GOODS AND SERVICES INFORMATION

For Apparatus and equipment for data processing, namely, data and word processors; apparatus and equipment for the transmission of data and information, namely, wireless signal transmitters; apparatus and equipment for the transmission of data and information, namely, microcontrollers for internet of things (IoT) enabled devices; apparatus and equipment for the transmission of data and information, namely, microcontrollers for machine-to-machine transmissions of data; apparatus and instruments for control and regulation technology, namely, electronic control valves for regulating the flow of gases and liquids; computers; electronic modules, namely, rectifier modules and electronic circuits; computer software for use in database management; computer software for control of industrial machinery; computer programs recorded on data media for data management in construction; computer programs for use in data management in automated manufacturing; factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; electric and electronic components, namely, electronic circuits, printed circuits and cards with integrated circuits in the nature of smartcards; apparatus and equipment, namely, computer hardware for protection, security, preservation and signaling, smartcards and electronic card readers for authorization and access to buildings and other secured locations, optical scanning cables, and computer software for use in operating security control panels and motion detectors, and recording access to buildings and other secured locations; computer software for use in operating electronic card readers and computer hardware for use in identity protection; electronic global positioning systems; electronic databases in the field of location access and security information recorded on computer media; electronic components for medical apparatus, devices, implants and instruments, namely for monitoring, diagnosis, analysis, measuring and collection, as well as for dispensing medicines and transmission of pulses, namely, electronic circuits, input/output integrated circuit modules, embedded memory modules, printed circuit boards; electronic circuits, input/output modules for electronic process control, embedded memory and

integrated circuit modules, printed circuit boards for use as electronic components for hearing aids

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Advice relating to electronic and digital communications, namely, providing consultation regarding electronic transmission of information stored in a database via interactively communicating computer systems; advice relating to electronic and digital communications, namely, providing consultation regarding cloud service transmissions that utilize data encryption; digital communications services, namely, transmission of electronic data for the purpose of remote management of devices connected through the internet, secure device management, and device identity management; digital communications services, namely, providing virtual private network (VPN) services; providing electronic telecommunication connections with databases

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Custom manufacture, order-based production and customer-specific manufacture of apparatus and equipment for data and word processing in the nature of data and word processors, apparatus and equipment for the transmission of data and information, apparatus and instruments for regulation and control technology, namely, routers and gateways, apparatus and instruments for control and regulation technology, namely, control valves for regulating the flow of gases and liquids and control units and control panels for industrial applications, computer hardware, electronic rectifier modules and electronic circuits, electric and electronic components, namely, circuits, printed circuits and cards with integrated circuits in the nature of smart cards, apparatus, equipment, and computer hardware for protection, security, preservation and signaling, namely, smartcards and electronic card readers for authorization and access, hardware for electronic global positioning systems, components and electronic parts for medical apparatus, devices, implants and instruments, particularly for monitoring, diagnosis, analysis, measuring and collection, as well as for the dispensing of medications and transmission of pulses, and electronic components for hearing aids; custom manufacture, order-based production and customer-specific manufacture of apparatus and equipment for data and word processing in the nature of recorded magnetic media featuring software, excluding software recording and software development; assembly of electronic components for medical apparatus for others; consultancy in the field of energy production

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific and technological services, namely, research and design services in the field of electronic circuits and electronic modules; industrial analysis and research services in the field of data encryption and cloud services, remote device management and secure device management, and device identity management; design and development of computer hardware and software; consultation in the field of software development; consultation in the field of computer hardware and software development for communication systems; consultation in the field of computer hardware and software development relating to communication between machines (M2M), Internet of Things technologies, and communication with databases; development, installation and maintenance of databases and database software; data conversion of electronic information; data encryption and decoding services; technological consulting services in the field of computer database management systems for information security, data protection, business continuity management, electronic signatures and time stamps and computer hardware security modules, as well as technical consultation relating to the aforementioned services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

GOODS AND SERVICES INFORMATION

For Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, supervision, life saving and teaching apparatus and instruments, namely, A/D converters, audio amplifiers, analog audio front-ends, analog switches, audio/video player ICs, bus bar wiring, namely, switchgear bus bars and panel boards bus bars, data converters, DC/DC converters, potentiometers, display and LED drivers, low dropout regulators, low voltage differential signalers, precision measuring apparatus for measuring electrical quantities, supervisors and comparators for power management circuitry, portable audio devices, namely, MP3-players, AAC-players, WMA-players, OGG-players, MP4-players and remote presence management products, namely, power management devices in the nature of PMUs, lighting, supervisors and comparators, LDOs, LED drivers and back lights, RF products, namely, high and low frequency receivers, transmitters and transceivers, rotary encoders, data acquisition front-ends, low power A/D converters and high performance A/D converters; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electric switches, voltage regulators; electrical apparatuses and instruments for input, processing, transferring, storing and output of data, namely, data processing apparatus, flexray/automotive bus bar wiring, industrial bus bar wiring, electrical and data interfaces, computer peripherals and blank hard drives for computers, silicon wafers; electrical controlling devices for control of electronic and electric devices and machines in the field of media, environmental monitoring, infrastructure management, manufacturing, energy management, medical and healthcare systems, building and home automation, transportation, large scale deployments; semiconductor elements, namely, semiconductor wafers, semiconductor chips, communications processors, namely, central processing units; transistors, diodes, integrated circuits, microprocessors and microcomputers; electronic sensors for measuring electricity, light, heat, temperature, pressure, electric field, velocity acceleration, angular position, linear position, distance, rotational movement, angle of rotation, air flow, infrared spectrum and

