GOODS AND SERVICES INFORMATION

For Unexposed photographic films; sensitized photographic films, unexposed; photosensitive films, unexposed; photographic paper, chemically sensitized; chemically sensitized photographic paper; unexposed chemically sensitized photographic paper; chemically sensitized paper for photographs; photoprint paper, chemically sensitized; photosensitive paper; chemical compositions for developing photographs; chemical compositions for developing and printing photographs; chemical preparations for use in photography; photographic sensitizers; chemical compounds for processing photographic films; unexposed cinematographic films; cinematographic films, sensitized but not exposed

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Downloadable virtual goods, namely, computer programs featuring cameras, digital cameras, photographic cameras for the instant production of pictures, cameras for self-developing film, camera lenses, mount adapters for cameras, camera flashes, cases adapted for cameras, camera lens filters, blower brushes for cleaning cameras, tripods for cameras, straps for camera, structural parts and fittings for cameras, photographic machines and apparatus, photographic supplies, photographic films, binoculars, telescopes, digital photo frames, photo albums, photographic or art mounts, calendars, printed postcards featuring photographs, photograph storage boxes, photograph storage cases, film storage boxes, film storage cases, decorative stickers for cameras, decorative stickers for photographs, printed photographs, photograph stands, stationery, books, newsletters, journals, photographic panels, photograph frames, ink-jet color printers for documents, photo-copying machines, photo printers for smartphones, wireless portable printers for use with mobile devices, cases adapted for photo printers for smartphones, photo printers and structural parts and fittings therefor, printing paper, paper and cardboard, lenses for telecameras, video camera lenses, video cameras, camcorders, digital camcorders, camcorders with digital camera functions,

projectors, clocks and watches, key rings, trophies of precious metals, commemorative shields of precious metal, personal ornaments in the nature of jewellery, shoe jewellery, clothing, sports caps and hats, tote bags, carry-on bags, rucksacks, pouches, unfitted vanity cases, metal fittings for bags, industrial packaging containers of leather, mugs and cushions for use in online video games and online virtual worlds; downloadable computer software for streaming and storing downloadable three-dimensional shape data contents of sound, music, images, videos, texts and avatar files; downloadable virtual goods, namely, computer programs featuring cameras, digital cameras, photographic cameras for the instant production of pictures, cameras for self-developing film, camera lenses, mount adapters for cameras, camera flashes, cases adapted for cameras, camera lens filters, blower brushes for cleaning cameras, tripods for cameras, straps for camera, structural parts and fittings for cameras, photographic machines and apparatus, photographic supplies, photographic films, binoculars, telescopes, digital photo frames, photo albums, photographic or art mounts, calendars, printed postcards featuring photographs, photograph storage boxes, photograph storage cases, film storage boxes, film storage cases, decorative stickers for cameras, decorative stickers for photographs, printed photographs, photograph stands, stationery, books, newsletters, journals, photographic panels, photograph frames, ink-jet color printers for documents, photo-copying machines, photo printers for smartphones, wireless portable printers for use with mobile devices, cases adapted for photo printers for smartphones, photo printers and structural parts and fittings therefor, printing paper, paper and cardboard, lenses for telecameras, video camera lenses, video cameras, camcorders, digital camcorders, camcorders with digital camera functions, projectors, clocks and watches, key rings, trophies of precious metals, commemorative shields of precious metal, personal ornaments in the nature of jewellery, shoe jewellery, clothing, sports caps and hats, tote bags, carry-on bags, rucksacks, pouches, unfitted vanity cases, metal fittings for bags, industrial packaging containers of leather, mugs and cushions for use online and in on-line virtual worlds; downloadable video files in the field of art, photography, cinematography, printing, stationery, sports, fashion and entertainment, image files in the field of art, photography, cinematography, printing, stationery, sports, fashion and entertainment, movie files, audio files featuring art, photography, cinematography, printing, stationery, sports, fashion and entertainment, music files, text files relating to art, photography, cinematography, printing, stationery, sports, fashion and entertainment, image files containing artworks, image files containing trading cards and image files containing electronic tickets authenticated by non-fungible tokens (NFTs); downloadable electronic publications in the nature of books, magazines, and newsletters in the field of virtual reality authenticated by non-fungible tokens (NFTs); downloadable computer software for deploying virtual machines to a cloud computing platform and managing virtual machines on a cloud computing platform in the field of virtual reality authenticated by non-fungible tokens (NFTs); downloadable and recorded augmented reality computer software for simulating real-world experiences; computers for interactive virtual reality video games; downloadable and recorded computer programs and computer software for deploying virtual machines to a cloud computing platform and managing virtual machines on a cloud computing platform; downloadable and recorded computer programs and computer software for image processing; recorded computer software for smartphones and tablet terminals for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); recorded computer software for smartphones and tablet terminals for the processing, transmission and printing of photographic images and video; recorded computer software for smartphones and tablet terminals for reviewing, editing, composing, organizing and printing digital images, photographs and video; recorded computer software for smartphones and tablet terminals for editing texts, images, sound, and video; recorded computer software for smartphones and tablet terminals for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; recorded computer software for

smartphones and tablet terminals to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; recorded computer software for smartphones and tablet terminals for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; recorded computer software for digital cameras and camcorders for remotely controlling the operation of printers; recorded computer software for smartphones and tablet terminals to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; recorded computer software for smartphones and tablet terminals for allowing users to create and maintain a personal diary using photographic images and video; recorded computer software for smartphones and tablet terminals that allows users to scan and create two-dimensional bar codes; downloadable and recorded computer programs and software for editing and compositing captured digital images; downloadable and recorded computer application software that enables processing, sending, and printing photographic images; downloadable and recorded computer programs and software for image recognition; downloadable and recorded computer programs using artificial intelligence for use in software development, machine learning, and facial and speech recognition; downloadable and recorded computer programs for use in database management and use in electronic storage of data; downloadable and recorded computer programs for image processing; downloadable and recorded mobile applications for trading, viewing, storing, and managing virtual goods authenticated by non-fungible tokens (NFT) and cryptographic keys; downloadable and recorded computer programs and software for the creation, production and modification of digital animated and non-animated designs and characters, avatars, digital overlays and skins for access and use in online environments, virtual online environments, and extended reality virtual environments; downloadable and recorded computer programs and software to authenticate and use virtual goods in online environments, online virtual environments and extended reality virtual environments; downloadable and recorded computer programs and software for use in creating and participating in virtual environments; downloadable and recorded computer programs and software for use in creating, editing and modifying avatars and virtual images that can be posted, shared and transmitted via multi-media messaging (MMS), text messaging (SMS), email, online chatrooms, global communication networks, and other communication networks; downloadable and recorded computer programs and software for creating and using avatars across online social media and digital streaming platforms; downloadable and recorded computer programs and software to manage transactions using blockchain technology; downloadable and recorded computer programs and software used as a digital wallet; downloadable and recorded mobile applications for viewing and printing images; downloadable and recorded computer software for viewing and printing images; downloadable and recorded software for use in database management and use in electronic storage of data; downloadable and recorded software that allows users to scan and create two-dimensional bar codes; downloadable and recorded computer programs and software in the nature of a mobile application for generating and storing two-dimensional bar codes; downloadable and recorded computer programs and software that allows users to take photos in an augmented reality space; downloadable and recorded computer programs for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); downloadable and recorded computer programs for the processing, transmission and printing of photographic images and video; downloadable and recorded computer programs for reviewing, editing, composing, organizing and printing digital images, photographs and video; downloadable and recorded computer programs for editing texts, images, sound, and video; downloadable and recorded computer programs for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and

photographic images and video; downloadable and recorded computer programs to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; downloadable and recorded computer programs for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; downloadable and recorded computer programs for digital cameras and camcorders for remotely controlling the operation of printers; downloadable and recorded computer programs to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; downloadable and recorded computer programs for allowing users to create and maintain a personal diary using photographic images and video; downloadable and recorded computer programs that allows users to scan and create two- dimensional bar codes; downloadable and recorded mobile application software for smartphones and tablet terminals for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); downloadable and recorded mobile application software for smartphones and tablet terminals for the processing, transmission and printing of photographic images and video; downloadable and recorded mobile application software for smartphones and tablet terminals for reviewing, editing, composing, organizing and printing digital images, photographs and video; downloadable and recorded mobile application software for smartphones and tablet terminals for editing texts, images, sound, and video; downloadable and recorded mobile application software for smartphones and tablet terminals for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; downloadable and recorded mobile application software for smartphones and tablet terminals to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; downloadable and recorded mobile application software for smartphones and tablet terminals for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; downloadable and recorded mobile application software for smartphones and tablet terminals to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; downloadable and recorded mobile application software for smartphones and tablet terminals for allowing users to create and maintain a personal diary using photographic images and video; downloadable and recorded mobile application software for smartphones and tablet terminals that allows users to scan and create two-dimensional bar codes; recorded computer software for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); recorded computer software for the processing, transmission and printing of photographic images and video; recorded computer software for reviewing, editing, composing, organizing and printing digital images, photographs and video; recorded computer software for editing texts, images, sound, and video; recorded computer software for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; recorded computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; recorded computer software for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; recorded computer software to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; recorded computer software for allowing users to create and maintain a personal diary using photographic images and video; recorded computer software that allows users to scan and create two-dimensional bar codes; downloadable and recorded computer application software for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated

