles; mechanical elements for land vehicles, namely, drive shafts, spindles, bearings, connecting rods, drive chains, suspension springs; axles for vehicles; transmission mechanisms for land vehicles; gearing for land vehicles; shock absorbers for vehicles; brakes for vehicles; motors, electric, for land vehicles; tires; anti-theft devices for vehicles; wheelchairs; carts; baby carriages; non-electric prime movers for land vehicles, not including their parts, namely, engines, turbines, motors; vessels and their parts and fittings, namely, ships and boats and their structural parts and fittings; aircraft and their structural parts and fittings; railway rolling stock and their structural parts and fittings; automobiles and their structural parts and fittings; two-wheeled motor vehicles, bicycles and their structural parts and fittings

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Motors and engines, except for land vehicles; machine coupling and transmission components, except for land vehicles; agricultural implements, other than hand-operated hand tools, namely, windrowers, tillers, threshers, harvesters, combines; incubators for eggs; automatic vending machines; industrial robots; industrial robots in the nature of robotic arms for industrial purposes; industrial robots for carrying items for industrial purposes, self-propelled; conveying industrial robots and their structural parts and fittings therefor; industrial robots and industrial robots in the nature of robotic arms for sorting, carrying, supplying, as components of assembly work; product grippers, graspers and end effectors for industrial robots; industrial robots and industrial robots in the nature of robotic arms for metalworking; industrial robots and industrial robots in the nature of robotic arms for loading and unloading; loading-unloading machines and apparatus; chemical processing machines; industrial robots and industrial robots in the nature of robotic arms as textile machines; industrial robots and industrial robots in the nature of robotic arms for food or beverage processing industrial robots and industrial robots in the nature of robotic arms for lumbering, woodworking, or veneer or plywood making; industrial robots and industrial robots in the nature of robotic arms for pulp making, papermaking or paper-working; industrial robots and industrial robots in the nature of robotic arms for printing or bookbinding; industrial robots and industrial robots in the nature of robotic arms for sewing; industrial robots and industrial robots in the nature of robotic arms for shoe making; industrial robots and industrial robots in the nature of robotic arms for leather tanning; industrial robots and industrial robots in the nature of robotic arms for tobacco processing; industrial robots and industrial robots in the nature of robotic arms for glassware manufacturing; industrial robots and industrial robots in the nature of robotic arms for painting; industrial robots and industrial robots in the nature of robotic arms for packaging or wrapping; industrial robots and industrial robots in the nature of robotic arms for plastic processing industrial robots and industrial robots in the nature of robotic arms for manufacturing electronic components; industrial robots and industrial robots in the nature of robotic arms for semiconductor manufacturing; industrial robots and industrial robots in the nature of robotic arms for manufacturing rubber goods; industrial robots and industrial robots in the nature of robotic arms for food mixing for commercial use industrial robots and industrial robots in the nature of robotic arms for food peeling for commercial use; industrial robots and industrial robots in the nature of robotic arms for food cutting, chopping and slicing for commercial use; loading and unloading machines and machine apparatus for loading and unloading; parts feeder being an apparatus that feeds the working material into machines for industrial robots, namely, for loading and unloading machines; mobile transporting machines in the nature of self-propelled industrial robots used for carrying cargoes; metalworking machines; construction machines and apparatus, namely, industrial robots for construction; industrial robots used for chemical

