United States Patent and Trademark Office

daktylo

Reg. No. 7,567,803

Registered Nov. 19, 2024

Corrected Jul. 15, 2025

**Int. Cl.: 7, 9, 35, 37, 38, 41,
42, 45**

Service Mark

Trademark

Principal Register

Koenig & Bauer AG (GERMANY AKTIENGESELLSCHAFT (AG))
Friedrich-Koenig-Str. 4
97080 Würzburg
GERMANY

CLASS 7: Printing machines for industrial use; industrial offset printing machines; industrial rotary web fed printing machines; industrial rotary sheet fed printing machines; industrial silk screen printing machines; industrial paper pad printing machines; flexographic printing machines; industrial gravure printing machines; printing machines for use on sheet metal; industrial printing machines for use on cans; industrial printing machines for use on hollow bodies; industrial printing machines for corrugated cardboard; industrial inkjet printing machines and apparatus; industrial laser marking machines; industrial laser printing machines and apparatus; industrial electromechanical marking machines; industrial lacquering machines being coating machines and lines for web products; packaging machines; industrial paper coating machines, in particular working rotationally, for web-type and separate materials; industrial digital printing and marking machines based on electrophotography, magnetography, xerography, ink jet; industrial imprinting and laser marking machines, in particular for the graphics sector, the packaging sector and data processing; automatic industrial labeling machines for applying labels to containers and bottles; engraving machines; stacking machines; foodstuff distribution machines, namely packaging machines for food; grinding machines for the surface treatment of metals; automatic hot stamping machines; thermal transfer machines in the nature of heat transfer presses; rotary die-cutting machines for punching of printed matter or paper or plastics; flat-bed die cutting machines for stamping printed matter or paper or plastics; cardboard and paper carton bonding machines; industrial machines and machine tools for use with industrial printing machines used during the printing process of printed matter and printing materials, namely, for cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, perforating, gluing, stapling, tying, bundling and bookbinding the printed matter and printing materials; printing plates, flexographic printing plates; and structural and replacement parts for all the aforesaid goods; Machine-operated platforms for use during the printing process for storing paper, rolls of paper, printing materials, rolls of printing materials and printing plates in industrial printing machines; conveyors being machines and conveyor belts, and conveyors being machines and conveyor belts for use with industrial printing machines, for use in conveying printed matter, printing materials and rolls of printing materials, for use with industrial engraving, packaging, marking, imprinting and packaging machines, for use with printing plates for industrial printing machines, and for use with industrial printing machines used during the printing processing of printed matter and printed materials; machines for use with industrial printing machines for automatically changing, bending and punching printing plates and flexographic printing plates; cleaning machines for cleaning printing rollers in industrial printing machines; machine-operated platforms for storing and adjusting printing rollers used in industrial printing machines; size-adjustment cutting machine tools and machine tools for adjusting

Coke Mogn Smeut

Acting Director of the United States Patent and Trademark Office

registers and passers, all for use with industrial printing machines; machine tools for adjusting web tension in industrial printing machines; air filters for mechanical purposes being parts of machines and engines of machines; centrifugal and cyclone separators for separating dust, particles in air and fibres in machines and spaces equipped with machines; air suction machines for ventilation cleaning, dust removal and air separation in machines and spaces equipped with machines; filters for cleaning cooling air, for engines; blowers for engines; air compressors and air exhausts for motors and engines of machines; collecting machines for compacting, filling and pressing of air particulates, dust and fibres separated and exhausted from machines; blowing machines being blowers; industrial machines for printing and applying security labels, security features and identification features on packaging for products, on banknotes, and on financial securities; and structural and replacement component parts of all the aforesaid goods

