

United States of America

United States Patent and Trademark Office

POWER.PEOPLE.POTENTIAL

Reg. No. 7,600,057

Registered Dec. 10, 2024

Corrected Jul. 15, 2025

Int. Cl.: 37, 39, 41, 42

Service Mark

Principal Register

Shermco Industries, Inc. (TEXAS CORPORATION)
2425 E Pioneer Drive
Irving, TEXAS 75061

CLASS 37: Providing cleaning of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus; installation, maintenance and repair of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus; repair, maintenance and modification of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus; remanufacture of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus to the order and /or specification of others; restoration in the field of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus; machinery retrofit and conversion services in the field of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus

FIRST USE 09-06-2022 ; IN COMMERCE 09-06-2022

CLASS 39: Physical storage of critical components to electrical power systems, namely, backup generators, motors, transformers, and switch gears

FIRST USE 09-06-2022 ; IN COMMERCE 09-06-2022

CLASS 41: Educational services, namely, conducting classes, courses, programs, and presentations, in the field of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus; educational services, namely, providing training of engineers and technicians for certification in the field of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus

FIRST USE 09-06-2022 ; IN COMMERCE 09-06-2022

CLASS 42: Testing, analysis, and evaluation of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus to assure compliance with electrical industry standards; consulting services in the fields of energy measurement to improve energy efficiency of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus; technical writing in the field of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus; scientific study and research, namely, engineering studies in the field of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus; consulting services in the fields of forensic science, namely, electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus; data-acquisition and collection for calibration and coordinate-measurement purposes in the field of electrical power systems comprised of apparatus for electrical generation,

Coke Moya-Snead

Acting Director of the United States Patent and Trademark Office

distribution, supply, control, and rotating electrical apparatus; inspection of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus for quality control purposes; scientific research of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software in the field of electrical power systems comprised of apparatus for electrical generation, distribution, supply, control, and rotating electrical apparatus

FIRST USE 09-06-2022 ; IN COMMERCE 09-06-2022

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

No claim is made to the exclusive right to use the following apart from the mark as shown: "POWER"

SER. NO. 97-359,525, FILED 04-12-2022

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
