

United States of America

United States Patent and Trademark Office

Reg. No. 6,848,730

Registered Sep. 20, 2022

Corrected Sep. 03, 2024

Int. Cl.: 1

Trademark

Principal Register

CUBICStars, Inc. (JAPAN CORPORATION)

1-1, Hyakunenkoen,

Kurume-shi Fukuoka, JAPAN 839-0864

CLASS 1: Analytical chemical agents for analysis in laboratories other than for medical or veterinary purposes; colored reagents kit comprising staining probes, namely, dyes, antibodies, DNA and RNA probes and specialized staining buffers for preparation of histological specimens or histopathological specimens for microscopic evaluation, other than for medical or veterinary use; coloring kit for making histological specimen or pathological specimens for microscopic evaluation consisting of chemical reagents other than for medical or veterinary purpose; chemical reagents, other than for medical or veterinary use; chemical agents for histological and pathological assays for scientific purposes, other than for medical or veterinary use; diagnostic reagents, other than for medical or veterinary use; analytical chemical agents for histological and pathological assays in laboratories, other than for medical or veterinary use; diagnostic reagents and preparations, other than for medical or veterinary use; reagents for scientific devices for chemical and biological analysis purposes; reagents for chemical analysis purposes other than for medical or veterinary purposes; chemical agents for histological and pathological scientific purposes other than for medical or veterinary purposes; chemical reagents for scientific purposes other than for medical or veterinary purposes; cell culture reagents for scientific or research purposes; antibody reagents for scientific purposes; reagents for scientific purposes; reagents for scientific use; biochemical preparations for scientific purposes; reagents for scientific or research use; reagents for research purposes; chemical reagents for paternity testing; chemical agents for use in manufacture of pharmaceuticals; in vitro diagnostic agents for scientific purposes; biochemical catalysts; biological preparations, other than for medical or veterinary use; chemicals for product development by biotechnology; penetrants for enhancing penetration of staining probes, namely, dyes, antibodies and DNA and RNA probes; chemical agents for histological and pathological staining, increasing signal-noise ratio and enhancing staining probe penetration; chemicals, namely, mixture of HEPES buffer, Triton X-100, NaCl, casein and screened penetrants; chemical reagents for non-medical purposes; reagents for protein examination and detection purposes, other than for medical or veterinary use; blocking reagents for bioassay purposes, other than for medical or veterinary use; stabilizing reagents for bioassay purposes, other than for medical or veterinary use; reagents for genetic research purposes, other than for medical or veterinary use; reagents and reagent chemicals for chemistry and research purposes, other than for medical or veterinary use; chemical reagents for scientific, research, or experimental purposes, other than for medical or veterinary use; reagents for scientific, experimental, and research purposes, other than for medical or veterinary use; reagents for detection of nucleic acid mutation, other than for medical or veterinary use; reagents for examination of proteins in specimens, other than for medical or veterinary use; reagents for examination of specific bacteria in specimens, other than for medical or