by non-fungible tokens (NFTs); downloadable and recorded computer application software for the processing, transmission and printing of photographic images and video; downloadable and recorded computer application software for reviewing, editing, composing, organizing and printing digital images, photographs and video; downloadable and recorded computer application software for editing texts, images, sound, and video; downloadable and recorded computer application software for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; downloadable and recorded computer application software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; downloadable and recorded computer application software for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; downloadable and recorded computer application software for digital cameras and camcorders for remotely controlling the operation of printers; downloadable and recorded computer application software to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; downloadable and recorded computer application software for allowing users to create and maintain a personal diary using photographic images and video; downloadable and recorded computer application software that allows users to scan and create two-dimensional bar codes; cards embedded with encoded electronic chips containing programming for data entry and data recording; Computer network servers for cloud computing; interfaces for computers; electronic tags for identification of photos, images, videos, and particular users of computers and mobile telephones using two-dimensional bar codes; magnetic identifying cards; encoded electronic chip cards for identifying photos, images, videos, and particular users of computers and mobile telephones; digital photo printers; digital color printers for photos; video printers; document and photograph printers; photo printers; wireless portable document and photograph printers for use with mobile devices; photo printers for smartphones; computer hardware and downloadable firmware for use in operating smartphones, digital cameras, and document and photo printers; electronic machines, apparatus and their structural parts, namely, semiconductor power elements, semiconductor chips for image processing, image sensors, other than for medical use, image intensifiers, microprocessors, electronic cards for processing images, numerical filters for cameras, lenses and computer screens, computers, computer peripheral devices, tablet computers, computer terminals, document, image, and 3D scanners and electronic components thereof; photo-copying machines; ink cartridges, unfilled, for printers and photocopiers; coin-operated printing machines in the nature of photo printers for printing digital images taken with digital cameras; photo printing machines in the nature of photo printers with automatic shooting function that can create identification cards using image data of photographs taken thereby; mobile teaching robots, other than for industrial, medical and gaming purposes, for guiding visitors in museums, exhibition halls, fairs, train stations, airports, and construction sites; telepresence robots; head-mounted video displays; downloadable virtual reality game software; recorded virtual reality game software; downloadable electronic game software for mobile devices; downloadable electronic game software; headsets for virtual reality games; audiovisual headsets for playing video games; humanoid robots with artificial intelligence for use in scientific research; photographic cameras for the instant production of pictures; cameras for self-developing film; still image cameras; video cameras; cameras; cases adapted for cameras; straps for cameras; mount adapters for cameras; lens filters for cameras; camera flashes; camera lenses; lenses for telecameras; lenses for video cameras; close-up lenses; tripods for cameras; structural parts and fittings for cameras; self-developing certificate photographing machines, namely, camera and motion picture camera machines being cameras and motion picture cameras; photographic machines and apparatus, namely, cameras, photographic cameras for the instant

production of pictures, cameras for self-developing film, digital cameras and structural parts and fittings therefor; cinematographic machines and apparatus; optical apparatus and instruments, namely, optical reflectors, optical shutters, optical profilers, optical lenses, optical filters; telecommunication machines and apparatus, namely, audio recorders, video recorders, tape recorders, sound transmitting apparatus, sound reproduction apparatus, structural parts and fittings for camcorders; electric cables; printer cables; digital still image cameras; digital video cameras; compact digital cameras; digital cameras; digital photo frames; camcorders; digital camcorders; camcorders with digital camera functions; LCD projectors; picture projectors; photographic projectors; video projectors; digital projectors; video surveillance cameras; surveillance cameras; mobile phones; smartphones; personal digital assistants; straps for smartphones, mobile phones and mobile printers; covers for smartphones, mobile phones and mobile printers; cases for smartphones, mobile phones and mobile printers; downloadable and recorded computer programs for smartphones and tablet terminals that enables processing, sending, and printing photographic images; charge-coupled devices; semiconductor power elements; image sensors for digital cameras; image sensors for video cameras; wireless headsets for smart phones and mobile phones; electronic image analyzers, namely, digital imaging apparatus comprised of semiconductor-controlled micromirrors; downloadable three-dimensional shape data of sound, music, images, videos, texts and avatar files in the fields of photography, cinematography, printing, stationery, sports, fashion and entertainment; downloadable sound, music, image, video and text data in the field of photography, cinematography, printing, stationery, sports, fashion and entertainment; downloadable image files relating to photography, cinematography, printing, stationery, sports, fashion and entertainment authenticated by non-fungible tokens (NFTs); pre-recorded video discs and video tapes featuring photography lessons; downloadable audio files relating to photography, cinematography, printing, stationery, sports, fashion and entertainment; downloadable music files relating to photography, cinematography, printing, stationery, sports, fashion and entertainment; downloadable movie files relating to photography, cinematography, printing, stationery, sports, fashion and entertainment; downloadable image files containing digital photographs and images relating to photography, cinematography, printing, stationery, sports, fashion and entertainment; consumer coupons downloaded from a global computer network; downloadable graphic design templates; downloadable and recorded electronic publications in the nature of journals and book in the field of photography, cinematography, printing, stationery, sports, fashion and entertainment; raster image processors; battery chargers; batteries; coin-operated photo sticker printing machines being photo printers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing online non-downloadable computer software featuring virtual goods, namely, cameras, digital cameras, photographic cameras for the instant production of pictures, cameras for self-developing film, camera lenses, mount adapters for cameras, camera flashes, cases adapted for cameras, camera lens filters, blower brushes for cleaning cameras, tripods for cameras, straps for camera, structural parts and fittings for cameras, photographic machines and apparatus, photographic supplies, photographic films, binoculars, telescopes, digital photo frames, photo albums, photographic or art mounts, calendars, printed postcards featuring photographs, photograph storage boxes, photograph storage cases, film storage boxes, film storage cases, decorative stickers for cameras, decorative stickers for photographs, printed photographs, photograph stands, stationery, books, newsletters, journals, photographic panels, photograph frames, ink-jet color printers for documents, photo-copying machines, photo printers for smartphones, wireless portable printers for use with mobile devices, cases adapted for photo printers for smartphones, photo printers and structural parts and fittings therefor, printing paper, paper and cardboard, lenses

for telecameras, video camera lenses, video cameras, camcorders, digital camcorders, camcorders with digital camera functions, projectors, clocks and watches, key rings, trophies of precious metals, commemorative shields of precious metal, personal ornaments in the nature of jewellery, shoe jewellery, clothing, sports caps and hats, tote bags, carry-on bags, rucksacks, pouches, unfitted vanity cases, metal fittings for bags, industrial packaging containers of leather, mugs and cushions for use online and in on-line virtual worlds; providing online non-downloadable computer software for use in image processing authenticated by non-fungible tokens (NFTs); design and development of computer software for image processing; computer software design, computer programming, and maintenance of computer software; providing temporary use of non-downloadable computer software for viewing, editing, compositing and printing of digital images and digital photos; providing temporary use of non-downloadable computer operating programs that enable users to scan, upload, review, edit, link and store printed photographs; providing temporary use of non- downloadable web-based computer application programs that enable users to scan, upload, review, edit, link and store printed photographs; Providing on-line non-downloadable augmented reality software for simulating real-world experiences; Providing online non-downloadable computer programs for image recognition on data networks; Providing on-line non- downloadable computer programs and software using artificial intelligence for use in software development, machine learning, facial and speech recognition; Providing online non- downloadable computer programs for use in database management and use in electronic storage of data; Providing on-line non-downloadable computer programs for image processing; Provision of non-downloadable online software and non-downloadable web-based applications for trading, viewing, storing, and managing virtual goods authenticated by non-fungible tokens (NFT) and cryptographic keys; Providing on-line non-downloadable computer programs and software for the creation, production and modification of digital animated and non-animated designs and characters, avatars, digital overlays and skins for access and use in online environments, virtual online environments, and extended reality virtual environments; Providing on-line non-downloadable computer programs and software to authenticate and use virtual goods in online environments, online virtual environments and extended reality virtual environments; Providing on-line non-downloadable computer programs and software for use in creating and participating in virtual environments; Providing on-line non-downloadable computer programs and software for use in creating, editing and modifying avatars and virtual images that can be posted, shared and transmitted via multi-media messaging (MMS), text messaging (SMS), email, online chatrooms, global communication networks, and other communication networks; Providing on-line non-downloadable computer programs and software for creating and using avatars across online social media and digital streaming platforms; Providing on-line non-downloadable computer programs and software to manage transactions using blockchain technology; Providing on-line non-downloadable computer programs and software used as a digital wallet; Providing on-line non-downloadable mobile applications for viewing and printing images; Providing temporary use of online non-downloadable computer software for viewing and printing images; Providing temporary use of on-line non-downloadable cloud computing software for use in database management and use in electronic storage of data; Providing online non-downloadable software that allows users to scan and create two- dimensional bar codes; Providing on-line non-downloadable computer programs and software for generating and storing two-dimensional bar codes; providing online non-downloadable computer software that enables data conversion of audio, music, still images, and videos into two-dimensional codes; providing online non-downloadable computer firmware for operating smartphones, digital cameras, and document and photo printers; providing online non- downloadable computer programs for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); providing online non-downloadable computer programs for the processing, transmission and printing of photographic images and video; providing online non-downloadable computer programs for reviewing, editing, composing, organizing and

