Apt 305

Naples, FL, 34103

Email: SCMACpd@gmail.com

Phone: 2392698188

Submitter's Representative: Susan Maccario

General Comment

I have worked very hard and spent much money and time to get three US Patents. This is the American dream and land of opportunity and innovation. If we let big corporations and foreign countries steal our ideas, why would anyone want to get a patent. Some of the best ideas come from home inventors, we would be losing so many creative ideas. Please protect our patent rights and make it meaningful to obtain a patent. One can not and should not compete with big corporations, they should be supportive of our ideas and help us be the best open innovative country.
