STARK

Reg. No. 6,391,863

Registered Jun. 22, 2021

Corrected Jul. 30, 2024

**Int. Cl.: 1, 2, 3, 4, 8, 9, 16, 17,
21**

Trademark

Principal Register

STARK GmbH (GERMANY GESELLSCHAFT MIT BESCHRÄNKTER
HAFTUNG (GMBH))
Kagerser Hauptstr. 22
94315 Straubing
GERMANY

CLASS 1: Chemical agents for impregnating, binding or coating of textiles, furs and leather, non-wovens and fabric, namely, water resistant protective surface coatings; unprocessed plastics in the form of powders; unprocessed plastic materials in the form of pastes; unprocessed plastics in the form of foams; unprocessed plastics in the form of gels; unprocessed plastics in the form of liquids; unprocessed plastics in the form of emulsions; adhesives for glazing; fillers and adhesive preparations used by decorators for filling surface blemishes; chemical preparations for sealing plant wounds; chemical preparations for hardening surfaces; chemical preparations for use in the manufacture of antitarnishing preparations for surfaces including windows; chemical sealants used for buildings which penetrate through walls, floors and ceilings for fire prevention; chemical agents for the flame-retardant coating of textiles; chemicals, namely, rheology modifiers for use in the field of coating materials; chemical preparations for the protection of displays, screens and touchscreens; chemical preparations for the preservation of displays, screens and touchscreens; chemical preparations for the repair of displays, screens and touchscreens; aromatic solvents for industrial and commercial use, namely, for lacquers; chemical additives for varnishes; chemical agents for impregnating, binding or coating of textiles, furs and leather, non-wovens and fabric for repelling water; chemical products for the manufacture of protective coatings; chemical substances for use in the manufacture of shock-absorbing backings

CLASS 2: Lacquers; lacquers for use by painters, namely, sprays; thinners for paint coatings; lacquers for use by painters, namely, bonding agents for lacquers; paints and lacquers; lacquers and varnishes; varnishes; fixatives in the nature of varnishes; lacquers in the nature of a coating; Japanese lacquer; glazes [paints, lacquers]; clear coating compositions in the nature of paint; fixatives in spray form for industrial use in the nature of an acrylic protective coating; anti-tarnishing preparations for coating metals, namely, coating preparations for protection against friction; protective coatings, namely, anti-tarnishing preparations for surfaces including windows preventing staining; lacquers for use in industry; coating preparations having water repellent properties; coatings in the nature of sprays; exterior surface protective coatings for repelling water; exterior surface protective coatings in the nature of paints and containing abrasive particles; exterior surface protective coatings of liquid plastics for protection against moisture; exterior surface protective coatings, namely, preparations for coating surfaces to protect against abrasion; exterior surface protective coatings, namely, preparations for

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

coating surfaces to protect against corrosion

CLASS 3: Cleaning agents for household purposes; polishing preparations; detergents for household use; shampoos and windshield washing fluid, for automobiles; non-medical toilet preparations, namely, soaps; perfumes and cosmetics; bleaching preparations and fabric softeners for laundry use; cleaning, [polishing,] scouring and abrasive preparations; [abrasive and polishing preparations for cleaning purposes;] abrasive and polishing preparations for scratch removal * for car lacquer as well as acrylic and plexiglass * ; bar soap; perfumery; ethereal oils; perfume, namely, fragrant preparations; [polishing preparations, namely, scratch-removing agents for electronic devices and their displays;] cleaning agents for cleaning electronic devices and their displays; chemical cleaning preparations for household purposes, namely, for cleaning displays, screens and touchscreens [; polishing preparations for polishing displays, screens and touch screens; polishing spray]

CLASS 4: Non-mineral oils and greases for industrial purposes; lubricants for machines; motor oils; dust absorbing compositions; electrical energy; candles, wicks for candles; methylated spirits for fuel and candles being of wax or liquid, for the illumination of carved pumpkins, mini-pumpkins, gourds, and other fruits and vegetables

