Comment on FR Doc # 2019-18443

Submitter Information

Name: Susan Aaronson

Address:

1957 E Street NW

washington, DC, 20052

Email: saaronson2@gmail.com

Organization: GWU and CIGI

General Comment

My comments focus on open source vs. patented AI. There has been no study of why firms choose one over the other. Some scholars have argued that firms choose open source to entice potential employees into commenting on their algorithms and thus having a stake in improving them over time (in short its a tool to attract employees rather than a tool to improve the algorithm). USPTO should examine this question.
