**Reg. No. 7,498,037**

**Registered Sep. 10, 2024**

**Corrected Feb. 18, 2025**

**Int. Cl.: 6, 7, 9**

**Trademark**

**Principal Register**

dormakaba Deutschland GmbH (GERMANY GESELLSCHAFT MIT  
BESCHRÄNKTER HAFTUNG (GMBH))  
DORMA Platz 1  
58256 Ennepetal  
GERMANY

CLASS 6: building materials of metal, namely, reinforcing materials of metal for building purposes; transportable buildings of metal; ironmongery and small items of metal hardware, namely, metal components for metal protective and security window shutters in the nature of slats, shutterboxes, side frames, end caps, crank handles, pull straps, side tracks, ball bearings and installation hardware in the nature of rollers, rails, cables, carriers, pins, locks, clips, brackets and screws; pipes and tubes of metal; safes and containers of metal, namely, strong storage boxes and containers for valuables; fittings of metal for building, namely, fittings for pipes and windows; metal locks, other than electric locks, namely, locks and security locks for vehicles; keys, namely, keys for vehicle locks, all the aforesaid goods of metal; doors, gates and door components of metal, namely, sliding doors, revolving doors, folding doors and revolving double doors; turnstiles of metal; door openers and door closers, non-electric, namely, foot-operated door openers of metal; door stops of metal; door fittings of metal, namely, door hinges, handles, locks and counter lock cases being safes, and handle sets; fittings of metal for all-glass doors and panes of glass in the nature of windows; accessories of metal for all-glass installations, namely, locks and lock cases being safes, strike plates, door handles, door knobs of common metal, shower grab bars, screw mountings, clamp fittings, connecting fittings being joinery fittings, and protective fittings being window fittings; window fittings and furniture fittings of metal; partitions of metal for building, namely, mobile partitions and partitions with stationery and mobile individual elements, horizontal sliding walls, moveable walls and folding walls

CLASS 7: machines for moving doors, gates, windows, turnstiles and room partition systems, namely, power transmissions machines; machine tools for compacting powder materials and crushing rock; motors and engines, except for land vehicles; machine coupling and transmission components, except for land vehicles; conveyors being machines; conveyor belts; vending machines; automatic door apparatus, electric, namely, door openers and closers; door openers and door closers, electric, hydraulic and pneumatic; door operators, namely, electric door opening and closing system; hydraulic, pneumatic controls for machines and electric motors, not for land vehicles; hydraulic pumps; elevators; compressed air pumps and engines not for land vehicles; motors, engines, and gears, other than for land vehicles; accessories for motors, engines, gears and control apparatus in the nature of hydraulic and pneumatic controls for motors and engines for moving doors, gates and conveyors, namely, linkages, operating levers, slide rails, mounting plates, and cover plates

CLASS 9: scientific, nautical, surveying, photographic, cinematographic, optical,

Acting Director of the United States Patent and Trademark Office

weighing, measuring, signalling, checking in the nature of supervision, lifesaving and teaching apparatus and instruments, namely, conductivity meters; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity currents; apparatus for recording, transmission or reproduction of sound or images; blank magnetic data carriers; blank sound recording discs; blank compact discs, recordable DVDs, digital recording media in the nature of blank digital storage media, and blank optical data carriers; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; computer peripheral devices and accessories, namely, computer peripherals and parts thereof; downloadable computer software for monitoring fire alarm and fire suppression systems; downloadable software in the nature of a mobile application for monitoring fire alarm and fire suppression systems; fire-extinguishing apparatus; electronic readers and controllers for controlling access to a premises being identification systems, namely, access control devices, and apparatus and devices for personal identification in the nature of readers for data processing, central processing units for data processing and time recording apparatus; apparatus and instruments for transmitting and processing data, namely, senders and receivers for transmitting data; access control and alarm monitoring systems in the nature of access-control apparatus, systems and devices, namely, electrically, electronically, optically and acoustically controlled security, locking and access control devices and access control systems for automatic cash dispensers consisting of locks and downloadable software to operate the locks; electronic readers and controllers for controlling access to a premises, namely, electric regulating and control apparatus for doors, gates and partitions; electronic lock assemblies, namely, electronic switching, control, monitoring and checking being supervision apparatus for locks, windows and doors; electric locks; electric or electronic sensors for the detection of the status of a door closer or device for holding open doors in the field of fire protection, fire extinguishing, and fire suppression systems; electric or electronic sensors for opening and closing automatic doors, windows and gates in the field of fire protection, fire extinguishing, and fire suppression systems; electric or electronic sensors to monitor secure opening and closing of automatic doors, windows and gates in the field of fire protection, fire extinguishing, and fire suppression systems; electric locks for vehicles; electronic and magnetic identity cards, namely, encoded key cards, encoded identification cards and magnetic identification cards; switches, electric; semiconductors; transponders; intercom systems being intercoms; distribution boxes for electricity; fire alarms; control apparatus for moving doors, gates and conveyors, namely, motion sensors in the field of fire protection, fire extinguishing, and fire suppression systems; smoke detecting apparatus, namely, smoke detectors \* ; all of the aforesaid goods only for use in connection with building access control systems \*

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 10-09-2023 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1765138 DATED 10-30-2023, EXPIRES 10-30-2033

SER. NO. 79-384,757, FILED 10-30-2023

## **REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

### **Requirements in the First Ten Years\***

#### **What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

### **Requirements in Successive Ten-Year Periods\***

#### **What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

### **Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE:** Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

**NOTE:** A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
