GOODS AND SERVICES INFORMATION

For [Steam injection systems comprised primarily of steam injection machines and also containing flow meters, steam injection nozzles, diffusers, mixers, flow control valves and pressure transmitters therefor, sold as a unit; staged combustion systems being systems that introduce air and fuel in stages to flares and comprised primarily of fans, ducting and mixing devices with control systems for controlling this staged introduction and consisting of gas analyzers, control valves, dampers, pressure transmitters, flow transmitters and temperature transmitters therefor, being parts of machines; fuel skids for gaseous or liquid fuels, namely, transport or lifting work platforms for gaseous or liquid fuels; control regulators being parts of machines; gas pokers being parts of machines, namely, pokers for use in igniting gas-powered machines; oil lances, namely, tubes for supplying oil for flame formation being structural parts of machines; electrical power generators for flares; hydraulic pumps for flares; hydraulic, linear, pneumatic actuators and valves for igniters; control regulators being parts of machines for steam handling installations or hot gas generating and hot gas handling installations or oxidizers or incinerators; control regulators, being parts of machines, for use in igniters and flares; electric, hydraulic and pneumatic pumps for heating and heating installations fuel pumps flares; devices which are fitted to flares or installed upstream or downstream thereof whose primary function is to reduce emissions being structural parts of machines, namely, flue gas recirculation systems, namely, systems which mix part of the flue gas emitted from the flares with clean air and supply the newly mixed flue gas/air combination back to the flares and comprised primarily of fans, ducting and mixing devices with control systems for controlling this recirculation and consisting of gas analyzers, control valves, dampers, pressure transmitters, flow transmitters and temperature transmitters therefor; combustion air feeding apparatus for boilers or furnace, namely, over fire air ports, namely, one or more air ports in a boiler or furnace which introduce secondary air above the burner flame to complete combustion and to produce turbulence, thereby increasing the efficiency of the combustion process, being parts of machines; catalytic convertors; ammonia or urea injection systems being chemical injectors comprised primarily of chemical injectors, and also containing reagent storage tanks, mixers, dosing pumps, dosing meters, flow controllers, gas analyzers, PH analyzers,

control valves, injection nozzles and flow meters therefor, sold as a unit; water injection systems, comprised primarily of water injection machines and also containing storage tanks, pumps, flow controllers, gas analyzers, control valves, injection nozzles and flow meters therefor, sold as a unit; machine parts, namely, pumps, pipes, valves and instrumentation for incinerators, oxidizers, and flares; all the aforesaid goods being for use in thermal oxidizers or flares, or in machinery which is ancillary to thermal oxidizers and flares or is installed with thermal oxidizers or flares or upstream or downstream thereof]

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery **First Use** Sep. 12, 2012 **In Commerce** Sep. 12, 2012

