Patent and Trademark Office

excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * ambient sound machine, namely, a sound transmitting apparatus * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * ambient sound machine, namely, a sound transmitting apparatus that connects to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * ambient sound machine, namely, a sound transmitting apparatus that connects to a mobile device or a portable computing device excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; ambient sound machine, namely, a sound transmitting apparatus for toddlers * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * ambient sound machine, namely, a sound transmitting apparatus for [infants and] toddlers * that connects to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * ambient sound machine, namely, a sound transmitting apparatus for [infants and] toddlers that connects to a mobile device or a portable computing device * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination ambient sound machine, namely, a sound transmitting apparatus featuring a nightlight * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination ambient sound machine, namely, a sound transmitting apparatus featuring a nightlight that connects to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination ambient sound machine, namely, a sound transmitting apparatus featuring a nightlight that connects to a mobile device or a portable computing device * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination ambient sound machine, namely, a sound transmitting apparatus featuring a nightlight and alarm clock * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination ambient sound machine, namely, a sound transmitting apparatus featuring a nightlight, and alarm clock that connects to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination ambient sound machine, namely, a sound transmitting apparatus featuring a nightlight, and alarm clock that connects to a mobile device or a portable computing device * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children *

FIRST USE 10-15-2015; IN COMMERCE 10-15-2015

CLASS 11: Electric nightlight * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * electric nightlight that connects to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * electric nightlight that connects to a mobile device or a portable computing device * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination electric nightlight featuring an ambient sound machine in the nature of a sound transmitting apparatus * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination electric nightlight featuring an ambient sound machine in the nature of a sound transmitting apparatus that connects to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination electric nightlight featuring an ambient sound machine in the nature of a sound transmitting apparatus that connects to a mobile device or a portable computing device * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination electric nightlight, featuring an ambient sound machine in the nature of a sound transmitting apparatus, and an alarm clock * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination electric nightlight, featuring an

ambient sound machine in the nature of a sound transmitting apparatus, and an alarm clock that connects to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination electric nightlight, featuring an ambient sound machine in the nature of a sound transmitting apparatus, and an alarm clock that connects to a mobile device or a portable computing device * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children *

FIRST USE 10-17-2016; IN COMMERCE 1-3-2017

CLASS 14: Alarm clock * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * alarm clock that connects to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * alarm clock that connects to a mobile device or a portable computing device * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination alarm clock featuring an electric nightlight * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination alarm clock featuring an electric nightlight that connects to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination alarm clock featuring an electric nightlight that connects to a mobile device or a portable computing device * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination alarm clock, featuring an electric nightlight, and an ambient sound machine in the nature of a sound transmitting apparatus * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination alarm clock, featuring an electric nightlight, and an ambient sound machine in the nature of a sound transmitting apparatus that connects to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children; * combination alarm clock, featuring an electric nightlight, and an ambient sound machine in the nature of a sound transmitting apparatus that connects to a mobile device or a portable computing device * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children *

FIRST USE 10-17-2016; IN COMMERCE 1-3-2017

CLASS 20: Diaper changing mats; diaper changing mats that connect to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children * ; diaper changing mats that connect wirelessly to a mobile device or a portable computing device *excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children * ; combination diaper changing mats featuring weighing scales for [infants and] toddlers; combination diaper changing mats featuring weighing scales for [infants and] toddlers that connect to a wireless communication network * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children * ; combination diaper changing mats featuring weighing scales for [infants and] toddlers that connect wirelessly to a mobile device or a portable computing device * excluding products primarily intended for use by pregnant women, new mothers, newborn or infant children *

FIRST USE 10-15-2015; IN COMMERCE 10-15-2015

CLASS 42: Computer and mobile services, namely, creating an on-line community for registered users of computing devices, mobile phones, or portable electronic devices to monitor [infant or] toddler development, to form virtual communities, and to engage in social networking

FIRST USE 10-15-2017; IN COMMERCE 10-15-2017

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO
ANY PARTICULAR FONT STYLE, SIZE OR COLOR

SER. NO. 88-464,361, FILED 06-07-2019

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
