Subject: software patents

Hi,

I'm just writing to say that I am not for software patents. Having said
that I have to say that I am unprepared to write a letter laying out a
big case.

People I respect are against them; my experience with discs like
Knoppix
show me the areas where we are hamstrung compared to a country that
doesn't have them.

I only learned about this deadline for comment earlier in the evening.
I've got a fair amount of domestic things to do at home, but I just
wanted to make my opinion known.

yours,

William MacGhee