CLASS 8: Hand operated cutting tools * except for abrasive tools * ; bench vices [hand implements], namely, hand-operated sharpening tools and instruments for the construction of machines, apparatus and vehicles, and for structural engineering * except for abrasive tools * ; cutting, drilling, [grinding wheels,] sharpening and surface treatment hand tools, namely, hand-operated industrial brushes for cleaning and putting a finish on metal, wood and rubber surfaces * except for abrasive tools * ; fastening and joining tools, namely, hammers, wrenches, clamps, nut drives and nut wrenches, ratchet handles, screw drivers and wrenches, spanners * except for abrasive tools * ; hand tools, namely, panel beating hammers

CLASS 9: Weighing apparatus and instruments, distance measuring apparatus, signaling whistles, apparatus for checking flight parameters, and life-saving rafts; apparatus for recording, transmission or reproduction of sound and images; blank USB flash drives; computer memory devices; personal protective equipment (PPE), namely, safety goggles; insulated clothing for protection against accident or injury; portable radios; accessories for mobile radio devices, namely, mobile carrying cases; SIM cards; encoded electronic chip cards for mobile radio devices; blank magnetic data carriers; downloadable computer operating software; telecommunications hardware and recorded software for monitoring and alerting remote sensor status via the Internet sold as a unit; downloadable application programming interface software; mobile telephone accessories, namely, belt clips; adapted protective films and protective glasses for smartphone; liquid crystal displays, namely, protective films for smartphones; screen protector comprised of protective glasses adapted for use with mobile phones; protective carrying cases specially adapted for personal digital assistants; protective films adapted for computer screens; protective cases for MP3 players; protective cases for e-book readers; pouches made in whole or substantial part of silicone specially adapted for mobile telephones; cases adapted for mobile phones; mobile telephone cases made of leather or imitations of leather; pouches made in whole or substantial part of fabric or textile material specially adapted for mobile telephones; protective covers and cases for laptops, mobile phones, smartphones, internet phones and tablet computers; batteries; rechargeable batteries; chargers for smartphones; chargers for electric batteries; headphones; stereo headphones; in-ear headphones; stereo loudspeakers; audio loudspeakers; audio loudspeakers for home use; personal stereo loudspeaker installations; microphones; car stereos; carrying cases, holders, protective cases and stands featuring power supply connectors, adaptors, speakers and battery charging devices, specially adapted for use with handheld digital electronic devices, namely, cell phones; chemically toughened protective glasses and fitted plastic films for protecting displays and other surfaces of electronic devices; screen protectors comprised of protective films and protective glasses adapted for use with mobile telephones and

portable electronic devices; screen protectors comprised of tempered glass adapted for use with portable electronic devices

CLASS 16: Paper and cardboard; stationery and educational kits sold as a unit in the field of math consisting primarily of educational books, flash cards, and worksheets, and also including an educational DVD; plastic bags and articles for packaging, wrapping and storage of paper, cardboard or plastics; adhesives for stationery or household purposes; bags for microwave cooking; kitchen paper towels; paper wipes for cleaning; paper doilies; paper hand towels; table napkins of paper; handkerchiefs of paper; paper washcloths; decorations of cardboard for foodstuffs; parchment paper; placards of paper or cardboard; tablemats of paper; table place setting mats made of cardboard; dinner place mats of cardboard; absorbent sheets of paper or plastic for foodstuff packaging; absorbent pads of paper and cellulose for use in food packaging; napkins made of paper for household use; napkins of cellulose for household purposes; napkin paper; decorative paper centerpieces; table runners of paper; tablecloths of paper; table linen of paper; towels of paper for drying purposes; table mats of paper, namely, drip mats; table mats made of cardboard, namely, drip mats; cellulose wipes; cook books; printed recipe cards; printed recipes sold as a component of food packaging; instruction sheets in the field of computers, mobile phones, tablets; printed matter, namely, vinyl static cling sheets on which prayers are printed for affixation in windows and windshields; plastic sheets for packaging; plastic film for use as wrapping and packaging material for food packaging; disposable paper tablecloths

