

United States of America

United States Patent and Trademark Office

The Phased Array Company

Reg. No. 6,915,263

Registered Dec. 06, 2022

Corrected Apr. 08, 2025

Int. Cl.: 9, 42

Service Mark

Trademark

Principal Register

TPAC (OHIO LIMITED LIABILITY COMPANY)

9472 Meridian Way

West Chester, OHIO 45069

CLASS 9: scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, life-saving and teaching apparatus and instruments in the nature of electronic enclosures, probes in the nature of ultrasound probe not for medical use and sensors in the nature of sensor chips for scientific use and of Ultrasonic sensors for non-destructive testing applications; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus for recording, transmission or reproduction of sound or images in the nature of ultrasonic transmission machines; magnetic recording media in the nature of blank sound recording disks; Blank compact discs, blank recordable DVDs and other digital recording media in the nature of digital video recorders; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; Downloadable software for data processing and for non destructive testing inspections and signal image processing; Fire extinguishers; components, sub-systems and equipment for non-destructive testing systems and instruments, particularly by ultrasounds, monoprobess, multi-probes or phase network probes, eddy current probes, for the detection of defects, measuring and maintenance in the nature of capacitors, filers, connectors, oscillators, relays, switches, transformers, resistors, semiconductors, integrated circuits and Field-programmable gate array; all of the foregoing being used in the field of non-destructive testing application

FIRST USE 6-19-2014; IN COMMERCE 6-19-2014

CLASS 42: Engineering services; engineering services relating to information technology, to data processing, to computer programming, to testing computer software; software engineering; engineering consultancy services; Computer Software development; maintenance of computer software; Computer software and hardware design; design of information technology systems; computer design research; design of operating system software; designing of data processing programs; design and development of computer software for process control; theses services relating to the non-destructive testing field; development of computer software for computer aided design/computer aided manufacturing (CAD/CAM); Providing analysis of Full Matrix Capture data; design, maintenance, rental and updating of computer software and hardware; customized design of computer software and hardware; customized design of ultrasonic software; customized design of Total Focusing Method software; computer services for the analysis of data in the nature of providing non-downloadable computer software for analyzing and inspecting products; Providing consultancy, information and advisory services relating to the design, programming and maintenance of computer

Coke Moya Smead

Acting Director of the United States Patent and Trademark Office

software and hardware; Providing consultancy information and advisory services for designing information systems; Development of measuring probes for Non Destructive Testing inspections, for ultrasonic applications; development of phased array probe for Total Focusing Method of mono-probes, of multi-probes, of phase network probes, of eddy current probes; Conducting feasibility services relating to computers, computer software, computer hardware; development of computer software application solutions; installation and customization of computer application software; development services relating to computer software application solutions; Research and development of new products; research relating to development of computer software, providing online non-downloadable software for data processing, non destructive testing inspections and signal image processing; all of the foregoing services relating to the non-destructive testing field

FIRST USE 2-16-2021; IN COMMERCE 2-16-2021

The color(s) light blue, dark blue, grey and white is/are claimed as a feature of the mark.

The mark consists of a square shape with TP in white letters with a light blue background on one side of the dark blue curved line and AC in white letters with grey background on the other side of the dark blue curved line; followed by The Phased Array Company in dark blue letters.

No claim is made to the exclusive right to use the following apart from the mark as shown: "THE PHASED ARRAY COMPANY"

SER. NO. 90-532,376, FILED 02-17-2021

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