printing digital images, photographs and video; providing online non-downloadable computer programs for editing texts, images, sound, and video; providing online non-downloadable computer programs for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; providing online non-downloadable computer programs to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; providing online non-downloadable computer programs for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; providing online non-downloadable computer programs for digital cameras and camcorders for remotely controlling the operation of printers; providing online non-downloadable computer programs to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; providing online non-downloadable computer programs for allowing users to create and maintain a personal diary using photographic images and video; providing online non-downloadable computer programs that allows users to scan and create two-dimensional bar codes; rental of server memory space via a computer communications network; providing temporary use of non-downloadable software for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); providing temporary use of non-downloadable software for the processing, transmission and printing of photographic images and video; providing temporary use of non-downloadable software for reviewing, editing, composing, organizing and printing digital images, photographs and video; providing temporary use of non-downloadable software for editing texts, images, sound, and video; providing temporary use of non-downloadable software for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; providing temporary use of non-downloadable software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; providing temporary use of non- downloadable software for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; providing temporary use of non-downloadable software for digital cameras and camcorders for remotely controlling the operation of printers; providing temporary use of non-downloadable software to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; providing temporary use of non-downloadable software for allowing users to create and maintain a personal diary using photographic images and video; providing temporary use of non-downloadable software that allows users to scan and create two-dimensional bar codes; platform as a service (PAAS) featuring computer software platforms for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); platform as a service (PAAS) featuring computer software platforms for the processing, transmission and printing of photographic images and video; platform as a service (PAAS) featuring computer software platforms for reviewing, editing, composing, organizing and printing digital images, photographs and video; platform as a service (PAAS) featuring computer software platforms for editing texts, images, sound, and video; platform as a service (PAAS) featuring computer software platforms for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; platform as a service (PAAS) featuring computer software platforms to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; platform as a service

(PAAS) featuring computer software platforms for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; platform as a service (PAAS) featuring computer software platforms for digital cameras and camcorders for remotely controlling the operation of printers; platform as a service (PAAS) featuring computer software platforms to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; platform as a service (PAAS) featuring computer software platforms for allowing users to create and maintain a personal diary using photographic images and video; platform as a service (PAAS) featuring computer software platforms that allows users to scan and create two-dimensional bar codes; software as a service (SaaS) services featuring software for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); software as a service (SaaS) services featuring software for the processing, transmission and printing of photographic images and video; software as a service (SaaS) services featuring software for reviewing, editing, composing, organizing and printing digital images, photographs and video; software as a service (SaaS) services featuring software for editing texts, images, sound, and video; software as a service (SaaS) services featuring software for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; software as a service (SaaS) services featuring software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; software as a service (SaaS) services featuring software for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; software as a service (SaaS) services featuring software for digital cameras and camcorders for remotely controlling the operation of printers; software as a service (SaaS) services featuring software to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; software as a service (SaaS) services featuring software for allowing users to create and maintain a personal diary using photographic images and video; software as a service (SaaS) services featuring software that allows users to scan and create two-dimensional bar codes; software as a service (SaaS) services featuring software for hosting, managing and organizing virtual events and chat rooms for registered users; hosting internet sites for others; server hosting; electronic storage services for archiving image data, voice data, audio data, text data, video data and other electronic data; electronic data storage; technical advice relating to operation of computers; providing online non-downloadable computer software for creating, viewing, managing, trading and collecting data, sound, music, images, videos, texts and avatar files; providing virtual computer systems through cloud computing; software as a service (SaaS) featuring software for hosting, managing and organizing virtual events and chat rooms for registered users; providing a web site for the electronic storage of digital photographs and videos on the Internet; providing online non-downloadable computer software for editing and synthesizing captured digital images; hosting software platforms for virtual reality-based virtual worlds; providing cloud computing software, namely, providing temporary use of online non-downloadable cloud computing software for deploying virtual machines to a cloud computing platform and managing virtual machines on a cloud computing platform; providing on-line non-downloadable computer software for use in database management; providing online, non-downloadable computer software for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); providing online, non-downloadable computer software for the processing, transmission and printing of photographic images and video; providing online, non-downloadable computer software for reviewing, editing, composing, organizing and printing digital images, photographs and video; providing online, non-downloadable computer software for editing texts, images, sound, and video; providing online, non-downloadable computer

software for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; providing online, non- downloadable computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; providing online, non-downloadable computer software for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; providing online, non-downloadable computer software for digital cameras and camcorders for remotely controlling the operation of printers; providing online, non-downloadable computer software to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; providing online, non-downloadable computer software for allowing users to create and maintain a personal diary using photographic images and video; providing online, non-downloadable computer software that allows users to scan and create two-dimensional bar codes; providing online, non-downloadable computer programs and software for editing and compositing captured digital images; providing online, non-downloadable computer application software that enables processing, sending, and printing photographic images; providing online, non-downloadable image recognition computer programs on data networks; electronic data storage of music, voice, photographs, drawing, letters, digital photographs, image data, voice data, audio data, text data, video data and other electronic data; electronic storage services for archiving electronic data; hosting computer websites; rental of computers; Information technology (IT) consulting services relating to installation, maintenance and repair of computer software; providing a web hosting platform for streaming multimedia content; creation, design, development and maintenance of web sites for third parties in the field of three-dimensional shape data, namely, sound, music, image, video and text data; technological consulting services for digital transformation; technical advice relating to computers; testing the functionality of machines; Technological research in the field of computer hardware systems; development of computer platforms; data conversion of personal information into electronic data in the nature of two-dimensional codes; data conversion of electronic information; off-site data backup; electronic data backup services; computer programming; website design; programming of image recognition computer programs for others; technical support, namely, monitoring technological functions of computer network systems; computer systems analysis; internet security consultancy

GOODS AND SERVICES INFORMATION

For Downloadable virtual goods, namely, computer programs featuring cameras, digital cameras, photographic cameras for the instant production of pictures, cameras for self-developing film, camera lenses, mount adapters for cameras, camera flashes, cases adapted for cameras, camera lens filters, blower brushes for cleaning cameras, tripods for cameras, straps for camera, structural parts and fittings for cameras, photographic machines and apparatus, photographic supplies, photographic films, binoculars, telescopes, digital photo frames, photo albums, photographic or art mounts, calendars, printed postcards featuring photographs, photograph storage boxes, photograph storage cases, film storage boxes, film storage cases, decorative stickers for cameras, decorative stickers for photographs, printed photographs, photograph stands, stationery, books, newsletters, journals, photographic panels, photograph frames, ink-jet color printers for documents, photo-copying machines, photo printers for smartphones, wireless portable printers for use with mobile devices, cases adapted for photo printers for smartphones, photo printers and structural parts and fittings therefor, printing paper, paper and cardboard, lenses for telecameras, video camera lenses, video cameras, camcorders, digital camcorders, camcorders with digital camera functions, projectors, clocks and watches, key rings, trophies of precious metals, commemorative shields of precious metal, personal ornaments in the nature of jewellery, shoe jewellery, clothing, sports caps and hats, tote bags, carry-on bags, rucksacks, pouches, unfitted vanity cases, metal fittings for bags, industrial packaging containers of leather, mugs and cushions for use in online video games and online virtual worlds; downloadable computer software for streaming and storing downloadable three-dimensional shape data contents of sound, music, images, videos, texts and avatar files; downloadable virtual goods, namely, computer programs featuring cameras, digital cameras, photographic cameras for the instant production of pictures, cameras for self-developing film, camera lenses, mount adapters for cameras, camera flashes, cases adapted for cameras, camera lens

filters, blower brushes for cleaning cameras, tripods for cameras, straps for camera, structural parts and fittings for cameras, photographic machines and apparatus, photographic supplies, photographic films, binoculars, telescopes, digital photo frames, photo albums, photographic or art mounts, calendars, printed postcards featuring photographs, photograph storage boxes, photograph storage cases, film storage boxes, film storage cases, decorative stickers for cameras, decorative stickers for photographs, printed photographs, photograph stands, stationery, books, newsletters, journals, photographic panels, photograph frames, ink-jet color printers for documents, photo-copying machines, photo printers for smartphones, wireless portable printers for use with mobile devices, cases adapted for photo printers for smartphones, photo printers and structural parts and fittings therefor, printing paper, paper and cardboard, lenses for telecameras, video camera lenses, video cameras, camcorders, digital camcorders, camcorders with digital camera functions, projectors, clocks and watches, key rings, trophies of precious metals, commemorative shields of precious metal, personal ornaments in the nature of jewellery, shoe jewellery, clothing, sports caps and hats, tote bags, carry-on bags, rucksacks, pouches, unfitted vanity cases, metal fittings for bags, industrial packaging containers of leather, mugs and cushions for use online and in on-line virtual worlds; downloadable video files in the field of art, photography, cinematography, printing, stationery, sports, fashion and entertainment, image files in the field of art, photography, cinematography, printing, stationery, sports, fashion and entertainment, movie files, audio files featuring art, photography, cinematography, printing, stationery, sports, fashion and entertainment, music files, text files relating to art, photography, cinematography, printing, stationery, sports, fashion and entertainment, image files containing artworks, image files containing trading cards and image files containing electronic tickets authenticated by non-fungible tokens (NFTs); downloadable electronic publications in the nature of books, magazines, and newsletters in the field of virtual reality authenticated by non-fungible tokens (NFTs); downloadable computer software for deploying virtual machines to a cloud computing platform and managing virtual machines on a cloud computing platform in the field of virtual reality authenticated by non-fungible tokens (NFTs); downloadable and recorded augmented reality computer software for simulating real-world experiences; computers for interactive virtual reality video games; downloadable and recorded computer programs and computer software for deploying virtual machines to a cloud computing platform and managing virtual machines on a cloud computing platform; downloadable and recorded computer programs and computer software for image processing; recorded computer software for smartphones and tablet terminals for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); recorded computer software for smartphones and tablet terminals for the processing, transmission and printing of photographic images and video; recorded computer software for smartphones and tablet terminals for reviewing, editing, composing, organizing and printing digital images, photographs and video; recorded computer software for smartphones and tablet terminals for editing texts, images, sound, and video; recorded computer software for smartphones and tablet terminals for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; recorded computer software for smartphones and tablet terminals to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; recorded computer software for smartphones and tablet terminals for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; recorded computer software for digital cameras and camcorders for remotely controlling the operation of printers; recorded computer software for smartphones and tablet terminals to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; recorded computer software for smartphones and tablet terminals for allowing users to create and maintain a personal diary using photographic images and video; recorded