For [Flares, incinerators, thermal oxidizers used to destroy airborne volatile organic compounds, airborne toxins, odors and other air pollutants from industrial operations, power-operated vaporizers for industrial or commercial purposes, namely, vapor control units in the nature of vapor recovery systems and vapor combustion systems, flare gas recovery systems in the nature of recovering energy from flare streams, landfill gas and waste water treatment plant gas combustion and recovery systems comprised of gas collection equipment, treatment and recovery equipment and combustion equipment, selective catalytic reduction (SCR) and selective non-catalytic reduction (SNCR) emission control systems comprised of indirect contact heat exchangers and ozone-based control devices using gas and vapor condensing to control and treat emissions, gas separators and liquid separators for the cleaning and purification of gases and liquids, gas scrubbers, filters for gas conditioning, liquid filters, namely, water filters, power-operated vaporizers for industrial or commercial purposes, amine plants in the nature of gas scrubbers, electrostatic treaters in the nature of gas separators and liquid separators for the cleaning and purification of gases and liquids, fuel gas conditioning systems in the nature of gas purification units, molecular sieve adsorption units, namely, comprised primarily of pressure swing adsorption equipment for the recovery, purification and return of gases in industrial applications, and replacement parts related to each of the aforementioned products/systems that are utilized in crude oil refineries, natural gas and LNG plants, chemical and petrochemical plants, power generation facilities, gasoline and crude loading terminals, landfills, waste water treatment plants, crude oil and gas production and distribution sites, and paper, rubber, and other chemical manufacturing processes and waste removal facilities, both onshore and offshore; air valves for steam heating installations, namely, steam valves; spark igniters for gas boilers, burners, incinerators and flares; water heaters; water heaters for industrial use; direct and indirect fired air-heaters being heating installations; fuel waste oil heaters; gas and liquid incinerators; gas scrubbers; electric vaporizers for commercial or industrial purposes; combustion control systems comprised of combustion chambers; burner management systems comprised of gas burners; valves being parts of incinerators, for use in regulation of fluid flow within a boiler, or incinerator; process air heaters being heating installations; boiler fittings, namely, pipes for heating boilers; gas and oil pilots, namely, spark igniters for gas appliances; flare ignition systems comprised of a gas supply tube with a nozzle and an electrical ignitor to create a flame at the nozzle for industrial applications, namely, for igniting waste gases being discharged from industrial stacks and for igniting gas-fired boilers and flares; flare gas seals being structural parts of gas burners and flares; spark igniters for gas firing furnaces; valves for regulating and delivering oil or gas to industrial boilers, incinerators, burners and flares; furnaces; incinerators; cooling fans systems and cooling domes for cooling incinerators. electric fans, pipes to cool heat producing components and valves, all being part of incinerators, burners and flares; waste heat recuperators, namely, heat exchangers not being parts of machines; combustion air heaters being heating installations; thermal oxidizing apparatus, namely, regenerative thermal oxidizer used to destroy airborne volatile organic compounds, airborne toxins, odors and other air pollutants from industrial operations, all the aforesaid goods being for use in burners or flares, or in machinery which is ancillary to burners or flares or is installed with burners or flares or upstream or

downstream thereof; apparatus for steam boilers, namely, pipes for heating boilers; hot water heating boilers; spark igniters for firing gas furnaces; gas burners; burner installations, namely, gas burners being heating apparatus, oil burners for industrial use, gas burners, low calorific value gas burners; burners for hydrocarbon processing applications being heating installations, burners fueled by gaseous liquid or solid fuel or by any combination thereof and flares and flare stacks of all descriptions being heating installations; oil and gas burners for industrial use, industrial oil and gas burners; industrial furnaces; oil and gas pilot igniters for heating installations; oil and gas pilot burners; spark igniters for gas appliances; ignition systems comprised of a gas supply tube with a nozzle and an electrical igniter to create a flame at the nozzle for industrial applications, namely, for igniting waste gases being discharged from industrial stacks and for igniting gas-fired boilers. spark ignition systems comprised of a gas supply tube with a nozzle and an electrical igniter to create a flame at the nozzle for industrial applications, namely, for igniting waste gases being discharged from industrial stacks and for igniting gas-fired boilers; pilot ignition systems comprised of a gas supply tube with a nozzle and an electrical igniter to create a flame at the nozzle for industrial applications, namely, for igniting waste gases being discharged from industrial stacks and for igniting gas-fired; boilers; pilot igniters for igniting gas, oil or coal fired appliances; oven gas igniters; gas and oil furnace igniters; pilot burner assemblies in the nature of gas igniters comprised of a gas supply tube or tubes with a nozzle or nozzles and an electrical igniter to create a flame at the nozzle for industrial applications; spark igniters for gas appliances; spark igniters for industrial oil and gas burners; pilot igniters for industrial oil and gas burners; igniting devices, namely, spark igniters, spark ignition systems, namely, a gas supply tube with a nozzle and an electrical igniter to create a flame at the nozzle, high tension igniters and high energy igniters for gas appliances, coal, gas and oil-fired boilers, gas and oil-fired furnaces, gas and oil-fired heaters]

For [Valves being parts of machines; machine tools, namely, taps being parts of machines, motors and engines; steam traps being parts of machines; pressure reducers as parts of machines; servomotors; rupture discs as parts of machines for reducing pressure; machines for the production and the reprocessing of nuclear fuel, namely, fuel catalysts; machines for the processing of industrial, urban, and agricultural waste, namely, waste compactors; mobile machines for purifying, decontamination, and processing of nuclear, industrial, urban, agricultural releases, namely, filters and purifiers for removing contaminants from gases used in the semi-conductor industry; airplane engines; structural parts and machine tools for aircraft engines; electric engines for aircraft; pressure regulators being parts of machines]