environmental parameters, namely, temperature; ambient light sensors, proximity sensors, environmental sensors, pressure sensors; test equipment, for testing electronic circuits and devices; electro technical apparatus and components for communications, namely, wireless communication equipment in the nature of mobile data receivers and data transmitters; electric apparatus for input, processing, transmission, storage and output of data, namely, computer hardware for input, processing, transmission, storage and output of data; apparatus for recording, transmission or reproduction of sound or images; digital recording media, namely, blank DVDs; calculators, data processing apparatus, data processing hardware, computers; computer software and computer programs for use in the electrical industry, machine industry, automobile industry and mechanical technology for analyzing measurement data; computer software for use with integrated circuits and measurement standard tools for conducting of measuring; radio-frequency identification (RFID) chips, radio-frequency identification (RFID) labels, radio-frequency identification (RFID) readers; electronic documents, namely, downloadable electronic data files featuring product information sheets, data sheets and manuals in the field of sensors, integrated circuits, mobile communications, medical technology and automotive industry; remote control and remote monitoring apparatus for radios, televisions, stereos and mobile devices; position fixing apparatus, namely, magnetic rotary encoder; electric and electronic equipment and apparatus for teleoperation and telepresence, namely, computer monitors, cameras, remote controls used in teleoperation and telepresence

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Custom manufacture of scientific, nautical, surveying, photographic, cinematographic, visual, weighing, measuring, signaling, checking, supervision, life-saving and teaching apparatus and instruments; custom manufacture of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; custom manufacture of electronic apparatus and instruments for input, storage, processing, transmission and output of data; custom manufacture of electronic control apparatus and instruments; custom manufacture of semiconductor elements, transistors, diodes, circuits, microprocessors and microcomputers; custom manufacture of electronic sensors, test equipment for electronic circuits and apparatus; custom manufacture of electro technical apparatus and components for messaging and communications technology; custom manufacture of apparatus for recording, transmission or reproduction of sound or images; custom manufacture of digital data carriers; custom manufacture of calculating machines; custom manufacture of data processing equipment; custom manufacture of data processing hardware; custom manufacture of computers; custom manufacture of radio-frequency identification (RFID) chips, radio-frequency identification (RFID) labels, radio-frequency identification (RFID) readers; custom manufacture of remote control and remote monitoring apparatus; custom manufacture of locating devices; custom manufacture of electric and electronic equipment and apparatus for teleoperation and telepresence

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Scientific and technological services, namely, research and design in the field of computer software, audio, sensors, senor interfaces, light management, power management, battery management, time measurement and wireless connectivity; industrial analysis and research services in the field of computer software, audio, sensors, sensor interfaces, light management, power management, battery management, time measurement and wireless connectivity; design and development of scientific, nautical, surveying, photographic, cinematographic, visual, weighing, measuring, signaling, checking, supervision, life-saving and teaching apparatus and instruments; design and development of apparatus and instruments for conducting, switching,

transforming, accumulating, regulating or controlling electricity; design and development of electronic apparatus and instruments for input, storage, processing, transmission and output of data; design and development of electronic control apparatus and instruments; design and development of semiconductor elements, transistors, diodes, circuits, microprocessors and microcomputers; design and development of electronic sensors, test equipment for electronic circuits and apparatus; design and development of electro technical apparatus and components for messaging and communications technology; design and development of electrical apparatus for input, processing, transmission, storage and output of data; design and development of apparatus for recording, transmission or reproduction of sound or images; design and development of digital data carriers; design and development of calculating machines; design and development of data processing equipment; design and development of data processing hardware; design and development of computers; design, development and creation of computer software; design, development and creation of data processing programs; design and development of radio-frequency identification (RFID) chips, radio-frequency identification (RFID) labels, radio-frequency identification (RFID) readers; design, development and creation of electronic documents in the nature of product information sheets, data sheets and manuals; design and development of remote control and remote monitoring apparatus; design and development of locating devices, specifically, vehicles locating devices programmed to use global positioning systems; design and development of electric and electronic equipment and apparatus for use in teleoperation and telepresence conferencing; technical support services, namely, troubleshooting in the nature of diagnosing problems in computer hardware and software used in the design, development and manufacture of scientific, nautical, surveying, photographic, cinematographic, visual, weighing, measuring, signaling, checking, supervision, life-saving and teaching apparatus and instruments; providing temporary use of on-line non-downloadable software for tracking and locating packages and cargo via computer networks, intranets and the internet; providing temporary use of non-downloadable software for teleoperation and telepresence conferencing via computer networks, intranets and the internet

International Classes 2 - Primary Classes **US Classes** 6, 11, 16 **International Class Title** Paints

For Printing machines; offset printers; printing machines for commercial or industrial use, namely, web fed rotary printing machines, sheet fed rotary printing machines, silk screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines, laser engraving machines, industrial laser printing machines, marking machines in the nature of printing machines, lacquering machines,

packing machines, paper coating machines, in particular working rotationally, for web-type and separate materials, digital printing and electromechanical marking machines utilizing electrophotography, magnetography, xerography, ink jet; exposure apparatus, being structural parts for industrial printing machines for contact printing or creating circuit and print templates; printing machines for commercial or industrial use in the nature of labeling, imprinting and marking machines for use in the graphics sector, the packaging sector and data processing; electrical labellers machines in the nature of, electronic label printing machines for commercial use; engraving machines; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials in the nature of printing machines, automatic industrial labeling machines for applying labels to containers and bottles; pallet changing and transfer machines; stacking machines; machines for handling sheets and plates of metal; machines and apparatus for the surface treatment of metals in the nature of engraving machines; hot stamping machines and apparatus in the nature of stamping presses; thermal transfer machines and apparatus in the nature of printing machines; rotary die-cutting machines for punching of printed matter or paper or plastics; punching machines in the nature of sheet metal punches for stamping printed matter or paper or plastics; printing machines in the nature of addressing and marking machines for printed matter; industrial machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; printing plates; flexographic printing plates; structural accessories for the aforesaid industrial printing machines, namely, for offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, laser engraving machines and apparatus, industrial laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, electrical labelling machines in the nature of electronic label printing machines for commercial use, engraving machines, and industrial machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic and inorganic materials, namely, control apparatus, printing mechanisms, inking apparatus, damping units, lacquering units, reel changers, and folding apparatus; industrial machines and mechanical apparatus, in the nature of machine-operated platforms for storing printed matter, printing materials, printing material reels and paper, paper reels, plastics and plastics reels and metal, organic and inorganic materials in printing presses during the printing process, for use with printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser engraving machines and apparatus, industrial laser printing machines and apparatus, engraving machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, electrical labelling machines in the nature of electronic label printing machines for commercial use, engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; conveyors, belts for conveyors, conveying apparatus in the nature of conveyors for conveying printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing

machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser engraving machines and apparatus, industrial laser printing machines and apparatus, engraving machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, electrical labelling machines in the nature of electronic label printing machines for commercial use, engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; industrial machines and mechanical apparatus for the folding of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; industrial machines and mechanical devices for changing and bending and punching printing plates and flexographic printing plates; industrial machines for the storing of printing plates for printing machines during the printing process; conveying machines, conveyor belts, and conveying apparatus for conveying printing plates for printing machines; industrial machines for cleaning printing rollers in inking apparatus, and damping units, cylinders, lacquering units, inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser engraving machines and apparatus, industrial laser printing machines and apparatus, engraving machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, electrical labelling machines in the nature of electronic label printing machines for commercial use, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; industrial machines for cleaning printing rollers in inking apparatus and damping units, cylinders, lacquering units, inkjet printing modules, laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser engraving machines and apparatus, industrial laser printing machines and apparatus, engraving machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, electrical labelling machines in the nature of electronic label printing machines for commercial use, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; industrial machines for adjustment paper, ink, lacquer, during the printing process for use with inking apparatus, damping units, printer engine cylinders, lacquering units in printer engines, lacquering units generally, inkjet printing modules and laser engraving systems; structural parts of industrial printing machines, in the nature of inking apparatus, damping units, inkjet printing modules, laser printing systems and cylinders in tempering machines; industrial machines and mechanical apparatus for adjusting cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for

use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; industrial machines for adjusting registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, electrical labelling machines, electronic label printing machines for commercial use, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; industrial machines for adjusting register for quality control of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, electrical labelling machines in the nature of electronic label printing machines for commercial use, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; industrial machines for adjusting web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, electrical labelling machines in the nature of electronic label printing machines for commercial use, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; filters being structural parts of printing machines; centrifugal, dust, cyclone separators; air suction and conveying machines for ventilation cleaning, dust removal and air separation in machines and spaces equipped therewith; filters for cleaning cooling air, for engines; industrial machine separators for separation of fibers; air compressors and air ejectors for machines; industrial collecting machines for compacting, filling and pressing of particles, dust and fibres separated from machines; air conveying devices, namely, air compressors; power-operated air blowers; blowing machines for the compression, exhaustion and transport of gases; air compressors; structural fittings for the aforesaid industrial printing

machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, industrial inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, electrical labelling machines in the nature of electronic label printing machines for commercial use, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; structural fittings for the aforesaid structural parts of industrial printing machines, in the nature of filters, separators, suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting machines, for compacting, filling and pressing machine-separated particles, dust and fibres; industrial printing machines for producing security labels, securities, banknotes and structural components therefor; industrial machines and mechanical apparatus for applying security labels and structural components therefor; industrial machines and mechanical apparatus for packaging identification features, security features, security labels and securities and banknotes, and structural components therefor; industrial machines for adjusting register for quality control in machines for producing product security means, identification features, security features, security labels, securities, banknotes; industrial machines for adjusting register for quality control in machines for applying product security means, identification features, security features, security labels; industrial machines for adjusting register for quality control in machines for packaging product security means, identification features, security features, security labels, securities, banknotes; industrial machines and mechanical apparatus for quality control of product security means, identification features, security features, security labels, securities, banknotes; structural parts and accessories for the aforesaid goods

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Installation, maintenance and repair of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and structural apparatus and parts

therefor; installation, maintenance and repair of installations, equipment, apparatus, filters, separators, and exhausting and conveying devices for the ventilation cleaning, dust removal and air separation in machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; installation, maintenance and repair of air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, and air conveying devices, namely, fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of drying ovens, drying apparatus, heat accumulators, heat exchangers and structural parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of machines for producing security labels, securities, banknotes and structural components therefor; installation, maintenance and repair of machines for applying security labels and structural components therefor; installation, maintenance and repair of machines for producing product security means, identification features, security features, security labels, securities, banknotes and structural components therefor; installation, maintenance and repair of security label machines and structural components therefor; installation, maintenance and repair of pre-printing data processing equipment, structural parts or fittings for pre-printing data processing equipment, and data processing equipment for data preparation, including continuous data preparation, for variable data printing, including database printing, for further processing of printed matter, production controls, and structural parts and fittings for machine interfaces and structural parts or fittings for devices for transporting and storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls, all being structural parts or fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus

for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, all being structural parts or accessories for installations, equipment, apparatus, filters, separators, suction and conveying devices for air cleaning, dust removal and air separation in of machines and rooms equipped therewith, air filters, blowers and fibre separators, air compressors and air ejectors for machines, collecting devices, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, all being structural parts or accessories for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, all being structural parts or accessories of drying ovens, drying apparatus, heat accumulators, heat exchangers and structural parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls, all being structural parts or accessories for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls, all being structural parts or accessories for machines for applying product security means, identification features, security features, security labels and components therefor; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls, all being structural parts or accessories for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls, all being structural parts or accessories of and for machines for printing product security means, identification features, security features, security labels, securities, banknotes and components therefor; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet

printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and structural components therefor; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, of subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, of subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment of subassemblies and parts thereof for application of product security means, identification features, security features, security labels, securities, banknotes and components therefor; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for ink levers, ink rollers, damping rollers, register adjusting devices, devices for storing and adjusting rollers in inking apparatus and damping units and cylinders, devices for cleaning rollers in inking apparatus, damping units and cylinders, inkjet print heads and laser systems, for cutting equipment and cutting cylinders, registers and, web tension settings, being parts or fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with

one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for ink levers, ink rollers, damping rollers, register adjusting devices, devices for storing and adjusting rollers in inking apparatus or damping units and cylinders, devices for cleaning rollers in inking apparatus or damping units and cylinders, and inkjet print heads and laser systems, for cutting equipment and cutting cylinders, registers and, web tension settings, being parts or fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for devices for the changing, transporting, and storage of printing plates, for inking apparatus and damping units and printer engine cylinders in printer engines, and for devices for tempering, for inking apparatus and damping units and cylinders in printer engines; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for installations, equipment, apparatus, filters, separators, suction and conveying devices for the air cleaning, dust removal and air separation in machines and rooms equipped therewith, air filters, blowers and fibre separators, air compressors and air ejectors for machines, collecting devices, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of remote control, remote operation, remote

monitoring, control and regulating apparatus and equipment for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for applying product security means, identification features, security features, security labels and components therefor; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating apparatus and devices for printing of product security means, authentication features, security features, security labels, securities, banknotes and components therefor; machinery installation, maintenance and repair; rebuilding machines that have been worn or partially destroyed; commissioning of machines within the framework of installation in the nature of project management in machinery installation; commissioning of machines in the context of maintenance in the nature of project management in machinery maintenance; cleaning of machines in the nature of machinery maintenance; cleaning of buildings; vehicle cleaning; installation and maintenance of apparatus for the payment of goods and services and bills, in particular for enabling customers to pay by themselves, in particular by means of payment in the form of banknotes and coins and tokens of value and cashless payment by debit, credit and loyalty cards, in particular contactless and contact cards and nfc (near field communication) devices, including in particular with return of change; installation and maintenance of money-dispensing apparatus; installation and maintenance of money-receiving apparatus; installation and maintenance of money-dispensing and receiving apparatus; installation and maintenance of vending machines; installation and maintenance of accessories for the aforesaid apparatus, in particular cash boxes for receiving payment means, in particular banknotes and coins and tokens of value

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electronic checking, controlling, displaying and measuring apparatus, in the nature of printing press registration control apparatus, and downloadable consultancy software, sales software, and computer software, namely, software for sales management and operating printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines,

machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electronic monitoring and controlling apparatus for filters, separators, extraction and conveying devices for the ventilation, cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and for apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; electronic monitoring and controlling apparatus for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; electronic checking, controlling, apparatus, drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electronic checking, controlling, apparatus, industrial machinery for producing product security means, authentication features, security features, security labels, securities, banknotes and components therefor; electronic monitoring and controlling industrial machinery for applying product security means, authentication features, security features, security labels and components therefor; electronic monitoring and controlling apparatus for industrial machinery for packaging product security means, authentication features, security features, security labels, securities, banknotes and components therefor; electronic monitoring and controlling apparatus for industrial machinery for affixing product security means, authentication features, security features, security labels, securities, banknotes and components therefor; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, in the nature of wireless controllers to remotely monitor and control the function and status of other mechanical devices or systems, namely, printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding, and downloadable software for operating the same; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, in the nature of wireless controllers to remotely monitor and control the function and status of other mechanical devices or systems, namely, lacquering machines, packaging machines, coating machines, pallet changing and pallet transfer machines, stacking machines, machines for handling sheets, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, marking machines, hot stamping apparatus, thermal transfer apparatus, photo printing machines, labelling machines, engraving machines, inkjet printing apparatus, laser marking apparatus and laser printing apparatus; electronic regulating apparatus,

control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, and operating software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, in the nature of wireless controllers to remotely monitor and control the function and status of other mechanical devices or systems, namely, industrial printing and engraving machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor, and downloadable software for operating the same; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, in the nature of wireless controllers to remotely monitor and control the function and status of other mechanical devices or systems, namely, industrial printing and engraving machines for applying product security means, identification features, security features, security labels and components therefor; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, in the nature of wireless controllers to remotely monitor and control the function and status of other mechanical devices or systems, namely, industrial machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor, and downloadable software for operating the same; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, in the nature of wireless controllers to remotely monitor and control the function and status of other mechanical devices or systems, namely, industrial machines for affixing product security means, identification features, security features, security labels, securities, banknotes and components therefor, and downloadable software for operating the same; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, in the nature of pressure measuring apparatus for subassemblies and parts of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, in the nature of pressure measuring apparatus, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; electric and

electronic measuring and testing apparatus and instruments for adjustment and preadjustment, in the nature of pressure measuring apparatus, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, in the nature of pressure measuring apparatus, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, in the nature of pressure measuring apparatus, for subassemblies and parts for industrial printing and engraving machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, in the nature of pressure measuring apparatus, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, in the nature of pressure measuring apparatus, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; operating software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; operating software electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; operating software for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; operating software for electric and electronic measuring and testing apparatus and

instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; operating software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; operating software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; operating software for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; software for the remote control, remote operation, remote monitoring, control and regulating of devices for the changing and transporting and storage of printing plates; software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for cleaning rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet

printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for storing and adjusting rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; software for the remote control, remote operation, remote monitoring, control and regulating of inking apparatus and damping units and printer engine cylinders in printer engines; software for the remote control, remote operation, remote monitoring, control and regulation of devices for tempering of inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printer engines; software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials;