computer software for smartphones and tablet terminals that allows users to scan and create two-dimensional bar codes; downloadable and recorded computer programs and software for editing and compositing captured digital images; downloadable and recorded computer application software that enables processing, sending, and printing photographic images; downloadable and recorded computer programs and software for image recognition; downloadable and recorded computer programs using artificial intelligence for use in software development, machine learning, and facial and speech recognition; downloadable and recorded computer programs for use in database management and use in electronic storage of data; downloadable and recorded computer programs for image processing; downloadable and recorded mobile applications for trading, viewing, storing, and managing virtual goods authenticated by non-fungible tokens (NFT) and cryptographic keys; downloadable and recorded computer programs and software for the creation, production and modification of digital animated and non-animated designs and characters, avatars, digital overlays and skins for access and use in online environments, virtual online environments, and extended reality virtual environments; downloadable and recorded computer programs and software to authenticate and use virtual goods in online environments, online virtual environments and extended reality virtual environments; downloadable and recorded computer programs and software for use in creating and participating in virtual environments; downloadable and recorded computer programs and software for use in creating, editing and modifying avatars and virtual images that can be posted, shared and transmitted via multi-media messaging (MMS), text messaging (SMS), email, online chatrooms, global communication networks, and other communication networks; downloadable and recorded computer programs and software for creating and using avatars across online social media and digital streaming platforms; downloadable and recorded computer programs and software to manage transactions using blockchain technology; downloadable and recorded computer programs and software used as a digital wallet; downloadable and recorded mobile applications for viewing and printing images; downloadable and recorded computer software for viewing and printing images; downloadable and recorded software for use in database management and use in electronic storage of data; downloadable and recorded software that allows users to scan and create two-dimensional bar codes; downloadable and recorded computer programs and software in the nature of a mobile application for generating and storing two-dimensional bar codes; downloadable and recorded computer programs and software that allows users to take photos in an augmented reality space; downloadable and recorded computer programs for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); downloadable and recorded computer programs for the processing, transmission and printing of photographic images and video; downloadable and recorded computer programs for reviewing, editing, composing, organizing and printing digital images, photographs and video; downloadable and recorded computer programs for editing texts, images, sound, and video; downloadable and recorded computer programs for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; downloadable and recorded computer programs to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; downloadable and recorded computer programs for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; downloadable and recorded computer programs for digital cameras and camcorders for remotely controlling the operation of printers; downloadable and recorded computer programs to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; downloadable and recorded computer programs for allowing users to create and maintain a personal diary using photographic images and video;

downloadable and recorded computer programs that allows users to scan and create two- dimensional bar codes; downloadable and recorded mobile application software for smartphones and tablet terminals for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); downloadable and recorded mobile application software for smartphones and tablet terminals for the processing, transmission and printing of photographic images and video; downloadable and recorded mobile application software for smartphones and tablet terminals for reviewing, editing, composing, organizing and printing digital images, photographs and video; downloadable and recorded mobile application software for smartphones and tablet terminals for editing texts, images, sound, and video; downloadable and recorded mobile application software for smartphones and tablet terminals for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; downloadable and recorded mobile application software for smartphones and tablet terminals to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; downloadable and recorded mobile application software for smartphones and tablet terminals for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; downloadable and recorded mobile application software for smartphones and tablet terminals to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; downloadable and recorded mobile application software for smartphones and tablet terminals for allowing users to create and maintain a personal diary using photographic images and video; downloadable and recorded mobile application software for smartphones and tablet terminals that allows users to scan and create two-dimensional bar codes; recorded computer software for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); recorded computer software for the processing, transmission and printing of photographic images and video; recorded computer software for reviewing, editing, composing, organizing and printing digital images, photographs and video; recorded computer software for editing texts, images, sound, and video; recorded computer software for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; recorded computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; recorded computer software for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; recorded computer software to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; recorded computer software for allowing users to create and maintain a personal diary using photographic images and video; recorded computer software that allows users to scan and create two-dimensional bar codes; downloadable and recorded computer application software for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); downloadable and recorded computer application software for the processing, transmission and printing of photographic images and video; downloadable and recorded computer application software for reviewing, editing, composing, organizing and printing digital images, photographs and video; downloadable and recorded computer application software for editing texts, images, sound, and video; downloadable and recorded computer application software for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; downloadable and recorded computer application software to enhance the audio-visual capabilities of multimedia applications,

namely, for the integration of text, audio, graphics, still images and moving pictures; downloadable and recorded computer application software for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; downloadable and recorded computer application software for digital cameras and camcorders for remotely controlling the operation of printers; downloadable and recorded computer application software to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; downloadable and recorded computer application software for allowing users to create and maintain a personal diary using photographic images and video; downloadable and recorded computer application software that allows users to scan and create two-dimensional bar codes; cards embedded with encoded electronic chips containing programming for data entry and data recording; Computer network servers for cloud computing; interfaces for computers; electronic tags for identification of photos, images, videos, and particular users of computers and mobile telephones using two-dimensional bar codes; magnetic identifying cards; encoded electronic chip cards for identifying photos, images, videos, and particular users of computers and mobile telephones; digital photo printers; digital color printers for photos; video printers; document and photograph printers; photo printers; wireless portable document and photograph printers for use with mobile devices; photo printers for smartphones; computer hardware and downloadable firmware for use in operating smartphones, digital cameras, and document and photo printers; electronic machines, apparatus and their structural parts, namely, semiconductor power elements, semiconductor chips for image processing, image sensors, other than for medical use, image intensifiers, microprocessors, electronic cards for processing images, numerical filters for cameras, lenses and computer screens, computers, computer peripheral devices, tablet computers, computer terminals, document, image, and 3D scanners and electronic components thereof; photo-copying machines; ink cartridges, unfilled, for printers and photocopiers; coin-operated printing machines in the nature of photo printers for printing digital images taken with digital cameras; photo printing machines in the nature of photo printers with automatic shooting function that can create identification cards using image data of photographs taken thereby; mobile teaching robots, other than for industrial, medical and gaming purposes, for guiding visitors in museums, exhibition halls, fairs, train stations, airports, and construction sites; telepresence robots; head-mounted video displays; downloadable virtual reality game software; recorded virtual reality game software; downloadable electronic game software for mobile devices; downloadable electronic game software; headsets for virtual reality games; audiovisual headsets for playing video games; humanoid robots with artificial intelligence for use in scientific research; photographic cameras for the instant production of pictures; cameras for self-developing film; still image cameras; video cameras; cameras; cases adapted for cameras; straps for cameras; mount adapters for cameras; lens filters for cameras; camera flashes; camera lenses; lenses for telecameras; lenses for video cameras; close-up lenses; tripods for cameras; structural parts and fittings for cameras; self-developing certificate photographing machines, namely, camera and motion picture camera machines being cameras and motion picture cameras; photographic machines and apparatus, namely, cameras, photographic cameras for the instant production of pictures, cameras for self-developing film, digital cameras and structural parts and fittings therefor; cinematographic machines and apparatus; optical apparatus and instruments, namely, optical reflectors, optical shutters, optical profilers, optical lenses, optical filters; telecommunication machines and apparatus, namely, audio recorders, video recorders, tape recorders, sound transmitting apparatus, sound reproduction apparatus, structural parts and fittings for camcorders; electric cables; printer cables; digital still image cameras; digital video cameras; compact digital cameras; digital cameras; digital photo frames; camcorders; digital camcorders; camcorders with digital camera functions; LCD projectors; picture projectors; photographic projectors; video projectors; digital projectors; video surveillance cameras; surveillance cameras;

