AIDASH

Reg. No. 7,565,693

Registered Nov. 12, 2024

Corrected Jun. 24, 2025

Int. Cl.: 42

Service Mark

Principal Register

AIDASH INC (DELAWARE CORPORATION)

3031 Tisch Way

Suite 110, Plaza West

San Jose, CALIFORNIA 95128

CLASS 42: Software as a Service (SaaS) services featuring software for use in remote monitoring, satellite imagery analysis, and surveying and inspection of power lines, utility systems, components of utility systems, oil pipelines, gas pipelines, roads, railways, railway systems and components of railway systems; Software as a Service (SaaS) services featuring software for use in environmental sustainability and environmental monitoring; Software as a Service (SaaS) services featuring software for use in conducting surveys and assessments for land, water and air; Software as a Service (SaaS) services featuring software for use in detecting, identifying and reporting hazards, corrosion, defects, and failures in power lines, utility systems, components of utility systems, oil pipelines, gas pipelines, roads, railways, railway systems, and components of railway systems; Software as a Service (SaaS) services featuring software for use in utility vegetation management, namely, monitoring, surveying, forecasting, and reporting vegetation growth and change; Software as a Service (SaaS) services featuring software for use in analyzing, projecting, predicting, and modeling vegetation growth and change; Software as a Service (SaaS) services featuring software for use in job coordination, dispatching service, and vegetation management for power lines, utility systems, components of utility systems, oil pipelines, gas pipelines, roads, railways, railway systems, and components of railway systems; Software as a Service (SaaS) services featuring software for use in disaster and disruptions management; Software as a Service (SaaS) services featuring software for use in reviewing, assessing, prioritizing and repairing post-storm damage; Software as a Service (SaaS) services featuring software for use in creating and managing tasks for assessing, prioritizing and repairing post-storm damage; Software as a Service (SaaS) services featuring software for use in continuously analyzing and improving systems for utility vegetation management, namely, monitoring, surveying, forecasting, reporting, analyzing, projecting, predicting and modeling vegetation growth and change; Software as a Service (SaaS) services featuring software for use in remote monitoring, satellite imagery analysis, and surveying and inspection of geographic areas, namely, land and water, for monitoring and confirming change; Platform as a Service (PaaS) featuring computer software platforms for use in remote monitoring, satellite imagery analysis, and surveying and inspection of power lines, utility systems, components of utility systems, oil pipelines, gas pipelines, roads, railways, railway systems and components of railway systems; Platform as a Service (PaaS) featuring computer software platforms for use in environmental sustainability and environmental monitoring; Platform as a Service (PaaS) featuring computer software platforms for use in conducting surveys and assessments for land, water and air; Platform as a Service (PaaS) featuring computer software platforms for use in detecting,

Coke Moya-Snead

Acting Director of the United States Patent and Trademark Office

identifying and reporting hazards, corrosion, defects, and failures in power lines, utility systems, components of utility systems, oil pipelines, gas pipelines, roads, railways, railway systems, and components of railway systems; Platform as a Service (PaaS) featuring computer software platforms for use in utility vegetation management, namely, monitoring, surveying, forecasting, and reporting vegetation growth and change; Platform as a Service (PaaS) featuring computer software platforms for use in analyzing, projecting, predicting, and modeling vegetation growth and change; Platform as a Service (PaaS) featuring computer software platforms for use in job coordination, dispatching service, and vegetation management for power lines, utility systems, components of utility systems, oil pipelines, gas pipelines, roads, railways, railway systems, and components of railway systems; Platform as a Service (PaaS) featuring computer software platforms for use in disaster and disruptions management; Platform as a Service (PaaS) featuring computer software platforms for use in reviewing, assessing, prioritizing and repairing post-storm damage; Platform as a Service (PaaS) featuring computer software platforms for use in creating and managing tasks for assessing, prioritizing and repairing post-storm damage; Platform as a Service (PaaS) featuring computer software platforms for use in continuously analyzing and improving systems for utility vegetation management, monitoring, surveying, forecasting, reporting, analyzing, projecting, predicting and modeling vegetation growth and change; Platform as a Service (PaaS) featuring computer software platforms for use in remote monitoring, satellite imagery analysis, and surveying and inspection of geographic areas, namely, land and water, for monitoring and confirming change; providing online non-downloadable software for use in remote monitoring, satellite imagery analysis, and surveying and inspection of power lines, utility systems, components of utility systems, oil pipelines, gas pipelines, roads, railways, railway systems and components of railway systems; providing online non-downloadable software for use in environmental sustainability and environmental monitoring in the nature of surveys and assessments for land, water and air; providing online non-downloadable software for use in detecting, identifying and reporting hazards, corrosion, defects, and failures in power lines, utility systems, components of utility systems, oil pipelines, gas pipelines, roads, railways, railway systems, and components of railway systems; providing online non-downloadable software for use in utility vegetation management, namely, monitoring, surveying, forecasting, and reporting vegetation growth and change; providing online non-downloadable software for use in analyzing, projecting, predicting, and modeling vegetation growth and change; providing online non-downloadable software for use in job coordination, dispatching service, and vegetation management for power lines, utility systems, components of utility systems, oil pipelines, gas pipelines, roads, railways, railway systems, and components of railway systems; providing online non-downloadable software for use in disaster and disruptions management; providing online non-downloadable software for use in reviewing, assessing, prioritizing and repairing post-storm damage; providing online non-downloadable software for use in creating and managing tasks for assessing, prioritizing and repairing post-storm damage; providing online non-downloadable software for use in continuously analyzing and improving systems for utility vegetation management, namely, monitoring, surveying, forecasting, reporting, analyzing, projecting, predicting and modeling vegetation growth and change; providing online non-downloadable software for use in remote monitoring, satellite imagery analysis, and surveying and inspection of geographic areas, namely, land and water, for monitoring and confirming change; Satellite data analytics, namely analysis of data and images from satellites for use in vegetation management and environmental advice and recommendations; Satellite data consulting services, namely, consulting in the field of satellite data analysis utilizing artificial intelligence models to identify vegetation management activities and manage environmental risks

FIRST USE 10-02-2023 ; IN COMMERCE 10-02-2023

The mark consists of the stylized word "AIDASH" with the space inside of the letter "D" forming a right-facing arrow and the letter "S" in the shape of a lightning bolt.

SER. NO. 90-696,132, FILED 05-07-2021

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
