

# **Setup Okta Verify on a Mobile Device**

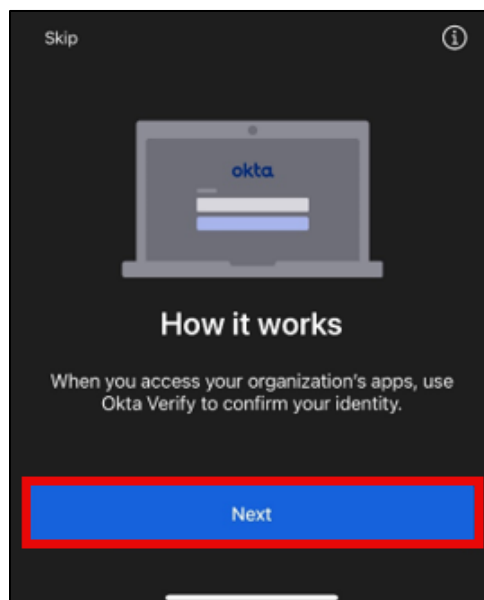

- 1 Open your App Store (**iOS**) or the Google Play store (**Android**) on your mobile device and download **Okta Verify**.

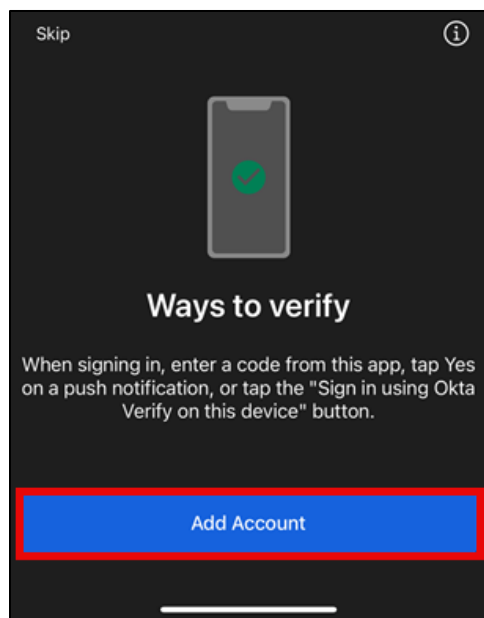

- 2 Once installed, open **Okta Verify** and tap **Get Started**.

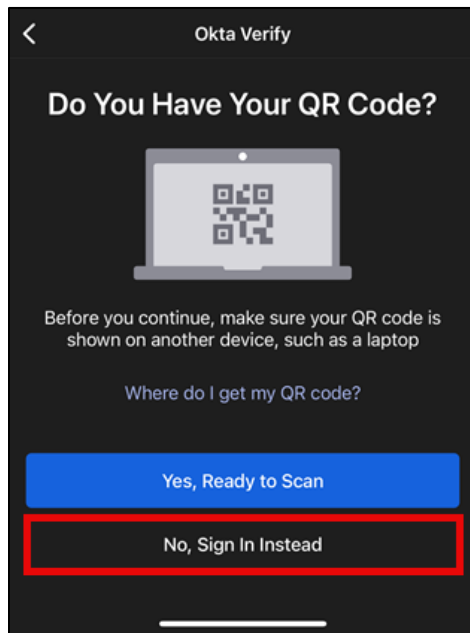

**3** Tap **Next**.

**4** Tap **Add Account**.

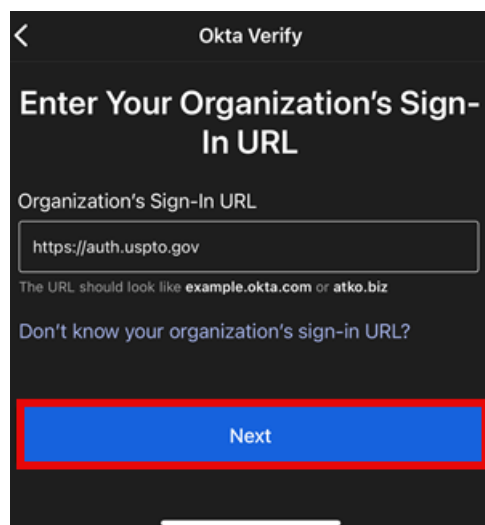

- 5 When asked if you have a QR Code, tap **No, Sign In Instead**.