mobile phones; smartphones; personal digital assistants; straps for smartphones, mobile phones and mobile printers; covers for smartphones, mobile phones and mobile printers; cases for smartphones, mobile phones and mobile printers; downloadable and recorded computer programs for smartphones and tablet terminals that enables processing, sending, and printing photographic images; charge-coupled devices; semiconductor power elements; image sensors for digital cameras; image sensors for video cameras; wireless headsets for smart phones and mobile phones; electronic image analyzers, namely, digital imaging apparatus comprised of semiconductor-controlled micromirrors; downloadable three-dimensional shape data of sound, music, images, videos, texts and avatar files in the fields of photography, cinematography, printing, stationery, sports, fashion and entertainment; downloadable sound, music, image, video and text data in the field of photography, cinematography, printing, stationery, sports, fashion and entertainment; downloadable image files relating to photography, cinematography, printing, stationery, sports, fashion and entertainment authenticated by non-fungible tokens (NFTs); pre-recorded video discs and video tapes featuring photography lessons; downloadable audio files relating to photography, cinematography, printing, stationery, sports, fashion and entertainment; downloadable music files relating to photography, cinematography, printing, stationery, sports, fashion and entertainment; downloadable movie files relating to photography, cinematography, printing, stationery, sports, fashion and entertainment; downloadable image files containing digital photographs and images relating to photography, cinematography, printing, stationery, sports, fashion and entertainment; consumer coupons downloaded from a global computer network; downloadable graphic design templates; downloadable and recorded electronic publications in the nature of journals and book in the field of photography, cinematography, printing, stationery, sports, fashion and entertainment; raster image processors; battery chargers; batteries; coin-operated photo sticker printing machines being photo printers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Providing online non-downloadable computer software featuring virtual goods, namely, cameras, digital cameras, photographic cameras for the instant production of pictures, cameras for self-developing film, camera lenses, mount adapters for cameras, camera flashes, cases adapted for cameras, camera lens filters, blower brushes for cleaning cameras, tripods for cameras, straps for camera, structural parts and fittings for cameras, photographic machines and apparatus, photographic supplies, photographic films, binoculars, telescopes, digital photo frames, photo albums, photographic or art mounts, calendars, printed postcards featuring photographs, photograph storage boxes, photograph storage cases, film storage boxes, film storage cases, decorative stickers for cameras, decorative stickers for photographs, printed photographs, photograph stands, stationery, books, newsletters, journals, photographic panels, photograph frames, ink-jet color printers for documents, photo-copying machines, photo printers for smartphones, wireless portable printers for use with mobile devices, cases adapted for photo printers for smartphones, photo printers and structural parts and fittings therefor, printing paper, paper and cardboard, lenses for telecameras, video camera lenses, video cameras, camcorders, digital camcorders, camcorders with digital camera functions, projectors, clocks and watches, key rings, trophies of precious metals, commemorative shields of precious metal, personal ornaments in the nature of jewellery, shoe jewellery, clothing, sports caps and hats, tote bags, carry-on bags, rucksacks, pouches, unfitted vanity cases, metal fittings for bags, industrial packaging containers of leather, mugs and cushions for use online and in on-line virtual worlds; providing online non-downloadable computer software for use in image processing authenticated by non-fungible tokens (NFTs); design and development of computer software for image processing; computer software design, computer programming, and maintenance of computer software; providing temporary use of non-

downloadable computer software for viewing, editing, compositing and printing of digital images and digital photos; providing temporary use of non-downloadable computer operating programs that enable users to scan, upload, review, edit, link and store printed photographs; providing temporary use of non- downloadable web-based computer application programs that enable users to scan, upload, review, edit, link and store printed photographs; Providing on-line non-downloadable augmented reality software for simulating real-world experiences; Providing online non-downloadable computer programs for image recognition on data networks; Providing on-line non- downloadable computer programs and software using artificial intelligence for use in software development, machine learning, facial and speech recognition; Providing online non- downloadable computer programs for use in database management and use in electronic storage of data; Providing on-line non-downloadable computer programs for image processing; Provision of non-downloadable online software and non-downloadable web-based applications for trading, viewing, storing, and managing virtual goods authenticated by non-fungible tokens (NFT) and cryptographic keys; Providing on-line non-downloadable computer programs and software for the creation, production and modification of digital animated and non-animated designs and characters, avatars, digital overlays and skins for access and use in online environments, virtual online environments, and extended reality virtual environments; Providing on-line non-downloadable computer programs and software to authenticate and use virtual goods in online environments, online virtual environments and extended reality virtual environments; Providing on-line non-downloadable computer programs and software for use in creating and participating in virtual environments; Providing on-line non-downloadable computer programs and software for use in creating, editing and modifying avatars and virtual images that can be posted, shared and transmitted via multi-media messaging (MMS), text messaging (SMS), email, online chatrooms, global communication networks, and other communication networks; Providing on-line non-downloadable computer programs and software for creating and using avatars across online social media and digital streaming platforms; Providing on-line non-downloadable computer programs and software to manage transactions using blockchain technology; Providing on-line non-downloadable computer programs and software used as a digital wallet; Providing on-line non-downloadable mobile applications for viewing and printing images; Providing temporary use of online non-downloadable computer software for viewing and printing images; Providing temporary use of on-line non-downloadable cloud computing software for use in database management and use in electronic storage of data; Providing online non-downloadable software that allows users to scan and create two- dimensional bar codes; Providing on-line non-downloadable computer programs and software for generating and storing two-dimensional bar codes; providing online non-downloadable computer software that enables data conversion of audio, music, still images, and videos into two-dimensional codes; providing online non-downloadable computer firmware for operating smartphones, digital cameras, and document and photo printers; providing online non- downloadable computer programs for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); providing online non-downloadable computer programs for the processing, transmission and printing of photographic images and video; providing online non-downloadable computer programs for reviewing, editing, composing, organizing and printing digital images, photographs and video; providing online non-downloadable computer programs for editing texts, images, sound, and video; providing online non-downloadable computer programs for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; providing online non-downloadable computer programs to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; providing online non-downloadable computer programs for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; providing online non-downloadable

computer programs for digital cameras and camcorders for remotely controlling the operation of printers; providing online non-downloadable computer programs to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; providing online non-downloadable computer programs for allowing users to create and maintain a personal diary using photographic images and video; providing online non-downloadable computer programs that allows users to scan and create two-dimensional bar codes; rental of server memory space via a computer communications network; providing temporary use of non-downloadable software for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); providing temporary use of non-downloadable software for the processing, transmission and printing of photographic images and video; providing temporary use of non-downloadable software for reviewing, editing, composing, organizing and printing digital images, photographs and video; providing temporary use of non-downloadable software for editing texts, images, sound, and video; providing temporary use of non-downloadable software for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; providing temporary use of non-downloadable software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; providing temporary use of non- downloadable software for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; providing temporary use of non-downloadable software for digital cameras and camcorders for remotely controlling the operation of printers; providing temporary use of non-downloadable software to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; providing temporary use of non-downloadable software for allowing users to create and maintain a personal diary using photographic images and video; providing temporary use of non-downloadable software that allows users to scan and create two-dimensional bar codes; platform as a service (PAAS) featuring computer software platforms for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); platform as a service (PAAS) featuring computer software platforms for the processing, transmission and printing of photographic images and video; platform as a service (PAAS) featuring computer software platforms for reviewing, editing, composing, organizing and printing digital images, photographs and video; platform as a service (PAAS) featuring computer software platforms for editing texts, images, sound, and video; platform as a service (PAAS) featuring computer software platforms for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; platform as a service (PAAS) featuring computer software platforms to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; platform as a service (PAAS) featuring computer software platforms for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; platform as a service (PAAS) featuring computer software platforms for digital cameras and camcorders for remotely controlling the operation of printers; platform as a service (PAAS) featuring computer software platforms to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; platform as a service (PAAS) featuring computer software platforms for allowing users to create and maintain a personal diary using photographic images and video; platform as a service (PAAS) featuring computer software platforms that allows users to scan and create two-dimensional bar codes; software as a service (SaaS)

services featuring software for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); software as a service (SaaS) services featuring software for the processing, transmission and printing of photographic images and video; software as a service (SaaS) services featuring software for reviewing, editing, composing, organizing and printing digital images, photographs and video; software as a service (SaaS) services featuring software for editing texts, images, sound, and video; software as a service (SaaS) services featuring software for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; software as a service (SaaS) services featuring software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; software as a service (SaaS) services featuring software for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; software as a service (SaaS) services featuring software for digital cameras and camcorders for remotely controlling the operation of printers; software as a service (SaaS) services featuring software to enable the photographing, processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; software as a service (SaaS) services featuring software for allowing users to create and maintain a personal diary using photographic images and video; software as a service (SaaS) services featuring software that allows users to scan and create two-dimensional bar codes; software as a service (SaaS) services featuring software for hosting, managing and organizing virtual events and chat rooms for registered users; hosting internet sites for others; server hosting; electronic storage services for archiving image data, voice data, audio data, text data, video data and other electronic data; electronic data storage; technical advice relating to operation of computers; providing online non-downloadable computer software for creating, viewing, managing, trading and collecting data, sound, music, images, videos, texts and avatar files; providing virtual computer systems through cloud computing; software as a service (SaaS) featuring software for hosting, managing and organizing virtual events and chat rooms for registered users; providing a web site for the electronic storage of digital photographs and videos on the Internet; providing online non-downloadable computer software for editing and synthesizing captured digital images; hosting software platforms for virtual reality- based virtual worlds; providing cloud computing software, namely, providing temporary use of online non-downloadable cloud computing software for deploying virtual machines to a cloud computing platform and managing virtual machines on a cloud computing platform; providing on-line non-downloadable computer software for use in database management; providing online, non-downloadable computer software for authorizing, accessing, and transferring video, images, artwork, tickets, audio, sounds, music, and trading cards authenticated by non-fungible tokens (NFTs); providing online, non-downloadable computer software for the processing, transmission and printing of photographic images and video; providing online, non-downloadable computer software for reviewing, editing, composing, organizing and printing digital images, photographs and video; providing online, non-downloadable computer software for editing texts, images, sound, and video; providing online, non-downloadable computer software for creating, developing, scanning, storing, uploading, managing, manipulating, processing, transforming, deploying, distributing, displaying, sharing, transmitting and printing textual and audio information, and visual and photographic images and video; providing online, non- downloadable computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; providing online, non-downloadable computer software for remotely controlling the operation of digital cameras, camcorders, projectors, scanners and printers; providing online, non-downloadable computer software for digital cameras and camcorders for remotely controlling the operation of printers; providing online, non-downloadable computer software to enable the photographing,