processing; machines for manufacturing textile; food or beverage processing machines; lumbering, woodworking, or veneer or plywood making machines and apparatus, namely, industrial robots for lumbering, woodworking, or veneer or plywood making; pulp making, papermaking or paper-working machines and apparatus, namely, industrial robots for industrial robots for pulp making, papermaking, and paper-working; printing and bookbinding machines for industrial purposes; sewing machines; shoe making machines; leather tanning machines; tobacco processing machines; glassware manufacturing machines and apparatus; painting machines and apparatus; packaging or wrapping machines and apparatus; plastic processing machines and apparatus; semiconductor manufacturing machines and systems; machines and apparatus for manufacturing rubber goods; food mixing machines for commercial use; food peeling machines for commercial use; food chopping machines for commercial use; 3D bioprinters; 3D printers; alternators; dairy machines, in the nature of industrial robots used in dairy processing; electricity generators; electromechanical machines for chemical industry; machines for the textile industry; motors, electric, other than for land vehicles; motors, other than for land vehicles; printing presses; robotic exoskeleton suits being machines, other than for medical purposes; transmission mechanisms, other than for land vehicles; transmissions for machines; ultrasonic cleaning apparatus for industrial robots; elevators; elevators motors as parts of machines; electrical ultrasonic cleaning units for medical instruments

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes, namely, HVAC units, electric humidifiers, electric air purifiers, electric dehumidifiers, electric fans, electric refrigerators, electric freezers, lighting installation, cooling installations for water, cooling units for industrial purposes, electric laundry dryers, dish drying machines, ventilation hoods; air-conditioning apparatus and installations; household electrothermic appliances, namely, electric humidifiers, electric air purifiers, electric dehumidifiers, electric fans, electric refrigerators, electric freezers; bath fittings, namely, bath tubs, showers, wash-hand basins; sanitary apparatus and installations, namely, wash basins, urinals; industrial furnaces; LED lighting apparatus and installations; cooking apparatus and installations, namely, thermo pots, cooking ovens, cooking stoves, cooking ranges; garbage incinerators; water heaters; water purification apparatus

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Education, namely, providing classes, seminars, workshops in the field of industrial automation, computer programing and software design, computer engineering, medical care, health care, supply and use of energy, environmental assessment and solutions; providing of training in the field of industrial automation, computer programing and software design, computer engineering, medical care, health care, supply and use of energy, environmental assessment and solutions; entertainment, namely, conducting contests, conducting parades, providing online computer games, conducting handball games, conducting table tennis games; entertainment, namely, organization, presentation and production of shows and live performance of robots; providing information in the field of entertainment; organizing community recreational services; providing recreation facilities; providing information relating to recreational activities; arranging and conducting of conferences, congresses, seminars, symposiums, training courses, classes and lectures in the field of industrial automation, computer programing and software design, computer engineering, medical care, health care, supply and use of energy, environmental assessment and solutions; providing online electronic publications, not downloadable, namely, newsletters, books, magazines in the field of industrial

automation, computer programing and software design, computer engineering, medical care, health care, supply and use of energy, environmental assessment and solutions; lending library services; reference libraries of literature and documentary records; music publishing services; magazine publishing services; newspaper publishing services; book publishing services; organizing community sporting activities; conducting of community cultural events; organization of exhibitions for cultural purposes; arranging and conducting of sporting and cultural events; providing non-downloadable virtual goods, namely, providing online non-downloadable images and videos featuring industrial robots, electrical machinery and apparatus, computers, electronic machines and apparatus, medical apparatus and instruments, clothing, footwear, headwear, bags, jewelry, art objects, collectible trading cards, for use in online virtual environments and used online

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Non-medicated cosmetics and toiletry preparations; non-medicated dentifrices; perfumery, essential oils; bleaching preparations and other washing preparations for laundry use; cleaning, polishing, scouring and abrasive preparations; non-medicated toiletry preparations; cosmetics; incense; non-medicated soaps and detergents; shampoos; dentifrices; non-medicated mouthwash; breath freshening sprays; deodorants for human beings or for animals; false nails; false eyelashes; polishing preparations; laundry washing preparations; laundry starch; stain removers; rust removing preparations; de-greasing preparations for household purposes; shoe cream; creams for leather; abrasives, namely, abrasive paper; abrasive cloth, abrasive sheets; abrasive sands; abrasive pastes; abrasive cleaning preparations; pumice stone for personal use; adhesives for cosmetic purposes; adhesives for affixing false hair; paint stripping preparations

