elovolt

Reg. No. 7,416,284

Registered Jun. 18, 2024

Corrected Jan. 21, 2025

Int. Cl.: 9, 35, 42

Service Mark

Trademark

Principal Register

Michael Struck (GERMANY INDIVIDUAL)

Mittlere Dorfstraße 39

85301 Schweitenkirchen

GERMANY

CLASS 9: Apparatus and instruments for controlling electricity, namely, electromagnetic relays, programmable electric relays, electric time relays, and commutators; electrical and electronic components, namely, electrical cabling [, electric sensors, electromechanical sensors for sensing a mechanical parameter of a machine and providing an electrical signal output] ; solenoid valves; electromagnetic switches; housings for electric and electronic component parts, namely, for housing printed circuit boards, electric relays, circuit breakers, programmable logic controllers, ground fault circuit interrupters, and electric sensors; electric plugs; electrical terminals, namely, electrical terminal blocks, electrical terminal boxes; electrical connection bridges for clamps being jumper bars; fuses; insulated electrical cables for electrical installations; electric installation material for building wiring, namely, circuit breaker panel boards; electric cable connectors [and electric switches] ; data network parts, namely, patch panels for housing ethernet network distribution jacks and connectors, keystone modules being a snap-in electronic connector assembly for mounting low-voltage electrical jacks or optical connectors into a keystone wall plate, face plate, surface-mount box, or a patch panel, electrical sockets for keystone modules, patch connection cables [, micro telecommunication switches, and microcontrollers] ; plug-in sockets for electric and electronic components; electrical phase inspection lights in the nature of a mains tester and being a single contact test light for indicating whether an electrical terminal is grounded or connected to an AC voltage source; lightning conductors; automatic time switches; integrated circuits; semi-conductors; transistors; diodes; electric resistors; capacitors; electrical switch cabinets; recorded computer software for programming electronic controllers; light emitting diodes; electrical measuring devices, namely, electrical voltage tester pens, continuity testers, voltmeters, ammeters; ohmmeters, digital multimeters, and analog multimeters; measuring cables in the nature of test leads for electricity metering devices; measuring tips for test leads for electricity metering devices; oscilloscopes; switches for electric current electric sensors, electromechanica

CLASS 35: Retail and wholesale store services featuring apparatus and instruments for regulating electricity [,] * Cable * [electric and electronic components, electromagnetic relays, programmable electric relays, electric time relays, commutators, electric cables, electric sensors, electric and electromechanical sensors for sensing a mechanical parameter of a machine and providing an electrical signal output] , solenoid valves, housings for electric and electronic components, electric plugs, electrical terminals, namely, electrical terminal blocks and electrical terminal boxes, connection bridges for clamps being jumper bars, fuses, insulated cables for electrical installations, electric installation material for building wiring, namely, electrical installation tape,

Coke Moya Smeed

Acting Director of the United States Patent and Trademark Office

DIN rails, namely metal rails for mounting circuit breakers and industrial control equipment inside equipment racks and distribution boards, namely, circuit breaker panel boards, electric cable connectors, electric switches, connecting electrical cables, [circuit breakers,] data network parts, namely, patch panels for housing ethernet network distribution jacks and connectors, keystone modules being a snap-in electronic connector assembly for mounting low-voltage electrical jacks or optical connectors into a keystone wall plate, face plate, surface-mount box, or a patch panel, electrical sockets for keystone modules, patch connection cables, [micro telecommunication switches, and microcontrollers,] plug-in sockets for electric and electronic components, electric microswitches, microcontrollers, electrical surge arresters, electric time switches, integrated circuits, semi-conductors, transistors, diodes, electric resistors, capacitors for electricity, electrical switch cabinets, recorded computer software for programming electronic controllers, integrated circuits and programmable relays, LEDs being light emitting diodes, electricity measuring devices and apparatus, electrical circuit testers, continuity testers, voltmeters, ammeters, ohmmeters, digital multimeters, analog multimeters, measuring cables in the nature of test leads for electricity metering devices, measuring tips for test leads for electricity metering devices, oscilloscopes, hand tools, screw extractors being hand tools, pliers, blades for hand tools, [cable stripping tools, emergency stop switches,] namely, * cable isolators, * kill switches to stop machinery in case of a malfunction or danger, lamps being lighting fixtures, electric warning lights, lighting devices, light bars and light shades

CLASS 42: Engineering design and consultancy

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 02-08-2022 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1703653 DATED 07-05-2022, EXPIRES 07-05-2032

SER. NO. 79-358,546, FILED 07-05-2022

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
