United States Patent and Trademark Office

S o f t M o t i o n

Reg. No. 7,032,965

Registered Apr. 25, 2023

Corrected Jul. 09, 2024

Int. Cl.: 7, 9, 42

Service Mark

Trademark

Principal Register

MOVENSYS Inc. (JAPAN CORPORATION)

Tachikawa AS Bldg 2F,

1-13, Nishiki-cho 3-chome,

Tachikawa-shi, Tokyo, JAPAN 190-0022

CLASS 7: Industrial robots; semiconductor manufacturing machines and systems, namely, cleaning equipment for wafer processing, oxidizer for wafer processing, photoresist coating equipment, semiconductor exposure equipment, apparatus for etching semiconductor wafer, apparatus for stripping resist for wafer processing, ion implantation apparatus, Chemical Vapor Deposition (CVD) machines for wafer processing, apparatus for dicing semiconductor substrates, apparatus for mounting semiconductor, apparatus for resin-sealing semiconductor device, marking device for manufacture of semiconductor, equipment for mounting ball, sorter for semiconductor device, semiconductor tester, metal vapor deposition apparatus for wafer processing, substrate developing device, wafer-developing device; metalworking machines and tools, namely, metal plate folding device, device for bending metallic sheet, device for bending metallic pipe; metalworking machine tools; construction machines and apparatus, namely, concrete construction machines; loading-unloading machines and apparatus; textile machines and apparatus, namely, textile tentering machines; food or beverage processing machines and apparatus, namely, electric food processors; lumbering, woodworking, or veneer or plywood making machines and apparatus, namely, sanding machines for woodworking; sewing machines; glassware manufacturing machines and apparatus; painting machines and apparatus; packaging or wrapping machines and apparatus; plastic processing machines and apparatus

CLASS 9: Power distribution and control machines and apparatus, namely, electrical power distribution units, power controllers; rotary converters; phase modifiers, namely, high-voltage power supplies, phase shifters for communication apparatus; solar cells; electrical batteries and cells; electronic machines, apparatus and their parts, namely, computers, computer memory devices, computer peripheral devices, recorded computer operating programs for real-time control of semiconductor manufacturing machines, recorded computer software for real-time control of semiconductor manufacturing machines, downloadable computer software applications for real-time control of semiconductor manufacturing machines, recorded computer programs for real-time control of semiconductor manufacturing machines; measuring or testing machines and instruments, namely, measuring tape; telecommunication machines and apparatus, namely, smartphones; electrical and electronic control apparatus and instruments, namely, electric control panels; electrical and electronic control apparatus and instruments in particular electronic controllers for controlling machines for manufacturing secondary batteries

CLASS 42: Designing of machines, apparatus, instruments, including their parts, or systems composed of such machines, apparatus and instruments; computer software design; computer programming; maintenance of computer software; technological advice relating to computers, automobiles and industrial machines provided to computer users, drivers, operators of industrial machines, and users of operating programs

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

controlling automobiles and industrial machines, by means of a support hotline, email, facsimile hotline, interactive webpage, and in-person visiting service; testing or research on machines, apparatus and instruments, namely, testing the functionality of machines; scientific research on machines; rental of computers; providing computer programs on data networks, namely, platform as a service featuring computer program used in control device, platform as a service featuring ding computer program used in semiconductor manufacturing equipment, software as a service featuring computer program used in control device, software as a service featuring computer program used in semiconductor manufacturing equipment

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

OWNER OF INTERNATIONAL REGISTRATION 1554484 DATED 08-07-2020, EXPIRES 08-07-2030

No claim is made to the exclusive right to use the following apart from the mark as shown: "MOTION"

SER. NO. 79-295,447, FILED 08-07-2020

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