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For [Containers not of metal for goods for aeronautical transportation, which have various sizes and resist differences of atmospheric pressure; rotomoulded plastic, PVC and nylon containers for goods for aeronautical transportation; cases of wood or plastic; containers, not of metal, for liquid fuel]

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For [Installations for distribution of fluids of all types to aircraft, namely, air, oxygen, water, fuel, hydraulic and oil, namely, pipes, nozzles, vents, and air inlets, all being structural parts of aircraft HVAC units; air treatment conditioning apparatus and installations for aircraft HVAC units, namely, air filtering installations, air cleaning units, air sterilisers, humidifiers and dehumidifiers for aircraft; air conditioning apparatus and installations; heating installations; air cooling apparatus; air and water purifying installations; steam generation installations]

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Outsourcing services, business assistance services in the industrial field; human resources management; [commercial project management services for others in the field of business management;] administrative inventory management services; [administrative management of order, namely, processing purchase of order and order pricing;] business management in the field of logistics, transport and delivery; business management assistance; [business organization and] business management consulting; market research; providing statistical information; cost-price analyses; business risk assessments services; economic forecasting; commercial intermediation, namely, partnership market research in the field of business; update and maintenance of data in computer databases; commercial mediation of advertising and business consultancy in the sales of equipment and the provision of services in connection with civil aviation, aircraft and their parts, commercial mediation of agreements regarding the purchase and sale of valves and business consulting in the sales of valves; business mediation of agreements regarding the purchase and sale of containers and business consultancy in the sale of containers

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For [Installation of computer hardware; installation and maintenance of industrial plant and equipment; installation, maintenance and repair of industrial safety equipment; building construction in the field of civil engineering; installation, maintenance and repair of industrial machinery and manufacturing plants; erection and dismantling of industrial equipment in the nature of manufacturing plants; construction, installation and maintenance of recycling centers for storage, processing, reprocessing and recycling of fuels, ores, nuclear materials; dismantling of nuclear power plants, nuclear reactors, non-nuclear boilers, manufacturing plants; building construction, installation and maintenance of facilities located therein used for transporting materials in the field of nuclear energy; building construction supervision; maintenance and cleaning of buildings, of premises, floors, disinfecting services and rat extermination for commercial buildings; upkeep in the nature of cleaning of various objects, namely, aircraft parts; servicing, maintenance, renovation and repair of airplanes; maintenance of measuring instruments, jigs, tools and spares; maintenance, servicing and repair of valves and systems for monitoring and regulating liquid or gaseous media; maintenance and repair of transport containers; building construction, installation, maintenance and repair of rigid technical shelters; repair and maintenance of machines and machine tools, engines except for land vehicles, industrial manipulators machines, robots being machines, handling in the nature of loading and unloading machines, containers for carrying and transporting industrial waste and radioactive materials; repair of printed circuit boards in the nature of logic

cards]

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For [Data processing apparatus; recorded computer software for supply management; downloadable computer software applications for supply management; pressure sensors; pressure recorders; pressure measuring apparatus; electric installations for the remote control of industrial operations; computer software for diagnostics and troubleshooting of production and supply chains; electronic servomotor control devices]

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For [Security auditing services relating to the security of nuclear installations and equipment, of mines, of plants and centers for warehousing, storage, processing, and recycling of fuels, ores, materials used in the field of nuclear energy, uranium and nuclear waste, nuclear power plants, nuclear reactors, namely, security guarding for the aforementioned goods, facilities and processes]

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Transportation logistics, namely, supply chain logistics [and reverse logistics services] in the nature of storage, transportation and delivery of goods for others by air, rail, ship or truck; [distribution logistics of finished and semi-finished goods, namely, storage, transportation and delivery of finished and semi-finished products for others by air, rail ship or truck; distribution logistics of goods in connection with maintenance and repair of equipment and material in the nature of detached parts, spare parts, namely, storage, transportation and delivery of spare parts and detached part in connection with the maintenance and repair of equipment and material; freighting services;] cargo handling; storage of goods [; processing of goods, namely, packaging articles for transportation; delivery and unloading of goods; marine towing; vehicle towing; providing real time transport information via the updating of charter information, accessible by means of Internet access codes or Internet-type networks enabling subscribers to know the location of chartered; storage of bonded goods; rental of storage containers; vehicle rental; rental of refrigerating installations; collection, packaging, distribution in the nature of delivery, transport, storage of fuels, ores, nuclear materials, uranium, plutonium and nuclear waste]

