GOODS AND SERVICES INFORMATION

For Telecommunications network management services, namely, the operation and administration of telecommunication systems and networks for others; business consulting services relating to product distribution in the field of data processing equipment, apparatus for recording, transmission or reproduction of sound or images, computer hardware, computer software, telecommunications apparatus, electronic apparatus and instruments

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business **First Use** Dec. 15, 2000 **In Commerce** Dec. 15, 2000

For Maintenance of computer hardware systems; technical support services, namely, troubleshooting in the nature of repair of computer hardware

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair **First Use** Dec. 15, 2000 **In Commerce** Dec. 15, 2000

For Computers; computer hardware and downloadable, recorded software for use in support of the provision of telecommunications services to customers; computer peripherals; computer hardware and downloadable, recorded computer software for use in support of the provision of telecommunications services to customers; digital wireless telecommunication apparatus being computer networking hardware for transporting and aggregating voice, data or image transmission; wired and wireless telecommunication telephones; wireless portable telecommunication receivers; wireless routers; downloadable, recorded computer programs that support the provision of telecommunication services to customers; downloadable computer software supplied on the Internet for use in support of the provision of telecommunications services to customers; downloadable, recorded computer communications software for voice, data or image transmission; downloadable electronic publications, namely, marketing material and publications in the nature of journals and brochures related to the provision of telecommunications services; apparatus, instruments and devices for technical testing of telecommunication equipment, digital mobile communication equipment and radio communication equipment, namely, devices being telecommunication line

integrity testing apparatus commonly used by telecommunications providers to provide services to customers; radio communications machines and apparatus, namely, apparatus for transmitting radio programs and radio relay messages; communications and networking equipment devices, namely, modems, routers, switches, cell phones, portable communication devices being wireless communication devices for voice, data or image transmission, antennae, transmitters being telecommunication transmitters; downloadable, recorded communications and networking software for use in allowing access to a global computer information network and for use in securing access to electronic digital devices; downloadable, recorded computer security and authentication software for controlling access to and communications with computers; downloadable, recorded communications software for connecting radio, wireless communication transmitters, receivers and synthesizers; apparatus and instruments for recording, receiving, transmitting, reproducing, displaying and/or printing out data, information, pictures, images, and/or sound, namely, video consoles, computers, portable communication devices being portable computers and cell phones; satellites; satellite dishes; satellite apparatus, namely, satellite antennae, satellite transmitters, satellite receivers, satellite aerials, satellite radios, satellite telephones; portable apparatus for receiving and sending satellite transmissions, namely, satellite transmitters and receivers, satellite antennae, satellite processors; satellite broadcasting instruments, namely, satellite transmitters, antennae, amplifiers and receivers, converters, satellite processors, satellite aerials; satellite earth stations, namely, base stations for networking, communication and broadcasting applications; satellite receivers; satellite television receiving apparatus; satellite communications equipment being satellite transceivers; communications transceivers; satellite television transmission uplink scrambling apparatus; transmitting apparatus being satellite transmitters and receivers for satellite broadcast; antennas for wireless communications apparatus; receiving antennas for satellite broadcast; satellite boxes; satellite navigational apparatus, namely satellite-aided navigation systems; intercommunication satellites; electronic television satellite apparatus, namely satellite television receiving apparatus; audiovisual apparatus being audiovisual receivers for use in satellite broadcasting; digital point of sale marketing and advertising material being electronic displays in the nature of digital signage; electronic displays, namely, digital signage; satellite television signal scramblers; downloadable, recorded networking software for transmission of wireless communications; networking hardware for wireless communications; network communications devices, namely, routers, switches, hubs, transmitters and receivers; telephones, mobile phones; downloadable, recorded computer software for browsing and/or searching of data, or enabling browsing and/or searching on a computer network or the Internet; telecommunications apparatus, instruments, networks and circuitry, namely, analogue switches, digital switches, transceivers, portable telephones, landline telephones, modems, base transceiver stations, transmission lines; computer, telecommunication, and electrical cables; cable installations consisting primarily of telecommunication cables, optical fibers, optical communication apparatus and circuitry consisting primarily of optical transmitters and transceivers, all for telecommunication purposes; cable connectors for use in the data communications industry; computer hardware and downloadable, recorded software for database management; computer hardware and downloadable, recorded software for decompressing digital media; television, radio, video and audio apparatus, equipment and devices, namely, television receivers, television transmitters, radio transmitters radio receivers, amplifiers, antennas; Electronic digital and optical communications instruments and components, namely, digital transmitters; laser apparatus and instruments, namely lasers for non-medical purposes; Downloadable pictures in the field of telecommunications; electronic apparatus and instruments, namely communication modems, and communications servers used for communicating with computer networks and the world-wide web; computer apparatus and instruments, namely computers, and communication modems used for communicating with computer networks and the world-wide web; computer software apparatus and instruments, namely downloadable computer software for use in communicating with computer networks and the world-wide web; apparatus for

