United States Patent and Trademark Office

Reg. No. 6,719,482

Registered May 03, 2022

Amended Jun. 10, 2025

Int. Cl.: 38, 42

Service Mark

Principal Register

GOCO TECHNOLOGY LIMITED PARTNERSHIP (CANADA LIMITED PARTNERSHIP)

200 Consilium Place, Suite 1600

Scarborough, Ontario, CANADA M1H 3J3

CLASS 38: Unified communications services that integrate [facsimile transmission, e-mail, e-mail fax, telephone services, voice calling, video calling, voicemail, call forwarding, call recording, call screening, call processing, audio conferencing, video conferencing, web conferencing, call waiting, voice chat, voice messaging, instant messaging via the internet, text messaging, picture messaging, video messaging, digital messaging, multimedia messaging, digital file transfer between users, recording of text, video and audio data, storage of text, video and audio data, user presence indication, screen sharing, access to the internet, multiple user access to a computer network, transmission of text, image, music, video and audio data between users, wireless data transmission, streaming of audio and video via the Internet,] voice over Internet protocol (VoIP), public switch telephone network (PSTN), Session Initiation Protocol (SIP) trunking, virtual private network (VPN), remote access, virtual data center access; Telecommunications services, namely, telecommunications services related to [facsimile transmission, email, e-mail fax, telephone services, voice calling, video calling, voicemail, call forwarding, call recording, call screening, call processing, audio conferencing, video conferencing, web conferencing, call waiting, voice chat, voice messaging, instant messaging via the internet, text messaging, picture messaging, video messaging, digital messaging, multimedia messaging, digital file transfer between users, recording of text, video and audio data, storage of text, video and audio data, user presence indication, screen sharing, access to the internet, multiple user access to a computer network, transmission of text, image, music, video and audio data between users, wireless data transmission, streaming of audio and video via the Internet,] Private Branch Exchange (PBX), voice over Internet protocol (VoIP), public switch telephone network (PSTN), Session Initiation Protocol (SIP) trunking, virtual private network (VPN), virtual data center access

FIRST USE 03-00-2020 ; IN COMMERCE 03-00-2020

Coke Moya-Snead

Acting Director of the United States Patent and Trademark Office

CLASS 42: [Software as a service (SaaS) services featuring software for providing unified communications services that integrate facsimile transmission, e-mail, e-mail fax, telephone services, voice calling, video calling, voicemail, call forwarding, call recording, call screening, call processing, audio conferencing, video conferencing, web conferencing, call waiting, voice chat, voice messaging, instant messaging via the internet, text messaging, picture messaging, video messaging, digital messaging, multimedia messaging, digital file transfer between users, recording of text, video and audio data, storage of text, video and audio data, user presence indication, screen sharing, web hosting, email hosting, access to the internet, multiple user access to a computer network, data storage, data backup, cloud computing, transmission of text, image, music, video and audio data between users, wireless data transmission, streaming of audio and video via the Internet, Private Branch Exchange (PBX), voice over Internet protocol (VoIP), public switch telephone network (PSTN), Software as a service (SaaS) services featuring software for providing unified communications services that integrate facsimile transmission, e-mail, e-mail fax, telephone services, voice calling, video calling, voicemail, call forwarding, call recording, call screening, call processing, audio conferencing, video conferencing, web conferencing, call waiting, voice chat, voice messaging, instant messaging via the internet, text messaging, picture messaging, video messaging, digital messaging, multimedia messaging, digital file transfer between users, recording of text, video and audio data, storage of text, video and audio data, user presence indication, screen sharing, web hosting, email hosting, access to the internet, multiple user access to a computer network, data storage, data backup, cloud computing, transmission of text, image, music, video and audio data between users, wireless data transmission, streaming of audio and video via the Internet, voice over Internet protocol (VoIP), public switch telephone network (PSTN), Session Initiation Protocol (SIP) trunking, virtual private network (VPN), remote access, virtual data center access, anti-virus and anti-malware protection, firewalling, unified threat management, web content filtering, application control, intrusion prevention, and data recovery; Technical support services, namely, technical support and user support services, monitoring network systems, design and maintenance of network systems, management of network systems, troubleshooting and repair of network problems, data backup, data recovery, computer disaster recovery, providing virtual data centers, management of telecommunications network systems, and design and implementation of virtual private networks; Computer security consulting services, namely, consulting related to providing anti-virus and anti-malware protection, firewalling, monitoring network systems, unified threat management, web content filtering, security assessment, intrusion prevention, virtual private network, network security technical support, internet protocol security virtual private network support, and secure socket layer virtual private network remote access support; Computer transmission and security services, namely, hosting the websites of others, hosting the email of others, electronic data storage, electronic data backup services, cloud computing in the nature of cloud hosting provider services, providing temporary use of non-downloadable anti-virus software, anti-malware software, and firewalls, filtering web content to restrict content presented to users, computer security services in the nature of restricting unauthorized access to applications, computer networks, and websites, and recovery of computer data] * Software as a service (SaaS) services featuring software for providing unified communications services that integrate Private Branch Exchange (PBX), voice over Internet protocol (VoIP), public switch telephone network (PSTN), Software as a service (SaaS) services featuring software for providing unified communications services that integrate voice over Internet protocol (VoIP), public switch telephone network (PSTN), Session Initiation Protocol (SIP) trunking, virtual private network (VPN), remote access, virtual data center access, anti-virus and anti-malware protection, firewalling, unified threat management, web content filtering, application control, intrusion prevention, and data recovery; Technical support services, namely, technical support and user support services, monitoring network systems, design and maintenance of network systems, management of network systems, troubleshooting and repair of network problems, data backup, data recovery, computer disaster recovery, providing virtual data centers, management of telecommunications network systems, and design and implementation of virtual private networks; Computer security consulting services, namely, consulting related to providing anti-virus and anti-malware protection, firewalling, monitoring network systems, unified threat management, web content filtering, security assessment, intrusion prevention, virtual private network, network

security technical support, internet protocol security virtual private network support, and secure socket layer virtual private network remote access support; Computer transmission and security services, namely, hosting the websites of others, hosting the email of others, electronic data storage, electronic data backup services, cloud computing in the nature of cloud hosting provider services, providing temporary use of non-downloadable anti-virus software, anti-malware software, and firewalls, filtering web content to restrict content presented to users, computer security services in the nature of restricting unauthorized access to applications, computer networks, and websites, and recovery of computer data *

FIRST USE 03-00-2020 ; IN COMMERCE 03-00-2020

The mark consists of the letters goco in a stylized format.

SER. NO. 88-852,284, FILED 03-30-2020

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