software for remote control, remote operation, remote monitoring, control and regulation of printing machine settings for the purposes of quality control in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; software for remote control, remote operation, remote monitoring, control and regulating of printing machine settings for quality control in installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; software for remote control, remote operation, remote monitoring, control and regulating of air quality settings for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; software for remote control, remote operation, remote monitoring, control and regulating of dryers for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; operating software for data processing devices for pre-press, for the printing of printed matter, for the further processing of printed matter, for production control, production planning; operating software for data processing devices for printing machines, for the printing of printed matter, for the further processing of printed matter, for production control, production planning; software for graphical user interfaces and data transfer for use with printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard,

inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; software for graphical user interfaces and data transfer for use with installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; software for graphical user interfaces and data transfer for use with ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; software for graphical user interfaces and data transfer for use with drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; software for graphical user interfaces and data transfer, for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; software for graphical user interfaces and data transfer for use with machines for applying product security means, identification features, security features, security labels and components therefor; software for graphical user interfaces and data transfer for use with machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printed material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; software for database administration for the purpose of transport, packaging and storage of remote controls, remote operators, remote monitoring apparatus, controllers and regulators for devices for the transport, packaging and storage of printed matter or printing materials

or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electronic data carriers containing security information used in connection with product security means, identification features, security features, security labels, securities, banknotes; magnetic data carriers containing security information used in connection with product security means, identification features, security features, security labels, securities, banknotes; rfid tags, and readers (radio frequency identification); encoded identification chips and cards, in the nature of cards encoded with security features for identification purposes; electric apparatus, namely, data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; data processing equipment for personalising recording media; machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs; encoded electronic chip cards having an integrated circuit, in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals; integrated circuits with characteristic physical properties for protection against forgery; blank digital storage media for data processing installations, in particular non-volatile memories; digital recording media containing memories, in particular non-volatile memories in the nature of blank digital storage media; software for the encryption and decryption and the signing of data; operating system software and application operating software for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media; computer programs for the development, management and maintenance of all the aforesaid types of software; digital recording media featuring the aforesaid software

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

BASIS INFORMATION

Currently 66A Yes

OWNER INFORMATION

Owner Name Koenig & Bauer MetalPrint GmbH **Address** Koenig & Bauer MetalPrint GmbH Wernerstr. 119-129 70435 Stuttgart GERMANY **Legal Entity** GESELLSCHAFT MIT BESCHRÄNKTER HAFTUNG (GMBH) **State or Country Where Organized** GERMANY

ATTORNEY/CORRESPONDENCE INFORMATION

Docket Number KB-11557-TM

INTERNATIONAL REGISTRATION INFORMATION (SECTION 66A)

Owner of International Registration Number 1391881 **International Registration Date** Jul. 31, 2017 **Date of Section 67 Priority Claim** Feb. 16, 2017 **Expiration Date** Jul. 31, 2027

EXAMINING ATTORNEY

Examining Attorney PAINTER,VALERIYA SHERMAN

REASON FOR PUBLICATION

Trademark Registration Cancelled - Section 71

Mark Literal(s) PURE GUT HEALTH

CASE IDENTIFIERS

Serial Number 79228258 **Application Filing Date** Dec. 30, 2017 **Registration Number** 5624849 **Registration Date** Dec. 11, 2018 **Register** Principal **Mark Type** Service Mark **Date Cancelled** Jun. 27, 2025 **Publication Date** Sep. 25, 2018

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of a stylized drawing on a white background of two intestines, one in green and the other in blue, with red hearts above, below, and between the green and blue components. To the right of the drawing is the word "PURE" in green, above the words "GUT HEALTH" in blue. **Color Drawing** Yes **Color Claimed** The color(s) red, blue, green and white is/are claimed as a feature of the mark. **Disclaimer** "GUT HEALTH"

RELATED PROPERTIES INFORMATION

International Registration 1392559 **International Registration Date** Dec. 30, 2017

GOODS AND SERVICES INFORMATION

For Health care; health care consulting in the field of naturopathic therapy; internet-based health care services; providing health care information by global computer networks

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

MARK INFORMATION

Standard Character Claim Yes. The mark consists of standard characters without claim to any particular font style, size, or color. **Mark Drawing Type** 4 - STANDARD CHARACTER MARK

RELATED PROPERTIES INFORMATION

International Registration 1392927 **International Registration Date** Dec. 06, 2017

GOODS AND SERVICES INFORMATION

For Advertising, marketing and promotion services; marketing forecasting; marketing analysis services; marketing research; database marketing; trade marketing other than selling, namely, advertising automobiles, automobile parts and automobile warranties for third parties; business management; business administration services; price comparison of the goods or services of others; provision of information relating to marketing; marketing the goods and services of others; marketing services for the automotive industry

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Computer software for controlling and managing automotive sales, leasing, financing, maintenance, repairs, and warranties; computer software for tracking and scheduling the manufacture and delivery of automobiles; computer software for automotive parts and automotive sales inventory management; computer mobile application software for controlling and managing automotive sales, leasing, financing, maintenance, repairs, and warranties; computer hardware; computers; computer peripherals; computer software for use in developing internal and external web sites; computer software for content management systems; pre-recorded magnetic data carriers featuring information on automotive sales, leasing, maintenance, repairs, and warranties; computer memory devices; downloadable electronic publications in the nature of brochures featuring information on automobiles

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Telecommunication services, namely, providing on-line facilities for real-time interaction with other computer users and electronic bulletin boards concerning automotive parts, sales, leasing, maintenance, repairs, and warranties; providing online chat rooms and electronic bulletin boards for transmission of messages among computer users concerning automotive parts, sales, leasing, financing, maintenance, repairs, and warranties; providing access to weblogs; providing access to databases; providing access to computer databases; providing access to the internet; providing access to global and local computer networks; providing access to telecommunication networks; providing access to computer databases; providing telecommunications access to server centres; arranging access to a computer database; provision of access to the websites of others via the internet; providing access to electronic communications networks; providing access to an electronic exchange of automotive sales records across a computer network; providing multiple-user access to data on the internet in the field of automotive parts, sales, leasing, financing, maintenance, repairs, and warranties; communication services, namely, transmission of messages, visual images and data by wireless communication networks accessible by password