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For [Decontamination of nuclear waste, chemical decontamination of hazardous waste in nuclear power plants; decontamination of hazardous materials; custom manufacture of molded airplane parts; nuclear waste processing services]

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For [Technical project studies, namely, engineering services in the nature of technical project planning and design engineering of lines for the processing of web products;] technical research, namely, analysis of industrial engineering risks; technical research, namely, analysis of logistical organization charts for engineering purposes; [engineering services in the field of energy technology, construction, communications and the environment;] air and aerospace engineering services; [development of measuring and testing methods in the field of aeronautics; scientific and technical research in the field of

aeronautics; mechanical research services;] quality control for others [; rental of computer software; computer programming for electronic instruments and apparatus, for computers, for remote information technology and telematic systems, for multimedia equipment; design and development of computer systems and software for industrial applications; computer programming services for electronic data security; development in the nature of design of technical data banks; consulting and technical studies, namely, environmental auditing services for sites, installations and equipment in the fields of energy; inspection of nuclear materials for quality control; scientific research, graphic and technical design and development services in the field of valves and control systems for controlling liquid or gaseous media in the field of civilian and military nuclear power, sea water desalination, the fields of petroleum and oil-gas chemistry; flight technical testing in the field of aeronautics for scientific purposes]

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For [Metallic valves not being parts of machines; water-pipe valves of metal; metal pipe couplings and joints; containers of metal for transport; metal containers for chemical products, compressed gas and liquids; shelter structures of metal; metal storage shelters; metal shelter structures and shelters]

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Scale model vehicles, namely, scale model cars * ; excluding powered or motorized model vehicles, parts or accessories * [; toy vehicles; scooters (toys for children); scale model automobiles, namely, scale model cars, excluding powered or motorized model vehicles, parts or accessories *] * ; all the above goods are not related to electronic games or video games *

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For Retail store services and wholesale store services featuring motor vehicles; retail store services and wholesale store services, and mail order services featuring motor vehicles; arranging of contracts, for others, for the buying and selling of motor vehicles

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Modification, repair, dismantling, maintenance and care of vehicles; vehicle breakdown repair services; vehicle maintenance; vehicle cleaning; tyre repair; none of the aforesaid goods in connection with rail vehicles

