

# United States of America

## United States Patent and Trademark Office

**Reg. No. 7,410,740**

**Registered Jun. 11, 2024**

**Corrected Sep. 17, 2024**

**Int. Cl.: 1, 4, 5, 19, 42**

**Service Mark**

**Trademark**

**Principal Register**

Bind-X GmbH (GERMANY gesellschaft mit beschränkter haftung (gmbh))  
Am Klopferspitz 19  
82152 Planegg  
GERMANY

CLASS 1: Cement set accelerators; concrete bonding compounds and materials; biological activators, \* not to be used in relation to fertilizers, biostimulants and soil conditioners, \* namely, enzymes for industrial purposes, microorganisms for use in water and waste water treatment; chemicals for use in fuel as microbial growth inhibitors other than for medical and veterinary purposes; chemicals for use in herbicides; chemical products being additives for cement; chemicals for use in the decontamination of polluted sites; chemical preparations for the binding of industrial wastes and liquid waste; chemical and biological solutions for insulating, cultivating and fermenting microorganisms \*, not to be used in relation to fertilizers, biostimulants and soil conditioners \* ; chemical and biological preparations used as [ soil stabilisers and ] dust palliative for dust and erosion control and for protecting the soil from water and wind erosion; chemical, biological and biochemical substances used in horticulture, agriculture and forestry other than fungicides, herbicides, insecticides and parasitocides \* being agents for application for dust and erosion control, for protecting the soil from water and wind erosion and for growth inhibition of unwanted plants \* ; chemical, biochemical and biological preparations used in industry and science \* being agents for application for dust and erosion control, for protecting the soil from water and wind erosion and for growth inhibition of unwanted plants; \* [ fertilisers, and chemicals for use in agriculture, horticulture and forestry, excluding fungicides, herbicides, insecticides and parasitocides; fertilizing preparations; fertilizers; ] calcium carbide; catalysts for chemical and biochemical processes \*, not to be used in relation to fertilizers, biostimulants and soil conditioners \*; cell culture media for microbiology scientific and research use \* not to be used in relation to fertilizers, biostimulants and soil conditioners \*; microbially synthesised industrial chemicals, microbially synthesized monomeric chemical feed stocks for the industrial polymer industry, based on microbially induced calcium precipitates; chemical preparations for setting dust; [

Director of the United States  
Patent and Trademark Office

chemical substances for stabilising the soil; ] chemical compositions for setting cement; chemical compositions for setting dust; chemical compositions for dust proofing concrete

CLASS 4: Dust removing preparations, namely, dust binding and absorbing preparations; dust absorbing compositions; petroleum-based dust suppressants; dust controlling compositions, namely, dust binding and absorbing preparations; dust binding preparations for solid fuels

CLASS 5: Biological fungicides; biological herbicides; agricultural biopesticides; biocides; forestry chemicals, namely, fungicides; forestry chemicals, namely, herbicides; forestry chemicals, namely, insecticides; herbicides; herbicide for agricultural use; pesticides; agricultural pesticides

CLASS 19: Woven non-metallic fabrics for protection against erosion; woven non-metallic fabrics for the protection of slopes against erosion; woven non-metallic fabrics for the protection of dikes against erosion; non-metallic stabilisation fabrics for use in construction

CLASS 42: Analysis in the field of molecular biology; consultancy in the field of microbiology, biotechnology, biochemistry; consultancy in the field of molecular biology; design services relating to plants for the biotechnology industry; preparation of reports in the biotechnology field; information on the subject of scientific research in the field of biochemistry and biotechnology; research in the field of safety equipment for the control, insulation and pressure relief of dust; research and development in the field of biotechnology; software development and research, relating to applications of microorganisms; technical consultancy in the water quality and waste water sector; technical consultancy in the field of environmental science; technical consultancy in the implementation and industrialisation of university research regarding environmental science and engineering; scientific advisory services relating to waste water treatment, environmentally-conscious innovations; scientific and technological services, namely, scientific research and technological analysis in the field of waste water treatment and environmentally- conscious innovations; scientific testing, namely, chemical, chemical physical and microbiological testing of water, waste water and waste water residues

The color(s) orange is/are claimed as a feature of the mark.

The mark consists of series of orange shaded dots on four lines generally comprising a square shape with the first four dots being separate, and the remaining dots merging together to ultimately enclose a transparent dot in the center at the bottom.

PRIORITY DATE OF 04-13-2022 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1706589 DATED 10-13-2022, EXPIRES 10-13-2032

SER. NO. 79-359,867, FILED 10-13-2022

## **REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

### **Requirements in the First Ten Years\***

#### **What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

### **Requirements in Successive Ten-Year Periods\***

#### **What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

### **Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE:** Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

**NOTE:** A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
