

United States of America

United States Patent and Trademark Office

Reg. No. 5,093,352

Registered Dec. 06, 2016

Corrected Mar. 25, 2025

Int. Cl.: 37, 38, 39, 42

Service Mark

Trademark

Principal Register

Suez International (FRANCE Société par actions simplifiée à associé unique)
Tour CB21
16 Place de l'Iris
FRANCE

CLASS 37: [Repair and maintenance services of apparatus for treating liquids and fluids;] upkeep and maintenance of sewage pipelines, restoration of aqueducts or water distribution pipes, construction of sanitation, wastewater collection, rainwater decontamination, flood prevention installations and facilities; pumping station renovation services, refurbishment of existing buildings to improve the security and the quality of the water supply, construction of water treatment plants for treating drinking water, urban and industrial wastewater and rainwater; installation of water pipes and building water treatment plants, drilling of wells, construction, installation and repair of irrigation devices; maintenance and renovation of buildings; rehabilitation in the nature of renovation of property, buildings and warehouses; [land development services, namely, planning and laying out of residential and commercial communities and buildings; restoration and rehabilitation of degraded sites, namely, cleaning and reconstruction of commercial and residential property and buildings;] upkeep and cleaning of buildings, commercial and residential premises, floors and facade cleaning; [disinfecting, rat extermination, insect eradication for commercial and residential buildings;] cleaning of commercial structures, urban structures, works of art, underground works, road equipment, construction sites, and exterior surfaces of industrial premises, cleaning of water pipes and industrial installations, high-pressure cleaning of underground works, road network cleaning services; [upkeep and maintenance services for buildings, roads, urban construction equipment;] repair and maintenance of installations, apparatus, units and facilities for the storage of waste and refuse, installations and apparatus for recycling and treatment, recovery and destruction units for waste and refuse; construction of installations, centers and units for the storage of waste and refuse and centers, installations, and units for the recycling, treatment, recovery and destruction of waste and refuse; maintenance and renovation services for industrial and urban sewerage systems; rehabilitation of industrial and urban sanitation systems

Coke Moye Sneed

Acting Director of the United States Patent and Trademark Office

CLASS 38: [Telecommunications, namely, telecommunications gateway services, telecommunications consultation, personal communication services; providing information about telecommunications; communications by computer terminals or by fiber-optic networks; communications by radio or telephone; telecommunication services, namely, electronic bulletin board services; providing telecommunications connections to a global computer network; rental of telecommunication apparatus; teleconferencing services; electronic messaging services; rental of access time to global computer networks; radio communication, namely, radio communications between flow meters and a centralized receiver that transmits information to a database; transmission of information on consumption, monitoring, tracking and billing by radio communication from meters to a centralized database; communication by computer terminals;] provision of access to databases in the field of care services waste management [; transmission of information and alerts in the field of public safety in the nature of public announcements and alerts relating to public safety]

CLASS 39: Water supplying and water distribution services, collection of urban or industrial wastewater and sewage sludge; collection, transport, sorting, disposal and storage of useful materials or of urban waste, industrial and radioactive waste, solid or liquid waste, industrial greases and office papers; collecting, transporting, grouping, sorting, processing, reconditioning and storage of all kinds of waste, and in particular, urban, household, industrial, ordinary and special industrial, hospital, agricultural, horticultural, forestry, hazardous, solid and liquid waste; storage of goods, namely, storage of useful materials, waste, perishable or hazardous products; storage of waste in landfills; transport, packing and storage of fertilizer, organic amendments, compost and growing media; providing information relating to the management of the collection and transport of healthcare activity waste

CLASS 42: Monitoring of water quality, namely, technical quality monitoring services of water conditions; scientific and industrial research services in the field of environmental protection; laboratory research services in the fields of water, water treatment and purification of water; chemical analysis services; chemical research; professional consultancy in the field of water quality control services; engineering, not for building, in the fields of water and water treatment; laboratory research services in the fields of the treatment of industrial, household, hospital and special waste, refuse, sludge, ash, recovery of industrial, household, hospital and special waste; bacteriology research services; [computer programming; computer services, namely, development, design and updating of computer software and software systems; technical consulting and advice relating to research and development of new products in the field of computing; rental of computers; design of computer systems and telecommunication systems;] scientific and industrial research services for developing and evaluating the performance of physical-chemical water treatment processes and products for physicochemical water treatment; [conducting scientific and technical feasibility studies for developing and evaluating the operation performance of installations for treating drinking water or industrial process water, for treating household or industrial wastewater, as well as for treating physico-chemical or biological fluids and sludges, technical surveying relating to these processes and equipment and to all other treatments of fluids, including in the field of industrial processes;] technical scientific research services, in the fields of the collection, transport, treatment, cleaning, storage, sanitation, reusing and disposal of waste and refuse; scientific and industrial research relating to environmental protection for the collection, transport, treatment, cleaning, storage and recovery of waste and refuse; engineering, conducting feasibility studies in the field of environmental engineering; engineering design services in the fields of design and construction of industrial and urban centers and units for waste and refuse collection, sorting, storage, treatment, recovery and disposal; testing and research on [air,] water [and sound] pollution prevention services; consulting on environmental protection, urban planning, providing information relating to research in environmental protection; [land and geological surveying for economic, social and environmental purposes, urban design planning services; soil percolation testing; plant engineering services in the agricultural, horticultural, wine growing, arboricultural and silvicultural fields;] quality

control of air, water, soil; Engineering in the field of industrial information systems, namely, automatic control, control, centralized technical management and control, decision making systems, management systems for operating data [; conducting technical project feasibility studies consisting of analyses, evaluations, research, and technical advice in the fields of new technologies in the technology, maritime, offshore, seaport, energy, sustainable development, environmental, climate, weather, industrial and household waste management, water treatment, flood control, hydrogeology, wet areas development, public transport, telecommunications, civil engineering and urban engineering fields; quality management services, namely, quality evaluation and analysis, quality assurance and quality control in the technology, maritime, offshore, seaport, energy, sustainable development, environmental, climate, weather, industrial and household waste management, water treatment, flood control, hydrogeology, wet areas development, public transport, telecommunications, civil engineering and urban engineering fields]

The mark consists of the design of a stylized horizontal letter "S" comprised of three wavy lines.

PRIORITY DATE OF 01-19-2015 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1282404 DATED 06-12-2015,
EXPIRES 06-12-2035

SER. NO. 79-180,155, FILED 06-12-2015

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
