GOODS AND SERVICES INFORMATION

For Shock absorbers for automobiles; land vehicle suspension parts, namely, coil springs; rims for vehicle wheels; steering wheels for vehicles; parts of motor vehicle axles; parts of the vehicle steering mechanism, particularly drag- links, tie rods and joints; parts of vehicle drives, particularly coupling elements, wheel bearings and constant velocity joints; vehicle springs, particularly concussion springs and shock absorbers; gas springs for automobiles, particularly for engine hoods and tailgates; vehicle body components, particularly exterior mirrors; automotive spare parts, particularly for air brakes; brake parts, particularly brake pads and brake discs; parts of vehicle drives, particularly propeller shaft joints; automobile engines; anti-skid chains for vehicle tires; viscous couplings for land vehicles; electric motors for two-wheeled vehicles; all the aforesaid goods as far as included in this class as replacement parts or repair sets; parts for motor vehicles, particularly parts for vehicle axles, parts for vehicle brakes, particularly pads and disks, parts of vehicle steering mechanisms, particularly drag-links, tie rods and joints; parts of vehicle drives, particularly coupling elements, wheel bearings and constant velocity joints; electronic switching and control devices for vehicles, namely, small servo engines; replacement parts for land vehicles as far as included in this class, namely, for passenger cars, trucks and busses and their trailers, particularly motors, parts for land vehicles, namely, for passenger cars, trucks and busses and their trailers, namely, clutches, gear boxes, tie rods, wheels, transverse links, stabilizer

bars, brakes; vehicles, namely, land vehicles; electric powered motor vehicles; electric motors for land vehicles; axles for vehicles; electric motor vehicle bodies; brake pads and brake linings for vehicles; land vehicle parts, namely, brake calipers, brake installations, bumpers, clutches, differential gears, driving toothed wheels, gear change selectors; gearboxes, gear shafts, hydraulic cylinders and motors, supporting bearings, all for land vehicles; vehicle chassis; manual and power steering apparatus, personal safety restraints, seats, sliding roofs, steering columns, all for land vehicles; hubs for vehicle wheels; vehicle wheels; car-top luggage carriers, safety belts for vehicle seats, mudguards, deflectors, direction indicators, hatches, horns, rearview mirrors, luggage carriers for vehicles, ski carriers for vehicles, anti-skid chains, headrests, safety seats for children, all for land vehicles, stabilizers, steering linkage, suspensions, drawbars, motor car windows, window winding mechanisms for vehicle windows, windshield wipers, all for land vehicles; arm rests for vehicles; balance weights for vehicle wheels; mechanical control units for breaks, clutches, gas pedals and for gear boxes, engine mounts, all for vehicles; protective covers, radiator grills, fluid reservoirs, stowage boxes and stowage compartments, spare wheel carriers, all being parts of vehicles; covering panels for land vehicles; direction signals for automobiles; rubber moulded parts for automobiles, particularly silent blocks, profile frames, weather strippings, holding rings for exhaust systems, axle boots and gasket sets; belt pulleys for land vehicles

International Classes 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44 **International Class Title** Vehicles

For Locking cylinders for vehicle engines; fuel injection pumps for automobiles; water pumps for automobiles; parts for the cooling of automobiles, namely, radiators; parts for engines of automobiles as far as included in this class, particularly filters, valves, pistons, piston segments, cylinder liners, slide bearings, chains, toothed wheels, diesel injection pumps; machine parts for the engine lubrication as far as included in this class, particularly oil pumps, oil supply pipes, oil sumps, oil drain plugs; engine bearings; V-belts; transmission bearings; wash water pumps for land vehicles; parts for the mechanical engine management as far as included in this class, particularly crank cases, crank shafts, belts for motors and engines; water pumps being engine parts for vehicles; parts for passenger automobiles, trucks, busses and their trailers, namely, engine electrics, namely, electronic fuel injection modules, engine housings, namely, bearing housings, crank mechanisms, namely, crank shafts for land vehicle engines, hydraulic and pneumatic motor controls, parts for engine cooling and lubrication as well as for the fuel supply, namely, radiators; engine bearings; hydraulic pumps and engines; anti-friction bearings for machines; ball bearings; bearings for transmission shafts; bearings; belts for motors and engines; compressors for machines; control cables and connection rods for machines, motors and engines; pneumatic controls for machines, motors and engines; dynamo belts; dynamo brushes; dynamos; fans for motors and engines; fan belts for motors and engines; filters for cleaning cooling air, for engines; generators of electricity; lubricating pumps; lubricators being parts of machines; speed governors for machines, engines and motors; all the aforesaid goods as components for automatic drive train and/or electric vehicles as far as included in this class; pistons and cylinders for combustion engines; ignition devices for internal combustion engines, namely, points, wires; glow systems and glow plugs for combustion engines; electric starters for motors and engines; power tools, namely, grinders, buffers; glow plugs for combustion engines, particularly for the usage in automobiles, other cars, marine engines and agricultural machines; electric door openers; electric door closers; parts for the cooling of automobiles, particularly radiators, fan blades and visco-clutches; replacement parts for land vehicles, namely, for passenger automobiles and trucks, buses and their trailers, namely, motor housings, motor controls; engine cooling radiators; starters for motors and engines; mechanical control elements for motors; starters for vehicle engines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For Lighting installations for automobiles; lights for automobiles and their parts as far as included in this class, particularly sockets for electric bulbs, lamp glasses and vehicle headlights; taillights for vehicles; heating installations, air-conditioning installations and ventilation installations for vehicles and their parts as far as included in this class, particularly filters, ventilating fans, valves, heat pumps, heat re-generators, heat accumulators, heat exchangers, expansion tanks; ventilating fans and parts thereof for commercial and industrial use; pressure water tanks; defrosters for vehicles; heating apparatus for defrosting windows of vehicles; air filtering installations; air drying apparatus for industrial use; air conditioning and heating installations; automotive supplement heating apparatus and air conditioning systems and parts therefor; heating apparatus, heating burners and parts therefor; parts for automotive air conditioning installations, namely, dryers and supply lines; replacement parts for land vehicles, namely, for passenger cars and trucks, buses and their trailers, namely, heating and air-conditioning installations