Patent and Trademark Office

veterinary use; reagents for detection or quantification of cells or cytoplasm, other than for medical or veterinary use; biochemical reagents, other than for medical use; protein analysis reagents, other than for medical or veterinary use; chemical reagents consisting of antibody kit for detection of particular protein, other than for medical or veterinary use; labeling reagents, other than for medical or veterinary use; chemical reagents for protein isolation, detection, measurement, and analysis purposes other than for medical or veterinary purpose; chemical reagents for scientific use, other than for medical or veterinary purpose; chemical reagents consisting of antibodies, other than for medical or veterinary purpose; chemical reagents for diagnosis using molecular sequences of extracts or analytes from or of organisms or biological substances such as nucleic acids, proteins, polypeptides, and antibodies, other than for medical or veterinary purpose; chemical reagents selected for research in life science field; laboratory reagents for use in molecular biology; biochemical reagents for use in molecular biology; chemical reagents for use in molecular biology and life science; molecular biological reagents for research purposes; reagents for test, examination, and research of pharmaceuticals, cosmetics, laboratory animals, human pathology specimen, or foods, other than for medical or veterinary use; staining reagents for research purposes, other than for medical or veterinary use; reagents and staining chemicals for preparation of histopathological specimens for research use; reagents and staining * chemical * agents for preparation of histopathological specimen for research use; staining chemicals and reagents for tissue specimens on microscope slides other than for medical or veterinary purpose; staining * chemical * agents and reagents for tissue specimens on microscope slides other than for medical or veterinary purpose; reagents for research and scientific purposes in histological and pathological fields, other than for medical or veterinary use; chemical reagents, biological reagents, cell lines reagents, cultured cells reagents, cell culture reagents, diagnostic chemicals, diagnostic and biological reagents, diagnostic and biological pharmaceuticals, and recombinant and natural proteins for diagnostic, scientific, industrial, experimental, and research purposes, for use in chemical, pharmaceutical, biotechnological, and diagnostic fields, other than for medical or veterinary use; reagents for chemistry, biology, biochemistry, immunology, and microbiology, and chemical agents for nucleic acid synthesis and analysis, other than for medical or veterinary use; reagents for scientific, experimental, or medical research, other than for medical or veterinary use; reagents for academic studies, administrative research, scientific research, and medical science research, other than for medical or veterinary use; chemical reagents for detection and visualization of nucleic acids or antibodies of biologically-derived materials on microscope slides for research or scientific purposes, other than for medical or veterinary use; diagnostic reagents for scientific or research purposes in oncological field, other than for medical or veterinary use; diagnostic reagents and chemical reagents, other than for medical or veterinary use; chemical agents and chemical reagents for use in field of research and engineering relating to biology or genetics, and chemicals for use in science and research, other than for medical or veterinary use; reagents for staining tissues and cells for scientific and research use; analytical samples and reagents for drug development and life science research, other than for medical or veterinary use; chemicals and chemical agents for manufacture of medicines and reagents, namely, HEPES buffer, Triton X-100, NaCl, casein and screened penetrants; chemical agents and reagents for detection of cancer diseases, tumor diseases, inflammatory conditions, infectious diseases, degenerative conditions, genetic abnormalities or genetic diseases, proliferative abnormalities or proliferative diseases, vascular diseases, precancerous conditions, malignant diseases, cancers, and congenital abnormalities for scientific or research purposes, other than for medical or veterinary use; reagents for pathological research, other than for medical or veterinary use; immunostaining reagents, other than for medical or veterinary use; reagents for test, assay, analysis, research, experiment, examination, and detection of protein in physical chemistry or biology and somatology, other than for medical or veterinary use; reagents for test, assay, analysis, research, experiment, examination, and detection of RNA in physical chemistry or biology and somatology, other than for medical or veterinary use; reagents for test, assay, analysis, research, experiment, examination, and detection of nucleic acid in physical chemistry or biology and somatology, other than for medical or veterinary use; reagents for test, assay, analysis,

research, experiment, examination, and detection of nucleic acid mutation in physical chemistry or biology and somatology, other than for medical or veterinary use; reagents for test, assay, analysis, research, experiment, examination, and detection of cells and cytoplasm in physical chemistry or biology and somatology, other than for medical or veterinary use; chemical agents for use in RNA stabilization before and after purification in physicochemical experiments and medical tests; chemical reagents for experimental or research purposes; reagents for preparation and staining of tissue samples for processing for research; histology and cytology reagents and staining chemicals for preparation of histopathological specimens for research purposes, other than for medical or veterinary use; histology and cytology reagents and staining liquid for preparation of histopathological specimen for research purposes, other than for medical or veterinary use

The mark consists of the wording "CUBIC-HV" with a cube to the left of the wording with three circles to the top left of the cube.

PRIORITY DATE OF 04-27-2020 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1572756 DATED 10-26-2020, EXPIRES 10-26-2030

The stippling is for shading purposes only.

SER. NO. 79-303,111, FILED 10-26-2020

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