use in broadcasting, transmission, receiving, processing, reproducing, encoding and decoding of digital signals, namely telecommunications transmitters and receivers, encoding and decoding apparatus; electronic circuits and components all for processing, coding and decoding electronic radio frequency and optical signals, namely, signal processors; apparatus being audio recorders for speech recording and replaying; sound amplifiers, receivers and transmitters; mobile radio and television broadcasting equipment being apparatus for broadcasting of sound or images; Global Positioning System (GPS) apparatus; set top boxes; remote controls for telecommunications devices excluding gaming apparatus; data storage programs, namely, downloadable, recorded software used for the storage of electronic data and documents on hard discs, compact discs, tapes and optical discs; computer network servers; Downloadable cloud computing software for use in data management in support of the provision of telecommunications services to customers; data center storage devices, namely, high- speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; downloadable, recorded computer software platforms for cloud computing networks and applications for use in data management, and data storage; downloadable, recorded computer software to enable users to program, view and distribute audio, video, text and other multimedia content, including music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment- related and educational programs via communication networks; downloadable, recorded computer software for use with satellite and/or GPS (Global Positioning System) navigation systems for navigation, route and trip planning, and electronic mapping; downloadable, recorded computer software used in mobile phones that allow users to play and download electronic games, listen to and download music, and view and download data and software

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus **First Use** Dec. 15, 2000 **In Commerce** Dec. 15, 2000

For Telecommunication services, namely, the transmission of voice and data via broadband optical or wireless networks, wireless telephone services, local and long distance transmission of voice, data, graphics by means of cable, and satellite transmissions; rental of telecommunications and wireless communications apparatus, equipment, installations, instruments and systems; providing multi-user telecommunications access to the Internet and communications, data and wireless networks; providing access to telecommunication networks; providing access to databases; telecommunication services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; communication services, namely, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks; telecommunications and wireless communications routing services; providing multiple users wireless access to the internet; telecommunication access services; Wireless broadband communication services; communication services, namely, electronic transmission of data and documents among users of computers; communication services, namely, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks; telephony communication services; Telecommunication services, namely, local and long distance transmission of voice, data, graphics by means of satellite transmissions; providing frame relay connectivity services for data transfer; electronic messaging services; computer aided transmission of messages and images; audio and video teleconferencing services; telecommunications services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communications networks and the Internet; integrated services digital network telecommunications services; transmission of voice, text, video and data via satellite, terrestrial and telecommunications links; television transmission services; telecommunications network management services, namely

