CLASS 1: [Chemical substances and chemical preparations for scientific purposes, other than for medical or veterinary use;] chemical substances for analysis in laboratories, other than for medical or veterinary purposes; chemical compositions for use in science, other than for medical or veterinary use; chemicals for use in separation techniques, other than medical or veterinary, namely, oil separating chemicals; catalysts for chemical and biochemical processes; chemical reagents, other than for medical or veterinary purposes; industrial chemicals; particulate material for use in chromatographic processes other than for medical use, namely, chromatography separation media for separation of a mixture into components; diagnostic chemicals other than for medical or veterinary use; diagnostic preparations for scientific or research use; unprocessed synthetic polymers; diagnostic testing materials in the nature of paramagnetic particles, separation membranes, reagent bearing test strips, cell culture media supplements and reagents, other than for medical use; reagents for use in analytical tests, other than for medical or veterinary purposes; unprocessed polymers for use in the analysis of biochemicals; chemicals for use in immuno-assay testing, other than medical or veterinary use; diagnostic kits comprising specimen receptors and reagents for testing for selected bacteria, other than for medical or veterinary purposes

CLASS 5: Chemical test reagents for medical purposes; chemical reagents for medical use; diagnostic substances for medical use; diagnostic chemical reagents for medical use; chemical preparations for medical purposes, namely, for blocking of nonspecific interactions in the diagnostic assays; chemical substances for use in separation for medical and veterinary purposes; chemicals for use in chromatography for medical and veterinary purposes, namely, chromatography separation media for separation of a mixture into components; diagnostic testing materials in the nature of paramagnetic particles, separation membranes, medical diagnostic test strips and reagents for medical use for blood, urine, and body fluids testing; in vitro diagnostic preparations for medical use; reagents for in-vitro laboratory use for medical purposes; immunoassay reagents for medical use; diagnostic preparations for medical purposes

Acting Director of the United States Patent and Trademark Office

CLASS 10: Medical apparatus and instruments, namely, multiwell plates, point of care instruments and in vitro diagnostics analyzers; medical apparatus for use in cellular analysis and diagnosis for testing of cellular biomarkers in blood, urine, body fluids, in vitro cultured cells; diagnostic apparatus for medical purposes for testing of biomarkers in blood, urine, and body fluids, cells and tissues; testing apparatus for medical purposes for testing of biomarkers in blood, urine, body fluids, cells and tissues; [robotics for medical purposes, namely, surgical robots;] medical apparatus for measuring and displaying data measured from bodily fluids, including accessories in the nature of tubes and systems for body fluids storage; blood testing apparatus; medical apparatus for measuring biochemical changes in the blood; tools for sample preparation for medical diagnostics testing

CLASS 42: Chemical analysis; life science research and development services; scientific research for medical purposes; pharmaceutical research; biological analysis; analytical medical laboratory services; analysis in the field of molecular biology; biochemistry research services; laboratory testing and contract assay development chemistry services; chemical research and analysis services; biological research; biological laboratory services; pharmaceutical, medical and dental laboratory services, namely, laboratory testing; design and development of medical diagnostic apparatus; [medical consultancy in the fields of laboratory research, testing, measuring, and analysis; medical consultancy in the field of design and development of medical equipment;] consultancy in the fields of medical measuring, testing and analysis; design and development of computer hardware and software for healthcare requirements; computer programming in the medical field; providing information on the subject of scientific research in the field of biochemistry and biotechnology; [science and technology services, namely scientific research, analysis and testing in the fields of biochemistry and biotechnology;] technological consultancy in the fields of biochemistry and biotechnology; [scientific and] technological services, namely, computer aided testing for others in the fields of biochemistry and biotechnology; [medical laboratory services;] none of the foregoing relating to the field of security or cybersecurity hardware, software or services

CLASS 44: Medical diagnostic services; medical services for the analysis of samples taken from patients for diagnostic and treatment purposes provided by medical laboratories; medical analysis services for diagnostic and treatment purposes provided by medical laboratories

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