processing, retrieving, transmission, displaying, archiving, storing, managing and printing of photographic images and video; providing online, non-downloadable computer software for allowing users to create and maintain a personal diary using photographic images and video; providing online, non-downloadable computer software that allows users to scan and create two-dimensional bar codes; providing online, non-downloadable computer programs and software for editing and compositing captured digital images; providing online, non-downloadable computer application software that enables processing, sending, and printing photographic images; providing online, non-downloadable image recognition computer programs on data networks; electronic data storage of music, voice, photographs, drawing, letters, digital photographs, image data, voice data, audio data, text data, video data and other electronic data; electronic storage services for archiving electronic data; hosting computer websites; rental of computers; Information technology (IT) consulting services relating to installation, maintenance and repair of computer software; providing a web hosting platform on the Internet for streaming multimedia content; creation, design, development and maintenance of web sites for third parties in the field of three-dimensional shape data, namely, sound, music, image, video and text data; technological consulting services for digital transformation; technical advice relating to computers; testing the functionality of machines; Technological research in the field of computer hardware systems; development of computer platforms; data conversion of personal information into electronic data in the nature of two-dimensional codes; data conversion of electronic information; off-site data backup; electronic data backup services; computer programming; website design; programming of image recognition computer programs for others; technical support, namely, monitoring technological functions of computer network systems; computer systems analysis; internet security consultancy

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

RELATED PROPERTIES INFORMATION

International Applications/ Registrations Based on this Property A0146498/1843880 **International Registration Number** 1843880

GOODS AND SERVICES INFORMATION

For Conduit fishing equipment, namely, vacuum powered machines for installing a pull line, power operated blowers, machine tools for inserting lines or wires in conduits, pipes, or adaptors; power operated electrical conduit benders; pneumatic tool in the nature of pneumatic conveyors for propelling a line through a conduit and parts therefor; conduit bending machines; hydraulic punches in the nature of punching machines; hydraulic knockout punch tool in the nature of punching machines for punching holes in metal enclosures; hydraulic pumps; electric pumps; machine parts, namely, cylinders for conduit fishing machines; parts of conduit fishing machines, namely, line carriers for installing pull line in electrical conduit by loading one end of the conduit with air or gas

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Electric heated hot-air heat guns for shrinking heat shrinkable tubing and end caps

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Electrical connectors, namely, electrical plugs, receptacles, adapters, and connectors; wire connectors; wire connectors, namely, crimp connectors; electrical connectors, namely, set screw connectors, pigtail connectors, terminal and splice connectors, bullet connectors and split bolt connectors; electrical equipment and parts, namely, solderless connectors, test fuse clips, insulated fuse clips, charging fuse clips, connectors, panel-mounted fuse holders for use with electronic glass and ceramic fuses, line taps being electrical connectors, cables, box connectors, sockets, voltage regulators, ground fuse clips, battery terminal connector clamps, conduit fittings being for electrical cable conduits, wire, relays; preinsulated battery terminals, splices for electrical transmission lines, electrical cable terminators, connectors and splices being ring battery

terminals, spade battery terminals, tap electrical connectors, and butt splices being wire connectors and disconnects for wire gauges in the nature of electrical plug device enabling disconnection of power and/or control cables; electrical switches and switch panels being patch panels for housing electrical switches; alligator clips being battery terminal connector clamps; electrical connectors, namely, crimp sleeves; voltage testers; voltage continuity testers; electrical outlet testers, namely, test units to verify proper outlet wiring and ground fault circuit operation; battery-powered electric wall stud finders; battery-powered electric circuit breaker finders; battery-powered non-contact volt sensors, not for medical use; multi-scanners, namely, battery-powered electronic scanners to locate wall studs, metal behind walls, and electrical wires behind walls; battery-powered tracers for tracing of non-energized wiring, namely, circuit testers; battery-powered electricity meters and electricity clamp meters for measuring AC and DC voltage and current; multi-meters and clamp multi-meters, namely, battery-powered electricity meters and electricity clamp meters for testing AC and DC voltage, AC and DC amps, frequency, capacitance, resistance, diode test, continuity, temperature, duty cycle, transistor gain; meters that measure voltage frequency to verify proper wiring and connection in 3-phased motor applications being electricity meters; digital insulation continuity testers, namely, battery-powered testers to verify the integrity of wire insulation and connectivity of electrical wiring being insulation resistance meters; analog insulation testers, namely, battery-powered testers to test the continuity and wire insulation of electrical wiring being insulation resistance meters; battery-powered infrared thermometers, not for medical purposes; circuit breakers and testers; protective electrical, temperature and environmental detection apparatus, namely, ground fault integrity tester, circuit searcher breaker locator being electric circuit breaker finders, ground fault interrupters, surge protector tester being voltage testers; conduit measuring tapes; protractors; battery accessories, namely, terminals, charging posts, battery analyzers being battery testers, battery terminal rings, booster clips in the nature of battery terminal connector clamps, chargers, battery mounts being mounting brackets adapted for batteries, and testers; battery charging clips being electrical cable termination connectors; battery terminal connector clamps; fuses, fuse blocks being electric fuse boxes, holders for electric coils and taps being electrical connectors; industrial wiring kits comprising electrical parts and equipment, namely, test fuse clips, insulated fuse clips, charging fuse clips, electrical connectors, electrical cables, electrical cable ties of metal, voltage regulators, circuit testers, ground fuse clips, battery terminal connector clamps, conduit fittings being for electrical cable conduits, preinsulated battery terminals, wire joints being cable joints of metal, and non-metallic origin, electrical wire splices being hand cable splices and splices for electrical transmission lines, preinsulated grommets being metal fasteners and electrical insulators tape, and comprising hand tools, namely, wire strippers, wire crimpers, cable cutters being wire cutters, cable clamps being battery terminal connector clamps and non-electric screwdrivers all sold as a unit; electrical wire connectors; electrical wire terminators, and connectors, namely, rings and quick disconnects

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For ties being cable ties of non-metallic origin

International Classes 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

For Duct seal butyl rubber compounds being non-metal seals for use on junction boxes, flashing, electrical service entrance drops, electrical wire entries into brick and wood, electrical conduit entries through structural openings and equipment; heat shrinkable electrically insulated polymer tubing and end caps; Electrically insulating splice covers for electrical connectors; hydraulic hoses of plastic; hydraulic hoses of rubber

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For hand-operated wire strippers and cutters; hand-operated wire cable strippers and wire cutters; hand tools, namely, cutters for cutting PVC conduit; hand-operated electrical crimping tools being wire crimpers; hand tools, namely, nut drivers; hand tools, namely, conduit benders; screwdrivers, non-electric; hand tools, namely, fish tapes and draw tape reels; cable and wire knives; pliers; hand tools, namely, stud punches; hand tools, namely, cable benders and pullers; manually operated staple guns; industrial wiring kits comprising hand tools, namely, wire strippers, wire crimpers, cable cutters being cutting pliers, cable clamps and screwdrivers, and comprising electrical equipment and parts, namely, test clips of metal for cables, insulated clips of metal for cables, charging clips of metal for cables, connectors being cable connectors, wire joints being non-electric cable joints of metal, wire splices being hand cable splicers, electrical cables, electrical ties being cable ties of metal and non-metallic origin, circuit testers, ground clips of metal for cables, clamps being hand tools and electrical wire clamps, conduit fittings in the nature of hand benders for use on pipes and conduits, preinsulated terminals being electrical terminal blocks, electrical wire splices being electrical cable terminators and connectors, preinsulated grommets being metal and rubber insulated fasteners and electrical tape, all sold as a unit; electrician's tools and supplies, namely, hand conduit benders, fish tapes being hand tools and draw tape reels; wire splices being hand cable splices; splices being hand cable splices; splices for electrical wires being hand cable splices, and connectors, namely, spades, and butt splices being hand cable splicers

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

For wire joints being cable joints of metal, non-electric; ties being cable ties of metal