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Software as a service (SaaS) services featuring software for controlling and managing automotive sales, leasing, financing, maintenance, repairs, and warranties; software as a service (SaaS) services featuring software for tracking and scheduling the manufacture and delivery of automobiles; software as a service (SaaS) services featuring software for automotive parts and automotive sales inventory management; rental of computer software; updating of computer software; maintenance of computer software; installation of computer software; computer software consultancy; design and development of computer hardware and software; software engineering; software customisation services; computer software programming services for others; computer software development advisory services; website hosting services; cloud computing featuring software for use in the controlling and managing of automotive sales, leasing, financing, maintenance, repairs, and warranties; cloud computing services, namely, cloud hosting provider services

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

International Registration 0718373 **International Registration Date** Apr. 16, 1999

GOODS AND SERVICES INFORMATION

For [Chronometric apparatus and instruments; timepieces; alarm clocks; stopwatches; timers, namely, apparatus for timing sports events; watchstraps; watch glasses; watch springs; watch chains; jewellery; collar tips of precious metal; bracelets; earrings; rings;] key chains; pins being jewelry; [brooches; insignias of precious metal; cufflinks; jewellery cases; cigarette boxes and cases, small flasks, small engraved flasks, powder compacts, crockery, statues, vases, ornaments, rings for keys, key rings, all of the aforementioned goods made of precious metals and their alloys and plated therewith; precious stones; pendants,] trophies [, medals, medallions; pins for the team and players made of precious metal; tie clips, tiepins; ashtrays made of precious metals; costume jewellery, including pins in common metals or their alloys and in plastics as well as plastic insignia]

International Classes 14 - Primary Classes **US Classes** 2, 27, 28, 50 **International Class Title** Jewelry

For [Glass, porcelain, earthenware and ceramic goods included in this class, namely, busts, statues and works of art made of glass, porcelain, earthenware and ceramic; pottery, namely, earthenware pots, plates and dishes; vases; drinking vessels drinking glasses; drinking tumblers; cups; dishes; plates; saucers; coffee pots; teapots; trays for domestic purposes; coasters, not of paper or textile; bottle openers; water bottles sold empty; combs; hairbrushes; toothbrushes; bath sponges; small cups not made of metal or precious metal; paper cups; plastic cups; plastic mess-tins; glass statuettes]

International Classes 21 - Primary Classes **US Classes** 2, 13, 23, 29, 30, 33, 40, 50 **International Class Title** Housewares and Glass

For [Luggage; leathers and imitation leathers; purses; bags, namely, sports bags other than those adapted for products they are designed to contain, leisure bags, travel bags, backpacks, school bags, bags for hanging on belts, handbags, leather bags, beach bags and garment bags for travel; saddlebags; backpacks and travel bags; wallets; briefcases, document wallets; umbrellas; sports and leisure bags, namely, holdalls; parasols]

International Classes 18 - Primary Classes **US Classes** 1, 2, 3, 22, 41 **International Class Title** Leather Goods

For [Games and toys, namely, action skill games, bendable toys, balloons, gaming machines, slot machines and bingo machines, with or without video output, sports balls, play balloons, board games, tables for indoor football, dolls, plush toys, toy vehicles, jigsaw puzzles and inflatable toys; gymnastics' and sport's items, namely, gymnastic apparatus, balance beams, horizontal bars, parallel bars, gymnastic training stools, vaulting horses, pommel horses, springboards, balls for soccer, gloves, knee guards, elbow guards, shoulder guards, shin guards, soccer goals; small handheld electronic games other than for use with a television set]

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For [Printed matter, namely, coloring and drawing books, children's activity books, magazines in the fields of sports, sports events, sports teams, sportsmen, sportswomen, athletes and sports personalities, newspapers and printed journals in the fields of sportsmen, sportswomen, sports events, sports teams, athletes and sports personalities; paper; cardboard; stationery; books and printed reviews in the fields of sportsmen, sportswomen, sports events, sports teams, athletes and sports personalities; printed bulletins in the fields of sportsmen, sportswomen, sports events, sports teams, athletes and sports personalities; calendars; writing material, namely, writing instruments; gift wrapping paper; greeting cards; invitation cards; illustrated cards; postcards; heat transfers; stickers; photographs; photograph albums; stamp albums; posters; ink pens; ballpoint pens; felt-tip pens; pencil nibs; coloured pencils; markers; cases and holders for writing instruments; paperweights; adhesives for stationery or household purposes; printed instructional and teaching materials excluding apparatus in the fields of sportsmen, sportswomen, sports events, sports teams, athletes and sports personalities; playing cards; printing blocks; plastic sachets sold empty for packaging and small paper bags; conical paper bags; typewriters; office supplies excluding furniture, namely, letter trays, ink stamps, containers for office articles in the nature of corrugated board and paper containers for office articles, correction fluids for documents, rubber erasers, paper clips, thumbtacks, rulers, namely, drafting rulers, drawing rulers and ungraduated rulers, adhesive tapes for stationery purposes, adhesive tape dispensers, staples, stencils, stationery document holders and holders for notepads; electrical and non-electrical office equipment, namely, pencil sharpeners, paper staplers, staple removers, office perforators, paper embossers, paper trimmers and office labeling machines; printed prospectuses in the fields of sportsmen, sportswomen, sports events, sports teams, athletes and sports personalities; printers' type printed brochures in the fields of sportsmen, sportswomen, sports events, sports teams, athletes and sports personalities; entry tickets; paper flags; structural replacement parts for all the above goods included in this class]

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For [Statues, ornaments, rings for keys,] key chains, [figurines, statuettes,] trophies, all the above goods made of plastic [; cushions; cushions as car accessories; cushions for use outside; sleeping bags for camping; mirrors]