- 6 Carefully type the following URL into the Organization's Sign-in URL field:  
<https://auth.uspto.gov>

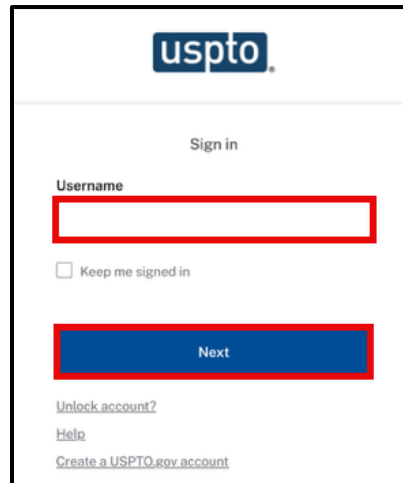

Tap **Next**.

7

Type your **email address** into the username field, then

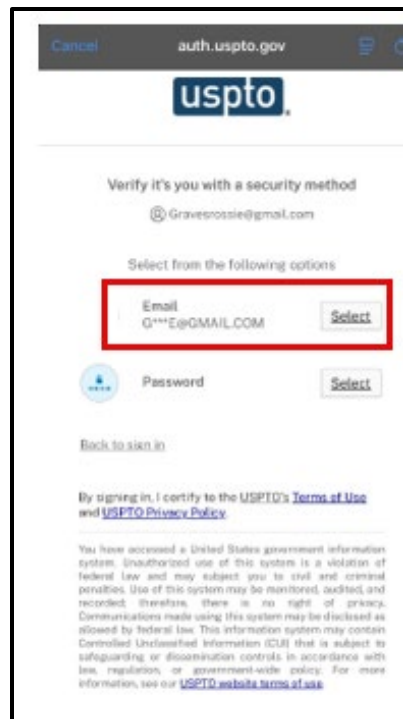

tap **Next**. Example: jdoe@gmail.com

The image shows the USPTO sign-in interface. At the top is the 'uspto' logo. Below it is the text 'Sign in'. A 'Username' label is above a text input field, which is highlighted with a red border. Below the input field is a checkbox labeled 'Keep me signed in'. A blue button with the text 'Next' is highlighted with a red border. At the bottom, there are three links: 'Unlock account?', 'Help', and 'Create a USPTO.gov account'.

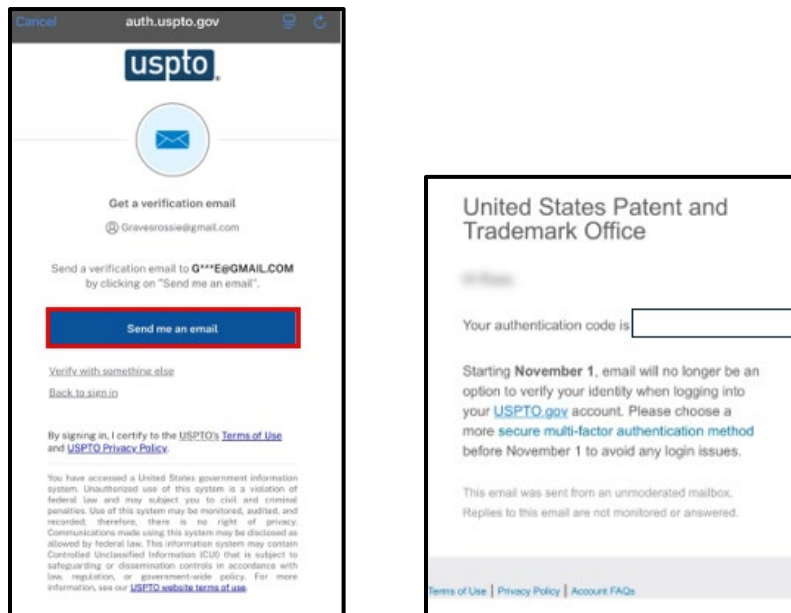

8

Tap Select next to Email to have the code sent to your email.