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

Electric bicycles; Electrically-powered motor scooters; Fire and rescue vehicle in the nature of a truck for carrying an on-board electrical generator; Fitted bicycle covers; Folding bicycles; Folding bikes; Folding electric bicycles; Frames for bicycles; Frames, for luggage carriers, for bicycles; Freewheels for bicycles; Front and rear bicycle rack packs; Front forks for bicycles; Gear levers for bicycle wheels; Gears for bicycles; Handle bar grips for scooters; Handle bars for bicycles; Handlebar grips for bicycles; Handlebars; Hubs for bicycle wheels; Inner tubes; Inner tubes for bicycle tires; Inner tubes for bicycle tyres; Inner tubes for bicycles; Land vehicles, namely, low-speed electric vehicles; Low-speed electric land vehicles; Luggage racks for bicycles; Mini-bikes; Mobility scooters; Motor scooters; Motor scooters and structural parts therefor; Motorized bicycles; Motorized dirt bikes for motocross; Motorized dirt bikes for motocross and dune buggies; Motorized mobility scooters; Motorized personal mobility scooters; Motorized snow scooter vehicles; Motors for bicycles; Mountain bicycles; Mudguards; Mudguards for bicycles; Mudguards for two-wheeled bicycles; Non-motorized push scooters; Pannier bags for bicycles; Panniers adapted for bicycles; Pet carriers adapted for bicycles; Protective covers for bicycle chains; Pumps for bicycle tires; Pumps for bicycle tyres; Push scooters; Push scooters and structural parts therefor; Push scooters for children; Racing bicycles; Rack trunk bags for bicycles; Racks for vehicles for electric bicycles, electric tricycles, electric motors and electric scooters; Recumbent road bicycles; Rims for bicycle wheels; Road bicycles; Road bikes; Road racing bicycles; Rowing bikes; Saddle covers for bicycles; Saddle covers for bicycles or motorcycles; Saddlebags adapted for bicycles; Saddlebags for bicycles; Saddles for bicycles; Safety pads for bicycles; Self balancing electric scooters; Self-balancing scooters; Self-balancing one-wheeled electric scooters; Self-balancing two-wheeled electric scooters; Self-propelled electric vehicle; Sensors for land vehicles, namely, electric power steering torque sensors, sold as a component of the power steering system; Shock absorbers for bicycles; Side view mirrors for vehicles, namely, electric bicycles, electric tricycles, electric motors and electric scooters; Spindles of bicycles; Spoke clips for bicycle wheels; Spokes for bicycle wheels; Spokes for bicycles; Stands for scooters; Steering wheel attachment comprised of an electric motor and drive gear and a ring gear that when activated by an external controller, turns the steering wheel to effect automatic vehicle steering in straight or curved paths; Storage racks specially adapted for mobility scooters; Storage racks specially adapted for push scooters; Streamers adapted for bicycle handlebars; Structural parts of bicycles; Suspension systems for electric bicycles, electric tricycles, and electric scooters; Tandem bicycles; Tire inflators; Tires; Tires for bicycles; Tires for children's bicycles; Touring bicycles; Trailers for transporting bicycles; Tubeless tires for bicycles; Tubeless tyres for bicycles; Vehicle side view mirror covers for electric bicycles, electric tricycles, and electric scooters; Velomobile bodies, namely, specially adapted for weather protection shells for use on bicycles and adult tricycles; Warning horns for bicycles; Water bikes; Water scooters; Water bottle cages for bicycles; Water bottle holders for bicycles; Wheel hubs for electric bicycles, electric tricycles, and electric scooters; Wheel hubs of two-wheeled motor vehicles or bicycles; Wheel rims; Wheel rims for bicycles; Wheels for bicycles, cycles; Wheels for scooters

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Electric motors for machines; Electric motors for machines with a digital servo drive controller; Electric motors for power tools; Electric motors for refrigerators; Electric motors for toys; Electric motors for use in cameras, namely, for use in positioning lenses in cameras; Electric motors, and their parts, not for land vehicles; Electric motors, not for land vehicles; Electric ducted fan (EDF) motors, not for land vehicles; Electric ducted fan (EDF) engines, not for land vehicles; Electric fans, ventilators and blowers for motors and engines; Electric starter motors; Electricity generators that may also be used as electric motors for vehicles; High frequency motor spindles with high frequency electric converters and power supply units; High-frequency motor spindles with high frequency electric converters and power supply units; Mechanical seals in the nature of

rotary lip seals for electric vehicle motors; Miniature electric motors for toys; Remote racking motors for engaging and disengaging electrical power circuit breaker

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Bicycle dynamo lights; Bicycle lamps; Bicycle lights; Bicycle reflectors; Bicycle safety lights for lighting purposes; Electric cabinets used to control temperature and humidity for heating and proofing food goods; Electric radiators not for motors and engines; Directional lights for bicycles; Dynamo lights for bicycles; Electrical lighting apparatus for bicycles; Lamps for bicycles; Lights for bicycles; Reflectors for bicycle pedals; Reflectors for bicycles

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Bicycle lubrication services; Bicycle repair; Electrical repairs of electric bicycles, electric tricycles, electric motors and electric scooters; Charging of electric vehicles; Charging station services for electric vehicles; Installation of wiring and power supply equipment for transmission and distribution of electricity suitable for electric vehicle recharging stations; Installation of wiring in accessible geographical locations for distribution of electricity suitable for electric vehicle recharging stations; Maintenance and repair of bicycles; Maintenance and repair of electric vehicles; Providing information relating to the repair of bicycles; Providing information relating to the repair or maintenance of bicycle parking apparatus; Providing information relating to the repair or maintenance of electric motors; Provision of information relating to the repair of bicycles; Provision of information relating to the repair or maintenance of bicycle parking apparatus; Provision of information relating to the repair or maintenance of electric motors; Recharging services for electric vehicles; Rental of battery chargers for electric mobility scooters; Rental of battery chargers for electric motor scooters; Rental of portable battery chargers for electric vehicles; Rental of portable battery chargers for electric bicycles; Repair and maintenance of bicycles; Repair and maintenance of electric vehicles; Repair of bicycles; Repair of bicycles and providing information relating thereto; Repair of bicycles and provision of information relating thereto; Repair or maintenance of bicycle parking apparatus; Repair or maintenance of electric motors

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Bicycle computer mounts; Bicycle computers; Bicycle helmets; Bicycle speedometers; Bike computers; Electric control devices for energy management; Electric control devices for heating and energy management; Electric control devices for heating management; Electric control devices for electric bicycles, electric tricycles, electric motors and electric scooters; Electric control panels; Electric motor control units for swimming pool, spa, water park and fountain pumps; Electric vehicle battery packs; Electric accumulators for vehicles; Electric batteries for vehicles; Electric cords for use with electric bicycles, electric tricycles, electric motors and electric scooters; Electric current control devices; Electric installations for the remote control of industrial operations; Electric locks for vehicles; Electric strikes for remote control of door ingress and egress; Electrical controllers; Electrical controlling devices; Electrical controls for irrigation sprinkler systems; Electrical apparatus, namely, charging stations for charging electric vehicles; Electrical integrated control systems for use in the field of electric bicycles, electric tricycles, and electric scooters; Electrical plug device enabling connection and disconnection of power and control cables; Electrical resistance heating wires and electrical controllers therefor; Electrical switches for activating and deactivating vehicle airbags; Electrical voice intracommunications systems comprising control stations, interface modules, frames, controller cards, connectors, power supplies, panels and mountings for use in the production of live musical

performances, theatre, and other live events; Lithium ion batteries; Lithium iron phosphate batteries; Lithium phosphate batteries; Lithium secondary batteries; Motor vehicle to trailer electrical connectors; Accumulators, electric, for vehicles; Adjustable magnetic mounts for PC tablets for electric bicycles, electric tricycles, and electric scooters; Adjustable magnetic mounts for smartphones for electric bicycles, electric tricycles, and electric scooters; Adjustable stabilizers for PC tablets for electric bicycles, electric tricycles, and electric scooters; Adjustable stabilizers for smartphones for electric bicycles, electric tricycles, and electric scooters; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electric current; Apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; Batteries, electric, for vehicles; Cell phone cases for bicycles; Charging stations for electric vehicles; Control units for regulating start-up electrical motors; Data access port for use with electrical control panels for connecting multiple data and electrical devices; Downloadable software for remote control of household electrical appliances; Electronic control circuits for electric bicycles, electric tricycles, electric motors and electric scooters; Electronic power supplies for driving electric motors; Electrostatic discharge (ESD) apparatus for electric current control in the form of floor mats for electrical grounding purposes; Electrostatic discharge (ESD) apparatus for electric current control in the form of tabletop mats for electrical grounding purposes; Electrostatic discharge (ESD) apparatus for electric current control in the form of wrist straps for electrical grounding purposes; Flashing bicycle safety lights; Helmets for bicycles; Hydrogen fuel cells for electric vehicles; Instruments and apparatus for controlling electric current, namely, electrical controllers for magnetic bearing control; Photovoltaic installation apparatus, namely, solar modules for production of electricity, solar thermal and electric receivers, tracking mechanisms and concentrating optics, and control algorithms; Power access port for use with electrical control panels for connecting multiple data and electrical devices; Pressure transducers and transmitters that convert hydraulic or pneumatic pressure into analog electrical signals for monitoring and controlling hydraulic or pneumatic systems; Resistors for distributing or controlling electric current; Vehicle charging stations for electric bicycles, electric tricycles, and electric scooters; Wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems, namely, electric bicycles, electric tricycles, and electric scooters

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Bicycle rental; Bicycle sharing services; Charitable services, namely, donating bicycles to the needy; Document delivery by non-electronic means, namely, electric bicycles, electric tricycles, and electric scooters; Providing transport for guided tours by electric bicycles, electric tricycles, and electric scooters; Rental of bicycles; Rental of scooters for transportation purposes; Rental of electric bicycles; Rental of GPS-equipped vehicles, namely, scooters, electric cars and bicycles; Rental of vehicles for transportation in the nature of electric bicycles, electric tricycles, and electric scooters; Transportation services, namely, providing shuttle services by electric bicycles, electric tricycles, and electric scooters; Vehicle sharing services, namely, providing temporary use of electric bicycles, electric tricycles, and electric scooters

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Custom bicycle manufacturing

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

GOODS AND SERVICES INFORMATION

For Providing information, consultancy and advice in the field of banking, finance, financial transactions, electronic payments, digital wallets, digital currencies and digital assets; Providing processing of electronic payments

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Arranging, conducting and organisation of commercial, trade and business conferences, seminars and classes, conferences, workshops in the financial sector

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For Business networking services in the financial sector