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Organising and conducting sports' events and competitions, namely, soccer competitions and tournaments; [entertainment, namely, providing temporary use of non-downloadable interactive games; entertainment in the nature of providing online quiz games; entertainment in the nature of providing fantasy sports leagues;] entertainment in the nature of soccer games, matches and tournaments; entertainment in the nature of laser shows, light shows, live visual and audio performances, and musical, variety, news and comedy shows, live performances by a musical band, preparation of special effects, and fireworks displays; entertainment services in the form of public gatherings during the retransmission of sports events, namely, arranging, organizing, conducting, and hosting parties and social entertainment events in conjunction with sporting events [; training services in the fields of soccer, soccer coaching and soccer officiating; production of films on videotapes, videocassettes and videograms; rental of audio and video equipment]

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For [Video game software; computer game software; recorded magnetic tapes and recorded magnetic discs featuring sports; magnetic wires and filaments; CD players; blank compact discs and recorded compact discs featuring sports; interactive compact discs featuring sports; sunglasses; spectacles; cases and chains for sunglasses and glasses; apparatus for recording, transmitting and reproducing sounds and images; computers, data processing apparatus; teaching and instruction apparatus, namely, teaching robots and electronic sports training simulators; modems; acoustic couplers; floppy disc drives; computer printers for printing documents; plotters; bar code readers; visual display consoles, namely, video displays; data entry keyboards; computer memory apparatus, namely, computer memories, computer memory modules and computer memory devices; computer interface apparatus, namely, computer interface boards; computer data entry and transfer apparatus in the nature of computers; mousepads; optical discs featuring computer game programs; entertainment and games devices designed to be used with only a television set; adding machines; loudspeakers, video cameras, cameras, video players for cameras, videotapes; sound recording apparatus; facsimile transmitting apparatus, namely, facsimile apparatus and facsimile machines; telecommunication apparatus and instruments, namely, telephones and telephone apparatus; photocopying apparatus and equipment, namely, photocopy machines, photocopiers, photocopying apparatus and photocopying machines; photographic equipment, namely, cameras, photographic projectors, projection screens; exposed slide films; flash bulbs; batteries; magnets; video films, namely, exposed camera film; mobile phones; pagers; integrated circuits; blank smart cards; encoded smart cards containing programming used for electronic entry tickets; laptop computers; structural replacement parts for all the above goods]

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For [Sportswear and leisurewear, namely, t-shirts, pullovers, sweatshirts, shorts, tracksuits, bodysuits, tops as clothing, trousers, skirts, dresses, shirts, blouses, polo shirts, jackets, coats, suits, blazers, underwear; footwear; shoes; socks; hosiery; headwear; hats; caps as headwear; absorbent headbands; headbands; swimming costumes; ties being clothing; braces being suspenders; band bracelets; scarves; shawls; gloves; mittens; pyjamas; romper suits and play suits for small children]

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For [Catering services; bar services; hairdressing and beauty salons; health care; hotel reservations; restaurant, fast-food restaurant and self-service restaurant services; translation services; photography and videotaping as well as printing services; computer consultancy, namely, computer security consultancy, computer programming consultancy and computer technology consultancy; data processing, namely, computer programming services; services of a graphic designer]

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Split metal rings and chains for keys [metal emblems for vehicles; figurines, statuettes and ornaments made of common metals or their alloys]

International Classes 6 - Primary Classes **US Classes** 2, 12, 13, 14, 23, 25, 50 **International Class Title** Metal Goods

RELATED PROPERTIES INFORMATION

International Registration 1429306 **International Registration Date** Jan. 09, 2018

GOODS AND SERVICES INFORMATION

For Non-metal building materials, namely, reinforcing cages, reinforcing netting, reinforcing mats, tie bars, compressional bars and tension or pressure braces and supports for connecting two concrete elements, punching reinforcements, pipe muffs, and screws and all being composite materials for use in building construction; wall cladding components not of metal for building; displacement elements, not of metal, in the nature of molds for producing cavities in concrete parts, in particular displacement elements of plastic, wood and cardboard; gravel; ready mixed concrete; building materials and building elements of cement-bound material and concrete, namely, fibre concrete panels, posts, profiles, and pipes for reinforcing materials and formwork; formwork and formwork elements in the nature of scaffolding for concrete construction, namely, formwork, formwork elements and formwork tubes of cardboard and fiber reinforced plastic; non-metal formwork material and formwork auxiliary material for concrete construction, namely, spacers, distance pieces for reinforcements, connecting pieces, namely, adapter sleeves for structural steels and connecting sleeves for crimp pins or keyed joints of structural steels, air space anchors, wall cramps for facades or for insulating material; non-metal building materials, namely, cavity wall ties; non-metal wall ties for facades and insulating materials; building articles of concrete, namely, panels, posts, profiles, pipes, shaped parts of fibre concrete for building purposes; shutters not of metal for concrete; shutters not of metal; building materials of plastic for steel-reinforced concrete and masonry construction, namely, elastomer bearings for seismic isolation of buildings, expansion joints for floors and walls for forming indentations in joint areas; non-metal matrices in the nature of non-metal material sheets for creating surface patterns in concrete; mortar for building; non-metal reinforcements for concrete and wood building, namely,

plates, rods and bars; non-metal connection elements for cantilever plates, namely, non-metal brackets; non-metal stair connecting elements, namely, staircase crossing elements in the nature of stair landing bearing; non-metal stair connecting elements, namely, staircase crossing elements in the nature of insulating pads sold as a unit with connecting support panels for use between landing and staircase walls; non-metal stair connecting elements, namely stair flight connecting pads; non-metal stair connecting elements, namely stair flight decoupling supports; non-metal permanent formwork tables; non-metal expansion joints for floors and walls; non-metal reinforcing cages for building; non-metal reinforcing nets in the nature of reinforcing mats for buildings, concrete and pipes; reinforcing mats and other pre-fabricated reinforcing elements for building purposes, not of metal, namely, non-metal grids and non-metal grates; non-metal punching shear reinforcement for building; framework for building, not of metal, namely, slab bearing pads, wall bearing pads, staircase bearing pads and wall securing elements, staircase bedding; fire protection materials, not of metal, for use in building, namely, fire-resistant panels for joints or structure connections; spackling compound, in particular mastics for soundproof building elements; sound-absorbent non-metal acoustic wallboard with fibre concrete coating; non-metal fire-resistant boards for construction

