TENSHO

Reg. No. 7,002,510

Registered Mar. 21, 2023

Corrected Oct. 01, 2024

**Int. Cl.: 7, 9, 10, 11, 12, 17,
19, 20, 35, 37, 40**

Service Mark

Trademark

Principal Register

TENSHO ELECTRIC INDUSTRIES CO., LTD. (JAPAN CORPORATION)
3-65, Minamimachida 5-Chome,
Machida-shi Tokyo 194-0005
JAPAN

CLASS 7: Road and concrete construction machines and apparatus; loading-unloading machines; chemical processing machines, namely, blending machines for chemical processing; textile machines, namely, bonding machines; Lumbering band saws; Woodworking machines, namely, plywood presses, plywood joining, gluing, finishing and drying machines; veneer manufacturing machines; plywood presses; plywood jointing, gluing, finishing and drying machines; industrial printing machines and bookbinding machines; sewing machines; plowing machines and plowing implements therefor in the nature of machine parts; painting machines; packaging and wrapping machines; plastic processing machines; non-electric turbines, not for land vehicles, other than water mills and wind mills, and replacement parts therefor; water mills; wind mills; [pneumatic and hydraulic machines, namely, vacuum pumps;] adhesive tape dispensing machines; automatic stamping machines; vending machines; fuel dispensing machines for service stations; textile washing machines for industrial purposes; washing machines for household purposes; mechanical parking systems; vehicle washing installations; food mixing machines for commercial use; food peeling machines for commercial use; food cutting, chopping and slicing machines for commercial use; dishwashers for industrial purposes; [dishwashers for household purposes;] electric wax-polishing machines for industrial purposes; vacuum cleaners for industrial purposes; [electric wax-polishing machines for household purposes; vacuum cleaners for household purposes;] Power-operated sprayers for disinfecting, insecticides and deodorants, not for agricultural purposes; Transmission shafts other than land vehicles, axles for machines and spindles being parts of machines; bearings being parts of machines; Shaft couplings for machines; transmissions for machines; shock absorbers being parts of machines; springs being parts of machines; brakes for machines; valves being parts of machines; lawnmowers; curtain drawing devices electrically operated; electric door openers; waste compacting machines for industrial purposes; waste crushing machines for industrial purposes; 3D printers [; starters for motors and engines; AC motors and DC motors, not for land vehicles; AC generators; alternators; DC generators; electric food blenders for household purposes; dynamo brushes]

CLASS 9: Protective helmets; railway signal apparatus, luminous or mechanical; vehicle breakdown warning triangles; road signs, luminous or mechanical; measuring and testing machines and instruments, namely, automatic pressure control measuring and testing machine and instruments, automatic liquid-flow control measuring and testing machines and instruments; [electric power distribution units; power controllers; rotary converters; phase modifiers; solar batteries; batteries and dry cells; electric meter; electrical outlet tester; magnetic apparatus used to generate and measure magnetic fields; electric wires and cables; telecommunication machines and apparatus, namely, telephones, mobile phones, facsimile machines; personal digital assistants;] electron

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

tubes; [semi-conductors and semiconductor memories;] electronic circuits, not including those recorded with computer programs; downloadable computer programs for designing and molding of plastic products and parts; geiger counters; [welding transformers;] cyclotrons, not for medical purposes; industrial X-ray machines and apparatus, not for medical use; industrial betatrons, not for medical use; magnetic prospecting machines in the nature of metal detectors; magnetic object detectors; seismic exploration apparatus, namely, seismic detectors; hydrophones; echo sounders; ultrasonic flaw detectors; ultrasonic sensors; [remote control for electronic door closing control systems;] electron microscopes; [magnetic cores; resistance wires; electrodes, other than welding electrodes or medical electrodes; fire boats; satellites for scientific purposes; fire engines; dust masks; gas masks; welding masks; fireproof garments; emergency escape hoods; gloves for protection against accidents; spectacles;] recorded computer game software for home video game machines; protective helmets for sports; sports whistles; weight belts for scuba diving; air tanks for scuba diving; snorkels; regulators for scuba diving; [metronomes; automatic performance computer programs for electronic musical instruments recorded on CD-ROMs; electric and electronic effects units for musical instruments; phonograph records featuring music; downloadable music files; downloadable image files containing images and descriptions of plastic products; recorded video discs and video tapes featuring images and descriptions plastic products; downloadable electronic publications, namely, catalogs in the field of plastic products]

