aSTARTZ

Reg. No. 7,141,339

Registered Aug. 22, 2023

Corrected Jun. 18, 2024

Int. Cl.: 1, 5, 40, 42, 45

Service Mark

Trademark

Principal Register

NIHON MEDI-PHYSICS CO., LTD. (JAPAN CORPORATION)

3-4-10, Shinsuna,

Koto-ku,

Tokyo 136-0075, JAPAN

CLASS 1: Industrial chemicals; chemical preparations for scientific purposes; diagnostic reagents for scientific or research use; chemicals for use in the manufacture of pharmaceuticals; chemicals for use in the manufacture of radiopharmaceuticals; radioactive elements for scientific purposes; isotopes for industrial purposes; peptide substrates for scientific purposes; peptide for use in the manufacture of pharmaceuticals; chelating agents for use in the manufacture of pharmaceuticals; polypeptides for scientific purposes; antibodies for scientific purposes, other than for medical or veterinary use; chelate compound; organic chelating agents; metal chelating agents

CLASS 5: Pharmaceutical preparations for the treatment of cancer; pharmaceutical preparations for the diagnosis of cancer; chemical reagents for medical purposes; medical diagnostic reagents; radioactive substances for medical purposes; isotopes for medical purposes; radioisotope markers for therapeutic or diagnostic use; radioactive pharmaceutical preparations for in vivo diagnostics or therapeutic use; synthetic peptides for pharmaceutical purposes for the treatment of cancer; synthetic peptides for pharmaceutical purposes for the diagnosis of cancer; pharmaceuticals consisting of antibodies for the treatment of cancer; pharmaceuticals consisting of antibodies for the diagnosis of cancer; pharmaceuticals consisting of antibody fragments for the treatment of cancer; pharmaceuticals consisting of antibody fragments for the diagnosis of cancer; pharmaceuticals consisting of antibody derivatives for the treatment of cancer; pharmaceuticals consisting of antibody derivatives for the diagnosis of cancer; antibodies for medical purposes

CLASS 40: Custom manufacture of pharmaceuticals; custom manufacture of investigational new drug; custom manufacture of radiopharmaceuticals; custom synthesis of labeled compound; custom manufacture of peptides; custom manufacture of antibodies; custom manufacture of proteins; custom protein modification; custom antibody modification; custom extraction of pharmaceuticals and veterinary preparations; custom synthesis and refining of pharmaceuticals and veterinary preparations; custom peptide synthesis services; custom synthesis and refining of pharmaceuticals consisting of antibodies; custom manufacture of pharmaceuticals consisting of antibodies; custom synthesis and refining of pharmaceuticals consisting of antibody fragments; custom manufacture of pharmaceuticals consisting of antibody fragments; custom synthesis and refining of pharmaceuticals consisting of antibody derivatives; custom manufacture of pharmaceuticals consisting of antibody derivatives; custom radioactive labeling of antibodies; custom radioactive labeling of antibody fragments; custom radioactive labeling of antibody derivatives; custom radioactive labeling of peptides

CLASS 42: Research and development of medicines; testing, inspection or research

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

services in the fields of pharmaceuticals; advisory, consultancy and providing information relating to testing, inspection or research services in the fields of pharmaceuticals; development of pharmaceuticals; advisory, consultancy and providing information relating to development of pharmaceuticals; conducting clinical trials for pharmaceuticals for others; advisory, consultancy and providing information relating to clinical trials for pharmaceuticals; research and development of radiopharmaceuticals; development of radiopharmaceuticals; advisory, consultancy and providing information relating to development of radiopharmaceuticals; research and development services relating to peptides; research and development services in the field of antibodies; research and development services relating to peptide labeling by radioactive substances; research and development services relating to antibody labeling by radioactive substances

CLASS 45: Granting of licenses to others for the use of intellectual property; legal services, namely, exploitation of industrial property rights

The mark consists of the Greek letter "alpha" before the term "STARTZ" appearing as one word in stylized format.

PRIORITY DATE OF 08-27-2021 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1666551 DATED 02-25-2022, EXPIRES 02-25-2032

SER. NO. 79-342,589, FILED 02-25-2022

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