International Classes 3 - Primary Classes **US Classes** 1, 4, 6, 50, 51, 52 **International Class Title** Cosmetics and Cleaning Preparations

For Advertising; business management, organization and administration; providing office functions; marketing; marketing research; promotional services; providing information concerning commercial sales; business and management consultancy; commercial information agency services; providing commercial information and advice for consumers in the choice of products and services; personnel placement and recruitment; employment agency services; auctioneering; import-export agency services; compilation and systemization of information into computer databases; providing employment information; career planning services; retail store services and wholesale store services featuring computer software; retail store services and wholesale store services featuring computer hardware; retail store services and wholesale store services featuring electrical machinery and apparatus; services consisting of the registration, transcription, composition, compilation or systematization of written communications and registrations, namely, office administration services

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Building construction services; mining extraction, oil and gas drilling; machinery installation; construction consultancy; installation, maintenance and repair of computer hardware; installation, maintenance and repair of electronic apparatus; installation, maintenance and repair of telecommunications apparatus and instruments; electric appliance installation, maintenance and repair; installation, maintenance and repair of electrical lighting apparatus; installation, maintenance and repair of apparatus for generating electricity; installation, maintenance and repair of apparatus for distributing electricity; installation, maintenance and repair of measuring and testing apparatus and instruments; installation, maintenance and repair of medical apparatus and instruments; installation, maintenance and repair of semi-conductor manufacturing machines and

systems; installation, maintenance and repair of integrated circuits manufacturing machines and systems; installation, maintenance and repair of energy generating installations; installation, maintenance and repair of manufacturing plants; installation, maintenance and repair of air-conditioning apparatus; operation and maintenance of building equipment; cleaning of buildings

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media in the nature of downloadable musical recordings; downloadable computer software for database management, blank digital and analogue storage media; mechanisms for coin-operated apparatus; cash registers, calculating machines; computers and computer peripheral devices; diving suits; divers' masks; ear plugs for divers; nose clips for divers and swimmers; gloves for divers; breathing apparatus for underwater swimming; fire-extinguishing apparatus; downloadable and recorded computer operating software for motion control; downloadable and recorded computer operating software for use in the industrial automation machines; downloadable and recorded computer software for use in automation of industrial manufacturing process; downloadable and recorded computer software for operating, controlling, monitoring industrial automation processes; downloadable and recorded computer software for processing, monitoring, recording, managing, analyzing, providing data and information relating to health, nursing care, energy consumption; downloadable and recorded computer software for programming a logic controller; downloadable and recorded computer software for health control, namely, for monitoring vitals; downloadable and recorded computer software for image processing; downloadable and recorded computer operating software for electrical controlling devices; downloadable and recorded computer operating programs; downloadable and recorded computer programs for processing digital images; motion control detectors and sensors for use in automation of industrial manufacturing process; computer hardware for motion control; computer hardware and downloadable computer operating software for chip cards for motion control; electronic machines and apparatus for control of industrial automation of manufacturing process, namely, computers; apparatus for processing images for robots; electrical connectors; amplifiers for electrical controlling devices; power amplifiers; computer interface boards for electronic machines and apparatus; central processing units being processors for computers; computers for numerical control machines; programmable logic controllers; relays, electric; intercommunication apparatus, namely, telephones; electrical inverters; position control proximity detectors and sensors for use in automation of industrial manufacturing process; electrical power monitors for monitoring electrical current; electrical power supplies; testing apparatus for use in the industrial automation machines; uninterruptible electrical power supplies; lasers, not for medical purposes; connectors for printed electric circuit boards; ultraviolet ray electric radiators specially adapted for computers; light-emitting diode electric radiators specially adapted for computers; data storage devices, namely, blank tapes, blank record disks, blank memory cards for storage of computer data; digital display device, namely, digital signage; plugboards; apparatus for controlling static electricity; electric sockets; LEDs for back lighting specially adapted for liquid crystal displays; solar cells; solar batteries; capacitors; remote control apparatus for computers; robots for laboratory use; encoders; electronic power controllers; voltage regulators; electric current regulators; electric control panels; light dimmers, electric; electric switches; photo electric current switches; basic electric switches; detection electric switches; door electric switches; limit electric switches; electric safety switch; push button electric switches; thumbwheel electric switches; electric microswitches; electric cable connectors; electrical connector for