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 31, 34 **International Class Title** Environmental Control Apparatus

For Antifreeze; coolants for vehicle engines; brake fluid

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Electronic switching and control devices for vehicles, particularly relays, commutators, fuses, small servo motors, signals and wash water pump; parts for passenger vehicles, trucks and buses and their trailers, namely, electric cables, electronic control devices for anti-wheel-lock braking systems, sensors and checking instruments for anti-wheel-lock braking systems, rain, light and driving controls; control devices and control units with electric components for vehicles, particularly for the usage with hydraulic pumps; apparatus and instruments for switching, converting, storing and regulation of electricity; data processing apparatus; computers; computer software for navigation, functional safety; vehicle batteries; battery chargers; chargers for electric batteries; holders for electric coils; electric display apparatus, namely, panels for vehicles; plates for batteries; automatic indicators of low pressure in vehicle tires; simulators for the steering and control of vehicles; speed indicators; navigation apparatus for vehicles; land vehicle on-board computer apparatus for navigation; electrochemical cells and batteries; automobile stereo systems and accessories as far as included in this class; low and high voltage lines; electrical connectors; condensers; temperature sensors for heating apparatus; radio interference filters

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Automotive lubricants; industrial grease; technical industrial oil

International Classes 4 - Primary Classes **US Classes** 1, 6, 15 **International Class Title** Lubricants and Fuels

For Rubber, rubber substitutes, and products made thereof, namely, gaskets and tubes for industrial purposes, packing and sealing materials; heat protection and insulating materials for automobiles; flexible tubes, not of metal; valves of rubber or vulcanized fiber not including machine parts; non-metal gaskets for automotive water pumps, oil sump; junctions, not of metal, for flexible pipes; packing containers of rubber for shipping containers; non-metal gaskets for hydraulic cylinders for use in mining and construction machines and land vehicles; non-metal gaskets for hydraulic motors for use in mining and construction machines and land vehicles; non-metal gaskets for hydraulic shock absorbers for land vehicles; oil seals of rubber;

oil seals of rubber for hydraulic cylinders for use in mining and construction machines and land vehicles; non-metal gaskets for hydraulic pumps for use in mining and construction machines and land vehicles

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Metal hardware and small items of metal hardware, namely, screws, nuts, snap rings fasteners, cotter pins, grease nipples; ducts of metal for ventilating and air conditioning installations; collars of metal for fastening pipes; metal lockers for vehicles; keys of metal for locks; clamping fixture made of metal; tanks of metal for storage; chimney cowls of metal; hose couplings of metal for coolant and air hoses; metal hose clamps

GOODS AND SERVICES INFORMATION

For Printing machines; [web fed rotary printing machines;] sheet fed rotary printing machines; [screen printing machines; pad printing machines;] flexographic printing machines; [intaglio printing machines;] printing machines for use on sheet metal; printing machines for use on cans; printing machines for use on hollow bodies; [printing machines for corrugated cardboard; inkjet printing machines and inking apparatus for printing machines; laser marking machines for printing machines; laser printing machines;] industrial machinery, namely, electromechanical marking machines; [lacquering machines; packing machines; coating machines, in particular working rotationally, for web-type and separate paper materials; digital printing and marking machines based on electrophotography, magnetography, xerography, ink jet; exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates;] industrial imprinting and marking machines, in particular for the graphics sector and the packaging sector; labelers, namely, electronic label printing machines for commercial and industrial use; [engraving machines;] [machines and mechanical apparatus for the further processing of printed matter,] [printing materials, paper, plastics,] [metal,] [organic,] [and inorganic materials, namely, metalworking machines] [, paper shredding machines, plastic processing machines] ; [pallet changing and transfer machines; stacking machines;] machines for handling sheets and plates of metal; [foodstuff distribution machines, namely, conveyor belts, roller conveyors;] machines for the surface treatment of metals; [hot stamping machines; thermal transfer machines for commercial and industrial use; die cutting machines, namely, rotary die-cutters for punching of printed matter, paper or plastics; sheet metal punches being punching machines for stamping printed matter, paper or plastics; addressing and marking machines for printed matter for industrial use; machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, perforating, gluing, stapling, tying, bundling, bookbinding, namely, belt conveyors, cutting machines, punching machines, packaging machines, industrial sorting machines for chemical processing,

document binding machines for industrial use, perforating machines for metalworking, electric glue guns, power staplers, silk yarn bundling machines, industrial paper folder machines, bookbinding machines for industrial use; printing plates; flexographic printing plates; machines and mechanical apparatus, namely, industrial power-operated lifts for storing printed matter, printing materials, printing material reels, paper, paper reels, plastics, plastics reels, metal, organic and inorganic materials used with printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers in the nature of industrial inkjet printing machines, in particular with one or more inkjets, single-color or multi-color inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials; machines, namely, conveyors being machines, belts for conveyors, conveying apparatus, namely, chain conveyors and belt conveyors for conveying printed matter, printing materials, printing material reels, paper, paper reels, plastics, plastics reels, metal, organic, and inorganic materials for printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers in the nature of industrial inkjet printing machines, in particular with one or more inkjets, single-color or multi-color inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials; machines for industrial use for the folding of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials; industrial machines for bending and punching printing plates and flexographic printing plates; machines and mechanical apparatus, namely, industrial palletizers and industrial power-operated lifts for the storing of printing plates for printing machines; conveying machines; conveyor belts, conveying apparatus being machines for conveying printing plates for printing machines;] machines for cleaning rollers in inking apparatus and damping units and cylinders [and lacquering units and inkjet print heads and laser systems in printing machines, rotary web printing machines,] rotary sheet printing machines, [screen printing machines, pad printing machines,] flexographic printing machines, [gravure printing machines,] printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, [printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers in the nature of industrial inkjet printing machines, in particular with one or more inkjets, single-color or multi-color inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines,] [packaging machines,] coating machines, digital printing and marking machines, labelling machines, [engraving machines,] machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, [printing materials, paper, plastics,] and metal [, organic, and inorganic materials] ; [machines and mechanical apparatus, namely, power-operated lifts for storing and adjusting rollers in inking apparatus, damping units and cylinders and lacquering units and inkjet printing modules and laser systems in printing

machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers in the nature of industrial inkjet printing machines, in particular with one or more inkjets, single-color or multi-color inkjet printers in the nature of industrial inkjet printing machines, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials; machines and mechanical apparatus for adjustment, namely, machine tools holders for inking apparatus and damping units and printer engine cylinders and for lacquering units in printer engines and in lacquering units and for inkjet printing modules and laser systems; industrial machines for adjusting cutting equipment and/or cutting cylinders in printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and inking apparatus for printing machines, inkjet printers in the nature of industrial inkjet printing machines, in particular with one or more inkjets, single-color or multi-color inkjet printers in the nature of industrial inkjet printing machines, laser marking machines for printing machines, laser printing machines, industrial electromechanical marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, industrial labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry in the nature of printing machines, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials in the nature of printing machines; industrial machines for adjusting registers and/or register marks in printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines inking apparatus for printing machines, inkjet printers in the nature of industrial inkjet printing machines, in particular with one or more inkjets, single-color or multi-color inkjet printers in the nature of industrial inkjet printing machines, laser marking machines for printing machines, laser printing machines, industrial electromechanical marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, industrial labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry in the nature of printing machines, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials in the nature of printing machines; machines and mechanical apparatus for quality control, namely, machines for sorting paper and removing non-conforming materials for use with printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines inking apparatus for printing machines, inkjet printers in the nature of industrial inkjet printing machines, in particular with one or more inkjets, single-color or multi-color inkjet printers in the nature of industrial inkjet printing machines, laser marking machines for printing machines, laser printing machines, industrial electromechanical marking

machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, industrial labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry in the nature of printing machines, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials in the nature of printing machines; industrial machines for adjusting web tension settings in printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines inking apparatus for printing machines, inkjet printers in the nature of industrial inkjet printing machines, in particular with one or more inkjets, single-color or multi-color inkjet printers in the nature of industrial inkjet printing machines, laser marking machines for printing machines, laser printing machines, industrial electromechanical marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, industrial labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry in the nature of printing machines, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials in the nature of printing machines; parts of machines and engines, namely, filters for printing machines; separators, namely, cyclone separators; industrial suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith; filters for cleaning cooling air, for engines; industrial blowing engines; fiber separators, namely, industrial machines for separating fibers; air compressors and air ejectors for machines; collecting machines for compacting, filling and pressing of particles, dust and fibers separated from machines; air conveying devices, namely, air compressors; power-operated air blowers; blowing machines for the compression, exhaustion and transport of dust and fibers; air compressors; machines and mechanical apparatus for producing security labels, printed securities documents, and banknotes, namely, electronic label printing machines for commercial use and structural parts therefor; industrial labeling machines for applying security labels to goods and structural parts therefor; packaging machines for packaging products with security features, identification features, and security labels and structural parts therefor; packaging machines for packaging banknotes and structural parts therefor; machines and mechanical apparatus for quality control of machines for producing security labels, printed securities documents, and banknotes, namely, sorting machines for sorting paper and removing non-conforming materials and structural parts therefor; machines and mechanical apparatus for quality control of machines for applying security labels, namely, sorting machines for sorting paper and removing non-conforming materials and structural parts therefor; machines and mechanical apparatus for quality control in packaging machines for packaging products with security features, identification features, and security labels, namely, sorting machines for sorting paper and removing non-conforming materials and structural parts therefor; machines and mechanical apparatus for quality control of security labels, printed securities documents, and banknotes, namely, sorting machines for sorting paper and removing non-conforming materials and structural parts therefor; replacement and structural parts for the aforementioned goods; all of the foregoing goods excluding offset printing machines and goods used therewith]

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 31, 34, 35 **International Class Title** Machinery

For [Electronic supervision checking, controlling, displaying and measuring apparatus, namely, computer hardware and recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electronic supervision checking, controlling, displaying and measuring apparatus, namely, computer hardware and recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with installations, equipment, apparatus, filters, separators, extraction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fiber separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibers separated from machines; electronic supervision checking, controlling, displaying and measuring apparatus, namely, computer hardware and recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; electronic supervision checking, controlling, displaying and measuring apparatus, namely, computer hardware and recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electronic supervision checking, controlling, displaying and measuring apparatus, namely, computer hardware and recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with the development of product packaging security features, authentication features, security features, security labels, securities, and banknotes; electronic supervision checking, controlling, displaying and measuring apparatus, namely, computer hardware and recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with applying product security

features, authentication features, security features, and security labels to goods; electronic supervision checking, controlling, displaying and measuring apparatus, namely, computer hardware and recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with packaging product security features, authentication features, security features, security labels, printed securities documents, and banknotes; quality control apparatus in the nature of electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, electronic production control apparatus in the nature of industrial calibration sensors, electronic temperature monitoring apparatus, web tension remote controls, recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; quality control apparatus in the nature of electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, electronic production control apparatus in the nature of industrial calibration sensors, electronic temperature monitoring apparatus, web tension remote controls, recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with lacquering machines, packaging machines, coating machines, pallet changing and pallet transfer machines, stacking machines, machines for handling sheets, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, marking machines, hot stamping apparatus, thermal transfer apparatus, photo printing machines, labelling machines, engraving machines, inkjet printing apparatus, laser marking apparatus and laser printing apparatus; quality control apparatus in the nature of electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, electronic production control apparatus in the nature of industrial calibration sensors, electronic temperature monitoring apparatus, web tension remote controls, recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; quality control apparatus in the nature of electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, electronic production control apparatus in the nature of industrial calibration sensors, electronic temperature monitoring apparatus, web tension remote controls, recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with