CLASS 9: Electronic checking in the nature of supervision, controlling, displaying and measuring apparatus, namely, electronic display panels and screens, and recorded and downloadable sales and consultancy software for data processing, data tracking, data management and data analysis, and recorded and downloadable software for operating, controlling and monitoring the functions and functions of the parts of printing machines for industrial use, industrial offset printing machines, industrial rotary web fed printing machines, industrial rotary sheet fed printing machines, industrial silk screen printing machines, industrial paper pad printing machines, flexographic printing machines, industrial gravure printing machines, printing machines for use on sheet metal, industrial printing machines for use on cans, industrial printing machines for use on hollow bodies, industrial printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial laser marking machines, industrial laser printing machines and apparatus, industrial electromechanical marking machines, industrial lacquering machines being coating machines and lines for web products, packaging machines, industrial paper coating machines, in particular working rotationally, for web-type and separate materials, industrial digital printing and marking machines based on electrophotography, magnetography, xerography, ink jet, industrial imprinting and laser marking machines, in particular for the graphics sector, the packaging sector and data processing, automatic industrial labeling machines for applying labels to containers and bottles, engraving machines, stacking machines, foodstuff distribution machines, namely packaging machines for food, grinding machines for the surface treatment of metals, automatic hot stamping machines, thermal transfer machines in the nature of heat transfer presses, rotary die-cutting machines for punching of printed matter or paper or plastics, flat-bed die cutting machines for stamping printed matter or paper or plastics, cardboard and paper carton bonding machines, industrial machines and machine tools for use with industrial printing machines used during the printing process of printed matter and printing materials, namely, for cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, perforating, gluing, stapling, tying, bundling and bookbinding the printed matter and printing materials, printing plates, flexographic printing plates, machine-operated platforms for use during the printing process for storing paper, rolls of paper, printing materials, rolls of printing materials and printing plates in industrial printing machines, conveyors being machines and conveyor belts, and conveyors being machines and conveyor belts for use with industrial printing machines, for use in conveying printed matter, printing materials and rolls of printing materials, for use with industrial engraving, packaging, marking, imprinting and packaging machines, for use with printing plates for industrial printing machines, and for use with industrial printing machines used during the printing processing of printed matter and printed materials, machines for use with industrial printing machines for automatically changing, bending and punching printing plates and flexographic printing plates, cleaning machines for cleaning printing rollers in industrial printing machines, machine-operated platforms for storing and adjusting printing rollers used in industrial printing machines, size-adjustment cutting machine tools and machine tools for adjusting registers and passers, all for use with industrial printing machines; machine tools for adjusting web tension in industrial printing machines, air filters for mechanical purposes being parts of machines and engines of machines. centrifugal and cyclone separators for separating dust, particles in air and fibres in machines and spaces equipped with machines

CLASS 35: Advertising services and business administration; arranging of buying and selling contracts for third parties being the arranging of contracts, for others, in relation to the buying and selling of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; arranging of contracts, for others, for the buying and selling of installations, equipment, apparatus, filters, separators, suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; arranging of buying and selling contracts for third parties being the arranging of contracts, for others, for the buying and selling of ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; arranging of contracts, for others, for the buying and selling of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; arranging of contracts, for others, for the buying and selling of machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; arranging of buying and selling contracts for third parties being the arranging of contracts, for others, for the buying and selling of machines for applying product security means, identification features, security features, security labels and components therefor; arranging of buying and selling contracts for third parties being the arranging of contracts, for others, for the buying and selling of machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; sales promotion for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; sales promotion for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation

cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; sales promotion for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; sales promotion for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; sales promotion for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; sales promotion for machines for applying product security means, identification features, security features, security labels and components therefor; sales promotion for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; sales promotion for product security means, identification features, security features, security labels, securities, banknotes and components therefor; professional business consultancy, for others in the field of sales methods, sales management, and sales improvement related to the sale of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; professional business consultancy, for others in the field of sales methods, sales management, and sales improvement related to the sale of installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; professional business consultancy within the framework of the sale of goods, in particular the sale of ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; professional business consultancy within the framework of the sale of goods, in particular the sale of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; professional business consultancy, for others in the field of sales methods, sales management, and sales improvement related to the sale of machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; professional business consultancy, for others in the field of sales methods, sales management, and sales improvement related to the sale of machines for

