Subject: Will Revisions to USPTO Oaths/Declarations be Released at the SAME TIME the New Rules and Oaths Become Effective

To whom it may be concern,

We read of interest the notice in the Federal Register re: the proposed rule changes under AIA relating to inventors' oath and declaration. We would like to know if the USPTO will have updated forms to reflect these changes at the same time such rules take into effect. Moreover, we would like to know if there is a list-serve which we can subscribe to that notifies members of updated forms/fees at the USPTO.

The reason for the two inquiries above is that we prepare certain forms for submission to the USPTO internally (I .e, oaths and declarations) and wish to use forms that are consistent with changes in the new rules. If the updated forms are to be released in conjunction with when the such rules re: oath and declaration take into effect, we will use the forms. Otherwise, we need to update our own oaths and declarations accordingly.

Thank you so very much for your attention to this matter.

Regards,
Sandy