the development of product packaging security features, authentication features, security features, security labels, printed securities documents, and banknotes; quality control apparatus in the nature electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, electronic production control apparatus in the nature of industrial calibration sensors, electronic temperature monitoring apparatus, web tension remote controls, recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with applying product security features, identification features, and security labels to goods; quality control apparatus in the nature of electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, electronic production control apparatus in the nature of industrial calibration sensors, electronic temperature monitoring apparatus, web tension remote controls, recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with machines for applying product security features, identification features, security labels to product packaging, printed securities documents, and banknotes; quality control apparatus in the nature of electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, electronic production control apparatus in the nature of industrial calibration sensors, electronic temperature monitoring apparatus, web tension remote controls, recorded consultancy software for database management, recorded sales software for analyzing sales trends, and software for customer relationship management and processing financial transactions, all for use in connection with identification features and security features of product packaging, security labels, printed securities documents, and banknotes; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, namely, computerized component testing and calibrating equipment for subassemblies and parts for printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, namely, computerized component testing and calibrating equipment for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fiber separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibers; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, namely, computerized component testing and calibrating equipment for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment

installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, namely, computerized component testing and calibrating equipment for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, namely, computerized component testing and calibrating equipment for subassemblies and parts for machines for the development of product packaging security features, authentication features, security features, security labels, printed securities documents, and banknotes; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, namely, computerized component testing and calibrating equipment for subassemblies and parts for machines for applying product security features, identification features, security features, and security labels to goods; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, namely, computerized component testing and calibrating equipment for subassemblies and parts for machines for applying product security features, identification features, security features, and security labels, to product packaging, printed securities documents, and banknotes; recorded consultancy software for database management, recorded sales software for analyzing sales trends for use in connection with electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software for database management, recorded sales software for analyzing sales trends, all for use with electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fiber separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibers; recorded consultancy software for database management, recorded sales software for analyzing sales trends, all for use with electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software for database management, recorded sales software

for analyzing sales trends, all for use with electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software for database management, recorded sales software for analyzing sales trends, all for use with electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for the development of product packaging security features, authentication features, security features, security labels, printed securities documents, and banknotes; recorded consultancy software for database management, recorded sales software for analyzing sales trends, all for use with electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security features, identification features, and security labels to goods; recorded consultancy software for database management, recorded sales software for, analyzing sales trends, all for use with electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security features, identification features and security labels to product packaging, printed securities documents, and banknotes; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for transporting and storing printed matter, printing materials, printing material reels, paper, paper reels, plastics, plastics reels, metal, organic, and inorganic materials for printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface

treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for the remote control, remote operation, remote monitoring, control and/or regulating of devices for the changing, transporting and storage of printing plates; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for cleaning rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for storing and adjusting rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems in printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for the remote control, remote operation, remote monitoring, control and/or regulating of inking apparatus and damping units and/or printer engine cylinders in printer engines; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for the remote control, remote operation, remote monitoring, control and/or regulation of devices for tempering of inking apparatus or damping units and cylinders and/or inkjet print heads and/or laser systems in printer engines; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating cutting equipment and/or cutting cylinders in printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and

inorganic materials; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating registers and register marks in printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remote control, remote operation, remote monitoring, control and/or regulation for the purposes of quality control in printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fiber separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibers; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating web tension settings in printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing

machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic, and inorganic materials; recorded consultancy software for database management, recorded sales software for analyzing sales trends software for data processing devices for pre-press equipment, for the printing of printed matter, for the further processing of printed matter, for production control and for production planning; recorded consultancy software for database management, recorded sales software for analyzing sales trends software for data processing devices for printing machines, for the printing of printed matter, for the further processing of printed matter, for production control, and for production planning; recorded consultancy software for database management, recorded sales software for analyzing sales trend and software for managing interfaces and/or data transfer, for printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for managing interfaces and data transfer for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fiber separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibers separated from machines; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for managing interfaces and data transfer, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software managing for interfaces and data transfer, for use with drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for managing interfaces and data transfer, for machines for the development of product

packaging security features, authentication features, security features, security labels, printed securities documents, and banknotes; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for managing interfaces and data transfer, for machines for applying product security features, identification features, security features, and security labels to products; recorded consultancy software for database management, recorded sales software for analyzing sales trends and software for managing interfaces and data transfer, for machines for applying product security features, identification features, and security labels, to products, printed securities documents, and banknotes; recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for transporting and storing printed matter, printing materials, printed material reels, paper, paper reels, plastics, plastics reels, metal, organic, and inorganic materials for printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-color or multi-color inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electronic data carriers, namely, radio frequency identification tags being product security features, identification features, security features, and security labels; RFID (radio frequency identification) systems comprised of RFID readers and RFID tags; encoded identification chips and cards for identifying particular users of computers; apparatus for the payment of goods, services and/or bills, in particular electronic payment terminals for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or NFC (near field communication) apparatus, including in particular with return of change; automated teller machines (ATM); money-receiving apparatus, namely, automated teller machines; money-dispensing and -receiving apparatus, namely, automated teller machines; fittings for the aforesaid apparatus, namely, electronic payment terminals and automated teller machines, in particular cartridges for collecting payment means, in particular bank notes and/or coins and/or tokens of value; electric apparatus, namely, data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; data processing equipment for personalising recording media; machine-readable recording media, in particular blank recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs; blank electronic chip cards having an integrated circuit, in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals; magnetically encoded telecommunication cards; coded and uncoded digital recording media with contactless interfaces, namely, magnetically encoded credit cards, blank magnetic data carriers; integrated circuits with characteristic physical properties for protection against forgery; digital storage media, namely, computer memories for data

processing installations, in particular non-volatile memories; blank digital recording media containing computer memories for storage, in particular non-volatile memories; electric apparatus for data processing, in particular encryption and decryption of data for both online and offline operation; software for computer network applications, in particular for internet, intranet and extranet applications, namely, software for operating network access servers; data processing software, in particular for enabling telecommunications with chip card-activated mobile telephones and in particular for operating associated chip cards and mobile telephones, and computer programs for activating, modifying, testing and displaying data and software structures stored in these telecommunications cards; software for the encryption and decryption and the signing of data; computer operating system software and application software for operation of digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for operation of data processing equipment for communication with these digital recording media; computer programs for the development, management and maintenance of all the aforesaid types of software; digital recording media, namely, CD-ROMs featuring software for operation of digital recording media with integrated circuits; electronically and optically stored pre-recorded advertising and communications media, in particular downloadable video recordings and optical discs featuring films and videos about printing and graphics; inkjet printers for documents, in particular with one or more inkjets, single-color or multi-color inkjet printers for documents; encoding machines, in particular for the graphics sector, the packaging sector and data processing; all of the foregoing goods not being used with offset printing machines]

