# ODYSIGHT

**Reg. No. 7,726,073**

**Registered Mar. 18, 2025**

**Corrected Jun. 17, 2025**

**Int. Cl.: 9, 10, 42**

**Service Mark**

**Trademark**

**Principal Register**

ODYSIGHT.AI LTD (ISRAEL limited liability company)

7A Omer Industrial Park

8496500 Omer

ISRAEL

CLASS 9: Downloadable software for predicting maintenance needs of industrial machines using optical sensors; cameras incorporating light source, optical sensors, and processors; microprocessors; connective electric wires and cables; visualization test kits comprised primarily of optical sensors, not for medical purposes; downloadable software for analyzing and processing visual data of industrial machines in the fields of transportation, energy, aerospace and aviation; downloadable software for analyzing health and failure modes of industrial machines in the fields of transportation, energy, aerospace and aviation; downloadable artificial intelligence software for analyzing health and failure modes of industrial machines in the fields of energy, transportation, aerospace and aviation; downloadable databases in the fields of energy, transportation, aerospace and aviation for collecting information on health and failure modes of industrial machines; downloadable databases in the field of human and animal health; downloadable databases in the field of energy, transportation, aviation and aerospace for collecting information on trends of failure modes of industrial machines; downloadable software for displaying, managing and controlling maintenance tasks of industrial machines; downloadable imaging software for predicting maintenance needs of industrial machines in the fields of energy, transportation, aerospace and aviation; downloadable software used for monitoring health and failure modes of industrial machines in the fields of transportation, energy, aerospace and aviation; downloadable imaging software for monitoring health and failure modes of industrial machines in the fields of energy, transportation, aerospace and aviation; all these goods are not related to the prevention, treatment, surgery, diagnosis and monitoring of ophthalmic diseases, vision disorders, visual dysfunctions and/or the measurement of visual acuity

CLASS 10: Medical endoscopes with installed diagnosis software for analyzing and processing visual medical data \* excluding endoscopes for eye surgery \* ; medical endoscopes with installed artificial intelligence algorithms software for analyzing and processing visual medical data \* excluding endoscopes for eye surgery \* ; medical endoscopes with cameras incorporating a light source, optical sensors, and processors \* excluding endoscopes for eye surgery \* ; all these goods are not related to the prevention, treatment, surgery, diagnosis and monitoring of ophthalmic diseases, vision disorders, visual dysfunctions and/or the measurement of visual acuity

CLASS 42: Software as a service (SAAS) services featuring software for analyzing and processing visual medical data; software as a service (SAAS) services featuring software incorporating artificial intelligence algorithms for analyzing and processing visual medical data; software as a service (SAAS) services featuring software for monitoring health and failure modes of industrial machines in the fields of transportation, energy, aerospace and aviation; software as a service (SAAS) services featuring software incorporating artificial intelligence algorithms for monitoring health and failure modes of industrial machines in the fields of transportation, energy, aerospace and aviation;

*Coke Moya-Snead*

Acting Director of the United States Patent and Trademark Office

software as a service (SAAS) services featuring software for scheduling medical tasks, namely, surgery, diagnosis, testing, administration of medication, and examination of patients; software as a service (SAAS) services featuring software for analyzing and processing visual data of industrial machines in the fields of energy, transportation, aerospace, and aviation; software as a service (SAAS) services featuring software incorporating artificial intelligence algorithms for analyzing and processing visual data of industrial machines in the fields of energy, transportation, aerospace, and aviation; all these services are not related to the prevention, treatment, surgery, diagnosis and monitoring of ophthalmic diseases, vision disorders, visual dysfunctions and/or the measurement of visual acuity

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 06-19-2023 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1753846 DATED 08-24-2023, EXPIRES 08-24-2033

SER. NO. 79-380,092, FILED 08-24-2023

## REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

### Requirements in the First Ten Years\*

#### What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

### Requirements in Successive Ten-Year Periods\*

#### What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

### Grace Period Filings\*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.**

**NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.**