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Recorded content, namely, video recordings featuring automobiles; information technology equipment, namely, telephones; audiovisual equipment, namely, receivers; magnets; magnetizers and demagnetizers for magnetic tapes; apparatus for electricity, namely, transistors; instruments for electricity, namely, electric voltage transformers; cables for electricity; optical devices, enhancers and correctors, namely, optical condensers, binoculars, optical corrector lenses; safety, security, protection and signaling devices, namely, vehicle safety devices, namely, back-up sensors and cameras, LCD monitors for security purposes, eye covers for protective purposes, emergency warning lights; diving equipment, namely, scuba diving masks, weight belts for scuba diving, scuba snorkels, scuba goggles, regulators for use in scuba diving; navigation, guidance, tracking, targeting and map making devices, namely, navigation apparatus for vehicles, GPS navigation device; measuring, detecting and monitoring instruments, indicators and controllers, namely, instruments for detecting, monitoring and measuring two-dimensional distribution of force and pressure; measuring apparatus, namely, sizers for automobile parts; scientific research and laboratory apparatus, namely, centrifuges, homogenizers; laboratory equipment, namely, cupels; educational simulators, namely, simulators for driving or control of vehicles; scientific, nautical, surveying, photographic, cinematographic, electric weighing, measuring, signaling, checking and supervising, lifesaving apparatus and instruments, namely, spectrometers and parts and fittings therefor, navigation apparatus for boats, photographic flashbulbs, cinematographic projectors, weighing scales, rain gauges, electrical annunciators, apparatus for checking flight parameters, life-saving rafts; contact lenses; spectacles; spectacle cases; magnifying glasses; sunglasses; vehicle breakdown warning triangles; vehicle breakdown warning lamps other than parts of vehicles; electric batteries and replacement parts therefor; electric accumulators and replacement parts therefor; fuel cells and replacement parts therefor; solar batteries; electric batteries for vehicles; electric accumulators for vehicles; chargers for electric batteries; burglar alarms; fire alarms; smoke alarms; gas alarms; theft alarms; fire extinguishing apparatus; scales; spirit levels; compasses, namely, directional compasses; fuel gauges; measuring instruments in the nature of rulers; acid hydrometers; electronic controllers and power and voltage stabilizing supply units for vehicle headlights; light emitting diodes (LEDs); electronic power controllers; electrical and electronic controllers and instruments for controlling automobiles; simulators for the steering and control of vehicles; voltage regulators for vehicles; speed indicators; revolution counters, namely, tachometers; measuring apparatus and instruments, namely, distance measuring apparatus; life-saving apparatus and equipment, namely, life-saving rafts, fire escape ladders, safety nets, safety tarpaulins, life belts, life buoys and life jackets; electrical fuses; fuses for automobiles; electric relays; lasers not for medical purposes; laser pointers; electronic key fobs being remote control apparatus; aerials; navigation apparatus for vehicles, namely, onboard computers; mobile telephones; telephone apparatus; television apparatus, namely, television apparatus for projection purposes; video telephones; radios; satellite navigation systems, namely, global positioning systems (GPS) and satellite-aided navigation systems; electric navigational instruments; telematic apparatus, namely, GPS tracking devices for vehicles; telematics terminal apparatus, namely, wireless Internet devices for tracking vehicles; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, semiconductor wafers, electric circuit switches, electrical transformers, electric accumulators, voltage regulators for electric power, electrical controllers; apparatus for recording, transmission and/or reproduction of sound and images; magnetic, electronic and optical data carriers, namely, hard disk drives, blank USB flash drives, blank optical data carriers and optical disks featuring music; phonograph records featuring music; blank audio video compact discs; audio-video compact discs featuring music; blank recordable DVDs; DVDs featuring vehicle safety information; digital recording apparatus, namely, digital voice recorders; sound carriers, namely, audio speakers; coin operated jukeboxes; compact discs, namely, CD-ROMs featuring music; blank recordable compact discs; downloadable

music files; audio headphones; loudspeakers and cabinets for loudspeakers; illuminated signs, namely, illuminated exit signs; compact disc players; DVD players; phototelegraphy apparatus; slide and photograph projection apparatus; exposed camera films; cinematographic cameras; photocopiers; computer-based electronic translation apparatus, namely, electronic pocket translators; encoded magnetic cards for use as electronic tickets; integrated circuit cards, namely, encoded smart cards containing programming used for controlling and operating vehicles; encoded telephone cards, namely, pre-paid telephone calling cards, magnetically encoded; mechanisms for coin-operated apparatus; automatic banking machines, namely, automated teller machines; cash registers; calculators; data processing apparatus; computers; electronic agendas, namely, calendars and organizers; facsimile apparatus; computer monitors; computer peripheral devices; recorded and downloadable computer software for use in database management and for use in the autonomous navigation of vehicles; computer application software for operating vehicles, namely, software for use in database management and for use in the autonomous navigation of vehicles; all the above goods are not related to video games; pocket calculators; downloadable electronic publications in the nature of magazines in the field of automobiles; downloadable image files containing images of automobiles; crash test dummies; microscopes; electric sockets, plugs and contacts; electric igniting apparatus for igniting at a distance, namely, keyless ignition switch system for automotive vehicles comprised of a microprocessor, electronic signal receiver, and key fob with electronic signal transponder; radioactivity measuring apparatus for industrial purposes; protective helmets; electric locks; electronic controllers and electronic control systems for controlling automobiles, engines and machines; none of the aforesaid goods in connection with rail vehicles * ; none of the aforesaid goods in connection with model vehicle batteries, model vehicle battery chargers, or electrical adapter/connector components for model vehicles *