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Display boards, notice boards and pin-boards of cork; furniture; office furniture, workstations being work benches, desks, tables, benches, seating furniture; chairs and stools, filing cabinets, storage cabinets, shelving, namely, bookshelves, pedestals, footrests, step-stools, hat stands; mirrors, picture frames

International Classes 20 - Primary Classes **US Classes** 2, 13, 22, 25, 32, 50 **International Class Title** Furniture and Articles Not Otherwise Classified

For Apparatus for lighting, namely, lighting installations, lamps and electric night lights

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Scientific, nautical, surveying, electric, photographic, cinematographic, optical, weighing, measuring, signalling, checking, teaching apparatus and instruments, namely, abacuses, teaching clocks, measuring sets comprising rulers and angle finders, and merit stamps; apparatus for recording, transmission or reproduction of sound or images, namely, computers, cameras, tablet computers, mobile phones, headphones and ear buds; blank magnetic data carriers and recording discs; cash registers, calculating machines, data processing equipment and computers; computer hardware; downloadable or recorded computer software for educational purposes featuring instructions in reading, writing and mathematics; computer peripherals; document printers; telephones, namely, mobile phones, telephone answering machines; electronic personal organisers; dictating machines; electrical powerboards in the nature of power strips, electrical cords, battery leads, electrical cables, electric plugs, electric sockets, electrical switches, electrical adaptors for use with mobile devices, computer screens and computers; batteries, battery chargers; fire-extinguishing apparatus; downloadable software applications for educational purposes featuring instructions in reading, writing and mathematics

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Sacks and bags for the transport and storage of materials in bulk

International Classes 22 - Primary Classes **US Classes** 1, 2, 7, 19, 22, 42, 50 **International Class Title** Cordage and Fibers

For Clothing, namely, art smocks and shirts, footwear, headwear

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For Hand tools and implements, namely, scissors, pliers, flush cutters for use in arts and crafts, and tweezers; table cutlery; craft knives and painting knives; side arms, not including firearms, namely, swords; razors; hand tools and implements for use in the office, namely, scissors

International Classes 8 - Primary Classes **US Classes** 23, 28, 44 **International Class Title** Hand Tools

GOODS AND SERVICES INFORMATION

For Non-agricultural lime for use in construction; limestone; non-metallic minerals for building or construction; lime building materials; lime building and construction materials; Building materials, namely, refractory ceramic bricks; tiles, not of metal, for building

International Classes 19 - Primary Classes **US Classes** 1, 12, 33, 50 **International Class Title** Non-metallic Building Materials

For Drinking vessels; dishes; dinnerware, other than knives, forks and spoons; dishware; Tableware, other than knives, forks and spoons, namely, dishes, plates, bowls, drinking cups, mugs and tumblers; vases; Porcelain ware, namely, dishes, plates, bowls, drinking cups, mugs and tumblers; Earthenware, namely, dishes, plates, bowls, drinking cups, mugs and tumblers; Crockery, namely, dishes, plates, bowls, drinking cups, mugs and tumblers; Pottery, namely, dishes, plates, bowls, drinking cups, mugs and tumblers; works of art of porcelain, ceramic, earthenware, terra-cotta and glass; Unworked or semi-worked glass containing phosphor, not for building; Unworked or semi-worked glass coated with phosphor, not for building

International Classes 21 - Primary Classes **US Classes** 2, 13, 23, 29, 30, 33, 40, 50 **International Class Title** Housewares and Glass

For Shoulder bags; Back packs; handbags; Pouches of textile; Drawstring pouches; Luggage and carry-on bags; all-purpose carrying bag; reusable shopping bags; travelling bags; belt bags; tote bags; Boston bags; umbrellas and their parts

International Classes 18 - Primary Classes **US Classes** 1, 2, 3, 22, 41 **International Class Title** Leather Goods

For Automobile appraisal; providing information relating to the appraisal of used automobiles; brokerage of greenhouse gas emission rights or credits of others, and consultation and information service thereof; brokerage of carbon dioxide emission credits or rights; trading of carbon dioxide and greenhouse gas emission credits, allowances or offsets of others

International Classes 36 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Insurance and Financial

For oxygen concentrators for medical purposes; medical respiratory equipment, namely, liquid oxygen stationary and portable reservoirs and stationary and portable oxygen concentrators

International Classes 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

For Containers of paper, for packaging; bags, namely, envelopes and pouches of paper or plastics, for packaging; banners of paper; flags of paper; paper and cardboard; stationery; writing instruments; pens being office requisites; ball-point pens; pencil lead holders; pencils; file folders; document holders being stationery; plastic sleeves for holding documents; Paper clips for offices; binder clips for offices; Magnetic binder clips for offices; stickers being stationery; printed note books; Blank notepads; Printed matter, namely, magazines, manuals, brochures, and newsletters in the field of automobiles and machinery, information technology, manufacturing technology, environmental technology, agricultural and aquaculture technology, and healthcare technology; printed photographs; photograph stands; printed calendars; printed posters