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For [Chemicals used in industry, in particular for building; concrete parting compounds, namely, chemical compounds for preventing adherence of concrete to shutterings; construction industry adhesion promoters; adhesives used in industry; bentonite for building purposes; unprocessed artificial and synthetic resins]

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For [Civil building construction services; installation of surface seals in fresh concrete bonding systems; rental of construction machines and construction equipment, in particular rental of bending machines for treatment of metals and threading machines]

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Adhesive sealant materials; weather-stripping for use in building; adhesive sealing mats and webs for use in building; sealing elements and sealing bands for building that swell on contact with moisture and water, namely, expandable tapes based on bentonite; sealing materials based on minerals; materials for heat insulation and sound insulation for the walls, ceilings and floors of buildings; non-metal injection hoses and aeration and ventilation hoses for concrete construction; high pressure, non-metal hoses for injection presses and pumps; couplings and compensating rings for connection of pipes, not of metal; pipe jackets, not of metal; drain sealing plugs for pipes, not of metal; coupling sleeves for pipes, not of metal; packing material for forming seals and insulating materials for building construction; soundproofing or heat-insulating building materials; resins in extruded form for general industrial use, in particular injection resins for sealing technology; sealing plugs made primarily from rubber; non-metal surface seals; sealing paste for surface seals in the nature of sealants based on polyurethane resins, sealants based on cement suspension, sealants based on cement paste, sealants based on acrylic resins, sealants based on epoxy resins; joint and expandable tapes for sealing building joints and working joints; expandable polymer tape with expandable rubber for sealing building joints and working joints; expandable polymer tape with expandable resin for sealing building joints and working joints; expandable polymer tape with bitumen for sealing building joints and working joints; expandable polymer tape with bentonite for sealing building joints and working joints

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Reinforcing materials, of metal, for concrete; grids of metal in the nature of reinforcing mats for buildings, concrete and pipes; displacement elements, predominantly of metal, for producing cavities in concrete parts and in the nature of concrete forms; coated reinforced steel mesh and moldings made thereof for building, namely, steel mats covered by a thermoplastic foil for building purposes; formwork parts of metal grilles coated with expanded metal, namely, shutterings of expanded metal reinforced by steel bars; formwork components of metal and displacement elements of metal, namely, shutterings for producing recesses and openings in concrete structures; shuttering parts, predominantly of metal, for building purposes, namely, shutterings of expanded metal reinforced by steel bars comprising joint-sheets of metal; shuttering parts, predominantly of metal, for building purposes, namely, shutterings of expanded metal and reinforced by steel bars with joint-inserts made from rigid foam, mineral wool or mineral fiber and sold as a unit with the bars; shuttering parts, predominantly of metal, for building purposes, namely, shutterings of expanded metal reinforced by steel bars for use with rubber water bar cages; building materials, namely, permeable metal plates as semi-finished shuttering components, connected to metal grids; building materials of metal for reinforced concrete and masonry construction, namely, spacers, distance pieces for reinforcements, connecting pieces, namely, adapter sleeves for structural steels and connecting sleeves for crimp pins or keyed joints of structural steels, air space anchors, wall cramps for facades or for insulating material; formwork elements, namely, formwork metal pipes for concrete construction; metal spacer brackets; metal spacer brackets for reinforcing sections; connectors, namely, metal junction sleeves for structural steels and metal connector sleeves for crimp or wedge connections for structural steels; metal air space anchors, metal wall anchors for facades and insulating materials; metal reinforcing connections, namely, anchor bolts for re-bending connections and for prefabricated construction kits of reinforced steel for angular wall connections; prefabricated metal reinforcements for concrete construction for corners for concrete walls and concrete ceilings; metal wall connector rails; anchors; metal screw connections; metal facade panel anchors; metal weight-supporting corbets for building of parapets; reinforcing materials of metal for concrete construction; formwork in the nature of metal scaffolding; formwork material of metal for concrete construction, namely, reinforcing cages, reinforcing netting, reinforcing mats, tie bars, compressional bars and other tension or pressure braces and supports of metal for connecting two concrete elements and punching reinforcements; pipe muffs of metal; screws of metal; screw nuts of metal; load-bearing and partitioning elements for reinforced steels or reinforced steel elements, namely, braces and supports for reinforcing steels or reinforcing steel elements; metal reinforcing bars for concrete building construction; metal reinforcing materials for building; metal shear dowels and metal shear expanding sleeves; construction elements made of metal, namely, braces; pegs of metal with screws; metal cladding for construction and building; connection elements for cantilever plates, namely, metal brackets; metal stair connecting elements, namely, staircase crossing elements; metal expansion joint for floors, walls, piping and ducting; metal reinforcing cages for building; reinforcing wire nets; metal reinforcing mats and other pre-fabricated reinforcing elements for use as load support surfaces in construction industry; metal tension bars; metal compression bars; non- electric and metal shear rods and other tension, compression or shear elements for connecting two concrete parts; punching shear metal reinforcement material for building; metal couplings and compensating rings for connecting pipes of metal; metal drain plugs for pipes of metal; metal expanding sleeves for affixing screws; pipe muffs of metal; coupling sleeves for pipes of metal; coated expansion seam joints of metal for floors, walls, piping and ducting; pipe ducts of metal