applying product security means, identification features, security features, security labels and components therefor; professional business consultancy in the context of the sale of goods, in particular the sale of machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisation consultancy, professional business consultancy, business management information in relation to pre-press printing, data preparation, including continuous data preparation, variable data printing, including from databases, printing of printed matter, further processing of printed matter, production control, production planning, interfaces, data transfer and in relation to devices for transport and storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; business organisation consultancy, professional business consultancy, business management information in relation to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls being parts or fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; business organisation consultancy, professional business consultancy, business management information relating to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus, being parts or accessories for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; business organisation consultancy, professional business consultancy, business management information relating to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus being parts or accessories for air-technology installations, air-technology equipment, air conditioning, heating, refrigerating, aeration and de-aeration, humidifying and dehumidifying installations and equipment, air treatment installations, air conveying devices, in particular fans, blowers and compressors, air heaters, air coolers, air filters and nozzle chambers for humidification; business organisation consultancy, professional business consultancy,

business management information relating to electronic regulating equipment, control equipment, monitoring equipment, quality control equipment, production control equipment and temperature monitoring equipment being parts or accessories for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas equipment; business organisation consultancy, professional business consultancy, business management information relating to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus being parts or accessories for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisation consultancy, professional business consultancy, business management information relating to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus and production control apparatus being parts or accessories of and for product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisation consultancy, professional business consultancy, business management information in relation to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; business organisation consultancy, professional business consultancy, business management information relating to electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment for subassemblies and parts for installations, equipment, apparatus, filters, separators, suction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; business organisation consultancy, professional business consultancy, business management information relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts of varnishing machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stacking machines, machines for handling sheets, food dispensing machines, apparatus for the surface treatment of metals, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, tinplate printing machines, stamping machines, hot-embossing equipment, thermal transfer equipment, photographic printing machines, labelling machines, engraving machines, inkjet printing equipment, laser marking equipment and laser printing equipment; business organisation consultancy, professional business consultancy, business management information with regard to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy

accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; business organisation consultancy, professional business consultancy, business management information relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset rotary printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, for machines for the graphics industry, and for machines for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; business organisation consultancy, professional business consultancy, business management information in relation to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for ink slides, ink rollers, damping rollers, register adjustment devices, devices for storing and adjusting rollers in inking apparatus or damping units and cylinders, devices for cleaning rollers in inking apparatus or damping units and cylinders, cutting equipment and cutting cylinders, registers and register marks, web tension settings and for quality control for and in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; business organisation consultancy, professional business consultancy, business management information relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for devices for the changing and transporting and storage of printing plates, for inking apparatus and damping units and printer engine cylinders in printer engines, and for devices for tempering for inking apparatus or damping units and cylinders in printer engines and inkjet printing heads and laser systems; business organisation consultancy, professional business consultancy, business management information in relation to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; business organisation consultancy, professional business consultancy, business management information relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment, for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; business organisation consultancy, professional business consultancy, business management information relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for air-technology installations, air-technology equipment, air conditioning, heating, refrigerating, aeration and de-aeration, humidifying and dehumidifying installations and equipment, air treatment installations, air conveying devices, in particular fans, blowers and compressors, air heaters, air coolers, air filters and nozzle chambers for

humidification; business organisation consultancy, professional business consultancy, business management information with regard to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; business organisation consultancy, professional business consultancy, business management information relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisation consultancy, professional business consultancy, business management information relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for applying product security means, identification features, security features, security labels and components therefor; business organisation consultancy, professional business consultancy, business management information relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisation consultancy, professional business consultancy, business management information relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for product security means, identification features, security features, security labels, securities, banknotes and components therefor; advertising services in relation to printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; advertising services for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; advertising services for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; advertising services for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; advertising services for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; advertising services for machines for applying product security means, identification features, security features, security labels and components therefor; advertising services for machines for packaging product security means, identification features, security features, security labels, securities,