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Metalworking machines and metalworking machine tools and their parts; cutting tools for machinery, namely, machine tools for the cutting of materials; dies for use with machine tools; metalworking machines and metalworking machine tools for friction stir welding of metals; metalworking machines and metalworking machine tools, namely, impact wrenches, electric ratchet wrenches, power-driven wrenches, electric screwdrivers, electrical drills, drilling bits being parts of machines, reamers being parts of machines, grinding tools being parts of machines, hammers being parts of machines, power-operated jigsaws being machines, electric sanders; cutting tools for metalworking, other than hand-operated, in the nature of machine tools for the cutting of metals; cutting tools being machine tools for the cutting of materials and dies of ceramics for use with machine tools, all for metalworking, other than hand-operated; cemented carbide cutting tools other than hand-operated; cermet cutting tools other than hand-operated, namely, machine tools made of cermet for metalworking; diamond-pointed metal-cutting tools other than hand- operated; thread milling cutters being machine tools; milling cutters being machine tools; cemented carbide tips for use with machine tools; wear-resistant metal-cutting tools other than hand-operated, namely, metal-cutting tools with the characteristic of wear resistance; moulds and dies for metal-forming, all being parts of metalworking machines; non-electric prime movers, namely, engines not for land vehicles; igniting devices being sparking plugs and glow plugs for internal combustion engines; ignition apparatus and their accessories being structural parts of internal combustion engines, namely, spark plugs, glow plugs, spark plug caps, spark plug cables and spark plug ignition coils; chemical processing machines and apparatus, namely, methanation reactors in the nature of industrial chemical reactors to produce methane; industrial machines for hardening molded products of lime material by applying carbon dioxide; tile making machines; pottery manufacturing machines; machines and equipment for the aquaculture industry, namely, water tanks being parts of machines, water pumps for circulation of water in aquariums and electronic feeders for animals; chemical vapor deposition reaction machines for processing semiconductor wafers; chemical vapor deposition reaction machines for manufacturing liquid crystals; physical vapor deposition reaction machines for processing semiconductor wafers; physical vapor deposition reaction machines for

manufacturing liquid crystals; plasma etching processing machines for processing semiconductor wafers; plasma etching processing machines for manufacturing liquid crystals; ion implanting machines for processing semiconductor wafers; ion implanting machines for manufacturing liquid crystals; semiconductor wafer processing machines and parts therefor; semiconductor manufacturing machines; parts of semiconductor manufacturing machines; machines for manufacturing liquid crystal display devices; goods for automobiles, trucks and marine watercrafts, namely, ignition system components in the nature of ignition parts for internal combustion engines, namely, points, distributor parts in the nature of reluctors, coils, condensers, distributor caps and rotors and pick-up coils, fuel system components, namely, carburetors and carburetor parts in the nature of floats, needles and seats, choke pull-offs, choke thermostats, idle stop solenoids, fuel injection components, namely, fuel injectors and fuel injector parts for land and water vehicle engines and cold start valves and emissions system components, namely, emission reduction units for motors and engines in the nature of EGR valves, fast idle air valves, idle air control valves, throttle air by-pass valves, PCV valves, purge valves, vacuum regulator valves, ported vacuum switches, vapor canisters, all of the foregoing being parts of internal combustion engines; [ignition wire sets comprised of ignition wires and spark plug ignition wires for vehicle engines; Wire, namely, ignition wires and spark plug ignition wires for vehicle engines;] pressure regulators being parts of machines; fuel pressure regulators being parts of internal combustion engines; ignition coils being parts of engines

International Classes 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

For Heating elements; air sterilizers for industrial use; ozone sterilizers; air sterilizers for household use; ozone air purifiers; air purifying apparatus and machines; ozone air purifiers for industrial use; industrial air purifiers; household ozone air purifiers; air purifiers for household use; humidifiers; dehumidifiers; disinfectant apparatus; disinfectant apparatus for medical purposes; sterilizers; Earthenware basins being parts of sanitary installations; toilet bowls; bath tubs; wash-hand bowls, namely, hand wash basins being parts of sanitary installations; Gas generation installation, namely, methanation reactors being furnaces; drying apparatus for chemical processing; LED lighting apparatus; lighting apparatus for vehicles; Industrial oxygen concentrators and liquid oxygen reservoirs sold as a unit and not for medical purposes and not being respirators; Stationary and portable industrial oxygen concentrators, not being respirators and not for medical purposes, for use in Aquaponics, fish farming, glass manufacturing, metal manufacturing, mining, heating and air conditioning, auto repair, environmental remediation, farming, ozone generation, wastewater treatment, and gold and mineral production and refining; Parts of industrial oxygen concentrators, namely, liquid oxygen reservoirs for use with industrial oxygen concentrators not being respirators and not for medical purposes

International Classes 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

For Slaked lime being calcium hydroxide, not for agricultural purposes; calcium hydroxide, not for agricultural purposes; lime carbonate, not for agricultural purposes; non-metallic minerals being industrial chemicals for use in manufacture; photosensitive plates being sensitized photographic plates; semi-processed foams of ceramics in the nature of silicon carbide for industrial purposes, alumina, zirconia, titanium oxides, aluminum nitride, silicon nitride

International Classes 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For providing business information concerning commercial sales; providing commercial information and advice for consumers in the choice of products and services; marketing research and analysis; professional business consultancy; Commercial business intermediary services relating to the matching of various professionals with clients; computerized inventory management; product merchandising services; inventory management of parts and components for manufacturers and suppliers, and consultation and advice relating thereto; compilation of information into computer databases; promotion, advertising and marketing of on-line web sites; retail store services and wholesale store services for telecommunication machines and apparatus; retail store services and wholesale store services for medical apparatus and their parts; retail store services and wholesale store services for automobiles and their parts; retail store services and wholesale store services for two-wheeled motor vehicles and bicycles, and their parts; retail store services and wholesale store services for medical apparatus for respiratory care

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Repair or maintenance of metalworking machines and tools; providing information relating to the repair or maintenance of metalworking machines and tools; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of measuring and testing machines and instruments; repair or maintenance of water-quality monitors; repair or maintenance of medical machines and apparatus; repair or maintenance of fishing machines and instruments; repair or maintenance of aquaculture machines and instruments; repair or maintenance of machines and instruments for the aquaculture industry; providing information relating to the repair or maintenance of automobiles, and consultation and advice relating thereto; providing information relating to the repair or maintenance of two-wheeled motor vehicles, and consultation and advice relating thereto; repair or maintenance of chemical processing machines and apparatus; repair or maintenance of tile manufacturing machines and apparatus; repair or maintenance of pottery manufacturing machines and apparatus; installation of industrial machinery; repair and maintenance of batteries, generators, and battery chargers; repair and maintenance of electronic machines and apparatus; rental of battery chargers

