**Subject:** USPTO RULE -- FIRST-TO-FILE INVENTOR is the correct and justified rule.

From: Gaudencio A. Labrador  
To: USPTO

Gentlemen:

Blessed greetings to you from our Lord Christ Jesus!

Please note that it has been always the correct and just rule to honor the inventor who first officially registered and disclosed his discoveries and advancements in science and technologies. There can be hundreds of inventors in the fields using the discovery but not in the perfect form of the technology, hence, comes the correct inventor who shed the light from God upon the true and correct meaning of the discovery and put it into logical recorded writing as God wants to open the exact truth on all things. Hence, honoring the **FIRST-TO-FILE** inventor is not a new matter – but it is an old practice. Please note that **FIRST-TO-FILE should be the correct phrase and be adapted in this issue.**

Thank you so much. May God's blessings of abundance and mental health be upon us all always.

Sincerely,

Brother Gaudy  
God's Trustee/Steward