banknotes and components therefor; advertising services for product security means, identification features, security features, security labels, securities, banknotes and components therefor; computerized file management; arranging of buying and selling contracts for third parties being the arranging of contracts, for others, for the buying and selling of voice command control equipment in the fields of printing machines, offset printing machines, web-fed rotary printing machines, sheet-fed rotary printing machines, silk-screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, ink-jet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, varnishing machines, packing machines, coating machines, digital printing and marking machines, machines for labelling, engraving machines; provision of an online marketplace for buyers and sellers of goods and services; providing an online marketplace for buyers and sellers of software and services; providing an online marketplace for buyers and sellers of goods and services of webshop providers; development of business concepts for the graphics industry, namely, development of marketing concepts for printing and printing pre-stage operations; provision of an online marketplace for buyers and sellers of goods and services; providing of an online marketplace for buyers and sellers of software, providing of an online marketplace for buyers and sellers of software services; marketing research; computerized database and file management; data processing services; presentation of goods and services, namely, providing television home shopping services in the field of general consumer merchandise

CLASS 37: Installation, maintenance and repair of machines, namely, printing machines for industrial use, industrial offset printing machines, industrial rotary web fed printing machines, industrial rotary sheet fed printing machines, industrial silk screen printing machines, industrial paper pad printing machines, flexographic printing machines, industrial gravure printing machines, printing machines for use on sheet metal, industrial printing machines for use on cans, industrial printing machines for use on hollow bodies, industrial printing machines for corrugated cardboard, industrial inkjet printing machines and apparatus, industrial laser marking machines, industrial laser printing machines and apparatus, industrial electromechanical marking machines, industrial lacquering machines being coating machines and lines for web products, packaging machines, industrial paper coating machines, in particular working rotationally, for web-type and separate materials, industrial digital printing and marking machines based on electrophotography, magnetography, xerography, ink jet, industrial imprinting and laser marking machines, in particular for the graphics sector, the packaging sector and data processing, automatic industrial labeling machines for applying labels to containers and bottles, engraving machines, stacking machines, foodstuff distribution machines, namely packaging machines for food, grinding machines for the surface treatment of metals, automatic hot stamping machines, thermal transfer machines in the nature of heat transfer presses, rotary die-cutting machines for punching of printed matter or paper or plastics, flat-bed die cutting machines for stamping printed matter or paper or plastics, cardboard and paper carton bonding machines, industrial machines and machine tools for use with industrial printing machines used during the printing process of printed matter and printing materials, namely, for cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, perforating, gluing, stapling, tying, bundling and bookbinding the printed matter and printing materials, printing plates, flexographic printing plates, machine-operated platforms for use during the printing process for storing paper, rolls of paper, printing materials, rolls of printing materials and printing plates in industrial printing machines, conveyors being machines and conveyor belts, and conveyors being machines and conveyor belts for use with industrial printing machines, for use in conveying printed matter, printing materials and rolls of printing materials, for use with industrial engraving, packaging, marking, imprinting and packaging machines, for use with printing plates for industrial printing machines, and for use with industrial printing machines used during the printing processing of printed matter and printed materials, machines for use with industrial printing machines for automatically changing, bending and punching printing plates and flexographic printing plates, cleaning machines

for cleaning printing rollers in industrial printing machines, machine-operated platforms for storing and adjusting printing rollers used in industrial printing machines, size-adjustment cutting machine tools and machine tools for adjusting registers and passers, all for use with industrial printing machines; machine tools for adjusting web tension in industrial printing machines, air filters for mechanical purposes being parts of machines and engines of machines. centrifugal and cyclone separators for separating dust, particles in air and fibres in machines and spaces equipped with machines