CLASS 17: Clutch linings; flexible hoses, not of metal; sealing and insulating materials, rubber lids and caps, and insulation covers for industrial machinery, namely, for weatherproofing and insulating engine components; heat shrink nylon tubing for covering electrical wire and nylon grommets, flexible pipes, piping, tubes, and tubing of plastic, rubber or synthetic rubber; brake lining materials, partly processed; cylinder joinings; pipe gaskets; moldable compounds for use in jointing and packing; packing material for forming seals; insulating materials; plastic sections for use in the manufacture of spacer frames for use as building materials for heat-insulating applications, namely, non-conducting materials for retaining heat; caulking materials; valves of India - rubber or vulcanized fiber; plastics in extruded form for use in further manufacturing; packing, stopping and insulating materials; plastic film for packing, cushioning, or stuffing purposes; insulating materials and bark coverings for sound insulation; non-metal sealing rings for use as connection seals made of rubber or synthetic rubber plastic; pipe gaskets, rubber lids and caps and insulation covers made of rubber or synthetic rubber for sealing against water and for insulating engine components; washers made of rubber, synthetic rubber or vulcanized fiber; Semi-worked synthetic plastic and synthetic resins as semi-finished products in form of sheets, foams, foils and molded parts; insulation covers for industrial machinery made of rubber and plastic for packing, stopping and insulating purposes; paint shields, namely, sheets of adhesive plastic film used to cover and protect objects while painting for use as protection for the car paint and body during repair, maintenance, customer service and storage; adhesive plastic films for protecting the interior of the vehicle and as edge protection for repair, maintenance and customer service work; adhesive tape for industrial or commercial use; sleeves, connecting sleeves and washers of rubber or synthetic rubber for protecting parts of machinery; rubber bags for merchandise packaging [envelopes or pouches] for motor-driven land vehicles; rings of rubber for use as pipe connection seals, rubber stoppers for industrial packaging containers; shock-absorbing rubber buffers for industrial machinery; rubber, gutta-percha, rubber derivatives, asbestos, mica and synthetic rubber for use in production, electrical insulating semi-finished made of rubber products in the form of strips, electrical insulating semi-finished made of rubber products in the form of cuts, electrical insulating semi-finished made of rubber products in the form of profiles, molded parts made of electrically conductive rubber in extruded form for use in further manufacture; electrical insulating semi-finished made of rubber products in the form of shaped pieces, gutta-percha or rubber, in the form of blocks, plates, bars, foils, cords or tapes; plastic release film of low adhesion used to add texture to other materials, namely, for

decorating displays and other surfaces of electronic devices

CLASS 21: Coffee services in the nature of tableware, cookware, namely, pots and pans, and containers for household use; grill scrapers [cleaning articles]; unworked and semi-worked glass, not for building; brushes and brush-making materials; semi-worked glass, except building glass; glass incorporating fine electrical conductors; ground or polished plate glass; unworked or semi-worked glass for computers, mobile phones, smartphones and other portable electronic devices and handheld electronic devices for recording, organizing, transmitting, editing and reviewing text, data, image and audio files; semi-worked glass that is chemically reinforced for display covers for computers, mobile phones, smartphones and other portable electronic devices and handheld electronic devices for recording, organizing, transferring, editing and checking text, data, image and audio files; unworked or semi-worked flat glass for display covers for computers, mobile phones, smartphones and other portable electronic devices and handheld electronic devices for recording, organizing, transmitting, editing and reviewing text, data, image and audio files; semi-worked glass that is chemically reinforced for display covers for electronic devices including computers, mobile phones, smartphones and other portable electronic devices and handheld electronic devices for recording, organizing, transmitting, editing and reviewing text, data, image and audio files; unworked or semi-worked flat glass for display covers for electronic devices including computers, cell phones, smartphones and other portable electronic devices and handheld electronic devices for recording, organizing, transmitting, editing and reviewing text, data, image and audio files; unworked or semi-worked glass for electronic devices, including computers, mobile phones, smartphones and other portable electronic devices and handheld electronic devices for recording, organizing, transmitting, editing and reviewing text, data, images and audio files

The mark consists of the term "STARK" in uppercase letters with the horns of a bull forming the letter "T".

PRIORITY DATE OF 10-18-2019 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1538775 DATED 12-21-2019,
EXPIRES 12-21-2029

SER. NO. 79-288,750, FILED 12-21-2019

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
