

United States of America

United States Patent and Trademark Office

Reg. No. 7,377,072

Registered May 07, 2024

Corrected Jan. 14, 2025

Int. Cl.: 7, 9, 11, 35, 37, 42

Service Mark

Trademark

Principal Register

Gebr. Becker GmbH (GERMANY gesellschaft mit beschränkter haftung (gmbh))

Hölker Feld 29-31

Wuppertal, GERMANY 42279

CLASS 7: Machines and machine parts for generating, providing and regulating vacuums and fluids, namely, air oil separators being machines parts; pumps, namely, pressure-[vacuum] *vacuum* pumps; vacuum pumps; rotary vane vacuum pumps; screw vacuum pumps; side channel vacuum pumps; radial vacuum pumps; air compressors; compressors for air and gas; rotary vane compressors; screw compressors being machine parts or being stand-alone machines; side channel compressors being machine parts or being stand-alone machines; submersible motor compressors being machine parts or being stand-alone machines; radial compressors being machine parts or being stand-alone machines; turbo compressors being machine parts or being stand-alone machines; pressure-vacuum generators being machine parts or being stand-alone machines; pressure-vacuum compressors being machine parts or being stand-alone machines; vacuum tanks being machine parts; power-operated blowers; suction filters for use in hydraulic pumps; driving engines for machines; filters, namely, air filters for mechanical purposes and oil filters; air filter cartridges for mechanical purposes; seal kits for vacuum pumps, air compressors, blowers, compressors for air and gas, pressure-[vacuum] *vacuum* generators, pressure- [vacuum] *vacuum* pumps, pressure- [vacuum] *vacuum* compressors being machine parts; Structural cabinets and housings for the abovementioned goods; Structural parts and spare parts to the aforementioned goods as included in this class

CLASS 9: Electric and electronic checking and control apparatus and instruments, namely, apparatus and instruments for controlling and monitoring the performance of air supply machines, air supply installations, vacuum pumps and air compressors; frequency converters; frequency inverters; data processors and computers as well as recorded software for controlling and monitoring of vacuum pumps, oil pumps, air compressors, compressors for air and gas, pressure-vacuum generators, pressure-vacuum compressors and pressure-vacuum pumps for machines; housings for the abovementioned goods; control cabinets, specially adapted for electronic air supply control equipment; filter cartridges as included in this class; Structural parts and spare parts to the aforementioned goods as included in this class; all aforementioned goods specifically excluding automatic control valves, namely, ball valves used for controlling the flow of gas and/or liquids

CLASS 11: Heat recovery ventilators; cabinets and housings specially adapted for heat recovery ventilators; Structural parts and spare parts to the aforementioned goods as included in this class

Acting Director of the United States Patent and Trademark Office

CLASS 35: Advisory services for organizational issues and business administration, with and without the help of electronic databases

CLASS 37: Maintenance, servicing and repair of machines and parts of machines for the production, provision and control of vacuums and fluids, specifically, pumps, compressors, pressure-vacuum generators, blowers, driving motors, other than for land vehicles; maintenance, servicing, and repair of electric and electronic apparatus and instruments for controlling and monitoring air supply machines and vacuum pumps and air compressors; maintenance, servicing, and repair of heat recovery units and apparatus, data processors and computers for controlling and monitoring pumps, air supply machines, vacuum pumps and compressors; all the above services do not relate to machinery and equipment for mining and tunneling

CLASS 42: Technological consultancy in the field of vacuum and compressed air technology and vacuum and pneumatic equipment technology; development of software for controlling pumps and compressors; technology supervision of the use of machines and parts of machines for industrial use in the nature of pumps, compressors, pressure-vacuum generators, rotary blowers and power operated blowers, driving motors for machines, and apparatus and instruments for controlling and monitoring of air supply, vacuum pumps, and air compressors; inspection of machinery and parts of machines for industrial use, specifically pumps, compressors, pressure-vacuum generators, blowers, driving motors, other than for land vehicles, electric and electronic measuring, signaling, checking switch and control apparatus and instruments, in or for pumps, compressors and air supply installations, heat recovery units and apparatus; maintenance and servicing of software for controlling pumps, compressors; maintenance, updating and repair of software for the control and monitoring of pumps, compressors; technology advisory services related to machines and parts of machines for the production, provision and control of vacuums and fluids, pumps, compressors, pressure-vacuum generators, valves, blowers, driving motors, other than for land vehicles, electric and electronic measuring, signaling, checking, switch and control apparatus and instruments, in or for pumps, compressors and air supply installations, heat recovery units and apparatus, data processors and computers; the aforementioned services do not relate to machinery and equipment for mining and tunneling

PRIORITY CLAIMED UNDER SEC. 44(D) ON GERMANY APPLICATION NO. 302022101142.5, FILED 01-26-2022, REG. NO. 302022101142, DATED 05-06-2022, EXPIRES 01-26-2032

The mark consists of an outlined circle containing three lines and a stylized device with three sections to the left of the word "BECKER".

SER. NO. 97-421,084, FILED 05-20-2022

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