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Downloadable computer software for use in relation to creating, processing, accessing, tracking financial transactions, electronic payments, digital wallets, digital currencies and digital assets; Downloadable computer software for use as a digital wallet; Downloadable computer software for use in relation to creating, processing, accessing, tracking transactions of digital currencies and digital assets; Downloadable computer software for processing electronic payments; Downloadable open-source software in relation to creating, processing, accessing, tracking financial transactions, electronic payments, digital wallets, digital currencies and digital assets

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Granting of licences for intellectual property rights; granting of software licences; information, consultancy and advice relating to regulatory affairs and legislation frameworks in the financial sector; information, consultancy and advice relating to regulatory affairs and legislation frameworks in relation to digital payments

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Technical advice, consultancy and support in relation to open source software; Technical advice, consultancy and support in relation to software for use in respect of financial transactions, electronic payments, digital wallets, digital currencies and digital assets; Software as a service (SAAS) featuring software for processing financial transactions and electronic payments, for use as digital wallets, and for creating, processing, accessing, and tracking transactions of digital currencies and digital assets; Design, development, programming, implementation, and leasing of computer software relating to financial transactions, electronic payments, digital wallets, digital currencies and digital assets; Providing on-line non-downloadable computer software for use in relation to creating, processing, accessing, tracking financial transactions, electronic payments, digital wallets, digital currencies and digital assets

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Financial information services; financial services, namely, financial information processing, financial data analysis, financial research, and financial advisory services rendered using artificial intelligence (AI); financial services, namely, compiling and analyzing financial records, data and other sources of information for financial purposes rendered using artificial intelligence (AI); providing financial information, research, news, and commentary in the field of finance via a website

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For Downloadable computer software using artificial intelligence (AI) processing for connecting productivity software application tools to support business processes, generate financial insights and actions; downloadable computer software for integrating artificial intelligence (AI) processing capabilities with computer software applications to analyze financial data and improve workflow efficiency and business processes for financial professionals; downloadable computer software using artificial intelligence (AI) processing for providing a virtual assistant featuring generative artificial intelligence (GenAI), generative pre-trained transformers (GPTs), and large language models (LLMs) for locating, analyzing, summarizing, editing, and providing data and financial information; downloadable computer software using artificial intelligence (AI) processing for importing financial data, automating data entry, updating account details, auditing financial data, reconciling financial data, and combining structured and unstructured data sets; downloadable computer software using artificial intelligence (AI) processing for analyzing financial records, managing and administering invoices, preparing financial forecasts, providing financial insights and assessments, data visualization, and identifying business growth opportunities; downloadable computer software using artificial intelligence (AI) processing for managing and automating the financial collections process; downloadable computer software using artificial intelligence (AI) processing for analyzing financial information across

software applications to identify data anomalies, inaccuracies, trends, variances, risks, and automate financial data reconciliation; downloadable computer software using artificial intelligence (AI) processing for creating customizable templates for financial data analysis, financial data structures, and generating financial reports; downloadable computer software using artificial intelligence (AI) processing for summarizing and drafting communications and responses, generating text and financial information, automating workflows and tasks, and creating action item tasks for increasing workflow efficiency and business processes; downloadable computer software using artificial intelligence (AI) processing for integrating conversational user interfaces (CUIs) and artificial intelligence (AI) powered software tools with computer software applications for process automation to increase workflow efficiency for financial professionals; downloadable computer software for providing conversational user interfaces (CUIs) featuring large language models (LLMs) and generative artificial intelligence (GenAI) to assist users in tasks, decision-making processes, communication, and analyzing data across multiple applications and the internet; downloadable computer software using artificial intelligence (AI) processing for use in creating, accessing, analyzing, updating, modifying, translating, organizing, storing, managing, synchronizing, transmitting, and sharing data, documents, content, text, images, and information; downloadable computer software using artificial intelligence (AI) processing for predictive and corrective text entry, contextual prediction and natural language processing, and writing assistance across documents, emails, and the web; downloadable computer software for collaborating and enhancing user productivity and communication capabilities by connecting users with information, data, content, projects, files, and documents from software applications; downloadable computer software for connecting users to email, cloud, web, contact list, and database resources to promote workflow efficiency, provide workflow insights, and increase collaboration

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Computer services, namely, IT consulting services relating to installation, maintenance and repair of computer software; computer services, namely, technical advisory services relating to computer programs, computer software consultation, and creating an on-line community for registered users to participate in discussions, get feedback from their peers, form virtual communities, and engage in social networking services in the field of computer software; software as a service (SAAS) services featuring computer software using artificial intelligence (AI) processing for connecting productivity software application tools to support business processes, generate financial insights and actions; software as a service (SAAS) services featuring computer software for integrating artificial intelligence (AI) processing capabilities with computer software applications to analyze financial data and improve workflow efficiency and business processes for financial professionals; software as a service (SAAS) services featuring computer software using artificial intelligence (AI) processing for providing a virtual assistant featuring generative artificial intelligence (GenAI), generative pre-trained transformers (GPTs), and large language models (LLMs) for locating, analyzing, summarizing, editing, and providing data and financial information; software as a service (SAAS) services featuring computer software using artificial intelligence (AI) processing for importing financial data, automating data entry, updating account details, auditing financial data, reconciling financial data, and combining structured and unstructured data sets; software as a service (SAAS) services featuring computer software using artificial intelligence (AI) processing for analyzing financial records, managing and administering invoices, preparing financial forecasts, providing financial insights and assessments, data visualization, and identifying business growth opportunities; software as a service (SAAS) services featuring computer software using artificial intelligence (AI) processing for managing and automating the financial collections process; software as a service (SAAS) services featuring computer software using

artificial intelligence (AI) processing for analyzing financial information across software applications to identify data anomalies, inaccuracies, trends, variances, risks, and automate financial data reconciliation; software as a service (SAAS) services featuring computer software using artificial intelligence (AI) processing for creating customizable templates for financial data analysis, financial data structures, and generating financial reports; software as a service (SAAS) services featuring computer software using artificial intelligence (AI) processing for summarizing and drafting communications and responses, generating text and financial information, automating workflows and tasks, and creating action item tasks for increasing workflow efficiency and business processes; software as a service (SAAS) services featuring computer software using artificial intelligence (AI) processing for integrating conversational user interfaces (CUIs) and artificial intelligence (AI) powered software tools with computer software applications for process automation to increase workflow efficiency for financial professionals; software as a service (SAAS) services featuring computer software for providing conversational user interfaces (CUIs) featuring large language models (LLMs) and generative artificial intelligence (GenAI) to assist users in tasks, decision-making processes, communication, and analyzing data across multiple applications and the internet; software as a service (SAAS) services featuring computer software using artificial intelligence (AI) processing for use in creating, accessing, analyzing, updating, modifying, translating, organizing, storing, managing, synchronizing, transmitting, and sharing data, documents, content, text, images, and information; software as a service (SAAS) services featuring computer software using artificial intelligence (AI) processing for predictive and corrective text entry, contextual prediction and natural language processing, and writing assistance across documents, emails, and the web; software as a service (SAAS) services featuring computer software for collaborating and enhancing user productivity and communication capabilities by connecting users with information, data, content, projects, files, and documents from software applications; software as a service (SAAS) services featuring computer software for connecting users to email, cloud, web, contact list, and database resources to promote workflow efficiency, provide workflow insights, and increase collaboration; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for connecting productivity software application tools to support business processes, generate financial insights and actions; platform as a service (PAAS) services featuring computer software platforms for integrating artificial intelligence (AI) processing capabilities with computer software applications to analyze financial data and improve workflow efficiency and business processes for financial professionals; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for providing a virtual assistant featuring generative artificial intelligence (GenAI), generative pre-trained transformers (GPTs), and large language models (LLMs) for locating, analyzing, summarizing, editing, and providing data and financial information; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for importing financial data, automating data entry, updating account details, auditing financial data, reconciling financial data, and combining structured and unstructured data sets; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for analyzing financial records, managing and administering invoices, preparing financial forecasts, providing financial insights and assessments, data visualization, and identifying business growth opportunities; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for managing and automating the financial collections process; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for analyzing financial information across software applications to identify data anomalies, inaccuracies, trends, variances, risks, and automate financial data reconciliation; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for creating customizable templates for financial data analysis, financial data structures, and generating financial

reports; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for summarizing and drafting communications and responses, generating text and financial information, automating workflows and tasks, and creating action item tasks for increasing workflow efficiency and business processes; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for integrating conversational user interfaces (CUIs) and artificial intelligence (AI) powered software tools with computer software applications for process automation to increase workflow efficiency for financial professionals; platform as a service (PAAS) services featuring computer software platforms for providing conversational user interfaces (CUIs) featuring large language models (LLMs) and generative artificial intelligence (GenAI) to assist users in tasks, decision-making processes, communication, and analyzing data across multiple applications and the internet; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for use in creating, accessing, analyzing, updating, modifying, translating, organizing, storing, managing, synchronizing, transmitting, and sharing data, documents, content, text, images, and information; platform as a service (PAAS) services featuring computer software platforms using artificial intelligence (AI) processing for predictive and corrective text entry, contextual prediction and natural language processing, and writing assistance across documents, emails, and the web; platform as a service (PAAS) services featuring computer software platforms for collaborating and enhancing user productivity and communication capabilities by connecting users with information, data, content, projects, files, and documents from software applications; platform as a service (PAAS) services featuring computer software platforms for connecting users to email, cloud, web, contact list, and database resources to promote workflow efficiency, provide workflow insights, and increase collaboration
