**Reg. No. 7,147,584**

**Registered Aug. 29, 2023**

**Corrected Jan. 16, 2024**

**Int. Cl.: 9, 37, 41, 42**

**Service Mark**

**Trademark**

**Principal Register**

Sandvik Mining and Construction Australia (Production/Supply) Pty Ltd  
(AUSTRALIA PROPRIETARY LIMITED COMPANY)  
Level 5 135 Coronation Drive  
Milton QLD 4064  
AUSTRALIA

CLASS 9: Detecting and monitoring instruments and apparatus, namely, electronic equipment in the nature of (RFID) tags, rfid readers, electronic tags for detecting and locating ground engaging tools, speed and slope indicators and brake controllers; navigation, positioning and guidance apparatus, namely, satellite-aided navigation systems; remote control apparatus, devices and instruments, namely, remote controls for RFID tags; rfid sensor tags and receivers; sensors for measuring distance; Downloadable and recorded computer software for use in monitoring, detecting and locating ground engaging tools; an RFID system consisting of computer hardware components and downloadable and recorded application software for wireless and digital solutions and systems in the field of mining, construction, rock excavation and rock processing \* ; all of the foregoing being for use in the fields of mining, civil construction, rock excavation and rock processing \*

CLASS 37: Installation of an RFID system consisting of computer hardware components and integrated pre-installed application software for wireless communication solutions; maintenance of an RFID system consisting of computer hardware components and integrated pre-installed application software for wireless communication solutions; installation and configuration services, technical support services, namely, installation, repair and maintenance services of an RFID system consisting of computer hardware components and integrated pre-installed application software for RFID solutions and systems; installation and configuration services, technical support services, namely, installation, repair and maintenance services of an RFID system consisting of computer hardware components and integrated pre-installed application software for wireless communication solutions \* ; all of the foregoing being for use in the fields of mining, civil construction, rock excavation and rock processing \*

CLASS 41: Training services of wireless communication solutions, namely, training in the field of wireless communication solutions; Training services in the field of RFID solutions and systems \* ; all of the foregoing being for use in the fields of mining, civil construction, rock excavation and rock processing \*

CLASS 42: Design and development of rfid systems, software and solutions in the nature of RFID tracking systems; design and development of wireless communication solutions; technological consultancy services in relation to the application of RFID electronic apparatus; technological consultancy services in relation to the application of wireless communication solutions; design and development of computer hardware and software; installation of computer software; installation of application software of an RFID system consisting of computer hardware components and application software for wireless communication solutions; maintenance of computer software; maintenance of

Patent and Trademark Office

application software of an RFID system consisting of computer hardware components and application software for wireless communication solutions; testing, analysis, and evaluation of rfid systems; testing, analysis, and evaluation of wireless communication systems; technological consulting services relating to RFID systems; technological consulting services relating to wireless communication systems; installation and configuration services, technical support services in the nature of troubleshooting of application software of an RFID system consisting of computer hardware components and application software for RFID solutions and systems; installation and configuration services, technical support services in the nature of troubleshooting of application software of an RFID system consisting of computer hardware components and application software for wireless communication solutions \* ; all of the foregoing being for use in the fields of mining, civil construction, rock excavation and rock processing \*

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 04-21-2022 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1688151 DATED 04-27-2022, EXPIRES 04-27-2032

SER. NO. 79-351,883, FILED 04-27-2022

## **REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

### **Requirements in the First Ten Years\***

#### **What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

### **Requirements in Successive Ten-Year Periods\***

#### **What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

### **Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE:** Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

**NOTE:** A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