measuring machines; measuring machines for identifying electrical levels in power networks; measuring machines for identifying data errors, excessive bandwidth consumption and circuit problems; electrical detectors for measuring electrical power outage; detectors for electric current, namely, electromagnetic measuring detectors; motion detectors for detecting human movement; electric water leak detectors; electric sensors for microscope photograph; electric sensors for microelectromechanical systems; electric sensors, other than for medical use; electric flow sensors; pressure sensors; thermal sensors; photovoltaic sensors; image sensors not for medical use; proximity sensors; vibration sensors; inclination electric sensors; liquid leakage sensors; displacement electric sensors; length measuring electric sensors; ultrasonic sensors; electric sensors for measuring light incidence from outside of car; fiberoptic electric sensors not for medical use; body temperature sensors not for medical use; parking meters; testing apparatus not for medical purposes for testing vehicle brakes; testing apparatus for testing printed circuit boards; apparatus for the input and output of data for use in wireless automatic identification machines in the nature of a data processing apparatus; electronic tags for wireless automatic identification devices; fiber optic cables; preset money counters, totalizing counter being calculators, electromagnetic flow-based cell counters; downloadable computer operating software and computer hardware for use in the industrial automation machines; electronic components, namely, electrical cables, capacitors, inductors, optoelectronic devices, printed circuit boards; monitoring apparatus for industrial automation machines, namely, monitoring devices for monitoring battery performance characteristics, monitoring telecommunication signals and status; air analysis apparatus for industrial automation machines; motion analysis apparatus for industrial automation machines; temperature analysis apparatus for industrial automation machines; position analysis apparatus for industrial automation machines; electrical controlling devices; amplifiers; electronic control systems for industrial robots; electronic control systems for industrial machinery; microprocessors; downloadable computer operating software for use in the industrial automation industry; remote microcontrollers for internet of things (IoT) enabled devices; computer peripherals and computer bags; interface boards for computers; electrical control devices; digital cameras; bar code readers; bar code scanners; apparatus for processing images; scanners; print quality inspection systems in the nature of computer hardware and downloadable computer software for testing printers; machine vision systems in the nature of computer hardware and downloadable computer software for testing machine vision systems; measuring and testing machines, namely, level measuring machines; electrical power distribution and control machines; rotary converters; phase modifiers; electric meters and magnetic voltage testers; conductors, electric; electrical communication machines and instruments, namely, telephones, internet communication apparatus, wireless communication apparatus, satellite communication apparatus; electronic data processing apparatus; magnetic cores; resistance wires; electrodes; 3D scanners; abacuses; accelerometers; accumulators, electric; actinometers; adding machines; aerometers; air analysis apparatus; altimeters; ammeters; apparatus and installations for the production of X-rays, not for medical purposes; barometers; bathroom scales; battery chargers; electric black boxes for recording data; calculating machines; calorimeters; distance measuring apparatus; camcorders; cameras; cell phones; mobile telephones; electrical cell switches; chemistry apparatus and instruments, namely, scientific instrumentation for measuring concentrations of chemicals in water; chips for integrated circuits; circuit breakers; blank compact discs; comparators; computers; computer keyboards; computer memory devices; data processing apparatus; densimeters; oxygen densitometers, not for medical purposes; ink and dye densitometers, not for medical purposes; diagnostic apparatus, not for medical purpose, namely, diagnostic apparatus for detecting and analyzing machine malfunctions and breakdowns; dosimeters; downloadable image files of digital animated designs of industrial robots; downloadable image file containing artwork, text, audio, video, games and Internet Web links relating to sporting and cultural activities; downloadable image files of avatars for use in virtual worlds; downloadable image files of virtual clothing; dynamometers;

