

United States of America

United States Patent and Trademark Office

EBC

Reg. No. 5,784,149

Registered Jun. 25, 2019

Corrected Nov. 12, 2024

Int. Cl.: 9, 16, 42

Service Mark

Trademark

Principal Register

Rosenberger Hochfrequenztechnik GmbH & Co. KG (GERMANY GMBH & CO. KG)

Hauptstraße 1
83413 Fridolfing
GERMANY

CLASS 9: Electric plugs, electric sockets and other electric contacts; Plug-in connectors; Electrical plugs; Plug adaptors; Electricity mains apparatus, namely, electrical outlets; Apparatus and instruments for accumulating and storing electricity, namely, electric accumulators; Apparatus and instruments for controlling electric current; electrical components in the nature of electric contactors and electronic components for computers; Photovoltaic apparatus for generating electricity in the nature of photovoltaic inverters; Uninterruptable electric power supplies; Galena crystal detectors for use in electronics; Regulated electric power supplies; DC/AC power converters; electrical power distribution units; Charging stations for electric vehicles; Power-line transmission apparatus; Piezoelectric igniters, namely, piezoelectric switches; Electric power distribution units; Uninterruptible power supply apparatus in the nature of batteries; AC/DC power converters; Electricity measuring instruments for measuring voltage; time recording apparatus; Audiovisual apparatus in the nature of audiovisual receivers; Global Positioning System (GPS) apparatus; Apparatus for the reproduction of images; Apparatus for the transmission of images; Data processing apparatus; Satellite broadcasting instruments, namely, receiving antennas; Charging appliances for rechargeable equipment; [Electrical remote controls for time data communication apparatus;] Data communications apparatus, namely, wireless communication devices for data transmission; harnesses specially adapted for holding electric cables; Cable modems; Cable connectors; Cable adapters in the nature of cable television converters; USB cables; Electrical cables; Mobile High-Definition Link cables; Armatures for the use in electrical apparatus; Anodes; Connection cables; cable junctions for electrical cables; Electrical terminal boxes for electric conductors; Junction boxes, namely, tap boxes; Connection boards, namely, electric circuit boards; Connection units in the nature of electrical connections; Connectors, electric; Antenna cables in the nature of antennas; electric antenna transmission wire; Anticathodes; Antistatic bag specially adapted to carry electric wires; Bus interfaces; Chip coils in the nature of electric coils; Input modules, namely, voltage monitor modules; Memory storage devices, namely, memory cards; Decade electric switches; Decorative switch plate covers; electric resistors, namely, Digital potentiometers; Load cell digitizers; Diodes; Electric flasher switches; Rotary electric switches; Electric terminal plugs; Electric wiring harnesses for automobiles; Electrical satellite receivers; Coils, electric;

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

Control modules in the nature of electric memory modules; Splice connectors in the nature of splices for electrical transmission lines; Electronic navigational apparatus and instrument; Electronic semi-conductor memory units; Electronic control instruments, namely, electronic control circuits for electric heaters and fans; Electronic components in the nature of switches used in machines; Electronic chips for the manufacture of integrated circuits; Electromagnetic electricity conduits; High frequency switches; Radio-frequency antennas; High frequency electro-optic transducers; High-frequency apparatus, namely, high frequency switches; High frequency electric coils; Radio-frequency transmitters; High frequency convertors; Radio-frequency GPS receivers; High-frequency switching power supplies; Antenna filters; Aerials; Antennas and aerials as communications apparatus; Antennas and aerials as components; Aerials for telecommunications networks; Aerial cables for heavy currents; Antenna parameter measuring apparatus; pressure measuring apparatus; electronic flow meters; optical distance measurement apparatus; Digital antenna parameter measuring apparatus; measuring devices, namely, electric wire diameter measuring devices; pressure gauges with digital readout; motion detectors for electric meters; blank USB flash drives; USB adapters in the nature of USB hubs; USB web keys for automatically launching pre-programmed website URLs; USB battery chargers; USB battery chargers for electronic cigarettes; USB cables for cellphones * ; all of the aforementioned goods not in the field of radio remote control * none of the aforementioned goods for or on the field of concrete, mortar and slurry pumps, concrete mixers, truck mixers, belt conveyors and parts thereof, except connectors and cables for said machines *

CLASS 16: Printed matter in the nature of printed books in the field of electricity; Year planners, namely, daily planners; desktop planners; writing tablets * ; none of the aforementioned goods for or on the field of concrete, mortar and slurry pumps, concrete mixers, truck mixers, belt conveyors and parts thereof *

CLASS 42: Advisory services in the field of scientific research; DNA analysis services for scientific purposes; Scientific research; Scientific laboratory services; Computer aided scientific research services; Computer aided scientific electric meter data analysis services; Preparation of scientific reports being scientific research; Scientific computer programming services; Scientific technological services, namely, scientific research, analysis and testing in the field of technology; Technological consultancy in the field of scientific research; Technological planning services in the field of scientific research; scientific research relating to technology; scientific and Technological services, namely, technological analysis services in the field of scientific research; Scientific and technological services, namely, preparation of technological reports in the field of scientific research; Conducting technical project studies in the nature of scientific research; Consultancy services relating to technological research; Scientific and technological design of computer software; Technological advisory services relating to the design of computer software; Services for the provision of technological information, namely, providing technology information in the field of scientific research; Technological studies, namely, scientific research relating to machine tools; Technological advisory services relating to machine engineering analysis; Technological consultancy in the field of computer hardware systems used in energy production and use; Consultancy services in the field of the development of new technology for others * ; none of the aforementioned services for or on the field of concrete, mortar and slurry pumps, concrete mixers, truck mixers, belt conveyors and parts thereof *

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 01-23-2018 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1410362 DATED 05-28-2018, EXPIRES 05-28-2028

SER. NO. 79-235,602, FILED 05-28-2018

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