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Machines comprised of computer hardware, recorded software and their parts for measuring, testing, monitoring and detecting water quality; Machines comprised of computer hardware, recorded software and their parts for analyzing and visualizing data of water-quality for use with monitoring devices and water-quality monitors; Machines comprised of computer hardware, recorded software and their parts for collecting and utilizing data of automobiles; Machines comprised of computer hardware, recorded software and their parts for measuring, monitoring, managing and evaluating condition of batteries; Machines comprised of computer hardware, recorded software and their parts for conducting, controlling and regulating the distribution of electricity; Machines comprised of computer hardware, recorded software and their parts for trading greenhouse gas emission rights or credits; Machines comprised of computer hardware, recorded software and their parts for measurement, analysis and management of greenhouse gas emission; Machines comprised of computer hardware, recorded software and their parts for controlling and managing measuring and testing machines and instruments; electron tubes; semi-conductor devices; electronic circuits; downloadable and recorded computer programs for measuring, testing, monitoring and detecting water quality; downloadable and recorded computer programs for analyzing and visualizing data of water-quality for use with monitoring devices and water-quality monitors; downloadable and recorded computer programs for collecting and utilizing

data of automobiles; downloadable and recorded computer programs for use in the field of fuel cells and other batteries, all for monitoring fuel cells and battery performance; downloadable and recorded computer programs for measuring, monitoring, managing and evaluating condition of batteries; downloadable and recorded computer programs for conducting, controlling and regulating the distribution of electricity; downloadable and recorded computer programs for trading greenhouse gas emission rights or credits; downloadable and recorded computer programs for measurement, analysis and management of greenhouse gas emission; downloadable and recorded computer programs for controlling and managing measuring and testing machines and instruments; Downloadable image and video files containing artwork, text, audio, video, games and Internet Web links relating to automobiles and machinery, information technology, manufacturing technology, environmental technology, agricultural and aquaculture technology, and healthcare technology; Digital materials, namely, downloadable audio and sound files featuring automobiles and machinery, information technology, manufacturing technology, environmental technology, agricultural and aquaculture technology, and healthcare technology; Downloadable electronic publications in the nature of magazines, manuals, brochures, and newsletters in the field of automobiles and machinery, information technology, manufacturing technology, environmental technology, agricultural and aquaculture technology, and healthcare technology; personal digital assistants; power distribution or control machines and apparatus, namely, electrical power distribution units and power controllers; apparatus and instruments for conducting, controlling and regulating the distribution of electric current; rotary converters; phase modifiers; Electric meters; Electrical outlet testers; magnetic apparatus used to generate and measure magnetic fields; Electronic components for computers; Electronic components in the nature of capacitors; electronic components, namely, piezoelectric switches and piezoelectric sensors; Semiconductor chips; integrated circuits; Housing for electronic components, namely packages with connections for housing an integrated circuit; integrated circuit substrates being structural parts of integrated circuits; computer hardware for measuring, testing, monitoring and detecting water quality; computer hardware for analyzing and visualizing data of water-quality for use with monitoring devices and water-quality monitors; computer hardware for collecting and utilizing data of automobiles; computer hardware for use in the field of fuel cells and other batteries; computer hardware for measuring, monitoring, managing and evaluating condition of batteries; computer hardware for conducting, controlling and regulating the distribution of electricity; computer hardware for trading greenhouse gas emission rights or credits; computer hardware for measurement, analysis and management of greenhouse gas emission; computer hardware for controlling and managing measuring and testing machines and instruments; buzzers, electric; fire alarms; gas leak alarms; burglar alarms; ultrasonic wave oscillators; ozonisers for calibration purposes; Sensors, detectors and monitoring instruments, namely, thermal sensors and odor sensors; piezoelectric sensors; heat flux sensors; optical sensors; gas sensors for measuring gas concentration; pressure sensors; acceleration sensors; velocity sensors; distance sensors; water quality sensors, not for medical use; apparatus for measuring concentration of fuel vapor, oxygen, nitrogen, oxide, hydrocarbon, methane, alcohol and hydrogen in air or gas, not for medical use; electronic apparatus for measuring concentration of fuel vapor, oxygen, nitrogen oxide, hydrocarbon, methane, alcohol and hydrogen, and for controlling air to fuel ratio in the exhaust gas from internal combustion engines, boilers, incinerators, gas turbines, generators and fuel cells; Knock sensors for detecting knocking vibration of engines; temperature sensors; outdoor air sensors for measuring air quality, not for medical use; load sensors for measuring the weight of the vehicle; hydrogen leak detection sensors; urea sensors being sensors for detecting the presence or concentration of urea in water, not for medical use; speed sensors, not for medical use; sensors for measuring the position of liquid, not for medical use; position sensors; sensors for measuring flow rate of gas, air and liquid, not for medical use; gear position sensors for transmission gears; anti-theft infrared sensors; liquid detection sensors, not for medical use; impact detection sensors, not for medical use; illuminance sensors being sensors for detecting