CLASS 10: Finger guards for medical purposes; pacifiers for babies; ice bag pillows for medical purposes; feeding cups for medical purposes; dropping pipettes for medical purposes; medical ice bags; medical ice bag holders; baby bottles; nursing bottles; contraceptives apparatus; artificial tympanic membranes; prosthetic and filling materials, namely, artificial materials for use in the replacement of bones; [ear plugs for sleeping; ear plugs for soundproofing;] aesthetic massage apparatus for commercial use; medical apparatus and instruments, other than walking aids, and crutches, namely, high frequency electromagnetic therapy apparatus, air mattresses for medical purposes; walking aids for medical purposes; crutches; electric massage apparatus for household purposes; gloves for medical purposes; urinals being vessels for medical purposes; bed pans; ear picks; containers especially made for medical waste; containers for medical waste for disposing of medical apparatus, syringes and other contaminated medical waste; containers especially made to contain medical waste and to be incinerated along with medical waste; medical specimen cups; parts of medical waste containers for sealing medical waste, namely, lids and handles; containers for medical waste; bags for sealing and containing medical waste

CLASS 11: Toilet bowls and seats sold as a unit; air conditioners for industrial purposes; freezing machines and apparatus for industrial purposes; laundry dryers, electric, for industrial purposes; towel steamers for hairdressing purposes; hair drying machines for beauty salon use; hair steamers for beauty salon use; sanitary installations, namely, shampooing basins for barbers' shop use; electric dish drying machines for commercial use; dish disinfectant apparatus for commercial use; Sinks integrated into kitchen counters or countertops; kitchen sinks for commercial use; tap water faucets; plumbing fittings, namely, level controlling valves for tanks and pipe line cocks; waste water treatment tanks for industrial purposes; septic tanks for industrial purposes; garbage incinerators for industrial purposes; garbage incinerators for household purposes; solar water heaters; water purifying apparatus for industrial purposes; electric lamps; household electrothermic appliances, other than for beauty or sanitary purposes, namely, electric humidifiers for household purposes and electric fans for personal use; household electrothermic appliances for beauty or sanitary purposes, namely, hairdryers; washers for water taps; washers for water taps; gas water heaters for household purposes; built-in kitchen sinks with integrated worktops for household purposes; kitchen sinks for household purposes; household tap-water filters, non-electric; standing paper lanterns, namely, Andon; portable paper lanterns, namely, Chochin; gas lamps; oil lamps; lamp chimneys; warming pans for beds, non-electric; non-electric pocket warmers, namely, chemically-activated heating packets for warming

hands; hot water bottles for warming one's feet in bed; waste water treatment tanks for household purposes; septic tanks for household purposes; toilet stool units with a washing water squirter; disinfectant dispensers for toilets; toilet bowls; toilet seats, namely, seatings for use with Japanese style toilet bowls; sanitary installations, namely, bath tubs; gas stoves for household purposes; solid fuel burning stoves for household purposes

CLASS 12: Traction engine; shafts, axles and spindles being structural parts for land vehicles; wheel and axel bearings for land vehicles; shaft couplings for land vehicles; Transmissions and gears for land vehicles; shock absorbers for land vehicles; coil and leaf springs for land vehicles; brakes for land vehicles; parachutes; anti-theft alarms for vehicles; wheelchairs; [AC motors or DC motors for land vehicles, not including their parts; vessels, other than air cushion vehicles, and structural parts therefor;] air cushion vehicles; aircraft and structural parts therefor; railway rolling stock and structural parts therefor; automobiles and structural parts therefor; motorcycles, bicycles and structural parts therefor; rickshaws; sleighs and sleds for transport purposes; trolleys; carts; horse drawn carriages; bicycle trailers, namely, riyakah; adhesive rubber patches for repairing tubes or tires; baby carriages; prams; handling carts