controlling the broadcast of video programs to multiple remote sites; telecommunications network management services namely, activation of telecommunication networks, putting network protocols in order and providing network extensions to multiple users; electronic transmission of computer software of others by means of electronic communications networks; providing telecommunications connections to the Internet or databases; telecommunication gateway services; computer network communication services, namely, providing user access to global computer networks; providing telecommunication access services to world-wide web facilities and structures; communication by computer terminals, radio and fiber optic networks; providing voice communication services via the Internet, Intranet, cable and satellite, computer and cable television, computer networks, telecommunication networks, data communications networks; satellite communication services; transmission of electronic mail; rental of telecommunication equipment; rental of telecommunications equipment and facilities; electronic message sending, receiving and forwarding services; transmission and delivery of data via wireless communication networks, and the internet; electronic transmission and delivery of mail messages, still picture and/or moving picture information such as characters, messages, music and images, information and data by mechanical, electronic, telephone, teleprinters, cable, computer and satellite means; transmission and broadcast of audio, video, still and moving images and data whether in compressed or uncompressed form and whether in real or delayed time; leasing of telecommunication transponders; television and radio broadcasting services; satellite transmission services; broadcasting of television programs relayed by satellite receiver aerials, by cable or by microwave link to television receivers of users, via the Internet through video transcoding of signal; cable television transmission services; broadcasting services, namely, internet, cable television, television and radio broadcasting services; electronic transmission of mail and messages and telecommunication services namely providing e-mail notification alerts via the internet; electronic transmission of data and documents via computer terminals, cable, television microwave, communications satellite or other communications means; consultancy services relating to transmission of data communications; electronic transmission of messages and data for business or domestic purposes from a computer stored data bank; rental of communication apparatus; computer time sharing services for communications apparatus; providing telecommunications connections to the internet and computer databases; providing information in the field of telecommunications; providing telecommunication access services and providing access to the Internet; electronic messaging, conferencing and order-transmission services; satellite video conferencing services; radio and television communication services; electronic bulletin board services that enables users to perform a real-time interactive talk between a computer terminal and an electronic bulletin board containing still picture and moving picture information and voice transmission; providing on-line forums for transmission of messages among computer users; radio and television broadcasting services; internet radio broadcasting services; cable television broadcasting; music broadcasting; electronic transmission of music, films, interactive programs, videos, electronic computer games via a global computer network or the internet; providing internet chat rooms; telephone telecommunications services provided via prepaid telephone calling cards; providing access to digital music web sites on the Internet; providing telecommunication access to MP3 web sites on the Internet; delivery of digital music by electronic transmission; video-on-demand transmission services; providing voice over Internet protocol (VOIP) peer-to-peer communications; providing high speed access to area networks and a global computer information network; news agency services for electronic transmission; news agencies, namely, the transmission of news items to news reporting organizations; leasing of satellite radio and television transmission capacity; satellite transmission services performed between orbital satellites and fixed or transportable earth stations; broadcast transmission of television programs by satellite, the Internet or by other electronic means; providing access to databases on the global computer network for searching and retrieving information, data, web sites and resources available on computer networks; providing multiple user access to

databases containing electronic publications and data via computer networks for processing and/or displaying purposes; providing multiple user access to remote computers containing electronic publications, bulletin boards, databases and information accessible via computer; telecommunications consultancy in the field of data processing equipment, apparatus for recording, transmission or reproduction of sound or images, all for the transmission and broadcasting of information, data, graphics, sound, music, videos, animation and text, via satellite systems or landline computer networks; providing information in the field of telecommunications, data and radio communications; transmission of information by electronic communication systems and networks; transmission of information by radio, telephone, satellite and cable network communications systems; consultancy, information and advisory services in relation to the aforesaid broadcasting, telecommunication, transmission and communication services; technical advisory and consulting services in the field of telecommunication services, namely, transmission of voice, data, and documents via telecommunications networks