CLASS 38: Providing of access to databases on computer networks; electronic and digital transmission of data on computer networks; digital transmission of data; digital data transmission services; communication via computer terminals, by digital transmission; digital transmission of voice; video transmission via digital networks; digital transmission of data via the internet; digital network telecommunications services; digital transmission services for audio and video data; information transmission services via digital networks; interactive transmission of video over digital networks; delivery of digital audio and video by telecommunications networks; provision of communications facilities for the interchange of digital data, namely, providing internet chat rooms; digital audio broadcasting; transmission of digital audio and video broadcasts over a global computer network; wireless digital messaging services; transmission of digital information; transmission of digital files; wireless transfer of data via digital mobile telephony; communications via analogue and digital computer terminals; delivery of digital music by telecommunications networks; communication via computer terminals, by digital transmission or by satellite; interactive broadcasting and communications services, namely, wireless broadcasting; transmission of vision via interactive multimedia networks; transmission of sound via interactive multimedia networks; interactive communications services by means of computer, namely, electronic transmission of information stored in a database via interactively communicating computer systems; providing an online interactive bulletin board in the nature of electronic bulletin board services; providing telecommunication access services for the transmission of interactive entertainment software; telecommunication services provided via internet platforms and portals, namely, providing internet access; telecommunication services provided via platforms and portals on the internet and other media, namely, providing internet access; telecommunication gateway services; telecommunication and communication services, namely, personal communication services; communication by computer and computer intercommunication, namely, electronic transmission of data and documentation via the internet or other electronic communications networks; providing telecommunication access to electronic communications networks with means of identifying, locating, grouping, distributing, and managing data and links to third-party computer servers, computer processors and computer users; providing internet access to social networking websites

CLASS 41: Providing of online non-downloadable electronic publications, namely, books in the field of security printing and publication of printed matter in electronic form in the field of security printing; digital video, audio and multimedia entertainment publishing services; organizing and conducting live musical performances; arranging and conducting of commercial, trade and business conferences in the field of security printing

CLASS 42: Engineering design services; information technology consultancy services relating to installation, maintenance, and repair of computer software; product testing and quality control for others; [scientific and technological services, namely, scientific research, analysis, and testing in the fields of printing and engraving machines;] computer technology consultancy, software consultancy, computer system design and development of software in relation to voice controls for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, in particular with rotational operation

for web-form and isolated materials, digital printing and marking machines on the basis of electrophotography, magnetography, xerography, inkjet, exposure apparatus, being parts of printing machines for contact printing or creating circuit and print templates, numbering, coding, imprinting and marking machines, in particular for the graphics sector, the packaging sector and data processing, labelling machines, engraving machines; computer technology consultancy, software consultancy, computer system design and development of software in relation to planning of printing houses and installations for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; computer technology consultancy in relation to printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor and development and updating of software for the aforesaid machines; technological engineering consultancy with regard to installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; technological engineering consultancy with regard to ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; technological engineering consultancy with regard to drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; technological engineering consultancy relating to machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; technological engineering consultancy relating to machines for applying product security means, identification features, security features, security labels and components therefor; technological engineering consultancy relating to machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; technological engineering consultancy regarding product security means, authentication features, security features, security labels and components thereof; technological engineering consultancy in relation to pre-press printing, data preparation, including continuous data preparation, variable data printing, including from databases, printing of printed matter, further processing of printed matter, production control, production planning, management information, for interfaces and for data transfer, for devices for transport and storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet

printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; creation and updating of software for the aforesaid processes; technological engineering consultancy in relation to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls being parts or fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; creation and updating of software for the aforesaid goods; technological engineering consultancy with regard to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, being parts or accessories for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; technological engineering consultancy with regard to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, being parts or accessories for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; technological engineering consultancy with regard to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, being parts or accessories for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; technological engineering consultancy relating to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls, being parts or accessories for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; technological engineering consultancy relating to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls, being parts or accessories for machines for applying product security means, identification features, security features, security labels and components therefor; technological engineering consultancy relating to

electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls, being parts or accessories for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; technological engineering consultancy relating to electronic regulating apparatus, control apparatus, monitoring devices, quality control devices, production control apparatus, temperature monitoring apparatus and web tension controls for product security, identifying marks, security marks, security labels, securities, banknotes and component parts thereof; technological engineering consultancy in relation to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; creating and updating of software for the aforesaid goods; technological engineering consultancy with regard to electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; technological engineering consultancy with regard to electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; technological engineering consultancy with regard to electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; technological engineering consultancy relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; technological engineering consultancy relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; technological engineering consultancy relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; technological engineering consultancy relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment of sub-assemblies; technological engineering consultancy

regarding remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for ink levers, ink rollers, damping rollers, register adjusting devices, devices for the storage and adjustment of rollers in inking apparatus or damping units and cylinders, devices for the cleaning of rollers in inking apparatus or damping units and cylinders and inkjet print heads and laser systems, cutting equipment and cutting cylinders, registers and register marks, web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; creation and updating of software for the aforesaid goods; technological engineering consultancy regarding remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for devices for the changing and transporting and storage of printing plates, inking apparatus and damping units and printer cylinders in printers, and devices for tempering for inking apparatus or damping units and cylinders and ink-jet print heads and laser systems in printers; creation and updating of software for the aforesaid goods; technological engineering consultancy in relation to consumables used during the operation of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; technological engineering consultancy relating to consumables during the operation of installations, equipment, apparatus, filters, separators, suction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; technological engineering consultancy with regard to consumables during the operation of ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; technological engineering consultancy with regard to consumables during the operation of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; technological engineering consultancy relating to consumables required during the operation of machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; technological engineering consultancy relating to consumables required during the operation of machines for

applying product security means, identification features, security features, security labels and components therefor; technological engineering consultancy relating to consumables required during the operation of machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; technological engineering consultancy in relation to material for the maintenance of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; technological engineering consultancy with regard to materials for the maintenance of installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; technological engineering consultancy with regard to materials for the maintenance of ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; technological engineering consultancy with regard to materials for the maintenance of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; technological engineering consultancy relating to materials for the maintenance of machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; technological engineering consultancy relating to materials for the maintenance of machines for applying product security means, identification features, security features, security labels and components therefor; technological engineering consultancy relating to materials for the maintenance of machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; construction drafting, in particular relating to metal structures; technical planning, namely, engineering services; conducting technical project studies, namely, engineering services; technical scientific research in the field of manufacturing processes; development, creation and maintenance of software for apparatus for the payment of goods and services and bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and coins and tokens of value and cashless payment by debit, credit and loyalty cards, in particular contactless and contact cards and near field communication (NFC) apparatus, including in particular with return of change; development, creation and maintenance of software for money-dispensing apparatus; development, creation and maintenance of software for money-receiving apparatus; development, creation and maintenance of software for money-dispensing and -receiving apparatus; development, creation and maintenance of software for vending machines; development, creation and maintenance of software for accessories for the aforesaid apparatus, in particular boxes for receiving payment means, in particular banknotes and coins and vouchers; technological process analysis, namely, analyzing technology requirements and developing recommendations for the computer

software and systems and other technology needed to meet those requirements, in the field of processes for receiving and processing payments for goods and services and bills; development, programming, installation and maintenance of software, and consultancy relating to the use of software; rental of software for database management; developing of technical concepts being software design and development, and technological software consultancy relating to the securing of data against counterfeiting, forgery and unauthorised spying-out in electronic communications systems; services of a certifying trust center authority, namely, computer security services in the nature of providing authentication, issuance, validation and revocation of digital keys, encryption algorithms and digital signatures; digital electronic storage of data on computer networks; configuration of telecommunications hardware through software and remote maintenance; electronic data back-up services; configuration of software being computer network configuration services for telecommunications terminals; quality control for others and scientific research and engineering consultancy in relation to pre-press printing, data preparation, including continuous data preparation, variable data printing, including from databases, printing of printed matter, further processing of printed matter, production control, production planning, interfaces, data transfer and in relation to devices for transport and storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; quality control for others, namely, consultancy in the field of quality control in relation to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls being parts or fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; quality control for others, namely, consultancy in the field of quality control relating to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus, being parts or accessories for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; quality control for others, namely, consultancy in the field of quality control relating to electronic regulating

apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus being parts or accessories for air-technology installations, air-technology equipment, air conditioning, heating, refrigerating, aeration and de-aeration, humidifying and dehumidifying installations and equipment, air treatment installations, air conveying devices, in particular fans, blowers and compressors, air heaters, air coolers, air filters and nozzle chambers for humidification; quality control for others, namely, consultancy in the field of quality control relating to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus, being parts or accessories for drying ovens, drying apparatus, heat stores, heat exchangers and parts therefor, in particular catalytically active coatings, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purification installations, thermal energy stores, solar collectors, solar modules for heat generation, regulation and safety accessories for gas appliances; quality control for others, namely, consultancy in the field of quality control relating to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus being parts or accessories for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; quality control for others, namely, consultancy in the field of quality control relating to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus being parts or accessories for machines for applying product security means, identification features, security features, security labels and components therefor; quality control for others, namely, consultancy in the field of quality control in relation to electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus, being parts or fittings for machines for packaging product security means, authentication features, security features, security labels, securities, banknotes and components therefor; quality control for others, namely, consultancy in the field of quality control relating to electronic regulating apparatus, control apparatus, monitoring devices, quality control devices, production control apparatus and temperature monitoring apparatus for product security, identifying marks, security marks, security labels, securities, banknotes and component parts thereof; quality control for others, namely, consultancy in the field of quality control in relation to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; quality control for others, namely, consultancy in the field of quality control relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts of installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; quality control for others, namely, consultancy in the field of quality control relating to electric and electronic measuring and testing apparatus and instruments for adjustment

and pre-adjustment for subassemblies and parts of air-technology installations, air-technology equipment, air conditioning, heating, refrigerating, aeration and de-aeration, humidifying and dehumidifying installations and equipment, air treatment installations, air conveying devices, in particular fans, blowers and compressors, air heaters, air coolers, air filters and nozzle chambers for humidification; quality control for others, namely, consultancy in the field of quality control relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; quality control for others, namely, consultancy in the field of quality control relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; quality control for others, namely, consultancy in the field of quality control relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and components therefor; quality control for others, namely, consultancy in the field of quality control relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, authentication features, security features, security labels, securities, banknotes and components therefor; quality control for others, namely, consultancy in the field of quality control relating to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts of and for product security means, identification features, security features, security labels and components therefor; quality control for others, namely, consultancy in the field of quality control relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for ink levers, ink rollers, damping rollers, register adjusting devices, devices for storing and adjusting rollers in inking apparatus or damping units and cylinders, devices for cleaning rollers in inking apparatus or damping units and cylinders, cutting equipment and cutting cylinders, registers and register marks, web tension settings and for quality control for and in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; quality control for others, namely, consultancy in the field of quality control regarding remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for devices for the changing and transport and storage of printing plates, inking apparatus and damping units and printer cylinders in printers and devices for tempering for inking apparatus or damping units and cylinders in printers and inkjet print heads and laser systems; quality control for others, namely, consultancy in the field of quality control in relation to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and

apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; quality control for others, namely, consultancy in the field of quality control relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; quality control for others, namely, consultancy in the field of quality control relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for ventilation installations, ventilation equipment, air conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and equipment, air treatment installations, air conveying devices, in particular ventilators, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; quality control for others, namely, consultancy in the field of quality control relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas equipment; quality control for others, namely, consultancy in the field of quality control relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; quality control for others, namely, consultancy in the field of quality control relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for applying product security means, identification features, security features, security labels and components therefor; quality control for others, namely, consultancy in the field of quality control relating to remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; PRIORITY DATE OF 06-27-2023 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1781519 DATED 12-11-2023, EXPIRES 12-11-2033

SER. NO. 79-392,043, FILED 12-11-2023

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