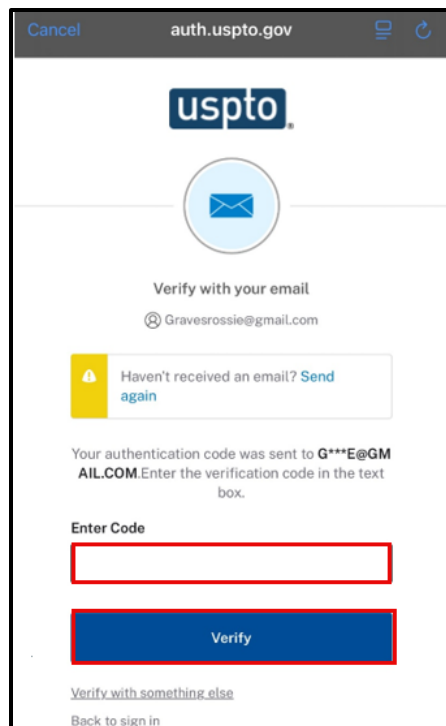

The image shows the USPTO verification screen. At the top is a 'Cancel' button and the URL 'auth.uspto.gov'. Below is the 'uspto' logo. The text 'Verify it's you with a security method' is followed by the email address '@Gravesnossie@gmail.com'. Below this is the text 'Select from the following options'. There are two options: 'Email' with the address 'G\*\*\*E@GMAIL.COM' and a 'Select' button, and 'Password' with a 'Select' button. The 'Email' option and its 'Select' button are highlighted with a red border. At the bottom, there is a link 'Back to sign in' and a paragraph of legal text starting with 'By signing in, I certify to the USPTO's Terms of Use and USPTO Privacy Policy'.

- 9 In the **Get a verification email** screen, tap **Send me an Email**.

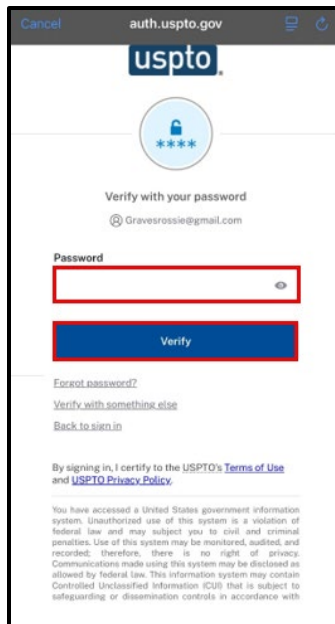

*Example of an Email*

- 10 Enter the **code** from the email you received and tap **Verify**.

11

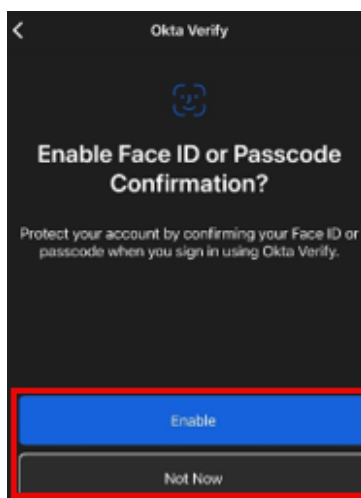

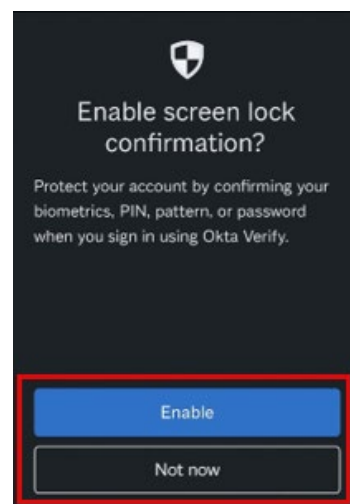

Once Verified, you will be asked to confirm your identity with a second security method. Type the Password and tap Verify.

12

The next few prompts will guide you through setting up your preferences for your Okta Verify account. You can choose to click **Allow/Enable** to enable certain features or **Skip/Not Now** if you prefer not to set them up at this time.

**Note:** Screens may vary depending on your mobile device.

*iOS**Android*

13

Okta Verify is now successfully configured on your device. Tap **Done**.