CLASS 17: Valves of rubber or vulcanized fiber not including machine elements; Non-metal gaskets for building equipment; junctions for pipes, not of metal; joint packings for pipes; floating anti-pollution barriers; [electrical insulating materials;] washers of rubber or vulcanized fiber; chemical fiber thread and yarn, not for textile use; rock wool; slag wool for use a building insulator; rubber thread and covered rubber yarn, not for textile use; chemical fiber yarn and thread, not for textile use; insulating gloves; rubber cords and laces; industrial packaging containers of rubber; rubber stoppers for industrial packaging containers; rubber stoppers for bottles; rubber lids and caps for industrial packaging containers; plastic sheeting for agricultural purposes; [Paper for electrical capacitors and condensers; vulcanized fiber; adhesive tapes, other than stationery and not for medical or household purposes;] Semi-worked synthetic plastic and synthetic resins as semi-finished products in form of pellets, rods, foils, foams, fibers, films and sheets; rubber, raw or semi-worked; soundproofing materials of rock wool, not for building purposes; Plastic composite material in the form of boards and plates for use in manufacturing; Plastic tape for use in the fields of construction and automobiles; Flexible plastic pipes for plumbing purposes; plastic rods and bars; Synthetic padding and stuffing materials, namely, plastic waddings; Plastics sheets for use in further manufacturing; fiber-reinforced plastic boards for use in further manufacture; plastic fibers, other than for textile use; metalized plastic sheets and adhesive-coated plastic sheets for use in further manufacture; plastic film for packing, cushioning, or stuffing purposes; synthetic resins, semiprocessed; anti-glare plastic films for window * being tinted films * ; stuffing of rubber or plastic

CLASS 19: [Tar; pitch;] non-metallic minerals for building or construction; ceramic building materials, namely, bricks; refractory bricks not of metal; plastic building materials, namely, plastic wallboards, plastic tiles, plastic boundary marking posts, ceiling tiles of plastic, plastic roof tiles, plastic floorboards; non-metal synthetic building materials, namely, synthetic boards for building purposes, synthetic flooring materials or wall-claddings; rubber building or construction materials, namely floor tiles and flooring; plaster for building purposes; lime building or construction materials; plaster for use in building and construction; rockslide retention nets of non-woven textiles made of synthetic fibres; flagpoles being structure not of metal; Transportable buildings, not of metal; erosion control mats integrating plants seeds; plastic security windows allowing communication; road marking sheets and strips of synthetic materials; building timber; [building stone; building glass;] artificial fish reefs, not of metal; prefabricated poultry houses, not of metal; paint spraying booths, not of metal; molds for forming cement posts, [panels and slabs,] not of metal; water-pipe valves, not of metal or plastics; road signs, not of metal, non-luminous and non-mechanical; beacons not of metal, nonluminous; liquid storage tanks of masonry for industrial purposes; water tanks of masonry for industrial purposes; water tanks of masonry for

household purposes; letter boxes of masonry; joinery fittings, not of metal; outdoor blinds, not of metal or textile; transportable greenhouses, not of metal, for household use; [gravestones; stone sculptures; concrete sculptures; marble sculptures;] fiberboard of inorganic fiber; plaster boards; slag stone; Secondary moisture drainage system consisting of non-metal troughs and collection boxes; sewage infiltration facilities or rainwater infiltration facilities of plastics, comprised primarily of non-metal drain pipes and non-metal water storage basins for collecting and storing water; paving blocks * of plastics * [, not of metal; non-metal] water-pipes * of plastics * , and drain pipes * of plastics * ; brackets, not of metal nor of masonry, for building; street gutters, not of metal nor of masonry

