MACRIUM MOBILEPROTECT

Reg. No. 7,376,543

Registered May 07, 2024

Corrected Sep. 03, 2024

Int. Cl.: 9, 38, 42

Service Mark

Trademark

Principal Register

Paramount Software UK Limited (UNITED KINGDOM Limited Company)
Kilburn House,
Manchester Science Park, Lloyd Street North Manchester M15 6SE
UNITED KINGDOM

CLASS 9: [Downloadable computer software for use in managing network communications traffic over the internet, networks, cloud servers, and applications; downloadable computer software for use in improving the security of the internet, networks, cloud servers, and applications, data backup and recovery, digital data storage, disaster recovery and data storage; downloadable application programming interface (API) software; recorded application programming interface (API) software;] downloadable computer application software for mobile phones for use in electronic storage of data; downloadable disaster recovery software; computer hardware and downloadable software for managing, securing and operating computer networks and computers via firewalls, backup software, antivirus software, resource monitoring software; downloadable computer software for providing computer network, internet, and computer security; downloadable computer software for providing online identity protection, privacy control, and parental control; downloadable computer software for providing computer network intrusion detection and prevention; downloadable computer software for scanning, detecting, and removing viruses, worms, Trojan horses, adware, spyware, and other malware; downloadable computer software for use in the monitoring and control of computer and online activity; downloadable computer software to prevent, diagnose, and repair computer problems; downloadable computer maintenance software; downloadable computer software for the back-up, storage, restoration and recovery of data, folders, and files; recorded computer software and downloadable computer software, namely, utility software; downloadable computer software for providing software updates; downloadable computer software to enable secure transmission of digital information over the Internet and other modes of communication between computing devices; downloadable computer software to integrate managed security services, namely, public key infrastructure services; downloadable computer software for use in analysis and reporting of computer system integrity and data integrity; downloadable cloud computing software for use in providing computer network, internet, and computer security, storing and managing electronic data, and connecting, operating, monitoring and securing computer networks; downloadable cloud-based software for use in providing computer network, internet, and computer security storing and managing electronic data, and connecting, operating, monitoring and securing computer networks; downloadable cloud computing software for use in providing computer network, internet, and computer security storing and managing electronic data, connecting, operating, monitoring and securing computer networks; computer programs, recorded, for use in electronic storage of data; downloadable computer software for use in storage of data; downloadable computer software for use in storage of data in cloud servers

CLASS 38: Provision of access to on-line Internet and telecommunications services

CLASS 42: Design and development of computer software for managing, securing and operating networks and computers via firewalls, back-up software, anti-virus software

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

and/or resource monitoring software; design and development of computer software for the back-up, storage, restoration and/or recovery of data, folders and files; design of computer hardware for use in managing, securing and operating networks and computers via firewalls, back-up software, anti-virus software and/or resource monitoring software; computer hardware engineering services in the development of hardware for use in managing, securing and operating networks and computers via firewalls, back-up software, anti-virus software and/or resource monitoring software; maintenance of domain name system management software, maintenance of domain name server software solutions, maintenance of domain name system hosting being software, maintenance of data protection software via data backup storage and restoration software, maintenance of anti-virus software and software for hardware being firewall and email anti-virus software; hosting services, namely, hosting computer software, hosting Internet websites, hosting of Internet web software applications, hosting electronic databases being servers, hosting of digital content being websites, and business computer software applications of others that are accessible via the Internet; technical support services, namely, updating, configuring, repairing, troubleshooting, monitoring, reporting on, and optimizing the performance of computer software that supports hosted computer software; leasing of computer software that supports hosted computer software for the purpose of data backup and recovery; computer services, namely, electronic data backup, data storage and data restoration for hosted computer software; computer diagnostic services relating to information technology, computers, hardware and software; providing authentication of identity in the nature of authentication of digital certificates and data providence and providing data encryption services; computer application and network security services for the security of client data and for enforcing, restricting and controlling access privileges of users of computing resources for cloud, mobile or network resources based on assigned credentials; information technology advisory and consultancy services; provision of technical information about the internet being information relating to computer technology and computer network security; on-line services, namely, providing information via computer networks in the field of computer security and computer network security; monitoring of computer systems and computer networks for security purposes, namely, detecting unauthorized access of data; providing computer security threat management systems, namely, providing online non-downloadable software for monitoring and tracking of security vulnerabilities and problems in computer software products, the internet, and computer networks; providing information relating to computer technology in the fields of computer and internet security, preventing computer threats, computer hardware and software applications in security; software as a service (SaaS) featuring software for use in data backup and recovery, digital data storage, disaster recovery and data storage; [platform as a service (PaaS) featuring computer software platforms for use in data backup and recovery, digital data storage, disaster recovery and data storage;] cloud * digital distributed * storage services for electronic data and electronic files; [cloud-based data protection services, namely, cloud based data protection services for electronic storage and recovery of data assets; providing virtual computer systems through cloud computing; providing virtual computer environments through cloud computing;] online data storage services, namely, electronic data storage * for hosted computer software * ; information, advisory and consultancy services relating to all the aforesaid services, namely, information technology (IT) consulting service

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 07-14-2022 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1705978 DATED 07-26-2022, EXPIRES 07-26-2032

No claim is made to the exclusive right to use the following apart from the mark as shown: "MOBILE PROTECT"

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
