RAYGUIDE

Reg. No. 7,477,011

Registered Aug. 20, 2024

Corrected Jun. 03, 2025

Int. Cl.: 9, 42, 45

Service Mark

Trademark

Principal Register

RAYLASE GmbH (GERMANY GESELLSCHAFT MIT BESCHRÄNKTER
HAFTUNG (GMBH))
Argelsrieder Feld 2+4
82234 Wessling
GERMANY

CLASS 9: Downloadable and recorded software for controlling lasers and laser apparatus; downloadable and recorded software for creating, conducting and analysing laser processes; software packages comprised of downloadable and recorded software for controlling lasers and laser apparatus; downloadable and recorded computer programs for data processing in the field of lasers and laser apparatus; downloadable and recorded assisting software for controlling lasers and laser apparatus; downloadable and recorded sensor technology software for operating optical sensors; downloadable software for controlling lasers and laser apparatus; embedded software packages comprised of recorded software for controlling lasers and laser apparatus, sold as an integral component of lasers not for medical use; software programmable microprocessors; preconfigured magnetic data carriers featuring recorded software for controlling lasers and laser apparatus; magnetic data carriers bearing recorded software for controlling lasers and laser apparatus; computer data carriers bearing recorded software for controlling lasers and laser apparatus; optical data carriers bearing recorded software for controlling lasers and laser apparatus; computer hardware for use in computer- assisted software engineering; industrial control devices, namely, industrial automation controls with integrated recorded software for industrial process control; downloadable and recorded software for controlling industrial processes; downloadable and recorded computer software for controlling lasers and laser apparatus; control devices for lasers, namely, electronic controllers for use with lasers, not for medical use; lasers, not for medical use; laser sensors for sensing position, speed, motion, temperature, and distance; laser diodes; laser detectors for detecting position, speed, motion, temperature, and distance; lasers for industrial use; lasers for scientific use; lasers for non- medical use; laser measuring systems; lasers for measuring purposes; electronic steering instruments, namely, simulators for the steering and control of moving mirrors and lenses; connecting modules, namely, integrated circuit modules for electronic control instruments; electronic control instruments, namely, electronic apparatus for the remote control of industrial operations; electrical control instruments, namely, electrical control panels and recorded operating software therefor; programmable control instruments, namely, programmable logic controllers; automatic control apparatus, namely, industrial automation controls; remote controls for electronic products, namely, remote controls for computer peripherals

CLASS 42: Software development, programming and implementation; development of data processing software programs; design of software; software creation; software engineering; installation of software; updating of computer software; configuration of

Coke Moya Smead

Acting Director of the United States Patent and Trademark Office

software; repair and maintenance of software; software customization services; customized design of software packages; configuration of computer hardware using software; technical support services, namely, troubleshooting in the nature of diagnosing of computer hardware and software problems; hosting services, namely, hosting of software, databases featuring software libraries and websites of others; software as a service (SaaS) services featuring software for controlling lasers and laser apparatus; rental of software for controlling lasers and laser apparatus; rental of computer hardware; development and testing of computing methods, algorithms and software; consultancy in the field of design and development of computer hardware; software consultancy; computer programming of electronic control systems; control technology consulting services, namely, consulting in the field of design and development of control technology for laser material processing; development of control computer programs for lasers and laser installations

CLASS 45: Licensing of software

The colors red and grey are claimed as a feature of the mark.

The mark consists of the stylized wording "RAYGUIDE" where the word "RAY" is red. The word "GUIDE" is grey, except for the letter "I", which is red and a red horizontal line that extends from the bottom of the letter "I" across the middle of the letter "D" and forms the middle bar of the letter "E". The color white represents background and/or transparent areas only and is not part of the mark.

PRIORITY DATE OF 01-27-2022 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1695467 DATED 07-25-2022,
EXPIRES 07-25-2032

SER. NO. 79-355,042, FILED 07-25-2022

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