light, not for medical use; Sensors for measuring air inhalation speed, not for medical purposes; parking aid sensors being parking sensors for vehicles; electromagnetic measuring sensors; ultrasonic sensors; Sensors being measurement apparatus, other than for medical use, namely, sensors for measuring air quality inside a vehicle; vibration sensors; motion sensors; infrared sensors; photoelectric sensors; semiconductor testing apparatus, namely, machines for measuring, signalling, detecting and testing the failure of semiconductors; structural parts for ceramic semiconductor; ceramic wiring board being circuit boards; electronic decoders; electronic meters being electricity meters; electronic control systems for machines and engines; electronic semi-conductors; electrodes; solar batteries, and their structural parts; solar panels for the production of electricity; battery chargers utilizing solar power generation panels equipped with measuring equipment and communication equipment for measuring, monitoring and managing condition of batteries; computers for remote monitoring of fuel battery generators using communication networks; fuel cells; fuel cells for electricity generation; hydrogen fuel cells for electric vehicles; light-emitting diodes; structural parts for light emitting diodes; fuel battery cells; fuel cell stacks; fuel cell modules being fuel cell electrodes; goods for automobile, trucks and marine watercrafts, namely, wire products comprised of electrical conductors for connecting electrical components in a vehicle; cable, namely, battery cables, coaxial cables, connection cables and electric cables; wiring accessories, namely, wiring looms and harness for vehicles, all being electric cables; wiring accessories, namely, wire tubing being connection cables, electrical terminal blocks, electrical connectors, cable connectors, pigtail electrical cables, electrical sockets; Sensors for vehicles, namely, Temperature sensors, Liquid level sensors, Headlight Level Sensor, Sensors for determining position, Timing sensors, Pressure Sensors, Vacuum pressure sensors, Speed Sensors, Motion Sensors, acceleration sensors, Air quality sensors, optical sensors, infrared sensors, Electric sensors, Disc Brake Pad Wear Sensors, Door Open Warning Sensors, Voltage Sensors, Sensors for controlling engine performance, Fuel Cut-Off Sensors, Humidity Sensors, Pollutant Sensors, HVAC (Heating, Ventilation, and Air Conditioning) sun sensors, Hybrid System Circuit Breaker Sensors, Knock Sensors, Ignition Misfire Sensors, Mass Air Flow Sensor (MAF), Parking Aid Sensors, Power Door Resistance Pinch Sensors, Rain sensors, Steering Angle Sensors, Suspension Ride Height Sensors, Tail Light Outage Sensors, Water in Fuel Sensors; automotive and other vehicular sensors, namely, position sensors, temperature sensors, pressure sensors, speed sensors, vacuum sensors, oxygen sensors, fluid level sensors, knock sensors and mass air flow sensors; battery accessories for connecting the battery electrical equipment and supporting a battery in place, namely, battery test clips being structural parts of battery testers and battery leads; starting and charging system components, namely, electric starting cables, electrical wires, voltage regulators, and voltage stabilizers; electrical switches; Goods for automobiles, trucks and marine watercrafts, namely, ignition system components in the nature of ignition parts for internal combustion engines in the nature of capacitors, control module, namely, electronic controls for gasoline engines for land vehicles and voltage regulators and voltage reducers; solenoid valves being electromagnetic switches; electronically controlled air suspension (ECAS) solenoid valves being electromagnetic switches; variable valve timing (WT) solenoids, namely, electromagnetic coils; the aforesaid goods do not include Cell phone cases, Carrying cases for cell phones, Headsets for mobile telephones, Wireless cellular phone headsets, Computer cables, Power cables, USB cables, Connection cables, Power adapters, Computer stylus, Blank flash memory cards, Electronic memory card readers, Carrying cases for mobile computers, Protective covers and cases for cell phones, laptops and portable media players, Headsets for use with computers, Keyboards for mobile phones, Keyboards, Computer mice, Computer cameras, IP (Internet protocol) cameras, Digital video cameras, Modems, Computer hardware, namely, wireless network extenders, Computer hardware, namely, wireless access point (WAP) devices, Wireless adapters for computers, Wireless and routers

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Rental of telecommunication equipment

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Operating parking lots being parking lot services; car rental; collection of domestic and industrial waste and trash; collection of cells and batteries for recycling

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Rental of equipment and instruments for fishery being rental of equipment for aquaculture; rental of equipment and devices for aquaculture; aquaculture services, namely, the cultivation and breeding of plants or animals in a water environment and consultancy relating thereto; medical equipment rental; provision of medical information; physical examination services

International Classes 44 - Primary Classes **US Classes** 100, 101 **International Class Title** Medical, beauty and agricultural services

For Rental of metal treating machines and tools; rental of metalworking machines and tools; rental of power-driven hand tools for metal treating and metalworking; ceramic processing, and consultancy and information service relating thereto; hardening of molded products of lime material using carbon dioxide, and consultancy and information service relating thereto; destruction of waste and trash; recycling of waste and trash; recycling of electric batteries; rental of batteries; rental of electricity generators

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For Gaskets for industrial use; non-metal pipe couplings and joints; joint packings for pipes; electrical insulating materials

International Classes 17 - Primary Classes **US Classes** 1, 5, 12, 13, 35, 50 **International Class Title** Rubber Goods

For Coats; sweaters; shirts; headwear; hats; caps being headwear; polo shirts; T-shirts; clothing jackets; gloves and mittens being clothing; driving gloves, not for racing; hoodies being clothing; hooded pullovers; sweatshirts; tops as clothing; bottoms as clothing; pants; clothing belts

International Classes 25 - Primary Classes **US Classes** 22, 39 **International Class Title** Clothing

For technological advice relating to computers, automobiles and industrial machines; pollution prevention testing in the field of aquaculture; scientific research in the field of aquaculture; rental of measuring apparatus; rental of computers; designing of machines, apparatus, instruments including their parts or systems composed of such machines, apparatus and instruments; computer programming; computer software design; maintenance of computer software; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs; providing online non-downloadable software on data networks for measuring, testing, monitoring and detecting water quality; providing online non-downloadable software on data networks for analyzing and visualizing data of water-quality for use with monitoring devices and water-quality monitors; providing online non-downloadable software on data networks for collecting and utilizing data of automobiles; providing online non-downloadable software on data networks for use in the field of fuel cells and other batteries, namely, for monitoring fuel cell and battery performance; providing online non-downloadable software on data networks for measuring, monitoring, managing and

evaluating condition of batteries; providing online non-downloadable software on data networks for conducting, controlling and regulating the distribution of electricity; providing online non-downloadable software on data networks for trading greenhouse gas emission rights or credits; providing online non-downloadable software on data networks for measurement, analysis and management of greenhouse gas emission; providing online non-downloadable software on data networks for controlling and managing measuring and testing machines and instruments; electronic data storage; rental of computer equipment; rental of computer hardware; measuring and analysis of greenhouse gas emissions, and consultancy and information service relating thereto; energy auditing; monitoring of computer systems by remote access to ensure proper functioning; material testing; testing and assessment of battery condition and quality to ensure proper functioning

International Classes 42 - Primary Classes **US Classes** 100, 101 **International Class Title** Scientific and computer services

For Storage tanks of metal, reservoirs of metal