CLASS 20: Loading pallets, not of metal; beehives; hairdresser's chairs; barbers' chairs; valves of plastics, not including machine elements; liquid storage tanks, not of metal or masonry; industrial water storage tanks, not of metal or masonry; liquefied gas storage tanks, not of metal or masonry; gas storage tanks, not of metal or masonry; containers for transport, not of metal; curtain rods, roller and hooks; non-metal plastic threaded fasteners; nonmetal fasteners, namely, nails, nuts, screws, tacks, bolts, rivets; non-metal casters; washers, not of metal, not of rubber or vulcanized fiber; locks, non-electric, not of metal; cushions; Japanese floor cushions, namely, Zabuton; pillows; mattresses; industrial packaging containers of wood, not including corks nor wooden stoppers, lids and covers; industrial packaging containers of bamboo; industrial packaging containers of plastics not including plastic stoppers, lids, covers and bottles; corks, plastics and wooden stoppers for industrial packaging containers; plastic and wooden lid and covers for industrial packaging containers; embroidery frames and hoops; nameplates and door nameplates, not of metal; [hand-held flagpoles, not of metal;] hand-held flat fans; hand-held folding fans; stakes, not of metal, for plants or trees; dog kennels; nesting boxes for small birds; step ladders and ladders, not of metal; letter boxes not of metal or masonry; hat hooks, not of metal; water tanks for household purposes, not of metal or masonry; keyboards for hanging keys and similar items; tool boxes, not of metal; fixed towel dispensers, not of metal; furniture; indoor window blinds; blinds of reed, rattan or bamboo * , namely, Sudare * ; bead curtains for decoration; indoor window shades; wind chimes; oriental single panel standing partition, namely, Tsuitate; oriental folding partition screens, namely, Byoubu; benches; advertising balloons; upright signboards of wood or plastics; imitation foods for display made of plastic materials; [coffins, funerary urns; ritual flower stands; Butsudan being Buddhist family altars; Kamidana being household shinto altars; grave markers of plastic;] personal compact mirrors and bags therefor; shoe dowels, not of metal; shoe pegs, not of metal; protective members, not of metal, for shoes and boots; cradles; [infant walkers;] mannequins; costume display stands; picture frames; [plaster sculptures; plastic sculptures; wooden sculptures;] Japanese food wrapping sheets of wood as materials, namely, Kyogi; bamboo, unworked or partly worked; rattan; reeds shells, unworked or partly worked; artificial horns; animal teeth; tortoiseshells, unworked or partly worked; coral, unworked or partly worked; plastic lids and stoppers for plastic packaging containers; nonmetal sealing caps for plastic packaging containers; plastic boxes for delivery and storage; storage boxes of plastics for general use; storage tanks of plastics; plastic curved rods for sealing plastic containers; water tanks for household purposes, not of metal nor of masonry; boxes of wood or plastics; plastic barrels

CLASS 35: Advertising and publicity services; promoting the goods and services of others through the administration of sales and promotional incentive schemes involving trading stamps; business management analysis and business consultancy; business management; marketing research and analysis; providing business information concerning commercial sales; import-export agency services; providing office functions, namely, filing, in particular documents or magnetic tapes; compilation of information into computer databases; organisation for a third party of telephone welcoming services and of telephone receptionist services; publicity material rental; rental of typewriters, copying machines and word processors; providing commercial information and advice for consumers in the choice of products and services; [retail store and wholesale store services featuring automobiles;] retail store and wholesale store services featuring two-