electric installations for the remote control of industrial operations; electronic publications, downloadable in the nature of magazines featuring news; exposure meters in the nature of a meter for measuring light; flowmeters; food analysis apparatus, namely, acidity analyzers, sugar content analyzers, alcohol concentration analyzers; Global Positioning System apparatus; humanoid robots with artificial intelligence for use in scientific research; hygrometers; inclinometers; integrated circuit cards; integrated circuits; interfaces for computers; joysticks for use with computers, other than for video games; laboratory robots; light regulators being dimmers, electric; electrical limiters; locks, electric; magnetic resonance imaging apparatus, not for medical purposes; distance measuring instruments; micrometers; audio baby monitoring apparatus, other than for medical purposes; factory automation machine monitoring apparatus, other than for medical purposes; monitors being computer hardware; downloadable computer programs for monitoring factory automation machines; nanoparticle size analysers; electric navigational instruments; observation instruments, namely, observation rockets; optical apparatus and instruments, namely, optical ports for underwater photography, dome ports for underwater photography, wet diopters, adapter lenses for underwater photography; optical apparatus and instruments, namely, telescopes, microscopes, and their lenses, prisms, reflectors; optical character readers; pedometers; photometers; piezoelectric sensors; polarimeters; precision distance measuring apparatus; pressure gauges; pressure measuring apparatus; printed circuit boards; printed circuits; document printers for use with computers; quantity indicators, namely, coin counting machines; quantum computers; radar apparatus; readers in the nature of data processing equipment; regulating apparatus for electricity; resistances, electric; satellite finder meters; satellite-aided navigational apparatus; scales; scales with body mass analysers; security tokens hardware; semi-conductors; blank integrated circuit smart cards; smartphones; software as a medical device, downloadable, for use as electrocardiographs; solar panels for the production of electricity; sounding apparatus and machines, namely, echo sounding devices; spectroscopes; speed indicators; spherometers; spirit levels; surveying apparatus and instruments; surveying instruments; switchboards; electric switchboxes; switches, electric; tablet computers; tachometers; teaching apparatus in the nature of computers and audio and video receivers; teaching robots; temperature indicator labels, not for medical purposes; temperature indicators; thermal imaging cameras; thermo-hygrometers; thermometers, not for medical purposes; thermostats; electric transformers; transistors, electronic; telecommunication transmitters, namely, apparatus for transmission of communication; telecommunication transmitting sets, namely, apparatus for transmitting radio programmes and radio relay messages; urinometers; variometers; viscosimeters; voltmeters; wafers for integrated circuits; water level indicators; wavemeters; weighing apparatus and instruments; weighing machines; X-ray apparatus not for medical purposes; self-rescue apparatus, namely, oxygen breathing apparatus; photographic machines and apparatus, namely, cameras; cinematographic machines and apparatus; optical inspection machines and apparatus; spectacles; eyewear; personal digital assistants; data gloves; headsets; virtual reality goggles; downloadable and recorded computer video game software; downloadable and recorded augmented reality software; downloadable and recorded virtual reality software; downloadable and recorded computer software for managing transactions using blockchain technology; downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; downloadable software containing downloadable image files of virtual goods, digital collectibles, and downloadable digital files featuring industrial robots, electrical and electronic machinery, computers, medical apparatus and instruments, clothing, footwear, headwear, bags, jewelry, and art authenticated by non-fungible tokens (NFTs); downloadable image files of industrial robots, electrical and electronic machinery, computers, medical apparatus and instruments, clothing, footwear, headwear, bags, jewelry, and art authenticated by non-fungible tokens (NFTs); downloadable video files of industrial robots, electrical and electronic machinery, computers, medical apparatus and instruments, clothing, footwear, headwear, bags,

