United States Patent and Trademark Office

Reg. No. 7,423,722

Registered Jun. 25, 2024

Corrected Oct. 29, 2024

Int. Cl.: 6, 7, 42

Service Mark

Trademark

Principal Register

Austruct Industries Pty Ltd (AUSTRALIA proprietary limited company (p/l or pty.ltd.))
14 Arthur Rd
Wattle Grove WA 6107
AUSTRALIA

CLASS 6: Prefabricated bridge structures of metal; Prefabricated metal bridges; Metal railings for fences, balconies, bridges and metal mine working platforms; Transportable, portable, modular building structures of metal; Building structures of metal, namely, framework of metal for building, frames of metal for building and steel frame for building; Building structures of metal, namely, construction elements made of metal, namely, fabricated metal components for building foundations; Building structure extensions of metal, namely, modular metallic buildings to add to existing building structures; Frames of metal for structures, namely, frames of metal for building, greenhouse frames of metal and door frames of metal; Frames of metal for structures, namely, window frames of metal, cold frames of metal and frames of metal for sliding doors; Structural steels, namely, steel rebars, rods, and mesh used for strengthening and reinforcing concrete structures, steel frames for building, steel angles for use in building construction; Structural steels, namely, steel chains, steel wire rope and steel alloys; Structural steelwork, namely, steel pipes and tubes; Structural steelwork, namely, steel plates and sheets; Tank structures of metal, namely, metal storage tanks, industrial water tanks of metal, liquefied gas storage tanks of metal; Tank structures of metal, namely, metal fluid storage tanks; Tank structures of metal, namely, metal tanks for mineral processing; Welded metal structures, namely, metal shelter structures, metal structures for mounting solar panels, prefabricated metal structures with flexible covers for agricultural, commercial or industrial storage; Welded metal structures, namely, portable metal structures with flexible covers for agricultural, commercial or industrial storage; Welded metal structures, namely, modular metal structures with flexible covers for agricultural, commercial or industrial storage and metal structures in the nature of ramps for docking and storing boats; Working platforms structures, namely, metal mine working platforms and metal scaffolding; Working platforms structures, namely, metal

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

mine drilling and working platforms; gratings of metal; handrails of metal for stairs * industrial structures; * exterior * handrails of metal for use in buildings * , and interior handrails of metal for use in industrial and gathering buildings * ; handrails of metal for walkways; Chutes of metal for moving cattle, goods, trash, other than parts of machines; Gravity conveyors being chutes of metal for moving cattle, goods, trash; Wear resistant linings of metallic materials being wall linings of metal for building, linings of metal for building, sheet metal linings

CLASS 7: Belt conveyors; Conveyors being machines for use in mines; Mine working machines, namely, mine borers, mining drill sharpeners, drills for the mining industry, elevators for use in mines, coal loaders; mining machines; Machines for use in mines, namely, mine borers, mining drill sharpeners, drills for the mining industry, elevators for use in mines, coal loaders; Machines for use in mines, namely, mining bits, rubber tracks being parts of mining machines, truck mills for mining purposes; Balancing machines for stacker mining, reclaimer mining and ship loader mining

CLASS 42: Shop design, namely, shop detailing design in engineering drawing, involves creating detailed drawings and specifications for various components of a structure or machine; Quality control for others; Quality control of goods and services; Quality control being inspection of metal goods for quality control purposes; Engineering services in the nature of provision of engineering reports; industrial design; engineering project management services; engineering drawing; industrial engineering design services; Mechanical engineering design services; structural engineering design services; engineering design; design of industrial products; design of industrial machinery; design of electrical systems; design of electronic systems; design of instruments; design of pipelines; development of industrial machinery; development of industrial processes; Design planning, namely, initial planning of engineering drawing in mining project design * ; all the aforesaid services in context of industrial structures *

The mark consists of a large stylized letter "A" with a small square to the upper left of the "A".

OWNER OF INTERNATIONAL REGISTRATION 1677905 DATED 05-25-2022,
EXPIRES 05-25-2032

SER. NO. 79-347,451, FILED 05-25-2022

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