wheeled motor vehicles; retail store and wholesale store services featuring furniture; retail store and wholesale store services featuring joinery fittings; retail store and wholesale store services featuring tatami mats; [retail store and wholesale store services featuring ritual equipment; retail store and wholesale store services featuring electrical machinery and apparatuses;] retail store and wholesale store services featuring bladed or pointed hand tools, hand tools and metal hardware; retail store and wholesale store services featuring kitchen equipment, cleaning tools and washing utensils; retail store and wholesale store services featuring pharmaceutical, veterinary and sanitary preparations * , namely, toiletries, dentifrices, soaps and detergents * [and medical supplies] ; retail store and wholesale store services featuring agricultural machines, implements and supplies; [retail store and wholesale store services featuring printed matter; retail store and wholesale store services featuring paper and stationery; retail store and wholesale store services featuring toys, dolls, game machines and apparatus;] retail store and wholesale store services featuring building materials; retail store and wholesale store services featuring semi-wrought precious stones and their imitations; retail store and wholesale store services featuring plastic building materials; retail store and wholesale store services featuring plastic processing machines and apparatus; retail store and wholesale store services featuring plastic semi-worked products; retail store and wholesale store services featuring industrial packaging containers of plastics; retail store and wholesale store services featuring storage boxes of plastics; retail store and wholesale store services featuring medical waste containers; retail store and wholesale store services featuring sewage inlets or rainwater inlets of plastics; retail store and wholesale store services featuring sewage infiltration facilities and rainwater infiltration facilities of plastics; retail store and wholesale store services featuring rainwater tanks of plastics; retail store and wholesale store services featuring rainwater tanks; retail store and wholesale store services featuring loading and unloading pallets; retail store and wholesale store services featuring containers for transport; retail store and wholesale store services featuring plastic barrels; retail store and wholesale store services featuring handling carts

CLASS 37: Building construction; construction consultancy; maintenance of building equipment; repair of bicycles; repair or maintenance of automobiles; repair or maintenance of railway rolling stocks; repair or maintenance of two wheeled motor vehicles; repair or maintenance of loading-unloading machines and apparatus; repair or maintenance of office machines and equipment; repair or maintenance of air conditioners for industrial purposes; repair or maintenance of electronic office machines and apparatus; repair or maintenance of telephone apparatus; repair of radio receivers and television receivers; repair or maintenance of telecommunication machines and apparatus * , other than telephone apparatus, radio receivers and television receivers * ; repair or maintenance of construction machines and apparatus; repair or maintenance of consumer electric appliances; repair or maintenance of electric lighting apparatus; repair or maintenance of electric motors; repair or maintenance of power distribution or control machines and apparatus; repair or maintenance of power generators; repair or maintenance of laboratory apparatus and instruments; repair or maintenance of measuring and testing machines and instruments; repair or maintenance of medical apparatus and instruments; repair or maintenance of machines and apparatus for lumbering, woodworking, or veneer or plywood making; repair or maintenance of textile machines and apparatus; repair or maintenance of painting machines and apparatus; repair or maintenance of plastic processing machines and apparatus; repair or maintenance of packaging or wrapping machines and apparatus; repair and maintenance of 3D printers; furniture restoration; umbrella repair; repair or maintenance of bath fittings; rental of drainage pumps; [rental of dish drying machines for restaurants;] rental of dish washing machines for industrial purposes; installation of rainwater filtration facilities, rainwater drainage facilities, rainwater collecting facilities or rainwater tanks; consultancy regarding installation of rainwater filtration facilities, rainwater drainage facilities, rainwater collecting facilities or rainwater tanks; maintenance of rainwater filtration facilities, rainwater drainage facilities, rainwater collecting facilities or rainwater tanks; maintenance or repair of plastic rainwater inlets or rainwater tanks; rental of rainwater drainage facilities

CLASS 40: Metal treating; processing of rubber; processing of plastics; ceramic processing; woodworking; paper treatment and paper working; treatment of materials, namely, articles made of stone ; taxidermy; processing of materials, namely, bamboo, tree barks, rattan, and vines, other than processing of ingredients; rental of 3D printers; providing material treatment information; printing; laminating of plastic sheets; processing of plastic materials; molding of plastic materials; molding of plastics; molding of products or parts of plastics; application of protective resin coatings to plastic films; custom manufacture of synthetic resin molded products; application of protective surface coatings with synthetic resin by means of vacuum; providing information concerning processing of plastic materials; printing of decorative patterns on plastic films or wrappers; custom assembling of products made of plastic parts or complex materials for others; custom manufacturing of furniture or plastic parts; water transfer printing

The color(s) blue and red is/are claimed as a feature of the mark.

The mark consists of TENSHO in blue letters with a red triangle inside of the N.

PRIORITY DATE OF 08-07-2020 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1610010 DATED 11-16-2020,
EXPIRES 11-16-2030

SER. NO. 79-318,967, FILED 11-16-2020

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
