United States Patent and Trademark Office

Reg. No. 7,318,270

Registered Mar. 05, 2024

Corrected Jul. 15, 2025

Int. Cl.: 9, 35, 42

Service Mark

Trademark

Principal Register

MINTECH CO.,LTD (REPUBLIC OF KOREA CORPORATION)

263-1, Techno 2-ro, Yuseong-gu

Daejeon

REPUBLIC OF KOREA

CLASS 9: Charging/discharging machines for high capacity batteries, namely, battery chargers and electric discharge tubes, other than for lighting; charging appliances for rechargeable equipment; battery charge devices; apparatus for activating batteries, namely, battery chargers and battery jump starters; battery safety tester; impedance testers in the nature of battery testers for testing battery performance, lifetime, safety, and capacity; insulation testers in the nature of insulation resistance meters; AC power supplies; DC power supplies; lithium secondary battery pack; batteries; electric capacitors; electricity storage apparatus, namely, electric storage batteries; lithium secondary batteries; wireless chargers; cooling pads especially adapted for decreasing the heat generation of batteries; battery separators; pouches specially adapted for batteries; [downloadable computer software for testing and analyzing battery performance, lifetime, safety, and capacity; downloadable artificial intelligence software for testing and analyzing battery performance, lifetime, safety, and capacity; downloadable computer software applications for testing and analyzing battery performance, lifetime, safety, and capacity;] OBD (On-Board Diagnosis) apparatus for automobiles, namely, battery testers for testing battery performance, lifetime, safety, and capacity

CLASS 35: Wholesale store service featuring electric charging/discharging machines; wholesale store service featuring impedance testers; wholesale store service featuring apparatus for activating batteries; wholesale store service featuring AC power supplies; wholesale store service featuring DC power supplies; [wholesale store service featuring software;] wholesale store service featuring secondary cells; wholesale store service featuring rechargeable batteries; wholesale store service featuring negative active material for secondary batteries; wholesale store service featuring positive active material for secondary batteries; wholesale store service featuring battery separators; wholesale store service featuring battery electrolytes; wholesale store service featuring lithium metal; advertising; marketing

Coke Mogn Smeat

Acting Director of the United States Patent and Trademark Office

CLASS 42: Chemical, electrical, and product research services in the field of batteries; chemical and electrical analysis and testing in the field of batteries; batteries inspection; diagnosis testing services relating to the condition of batteries; diagnosis testing services relating to the condition of fuel cells; quality checking and testing in the nature of quality control for others and product quality evaluation; computer and battery component testing; product testing; chemical and electrical analysis and testing in the field of energy storage apparatus; chemical and electrical analysis and testing in the field of fuel cells; fuel cell inspection; chemical and electrical analysis and testing in the field of electrochemical devices; monitoring of battery charging status being quality control services for others; testing of chemicals; chemical engineering; chemical research service; [design and development of energy management software;] design of new products; design of battery chargers; chemical analytical examination in the nature of chemical analysis; [software design and development; providing platform as a service (PaaS) featuring computer software platforms for testing and analyzing battery performance, lifetime, safety, and capacity; platform as a service (PaaS) featuring computer software platforms for testing and analyzing battery performance, lifetime, safety, and capacity; development of artificial intelligence software; development of computer software for big data processing]

The color(s) red, bright yellow is/are claimed as a feature of the mark.

The mark consists of an incomplete, hollow red circle with bright yellow circuits on it, and a small, filled red circle appearing to the upper right of the incomplete circle.

PRIORITY DATE OF 01-12-2022 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1693454 DATED 07-08-2022,
EXPIRES 07-08-2032

SER. NO. 79-354,203, FILED 07-08-2022

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