jewelry, and art authenticated by non-fungible tokens (NFTs); downloadable music files and sound files of industrial robots, electrical and electronic machinery, computers, medical apparatus and instruments, clothing, footwear, headwear, bags, jewelry, and art authenticated by non-fungible tokens (NFTs); downloadable virtual goods, namely, downloadable computer programs and digital collectibles in the nature of downloadable image files featuring industrial robots, electrical machinery and apparatus, computers, electronic machines and apparatus, medical apparatus and instruments, clothing, footwear, headwear, bags, jewelry, art objects for use in online virtual environments and used online; downloadable virtual goods, namely, downloadable image files featuring industrial robots, electrical machinery and apparatus, computers, electronic machines and apparatus, medical apparatus and instruments, clothing, footwear, headwear, bags, jewelry, art objects for use in online virtual environments and used online

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Medical services; veterinary services; hygienic and beauty care for human beings or animals; agriculture in the nature of cultivation and harvesting of crops for others, aquaculture in the nature of the breeding and cultivation of plants or animals in a water environment, horticulture and forestry management services; beauty salon services; barber shop services; providing information relating to hairdressing and beauty salon services; beauty consultancy; provision of bath houses; nutritional therapy services; massage therapy services; mental health therapy services; music therapy services; massage; provision of medical information; physical examination; health care; health counseling; dietary and nutritional advice; nursing care; medical equipment rental; landscape design; vermin exterminating for agriculture, aquaculture, horticulture and forestry; pest control services for agriculture, aquaculture, horticulture and forestry

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Scientific research, and technological services and research and design relating thereto, namely, research relating to information technology and industrial automation and software and hardware design relating thereto, medical research in the field of healthcare; industrial analysis in the field of industrial automation, industrial research in the field of industrial automation and industrial design services; quality control for others and authentication services in the field of industrial automation; design and development of computer hardware and software; mechanical engineering services; designing of machines, apparatus, instruments, including their parts or systems composed of such machines, apparatus and instruments for industrial automation; computer system design and development; maintenance of computer software; computer software consultancy; consultancy in the design and development of computer hardware; computer technology consultancy; software as a service (SaaS) featuring software for operating, controlling, monitoring industrial automation processes; Software as a services (SaaS) featuring software for processing, monitoring, recording, managing, analyzing data and information relating to health, nursing care, energy consumption; Software as a service (SAAS) services in the nature of hosting cloud-based software of others; Software as a services (SaaS) featuring software using artificial intelligence (AI) for streamlining business; platform as a service (PaaS) featuring software for operating, controlling, monitoring industrial automation processes; platform as a service (PaaS) featuring software for processing, monitoring, recording, managing, analyzing data and information relating to health, nursing care, energy consumption; platform as a service (PaaS) in the nature of hosting cloud-based software of others; platform as a service (PaaS) featuring software using artificial intelligence (AI) for streamlining business; providing virtual computer environments through cloud computing; server hosting; electronic data storage and data back-up services; research

and development of new products for others; testing services for the certification of quality or standards; user authentication services using blockchain technology; providing virtual computer systems through cloud computing; providing temporary use of on-line non-downloadable software for operating, controlling, monitoring industrial automation processes; providing temporary use of on-line non-downloadable software for processing, monitoring, recording, managing, analyzing data and information relating to health, nursing care, energy consumption; providing temporary use of on-line non-downloadable software using artificial intelligence (AI) for streamlining business; providing non-downloadable virtual goods, namely, providing online non-downloadable computer software featuring industrial robots, electrical machinery and apparatus, computers, electronic machines and apparatus, medical apparatus and instruments, clothing, footwear, headwear, bags, jewelry, art objects, collectible trading cards, for use in online virtual environments and used online
