KAWASAKI TRACK TECHNOLOGIES

Reg. No. 7,431,543

Registered Jul. 02, 2024

Corrected Mar. 18, 2025

Int. Cl.: 37, 42

Service Mark

Principal Register

KAWASAKI JUKOGYO KABUSHIKI KAISHA (Kawasaki Heavy Industries, Ltd.) (JAPAN CORPORATION)
1-1, Higashikawasaki-cho 3-chome,
Chuo-ku, Kobe, JAPAN 650-8670

CLASS 37: Installation, maintenance and repair of electronic monitoring apparatus in the nature of sensors and cameras for railroad equipment and providing information relating thereto; installation, maintenance and repair of railway rolling stock and providing information relating thereto; installation, maintenance and repair of railroad tracks and providing information relating thereto; installation, maintenance and repair of ballast apparatus for rail vehicles and providing information relating thereto; providing information in the field of the repair and maintenance of rail vehicles, namely, monitoring of operating condition of rail monitoring equipment and ballast by remote access for purposes of maintenance, servicing, tuning and repair; installation, maintenance and repair of ballast apparatus for railway vehicles; repair and maintenance of railroad track fasteners; consultancy services in the field of railroad track construction; consultancy services in the field of railroad track maintenance

CLASS 42: Testing, analysis and monitoring of railroad navigation signals to assure compliance with industry standards; design and development of computer software for control, regulation and monitoring of locomotive mounted autonomous track geometry monitoring systems; design and development of computer software for tracking, locating and monitoring of rail vehicles; monitoring of computer systems to detect irregularity of railroad tracks; testing of computer hardware and software used with locomotive mounted autonomous track geometry monitoring systems for detecting irregularity of railroad tracks; testing, analysis and monitoring of telecommunication signals, namely, wireless data transmissions, for use in locomotive mounted autonomous track geometry monitoring systems to assure compliance with industry standards; testing, analysis and monitoring of computer system algorithms for the purpose of generating telecommunications and navigation data; providing temporary use of online non-downloadable computer software for railroad track monitoring over computer networks, intranets and the internet; Scientific and technological services, namely, analysis and prediction relating to needs for maintenance of rail vehicles; technological advisory services relating to locomotive mounted autonomous track geometry monitoring systems; Engineering services in the rail industry, namely providing technical measuring services in the nature of railway track measurement; Engineering services in the field of railroad equipment, namely, technical measuring

Coke Moya Smeat

Acting Director of the United States Patent and Trademark Office

and testing services of railroad tracks; monitoring computer programs and computer systems by remote access via networks to ensure proper functioning, detect malfunctioning or collect and store data; providing temporary use of online non-downloadable computer software for collecting, analyzing and organizing data for use in the rail industry; Scientific and technological services, namely, analysis of technical data for use in the rail industry; Design and development of computer hardware and software in the nature of locomotive mounted autonomous fastener defect detection devices utilizing artificial intelligence (AI) recognition and high resolution camera systems; programming of computer software platforms for others for use in the rail industry; providing temporary use of online non-downloadable computer software for tracking rail vehicles over computer networks, intranets and the internet; providing technical advisory services relating to tracking, locating and monitoring of rail vehicles; providing technical advisory services in the field of scientific and industrial research relating to railroads; Inspection of electronic monitoring apparatus in the nature of sensors and cameras for railroad equipment and providing information relating thereto; Inspection of railway rolling stock, railroad tracks, and ballast apparatus for rail vehicles and providing information relating thereto; Monitoring of the operating condition of rail monitoring equipment, namely, speed sensors, vibration sensors, pressure sensors, humidity sensors, position sensors, temperature sensors and level sensors, and ballast by remote access for purposes of quality control in the nature of maintenance, servicing, tuning and repair; Inspection, installation, maintenance and repair of computer software in the nature of locomotive mounted autonomous track geometry monitoring systems and providing information relating thereto; Monitoring and inspection of railroad track fasteners for quality control purposes

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY CLAIMED UNDER SEC. 44(D) ON JAPAN APPLICATION NO. 2022-111683, FILED 09-28-2022, REG. NO. 6741563, DATED 10-03-2023, EXPIRES 10-03-2033

No claim is made to the exclusive right to use the following apart from the mark as shown: "TRACK TECHNOLOGIES"

SER. NO. 97-658,313, FILED 11-01-2022

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