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

First Use Dec. 15, 2000 **In Commerce** Dec. 15, 2000

For Server hosting; design of computer networks and telecommunications apparatus and instruments; cloud computing, namely providing temporary use of on-line non-downloadable cloud computing software for use in support of the provision of telecommunications services to customers; cloud computing services, namely, providing temporary use of on-line non-downloadable cloud computing software for use in enabling the downloading, uploading and storing of data; electronic data storage; data center services, namely, managed hosting being hosting of web sites and co-location services being rental of space in a computer co-location facility for containerized data centers of others; Computer services, namely, creating computer network-based indexes of information, websites and resources; computer programming; computer systems integration services; installation, maintenance and repair of computer software and computer programs, updating of computer software; computer services, namely, data recovery services; computer software design; product quality testing services; testing of networking equipment; testing of satellite navigation equipment; testing of telecommunications equipment; design and engineering design services relating to telecommunications systems and apparatus; testing of computing, telecommunication, apparatus and instruments; computer systems analysis; database development services; data encryption and decoding services; remote backup services for computer hard drive data; design and development of computer hardware; technical support services, namely, troubleshooting of computer software problems; maintenance and upgrading of computer software; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; design of computer software and hardware for use in telecommunications and voice over Internet protocol (VOIP) applications, data transmission and instant messaging services; providing temporary use of online, non- downloadable computer software that allows subscribers to utilize VOIP communication services; providing temporary use of online, non- downloadable computer software by others that allows subscribers to utilize VOIP communication services; design of computer software and hardware for use in web-based online systems for booking satellite capacity and for the automated remote- control of satellite transmission equipment; monitoring apparatus for recording, transmission or reproduction of sound or images for quality control purposes; monitoring data processing equipment, computer hardware, telecommunication apparatus, digital point of sale material and electronic signage for quality control purposes; providing temporary use of on-line non-downloadable cloud computing software for use in the electronic storage, retrieval and provision of data, documents, text, videos and files; application service provider featuring software for use in uploading, posting, displaying, sharing or otherwise providing electronic media over the internet; application software services featuring application programming interface software for use in support of the provision of

telecommunications services to customers; computer services, namely, creating an on-line community for registered users to engage in social networking; computer security services, namely in the nature of administering digital certificates, administering digital keys, and hard drive erasure; cloud computing featuring temporary use of non-downloadable cloud computing software for use in downloading and uploading data and for use in storing data and computer software; consulting services in the fields of selection, implementation and use of computer hardware and software systems for others; computer software consultancy; information technology consulting services relating to computer software design, relating to computer network design; telecommunications technology consultancy

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services **First Use** Dec. 15, 2000 **In Commerce** Dec. 15, 2000

CASE IDENTIFIERS

Serial Number 98146351 **Application Filing Date** Aug. 23, 2023 **Registration Number** 7836809 **Registration Date** Jun. 17, 2025 **Register** Principal **Mark Type** Service Mark **Publication Date** Nov. 26, 2024 **Notice of Allowance Date** Jan. 07, 2025

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a motion mark. The letters P, E, O and L appear onscreen letter by letter in a jumble, and then re-arrange themselves to form the word PLEO. The letter P appears first, followed by the letters E, O and L. The letter E is depicted as an open right bracket and the letter L appears as a curved line. The letters move to arrange themselves in order, the letter P moves from right to left, crossing in between the letters O and E, straightening its orientation from a 45 degree angle to an upright position. The letters L and O intersect before moving apart as the letter E positions itself to the right of the letter P. The letter L moves into position between the letters P and E, with the curve of the letter L forming the crossbar in the letter E. The letter O moves to the end. The final arrangement of the letters forms the word PLEO. **Color Claimed** Color is not claimed as a feature of the mark.

Mark Literal(s) FRONTIER PRECISION

CASE IDENTIFIERS

Serial Number 98353281 **Application Filing Date** Jan. 11, 2024 **Registration Number** 7837159 **Registration Date** Jun. 17, 2025 **Register** Principal **Mark Type** Service Mark **Publication Date** Dec. 31, 2024 **Notice of Allowance Date** Feb. 25, 2025

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of one line of text. The text consists of the word "FRONTIER", in all caps, with a stylized compass replacing the letter "O". The stylized compass is made up of four separate quadrants. The upper left, lower left, upper right and lower right quadrants consist of four triangles bordered by eight curved rectangles that appear together to form three quarters of a circle. The upper right quadrant has three additional oblong rectangles, along with a elongated diamond representing the north point of the stylized compass. Following the word "FRONTIER" on the same line of text is the word "PRECISION" in all caps, and inside the "O" in "PRECISION" is a plus symbol. **Color Claimed** Color is not claimed as a feature of the mark.
